Certificate in Applied Management Accounting for Decision Making ................................................................. 341

Department of Accounting ........................................................................................................................................... 335

Graduate Certificate in Accounting Ethics and Auditing .................................................................................................. 337

Major in Business Administration, Accounting Concentration ...................................................................................... 338

Certificate in Applied Management Accounting for Decision Making ........................................................................... 341
Certificate in Financial Accounting and Reporting .......................................................... 341
Master of Accountancy, Plan C (M.Acc.) ................................................................. 341
Master of Accountancy, Plan C, Data Analytics and Systems Specialization .... 342
Master of Accountancy, Plan C, Financial Analysis, Auditing, and Reporting Specialization 342
Master of Accountancy, Plan C, Taxation Specialization ........................................ 342
Business Administration ......................................................................................... 343
Major in Business Administration ........................................................................ 343
Minor in Business Administration ....................................................................... 345
Certificate in International Business .................................................................... 346
Master of Business Administration ....................................................................... 346
Master of Business Administration, Early Career Track Specialization ............ 347
Master of Business Administration, Global Social and Sustainable Enterprise Specialization 348
Master of Business Administration, Marketing Data Analytics Specialization .... 348
Department of Computer Information Systems ...................................................... 349
Major in Business Administration, Information Systems Concentration ........ 353
Certificate in Information Technology for Business Professionals ................. 356
Graduate Certificate in Business Analytics and Accounting Systems .......... 356
Graduate Certificate in Business Information Systems ..................................... 356
Graduate Certificate in Business Intelligence .................................................... 356
Graduate Certificate in Information Technology Project Management .......... 357
Master of Computer Information Systems, Plan C (M.C.I.S.) ......................... 357
Master of Science in Business Administration, Plan A, Computer Information Systems Specialization 357
Master of Science in Business Administration, Plan B, Computer Information Systems Specialization 358
Department of Finance and Real Estate ................................................................ 358
Major in Business Administration, Finance Concentration ............................ 363
Major in Business Administration, Financial Planning Concentration .......... 368
Major in Business Administration, Real Estate Concentration ....................... 371
Minor in Real Estate ......................................................................................... 374
Graduate Certificate in Applied Finance ............................................................. 375
Master of Finance, Plan C ................................................................................ 375
Master of Science in Business Administration, Financial Risk Management Specialization 375
Department of Management ............................................................................... 376
Major in Business Administration, Human Resource Management Concentration 380
Major in Business Administration, Organization and Innovation Management Concentration 383
Major in Business Administration, Supply Chain Management Concentration 387
Minor in Entrepreneurship and Innovation ....................................................... 390
Certificate in Entrepreneurship .......................................................................... 390
Certificate in Leadership in Organizations ........................................................ 391
Certificate in Managing Human Resources ..................................................... 391
Certificate in Operations, Logistics and Supply Management ...................... 391
Master of Management Practice, Plan C (M.M.P.) ............................................ 391
Department of Marketing .................................................................................. 391
Walter Scott, Jr. College of Engineering

Major in Business Administration, Marketing Concentration .......................................................... 395
Certificate in Business-To-Business Selling .......................................................................................... 398
Certificate in Customer Experience Management .................................................................................. 399
Certificate in Market Research and Data Analytics .............................................................................. 399
Certificate in Marketing Communication and Branding ...................................................................... 399
Certificate in Strategic Marketing ........................................................................................................ 399
Graduate Certificate in Marketing Management .................................................................................. 399

Graduate Certificate in Power and Energy ............................................................................................. 400

Department of Electrical and Computer Engineering ........................................................................ 402
Major in Electrical Engineering ............................................................................................................ 407
Major in Computer Engineering ............................................................................................................ 407

Department of Civil and Environmental Engineering ........................................................................ 409
Major in Civil Engineering .................................................................................................................... 410
Major in Environmental Engineering .................................................................................................. 410
Minor in Environmental Engineering .................................................................................................. 410

Department of Electrical and Computer Engineering ........................................................................ 412
Major in Electrical Engineering, Electrical Engineering Concentration .......................................... 412
Major in Electrical Engineering, Lasers and Optical Engineering Concentration ................................ 412
Graduate Certificate in Computer Systems Engineering ..................................................................... 415
Graduate Certificate in Embedded Systems ........................................................................................... 416
Graduate Certificate in Power and Energy ............................................................................................. 416

Master of Science in Computer Engineering, Plan A ........................................................................... 417
Master of Science in Computer Engineering, Plan B ........................................................................... 418
Master of Science in Computer Engineering, Plan C, Computer Engineering Specialization ........... 418

Master of Science in Electrical Engineering, Plan A ........................................................................... 419
Master of Science in Electrical Engineering, Plan B ........................................................................... 419
Master of Science in Electrical Engineering, Plan C, Computer Engineering Specialization ........... 419

Master of Engineering, Plan C, Computer Engineering Specialization .............................................. 420

Major in Business Administration, Marketing Concentration .......................................................... 422
Certificate in Market Research and Data Analytics .............................................................................. 423
Certificate in Strategic Marketing ........................................................................................................ 424
Graduate Certificate in Marketing Management .................................................................................. 424
Certificate in Business-To-Business Selling .......................................................................................... 425

Department of Chemical and Biological Engineering ........................................................................ 426
Major in Chemical and Biological Engineering .................................................................................... 427

Major in Chemical and Biological Engineering .................................................................................... 428

Department of Civil and Environmental Engineering ........................................................................ 429
Major in Civil Engineering .................................................................................................................... 430
Major in Environmental Engineering .................................................................................................. 430
Minor in Environmental Engineering .................................................................................................. 430

Major in Environmental Engineering, Ecological Engineering Concentration ................................... 431
Major in Environmental Engineering, Environmental Engineering Concentration .......................... 431
Master of Engineering, Plan C, Civil Engineering Specialization ......................................................... 431

Major in Environmental Engineering, Environmental Engineering Concentration .......................... 433

Department of Electrical and Computer Engineering ........................................................................ 434
Major in Computer Engineering ............................................................................................................ 434
Major in Electrical Engineering ............................................................................................................ 435

Master of Science in Computer Engineering, Plan A ........................................................................... 436
Master of Science in Computer Engineering, Plan B ........................................................................... 436
Master of Science in Electrical Engineering, Plan A ........................................................................... 437
Master of Science in Electrical Engineering, Plan B ........................................................................... 437
Master of Engineering, Plan C, Computer Engineering Specialization .............................................. 437
Master of Engineering, Plan C, Electrical Engineering Specialization ................................................................. 481
Ph.D. in Computer Engineering ........................................................................................................................................ 482
Ph.D. in Electrical Engineering .......................................................................................................................................... 482
Department of Mechanical Engineering .......................................................................................................................... 483
Major in Mechanical Engineering .................................................................................................................................... 493
Master of Engineering, Plan C, Mechanical Engineering Specialization ................................................................. 497
Master of Science in Mechanical Engineering, Plan A ................................................................................................. 498
Master of Science in Mechanical Engineering, Plan B ................................................................................................. 498
Ph.D. in Mechanical Engineering ....................................................................................................................................... 498
School of Biomedical Engineering ..................................................................................................................................... 499
Dual Degree Program: Biomedical Engineering combined with Chemical and Biological Engineering ....................... 505
Dual Degree Program: Biomedical Engineering combined with Electrical Engineering, Electrical Engineering Concentration .......................................................................................................................... 511
Dual Degree Program: Biomedical Engineering combined with Electrical Engineering, Lasers and Optical Engineering Concentration .................................................................................................. 517
Dual Degree Program: Biomedical Engineering combined with Mechanical Engineering .............................................. 521
Master of Science in Bioengineering ................................................................................................................................. 525
Ph.D in Bioengineering ....................................................................................................................................................... 525
College of Health and Human Sciences ............................................................................................................................. 526
Certificate in Design Thinking .............................................................................................................................................. 527
Department of Construction Management .......................................................................................................................... 527
Major in Construction Management ..................................................................................................................................... 532
Master of Science in Construction Management, Plan A ............................................................................................... 538
Master of Science in Construction Management, Plan B ............................................................................................... 538
Minor in Construction Management ..................................................................................................................................... 538
Department of Design and Merchandising .......................................................................................................................... 539
Major in Apparel and Merchandising ................................................................................................................................. 549
Major in Apparel and Merchandising, Apparel Design and Production Concentration ...................................................... 550
Major in Apparel and Merchandising, Merchandising Concentration .................................................................................. 555
Major in Apparel and Merchandising, Product Development Concentration ........................................................................ 559
Minor in Merchandising ...................................................................................................................................................... 563
Major in Interior Architecture and Design .......................................................................................................................... 563
Major in Interior Design ....................................................................................................................................................... 568
Graduate Certificate in Evidence-Based Design .................................................................................................................. 568
Master of Science in Design and Merchandising, Plan A ................................................................................................. 568
Master of Science in Design and Merchandising, Plan B, Apparel and Merchandising Specialization ..................................... 569
Master of Science in Design and Merchandising, Plan A, Interior Design Specialization ................................................... 569
Master of Science in Design and Merchandising, Plan B, Interior Design Specialization ................................................... 570
School of Education .............................................................................................................................................................. 570
Major in Family and Consumer Sciences .......................................................................................................................... 596
Major in Family and Consumer Sciences, Family and Consumer Sciences Concentration .................................................. 596
Major in Family and Consumer Sciences, Family and Consumer Sciences Education Concentration .................................. 600
Graduate Certificate in Adult Basic Education .................................................................................................................. 603
Graduate Certificate in Campus Crisis Management ......................................................................................................... 603

WELCOME TO CSU

A Message from President Tony Frank

One of the hallmarks of an educated person is the recognition of how much we don’t know—and how often we can be surprised by the important questions we hadn’t thought to ask.

Colorado State University students can minimize the possibility of surprises related to University policies, expectations, and resources by taking the time to become familiar with this General Catalog. As the encapsulation of our academic mission and program, the General Catalog should be considered an essential roadmap for navigating through the many timelines, decisions, and choices involved with earning your degree, and it often will be the best place to find the answer to questions about University operations and protocols.

As an inclusive community of scholars, we are all here—as students, faculty, and staff—because we value learning and understand that earning an academic degree requires considerable work, sacrifice, and determination. Throughout this challenging, life-changing process, I encourage you to seek out and take full advantage of all the resources available to support your success. Meet with your professors, don’t be afraid to ask for help or assistance, and regularly consult with both your advisor and this catalog to ensure you’re on track.

Armed with spirit, commitment, and information, your academic goals are well within your reach. Best wishes for a successful CSU experience!

Dr. Tony Frank
President

University Mission, Values, and Guiding Principles

University Welcome Center

University Mission, Values, and Guiding Principles

Mission

Inspired by its land-grant heritage, Colorado State University is committed to excellence, setting the standard for public research universities in teaching, research, service and extension for the benefit of the citizens of Colorado, the United States and the world.

CSU has further adopted the following values:

Values

• Be accountable
• Promote civic responsibility
• Employ a customer focus
• Promote freedom of expression
• Demonstrate inclusiveness and diversity
• Encourage and reward innovation
• Act with integrity and mutual respect
• Provide opportunity and access
• Support excellence in teaching and research

Guiding Principles

CSU is a community dedicated to higher learning in which all members share in pursuit of knowledge, development of students, and protection of essential conditions conducive for learning. These protections are presented in the form of university policies, applicable federal and state laws, and statements of fundamental rights and responsibilities, which govern both the academic setting and the university community as a whole. Some of the policies and expectations described in this Catalog are among those most relevant to students, faculty, and staff; others are focused specifically on the student population but are not intended to serve as an exhaustive list of all policies that pertain to students or life on
Campus. A complete guide to CSU policies is available online through the Office of Policy and Compliance (http://opc.prep.colostate.edu).

CSU expects students to maintain standards of personal integrity that are in harmony with the educational goals of the institution; to observe national, state, and local laws, and University regulations; and to respect the rights, privileges, and property of other people. Principles of academic honesty, respect for diversity, and pursuit of lifestyles free of alcohol and drug abuse are examples of these standards. Students are not only members of the academic community; they are, additionally, members of the larger society and thus retain the rights, protection guarantees, and responsibilities which are held by all citizens.

**Commitment to Diversity**

CSU has a unique mission in the State of Colorado. As a land grant university we are committed to a foundational principle of inclusive excellence recognizing that our institutional success depends on how well we welcome, value, and affirm all members of the CSU community. Only through the inclusion of the rich diversity of students, staff, faculty, administrators, and alumni can we truly be excellent in our pursuits.

Our inclusive excellence efforts hinge on four key ideas:

**Broad and inclusive definition of diversity.**

We recognize that to truly be inclusive we must draw attention to the depth and breadth of the diversity represented at CSU. Our definition includes age, culture, different ideas and perspectives, disability, ethnicity, first generation status, familial status, gender identity and expression, geographic background, marital status, national origin, race, religious and spiritual beliefs, sex, sexual orientation, socioeconomic status, and veteran status. We also recognize that the historical exclusion and marginalization of specific social groups must be addressed to promote equity.

**Inclusiveness and excellence are interdependent.**

We recognize that to continue to stay current in the global marketplace and stay relevant in an increasingly diverse world, we must embody inclusion. To practice inclusiveness is excellence.

**Everyone is responsible for inclusive excellence.**

All members of the campus community (administrators, faculty, staff, students, and alumni) must recognize and assume responsibility for the climate of the university. A unit or person can drive the process, but every individual at CSU assumes responsibility for positive change.

**Inclusive excellence goes beyond numbers.**

Historically, diversity has been gauged by demographics or numbers; we must move beyond solely numbers toward an inclusive community that embeds diversity throughout the institution in multiple areas including demographics, policies, and communications; curriculum, pedagogy, and student learning; recruitment, hiring and retention, evaluation and supervision.

Achieving inclusive excellence is a long-term commitment and must have a comprehensive broad approach, embedding appreciation of all members and inclusion best practices into the very fabric of CSU’s organizational culture.

**Equal Opportunity and Nondiscrimination**

Colorado State University does not discriminate on the basis of race, age, creed, color, religion, national origin or ancestry, sex, gender, disability, veteran status, genetic information, sexual orientation, gender identity or expression, or pregnancy and will not discharge or in any other manner discriminate against employees or applicants because they have inquired about, discussed, or disclosed their own pay or the pay of another employee or applicant. The University complies with Titles VI and VII of the Civil Rights Act of 1964, as amended, related Executive Orders 11246 and 11375, Title IX of the Education Amendments Act of 1972, Sections 503 and 504 of the Rehabilitation Act of 1973, Section 402 of the Vietnam Era Veterans’ Readjustment Assistance Act of 1974, as amended, the Age Discrimination in Employment Act of 1967, as amended, the Pregnancy Discrimination Act of 1978, the Americans with Disabilities Act of 1990, the Civil Rights Act of 1991, the ADA Amendments Act of 2008, the Genetic Information Nondiscrimination Act of 2008, and all civil rights laws of the State of Colorado. Accordingly, equal access and opportunity in treatment, employment, admissions, programs and activities shall be extended to all persons. The University shall promote equal opportunity and treatment in employment through a positive and continuing affirmative action program for ethnic minorities, women, persons with disabilities, and veterans. The Office of Equal Opportunity (http://oeo.colostate.edu) is located in 101 Student Services Building.

The Title IX Coordinator is the Executive Director of the Office of Support and Safety Assessment, 123 Student Services Building, Fort Collins, CO 80523-2026, (970) 491-7407.

The Section 504 and ADA Coordinator is the Associate Vice President for Human Capital, Office of Equal Opportunity, 101 Student Services Building, Fort Collins, CO 80523-0160, (970) 491-5836.

Admission of students, employment, and availability and access to CSU's programs and activities are made in accordance with these policies of nondiscrimination. Off campus householders who desire to list student accommodations with CSU must certify that they will comply with CSU's policy on nondiscrimination in student housing.

Any student or University employee who encounters acts of discrimination, either on or off campus, is urged to report such incidents to the Office of Equal Opportunity (http://oeo.colostate.edu) of CSU, located in 101 Student Services. Any person who wishes to discuss a possible discriminatory act without filing a complaint is welcome to do so.

Any of the above discriminatory acts can also be the subject of complaints to the Department of Education, Office for Civil Rights, as well as to the Office of Federal Contract Compliance Programs, Equal Employment Opportunity Commission, and the Colorado Civil Rights Division; information on filing complaints with any of these agencies is available in the Office of Equal Opportunity (http://oeo.colostate.edu).

**Freedom from Personal Abuse**

CSU acknowledges the right of all people to freedom from personal abuse. Abusive treatment of individuals on a personal or stereotyped basis prevents the attainment of CSU’s objective to create and maintain an environment that supports, nurtures, and encourages people to excel in teaching, learning, and creativity. Therefore, CSU deplores, condemns, and will act energetically to prevent all forms of personal abuse, including sexual harassment. For statements of university policy concerning discrimination, harassment, sexual harassment, and other misconduct, see the University Policies section of this Catalog.

**Principles of Community**

The Principles of Community support the Colorado State University mission and vision of access, research, teaching, service and
engagement. A collaborative and vibrant community is a foundation for learning, critical inquiry, and discovery. Therefore, each member of the CSU community has a responsibility to uphold these principles when engaging with one another and acting on behalf of the University.

Inclusion: We create and nurture inclusive environments and welcome, value and affirm all members of our community, including their various identities, skills, ideas, talents and contributions.

Integrity: We are accountable for our actions and will act ethically and honestly in all our interactions.

Respect: We honor the inherent dignity of all people within an environment where we are committed to freedom of expression, critical discourse, and the advancement of knowledge.

Service: We are responsible, individually and collectively, to give of our time, talents, and resources to promote the well-being of each other and the development of our local, regional, and global communities.

Social Justice: We have the right to be treated and the responsibility to treat others with fairness and equity, the duty to challenge prejudice, and to uphold the laws, policies and procedures that promote justice in all respects.

Strategic Plan
The Colorado State University Strategic Plan (2016-2018) is organized around five broad objectives:

1. We will champion student success.
2. We will make a global impact and translate discoveries into products of knowledge, creative artistry, and innovation.
3. CSU will engage with people and communities to solve problems, share knowledge, and support progress.
4. CSU will be a rewarding, inspiring, productive, and inclusive community for all employees — and enhance faculty as its foundation.
5. CSU will be accountable, sustainable, and responsible.

Consistent with the university’s mission statement, these broad objectives reflect our heritage commitments to teaching and learning, research and discovery, and engagement and service. The fourth section addresses our responsibility to create a university community that effectively embodies our Principles of Community. Finally, we are determined to develop financial and other resources that are critical to supporting CSU’s mission, in a transparent way consistent with a dedication to accountability.
The best address to use in your GPS is 711 Oval Drive, Fort Collins, CO 80521.

The Colorado State University Police Department
Crime Statistics—Annual Update

The following is a listing of university policies that are of particular interest to students and their families. A complete guide to University Policies is available in the online CSU Policy Library (http://policylibrary.colostate.edu).

Campus Safety and Clery Act
Consensual Relationships
FERPA (Student Privacy)
Freedom of Expression and Inquiry
Free Speech and Right to Peaceful Assembly
Hazing
Discrimination, Harassment, Sexual Assault, and Violence
Alcohol and Sexual Assault Education
Students’ Rights
Students’ Responsibilities

Emergency Notifications and Timely Warnings

The Clery Act requires the university to notify the campus community about serious threats to safety on campus. When there is an immediate threat to health and safety on or approaching the physical grounds of campus, the university will issue an emergency notification to students, faculty and staff. When appropriate, the University may choose to limit the recipients of the notification to those directly affected by the threat, and not sent campus-wide. Notifications may be made through any, a combination of, or all of the following methods:

- CSU emergency e-mail system
- Emergency text alert system
- Posting to the safety website (http://safety.colostate.edu) (http://safety.colostate.edu)
- Social media (CSUPD/Public Safety Team Facebook and Twitter, and also the main university social media platforms)
- Mass notification via recorded emergency telephone calls from police
- Emergency alert cable television system
- In-person notifications by police officers to specific audiences
- Flyers with safety information distributed to key buildings
- Outdoor digital signs located on campus
- CSU’s online newsletter, SOURCE, at SOURCE.colostate.edu
- Parent and Family online newsletter (https://parentsandfamily.colostate.edu/) and social media accounts (called Colorado State Parents & Families on Facebook)
- CSU status recorded line 970-491-7669

When a crime covered under the Clery Act has been committed on campus property, but the facts do not indicate that the issuance of an emergency notification is appropriate, then the university may determine that a timely warning notification should be issued. The purpose of a timely warning is to keep the campus community informed about safety and security issues on an ongoing basis and to aid in the prevention of similar crimes. To warrant a timely warning, the crime committed must be determined by university safety officials to constitute a serious and continuing threat to students or employees. Such a warning puts the community on alert, helps to educate students and employees about dangers on campus, and in some cases, may even lead to the apprehension of a suspect or reduction of the threat. A timely warning may also be shared if a crime occurs off-campus, on property covered by the Clery Act. Timely warnings may be issued through any of the methods listed above for emergency notifications.

Emergency email and text notification systems will be tested periodically (usually three times per year after student census), using test messages.

For more information about emergency notifications and timely warning procedures, see the Annual Fire and Safety Report (http://police.colostate.edu/clery-act).

Missing Student Notification

When a student who resides in university housing is reported missing, the University will initiate an investigation to determine whether the student is indeed missing. If there is good cause to believe the student is missing, the University may, among other measures, attempt to contact the individual or individuals designated by the student as his or her confidential emergency contacts. In the case of an unemancipated minor under the age of 18, the student’s parents or guardian may be contacted.
CSU Police will also be contacted, if they have not already been notified of the concern.

If you believe a CSU student is missing, you should immediately contact the CSU Police Department by calling (970) 491-6425. See the missing student notification procedures in the Annual Fire and Safety Report (http://police.colostate.edu/clery-act) for more information.

Registered Sex Offenders

The CSU Police Department is required to notify the CSU community about where public information regarding registered sex offenders can be obtained, according to Megan’s Law. A current listing of sex offenders is available at the Colorado Bureau of Investigation Convicted Sex Offender Site (https://www.colorado.gov/apps/cdps/sor).

CSU Police Department Services

The CSU Police Department offers additional services to the CSU community.

Consensual Relationships

CSU is committed to the principle that its personnel shall carry out their duties in an objective and ethical fashion and in an atmosphere in which conflicts of interest are identified and managed. CSU does not interfere with private choices regarding personal relationships when these relationships do not interfere with the goals and policies of CSU. However, consensual romantic or sexual relationships in which one party retains a direct supervisory or evaluative role over the other party have the potential to interfere with these goals and policies. Therefore, consistent with its commitment to objectivity and ethical behavior, CSU is required to intervene in such circumstances.

A romantic, intimate, or sexual relationship in which one individual is in a position to exercise authority over the other creates conflicts of interest and perceptions of undue advantage or disadvantage. When both parties have consented at the outset to a romantic, intimate, or sexual relationship, this consent does not remove grounds for a charge of conflict of interest, sexual harassment, or violation of applicable parts of CSU’s Code of Ethical Behavior, based upon subsequent unwelcome conduct. Pursuant to this policy, faculty members and other university employees are prohibited from entering into consensual, intimate relationships with students over whom they exercise authority. Refer to the full CSU Policy on Consensual Relationships (https://oeo.colostate.edu/consensual-relationships), along with procedures for reporting any violation of such policy.

Retaliation against persons who report concerns about consensual relationships is also prohibited and constitutes a violation of this policy.

FERPA (Student Privacy)

Family Educational Rights and Privacy Act

Students have certain rights concerning their “education records” under the Family Educational Rights and Privacy Act (FERPA), as amended, 20 U.S.C. §1232g, et seq. These include:

1. The right to inspect and review the student’s education records within 45 days of the day CSU receives the request for access.

   All enrolled and former students may have access to their education records maintained by CSU. Written requests identifying the record(s) to be inspected should be submitted to the Registrar’s Office, or, in the case of graduate studies, to the Graduate School. The CSU official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the CSU official to whom the request was submitted, that official will advise the student of the correct official to whom the request should be addressed. A student may receive one copy of each item of information contained in the education record at a cost of $.25 per page (charge subject to change).

2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading.

   Students may ask CSU to amend a record that they believe is inaccurate or misleading. They should write the CSU official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

   If CSU decides not to amend the record as requested by the student, CSU will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosure of personally identifiable information (defined below) contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

   Individuals and agencies having access to a student’s records without the student’s consent include “school officials,” defined below, with legitimate educational interests; parents claiming a student as a dependent on their federal income tax; scholarship and other financial aid organizations supporting the student; organizations conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, student aid programs, or to improve instruction; organizations carrying out accrediting functions of programs offered by CSU; appropriate person(s) in an emergency; and any party designated by judicial order or subpoena, provided that, except for subpoenas and orders issued for law enforcement purposes, CSU first notifies the student of the order or subpoena. Any other individual or organization must have a student’s written consent to view or have access to the education record.

   For purposes of disclosure of information about the student to school officials with legitimate educational interests, a “school official” is a person employed by CSU in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel in an educational role and health staff); a person or company with whom CSU has contracted (such as an attorney, auditor, or collection agent); a person serving on the governing board of CSU; or a student serving on an official committee, or in a volunteer capacity, such as a peer mentor or member of a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. Such officials have legitimate educational interests when they need to review a student’s education records to fulfill their responsibilities to CSU. As an example of a company with whom CSU has contracted, CSU works with the National Student Clearinghouse which provides a Current Enrollment Verification Certificate and/or degree verification to students and vendors indicating whether the students are enrolled for part-time or full-time status at CSU, or have received a degree.
4. Furthermore, CSU discloses students’ education records without consent, upon request, to officials of other schools in which a student seeks to or intends to enroll.

Students can authorize the release of their private information through FAMweb (http://parentsandfamily.colostate.edu/famweb), a secure online portal that provides limited access to a student’s education records to families and trusted individuals designated by the student. In RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx), the secure online student portal, the student sets permissions to allow others to use FAMweb to access certain categories of education records that are frequently requested for release. The following types of student information can be viewed in FAMweb:

- eBilling information
- Grades for the last completed term
- Unofficial transcript
- Class schedule for the semester in session
- Tax information

An exception to the requirement for prior authorization for release of records exists for public release of “directory information” which is published in university directories and may be released to third parties. FERPA allows a student to limit the release of directory information; see the Office of the Registrar (http://registrar.colostate.edu/student-resources/ferpa-student-privacy) for procedures to apply restrictions on directory information.

CSU defines “directory information” as the following:

- Student name
- Current mailing address
- E-Mail address
- Major field of study
- Classification level (freshman, sophomore, junior, senior, graduate)
- Dates of attendance
- Current or previous enrollment status (full-time, half-time, three-quarters, and/or less than half-time)
- Anticipated date/term of graduation and expected degree(s)
- Honors and degrees awarded
- Participation in officially recognized activities and sports
- Height and weight of athletic team members
- Video and photographic images of students, with the exception of the official CSU identification photograph

5. The right to file a complaint with the U.S. Department of Education concerning alleged failures by CSU to comply with the requirements of FERPA. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave. SW, Washington, DC 20202-4605.

**Personally Identifiable (Private) Information**

Personally identifiable, or private, information includes age, date and place of birth. It also includes grades, Social Security number, CSUID number, class schedule, residency, and class rank. None of these items may be released without the student’s permission, except as otherwise allowed by FERPA.

**Deceased Student Information Disclosure**

Due to the sensitivity and privacy issues involved in student deaths, a Confidential Information alert will be placed on the deceased student’s accounts and records to block public access to all personal and academic information once verification of the death is confirmed.

Further information about CSU’s FERPA policy (http://policylibrary.colostate.edu/policy.aspx?id=591) and related guidance and resources are available from the Office of the Registrar (http://registrar.colostate.edu).

**Freedom of Expression and Inquiry**

The faculty of CSU considers freedom of discussion, inquiry, and expression to be in keeping with the history and traditions of our country and to be a cornerstone of education in a democracy. CSU is committed to valuing and respecting diversity, including respect for diverse viewpoints. If any members of our campus community (students, faculty, or staff) feel that they have been treated unfairly because of their views, they should contact the Student Resolution Center (https://resolutioncenter.colostate.edu). The policy of CSU is to encourage members of the CSU community to engage in discussion, to exchange ideas and opinions, and to speak, write, and publish freely in accordance with the guarantees and limitations of our state and national constitutions.

Faculty and students have not only a right, but also a responsibility, to examine critically the insights, understandings, values, issues, and concerns which have evolved in the various areas of human activity. Consequently, it is the policy of the University that CSU-registered student organizations may extend invitations for guest lecturers, exhibitors, performers, and exhibitions of works of art with no restrictions of form or content other than those imposed by law. It is understood that inviting a speaker, performer, or exhibit does not imply concurrence of the CSU or of the sponsoring organization with the opinions, beliefs, or values expressed.

In exercising their rights, members of the CSU community should understand that the public may judge the institution by their actions. Hence, they should at all times strive to be honest and accurate, exercise appropriate restraint, and show appropriate respect for the opinions of others.

**Free Speech and Right to Peaceful Assembly**

CSU acknowledges the rights of students and others to engage in free speech and to assemble in groups for peaceful purposes. At such gatherings, CSU expects the rights and privileges of all persons to be respected and that there will be no endangerment to health or safety. Such gatherings must in no way disrupt the normal conduct of University affairs or endanger University property.

CSU may, consistent with the constitution, establish reasonable regulations regarding the time, place, and manner in which persons exercise their free speech rights to the extent necessary to prevent disruption of the normal conduct of University affairs or endangerment of health and safety of persons or damage to property. Accordingly, persons planning such assemblies on the CSU campus must coordinate their activities and plans in advance through the Lory Student Center Event Planning Services (http://lsc.colostate.edu/services/event-planning-services) or Facilities Management (http://www.fm.colostate.edu/events). The sponsoring individual or group must assume responsibility for compliance with all state and municipal laws and CSU policies. Assistance from staff is available to help plan such events, and the
assistance of University police may be requested to help with traffic or crowds.

Any act by demonstrators or groups which interferes with the rights of others, disrupts the normal functioning of CSU, damages property, or endangers health or safety is grounds for suspension or dismissal from the University and/or removal from University property. In addition, such actions may also be the basis for criminal charges by law enforcement authorities. Demonstrations are prohibited in any special-use facility, classroom, and in any place or manner that interferes with educational and other normal functions and operations of the institution. Demonstrators refusing to vacate premises upon request are subject to immediate temporary suspension and arrest under applicable municipal and state laws.

Commercial speech may be regulated by the University to a greater extent than noncommercial speech and expressive activities. Commercial speech is any form of expression or activity that is primarily intended to advertise, market, sell, or promote goods and services on behalf of any person or entity that is not a CSU department or affiliated organization. Soliciting for contributions or donations is included in the definition of commercial speech. The University is under no obligation to make any campus areas or facilities available for commercial activities. When permitted, commercial speech should promote an educational, rather than commercial atmosphere on campus, prevent exploitation of students, and preserve the tranquility of the campus. In order to promote these objectives, the Campus Activities Director acts as, or may designate, a coordinator for commercial events held on campus, including (but not limited to) events at the Lory Student Center Plaza. The coordinator is responsible for working with student organizations, other sponsors, and vendors to assure that events are in accordance with University regulations.

To learn more about the University’s policy on the rights to free speech and peaceful assembly, visit the CSU Policy Library website (http://policylibrary.colostate.edu/policy.aspx?id=696).

**Hazing**

Hazing is against the law in Colorado and is a violation of the Student Conduct Code that may result in discipline of individuals and student organizations who engage in such conduct. Hazing means any act that endangers the mental, physical, or emotional health or safety of a student, or that destroys or removes public or private property for the purpose of initiation, admission into, affiliation with, or as a condition for continued membership in a group or student organization. It includes participating in, condoning, encouraging, requiring, or allowing an opportunity for hazing. A hazing violation may occur even when the victim expressed or implied consent. For more information regarding hazing, resources available to students who may encounter it, and how to report instances of hazing, see the CSU End Hazing website.

**Discrimination, Harassment, Sexual Assault, and Violence**

**Discrimination, Harassment, Sexual Harassment, Sexual Misconduct, Domestic Violence, Dating Violence, Stalking, and Retaliation**

CSU is committed to providing an environment that respects the dignity and worth of every member of its community. CSU strives to create and maintain a work and study environment that is fair, inclusive, and responsible so that each member of the CSU community is treated with dignity and respect and is rewarded for relevant considerations such as ability and performance. Conduct that is discriminatory or harmful inhibits the achievement of these goals. CSU has adopted a comprehensive policy (http://oeo.colostate.edu/discrimination-harassment-sexual-harassment-sexual-misconduct-domestic-violence-dating-violence-stalking-and-retaliation-policy) to define the types of conduct that are prohibited and to prevent harm arising from discrimination, harassment, sexual harassment, sexual misconduct, domestic violence, dating violence, stalking, and retaliation. All students, faculty, staff, and other persons having business with CSU are expected to know and follow this policy.

Details regarding what is involved in bringing a complaint and the procedures for informal and formal resolution are available from the Office of Support and Safety Assessment (http://www.supportandsafety.colostate.edu) for student-to-student behavior and the Office of Equal Opportunity (http://oeo.colostate.edu) for matters involving non-students such as faculty, staff, or visitors and matters involving a student and non-student person.

**Alcohol and Sexual Assault Education**

CSU is committed to providing a safe campus for all students and promoting a culture of respect and dignity. As a result, CSU requires students to complete the Haven: Understanding Sexual Assault and AlcoholEdu programs.

All admitted students are required to complete the Haven: Understanding Sexual Assault™ Program, which educates students on issues associated with stalking, relationship violence, and sexual assault. Students learn about consent, how to help a friend, and how to intervene in a situation that might escalate to sexual assault. Built in collaboration with leading researchers and practitioners, Haven is an interactive module designed to engage and empower students to create safe, healthy campus environments. This course meets the educational mandate of the 2013 Federal Campus Sexual Violence Elimination Act (https://www.law.cornell.edu/uscode/text/20/1092).

AlcoholEdu for College is an interactive, online program designed to inform students about how alcohol affects the body, mind, perceptions, and behaviors. The research-based course offers accurate information in a non-judgmental tone, while providing personalized feedback that encourages students to consider their own drinking decisions and those of their peers. Students under age 23 must complete the AlcoholEdu Program. Even if students don’t drink, they may still be impacted by alcohol use in the college environment.
More information about these important programs is available from the CSU Health Network (http://health.colostate.edu/new-student-checklist).

**Students' Rights**

As members of the CSU community, students can reasonably expect the following:

1. Students have the right to freedom from discrimination and harassment on the basis of race, color, gender identity or expression, sexual orientation, genetic information, religion, creed, political beliefs, veteran status, pregnancy, national origin or ancestry, age, or disability.
2. The University shall not interfere with the rights of students to join associations.
3. Students should have accurate information relating to maintaining acceptable academic standing, graduation requirements, program student learning outcomes, and individual course objectives and requirements.
4. Student records will be maintained in keeping with the Family Educational Rights and Privacy Act of 1974 and subsequent amendments and the guidelines for implementation.
5. In all instances of general discipline, academic discipline, and academic evaluation, the student has the right to fair and impartial treatment.
6. CSU considers freedom of inquiry and discussion essential to a student's educational development. Thus, the University recognizes the right of all students to engage in discussion, to exchange thought and opinion, and to speak, write, or print freely on any subject in accordance with the guarantees of Federal and State constitutions. This broad principle is the cornerstone of education in a democracy.
7. Students have the right to be free from illegal searches and seizures.
8. Students have the right to freely exercise their full rights as citizens. In this light, the University affirms the right of students to exercise their freedoms without fear of University interference for such activity.

**Student Bill of Rights**

Students' Rights Regarding Their Education Records
- Right to Discuss Concerns with Department Heads/Chairs
- Right to File a Grade Appeal
- Right to File a Complaint
- Right to Seek Membership in Student Organizations
- Victims' Rights
- Resources

**Students' Bill of Rights**

The Colorado Student Bill of Rights, Colo. Rev. Stat. § 23-1-125, guarantees certain rights and expectations for various aspects of student academic life including advising, transferability of credits, and degree completion.

One such right is that a student may enter into an agreement with the University to formalize a plan to obtain a degree in four years (§ 23-1-125(1)(b), C.R.S.). CSU supports this timeline for graduation by publishing advising guidelines under which a student may expect to graduate in four years, and also maintains Major Completion Maps. Major Completion Maps are designed to assist students and their advisors in building a semester-by-semester course schedule that will enable students to complete their baccalaureate degree within the minimum number of semesters established in the major’s program of study. Major Completion Maps have been approved through the University’s curriculum process. Review CSU Major Completion Maps on the "Major Completion Map" tab for each undergraduate program of study listed in this General Catalog.

There are some majors that a student may not be able to complete in four years because of additional degree requirements recognized by the Colorado Department of Higher Education.

The Bill of Rights also includes:

§ 23-1-125. Commission directive - student bill of rights - degree requirements - implementation of core courses - competency test - prior learning

1. Student bill of rights. The general assembly hereby finds that students enrolled in public institutions of higher education shall have the following rights:
   a. Students should be able to complete their associate of arts and associate of science degree programs in no more than sixty credit hours or their baccalaureate programs in no more than one hundred twenty credit hours unless there are additional degree requirements recognized by the commission;
   b. A student can sign a two-year or four-year graduation agreement that formalizes a plan for that student to obtain a degree in two or four years, unless there are additional degree requirements recognized by the commission;
   c. Students have a right to clear and concise information concerning which courses must be completed successfully to complete their degrees;
   d. Students have a right to know which courses are transferable among the state public two-year and four-year institutions of higher education;
   e. Students, upon completion of core general education courses, regardless of the delivery method, should have those courses satisfy the core course requirements of all Colorado public institutions of higher education;
   f. Students have a right to know if courses from one or more public higher education institutions satisfy the students' degree requirements;
   g. A student's credit for the completion of the core requirements and core courses shall not expire for ten years from the date of initial enrollment and shall be transferrable [sic].

**Students' Rights Regarding Their Education Records**

Students have certain rights concerning their “education records” under the Family Educational Rights and Privacy Act (FERPA), as amended, 20 U.S.C. 1232g et. seq. Please see the FERPA (Student Privacy) section of this catalog for more information on FERPA.

**Right to Discuss Concerns with Department Heads/Chairs**

Academic department heads are expected to incorporate student input into decisions affecting academic instruction, advising, and student learning assessment. This input usually takes form through departmental advisory committees and student evaluation of faculty members.
Individual students, however, may make appointments with their department heads to discuss specific problems, plans, or suggestions.

**Right to File a Grade Appeal**

Instructors are responsible for stating clearly the instructional objectives of the course at the beginning of each term and for evaluating student achievement in a manner consistent with these objectives. Students are responsible for maintaining standards of academic performance established for each course in which they are enrolled. Instructors are responsible for determining and assigning final course grades. Graded examinations, papers, and other materials used as a basis for evaluating a student’s achievement will be available to the student for inspection and discussion.

Students may appeal instructors’ grading decisions. The burden of proof, however, rests with the student. More information is available in Grading.

**Right to File a Complaint**

CSU is committed to treating all students fairly and respectfully. CSU’s policies that apply to students are published annually in the General Catalog, in addition to those found in other resources from individual departments and offices. In an instance of perceived violation of a CSU policy, a student may file a complaint in accordance with the Student Complaint Reporting (http://policylibrary.colostate.edu/policy.aspx?id=603) policy.

When a student encounters a problem on campus that they do not know how to resolve, they should always try to work the problem out by first discussing it with those involved. Dealing with concerns in the most direct and honest fashion should always be the first step toward resolution. Many problems are resolved when a student makes an appointment with a faculty or staff member and calmly and honestly communicates their concerns.

If, however, an issue or problem still exists, a student may initiate the formal complaint procedures at CSU. All formal complaints must be put in writing and must be signed by the student (including electronic or digital facsimile signatures clearly attributable to the student—for example, the student’s name in an email message received from their CSU email account). A Student Complaint Form is provided as a tool for presenting a written complaint, but is not required.

**Procedures for Filing a Written Complaint**

1. Attempt an informal resolution of the matter as noted above.
2. Complete the Student Complaint Form and mail, email, or deliver it to the VPSA by mail, email, or campus delivery to:

   Vice President for Student Affairs
   Attn: Dean of Students
   201 Administration Building
   8004 Campus Delivery
   Fort Collins, CO 80523-8004
   email: VPSA@colostate.edu
   Tel: (970) 491-5312
   Fax: (970) 491-7025

   The VPSA Office will notify you with an acknowledgement that the complaint was received.

**NOTE:** All Student Complaints must be submitted in writing. A complaint reported by telephone will not be considered as submitted for review.

**Complaint Review and Resolution Process**

The VPSA Office is not an advocate for any party to a dispute but is an advocate for a fair process. Acting as a neutral, third party, the Dean of Students or their designee will first attempt to resolve the complaint by working with the student and the appropriate CSU employees and officials to assure a fair process. The Dean of Students may refer the matter to the Student Resolution Center for assistance in attempting an informal resolution. This assures that the complaint is considered by the appropriate officials and receives an impartial review.

If the matter is not able to be resolved informally, the Dean of Students will forward the complaint to the appropriate CSU Vice President or other official for further review and attempt to resolve the matter. If the matter is still not resolved to the Student’s satisfaction, the Dean of Students will help identify other resources that may be available to the Student including any appeals that may be available from agencies external to CSU, including the Colorado Department of Higher Education (CDHE) and Higher Learning Commission (HLC). Contact information for these agencies is provided in the full policy document (http://policylibrary.colostate.edu/policy.aspx?id=603).

The complete policy and procedures for filing a student complaint is available through the Policy Library (http://policylibrary.colostate.edu).

**Right to Seek Membership in Student Organizations**

CSU officially recognizes a great variety of student organizations. Policies established by the Board of Governors prohibit any recognized student organization from excluding students from membership on the basis of race, age, creed, color, religion, national origin, ancestry, sex, gender, disability, veteran status, genetic information, sexual orientation, gender identity or expression, or pregnancy.

All recognized student organizations must assure CSU that their membership policies and procedures are in compliance with this policy. Local chapters of regional, national, or international organizations must assure CSU that membership policies of the parent organization do not require the local chapter to exclude any student from membership on the basis of race, age, creed, color, religion, national origin, ancestry, sex, gender, disability, veteran status, genetic information, sexual orientation, gender identity or expression, or pregnancy.

**Victims’ Rights**

The University is committed to providing appropriate support and referrals to persons who have been the victims of crimes or violations of University Policy or the Student Conduct Code. A victim of another person’s unlawful or prohibited actions may seek personal support, explore options, and report the incident.

Confidential services are available through the Victim Assistance Team (http://www.wgac.colostate.edu/support), University Counseling Center (https://health.colostate.edu/about-counseling-services), CSU Health Network (http://health.colostate.edu), and Student Legal Services (http://sls.colostate.edu). Other University agencies may be required by law and University policy to take appropriate action when notified. Victims may receive assistance from other appropriate University resources, such as relocation within or to campus housing; academic support services; notification of appropriate persons/agencies; and, at the
Students are encouraged to report complaints of:

- Sexual harassment or discrimination to the Office of Equal Opportunity (http://oeo.colostate.edu); (http://oeo.colostate.edu)
- Crimes to the Colorado State University Police (http://police.colostate.edu);
- Violations of the Student Conduct Code to residential staff (http://reshallpolicies.colostate.edu) or Student Conduct Services at the Student Resolution Center (https://resolutioncenter.colostate.edu/conduct-services);
- Interpersonal and sexual violence to the Office of Support and Safety Assessment (http://www.supportandsafety.colostate.edu), Colorado State University Police (http://police.colostate.edu), and Victim Assistance Team (http://www.wgac.colostate.edu/support) (confidential resource);
- Violations of their right to free speech in the classroom directly to the instructor involved or the department chair or Student Conduct Services (https://resolutioncenter.colostate.edu/conduct-services) at the Student Resolution Center.

Sexual Misconduct Reporting Exemption: The University encourages reporting of sexual misconduct by the impacted party or others who are aware of sexual misconduct incidents. To encourage reporting, it is the practice of Student Conduct Services (https://resolutioncenter.colostate.edu) to not charge reporting parties for other, lesser violations of this Student Conduct Code that may be related to the sexual misconduct incident. For example, a student who may have been under the influence of drugs or alcohol at the time of experiencing or witnessing a sexual misconduct incident will not be charged with drug or alcohol violations in connection with the reported incident.

Resources

Students who have questions, concerns, or need assistance with application of rights listed above may contact the pertinent resource including: Student Resolution Center, Office of the Vice President for Student Affairs, Office of Equal Opportunity, Provost/Executive Vice President’s Office, or academic department office. If unclear as to which office to approach, begin with the Student Resolution Center (https://resolutioncenter.colostate.edu).

CSU Student Conduct Code

Classroom Behavior

The classroom instructor is responsible for all classroom conduct, behavior, and discipline. CSU policy permits only enrolled students, persons authorized by the instructor, and administrative personnel to be admitted to instructional areas during scheduled periods. CSU policy and Colorado state law also prohibit all forms of disruptive or obstructive behavior in academic areas during periods of scheduled use or any actions which would disrupt scheduled academic activity. Use of classrooms and other areas of academic buildings during nonscheduled periods is permitted only in accordance with departmental, college, or CSU practices.

Any person or persons in unauthorized attendance or causing a disturbance during scheduled academic activity shall be identified by the instructor and asked to leave. Persons refusing such a request may be removed by the CSU police and are liable to legal prosecution and/or disciplinary action.

Student Health Insurance Requirement

Domestic students taking six or more resident instruction credits, and all INTO and international students enrolled in any credit level, are required to have health insurance. Eligible students will be automatically enrolled in the CSU Student Health Insurance Plan (http://health.colostate.edu/student-health-insurance) unless they waive coverage by showing proof of private health insurance.

First Year Residence Hall Requirement

Experience and research has demonstrated that students who live on campus adjust to college life faster, have higher GPAs, and are more likely to graduate than students who live off campus. For this reason, all newly admitted first-year students without previous college experience, who are single, under 21 years of age, and not living with their parents in the Fort Collins area, are required to live their first two consecutive semesters in a residence hall (http://reshallpolicies.colostate.edu/residence-hall-contract-guidelines). Credits taken concurrent with high school and/or credits attained through Advanced Placement (AP) do not apply toward living experience.

Academic Integrity/Misconduct

The foundation of a university is truth and knowledge, each of which relies in a fundamental manner upon academic integrity and is diminished significantly by academic misconduct. Academic integrity is conceptualized as doing and taking credit for one's own work. A pervasive attitude promoting academic integrity enhances the sense of community and adds value to the educational process. All within the University are affected by the cooperative commitment to academic integrity.

Faculty/instructors shall work to enhance a culture of academic integrity at the University.

Each course faculty member/instructor shall clearly state in his or her course syllabus that the course will adhere to the Colorado State University General Catalog Academic Integrity Policy and Student Conduct Code. In addition, by the end of the second week of classes and/or in the syllabus, the faculty member/instructor shall address academic integrity as it applies to his or her course by providing guidelines about course elements for the students.
Each course faculty member/instructor shall provide the opportunity for students to sign an affirmative honor pledge on any course components of the faculty/instructor’s choosing. The honor pledge shall include one of the following statements and may be expanded according to faculty/instructor’s, department, or college practices and policies:

HONOR PLEDGE: I have not given, received, or used any unauthorized assistance.

HONOR PLEDGE: I will not give, receive, or use any unauthorized assistance.

A course faculty member/instructor may offer the student the opportunity to write out the pledge if deemed practicable. Students may be given the opportunity to include an honor pledge along with electronic submissions of their work. A student’s decision to forego signing the honor pledge shall not be used as evidence of academic misconduct and shall not negatively impact a student’s grade.

Academic misconduct (see examples below) undermines the educational experience at Colorado State University, lowers morale by engendering a skeptical attitude about the quality of education, and negatively affects the relationship between students and faculty/instructors.

Faculty/Instructors are expected to use reasonably practical means of preventing and detecting academic misconduct. Any student found responsible for having engaged in academic misconduct will be subject to academic penalty and/or University disciplinary action.

Students are encouraged to positively impact the academic integrity culture of CSU by reporting incidents of academic misconduct.

Examples of academic misconduct include (but are not limited to):

1. Cheating – Cheating includes using unauthorized sources of information and providing or receiving unauthorized assistance on any form of academic work or engaging in any behavior specifically prohibited by the instructor in the course syllabus or class presentation.
2. Plagiarism – Plagiarism includes the copying of language, structure, images, ideas, or thoughts of another, and representing them as one’s own without proper acknowledgment, and is related only to work submitted for credit. Also included is the failure to cite sources properly; sources must always be appropriately referenced, whether the source is printed, electronic or spoken.
3. Unauthorized Possession or Disposition of Academic Materials – Unauthorized possession or disposition of academic materials includes the unauthorized selling or purchasing of examinations, term papers, or other academic work; stealing another student’s work; and using information from or possessing exams that an instructor did not authorize for release to students.
4. Falsification – Falsification encompasses any untruth, either verbal or written, in one’s academic work.
5. Facilitation of any act of Academic Misconduct – Facilitation of any act of academic misconduct includes knowingly assisting another to commit an act of misconduct.

(Academic Integrity policies appear in the Graduate and Professional Bulletin, the Faculty and Administrative Professional Manual, and the Honor Code of the Professional Veterinary School and the School of Public Health as applicable.)

Procedures for Dealing with Academic Misconduct

Faculty/Instructors are expected to use reasonably practical means of preventing and detecting academic misconduct. If a faculty member/instructor has evidence that a student has engaged in an act of academic misconduct in his or her course, prior to assigning any academic penalty, the faculty member/instructor shall notify the student of the concern and make an appointment with the student to discuss the concern. The student shall be given the opportunity to give his or her position on the matter. After being given the opportunity, if the student admits to engaging in academic misconduct, or if the faculty member/instructor judges that the preponderance of evidence supports the allegation of academic misconduct, the faculty member/instructor may then assign an academic penalty. Examples of academic penalties include assigning a reduced grade for the work, a failing grade in the course, removing the Repeat/Delete option for that course, or other lesser penalty as the faculty member/instructor deems appropriate. The faculty member/instructor shall notify the student in writing of the infraction and the academic penalty to be imposed. A copy of this notification shall be sent to Student Resolution Center.

Faculty/instructors have a responsibility to report to Student Conduct Services (https://resolutioncenter.colostate.edu/conduct-services) at the Student Resolution Center (https://resolutioncenter.colostate.edu) all cases of academic misconduct in which a penalty is imposed. Incidents which the faculty member/instructor considers major infractions (such as those resulting in the reduction of a course grade or failure of a course) should be accompanied by a recommendation that a hearing be conducted to determine whether additional university disciplinary action should be taken.

If the student disputes the decision of the faculty member/instructor regarding alleged academic misconduct, he or she may request a hearing with Student Conduct Services (https://resolutioncenter.colostate.edu/conduct-services). The request must be submitted or postmarked, if mailed, no later than 30 calendar days after the first day of classes of the next regular semester following the date the grade for the course was recorded. If no appeal is filed within the time period, the decision of the faculty member/instructor will be final.

If, after making reasonable efforts, the faculty member/instructor is unable to contact the student or is unable to collect all relevant evidence before final course grades are assigned, he or she shall either:

1. Assign an interim grade of Incomplete and notify the student in writing of the reason for this action; or
2. Refer the case to Student Conduct Services (https://resolutioncenter.colostate.edu/conduct-services) for a hearing before deciding on a penalty.

A hearing will be conducted with Student Conduct Services (https://resolutioncenter.colostate.edu/conduct-services) to determine whether a preponderance of evidence exists in support of the allegations of academic misconduct. If the Hearing results in a finding of insufficient evidence to support the allegation or clears the student of the charges, the faculty/instructor will determine a grade based on academic performance and without reflection of the academic misconduct charge and change any previously assigned grade accordingly. If the Hearing results in finding of academic misconduct, the Hearing Officer and faculty member/instructor will confer regarding appropriate sanctions. The faculty member/instructor will make the final determination regarding academic penalties, which may include, among other options, assigning a reduced grade for the course, assigning a failing grade in the course, removal of the Repeat/Delete option for that course, or other lesser
penalty as the course faculty/instructor deems appropriate. The Hearing Officer will make the final determination regarding University disciplinary sanctions.

In a case of a serious incident or repeat offense of academic misconduct that is upheld through a hearing, the Hearing Officer and the faculty member/instructor shall decide whether the student’s transcript will be marked with a notation of “AM,” which will be explained on the student’s transcript as a “finding of Academic Misconduct.” A notation of “AM” will be made on the student’s transcript only if the Hearing Officer and the faculty member/instructor agree that this penalty should be imposed.

Grades marked on the student’s transcript with the designation “AM” will not be eligible for the Repeat/Delete Policy (http://registrar.colostate.edu/academic-resources/repeat-delete).

Information about incidents of academic misconduct is kept on file in the Student Resolution Center (https://resolutioncenter.colostate.edu) office. No further action is initiated unless the incident constitutes a major infraction, the student has a prior record of University infractions, or there are subsequent reports of misconduct.

CSU Student Conduct Code

The Student Conduct Code exists to notify students, faculty, and staff of the specific expectations Colorado State University holds related to student behavior and the rights and responsibilities that accompany being a student and participating in student organizations.

Colorado State University expects students to maintain standards of personal integrity in harmony with its educational goals; to be responsible for their actions; to observe national, state, local laws, and University regulations; and to respect the rights, privileges, and property of other people.

The student conduct process is intended to be a learning experience which can yield growth, behavioral changes, and personal understanding of one’s responsibilities and the consequences and impacts of one’s actions. This process balances the needs and rights of students with the needs and expectations of the University and larger community. It supports and values Colorado State University’s Principles of Community and offers a continuum of responses, many of which are educational and restorative in nature. Students are treated with care and respect while being afforded the opportunity to receive a fair hearing. Sanctions and interventions are designed to promote the University’s educational mission.

The Student Conduct Code defines University intervention, resolution options and possible disciplinary action related to the behavior of both individual students and student organizations.

The Student Conduct Code is available:

1. On the web at Student Resolution Center (https://resolutioncenter.colostate.edu/conduct-services)
2. In print copy at:
   - Student Resolution Center, 501 West Lake St., Suite A
ABOUT THE CATALOG

Colorado State University reserves the right at any time, without notice, to change, modify, or cancel any course, program, procedure, policy, financial requirement, or disciplinary arrangement set forth in this catalog whenever, in its sole discretion, it determines such action to be appropriate. Furthermore, Colorado State University will not be responsible for any failure to present or complete any course or program or to perform any other activity, function, or obligation mentioned in this catalog. Since changes may occur at any time, students must check the relevant website (as noted on various pages in this catalog).

Glossary
Catalog Updates

Glossary
This glossary defines terms to assist users to better understand content in the General Catalog.

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bachelor’s Degree</td>
<td>An award conferred by CSU signifying that the recipient has satisfactorily completed a minimum of 120 credit hours in an undergraduate course of study.</td>
</tr>
<tr>
<td>Catalog Updates</td>
<td>The General Catalog is published online once annually prior to the beginning of the fall term. Changes made to policy or curriculum after publication that are effective in the catalog year will be noted in the Catalog Updates section of the General Catalog (left navigation bar under “About the Catalog”).</td>
</tr>
<tr>
<td>Certificate - Graduate</td>
<td>A Graduate Certificate is used to identify the successful completion of a focused area of study deemed important to a student’s career objectives. A Graduate Certificate consists of a minimum of 9 specified credits, and not more than 15 credits at the 500 level or above.</td>
</tr>
<tr>
<td>Certificate - Undergraduate</td>
<td>An Undergraduate Certificate is used to identify the successful completion of a focused area of study deemed important to a student’s career objectives. Certificates are an option and are offered by certain departments. An undergraduate certificate consists of a minimum of 9 specified credits, and not more than 15 credits. A minimum of 9 credits must be course work at the upper-division level (300-400).</td>
</tr>
<tr>
<td>CEU</td>
<td>Continuing Education Unit (CEU) or Continuing Education Credit (CEC) is a measure used in continuing education programs, often those required in a licensed profession, for the professional to maintain a license or certification.</td>
</tr>
<tr>
<td>Concentration</td>
<td>A concentration is a sequence of at least 12 semester credits of designated courses within a major designed to accommodate specific interests of undergraduate students.</td>
</tr>
<tr>
<td>Credit</td>
<td>Unit that gives weight to the value, level or time requirements of an academic course taken at CSU</td>
</tr>
<tr>
<td>Credit hour</td>
<td>A credit hour is defined as a minimum of 50 minutes of lecture or discussion/recitation per week for 16 weeks (800 minutes in a semester), 100 minutes of laboratory per week for 16 weeks (1600 minutes in a semester) when outside preparation is required, or 150 minutes of laboratory per week for 16 weeks (2400 minutes in a semester) when no outside preparation is required.</td>
</tr>
<tr>
<td>Credit load</td>
<td>For workload planning purposes (and to graduate with 120 credits in eight semesters), students should plan on an average of 15 credits per semester and should expect that each credit hour will require approximately two to three hours (for some students in some classes, more time and in a few classes less time) of effort per week to accomplish readings and out-of-class assignments in preparation for successful completion of the course requirements.</td>
</tr>
<tr>
<td>Degree</td>
<td>An academic degree is the recognized completion of studies at CSU. A diploma is issued in recognition of having satisfactorily completed the prescribed course of study.</td>
</tr>
<tr>
<td>Degree Completion Program</td>
<td>Selected undergraduate majors offered by CSU, student usually transfers in 60 credits from another institution(s) and completes the degree at CSU.</td>
</tr>
<tr>
<td>Diploma</td>
<td>An academic credential issued by CSU signifying the recipient has successfully completed a particular course of study, which confers the degree.</td>
</tr>
<tr>
<td>Faculty - Instructor</td>
<td>Initial rank usually given to faculty members who have yet to complete the terminal degree (e.g., doctorate).</td>
</tr>
<tr>
<td>Faculty - Assistant Professor</td>
<td>A college or university faculty member early in their career, quality performance may lead to advancement to associate professor.</td>
</tr>
<tr>
<td>Faculty - Associate Professor</td>
<td>A college or university faculty member whose performance in teaching, research and scholarly activities, and service has advanced to associate professor.</td>
</tr>
<tr>
<td>Faculty - Full Professor</td>
<td>Faculty member who has attained the rank of professor (may be referred to as ‘full professor’) and is recognized for accomplishments at CSU, nationally, and internationally in their field.</td>
</tr>
<tr>
<td>Grade mode - Instructor Option</td>
<td>Allows the instructor to choose and inform the class whether Traditional or (S/U) Satisfactory/ Unsatisfactory grading will be used for a course.</td>
</tr>
<tr>
<td>Grade mode - Student Option</td>
<td>Either Traditional or Satisfactory/Unsatisfactory grading selected by the student at the time of registration.</td>
</tr>
</tbody>
</table>
### Catalog Updates

For New Courses approved for Spring 2019 after August 1, 2018 please see the Spring 2019 Class Schedule. Experimental Courses for the 2018-2019 Academic Year can also be found in the Class Schedule. The Class Schedule (http://registrar.colostate.edu/registration/class-schedule) may be accessed through RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx) or ARIESweb.

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grade mode - Satisfactory/ Unsatisfactory</td>
<td>Performance equivalent to a grade of C or better is recorded as Satisfactory. Performance equivalent to D or F is recorded as Unsatisfactory. Neither S or U grades are used in calculating the CSU GPA.</td>
</tr>
<tr>
<td>Grade mode - Traditional</td>
<td>Uses letter grades A to F. Instructor has the option to use pluses (+) or minuses (-) as indicated in the catalog section on Grading.</td>
</tr>
<tr>
<td>Graduate level</td>
<td>Degrees at the masters, doctorate, or professional level. Graduate level courses are those numbered 500 and above.</td>
</tr>
<tr>
<td>Incomplete (grade)</td>
<td>Used when circumstances prevent student from completing course work, agreement to be made with instructor for completion. An &quot;I&quot; grade converts to F if not completed within one year.</td>
</tr>
<tr>
<td>Independent Study</td>
<td>Individualized learning not available in courses, which allows a student to work independently with the approval and guidance of a supervising instructor for predetermined credits.</td>
</tr>
<tr>
<td>Interdisciplinary Studies Program</td>
<td>Graduate level program that is intra-college (within one college) or intra-university (across disciplines of more than one college). They are a series of courses focused on a particular problem or area of concern providing multidisciplinary perspectives.</td>
</tr>
<tr>
<td>Licensure-teacher/educator</td>
<td>A series of courses including student teaching preparing students to be PK-12 teachers/educators. CSU in cooperation with the state offers credentials in areas listed in the School of Education section. Undergraduate students major in a discipline (e.g., Music, Agriculture, Early Childhood, Chemistry).</td>
</tr>
<tr>
<td>Major</td>
<td>A sequence of courses in an academic discipline or area, which when accompanied by appropriate supporting courses, leads to an undergraduate degree.</td>
</tr>
<tr>
<td>Major Completion Map</td>
<td>A semester-by-semester course plan to complete their baccalaureate degree within the minimum number of semesters indicated in the major. An advising tool to guide the student through their program of study.</td>
</tr>
<tr>
<td>Minor</td>
<td>A sequence of related courses (minimum of 21 credits), which provide a student with unique opportunities to complement the major. Minors may be disciplinary (e.g., economics, range ecology) or interdisciplinary (e.g., film studies, gerontology) and are offered only at the undergraduate level.</td>
</tr>
<tr>
<td>Option</td>
<td>A sequence of courses within a major or concentration of either guided electives or electives selected from areas of interest as approved by the department (not identified on a transcript)</td>
</tr>
<tr>
<td>Prerequisite</td>
<td>A course(s) and or minimum grade requirement that must be completed to be prepared for the next course or sequence of courses.</td>
</tr>
<tr>
<td>Program of Study</td>
<td>Content and scope of knowledge, abilities, and skills a student is expected to master in a field of study, as well as the content and topics that are studied at each level.</td>
</tr>
<tr>
<td>Restriction</td>
<td>Conditions that apply to courses at the section level to limit registration in a course. Restrictions include department approval, field of study, college, student level, student class, campus location and/or student attribute.</td>
</tr>
</tbody>
</table>
UNDERGRADUATE ADMISSIONS AND ENROLLMENT

Office of Admissions (https://admissions.colostate.edu)
University Welcome Center, Ammons Hall
1062 Campus Delivery
Fort Collins CO 80523-1062
(970) 491-6909, admissions@colostate.edu

All inquiries and correspondence about undergraduate admission can be addressed to the Office of Admissions.

Prospective graduate students should consult the Graduate School website (http://graduateschool.colostate.edu/for-prospective-students) and the key advisor(s) in the academic department(s) (http://graduateschool.colostate.edu/programs) being considered.

CSU Board of Governors and Undergraduate Admission Standards

The following undergraduate admission information reflects minimum requirements that may be subject to change after the General Catalog has been published. The Board of Governors of the Colorado State University System (http://csusystem.edu) reserves the right to deviate from published admission requirements. In such cases, changes in admission policy will be publicized.

CSU’s Philosophy of Undergraduate Admission

CSU is committed to a comprehensive, individual review process that can take into consideration a wide range of factors, such as past academic course work and achievement, test scores, essay, leadership qualities, school and community service, recommendations, geographic residence, first generation status, and ability to contribute to a vibrant and diverse campus community. We strive to carefully craft our student body in order to meet our enrollment goals, embody our institutional Land Grant mission, and create a compelling learning environment.

CSU actively seeks academically qualified individuals with varied backgrounds, perspectives, and goals who demonstrate the potential to attain a degree from Colorado State University. Because CSU receives more applications than it can honor and because our commitment to diversity is an important educational objective, the admission evaluation process and our admission decisions reflect and rest upon the range of factors outlined above.

General Policies for Undergraduate Admissions

Final Transcript Required
Admission is provisional until we receive a final, official transcript reflecting completion of all course work and proof of graduation or degree completion (as applicable).

High School Graduation (or Equivalent) Required
Freshman/First-Year applicants and Transfer applicants with fewer than 60 credits in transfer must demonstrate high school graduation or equivalent prior to enrolling at CSU. Financial Aid is not released without proof of high school graduation or equivalent, and a hold is placed on course registration prior to the start of the second semester for students who have not demonstrated high school graduation (or equivalent).

Affirmation Statements and Conduct Requirements

Before submitting an application to CSU, students must acknowledge that all information in the application is true and correct. Students who knowingly falsify information or fail to disclose all academic, criminal or disciplinary history are subject to rejection or dismissal. If applicable, sponsoring agencies are informed of this decision.

Applicants who identify criminal or disciplinary history in their answers to the required campus safety questions typically undergo a pre-admission review (https://resolutioncenter.colostate.edu/conduct-services/pre-admission-review) by Student Conduct Services in the Student Resolution Center before they can be reviewed for an admission decision. Student Conduct Services (https://resolutioncenter.colostate.edu/conduct-services) completes this review step only once all other required documents have been submitted to the Office of Admissions. As part of the Affirmation Statement requirement, all applicants agree to update their application record in the event that they experience judicial or disciplinary censure after submission.

Selective Service Registration

In compliance with C.R.S. 23-5-118, all males between the ages of 17 years and 9 months and 26 years must respond to a Selective Service Registration prompt within the application for admission. While not all males are required to register with the Selective Service (visit https://www.sss.gov/ for a list of exceptions), those who are required to register must certify registration under oath before being allowed to register for courses. Individuals providing false information are subject to penalty of law and disenrollment.

Immunization Requirement

CSU, in compliance with Colorado State laws and Health Department regulations, requires persons born January 1, 1957 or later to show proof of two vaccinations for measles and mumps, and one vaccination for rubella (MMR) or to show written evidence of laboratory tests showing immunity.

Colorado law, Colo. Rev. Stat. § 23-5-128, also requires every student residing in student housing to fulfill two requirements for Meningococcal Vaccine:
The following definitions apply to all U.S. citizens, permanent residents, and international applicants. The International Admissions section includes additional details specific to international applicants and U.S. citizens/permanent residents educated outside the U.S.

Undergraduate Applicant Definitions

The following definitions apply to all U.S. citizens, permanent residents, and international applicants. The International Admissions section includes additional details specific to international applicants and U.S. citizens/permanent residents educated outside the U.S.

Freshman/First-Year Students
Transfer Students
Second Bachelor's/Post-Bachelor Candidates
Returning Students

Freshman/First-Year
You are a Freshman/First-Year applicant if you’ve never attended college or all of your college credits were earned prior to high school graduation (or equivalent).

- Refer to instructions for dual/concurrent enrollment if you’ve taken college course work during or as your high school curriculum.
- Details for students who did not graduate from high school, homeschooled, graduated early, or completed an online high school diploma are below.
- Freshman decision factors also apply to transfer applicants with fewer than 30 post-high school credits at the point of application.

Refer to the freshman application guide (https://admissions.colostate.edu/apply/freshmen) on the Admissions website for details.

Specialized Freshman/First-Year Populations
This information applies to freshman/first-year applicants and transfer applicants with fewer than 30 post-high school credits at the point of application.

Dual/Concurrent Enrollment Applicants
See the Admissions website for dual/concurrent enrollment applicants (https://admissions.colostate.edu/dual-enrollment).

Applicants whose only college course work has been completed during high school or as their high school curriculum are considered freshman/first-year applicants with dual/concurrent enrollment.

While high school credentials still are the primary basis for the admission decision for dual/concurrent enrollment students, college performance can be considered in the admission decision, and courses will be evaluated for advanced-standing credit after an applicant is otherwise deemed admissible.

Dual/concurrent enrollment students are eligible for freshman/first-year scholarships and are required to live in the residence halls.

Non-High School Graduates
See the Admissions website for Non-High School Graduates (https://admissions.colostate.edu/non-high-school-graduates).

We’re committed to making an exceptional college education accessible to students from a wide range of backgrounds. Differences in educational background are a welcome part of the mix. Students who did not graduate from high school (or who complete via homeschooling) are welcome to apply with evidence of high school equivalency earned through GED, HiSet or TASC. To be eligible for admission, non-high school graduates must present qualifying high school equivalency test results in addition to demonstrating other evidence of academic readiness through transcript(s), ACT/SAT results (if applicable), and support documents.

Applicants who have completed a state-approved completion exam other than the GED, HiSet or TASC are evaluated on a case-by-case basis.

Note: For transfer applicants with more than 30 but fewer than 60 college-credits completed since earning high school equivalency, GED/HiSet/TASC is used for verification of completion only; scores are not considered in the admission decision.

Homeschooled Applicants
See the Admissions website for homeschooled applicants (https://admissions.colostate.edu/homeschool).

Homeschooled applicants are welcome at CSU and are evaluated for admission according to general admission criteria; there are no special requirements for applicants who have homeschooled.

We recognize that homeschooling can allow for customized teaching methods, curricula, and learning environments that may differ from “traditional” education models. Our comprehensive, individual review process is designed to accommodate unique backgrounds as long as we can assess core academic factors in our review of credentials.

Your homeschool transcript can take any form as long as we can determine 1) how you completed the recommended high school course work (https://admissions.colostate.edu/18units) and 2) how you were graded, assessed, or considered to have “mastered” content to move on in your chosen curriculum. If you did not follow a traditional academic calendar or age-based instruction, if you were not assessed using traditional letter or percentile grades, or if you have otherwise customized your homeschool experience so that something other than a traditional transcript with courses and grades is necessary to understand your college preparation, we encourage you to include with your application a description of the learning environment, a list of courses and brief statement about course content, and an explanation of how your content-mastery was assessed.

Be sure to reference information for dual/concurrent enrollment applicants if you are using college enrollment as your homeschool.
Returning Students

You are a Returning Student if you previously attended CSU as an admitted, degree-seeking undergraduate student and wish to resume studying at CSU as an admitted, degree-seeking undergraduate student.

Refer to the returning student application guide (https://admissions.colostate.edu/apply/returning) on the Admissions website for details.

Undergraduate Profiles and Decision Factors

Freshman/First-Year Profile and Decision Factors

Transfer Profile and Decision Factors

Second Bachelor/Post-bachelor Decision Factors

Returning (Former) CSU Student Decision Factors

English Proficiency Requirement

Students with Disabilities

How we review each application and render an admission decision is informed by CSU's undergraduate admission philosophy. Every incoming class looks different as we emphasize high academic standards and access to higher education, part of our land-grant mission.

Freshman/First-Year Profile and Decision Factors

Fall 2017 freshman class profile

The class profile reflects the middle 50 percent of freshmen admitted in Fall 2017. This data will help you understand where the center of a class falls, though it does not reflect minimum requirements for admission consideration. Scores are shown for the redesigned SAT (https://admissions.colostate.edu/apply/2016-sat-redesign).

Middle 50% GPA: 3.3-4.0 (4.0 scale)

Middle 50% ACT Composite: 23-29

Middle 50% SAT Combined: 1120-1300

Higher Education Admission Recommendations (HEAR) and CSU's Recommended High School Course Work Minimums

To be competitive for admission, freshman/first-year applicants and transfers with fewer than 30 post-high school credits are advised to complete at least 18 high school units (https://admissions.colostate.edu/apply/18units) that meet the Colorado Department of Higher Education HEAR guidelines and institutional course work recommendations (1 unit = 1 year high school or 1 semester college).

The minimum passing grade is D; however, grades of D may not be competitive in a selective admission environment, and grades of C or better are preferred.

Competitive Majors

A few undergraduate majors have more competitive entrance requirements (https://admissions.colostate.edu/competitive-majors) and/or enrollment caps; entrance to these programs is limited to students presenting the strongest academic credentials, and early application is recommended.
Details about factors considered in the admission decision are in the freshman application guide (https://admissions.colostate.edu/apply/freshmen).

Transfer Admission Profile and Decision Factors

Fall 2017 Transfer Profile

The class profile reflects the middle 50 percent of transfers admitted in Fall 2017. This data will help you understand where the center of a class falls, though it does not reflect minimum requirements for admission consideration.

Middle 50% Transfer GPA: 2.8-3.5 (4.0 scale)
Middle 50% Transfer Credits: 30-72

To be considered for admission, transfer applicants must present a minimum cumulative GPA of 2.00 (4.00 scale) from all institutions attended and must have completed the admission requirement in mathematics (https://admissions.colostate.edu/requirementinmathematics). Completion of college composition is preferred but not required. Until a transfer applicant has more than 30 post-high school college credits complete, the admission decision also includes review of high school credentials according to our freshman/first-year admission guidelines.

According to federal financial aid requirements, ALL transfer applicants with fewer than 60 credits in transfer must demonstrate high school graduation (or equivalent). Because the formal transfer evaluation is not completed until after an applicant has been admitted, all transfer applicants are required to submit proof of graduation (or equivalent).

Competitive Majors

A few undergraduate majors have more competitive entrance requirements (https://admissions.colostate.edu/competitive-majors) and/or enrollment caps; entrance to these programs is limited to students presenting the strongest academic credentials, and early application is recommended.

Transfer Admission Guarantee

Students who have completed an Associate of Arts or an Associate of Science degree from an accredited Colorado community or junior college after high school graduation (or equivalent) will be guaranteed admission to the University providing that it is the last institution attended and that a cumulative 2.00 GPA (on a 4.00 scale) has been achieved from all institutions attended. Entry into a specific major may depend on completion of appropriate prerequisite courses and enrollment limitations of the major.

Details about factors considered in the admission decision are in the transfer application guide (https://admissions.colostate.edu/apply/transfer).

Second Bachelor/Post-bachelor Decision Factors

To be considered for admission, second bachelor/post-bachelor candidates must present a minimum cumulative GPA of 2.00 (4.00 scale) from all institutions attended and must be seeking a degree program that does not duplicate their first degree. Details about factors considered in the admission decision are in the second bachelor's application guide (https://admissions.colostate.edu/apply/second-bachelor).

Competitive Majors

A few undergraduate majors have more competitive entrance requirements and/or enrollment caps; entrance to these programs is limited to students presenting the strongest academic credentials, and early application is recommended.

Returning (Former) CSU Students

Comprehensive details for returning students are available in the returning student application guide (https://admissions.colostate.edu/apply/returning).

The admission decision for students returning to complete a degree in progress is based primarily on their previous CSU performance and their academic standing upon leaving CSU. Students who left the University in good academic standing generally are cleared to return without restrictions. Students who left the University in a probationary or dismissed status should refer to the Scholastic Standards Policy for additional information about qualifying to return to CSU.

Students wishing to return as a second bachelor’s candidate must be seeking a degree program that does not duplicate their first degree.

Competitive Majors

A few undergraduate majors have more competitive entrance requirements and/or enrollment caps; entrance to these programs is limited to students presenting the strongest academic credentials, and early application is recommended. Returning students must have satisfied particular CSU course work and earned specific grades/GPA to be admitted to a major with competitive entrance requirements (http://www.undeclared.casa.colostate.edu/majors-with-entrance-requirements.aspx).

English Proficiency Requirement

Strong English language skills are important to academic success at CSU. To support student success, we require all students whose first language is not English to demonstrate a high level of English proficiency regardless of their citizenship. Applicants from Australia, Canada, Ireland, New Zealand, and the United Kingdom whose first language is English are exempt from this requirement.

TOEFL, PTE Academic or IELTS Academic results are the preferred indicators of English proficiency. For applicants seeking direct admission to CSU, the requirements are as follows:

<table>
<thead>
<tr>
<th>English Proficiency Exam</th>
<th>Clear Admission</th>
</tr>
</thead>
<tbody>
<tr>
<td>TOEFL IBT (Test of English as a Foreign Language Internet Based Test)</td>
<td>79</td>
</tr>
<tr>
<td>TOEFL PBT (Test of English as a Foreign Language Paper Based Test)</td>
<td>550</td>
</tr>
<tr>
<td>IELTS Academic (International English Language Testing Services)</td>
<td>6.5</td>
</tr>
<tr>
<td>PTE Academic (Pearson Test of English)</td>
<td>53</td>
</tr>
</tbody>
</table>

Conditional admission will be offered to students who are academically competitive but have not achieved the necessary score for direct admission or have not submitted a TOEFL, PTE, or IELTS score. Conditionally admitted students are enrolled in the INTO CSU Academic
English Program (http://www.intostudy.com/en-gb/universities/colorado-state-university/programs/academic-english) (AEP). Until the Academic English Program is completed or the required TOEFL, PTE Academic or IELTS score is achieved, enrollment in regular University academic courses is at the discretion of the AEP.

Alternative measures of English Proficiency:

- Successful completion of the INTO CSU Academic English Program (conditional admission may be offered to AEP students studying at the advanced level)
- SAT Evidence-Based Reading and Writing score of 550 or higher
- ACT English/Reading score of 21 or higher
- International Baccalaureate (IB) HL English course grade of 5 or higher
- An IGCSE or A-level result of C or better on the English/First Language exam. Test results must be official and not predicted to be considered for direct admission.
- Completion of a U.S. diploma and/or two or more years of secondary transcripts reflecting progress toward a U.S. diploma from a regionally-accredited organization as defined by the U.S. Department of Education
- Completion of at least two semesters of U.S. post-secondary/university course work in English, including college composition and speech with grades of C or better. Courses must have been taken at a regionally-accredited college/university to be considered for direct admission.
- Gaokao/NCEE English score of 105 or higher AND an online interview with an international admissions counselor.
- WAEC/WASSCE English language grade of B3 or better
- Advanced Placement (AP) Language and Composition or Literature and Composition exam result of 4 or higher

Alternative measures of proficiency not listed above may be considered on a case-by-case basis.

Refer to the English proficiency (https://admissions.colostate.edu/internationalstudentshome/englishproficiency) information on the Admissions website for more information.

Students with Disabilities

All applicants are evaluated according to the same University admission standards. We recognize, however, that not every student’s personal or educational background is the same.

Disclosure of the presence of a disability is voluntary. Applicants may use components of the application such as the academic explanation, personal statement, or recommendation(s) to identify their disability and to discuss the impact of the disability on their academic record (if any). While this information can be considered if disclosed, it will not be the sole basis for the admission decision.

CSU’s Student Disability Center (https://disabilitycenter.colostate.edu) offers admitted students the full range of support services to help students achieve academic success.

How to Apply

Undergraduate Applicants: How to Apply

The information below applies both to domestic and international undergraduate applicants.

Application Materials

All applicants for admission must submit an online application, $50 application fee or fee waiver request, and academic transcripts. Most freshman/first-year applicants also are required to submit test scores, a personal statement, and recommendation(s). Additional information may be requested for the full review of an applicant’s eligibility.

Refer to the appropriate application guides (https://admissions.colostate.edu/applying-to-csu) for details.

Application Fee or Fee Waiver

An application fee is required as part of a complete application; a decision cannot be rendered without it. If payment of the application fee presents a financial hardship (https://admissions.colostate.edu/2017/02/27/qualify-fee-waiver-enrollment-deposit-deferral), applicants can request a fee waiver.

Refer to the Office of Admissions website for the application fee refund policy (https://admissions.colostate.edu/refund-waiver-policies).

High School Transcript and proof of graduation (or equivalent)

High school transcripts are an important part of the admission decision for all freshman/first-year applicants and for transfer applicants with fewer than 30 post-high school credits.

High school transcripts for transfer applicants with more than 30 post-high school credits are considered only when needed to satisfy the admission requirement in mathematics (https://admissions.colostate.edu/requirementinmathematics).

All freshman/first year applicants and all transfers with fewer than 60 post-high school college credits must submit proof of graduation or equivalent at the point of admission or as soon as the credential is conferred if after admission.

ACT/SAT results

ACT or SAT results are required for freshman/first-year applicants who are under age 23 or who have been out of high school for fewer than five years. Applicants educated outside the U.S. are encouraged but not required to submit ACT or SAT results.

Transfer applicants are encouraged but not required to submit ACT or SAT results for placement purposes if they have not yet taken a transferable college composition course.

We accept SAT results for exams administered prior to March 2016 as well as SAT results from the redesigned test. Refer to the 2016 SAT Redesign (http://admissions.colostate.edu/apply/2016-sat-redesign) for more information.

College Transcript(s)

An original, official college transcript (https://admissions.colostate.edu/submitting-documents) from each college attended is required, regardless of the type of institution, amount or type of credit earned,
and age of the credential, even if the work will be reflected in transfer on another transcript. No part of the previous collegiate record may be disregarded. Failure to include all institutions previously attended is a serious offense that may result in the rescinding of admission, loss of credit, or disenrollment. Transcripts reflecting courses taken at vocational-technical institutes or colleges that are not regionally accredited can be helpful documentation and may be required, though they do not qualify an applicant for transfer applicant status or advanced-standing credit.

Freshman/first-year applicants typically are required to submit an official college transcript at the point of application only if college enrollment is being used as their full-time high school curriculum. Refer to College-Level Courses Completed by High School Students for additional information.

Advanced standing credit (transfer credit) is only awarded from an original, official transcript.

**International Applicants: Additional Requirements**

In addition to the documents outlined above, applicants who have completed part or all of their education outside of the US also may be prompted to submit the following:

- A certified English translation of any academic credentials not in English
- Evidence of English Proficiency to be considered for direct admission
- An Immigration Information Form, financial support documentation and a copy of the passport identification page for immigration documentation

**Application Timelines**

Students can begin their enrollment during fall semester (August start), spring semester (January start) or summer term (May/June start; not recommended for freshman/first-year students).

Applications typically open 10-12 months prior to the first day of classes for the term. Freshman/first-year applicants must have completed at least 75% of their high school curriculum (through junior year equivalent) before a decision can be rendered; transfer applicants must have no more than one academic term in progress when a decision is rendered. Second bachelor’s/post-bachelor candidates must be finished with their first degree or in their final term of enrollment with degree pending for a decision to be rendered.

Timelines specific to each applicant type and term are reflected in the application guides (https://admissions.colostate.edu/applying-to-csu).

**International Undergraduate Admissions**

**Non-U.S. citizens educated outside of the U.S. who require a student visa**

- Refer to the International Undergraduate application guide (https://admissions.colostate.edu/international) appropriate to your applicant type (e.g., freshman, transfer).
- You may be required to demonstrate English proficiency to be considered for direct admission.
- Applicants are required to submit an immigration information form, financial support documentation and a copy of their passport as part of the application for admission in order to expedite the issuance of immigration documents upon admission. Submission of immigration information does not bind the student to enroll at CSU if admitted.
- Contact International Student and Scholar Services (ISSS) (http://iss.colostate.edu) for information about international student orientation and check-in.

**Non-U.S. citizens educated outside of the U.S. who will NOT require a student visa**

- Refer to the International Undergraduate application guide (https://admissions.colostate.edu/international) appropriate to your applicant type (e.g., freshman, transfer).
- You may be required to demonstrate English proficiency to be considered for direct admission.
- Contact International Student and Scholar Services (ISSS) (http://iss.colostate.edu) for information about international student orientation and check-in.

**Non-U.S. citizens/Non-permanent residents educated inside the U.S.**

- Refer to the domestic application guide (https://admissions.colostate.edu/applying-to-csu) appropriate to your applicant type (e.g., freshman, transfer).
- Include a copy of your visa with your application for admission (if applicable).
- You may be required to demonstrate English proficiency depending upon your academic credentials and length of time in the U.S.
- Students who are undocumented and educated in Colorado (https://admissions.colostate.edu/2017/01/05/im-undocumented-live-colorado-can-apply-csu) may be eligible for in-state tuition under Colorado ASSET legislation (https://financialaid.colostate.edu/asset-1).
- No extra or unique requirements are in place for students who are undocumented since admission is an academic decision.

**U.S. citizens/permanent residents educated outside of the U.S.**

CSU recognizes that the pool of U.S. citizens/permanent residents educated abroad covers a wide spectrum, including students with dual citizenship who have never been to the U.S., U.S.-born students who have lived in multiple countries or who have only recently moved overseas as the result of family military or employment assignments, and U.S. permanent residents with varied amounts of U.S.-based education.

Our comprehensive, individual review process is designed to recognize and incorporate these kinds of unique experiences into our evaluation. Refer to the application guide (https://admissions.colostate.edu/
applying-to-csu) appropriate to your applicant type (e.g., freshman, transfer), and we will adapt our review process to your circumstances.

As we review your credentials, we'll notify you if any additional support information is required to assess your potential for academic success at CSU. For example, we may ask you to provide English proficiency documentation and a translation of academic records if your native language and/or language of instruction is not English.

U.S. citizens or U.S. permanent residents who have been educated abroad may be eligible for financial aid. Refer to Financial Assistance in the Financial Information section for more information.

English Proficiency
Undergraduate applicants seeking direct admission must demonstrate a high level of English proficiency.

Enrollment Deposit
Enrollment Deposit and Admission Confirmation
Newly-admitted on-campus freshmen and transfers must submit an enrollment deposit (https://admissions.colostate.edu/2016/11/29/what-you-need-to-know-about-the-enrollment-deposit) to secure their place in the entering class. The enrollment deposit covers new student charges and a portion of tuition. Paying the deposit opens access to other critical steps in the enrollment process, including on-campus housing, Ram Orientation and course registration.

If payment of the enrollment deposit presents a financial hardship (https://admissions.colostate.edu/2017/02/27/qualify-fee-waiver-enrollment-deposit-deferral) or the full cost of attendance will be covered by a third party (e.g. international sponsor, 100% GI Bill entitlement, athletic scholarship), students can request an enrollment deposit deferral. Students who received a need-based application fee waiver are granted an enrollment deposit deferral when they confirm their intent to enroll. When a deferral is granted, the student secures a place in the entering class and opens access to other steps to enroll, and the deferred amount appears as a charge on the student’s first billing statement.

Refer to the appropriate admitted student guide (https://admissions.colostate.edu/admitted) for deadlines and instructions.

Please visit the CSU Office of Admissions website for more information about the enrollment deposit refund policy (https://admissions.colostate.edu/refund-waiver-policies).

Transfer and Test Credit
College-Level Courses Completed by High School Students
Advanced Placement (AP)
College-Level Examination Program (CLEP)
International Baccalaureate (IB)
Cambridge Pre-U Examination
Evaluation of Transfer Credit

College-Level Courses Completed by High School Students
CSU credit may be allowed for college-level courses completed at a college or university while a student is still in high school if the following conditions are met:

1. The college or university must be fully accredited by one of the seven regional associations of schools and colleges.
2. Credit will be granted only for academic courses with grades of C- or better.
3. An official transcript must be provided by the college or university listing the courses completed.
4. The course is not remedial or vocational/technical in content.

The College Board Advanced Placement Program (AP)
The Advanced Placement tests administered by The College Board are used by CSU to award credit and advanced placement in any of several fields in which a student may have participated in high school. Lower division credit (100-200) awarded is treated as transfer credit without a grade but is counted toward graduation and may be used in fulfilling specific lower division curriculum requirements.

The academic department responsible for the course in which test credit is granted will have determined what lower division equivalency will be awarded. Department decisions are considered the final determination of equivalency for the specific examination. Therefore, a request for re-evaluation or an appeal of the decision will not be considered or accepted.

The exception to the re-evaluation process is limited to the Capstone Seminar and the Capstone Research components of the Advanced Placement offerings. The re-evaluation must be approved by the teaching department in which the Seminar and Capstone most closely align for consideration of a direct equivalency within the academic structure at CSU.

Lower division (100-200) credit may be granted for scores of three (3), four (4) or five (5) on individual Advanced Placement Tests. Scores of one (1) and two (2) are not granted credit.

Generic credit (no discipline identified) will be granted for the AP Capstone Seminar and/or the AP Capstone Research Project when a minimum score of four (4) is earned. The AP Capstone Seminar and the AP Capstone Research components may be re-evaluated by the teaching department in which the Seminar and Capstone most closely align for consideration of a direct equivalency of lower division credit. The department’s evaluation will be the final determination.

Please see the Registrar’s Office (http://registrar.colostate.edu/transfer-credit/transfer-other-credit) and select “Advanced Placement (AP)” for a complete table indicating the courses for which credit is awarded.

The College-Level Examination Program (CLEP)
The College-Level Examination Program (CLEP) was designed by The College Board to enable both traditional and nontraditional students to receive college-level credit by examination. There are two types
of examinations offered—the General Examinations and the Subject Examinations.

For general examinations, a minimum of three credits will be awarded for a score of 50 or higher. For subject examinations, credit will be awarded in the amount equivalent to the CSU course(s), for scores of 50 or higher. Go to the Registrar’s Office (http://registrar.colostate.edu/transfer-credit/) and select the tab "College-Level Examinations Program (CLEP)" for a complete table indicating those courses for which credit is awarded.

To obtain information or to make arrangements for taking the tests, contact the University Testing Center (http://testing.colostate.edu), General Services Building, Room 203, at (970) 491-6498, or visit the CollegeBoard website (https://clep.collegeboard.org/test-takers/feedback). Credit awarded for these examinations cannot be used in meeting the CSU residency requirement for the baccalaureate degree.

The academic department responsible for the course in which test credit is granted determines what equivalency will be awarded. Department decisions are considered the final determination of equivalency for the specific examination. Therefore, a request for re-evaluation or an appeal of the decision will not be considered.

International Baccalaureate (IB)

Students who graduate from high school with an International Baccalaureate diploma or have completed International Baccalaureate examinations may receive CSU credit for scores of four or higher.

The number of credits awarded for successful completion of an International Baccalaureate diploma program will be a minimum of 24 semester credits. If a score of less than four is received on an exam, the number of credits granted will be reduced accordingly if the student meets the necessary requirements.

The academic department responsible for the course in which test credit is granted determines what equivalency will be awarded. Department decisions are considered the final determination of equivalency for the specific examination. Therefore, a request for re-evaluation or an appeal of the decision will not be considered.

See the Registrar’s Office (http://registrar.colostate.edu/transfer-credit/) and select the tab "International Baccalaureate" for a list of courses for which credit will be granted.

Cambridge Pre-U Exam

The Cambridge Pre-U examination is a United Kingdom qualification from the University of Cambridge International Examinations and is an alternative to the current A Level qualification. This exam consists of “Principal Subjects” of which students have a free choice of three of 27 subject options. Additional subjects may be taken and possibly considered for credit but are not incorporated into the Cambridge Pre-U Diploma. Those students who complete an “Independent Research Project” and a “Global Perspectives” portfolio along with the 3 “Principal Subjects” options are eligible for the award of the Cambridge Pre-U Diploma.

There are additional “short course” options consisting of one year’s study, available in Modern Foreign Languages and Mathematics. The ‘Global Perspectives and Research Report’ (GPR) may also be considered for credit on a case by case basis.

Credits may be used toward the 120 credit minimum requirement for graduation and may be used toward general education (All-University Core Curriculum) requirements. Scores of D1-D3, M1-M3 and P1-P3 will be considered for credit as they are equivalent to a "C" or better grade. A maximum of 36.0 semester hours may be awarded for Cambridge Pre-U exams.

The academic department responsible for the course in which test credit is granted will determine what equivalency will be awarded. Department decisions are considered the final determination of equivalency for the specific examination. Therefore, a request for re-evaluation or an appeal of the decision will not be considered or accepted.

Evaluation of Transfer Credit

The Registrar’s Office is responsible for determining course equivalencies for all courses that are presented for transfer to CSU. Students should be aware that credits may transfer to CSU, but not count toward department graduation requirements. Evaluation of credits is made only from official transcripts after a student has been granted admission.

If a student attends one or more regionally accredited 2-year institutions a total of 64 transfer credits may be accepted. There is no limit for the amount of credit that can be transferred from regionally accredited 4-year institutions.

Regular academic courses from institutions accredited by one of the seven regional associations of schools and colleges completed with a grade of C- or better are generally accepted in transfer. Course work from institutions that are not regionally accredited will not be transferred. Coursework that is remedial or vocational/technical in nature will not be transferred. Transfer grades and credits are not computed within the cumulative GPA earned at CSU.

If coursework presented for transfer is over 10 years old, the academic department will need to review it for applicability towards degree requirements.

International institutions must be recognized by the country’s governmental agency for possible transfer of credits (i.e., Ministry of Education).

International Credit toward a Baccalaureate Degree

Transfer credit is generally only considered from international tertiary institutions that are recognized by the ministry of education, or a similar accrediting body, in the home country. In order to qualify for transfer credit, courses completed at recognized international tertiary institutions must be applicable to the student’s degree and comparable to the nature and quality of CSU courses.

International courses with the same or similar course titles as CSU courses may satisfy course requirements. An official or certified copy of the transcript must be presented to the Registrar’s Office for work to be officially evaluated for transfer credit. A certified translation must accompany transcripts not issued in English. The translation should be literal and not interpretive. If course content is not evident from course titles on the transcript, students should be prepared to provide official catalog course descriptions or syllabi (in English) from their schools or faculties.

Rarely is international secondary level work considered for transfer credit. The completion of rigorous secondary school subjects is expected of all admission candidates-international and domestic alike. Transfer credit is not awarded for secondary school subjects, unless an additional
Students who have completed courses in higher education want to know which colleges and universities will accept those courses and apply them to a degree. Transferology (https://www.transferology.com/login.htm) will provide quick answers from hundreds of institutions in a streamlined and dynamic interface.

Transferology™ enables students, advisors, faculty, and administrators from colleges and universities to obtain consistent and accurate information about how courses will transfer from one institution to another, and how courses will apply to meet academic program requirements at the other institutions. A potential student can have direct access to course acceptability, equivalency, and applicability among all participating institutions by using each institution’s existing course equivalency tables. Course descriptions, details about academic programs, and course equivalencies can all be obtained from this one website.

For CSU, Transferology™ is a database of selected accredited institutions in the U.S. and some recognized international institutions, their courses, and how those courses will transfer to CSU. All public institutions in Colorado and Wyoming are part of this database and, in addition, many frequently transferred courses from selected institutions in other states are also listed. Access this database by going to the Transferology (https://www.transferology.com/login.htm)™ website. If a particular institution is not listed, contact the Degree and Transfer Evaluation unit of the Registrar’s Office for evaluation of specific courses.

Statewide Guaranteed Transfer Program (gtPathways)
The state of Colorado has developed a statewide guaranteed transfer program, which applies to all Colorado public institutions of higher education, including CSU. Statewide there are approximately 1,000 lower-division general education courses in 20 subject areas approved for guaranteed transfer from one public institution of higher education in Colorado to another.

After starting on a higher education pathway at any public college or university in Colorado, and upon acceptance to another, a student may transfer up to 31 credits of successfully (C- or better) completed guaranteed transfer general education coursework in a set of defined categories. These courses will apply toward the general education (All-University Core Curriculum) graduation requirements at CSU. Extended detail may be found on the Colorado Department of Higher Education (CDHE) website (http://highered.colorado.gov/Academics/Transfers/Students.html). The Registrar’s Office (http://registrar.colostate.edu/transfer-credit/transfer-coursework) may also be referenced using the "GTPathways" tab.

Transfer Appeals Process
Students may appeal a decision regarding the transferability of a specific course and/or the decision regarding how it is used to fulfill degree requirements. Any request for re-evaluation of credit should first be directed to the Degree and Transfer Evaluation unit of the Registrar’s Office.

The student is responsible for supplying any supporting documentation from the student’s transferring college, such as a syllabus or more detailed course description. The Degree and Transfer Evaluation unit will either satisfy the student’s request or refer the student to an academic department for additional consideration. If the academic department cannot fulfill the request for any item related to an AUCC requirement or an overall university graduation requirement, a formal written appeal may be presented to the Degree and Transfer Evaluation unit for presentation to the Vice Provost for Undergraduate Affairs for a final decision. For information on the appeal process refer to the Registrar’s Office (http://registrar.colostate.edu/earning-my-degree/additional-degree-tools) in the "Appealing a Required Course" tab.

Credit from Two-Year Colleges
If a student attends one or more regionally accredited two-year institutions, a total of 64 transfer credits may be accepted.

Credit earned at a two-year college may not be used to meet the upper-division (300- to 400-level) graduation requirement. Academic departments may allow substitution of course work from two-year colleges towards specific major upper-division requirements.

Transfer guides for specific majors are available for students who want to complete a four-year degree at CSU by first completing an AA or AS degree at a Colorado community college, and then completing the 60 designated CSU credits listed on the guide. Students in programs requiring more than 120 credits should expect to take more than 60 additional credits at CSU to meet degree requirements. Please see the Registrar’s website (http://registrar.colostate.edu/transfer-credit/agreements-guarantees) and then select the "Current CSU Transfer Guides" tab.

Service Schools and Courses of the Armed Services
Credit may be allowed for transfer from those service schools carrying a baccalaureate credit recommendation in the latest Guide to the Evaluation of Educational Experiences in the Armed Services prepared by the American Council on Education (ACE). Students must submit SMARTS (Sailor/Marine American Council on Education Registry Transcript), AARTS (Army/American Council on Education Registry Transcript), JST—Joint Service Transcript, or Coast Guard Institute Registered Transcript to the Registrar’s Office to have the information evaluated for eligibility and to receive credit. Individual academic departments determine whether those courses clear specific major curriculum requirements or may be used as elective credit within the program of study. Visit the Registrar’s Office (http://registrar.colostate.edu/military-veterans-benefits/military-course-experience-transfer-credit) for further information.

Transfer Credit from Non-Collegiate Institutions
CSU will award transfer credit for academic work done under the sponsorship of non-collegiate institutions, if the courses proposed for transfer:
1. Have been approved by the American Council on Education,
2. Are listed in *The National Guide to Educational Credit for Training Programs*, and
3. Are approved by the academic department and college in which the subject matter is taught at CSU.

Please visit the Registrar’s Office (http://registrar.colostate.edu/transfer-credit/transfer-coursework) and select the "Non-Collegiate Transfer Coursework" tab for more information.

Tuition and Fees

Authority to set tuition rates is vested in the governing boards of Colorado’s state institutions of higher education. The tuition rates which apply to any succeeding fiscal year will not be known until June of each year. The Board of Governors of the CSU System, therefore, reserves the right to change tuition and fee schedules and related policies, including the time, date, and method for payment, at any time.

By registering for a course, a student acknowledges legal and financial responsibility for any and all tuition and fees assessed as a result of registration. Students must follow, and are financially responsible for, formal add/drop and withdrawal procedures at CSU. **Non-attendance does not relieve a student of financial responsibility.** A student whose account becomes delinquent will be held responsible for paying any late payment charges, collection agency fees up to 40% of the debt, and all costs and expenses including reasonable attorney fees that CSU incurs in its collection efforts. CSU will not register a student, release a diploma or proof of degree, or provide official transcripts to any current or former student who has past due financial obligations to CSU.

Undergraduate Tuition
Graduate Tuition
International
Fees

Undergraduate Tuition

Schedule of Tuition and Fees

The most current listing of tuition and fees, as well as a tuition calculator, can be found at the Office of Financial Aid’s (https://financialaid.colostate.edu/base-tuition) website.

In addition to the charges listed under each category, students may be required to pay differential tuition, program charges, charges for technology, and/or special course fees. Tuition and fees for a student registering for a combination of regular on-campus courses and Division of Continuing Education (CSU Online) courses will be assessed individually according to the schedule established for each.

Students who are off campus for full time internships, practica, and professional affiliations, and are not concurrently enrolled in other on-campus experiences or courses, may be assessed a reduced general fee amount.

College Opportunity Fund (COF)

Undergraduate Colorado resident students are eligible to receive a College Opportunity Fund (http://sfs.colostate.edu/cof) (COF) stipend from the State of Colorado to apply toward tuition costs. To receive the COF stipend, students must apply for the stipend (https://cof.college-assist.org) AND authorize CSU to receive the funds EACH semester via RAMweb.

Differential Tuition

To ensure students have an opportunity to fully explore their academic options and the range of programs offered at CSU, the University does not charge the full cost of tuition until students have acquired 60 credit hours (30 credits if in the College of Business). After that point, at which most students have settled on a major, students begin to pay differential tuition in addition to the base tuition paid up to that point. Differential tuition is assessed to undergraduate resident, non-resident, and WUE students. Credits that students bring upon entering the University may cause them to reach the 60 credit hours earlier than their peers. Almost all of the differential tuition students pay returns directly to the academic colleges and departments to enhance the quality of a CSU education.

Each CSU college’s rates are based on three factors:

- **High cost**—i.e., how expensive the program is to provide
- **High demand**—i.e., whether the program is in high demand by large numbers of students
- **High return**—i.e., how much students generally earn when they graduate from that specific program

Differential tuition is assessed by the course subject code at a rate of $55/72/95 per credit hour, depending on the course. Differential tuition is not assessed by a student’s major. For more detail on differential tuition cost per credit, go to the Office of Financial Aid’s website and select Undergraduate Differential Tuition (https://financialaid.colostate.edu/media/sites/38/2015/04/Undergraduate_Differential_Tuition-17-18.pdf).

Students are assessed differential tuition upon reaching 30 transcripted credits (sophomore level) for College of Business courses. Students are assessed differential tuition upon reaching 60 transcripted credits (junior level) for all other courses offered at CSU.

Differential tuition is also assessed for specific academic programs (https://financialaid.colostate.edu/media/sites/38/2015/04/Graduate-Program-Charges-17-18.pdf) that cost more to offer.

Graduate Tuition

Graduate tuition and fees (https://financialaid.colostate.edu/base-tuition) are updated annually. Information about financial support for graduate students is available in the Graduate and Professional Bulletin.

International

The International Student and Scholar Services (http://iss.s.colostate.edu) administrative charge is $90 the first semester and $65 for each subsequent semester. Fees are subject to change. Sponsors
of international students, such as foreign governments, are assessed a charge of $375 per term.

**Personal and Living Expenses**

Students from other countries should anticipate expenses considerably higher than those quoted for domestic students. Additional considerations include costs of deposits for off-campus housing, transportation, international travel, clothing (particularly winter clothing for those coming from warmer climates), living expenses during vacation periods and during the summer months for those who choose to remain on campus, the cost of keeping an automobile and insuring it, child care, shipping books and other belongings home, taxes owed on U.S. source income, and items of personal use which cannot be brought in a suitcase and which must be purchased in the United States after arrival. An annual inflation rate of 3% should be anticipated in all calculations. Refer to the Office of International Programs (http://issss.colostate.edu) for an up-to-date list of estimated expenses.

**Medical Insurance**

All International Students who are enrolled at Colorado State University are required to maintain health insurance, and are automatically enrolled in the CSU Student Health Insurance Plan each semester. To opt-out of the CSU Student Health Insurance Plan, students must demonstrate proof of comparable coverage via the waiver at International/INTO Student Waiver (https://health.colostate.edu/international-into-waiver). The deadline to submit a waiver request is by the 10th day of classes. Dependents of international students and scholars are also required to have adequate health insurance. However, CSU no longer offers the option of enrolling spouses, dependents, or domestic partners in the CSU Student Health Insurance Plan. For a list of alternative health insurance services for any family members who will be with you, visit International/INTO Student Health Insurance Plan (https://health.colostate.edu/international-into-ship) and scroll to the bottom.

**Housing**

CSU requires that all newly admitted first-year students (Admissions Type “New”) and transfer students with fewer than 15 post-high school credits, who are single, under 21 years of age, and not living with their parents in the Fort Collins area, live in the University residence halls for the first two consecutive terms of their attendance. Credits taken concurrent with high school and/or credits attained through Advanced Placement (AP) or International Baccalaureate (IB) do not apply toward living experience. First year students are guaranteed a room in a residence hall on campus (http://www.housing.colostate.edu/residence-halls). The residence halls house 20% non-first year students including transfer students and upper-class students. Students with families, graduate students, and upper class undergraduate students can find information on university apartments (http://www.housing.colostate.edu/university-apartments). Off-campus housing information can be found at Off-Campus Life (http://ocl.colostate.edu).

**Third-Party Billing**

CSU’s Sponsor Billing office provides a service that allows a third party sponsor to pay the university for authorized student charges. A sponsor is any government agency, business, embassy, foreign government, third-party trust fund or other entity that agrees to pay for all or part of a student’s expenses while at CSU. A sponsor billing service charge of $50 is assessed each term to all sponsors that have requested direct billing through the Sponsor Billing office. If the sponsor does not authorize the sponsor billing charge, the $50 charge will be billed to the student account. All agencies and other entities sponsoring international students, which utilize third party billing privileges, will be assessed a $375 base service fee per student per academic term by the Office of International Programs. This fee applies to all international students who receive services regardless of whether the student is registered for credit-bearing classes. For a copy of the Service Schedule and/or a detailed list of estimated expenses, send a request to: ISSS Assistant Director, Sponsored Degree Programs, Office of International Programs, 1024 Campus Delivery, Colorado State University, Fort Collins, CO 80523-1024.

¹ Fees are subject to change.
² Undergraduate students enrolled in twelve (12) or more credits and graduate students enrolled in nine (9) or more credits are considered full time and required to pay the full amount according to their college affiliation. Part-time undergraduate and graduate students pay a prorated amount. Graduate students in the College of Natural Sciences, College of Veterinary Medicine and Biomedical Sciences, and the Intra-University option are not assessed a charge. The Colleges of Business and Health and Human Sciences are the only colleges that apply their charge during the summer session.
³ Undergraduate and graduate students enrolled in fewer than six (6) credits are assessed $12.81.
Special Course Fees

Certain courses require enrolled students to pay fees for special services and/or materials. Courses with fees are indicated by a Yes in the Special Course Fee line in Courses A-Z. Special course fees are updated in June for the upcoming academic year. For the most current listing of special course fees, visit the Provost and Executive Vice President’s web page (http://provost.colostate.edu/students) and select Complete List of Special Course Fees.

There are four types of special course fees:

1. For some courses, enrolled students are assessed a uniform fee during registration to cover costs such as the rental of external facilities, the expenses of field placements, the provision of special equipment and materials that the University would not otherwise maintain, and/or the costs of off-campus travel of students with supervising faculty members.

2. For some courses, enrolled students are assessed a fixed or variable fee by the department based upon actual use of expended materials supplied by the department and used by the student in the creation, construction, and/or fabrication of an object of value, such as a class project that becomes the student’s property. These fees are designed for situations in which it is more efficient for the departments to supply the expendable materials because of the inability to make individual purchases economically.

3. For some courses, enrolled students are assessed variable fees by the department based upon actual damage or non-return of equipment used in the courses.

4. For some courses, enrolled students are assessed a fixed fee to provide funds for replacement or upgrade of equipment that was purchased originally through department funds and cannot be maintained appropriately without this type of student fee support.

All special course fees will be assessed and collected through normal student accounts receivable procedures. No fees should be paid directly to academic departments or individuals.

Tuition and Fee Adjustments

Registration Cancellation
Registration Changes
Course Withdrawal
University Withdrawal
Student General Fee Appeal Process

Registration Cancellation

Before classes begin for a particular term, all courses can be canceled via RAMweb (https://ramweb.colostate.edu) with no assessment charges. Students not planning to attend must cancel their registration before the fall or spring semester begins or they will be assessed a portion of tuition and fees.

Registration Changes

Tuition and fees will be adjusted (not cancelled) for undergraduate students if credits are added or dropped during the schedule change period at the beginning of the semester. Specific dates are listed in the online class schedule. After this deadline, there is no adjustment in tuition and fees if a student drops part of his or her schedule.

Course Withdrawal

Students may withdraw from a course through the end of the Withdrawal period for the individual class. The specific date is listed on the online Class Schedule (http://ramweb.colostate.edu/registrar/public.class_schedule_quick_search.aspx) or in the My Weekly Class Schedule on RAMweb (http://ramweb.colostate.edu). When a student withdraws from a course, a W will appear in place of the grade. This does not affect the GPA. There is no refund of charges associated with the course in the case of a withdrawal for an on-campus course. For charges associated with withdrawing from a Continuing Education online course, please go to CSU Online (http://www.online.colostate.edu).

University Withdrawal

Once the semester begins in fall or spring, students dropping all courses and leaving CSU (completing a University Withdrawal) must do so through RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx).

The schedule for tuition and fee adjustments for students withdrawing from CSU may be found on the Registrar’s website (http://Registrar.colostate.edu/registration/registration-changes).

Exceptions to the prorated tuition and fees adjustments may be made in the following situations:

1. CSU will prorate tuition and fees according to institutional policies; withdrawing students who receive federal, state, or institutional financial aid may be required to return certain funds based on the date of withdrawal or documented last date of attendance, as prescribed by federal regulations.

2. CSU room and board charges will be assessed through the vacate date from CSU housing.

3. In the case of the death of a currently enrolled student, request for a refund of tuition and fees may be made any time during the semester. For guidance on this process contact the Office of the Provost/Executive Vice President, Administration Building, Room 108, or 970-491-5932.

4. Withdrawal as a result of serious illness, disabling accident, military draft, or activation of reserves or National Guard units, appeals will be initiated and reviewed at the Office of the Provost/Executive Vice President, Administration Building, Room 108.

5. Please note: No financial adjustment will be made for a student who is suspended, dismissed, or expelled for breach of discipline.

Additional information related to University Withdrawals, being called to active military duty, registration cancellation, and other registration changes is available in the Registration section of Academic Standards and Policies.

Student General Fee Appeal Process

Billing for the Student General Fee may be contested, in writing, within the first two weeks after the add/drop date of the term for which the fee is imposed. The request should outline the particular circumstances for contesting the applicability of the mandatory full-time Student General Fee. Send the request to: Student General Fee Appeal Committee, Office of the Vice President for Student Affairs, CSU, 8004 Campus Delivery, Fort Collins, CO 80523-8004. The following information should be included in the request: full name, CSUID, current address, telephone number, and e-mail address. Decisions of the committee are final.
CSU Online

Tuition for CSU Online Courses

Tuition and fees assessed for courses offered through CSU Online (Division of Continuing Education) vary by program, level of instruction, and delivery method. Colorado residency status is not a factor in determining online, distance, or off-campus tuition rates; however, residency status is a factor in determining tuition rates for some on-campus credit courses offered through CSU Online. Tuition assessed through CSU Online is in addition to any other tuition assessed by the University. Refer to the CSU Online website for specific tuition rates and more information.

CSU Online courses and programs qualify for financial aid (http://www.online.colostate.edu/faqs/financial-aid.dot), including federal financial aid, scholarships, military discounts, and veterans’ benefits.

Additional Expenses

Personal and Living Expenses
Student Health Insurance
Housing Deposit

Personal and Living Expenses

The amount of money spent by a student in an academic year (two semesters—August to May) for personal and living expenses varies with current prices and the habits and needs of the student; therefore, it is important that each student estimate the amount of money needed for such items as laundry, clothing, transportation, health care, etc. Expenses not directly related to educational costs are not included in the estimates.

Example of Estimated Direct Expenses for 2018-2019 (based on 15 credits per semester for 2018-2019)

</tbody>
</table>

1 A significant percentage of non-residents with competitive academic records are offered scholarships to help offset the cost of tuition.
2 If you are a Colorado resident, be sure to apply for the College Opportunity Fund (COF) (https://cof.college-assist.org).
3 There may be additional costs for undergraduate students enrolled in courses with differential tuition. For more information about tuition and fee charges, visit the Office of Financial Aid (https://financialaid.colostate.edu/base-tuition) website.
4 For students residing in CSU housing, an average amount, assuming double-occupancy suite-style room with an “Any 14” meal plan; Actual expenses may vary. For details visit the Housing & Dining Services website (http://housing.colostate.edu).
5 This figure does not include personal expenses for such items as, laundry, clothing, transportation, health care, etc., which vary from student to student.

Office of Financial Aid (http://sfs.colostate.edu) provides additional information about annual costs, including estimates of personal expenses.

Student Health Insurance

To protect students’ good health and financial stability, students are required to carry adequate health insurance coverage (http://health.colostate.edu/student-health-insurance).

Housing Deposit

Residence Halls
The $350 housing deposit for residence hall students serves as both a reservation fee and a contractual guarantee. A refund of this deposit is available if the applicant cancels their request prior to the published deadline for each semester. For specific information about the refund policy, refer to the “Housing Deposit & Refund Information” outlined in the Housing Guide or on the Housing & Dining Services website (http://housing.colostate.edu).

University Apartments
A $350 application deposit is required for students applying for university apartments. This deposit will convert to a damage/cleaning deposit at the time of assignment. The deposit will be refunded any time prior to confirming an apartment assignment, upon request. The refund procedure for current apartment residents is outlined in the Apartment Life lease. For further information, refer to the Housing Guide or the Housing & Dining Services website (http://housing.colostate.edu).

Enrollment Status

Enrollment status (full-time, three-quarter time, half-time, less than half-time) is determined by the number of credits which the student has completed or is pursuing for the term in which the verification is requested. Courses from which the student has withdrawn or is auditing are not included. (The following schedule for enrollment status differs from the full-time/part-time schedule for tuition and fees. (https://financialaid.colostate.edu/base-tuition))

Credit requirements are as follows:

Definition of "In-State Residency"

Under the Colorado tuition law, the term "in-state" student means:

"A student who has been domiciled in Colorado for one year or more immediately preceding the first day of classes for the term for which such status is claimed." Further the tuition law states: "Attendance at an institution of higher education, public or private, within the state of Colorado shall not alone be sufficient to qualify for domicile in Colorado."

In-state classification requires domicile in Colorado for 12 months on or prior to the first day of classes of each semester. "Domicile" is the term used to describe the place where a person has chosen to make a permanent and fixed home. Domicile is made up of two components: physical presence and evidence of intent. Both physical presence and evidence of intent must be established to begin the domicile year. A student can only establish domicile in Colorado for tuition purposes if he or she intends to reside permanently in the state, and meets the definition of a "Qualified Person." A qualified person is one who is (a) 22 years of age or older, (b) a post-baccalaureate graduate student, or (c) an emancipated minor. (A minor who is married for 12 months is presumed to be emancipated.) A person must be qualified under one of these categories in order to begin the 12-month period of domicile for purposes of in-state tuition. Unemancipated minors qualify for in-state tuition if their parents have been domiciled in Colorado for one year. Exceptions to One Year Domicile (https://financialaid.colostate.edu/exceptions-to-1-year-domicile-requirements) are in this section and also online.

Initial residency determination for tuition purposes of any student enrolling at CSU is determined by the Office of Admissions (http://admissions.colostate.edu). To be initially considered for in-state classification you must answer all residency questions completely and accurately on the application and submit requested evidence substantiating their claim. Failure to do so will result in classification as out-of-state for tuition purposes. The initial determination may be changed if additional evidence regarding the student's eligibility for in-state classification is received.

Petition for Reclassification

A petition may be filed if a student wishes to contest out-of-state classification or if he or she has subsequently become eligible for in-state status. Petition materials may be obtained from the Office of Financial Aid (http://financialaid.colostate.edu). Petitions will be processed only for students who have been admitted to CSU and are currently enrolled for the semester for which they are requesting a change in classification.

A student’s current tuition classification will remain until they have received notification from the Office of Financial Aid (http://sfs.colostate.edu) Tuition Classification Officer indicating a residency change has been approved. Students who are petitioning for in-state classification remain responsible for paying their tuition based upon current tuition classification. Students are strongly urged to petition by the "Priority Deadline to Submit Petition" provided on the Office of Financial Aid website (https://financialaid.colostate.edu/petition-process-and-deadlines) in order to receive a response of their tuition classification prior to the beginning of the semester and tuition and fee deadlines.

Petition Process/Deadline

The Office of Financial Aid (http://financialaid.colostate.edu) must receive completed petitions no later than the published deadline date for the semester for which the student is petitioning. Deadlines (https://financialaid.colostate.edu/petition-process-and-deadlines) are provided on the Office of Financial Aid (http://financialaid.colostate.edu) website. Petitions will not be accepted after the published deadline date and incomplete petitions will not be accepted and/or reviewed for that semester, and the tuition classification and tuition assessment will remain nonresident for that term.

Students will be notified of the results of their petition by mail or CSU email. Please allow up to six weeks for notification. If additional information is required, the additional information must be submitted within the requested time frame unless special arrangements are made with the Tuition Classification Officer.

Decisions made by the Tuition Classification Officer may be appealed to the University’s Residency Appeals Committee. A student wanting to appeal the decision to the Residency Appeals Committee must contact the Office of Financial Aid (http://financialaid.colostate.edu) no later than the appeal date listed in the letter in which the decision was conveyed to the student. The decision of the Residency Appeals Committee is the final CSU determination for that specific semester. In addition, there are no provisions in the Tuition Classification Statutes for retroactive petitioning.

The fact that a student does not qualify for in-state status in any other state does not guarantee in-state status in Colorado; in-state
classification is governed solely by Colorado statute. The tuition classification statute places the burden of proof on the petitioner to provide clear and convincing evidence of a change in eligibility for in-state tuition once the student has registered.

Any student who provides false information to avoid paying out-of-state tuition may be subject to legal and/or disciplinary actions.

**In-State Status: Other Circumstance**

 Exceptions to the one-year residence requirement exist for the following:

- Colorado National Guard members
- Active-duty military stationed in Colorado on permanent orders in the last 12 years
- Honorably-discharged members of the U.S. armed forces
- Active-duty military members domiciled in Colorado prior to enlistment
- Canadian military stationed in Colorado
- Employees of companies moving to Colorado receiving government economic incentives
- Children of new faculty members at Colorado state colleges and universities
- Western Regional Graduate program enrollees
- 4 year rule and complete junior year of high school in Colorado
- A student, other than a nonimmigrant alien who attended a Colorado high school for three years who is admitted into a Colorado Institution of Higher Education within twelve months after graduation or completing a GED in Colorado.

For detailed explanation of the requirements for these exceptions, including spouse and child eligibility, go to the Office of Financial Aid (http://financialaid.colostate.edu/residency) website or review the Colorado Higher Education Residency Guide (http://highered.colorado.gov/Finance/Residency/default.html).

**Paying Your Bill**

Cashier’s Office
Howes Street Business Center, First Floor
555 South Howes Street
(970) 491-2767
http://bursar.colostate.edu/Depts/Cash_Office.aspx

A student may make a payment on their student account by using CSU’s preferred online payment options. Online payments are the fastest, most secure way to make a payment. Payment by electronic check is a free, easy to use service for students and other authorized individuals.

Online payments may be accessed through RAMweb (https://ramweb.colostate.edu) and/or FAMweb (https://famweb-prod.is.colostate.edu/auth/login). The routing number and bank account number (from the bottom of a personal check or a bank statement) is required.

For details on other payment options, please visit the Cashier (http://busfin.colostate.edu/Depts/Cash_Office.aspx)’s website (http://bursar.colostate.edu/Depts/Cash_Office.aspx).

**Student Billing**

Office of Financial Aid
Office in Centennial Hall, First Floor

(970) 491-6321
financialaid.colostate.edu (https://financialaid.colostate.edu)

In support of CSU’s Green Initiatives, CSU implemented eBilling effective in Fall 2010. Billing notifications are emailed to Rams email addresses. Students can then log into RAMweb to view their University Billing Statement(s). Additional ebilling notifications may be sent to alternate email addresses maintained by the student on RAMweb.

**Due Dates:**

<table>
<thead>
<tr>
<th></th>
<th>Fall</th>
<th>September 10</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Spring</td>
<td>February 10</td>
</tr>
<tr>
<td></td>
<td>Summer</td>
<td>June 10</td>
</tr>
</tbody>
</table>

**University charges are due by the date specified on the bill.** Due dates are the 10th of each month unless the 10th falls on a weekend or holiday, then the due date is the following business day. All payments should be in U.S. currency. Mailed payments must reach the University Cashier's Office, 6015 Campus Delivery, by 4:00 p.m. (MST) on the due date. Payments by check are processed when received – postmarks do not apply and future dates are not honored. Online payments must be made by 4:00 p.m. (MST) on the due date for the payment to be considered timely. Penalties for late payment include holds on University services and a monthly 1.5% payment deferral charge of the past due balance. Penalties are initiated for the purpose of encouraging prompt payment.

Beginning Spring 2018, CSU now offers a Payment Plan! Students and Authorized Users can elect to make monthly installments with no-hassle withdrawals that are automatically deducted each month from a designated domestic checking or savings account. For more information, please visit the CSU Payment Plan (https://financialaid.colostate.edu/payment-plan) web page. To enroll, login to RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx) or FAMweb (https://famweb-prod.is.colostate.edu/auth/login) and from the main menu, click on Billing and Tax Information and follow the payment plan links and instructions.

**Student Account Notes**

Students are responsible for all charges on their account and arrangement of payments due. Payments should only be made when a balance due exists on an account, unless the CSU Payment Plan is being utilized. In general, overpayments will not be applied to the student’s account and will be returned within two weeks if no additional charges are posted to the account.

Students who are sponsored by a third party may request direct billing to the sponsor for tuition, fees, and other related educational expenses. Detailed information on sponsor billing is available upon request from the Accounts Receivable/Sponsor Billing Office (http://www.bursar.colostate.edu/Depts/ALR_Sponsor_Billing.aspx). Arrangements for sponsor billing, and acceptance of the Sponsored Student Billing Agreement and FERPA, must be made prior to the student account due dates to prevent payment deferral charges from being assessed.

The “Billing and Tax Information” section in RAMweb (https://ramweb.colostate.edu) provides more information on billing statements, paying your bill, accepted payment methods, CSU Payment Plan, direct deposit refund sign up and Tuition Statement tax information (Form 1098-T).
Once a student is no longer considered to be enrolled, billing will switch from eBilling to paper statements unless otherwise requested by the student with the Accounts Receivable Office (http://busfin.colostate.edu/Depts/ALR_Student_accts.aspx). While the account is still being held at the university, monthly billing statements regarding any past due balances owed to the university will be mailed to the primary address on file for the student. It is the student’s responsibility to maintain correct addresses (mailing and email) with CSU at all times (refer to Address Updates).

Unpaid past due balances may cause a hold on registration, transcripts and diplomas. CSU will not register a student, release a diploma, or provide official transcripts or proof of degree conferral to any student or former student who has past due financial obligations to CSU, until the hold is removed. The release of the hold may be expedited by paying the past due balance in full.

Failure to pay amounts due may result in the referral of the outstanding balance to a collection agency, at which time the student would be responsible for any late payment charges, collection agency fees up to 40% of the debt, and all costs and expenses including reasonable attorney fees that CSU incurs in its collection efforts. The account will also be reported to one or more of the national credit bureaus as well as the State of Colorado Department of Revenue for possible interception of state income tax refunds, lottery winnings and wage garnishment. Further, CSU reserves the right to impose a penalty fee and financial hold for returned payments (refer to Returned Payments policy).

Returned Payments
As provided by state law, a penalty will be assessed to the account for each payment not accepted by the bank because of insufficient funds, stopped payment, non-existent account, closed account, invalid account information or any other reason for which the person is responsible.

CSU will attempt to contact the originator of the payment by mail and/or by telephone or email. In the case of students, a notice will be mailed to the primary address on file for the student. (All students are required to maintain a current address, telephone number and email address with CSU at all times.) These reparative payments are considered due in full immediately. The payment must be equal to the full amount of the original payment plus penalty and fee. Failure to follow through will result in further collection actions. If CSU receives a returned payment, all payments from that time forward will require guaranteed funds. Please note: If the presentation of the original payment permits a student to register for an academic term and if full payment of the returned payment plus penalty and fee is not made by the specified deadline, CSU reserves the right to cancel a student’s class enrollment.

Address Updates
It is the student’s responsibility to maintain correct addresses (mailing and email) with CSU. To create or update an existing address, go to RAMweb (https://ramweb.colostate.edu). In order to communicate quickly and effectively with students, CSU now requires that each enrolled student provide an email address. CSU has designated email as an official form of communication to students. Information about @rams email accounts, including how to forward to another email account (https://eid.colostate.edu/gmail/Faq.aspx?idval=6FORW), may be found on the eID website (https://eid.colostate.edu/students.aspx).

Being able to communicate electronically with the student population provides several benefits:

- It allows CSU to communicate promptly with students regarding their billing statements, financial aid and amounts due
- Students can be quickly notified by professors and CSU offices of events that affect them personally or may be of interest to them generally (e.g., classroom changes, class meeting time changes, department activities, billing, etc.).
- It’s faster and less costly than printing and mailing letters.
- It advances CSU’s commitment to environmental consciousness by reducing paper use and eliminating physical refuse.

It is also essential that students maintain a current mailing address with CSU. If the student leaves the University for any reason and still has a balance due to the University, it is the student’s responsibility to keep their address up-to-date in order for CSU to reach the student regarding the balance. If CSU is unable to reach the student because contact information is not kept up-to-date, the account may be referred to a collection agency for further collection action. Addresses can be updated on RAMweb (https://ramweb.colostate.edu).

Deadlines for registration and payments of tuition, fees, and other charges must be met to allow registration to occur. Therefore, students must respond to correspondence from CSU in a timely manner.

Financial Assistance
Office of Financial Aid
Applying for and Retaining Financial Aid
Student Employment Services
Veteran’s Benefits
Financial Support for Graduate Students

Office of Financial Aid
Centennial Hall
(970) 491-6321

The Office of Financial Aid (http://sfs.colostate.edu) administers a variety of institutional, state, federal, and private financial assistance programs for qualified students. Financial assistance programs include scholarships, grants, loans, and employment. Employment opportunities available include the Work Study Program, on-campus departmental positions, and community part-time employment.

Financial Aid Programs
CSU offers a variety of financial assistance programs for students based on merit and income. Awards recognize scholastic achievement, assist low income students, and provide funding so students can reach their goal of graduation.

Detailed information on all financial aid programs is available on request from the Office of Financial Aid (http://sfs.colostate.edu). Financial aid policies and procedures may change without notice.

Scholarships
CSU administers state, federal, institutional, private agency, foundation, service club, and individual scholarships. The CSU Scholarship Application (CSUSA) is available on RAMweb (https://ramweb.colostate.edu) December 1 to March 1 of each year. Students use the CSUSA to apply for most CSU scholarships. Scholarship information, including specific criteria, application requirements, and deadline dates is available on the website.
Nationally Competitive Scholarship Opportunities

Assistance is available to qualified undergraduate students who wish to apply for nationally competitive scholarships and fellowships sponsored by federal and private organizations. These include but are not limited to the Truman, Marshall, Udall, Rhodes, Gates-Cambridge, Goldwater, and Fulbright scholarships. These scholarships and fellowships are highly competitive and require high grade point averages (GPAs), a commitment to service both on and off campus, and specific career and professional goals. In many instances, these organizations support undergraduate and/or graduate work within the United States as well as abroad. The Office (http://tilt.colostate.edu/osfa) for Scholarship and Fellowship Advising (http://tilt.colostate.edu/osfa) provides students with information on eligibility, campus deadlines, and assistance in applying for these nationally competitive scholarships and fellowships.

Grants

CSU administers a number of grant programs available to undergraduate students. Several are restricted to Colorado residents.

- Colorado Student Grant (Colorado’s College Responsibility Program)
- CSU Tuition Assistance Grant
- CSU Ram Grant
- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant

CSU administers the Federal Pell Grant program for qualified undergraduates. The federal government establishes the dollar limit for the Federal Pell Grant program each year. All grants may be re-awarded in subsequent years, providing the student reappears for financial aid, continues to document financial need, and maintains satisfactory academic progress.

Loans

CSU participates in the following loan programs:

- Federal Perkins Loan Program (program set to expire September 30, 2017)
- Federal Direct Loan Programs, both subsidized and unsubsidized
- Federal Direct Parent PLUS Loan Program
- Federal Direct Graduate PLUS Loan Program
- Health Professions Loan Program – veterinary medical degree program only

Loan amounts vary depending on degree program, need, eligibility, availability of funds, and maximum limits established by federal regulations.

Work-Study

Work-study programs are administered by Student Employment Services and provide part-time employment opportunities to qualified, degree-seeking students. Types of work-study awarded include federal and state need-based work-study, as well as state and institutional no-need work-study. Work-study awards are based on the evaluation of a student’s financial need (or no-need) and availability of funds.

If not initially awarded work-study, students can apply via the Request Work-Study Application on RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx). Students who have work-study earnings in the current year should have it renewed for the next year, and would not need to complete the application. All work-study is limited in funding and is awarded on a first-come, first-serve basis. The Request Work-Study Application is available May 1 (on RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx)) for the following academic year. Undergraduate and graduate, new and continuing, resident and non-resident students are eligible to apply.

Applying for and Retaining Financial Aid

Application Procedures for Need-Based Financial Aid

Students use the Free Application for Federal Student Aid (https://fafsa.ed.gov) (FAFSA) to apply for financial aid. Application and procedures for any of the above programs may be obtained from the Office of Financial Aid (http://sfs.colostate.edu/applying-for-aid) and is available on the website.

Satisfactory Academic Progress Standards

Students applying for and/or receiving financial aid are expected to maintain satisfactory academic progress. Failure to perform at established levels may result in students becoming ineligible for financial aid. Copies of the complete policy are available at the Office of Financial Aid (http://sfs.colostate.edu/satisfactory-progress), in “Your Financial Aid Guide,” or on the website.

Unofficial Withdrawals

Students who leave CSU and do not formally withdraw will be assigned grades of “U” (unsatisfactory) or “F” (failure). Additionally, recipients of federal aid who never began attendance or who unofficially withdrew from CSU will have federal aid adjusted based on the date of the latest academic event in which the student participated.

If no academic event can be documented, 100% of federal, state, and institutional aid will be cancelled because the student never began attendance. An academically-related activity includes, but is not limited to, verifiable class attendance, an exam, a tutorial, computer-assisted instruction, turning in a class assignment, or attending an assigned study group session.

Fraudulent Receipt of Funds

Students who receive student aid funds through a misrepresentation, falsification, or omission of information may have their names referred to appropriate law enforcement authorities for possible prosecution under the law. Any person who purposely gives false or misleading information may be fined $20,000, sent to prison, or both.

Reporting Changes

All students must immediately notify the Office of Financial Aid (http://sfs.colostate.edu) of any additional resources, such as scholarships, veteran’s non-educational benefits, etc., any changes in their financial situation, residency, class standing, or any other factors which can reasonably be construed to impact their eligibility for financial aid.

Student Employment Services

Office in Centennial Hall
(970) 491-5714

Student Employment Services (http://ses.colostate.edu) is responsible for CSU’s Student Employment Program. This office lists work-study positions, on-campus student hourly positions, and is a central listing source for outside employers to post community jobs. Students may view job notices on RAMweb (https://ramweb.colostate.edu).
All individuals who are currently degree-seeking, and enrolled in a minimum of one credit, may use this service.

Student employees, both work-study and student hourly, are compensated on an hourly basis and are paid every other week (based on the payroll schedule) through direct deposit to their personal checking or savings account. All student employees enrolled at least half-time as degree-seeking students are exempt from retirement withholdings. Enrollment is verified every pay period.

Several thousand students work on campus each year through the work-study and student hourly programs, and a large number of students find employment off-campus.

CSU is an Equal Opportunity Employer, and adheres to the state’s fiscal rules and the regulations set forth by the Department of Education and the Colorado Department of Higher Education, which govern the work-study and student employment programs.

Student Employment Services staff encourages any student seeking a job, or with employment concerns, to contact them.

**Veterans’ Benefits**

The Registrar’s Office assists the Department of Veterans’ Affairs (VA) in providing certification for the following education benefits:

Under Title 38, U.S. Code

- Chapter 30 (Montgomery G.I. Bill)
- Chapter 31 (Vocational Rehabilitation)
- Chapter 32 (Post-Viet Nam Era)
- Chapter 33 (Post-9/11 G.I. Bill)
- Chapter 35 (Dependents Educational Assistance)

Under Title 10, U.S. Code

- Chapter 1606 (Selected Reserve/National Guard Members)

In addition, the Veteran’s Education Benefits Office will advise and assist students in:

- Meeting residency requirements under the Veterans Choice Act of 2014, Colorado’s GI Promise or the Yellow Ribbon Program
- Requesting and obtaining Joint Service Transcripts
- Obtaining additional campus services

Students eligible for any of these benefits must contact the Veteran’s Education Benefits Office (http://registrar.colostate.edu/military-veterans-benefits/benefits-contact-information) in the Registrar’s Office prior to the expected date of enrollment. Applicants should apply to CSU in a degree-seeking major or for teacher licensure before applying for veterans’ education benefits.

A description of the services (http://veteransresources.colostate.edu) CSU provides may be found online. Regulations governing receipt of veterans’ education benefits, Standards of Progress, and other policies (http://registrar.colostate.edu/military-veterans-benefits) are also available online.

**Financial Support for Graduate Students**

**Graduate Assistants**

Full-time graduate assistants receive a minimum monthly stipend during the academic year, as set by CSU. Such assistants must register for and complete at least one on-campus credit during each fall and spring semester during which the assistantship is in effect; and such credits as the appointing department may require each summer term during which the appointment is in effect. Assistants may have tuition payments made in their behalf.

Additional information about financial assistance for graduate students is available in the Graduate and Professional Bulletin.
Academic Advising

Undergraduate Students

Advisee (Student) Roles and Responsibilities
Advisor Roles and Responsibilities
Where Do I Find My Advisor?
Advising Resources
Undeclared Advising
Graduate Students

Academic Advising

Colorado State University is committed to providing high quality advising services to all students.

Undergraduate Students

Academic advising is a relationship with mutual responsibilities between an advisor and student advisee for consultation, sharing of accurate and complete information, careful listening, critical evaluation, and respectful interchange. Academic advising can be facilitated by either professional staff or faculty. Hereafter the term “advisor” will mean any faculty, staff, or academic success coordinator (ASC).

Advisee (Student) Roles and Responsibilities

Students carry important responsibilities in the advising process. In the interest of successfully completing a degree program, a student must be proactive in finding the necessary resources needed for attaining a degree. In order to contribute to an effective advising relationship, students are expected to:

- Schedule and attend advising sessions each semester prior to course registration;
- Understand and use degree resources such as the Degree Progress Audit (DARS), the degree requirements listed in the General Catalog (http://catalog.colostate.edu/general-catalog), and the Major Completion map provided in the General Catalog (http://catalog.colostate.edu/general-catalog);
- Clearly articulate, to the best of one’s ability, personal values, abilities, interests, goals, and areas of challenge;
- Become knowledgeable of all graduation requirements and adhere to institutional policies, procedures, and deadlines;
- Prepare for each advising session;
- Follow through on actions identified during each advising session;
- Act professionally when moving through the advising process;
- Responsibly evaluate advisor in order to strengthen the quality of advising;
- Become familiar with the Career Center (https://career.colostate.edu) and other campus resources and use those resources to explore and prepare for careers.

Students should meet with their advisor within the first 6 weeks of arriving on campus, to prepare for registration, and anytime they have questions or problems they cannot resolve on their own. It is important for students to utilize advisors for assistance with course selection, major information or exploration, career planning, graduation requirements, and campus resource information.

Advisor Roles and Responsibilities

The advisor’s responsibilities include the following:

- Help students define and develop realistic educational goals;
- Assist students in creating an academic plan consistent with their abilities, interests, and goals;
- Assist students in monitoring and evaluating their educational progress;
- Assist students in identifying the appropriate Career Education Manager;
- Interpret and provide rationale for institutional policies, procedures, and requirements;
- Monitor designated educational transactions, e.g. course selection, changes of major, graduation requirements, etc.;
- Refer student to appropriate campus resources;
- Maintain a confidential advising record for each student;
- Designate and communicate hours available for advising;
- Inform students of the nature of the advisor/student advisee relationship.

Where Do I Find My Advisor?

- Each undergraduate student is assigned an advisor corresponding to their academic major(s). Undergraduate students may locate their assigned advisor in RAMweb (https://ramweb.colostate.edu). If the advisor assignment is unclear, the student should contact the department that offers their primary or secondary major. For minor advising please use the search function in the General Catalog (http://catalog.colostate.edu/general-catalog). Undeclared students (students exploring majors and/or working toward entry into a competitive major) should contact the Collaborative for Student Achievement (http://www.casa.colostate.edu).
- In addition to the assigned advisor, students may work with an additional advisor if interested in a professional program such as medicine, law, veterinary medicine, or teacher licensure. Students will also have more than one advisor if completing a double major, minor, or are involved in study abroad, athletics, the Honors Program, or the
In order to get the best from the academic advising experience, students are encouraged to utilize the many advising tools that are available.

- The Degree Progress Audit (DARS) is an undergraduate degree audit that shows what graduation requirements a student has completed and what requirements still need to be completed. This audit can be found on RAMweb (https://ramweb.colostate.edu) under Academic Planning and Progress and viewed at any time.
- The Course and Graduation Planner is a tool allowing undergraduate students to plan out their semester-by-semester plan through graduation. This tool works well for new first-year, transfer, and continuing students in a designated major. It allows students to add or delete extra semesters and validates against DARS to make sure that all requirements have been met. Students may access this via RAMweb (https://ramweb.colostate.edu).
- Major Completion Maps are available for undergraduate majors, concentrations, and options. These Maps show a sample semester-by-semester coursework plan, and identify critical courses and requirements that are essential for timely graduation. Major Completion Maps can be found under each academic major in the General Catalog (http://catalog.colostate.edu/general-catalog).
- The All-University Core Curriculum (http://catalog.colostate.edu/general-catalog/all-university-core-curriculum) (AUCC) outlines the general education requirements for graduation.
- Advising@CSU (http://advising.colostate.edu) has a compilation of resources, policies, and procedures for students.
- Undeclared students are encouraged to visit the Collaborative for Student Achievement (http://www.casa.colostate.edu) office to discuss selection of a major and to ensure they are aware of the possible consequences of delaying this choice. Such consequences may include, but may not be limited to, the inability to graduate within 4 years, and loss of the College Opportunity Fund (http://sfs.colostate.edu/cof) (after reaching the maximum allowed credits) and possible other financial aid. At this meeting, in order to have their hold removed, undeclared students will sign a document indicating that they understand these possible consequences, and will indicate when they intend to select a major, how long it will take for them to complete this major, or how they intend to gain entrance into a competitive major if that is their goal.

**Graduate Students**

Advising information for graduate students is available in the Graduate and Professional Bulletin (http://catalog.colostate.edu/general-catalog/graduate-bulletin/graduate-study/procedures-requirements-all-degrees/#advisory-system).

**Grading**

Faculty and instructors submit grades once coursework has been completed. The approved grade mode(s) are included in the information with each course in this General Catalog (in the course bubble). Grade modes are Traditional (A through F letter grades), Student Option Satisfactory/Unsatisfactory, Instructor Option, Satisfactory/Unsatisfactory, and Audit. See below for more information.

**Grading Scale**

- **Grade Mode Descriptions**
- **Discontinuing a Class (Student Non-Attendance)**
- **Semester Grades**

"Undeclared" is a special designation for students who have a rich and diverse set of interests that span the CSU curriculum and want to explore all their options. Through the Undeclared advising process students are able to learn about various academic opportunities while keeping their options open as they begin their college experience. Professional academic success coordinators in the Collaborative for Student Achievement (http://www.casa.colostate.edu) are knowledgeable about the full breadth of academic requirements so as to better assist students in the process of selecting a major. These advisors help students plan their schedules, provide information on career options, and refer students to other resources. Students are encouraged to declare a major by the time they earn 45 credits.

Undeclared students, in the semester where their census-date registration would lead them to achieve a total of 60 or more credits, and any semester afterwards, will have a hold placed upon subsequent registrations, and will be required to visit the Collaborative for Student Achievement (http://www.casa.colostate.edu) office to discuss selection of a major and to ensure they are aware of the possible consequences of delaying this choice. Such consequences may include, but may not be limited to, the inability to graduate within 4 years, and loss of the College Opportunity Fund (http://sfs.colostate.edu/cof) (after reaching the maximum allowed credits) and possible other financial aid. At this meeting, in order to have their hold removed, undeclared students will sign a document indicating that they understand these possible consequences, and will indicate when they intend to select a major, how long it will take for them to complete this major, or how they intend to gain entrance into a competitive major if that is their goal.

Community for Excellence. To locate contact information please use the A-Z or the search function on the CSU homepage.

**Advising Resources**

Many resources are available to assist with academic success at CSU. The primary contact for locating these resources is the student’s advisor.

The following includes some additional items for which students may need to meet with their advisor:

- **Advising code:** Some majors require an advising code to register for classes. This is placed on a student’s account in order ensure students connect with their advisor about their academic progress.
- **Registration access times:** Registration access times are provided for each student on their RAMweb (https://ramweb.colostate.edu) account based on the number of credits the student has received or whether the student is part of a particular population, such as the Honors Program.
- **Any discussion about University Withdrawal, Planned Leave or other university policies.**

**Undeclared Advising**

"Undeclared" is a special designation for students who have a rich and diverse set of interests that span the CSU curriculum and want to explore all their options. Through the Undeclared advising process students are able to learn about various academic opportunities while keeping their options open as they begin their college experience. Professional advisors help students plan their schedules, provide information on career options, and refer students to other resources. Students are encouraged to declare a major by the time they earn 45 credits.

Undeclared students, in the semester where their census-date registration would lead them to achieve a total of 60 or more credits, and any semester afterwards, will have a hold placed upon subsequent registrations, and will be required to visit the Collaborative for Student Achievement (http://www.casa.colostate.edu) office to discuss selection of a major and to ensure they are aware of the possible consequences of delaying this choice. Such consequences may include, but may not be limited to, the inability to graduate within 4 years, and loss of the College Opportunity Fund (http://sfs.colostate.edu/cof) (after reaching the maximum allowed credits) and possible other financial aid. At this meeting, in order to have their hold removed, undeclared students will sign a document indicating that they understand these possible consequences, and will indicate when they intend to select a major, how long it will take for them to complete this major, or how they intend to gain entrance into a competitive major if that is their goal.
Students must register for the course first, then complete the Student credit social science requirement would not be considered a free elective. For example, a three-

Grade Mode Descriptions

Traditional

Term grades are reported using the Grading Scale above.

Faculty use of +/- grading is optional. Course instructors should indicate on the course syllabus and/or policy statement the grading system used in the course.

Student Option Satisfactory/Unsatisfactory

Undergraduate students may elect satisfactory/unsatisfactory grading in one course per term in courses offered for Student Option Satisfactory/Unsatisfactory grading under the following conditions:

Undergraduate students, except first-term freshmen and transfers, with a cumulative CSU grade point average of 2.000 or better and with the advisor's consent, may register for approved courses on a Student Option Satisfactory/Unsatisfactory basis. This work may not be in areas of study required in the student’s major, minor, teacher licensure, or for All-University Core Curriculum requirements (i.e., it must consist of free electives not specified as to general area of study). For example, a three-credit social science requirement would not be considered a free elective. Students must register for the course first, then complete the Student Option Satisfactory/Unsatisfactory and Audit Grading form to elect this option. The form can be found at the Registrar’s Office website (http://registrar.colostate.edu/forms/auditsatisfactory-unsatisfactory-grading-form). Changes to Satisfactory/Unsatisfactory grading can only be made during the add/drop period.

Performance equivalent to a grade of C or better is recorded as Satisfactory. Performance equivalent to D or F is recorded as Unsatisfactory. Neither the S nor U grades are used in calculating the CSU grade point average; however, courses graded S may apply to graduation requirements.

A grade for a course taken as Satisfactory/Unsatisfactory may not be converted to a traditional grade for purposes of improving the GPA to meet graduation or scholastic requirements. In situations where students change their major or minor to include required courses taken previously for Satisfactory/Unsatisfactory grades, the major department will determine if such courses may be considered as fulfilling degree requirements. When it is determined that an ineligible student is or has been registered for a Satisfactory/Unsatisfactory course, a traditional grade will be assigned. A correct Satisfactory/Unsatisfactory registration including advisor approval is the express responsibility of each student.

Satisfactory/Unsatisfactory registration policies for graduate students are described in the Graduate and Professional Bulletin.

Instructor Option

Instructor option grading allows the instructor to determine whether Traditional or Satisfactory/Unsatisfactory grading is to be used for a course. In courses approved for instructor option grading, the type of grading (Traditional or Satisfactory/Unsatisfactory) to be used for all students in the course during the term is to be indicated on the course syllabus.

Satisfactory/Unsatisfactory

Performance equivalent to a grade of C or better is recorded as Satisfactory. Performance equivalent to D or F is recorded as Unsatisfactory. Neither the S nor U grades are used in calculating the CSU grade point average; however, courses graded S may apply to graduation requirements.

Audit

A student wanting to attend a class without earning credits may register as an auditor. Auditing a course requires prior approval of the instructor of the course. If an instructor determines an auditor's attendance or participation is unsatisfactory, the course will not be recorded on the student’s academic record. Changes to or from audit status must be made during the registration or add/drop period. Tuition and fees are assessed for audited credits. Audits do not count for full-time status for loan deferments, financial aid, etc., and are not eligible for the College Opportunity Fund (COF). Students must register for the course first, then complete the Student Option Satisfactory/Unsatisfactory and Audit Grading form. The form can be found at the Registrar’s Office website (http://registrar.colostate.edu/forms/auditsatisfactory-unsatisfactory-grading-form).

Incomplete Grades

At the discretion of the instructor, a temporary grade of "I" may be given to a student who demonstrates it is not possible to complete the requirements of a course due to circumstances beyond the student's control and not reasonably foreseeable. A student must be passing a course at the time an incomplete is requested unless the instructor
determines there are extenuating circumstances to assign an incomplete to a student who is not passing the course. When an instructor assigns an "I", the instructor shall specify in writing the requirements the student shall fulfill to complete the course as well as the reasons for granting an "I" when the student is not passing the course. The instructor shall retain a copy of this statement in the grade records and provide copies to the student and the department head or designee. Students will be notified to take action on Incomplete grades at the beginning of their anticipated graduation term. The student should not register for the course again to complete the coursework. After successful completion of the makeup requirements, incomplete grades will be changed by the instructor of record or the department head, in absence of the instructor of record. After one year, or at the end of the semester in which the student graduates (whichever comes first), an Incomplete will be automatically changed to an "F" (failure) or a "U" (unsatisfactory) unless the course has been previously completed and a grade change submitted by the instructor or the head of the department. If the class for which the student has been given and Incomplete is S/U only, the grade shall revert to a "U"; if it is a traditionally graded class, it shall revert to and "F". If a course is instructor option and S/U grades exist, the Incomplete will roll to a "U". If only traditional grades ("A" thru "F") exist, the Incomplete will roll to an "F". The temporary grade of "I" must be changed to a grade (e.g., A, B, C, D, F, S, U) prior to the student being awarded a diploma from CSU.  

(Faculty Council approved minutes March 6, 2018)

Discontinuing a Class (Student Non-Attendance)

If a student discontinues attending a class and has not officially dropped or withdrawn through RAMweb (https://ramweb.colostate.edu) or the Registrar's Office, the grade of F (failure) is recorded.

Semester Grades

Students may access their semester grades through RAMweb (https://ramweb.colostate.edu) three business days after the week of final exams each term.

Transcripts

Transcripts of students’ official academic records are maintained by the Registrar’s Office. Official and unofficial copies of a student’s transcript may be obtained by the student through RAMweb (https://ramweb.colostate.edu).

Grade Appeals

Instructors are responsible for stating clearly the instructional objectives of the course at the beginning of each term and for evaluating student achievement in a manner consistent with these objectives. Students are responsible for maintaining standards of academic performance established for each course in which they are enrolled. Instructors are responsible for determining and assigning final course grades. Graded examinations, papers, and other materials used as a basis for evaluating a student’s achievement will be available to the student for inspection and discussion.

Students may appeal instructor’s grading decisions. The burden of proof, however, rests with the student to demonstrate that the grading decision was made on the basis of any of the following conditions. (Faculty Council approved minutes May 4, 2010)

1. A grading decision was made on some basis other than performance and other than as a penalty for academic misconduct.

2. The grading decision was based upon standards unreasonably different from those which were applied to other students in the same course and section.

3. A grading decision was based on a substantial, unreasonable, or unannounced departure from previously articulated standards.

Before making an appeal, the student should discuss the situation with the instructor(s) involved in the decision. To appeal a grading decision, the student shall submit a written request to the department head. The request must set forth the basis for the appeal, identifying one or more of the three criteria set forth above.

The request must be submitted (or postmarked, if mailed) no later than thirty (30) calendar days after the first day of classes of the following spring semester for appeal of grades recorded for the fall, and no later than thirty (30) calendar days after the first day of classes of the following fall semester for grades received in the spring or summer semester. If no appeal is filed within this time period, the grade shall be considered final.

Within 30 days of receipt of an appeal, the department head shall forward the appeal to the course instructor(s) who assigned the grade and an appeal committee shall be formed. If the request is received during or shortly before the summer session, when the course instructor(s) who assigned the grade or member(s) of the appeal committee may not be available, the appeal committee will be formed no later than 30 calendar days after the beginning of the following fall semester. The appeal committee shall be composed of two (2) faculty members and two (2) students from within the department and one (1) faculty member from outside the department who shall serve as a the chair. All five (5) members of the committee shall be voting members. The procedure for the selection of the members of the appeal committee shall be specified in the department code.

The appeal committee will review the written appeal and response of the instructor(s). They may elect to separately interview both the student and the instructor(s) before rendering a decision. The decision of the appeal committee will be based upon whether one of the conditions for an appeal set forth above has been met. At the conclusion of the deliberations, the committee shall render one of the following decisions:

1. the original grading decision is upheld, or

2. the department chair or designee(s) will reevaluate the student’s achievement of the instructional objectives of the course and assign a grade accordingly.

Written notice of the committee’s decision and the reasons for the decision normally will be sent to the student and the instructor(s) within 30 calendar days of the appointment of the committee. The appeal committee’s decision is the final decision of the University. Written summaries of the hearing and decision, together with a rationale for that decision, shall be provided to the student and the instructor who assigned the grade and shall be retained in the department office for a period of one year.

Repeat/Delete Policy

Repeat/Delete is a one-time per course grading option that may be used by undergraduate students who repeat a course. Once a student has graduated from CSU, a student may not repeat/delete any CSU course taken prior to the date of graduation. The following rules apply when the Repeat/Delete option is applied:
1. The grade received in the repeated course will be used in calculating the student’s GPA, regardless of whether the repeated grade is higher, the same as, or lower than the initial grade received. The initial grade will remain on the transcript, but will not be used in calculating the GPA when the Repeat/Delete option is applied.

2. It is the student’s responsibility to request the Repeat/Delete option from the Registrar’s Office, before the expiration of the course withdrawal period in the semester in which the course is first repeated.

3. The Repeat/Delete option may be used for a maximum of twelve (12) credit hours and no more than three courses. The Repeat/Delete option may not be applied to a course for which the final grade was given as a penalty for academic dishonesty in accordance with the academic integrity policy under section I.5.1 of the Faculty Manual (http://faculty.colostate.edu/faculty-manual-section-i/#15).

4. If the course is repeated at any time subsequent to the use of the Repeat/Delete option, all grades in that course, except the initial grade, are used in computing the student’s GPA.

5. Although a course may be repeated as often as a student chooses, the Repeat/Delete option can be used only the first time a course is repeated.

6. The Repeat/Delete option will not retroactively affect academic standing for previous terms. For example, use of the Repeat/Delete option may change a student’s cumulative grade point average, but will not change the notation of probation previously recorded on the student’s record.

Note: Although CSU does not use the original course grade for GPA calculation once the Repeat/Delete option has been used, other educational institutions and potential employers may use this grade in their GPA calculation. Medical schools, many law schools, and other graduate programs, for example, may recalculate cumulative GPA using ALL grades on a transcript. Students may request Repeat/Delete through RAMweb (https://ramweb.colostate.edu).

Scholastic Standards

Scholastic standards are mandated by the faculty through the Faculty Council Committee on Scholastic Standards.

Policies regarding probation, dismissal, and appeal are determined by the faculty and CSU in their absolute discretion subject to acceptance by the governing board of CSU.

Undergraduate

Graduate

Undergraduate

Procedures relative to undergraduate scholastic standards are administered through the Collaborative for Student Achievement (http://www.casa.colostate.edu). Those students whose scholastic achievement is less than that required for graduation are placed on probation or dismissed from CSU.

Good Standing - Minimum Cumulative GPA

In order to graduate, a minimum cumulative grade point average (CUM GPA) of 2.000 on a 4.000 scale must be earned at CSU. A student is expected to maintain a CUM GPA of 2.000 or higher at all times. All grades earned in regular credit courses, including those taken through the Division of Continuing Education (https://www.online.colostate.edu) or the CSU Summer Session (https://summer.colostate.edu), will count toward the CUM GPA. For students who have been granted a Fresh Start, all grades earned prior to the Fresh Start will not count toward the student’s CUM GPA.

Failure to maintain a CUM GPA of 2.000 or higher will result in academic probation or academic dismissal.

Academic Probation

Failure to maintain a CUM GPA earned at CSU of 2.000 or higher will result in academic probation for a period of two regular semesters (fall and spring). Grades earned in regular credit courses through the Division of Continuing Education or the CSU summer session will count toward the CUM GPA regardless of when those classes are taken. At any time that the CUM GPA is raised to a 2.000 or higher, the student will return to regular academic standing.

Students who withdraw from CSU while on probation will remain on probation if they return to the University. Students on academic probation who return to CSU after attending another institution will continue their probation, since transfer credits are not computed within the CUM GPA earned at CSU.

Academic Dismissal

Students on academic probation who do not raise their CUM GPA to a 2.000 or higher after two regular semesters (fall and spring) will be dismissed from CSU. Exceptions to this policy for first-term, undergraduate, non-transfer students are outlined below, under Update to the Scholastic Standards Policy, June 2016. Students who have been academically dismissed from CSU have three options to seek readmission. First, they may take classes through the GUEST program, through the CSU Summer Session, or through the Division of Continuing Education, but they are not eligible to apply for readmission until the CUM GPA is raised to 2.000 or higher.

The second option available to students who have been academically dismissed is to enroll at another regionally accredited institution and meet the requirements to be admitted as a transfer student to CSU. Upon transferring back to CSU, students will have two semesters following re-enrollment to raise their CUM GPA earned at CSU to 2.000 or higher or face academic dismissal again. Transfer credits are not computed within the CUM GPA earned at CSU.

Students who have raised the CUM GPA to 2.000 or higher or who apply as students transferring from another institution may apply for readmission to the University subject to any enrollment limitation as set by the Colorado Department of Higher Education or the governing board.

Aperture of Academic Dismissal

As a third option, students may appeal academic dismissal. An online appeal may be submitted to the Collaborative for Student Achievement (http://www.casa.colostate.edu) for consideration by the Faculty Council Committee on Scholastic Standards. All appeals must be submitted in accordance with written instructions.

All appeals of academic dismissal will be acted upon by the Faculty Council Committee on Scholastic Standards no later than seven business days prior to the first day of classes for the next regular academic semester (either fall or spring).

Update to the Scholastic Standards Policy, June 2016
Students are eligible for only one Fresh Start opportunity (regardless of students applying for a Fresh Start will also need to:

- Eligibility for a Fresh Start can be achieved in one or both of the following ways:
  - Complete at least 120 credits of academic courses either at another institution or as a guest student at CSU and earn a 2.500 or higher cumulative GPA
  - To return, a student must complete a returning student application accompanied by supplemental documentation that addresses a combination of factors, including evidence of maturity and/or academic success at another institution as well as their strengthened preparation for academic success at CSU. (Details online at Office of Admissions [http://admissions.colostate.edu/apply/returning]).

Students are eligible for only one Fresh Start opportunity (regardless of whether it is a Freshman Accelerated Fresh Start or a standard academic Fresh Start).

**Academic Fresh Start**

Former CSU undergraduate students may apply for an academic Fresh Start, a policy which allows students to establish a new academic record. A student may be granted a Fresh Start only once.

An academic Fresh Start may be granted after at least two years have elapsed since the student’s last term of enrollment as an admitted, degree-seeking student, regardless of the number of credits taken. Courses taken through the Division of Continuing Education, as a guest student, or the CSU Summer Session after being dismissed or ceasing enrollment as an admitted degree-seeking student will not count against the two-year interval required for a Fresh Start.

Eligibility for a Fresh Start can be achieved in one or both of the following ways:

1. Be successful in a job or volunteer experience and be able to supply strong letters of recommendation from your employer/supervisor (recommendations must not be from a family member or relative).
2. Take at least 15 credits of academic courses either at another institution or as a guest student at CSU and earn a 2.500 or higher cumulative GPA

Students applying for a Fresh Start need to:

1. Submit a Returning Student Application by the deadline for the appropriate semester.
2. Write a statement of motivation on why you would like to return to CSU and why you think you are now ready to succeed. Analyze your past behavior and provide evidence of change and success since you left CSU.
3. In your statement, include an action plan for academic success that you have researched and considered carefully. Describe specifically how you will utilize campus advising and resources. Review the Collaborative for Student Achievement [http://www.casa.colostate.edu](http://www.casa.colostate.edu) website ([http://oas.casa.colostate.edu/campus-resources](http://oas.casa.colostate.edu/campus-resources) for suggested resources.
4. Submit all information to the Office of Admissions [http://admissions.colostate.edu/returningstudents].

A student granted a Fresh Start and enrolled will have a demarcation on the permanent academic record to delineate the previous record from the new academic record achieved under the Fresh Start policy. Credits for those courses in which a grade of at least C- or S was awarded prior to the Fresh Start may be applied toward graduation requirements under the Fresh Start policy.

Only grades earned after the Fresh Start demarcation will be computed in the new GPA. A Fresh Start may have implications regarding other requirements for graduation, such as upper-division and in-residence requirements.

If a student receives a Fresh Start, the student must successfully complete at least 30 upper-division credits of course-work in residence at CSU after the Fresh Start is granted in order to graduate.

**Resources**

**U-Turn**

[U-Turn](http://tilt.colostate.edu/learning/studySkills/uturn.cfm) is a one-day event that provides students access to academic support resources, all in the same room, to assist in making a plan to turn the semester around.

**Change of Major**

Students who experience academic difficulty may choose to explore a different academic major. Resources for doing so include this General Catalog, the Collaborative for Student Achievement [http://www.casa.colostate.edu](http://www.casa.colostate.edu), and the CSU Career Center ([https://career.colostate.edu/explore/choosing-a-major](https://career.colostate.edu/explore/choosing-a-major)).

**Undergraduate Planned Leave**

Other students may decide that taking time off from CSU is in their best interest. Learn more at Undergraduate Planned Leave.

**Dean’s List**

Students should contact their individual college(s) for Dean’s List qualifications.

**Graduation with Distinction**

CSU recognizes outstanding scholarship by granting the baccalaureate degree “Cum Laude,” “Magna Cum Laude,” and “Summa Cum Laude” to those students in each college who have achieved unusually high academic excellence in their undergraduate programs. To be eligible for graduation with distinction, students must meet the following requirements:

- Minimum grade point average required for graduation with distinction and
- Minimum of 60 credits completed at CSU. Students who have been granted Fresh Start must have completed 60 credits after the Fresh Start designation to qualify for graduation with distinction.
Transfer credits are not considered when determining a) candidacy for graduation with distinction or b) graduation with distinction.

The Current Breakdown of Acceptable GPAs for a Distinction Designation:

<table>
<thead>
<tr>
<th>College</th>
<th>Summa Cum Laude</th>
<th>Magna Cum Laude</th>
<th>Cum Laude</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

These minimum cumulative grade point averages will be reviewed every four years and may be changed if needed to maintain appropriate academic standards. Such changes will become effective the semester following approval by Faculty Council and publication in the General Catalog. Each of the minimum grade point averages needed to graduate with distinction will be adjusted at the end of each four year period only if the percentage of students graduating with distinction in a distinction category and college have shown a statistically verifiable deviation from the target percentages of:

- Summa Cum Laude: 1%
- Magna Cum Laude: 3%
- Cum Laude: 6%

Candidates for graduation with distinction are recognized at the time of commencement. Candidacy is determined by a student’s cumulative grade point average through the semester preceding graduation. “Candidacy” for graduation with distinction does not guarantee graduation with distinction. Graduation with distinction is based on the student’s cumulative grade point average at the time of graduation. The CSU GPA calculation is carried to the third decimal place and is not rounded.

Students seeking a second bachelor’s degree are eligible for distinction designation. To qualify for graduation with distinction, a minimum of 60 credits completed at CSU is required after the first degree. In determining the grade point average of the student, only grades earned after the first degree are considered.

Graduation as a University Honors Scholar

Students who complete the University Honors Program (http://www.honors.colostate.edu) academic requirements and achieve at least a cumulative 3.500 grade point average earn the designation of University Honors Scholar. Scholars are recognized at graduation by the Honors Program and during the colleges’ commencement ceremonies. The University Honors Scholar designation appears on diplomas and transcripts.

Graduate

Graduate students must maintain a 3.000 GPA to be in good standing with the University. Learn more in the Graduate and Professional Bulletin.

Academic Policies

CSU Academic Integrity Policy and Student Conduct Code

Final Examinations

Undergraduate Planned Leave

Undergraduate Change of Major, Concentration, Minor, or Certificate

CSU Academic Integrity Policy and Student Conduct Code

The CSU Academic Integrity Policy and Student Conduct Code (https://resolutioncenter.colostate.edu/conduct-code) exist to notify students, faculty, and staff of the specific expectations Colorado State University holds related to student behavior and the rights and responsibilities that accompany being a student and participating in student clubs or organizations.

Class Attendance Regulations

Students should attend all classes for which they are registered to obtain maximum educational benefits. Absence or lateness does not excuse students from required course work.

Instructors and departments are responsible for establishing class attendance policies. These policies must accommodate student participation in University-sanctioned, extracurricular/co-curricular activities. Students must inform their instructors prior to the anticipated absence and take the initiative to make up missed work in a timely fashion. Instructors must make reasonable efforts to enable students to make up work which must be accomplished under the instructor’s supervision (e.g., examinations, laboratories). In the event of a conflict in regard to this policy, individuals may appeal using established CSU procedures.

For purposes of this regulation, University-sanctioned activities include competitions, events, and professional meetings in which students are officially representing the institution. Appropriate sanctioned activities include:

- Intercollegiate athletics;
- Collegiate club sports and competitions;
- Conferences and workshops recognized by CSU not related to academics;
- Commitments on behalf of CSU (ASCSU, band, etc.); and
- Professional activities recognized by CSU related to academics.

Department heads or their designated representatives must approve sanctioned professional and departmental activities. Other sanctioned activities must be approved by the appropriate program director on record with the Division of Student Affairs offices or the Department of Athletics. Refer to this list for the appropriate approving authority (http://studentaffairs.colostate.edu/class-absence-info).

CSU policy permits only enrolled students, persons attending with the permission of the instructor, and administrative personnel of CSU to be present in a classroom during scheduled classroom periods.
At the discretion of the instructor in charge, any full-time student, faculty member, or lifelong learner may attend any class without formal registration provided adequate class-room space is available.

Academic departments may replace any students in a course who fail to attend both of the first two regularly scheduled meetings of the class (one meeting for laboratory courses or for classes which meet once each week), unless the students have notified the department in advance. Since this procedure is a department option, students remain responsible for dropping courses they do not intend to complete within the required time period for drops.

**Religious Holidays and Observances**

CSU has a legal obligation to accommodate students’ absences due to religious observances. For such an accommodation, it is the student’s responsibility to complete the Religious Accommodation Request Form (http://www.studentaffairs.colostate.edu/religious-holidays) at the beginning of each semester and submit the request via the Office of the Vice President for Student Affairs website. The Dean of Students will communicate with the instructor regarding the student’s absence and the student is instructed to discuss how best to ensure an accommodation related to class conflicts. For religious observances that cannot reasonably be anticipated at the beginning of the semester, students must follow the procedure above as soon as possible after the course conflict is identified. If a student knows that a particular course or section of the course will have multiple conflicts with his or her religious obligations, the student is advised to locate another course section or defer taking the course to a different semester. In the event of a conflict in regards to this policy, individuals may appeal using established CSU procedures. Instructors are advised to provide reasonable accommodations to ensure compliance with CSU’s obligations.

**Final Examinations**

Final examinations, as appropriate, are given during the final week of each semester. During this week, classes are rescheduled to meet for two-hour periods.

The following procedures apply to all courses during the final week of the semester:

1. Final examination week is part of the regular semester. Student attendance shall be consistent with CSU policy.
2. The final in-class examination period is intended for the end-of-semester examination. No in-class examination constituting more than 10% of the final course grade may be given in undergraduate courses during the week preceding the final examination period of the semester; laboratory, performance, and other alternative classes (e.g., courses in PACe - the individualized mathematics program) excluded. It is the responsibility of the department head, or, where appropriate, the school head, to ensure compliance with this policy.
3. Courses for less than four credits shall meet for one period. Courses for four or more credits may meet for two periods.
4. Classes that begin at times other than on the hour (i.e., 9:30, 2:10, 3:35, etc.) will use the time period assigned for the hour (i.e., 9:00, 2:00, 3:00, etc.). For example, a 4:30 TR class would use the 4:00 TR assigned final examination period.
5. Classes shall meet only at the times indicated on the final examination schedule.
6. Any exception of regulations 3 or 5 above, e.g., special types of examinations which need more time or special locations to conduct, must be approved by the Associate Registrar in Curriculum, Catalog, and Scheduling prior to the second week of class and announced in classes by the second week.
7. If a student has three or more final examinations (not classes) scheduled for the same day or if conflicts of examination times occur, the student may negotiate a time change with the instructors involved. If the parties involved cannot find a mutually agreeable time, the Registrar’s office indicates which courses must be changed. Note: The Associate Registrar in Curriculum, Catalog, and Scheduling, must be notified at least one week prior to final examination week to allow instructors time to make appropriate accommodations.

Any student who has a conflict with the examination schedule must inform the instructor as soon as possible before the examination. If an agreement cannot be reached between the instructor and student as to the appropriateness of a make-up examination, the student should appeal to the department head.

**Undergraduate Planned Leave**

Undergraduate Planned Leave is a status intended to help students more easily and effectively take up to two semesters away from their CSU studies and successfully return again. Students who obtain Undergraduate Planned Leave status and comply with its requirements do not have to re-apply for admission to CSU upon return. In addition, Planned Leave students will be tracked in an attempt to help facilitate their successful and timely return.

All undergraduate students seeking their first Bachelor’s degree are requested to communicate their plans when leaving CSU in order to determine eligibility for an approved Planned Leave. Students who meet the established eligibility requirements will be granted a Planned Leave for up to two semesters. (A semester is defined as a fall or spring semester and excludes summer sessions; for example, Planned Leave is granted for fall and the student returns the following spring, or is granted for spring and returns the following fall.) Semesters may, but are not required to, be taken consecutively. A total of two semesters of Planned Leave are available to all first bachelor’s degree seeking students. Any student leaving for more than two semesters should utilize CSU’s Returning Student (http://admissions.colostate.edu/returning) process via the Office of Admissions when they return. Any student leaving longer than two semesters due to military service should work with the Adult Learner and Veteran’s Services Office (http://www.adultstudents.colostate.edu) or the Veteran’s Education Benefits Office (http://registrar.colostate.edu/military-veterans-benefits) to discuss available options.

Some examples of situations where Planned Leave might be appropriate include students on domestic internships, official assignment for CSU, military service, mission service, leave due to medical reasons, family crisis, financial crisis, work, etc.

Per CSU transfer evaluation guidelines, students on Planned Leave may enroll at another domestic post-secondary institution during their Planned Leave. Any student planning on going to an international post-secondary institution must have a conversation with, and follow the processes of, the Education Abroad Office (http://educationabroad.colostate.edu/students) to evaluate what, if any, of the credits taken might transfer back to CSU.

International study while on Planned Leave is not the same as regular Education Abroad. Many different issues arise and processes must be followed by students in the Education Abroad program (http://
educationabroad.colostate.edu/students). Students participating in Education Abroad (for-credit study, intern, volunteer, work, or research abroad programs) have a separate CSU process for managing planned leave and therefore are not eligible to participate in this policy.

In order to be eligible for planned leave, a student must meet all of the following criteria:

a. Undergraduate Degree Seeking Student (CSU on-campus and CSU Online) seeking first bachelor’s degree (2nd Bachelor students are not eligible)

b. Academic Standing: good standing or academic probation one or two.

Students interested in obtaining Planned Leave status must apply and be approved before leaving. For additional information, see the Registrar’s Office website (http://registrar.colostate.edu/planned-leave).

Student Financial Assistance

Most Financial Aid is handled under Federal Title IV requirements. Students who are receiving financial aid should request information about current and future term eligibility when considering Planned Leave. Students who are receiving scholarships should request information regarding renewability. Students are not eligible for any financial aid disbursements during the semester(s) on Planned Leave. Students on Planned Leave will be reported to lenders and loan service agencies as “non-attending” and will need to contact lenders for information regarding possible repayment requirements.

International Students

Because there are federal visa requirements, International students must discuss their options for Planned Leave with the Office of International Programs (OIP) to determine the impact of the Planned Leave to their immigration status. All international students must be enrolled in a full course of study while in the United States.

Returning from Planned Leave

All students returning from an approved Planned Leave will be required to respond to the safe campus community questions as part of their process for returning to campus. A full set of steps for students returning from a Planned Leave are available on the Planned Leave website (http://registrar.colostate.edu/planned-leave). (Faculty Council approved minutes March 6, 2018)

Undergraduate Change of Major, Concentration, Minor, or Certificate

Change of Undergraduate Major

In many, but not all cases, an undergraduate student regularly enrolled in CSU may change from one major to another. Students complete this process by working with the advisor/academic support coordinator in the department to which they would like to change. Students should schedule an appointment by contacting the department offering the major, minor, or certificate to which they would like to change (or add). Some departments create advising appointments by phone, others via signing up online; some advising appointments are individual, others are group change of major sessions.

Some majors—considered competitive or controlled-entry majors—require specific entrance requirements (portfolio, audition, cumulative GPA, grades in specified courses, etc.). Students wishing to change from one major to another can obtain information about any restrictions or requirements that may be in place, as well as the actual process involved, from their advisor, the academic department offering the major, or from the Collaborative for Student Achievement (http://studentachievement.colostate.edu) office.

Newly admitted students who have not begun classes must contact the Office of Admissions (http://admissions.colostate.edu) to change their major.

Dropping a Major, Minor, Concentration, or Certificate

Students wishing to drop a minor or second major should make an appointment with their academic advisor to be sure all options are fully understood. Students then submit a change of major form to the Registrar’s Office (http://registrar.colostate.edu), First Floor in Centennial Hall.

Changes of major, minor, or certificate are generally processed within one business week. Students may check their status in RAMweb (https://ramweb.colostate.edu).

Academic Credit

Credit Hour and Credit Load

Undergraduate Classification

Enrollment Status

Credit Hour and Credit Load

A credit hour is defined as 50 minutes of lecture or discussion/recitation per week for 16 weeks (800 minutes in a semester), 100 minutes of laboratory per week for 16 weeks (1600 minutes in a semester) when outside preparation is required, or 150 minutes of laboratory per week for 16 weeks (2400 minutes in a semester) when no outside preparation is required. For workload planning purposes (and to graduate with 120 credits in eight semesters), students should plan on an average of 15 credits per semester and should expect each credit hour will require approximately two to three hours (for some students, in some classes, more time and in a few classes, less time) of effort per week to attend classes and to accomplish readings and out-of-class assignments in preparation for successful completion of the course requirements.

Undergraduate Classification

Student level (class) is determined by the number of credits at CSU and credits accepted in transfer. Transfer credits may or may not be acceptable in meeting degree requirements.

Student Level Semester Credits

<table>
<thead>
<tr>
<th>Student Level</th>
<th>Semester Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>0-29</td>
</tr>
<tr>
<td>Sophomore</td>
<td>30-59</td>
</tr>
<tr>
<td>Junior</td>
<td>60-89</td>
</tr>
<tr>
<td>Senior</td>
<td>90 and over</td>
</tr>
</tbody>
</table>

Enrollment Status

Enrollment status (full-time, three-quarter time, half-time, less than half-time) is determined by the number of credits which the student has completed or is pursuing for the term in which the verification is requested. Courses from which the student has withdrawn or is auditing are not included. (The following schedule for enrollment status differs
from the full-time/part-time schedule for tuition and fees. (https://financialaid.colostate.edu/base-tuition))

Credit requirements are as follows:

### Fall/Spring/Summer Semesters:
#### Undergraduate Students

<table>
<thead>
<tr>
<th>Credits</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full-time</td>
<td>12 or more credits</td>
</tr>
<tr>
<td>Three-quarter time</td>
<td>9-11 credits</td>
</tr>
<tr>
<td>Half-time</td>
<td>6-8 credits</td>
</tr>
<tr>
<td>Less than half-time</td>
<td>5 credits or less</td>
</tr>
</tbody>
</table>

#### Graduate Students

<table>
<thead>
<tr>
<th>Credits</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full-time</td>
<td>9 or more credits</td>
</tr>
<tr>
<td>Three-quarter time</td>
<td>7-8 credits</td>
</tr>
<tr>
<td>Half-time</td>
<td>5-6 credits</td>
</tr>
<tr>
<td>Less than half-time</td>
<td>4 credits or less</td>
</tr>
</tbody>
</table>

For verification of enrollment status go to RAMweb (https://ramweb.colostate.edu) and click on Records and then on Enrollment Verification. For more information visit the Registrar's Office (http://registrar.colostate.edu/student-resources/enrollment-degree-verification) website.

Groups such as Co-op programs may have a different definition of enrollment status and should be verified with the program.

### Registration

- **Class Schedule**
- **Registration Process**
- **Schedule Changes**
- **University Withdrawal**
- **Undergraduate Planned Leave**
- **Graduate Continuous Registration**
- **Registration Alternatives**

#### Class Schedule

The class schedule is available in RAMweb (https://ramweb.colostate.edu) or to the public via the CSU website (https://ramweb.colostate.edu/registrar/Public/ClassSchedule.aspx), then Resources and A to Z under Class Schedule, prior to the beginning of registration for a given term.

#### Registration Process

Students register for classes, including adding or dropping courses, online through RAMweb (https://ramweb.colostate.edu). The class schedule is available through RAMweb (https://ramweb.colostate.edu) approximately one month prior to the start of registration, allowing students to plan their schedules (Plan Ahead, a schedule planning tool, is also available in RAMweb (https://ramweb.colostate.edu) through the Registration link). The class schedule is available to the public via the CSU website (https://ramweb.colostate.edu/registrar/Public/ClassSchedule.aspx), then Resources and A to Z under Class Schedule.

Before registering for classes, students must complete the Registration Ready portion of the process. In order to communicate quickly and effectively with students, CSU sends many official campus communications via email. Students affirm their email address via Registration Ready. Students are also required to maintain a current mailing address. Once Registration Ready is complete, and the student's Registration Access Date/Time has arrived (available in RAMweb (https://ramweb.colostate.edu)), a student may register for classes.

Registration and payment deadlines must be met in order for registration to proceed. Students should respond to correspondence from CSU, including email correspondence, in a timely manner to avoid missing crucial deadlines.

#### Registration Waitlist

Registration Waitlists are available for students attempting to register for class sections that are already full. When a class has reached capacity and shows a waitlist is available, students may sign up on the waitlist. Students are e-mailed and texted (if they set their text messaging options to allow Academic and Financial Alerts via RAMweb (https://ramweb.colostate.edu)) when a seat opens in the class. Students then have a 24-hour window to register for the class. If the student does not register, they are taken off the waitlist and a notification goes to the next student on the waitlist.

Please go to RAMweb (https://ramweb.colostate.edu) or the Registrar’s webpage (http://registrar.colostate.edu/registration/registration-waitlist-faq) for frequently asked questions and answers about the Registration Waitlist.

#### Course Overrides

Even when a class has reached its published enrollment limit, the instructor may give special permission for a student to register in the course. Students should inquire about overrides with the instructor assigned to teach the class or the department offering the class.

Overrides are processed electronically via ARIESWeb by the instructor or department offering the course. Once granted an override, the student must still register for the course through RAMweb (https://ramweb.colostate.edu).

#### Credit Overload

Undergraduate students who wish to register for more than 18 credits per term must have an overload approved and submitted through ARIESWeb by their advisor. Requests for undergraduate students to register for 21 or more credits in a given term must be approved by the department chair/department head.

Graduate students who wish to register for more than 15 credits per term must also have an overload approved and submitted through ARIESWeb by their advisor. Requests for graduate students to register for 19 or more credits requires approval from the Graduate School.

#### Variable Credit Course Registration

Some courses, such as research or field placements, are available for variable credits. Learn more about adjusting variable credits on the Registrar’s Office website (http://registrar.colostate.edu/registration/registration-changes).

#### Auditing a Class

Students who are interested in learning content of a course but who don’t need it to count toward graduation may choose to audit the course, if the option is available. Learn more about auditing a course (https://registrar.colostate.edu/academic-resources/audit-satisfactory-grading).
Late Registration

A Late Registration Charge of $50 (subject to change) is assessed for adding the first course on or after the first day of classes or for late adds after the registration period.

Graduate students who register for Continuous Registration or their first course for the term on or after the first day of the term will be charged a $50 Late Registration Charge.

Repeating a Course

Students may register for and complete a course more than once, but it can only be used one time to fulfill graduation requirements. The original grade and grades earned in repeated courses are used in calculating grade point averages, unless a student exercises the Repeat/Delete policy.

Repeat/Delete

Undergraduate students who retake courses have the opportunity to exercise the Repeat/Delete option. Students need to take steps to make this happen. Learn more about Repeat/Delete.

Enrollment and Degree Verification

For verification of enrollment status, term(s) of attendance, or degree awarded, go to RAMweb (https://ramweb.colostate.edu). Learn more at the Registrar’s Office (http://registrar.colostate.edu/student-resources/enrollment-degree-verification).

Schedule Changes

Schedule Changes and the Add/Drop and Withdrawal Periods

Periods for changing schedules (adds, drops, withdrawals, changes of sections, grading options, or credits) are listed in the Academic Calendar and in the online class schedule. Add, drop and withdraw dates for specific sections may be located by clicking on the section’s title in the class schedule. The Class Details section in the pop-up window will list those dates. Once registered, those dates are also available on RAMweb (https://ramweb.colostate.edu) by clicking Registered Course Details. Courses taught in terms of less than 16 weeks are subject to shorter add/drop and withdrawal periods.

Adding a class

During the regular 16-week Fall and Spring semesters, courses may be added without an override through 11:59 PM Sunday at the end of the first week of classes. Beginning Monday of the second week of classes, courses may be added with an electronic Department Approval - Restricted Add override from the instructor through the census date, which is the 12th day of classes of the semester. Course instructors may authorize their department offices to perform these overrides.

Dropping a class

Regular courses may be dropped through the census date, which is the 12th day of classes of the semester. Restricted-drop courses must be dropped before 11:59 PM Friday at the end of the first week of classes. Courses dropped during this period are not reflected on the student’s academic record, and tuition and fees may be adjusted as a result. Consult the appropriate online class schedule for course drop deadlines. No drops may be made after the end of the add/drop period.

Withdrawing from a class

The course withdrawal period begins after the add/drop period and closes at the end of the eighth week of the semester. A “W” (withdrawal) grade notation will be recorded on the academic record, except in the case of the 60-credit English composition and mathematics requirements (see the All-University Core Curriculum section for more detail on this requirement). See also Class Attendance Regulations. Tuition and fees will not be adjusted for withdrawals during the course withdrawal period. See also Tuition and Fee Adjustments in the Financial Information section.

Courses taught in terms of less than 16 weeks are subject to shorter add/drop and withdrawal periods. Click on the class section’s title in the class schedule and then on the Class Details section in the pop-up window to view a class’s specific add, drop and withdraw dates.

Students withdrawing from CSU may not use the drop procedure to drop all classes, but must instead complete the University Withdrawal process.

Registration Cancellation (Prior to Start of Term)

Prior to the beginning of the semester, all courses can be canceled via the web registration system on RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx) with no charge.

University Withdrawal

University Withdrawal refers to a student withdrawing from all classes for a given term, starting the first day of the term and on or before the last day of classes (before Final Exams week).

Any student interested in completing a University Withdrawal will do so, online, through RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx). Students are encouraged to discuss their plans to complete a University Withdrawal with the following, as applicable: advisor/academic success coordinator, Financial Aid (http://sfs.colostate.edu), Veterans Education Benefits Office (http://registrar.colostate.edu/military-veterans-benefits), Student Athlete Support Services (http://www.sass.colostate.edu), International Student and Scholar Services (http://iss.scolostate.edu), CSU Online (http://www.online.colostate.edu), and the Graduate School (http://graduateschool.colostate.edu).

University Withdrawal for Call to Active Duty

Called to Active Military Duty

CSU will assist any student called to active military service with reasonable accommodations and in making the best possible transition. As a primary point of contact, students are encouraged to work with Adult Learner and Veterans Services (ALVS) (http://alvs.colostate.edu). Depending on when in the semester the student is called to duty, different options may be available including University Withdrawal, late withdrawals, or incompletes.

Students anticipating being gone for a limited amount of time are encouraged to work with ALVS (http://alvs.colostate.edu) in order to explore reasonable accommodations in her/his courses or selected withdrawals from individual courses.

University Withdrawal for Call to Active Duty:

1. To complete a University Withdrawal a student should do so online, through RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx).
2. Ideally, you will have your deployment orders in hand when you visit ALVS. If you do not have your orders with you, or can only complete the withdrawal over the phone, then you can submit the
orders to ALVS (http://alvs.colostate.edu) at 970-491-3906. When ALVS (http://alvs.colostate.edu) receives the orders, your tuition assessment will be adjusted to 0%.

3. If you are deployed between academic terms (for example, at the end of the semester or over the summer), you do not need to withdraw online or contact ALVS (http://alvs.colostate.edu) to withdraw; however, you do need to be sure you have cancelled your registration for the upcoming term. You may cancel courses on RAMweb (https://ramweb.colostate.edu/Registrar/Public/Login.aspx).

4. Graduate students: Please be sure to review your options for Continuous Registration versus the Graduate Form 1B (Graduate Application for Readmission) as you make arrangements for your deployment.

5. Short-term deployments may not require a University Withdrawal, depending upon the length of the deployment and when in the semester it occurs. Students given orders for a short-term deployment should work directly with their instructors, who are strongly encouraged to accommodate deployed students with a reasonable plan for making up work. Students who are advised they may be assessed a penalty for the absence should contact Adult Learner and Veteran Services (ALVS) (http://alvs.colostate.edu) to discuss their options. If you have any questions about the withdrawal process, be sure to consult ALVS (http://alvs.colostate.edu).

To return to CSU (whether you were deployed during the academic term or between terms):

1. Returning undergraduate students should go to the Admissions (http://admissions.colostate.edu/returningstudents) website for information on the Undergraduate Intent to Return process.

2. The Intent to Return form asks you which semester you plan to return to CSU. As soon as you know when you will return, you should submit the form so that you can register for classes in a timely manner. Please note the relevant application deadline (http://admissions.colostate.edu/returningstudents). Keep your academic advisor apprised of your plans—by phone or email if necessary—so that your advisor can make sure that you have a schedule figured out for your returning semester.

3. Returning graduate students who have not utilized Continuous Registration must complete and submit a Graduate School Form 1B (http://graduateschool.colostate.edu/documents/GS1B.pdf) (Graduate Application for Readmission) and a copy of the deployment orders in order to have the $150 readmission fee waived.

4. Graduate students who choose to utilize Continuous Registration (http://registrar.colostate.edu/registration/registration-changes) during their deployment are not required to reapply when they return, but they will be charged $150 and the University Technology Fee per academic term that they are away, and the continuous registration fee is NOT waived for deployment.

Important note: If you were admitted to CSU and were not able to enroll due to deployment, you may be required to submit a new application for admission and new supporting documents depending upon your original term of admission. Enrollment deferrals of up to one year beyond the original term of admission are allowed in such cases but must be arranged in advance; deadlines apply.

If you have questions about the return process (for enrolled students) or about obtaining an enrollment deferral (for newly admitted students), please contact the Office of Admissions at admissions@colostate.edu.

Retroactive Withdrawal

A student may request that all grades in an academic period (one or more semesters of continuous enrollment) be retroactively removed and be replaced by entries of "W" on his or her transcript. A retroactive withdrawal may be granted only when a student could neither function normally during the academic period nor be reasonably expected to complete a University Withdrawal due to extenuating circumstances such as an incident leading to major physical or mental trauma.

Failure to academically perform due to factors such as the following would not generally qualify a student for retroactive withdrawal:

- Bad habits or poor judgment
- Time management issues
- Failed relationships/roommate problems
- Failure to use University resources
- Ignorance of University policies

A retroactive withdrawal is not allowed if a student has earned a degree from CSU and the semester in question was used to meet University, college, or departmental requirements for the degree. Generally, requests are not allowed after four years have elapsed since the end of the last semester covered by the request.

Students are allowed two requests for the same period, the second request requiring additional supportive documentation. If granted, assessment of tuition and fees remains unchanged. The student’s academic record will remain unchanged if a request is denied.

An undergraduate or graduate student applying for a retroactive withdrawal must submit an online request with supportive, professional documentation from a credible source. The request will be forwarded to the Faculty Council Committee on Scholastic Standards. In order to start the process, students must meet with their department academic success coordinator or advisor or an advisor from the Collaborative for Student Achievement. To make an appointment at the Collaborative for Student Achievement, phone (970) 491-7095 or walk-in to their offices on the main floor of the stadium on campus between 10:00 am and 2:00 pm.

Undergraduate Planned Leave

Undergraduate Planned Leave is a status intended to help students more easily and effectively take one semester away from their CSU studies and successfully return again. Students who obtain Planned Leave status and comply with its requirements do not have to re-apply for admission to CSU upon return. In addition, Planned Leave students will be tracked in an attempt to help facilitate their successful and timely return. For more information, see Undergraduate Planned Leave in Academic Standards and Policies.

Graduate Continuous Registration

All students admitted to a graduate degree program are required to be continuously enrolled in their degree programs in the fall and spring semesters. This policy applies from the time of first enrollment through the graduation term. Students should contact their advisor if they do not plan to register for at least one credit of course work or research. Learn more about Continuous Registration.
Registration Alternatives

Auditing a Class
See Auditing a Class in Grading.

Non-Degree GUEST Program
GUEST is a non-degree enrollment option for community members who wish to take one or two CSU classes during a fall or spring semester without applying for admission as a degree-seeking student. Learn more about applying for admission (http://admissions.colostate.edu/guest) to the GUEST program.

CSU Online/Continuing Education
Taking online courses is an appealing option for many students. CSU Online (Continuing Education) offers access to individual courses, full degree programs, and graduate certificates. Learn more at CSU Online (http://www.online.colostate.edu).

Lifelong Learners
CSU is supportive of lifelong learners. Community members age 55 or older may attend academic classes, free of charge, on a space-available basis with permission of the instructor. As visitors, lifelong learners are not registered for the classes, have no academic record of attending, and earn no academic credit. Learn more at the Registrar’s Office website (http://registrar.colostate.edu/forms/senior-citizen-class-visitaton-request-form).

Taking Courses at Another Institution
Enrolled students who wish to take undergraduate courses at another regionally accredited institution to transfer to CSU should first determine how the courses will be accepted in transfer. To do so the student will need to access the Transferology (https://www.transferology.com/login.htm)™ website. For more information about Transferology™ please see the Registrar’s Office website (http://registrar.colostate.edu/transfer-credit/csustud-coursesHING).

If Transferology™ does not list the desired course or its institution, or it shows an equivalent course different from what the student is seeking, the student must contact the Degree and Transfer Evaluation unit of the Registrar’s Office, phone (970)-491-4860, to confirm the equivalent. If the course does not have an established equivalent the student may petition a department to approve a course equivalent using the Transfer Course Equivalency Pre-Approval Form, available on the Registrar’s Office website (http://registrar.colostate.edu/transfer-credit/csustud-courses-elsewhere). The appropriate academic department must determine if a course can be accepted as the desired equivalent. Upon approval, the student returns the signed form to the Registrar’s Office prior to transferring the course.

Students wishing to take courses at an international institution will need to have the Registrar’s Office evaluate the courses to determine how they will be accepted in transfer. To do so, the student must supply the Registrar’s Office with a copy of the course description and/or syllabus in English of each course they wish to take by email at internationalevaluation@colostate.edu, by fax at (970) 491-2283, or in person in Centennial Hall.

Students are responsible for ensuring an official transcript is sent to the Registrar’s Office after the completion of the off-campus course work. No credit will be evaluated until an official transcript has been received.

Courses with less than a C- grade are not accepted as transfer credit toward a degree at any time, in any major.

The student must file an Intent to Return form with the Office of Admissions (http://admissions.colostate.edu/apply/returning) prior to leaving campus if the course work is taken in any term other than summer session.

See also Education Abroad, in Interdisciplinary Opportunities.

Credit for Education Abroad
Students are encouraged to participate in accredited education abroad programs. Credit is granted for courses taken in programs approved in advance by CSU, subject to certain conditions. To apply for credit, a student must process an “Education Abroad Transfer Credit Policy & Approval Form” available in the Education Abroad Office, Laurel Hall.

Aims Community College Cooperative Registration Agreement
Under a cooperative program with Aims Community College (Greeley), CSU students may register for one course (maximum of five credits) per term without additional tuition assessment.

Eligibility – Students must be enrolled at CSU in resident instruction courses, i.e., not Continuing Education or Placement.

Credit Load – For the above corresponding terms, CSU students must be registered for at least 12 credits (9 credits in the summer) to attend Aims Community College.

Course Restriction – Registration for a maximum of one undergraduate, resident instruction course (maximum of five credits) is authorized. Registration will be subject to the availability of the course and the student meeting the prerequisites.

Tuition – Tuition and student fees for the course taken under this agreement will not be charged to the eligible student but applicable course fees will be paid by the student. If the student is determined to be ineligible for this cooperative registration privilege, applicable tuition and student fees will be assessed, and the student will be responsible for payment of these charges.

Registration – Applicable forms are available on the Registrar’s Office website (http://registrar.colostate.edu/academic-resources/exchange-programs) or in the Registrar’s Office in Centennial Hall.

CSU does not have a registration agreement with Front Range Community College.

Colorado Exchange Program
CSU, in cooperation with the Colorado School of Mines, University of Northern Colorado, and the University of Colorado, provides tuition-free instruction for graduate students through a reciprocal agreement. The following conditions must be met to qualify for the program:

1. The graduate student is registered and paying full tuition and fees at the home institution.
2. The course requested is part of a regular load—not an overload.
3. The student is pursuing a program leading to an advanced degree. All courses requested must be required for the degree program or a prerequisite for one of the required courses.
4. The course is not offered on the student’s own campus when that student can take advantage of it.
5. The request is presented prior to registration for the semester the course is to be taken.
6. The request is presented any term except the graduation semester.
7. A separate request form is completed for each course taken.
8. Space is available.

Additional information and registration forms are available on the Registrar’s Office website (http://registrar.colostate.edu/forms-2) or in the Registrar’s Office in Centennial Hall.

Challenging Colorado State Courses for Credit
The opportunity to challenge the content of a course on the basis of an examination may be permitted. This option is at the discretion of the individual department and may exclude courses where a laboratory or practicum is an integral part of the course being challenged.

A fee of $20 (subject to change) per credit attempted is assessed and is not refundable. Upon successful completion of an exam, a grade of S (satisfactory) is recorded on the student’s academic record. No record of unsuccessful attempts is recorded.

A course may not be challenged under the following conditions:

- To satisfy the residence requirement for graduation.
- When the person seeking credit is not currently registered at Colorado State University at the time the examination is administered.
- When a student has previously failed a placement or challenge exam for the course.

Students wishing to establish credit by challenge may obtain information from the University Testing Center (http://testing.colostate.edu) at (970) 491-6498, General Services Building, Room 203.

Degree Requirements
Undergraduate
Graduate

Undergraduate Credit Requirements
Graduation credit requirements, outlined in detail below, include the following: a minimum of 120 credits, 42 of which need to be upper-division. Thirty of the 42 upper-division need to be taken “in residence” at CSU. And, 15 of the last 30 credits need to be taken "in residence”.

Major Requirements
The student wishing to graduate must complete the requirements for a major and the All-University Core Curriculum. A major is a sequence of courses in a subject-matter area or discipline which, when accompanied by appropriate supporting courses, leads to a degree. A minimum of 27 semester credits constitutes a major. Completion of a major is shown on both the student’s diploma and academic record. Students may elect to complete the requirements for two or more majors. To graduate with more than one major, students must complete all the requirements for each major (some majors will accept, as fulfilling their own category 4A-C requirements, the fulfillment of the category 4A-C requirements in another declared major the student completes). Common requirements may count in meeting the curriculum requirements for each major, but each major must have a minimum of 27 unique credits. Also see requirements for multiple degrees.

Concentration Requirements
Some majors have concentrations (or specialization areas). A concentration is a sequence of at least 12 unique semester credits of designated courses within a major designed to accommodate specific interests of students. Completion of a concentration is shown on a student’s academic record (transcript) if completed in conjunction with a degree program, but is not noted on the diploma.

Options
Some majors have options which are a sequence of courses within a major or concentration of either guided electives or electives selected from areas of interest as approved by the student’s advisor. Options do not appear on diplomas or a student’s academic record. (Courses taken to complete an option do appear on the student’s transcript.)

Minor Requirements (Including Interdisciplinary Minors)
Minor programs of study are optional and are offered by certain departments. A minor consists of a minimum of 21 specified credits of course work outside the major. A minimum of 12 of the 21 credits must be course work at the upper-division level (300- to 400-level) and a minimum of 12 credits must be from course work within the department offering the minor. Minors are noted on the student’s academic record (transcript) if completed in conjunction with a degree program, but not on the diploma. If a student does not intend to complete the requirements of the minor then that minor must be dropped before the degree can be conferred for the primary major.

Certificate
Undergraduate Certificates are optional and are offered by certain departments. An undergraduate certificate consists of a minimum of 9 specified credits, and not more than 15 credits. A minimum of 9 credits must be course work at the upper-division level (300- to 400-level). A student must earn a cumulative GPA of 2.000 or better in the courses required in the Undergraduate Certificate.

An Undergraduate Certificate may include courses from one or more departments. For certificates involving courses from two or more departments, the coordinating department is indicated in Programs A-Z.

Students must apply for and complete the certificate requirements while enrolled in their baccalaureate degree. Undergraduate certificates by title are noted on the student’s academic record (transcript) at the time of degree conferral. The undergraduate certificate title is not noted on the diploma.

Multiple Majors
Undergraduate Students With A Second Major
If both of the completed majors are of the same degree type (e.g., B.A., B.S., B.M., B.F.A.) and the student has fewer than 150 credits, the student will be awarded a single degree which displays all majors earned on one diploma.

If the completed majors are of a different degree type and the student has fewer than 150 credits, the student will be given the following choices at the time they file their graduation contract:

1. One diploma listing only the primary major’s degree type (e.g. B.A., B.S., B.M., B.F.A., B.S.W.) and listing all majors conferred.
2. One diploma listing The Bachelor of Arts and Sciences (B.A.S.) if one major is a B.A. degree type and another is a B.S. degree type (if this option is chosen the degree type of B.A.S. shows on the diploma and the official transcript along with both majors).
Students must complete degree requirements for the first (primary) major before they can graduate. Students who have declared two majors must complete all degree requirements for the second (secondary) major in order to graduate. If a student does not intend to complete the requirements of the second major then that major must be dropped before the degree can be conferred for the primary major.

**Degrees Earned Concurrently**

Students pursuing more than one major, who have successfully completed a minimum of 150 credits, completed a minimum of 27 unique credits for each major, completed major and AUCC category 1-3 requirements, and completed AUCC category 4A-C requirements for each major, will be conferred separate baccalaureate degrees resulting in separate diplomas.

**Second Baccalaureate Degree Requirements**

A student enrolling at CSU after previously graduating with one or more baccalaureate degree(s) or a student who has already earned one baccalaureate degree at CSU may earn an additional undergraduate degree in a different major if the following requirements are met:

1. Minimum of 30 semester credits in residence (after admission as a Second Baccalaureate student [http://admissions.colostate.edu/secondbachelorsapplicants]) beyond the credits earned at the time the student graduated with a previous baccalaureate degree.
2. All curriculum requirements for the new major, including All-University Core Curriculum Category 4 requirements and AUCC Categories 1-3E if applicable.
3. Minimum of 27 unique credits for the major not used toward completion of the previous baccalaureate degree.

The first or subsequent baccalaureate degree(s) may be from CSU or from another institution accredited by a regional institution accreditor recognized by the U.S. Department of Education, the Council for Higher Education Accreditation, or equivalent. Regionally accredited accepted coursework will fulfill the All-University Core Curriculum (AUCC) requirements with the exception of AUCC courses in category 4 that are required in the major. Baccalaureate degrees earned at an International Institution may lack components of the AUCC which could result in additional coursework beyond the major requirements to complete the degree.

**Graduate**

Learn more in the Graduate and Professional Bulletin.

**Graduation Procedures and Information**

**Undergraduate Degrees**

**Student Bill of Rights**

The Student Bill of Rights (also known as Colorado Revised Statute § 23-1-125) notes that a student may formalize a plan to obtain a degree in four years. Colorado State University supports this timeline for graduation by publishing Major Completion Maps defining a common four-year course progression for most majors. (There are some majors a student may not be able to complete in eight semesters because of additional degree requirements recognized by the Colorado Department of Higher Education.)

Review CSU Major Completion Maps on the "Major Completion Map" tab for each Undergraduate program of study listed in this General Catalog.

**General Requirements**

Students are required to complete all curricular requirements in place in the current catalog at the time of graduation, including the All-University Core Curriculum (AUCC) requirements.

The list of general requirements below is a sufficient guide for academic planning, but does not represent all rules which might apply to a particular student or program of study.

**Graduation Procedures and Information**

Checking undergraduate graduation requirements is the responsibility of the Registrar’s Office. Curriculum requirements are checked by the department head of the first major, second major, minor and/or certificate if applicable.

Students planning on transferring coursework from another post-secondary institution in order to meet the requirements for degree completion should contact the Degree and Transfer Evaluation unit for assistance. It is very important that all grades/transcripts are received by the end of the 4th week after the semester has ended. If grades/transcripts are not received within this timeframe students will experience a delay regarding the formal posting of their official graduation for that semester as well as delays in printing their diploma.

A request for waivers or substitutions for major program requirements may be made if completing a curricular requirement:

1. Will extend the time normally required to complete the degree; or
2. Will force students classified as juniors or seniors to take additional lower-division courses, exclusive of AUCC requirements.

Requests for waivers or substitutions of the All-University Core Curriculum must be submitted on an appeal form [http://registrar.colostate.edu/forms-2], signed by the advisor and department head and turned in to the Degree and Transfer Evaluation unit of the Registrar’s Office. Ultimate responsibility for ensuring that AUCC curriculum requirements are observed and that substitution of equivalent courses or waivers are for good and sufficient academic reasons rests with the Provost/Executive Vice President.

**Graduation Credit Requirements**

To meet requirements for the bachelor’s degree, a student must fulfill:

**Minimum Credit Requirement**

A bachelor's degree requires a minimum of 120 semester credits; however, individual programs in some colleges and departments may exceed the minimum.

**Minimum Grade Requirement**

Only credits completed with grades of A+, A, A-, B+, B, B-, C+, C, D, and S may count toward the graduation total. (Note: Grades of C-, D+, and D- earned at CSU prior to Fall 2008 apply to graduation requirements.) Some majors require a minimum grade of C or higher in required courses. For further information refer to your Undergraduate Degree Progress Audit (DARS) or contact the department offering the major.
Cumulative GPA
The minimum cumulative grade point average acceptable for graduation is 2.000 computed only for courses attempted at CSU. The CSU GPA calculation is carried to the third decimal place and is not rounded.

Total credits earned and counted toward graduation may differ from total credits used in computing a scholastic average, since the scholastic average is computed by dividing the total grade points at CSU by the total GPA credit including credits for grades of A+, A, A-, B+, B, B-, C+, C, D, and F. Note: Grades of C-, D+, and D- earned at CSU prior to Fall 2008 are applied to CSU GPA calculations.

Upper-Division Credit Requirement
A minimum of 42 semester credits in upper-division courses (300-400 level) is required of all students completing a bachelor's degree program. Although 500-level courses cannot be required in undergraduate programs of study, elective credits taken at the 500-level may be used to fulfill the upper-division requirement.

Use of 500-Level Courses Within an Undergraduate Program
With written approval of an advisor, junior and senior undergraduate students may use 500-level courses to fulfill major requirements, either by selecting from an approved department list of courses, or by exception signed by the advisor. However, students are never required to take 500-level courses to complete an undergraduate program of study, whether a major or a minor. Courses at the 600-level are automatically excluded from use for an undergraduate degree. Undergraduate students may not enroll in courses numbered 700-799.

Use of 500-level Courses Taken as an Undergraduate in Graduate Studies
Undergraduates may apply a maximum of nine credits of graduate-level course work toward a graduate degree at CSU provided that such course work:

1. Is not used to meet bachelor's degree requirements; and
2. Has been approved by the department head of the graduate degree program being sought.

Students who enroll in 500-level courses not applied toward a bachelor's degree may request that an exclusion statement be placed on their academic records for those courses, making them potentially applicable to a CSU graduate degree. Students cannot exclude any courses below the 500-level under this policy. (See the Key to Courses for additional information.) A written request must be filed in the Degree and Transfer Evaluation unit of the Registrar's Office no later than the end of the term in which the excluded course is taken. Exclusion of these courses from the bachelor's degree does not assure acceptance of this credit toward a graduate degree program. These excluded courses are computed in the undergraduate grade point average. Undergraduate students may not enroll in courses numbered 600-699 to satisfy undergraduate degree requirements. Undergraduate students may not enroll in courses numbered 700-799.

In Residence Requirement
A minimum of 30 upper-division semester credits must be completed in residence at CSU. “In residence” courses include any authorized Colorado State University course recorded as CSU credit on the CSU transcript. As an approved exception, “in residence” may also be satisfied by pre-approved upper-division credits earned in authorized study abroad programs and designated domestic exchange programs, if simultaneously enrolled in designated CSU courses. Pre-approval procedures are required.

Senior Year Requirement
Of the last 30 semester credits earned immediately preceding graduation, at least 15 must be completed at CSU.

Academic Fresh Start Requirement
Upon receipt of a Fresh Start, a student must successfully complete at least 30 upper-division credits of coursework in residence at CSU after the Fresh Start is granted in order to graduate.

Degree Progress Audit (DARS)
The Degree Progress Audit (DARS) is the degree audit tool used for verification of university, program, minor, options, certificate and interdisciplinary requirements. The audit provides a dynamic and concise report, viewed in hard copy and on the web that is used for advising as well as for final graduation certification. The degree progress audit provides students with current and accurate transfer and course information to enhance their degree and program planning. Students are able to view a “What-if” degree audit for display of how their credits would be used to fulfill another major’s requirements.

Time Limitation on Credits
Courses completed within the preceding ten years may apply toward a bachelor's degree. After ten years, course work is reviewed by the department head and college dean or a designee to determine its appropriateness to the major requirements.

Admission to Degree Program
Students are required to be admitted into a degree-seeking program in the term for which they plan to graduate. Contact the Office of Admissions (http://admissions.colostate.edu) for application procedures.

Intent to Graduate
Students will file their Intent to Graduate during registration via the Registration Ready Tool in RAMweb upon completion of 85 credits. Students are prompted to verify their curriculum, their correct graduation term, and to give their desired name (within reason) for the commencement program as well as their diploma.

Contract for Completion of a Major or Minor
Students seeking to graduate must complete a graduation contract for each major and minor in which they are enrolled. Graduation contracts must be completed and signed by the Friday of the second week of classes of the student's graduation term. Graduation contracts consist of the most updated version of the Degree Progress Audit (DARS), which will be used for final graduation certification, and will be signed in consultation with the student's advisor(s) at each department where the student is enrolled in a major or minor program of study. Students who do not complete the degree requirements in their graduation term must sign another contract or contracts at the beginning of the term in which all requirements will be completed.

Good Standing Status
A student must be in good standing to receive a CSU degree. Accordingly, any student who is subject to suspension or probation for scholastic or disciplinary reasons will not graduate until the conditions of suspension or probation have been satisfied.

Off-Campus Completion of Degree Requirements
Seniors who are registered for final course work at another institution, either in residency or by correspondence or extension, must have their Contracts for Completion of Major/Minor on file in the Registrar’s Office by the end of the add/drop period of the graduation term. Official
transcripts showing completion of work from another institution must be on file in this office no later than the fourth week after the graduation term.

**Degree Conferral**

Degree conferral only occurs three times each year, after the conclusion of the Fall, Spring, and Summer terms. The conferral date is the date which will be posted on the official transcript and the diploma. This is the date when the degree is considered officially awarded. A degree is a credential. There are three documents that provide evidence of that credential: an official transcript, a diploma, and a formal letter of completion from the Registrar’s Office.

CSU degrees will not be posted on the student’s record until the official degree conferral date has been reached for the semester in which the degree is being awarded. Completion of all requirements prior to the official degree conferral date will not result in an early conferral of the degree. A student in this situation may request an official “Upon Completion Letter” from the Registrar’s Office showing pending conferral of the degree. The degree will be conferred for the term in which the requirements are completed.

**Degree Verification Process**

To confirm that a degree has been awarded, the most common options are through use of the official transcript or, for students, receipt of the diploma. In addition, many employers access the Degree Verification process (http://registrar.colostate.edu/student-resources/enrollment-degree-verification) through the National Student Clearinghouse.

**Degrees Awarded Posthumously**

In exceptional circumstances, the Board of Governors of Colorado State University may award degrees posthumously. Recommendations for such an award will only be considered when the student had completed nearly all of the requirements for his or her degree before dying, and when the student’s academic record clearly indicates that the degree would have been successfully completed had death not intervened. Nominations for posthumous awards of degree will be initiated by the student’s department and approved internally by the relevant college dean and the Provost/Senior Vice President. The posthumous nature of the recommended degree award shall be made explicit when the recommendation is forwarded to the Board of Governors. The Provost/Executive Vice President’s Office shall be responsible for presenting the degree to appropriate survivors.

**Commencement (Graduation Ceremonies)**

Students may graduate in Fall, Spring, or Summer terms. CSU celebrates at Commencement ceremonies (http://commencement.colostate.edu) twice a year, at the end of each Fall and Spring semester. Students completing degree requirements during any term receive their diplomas by mail within 6-8 weeks after the degree conferral date, if there is no outstanding financial obligation to the University. Candidates must appear in appropriate academic attire at commencement exercises.

**Graduate Degrees**

The graduation procedures and information for Graduate Students is available in the Graduate and Professional Bulletin.
CO-CURRICULAR ENGAGEMENT

Student Leadership
Research and Creative Opportunities
Athletics
Fraternity and Sorority Life
Student Leadership, Involvement and Community Engagement (SLiCE)
Student Clubs and Organizations
Student Media

Student Leadership

A member of Campus Compact, CSU promotes programs that develop citizenship skills and values, including service learning and partnerships between the campus and community. CSU has been named a “Top Character-Building Institution” by the Templeton Foundation. CSU encourages students to explore the many opportunities to enhance learning by getting involved on campus and in local communities.

Associated Students of CSU (ASCSU)
Graduate Student Council
College Councils
President’s Leadership Program (PLP)
Honorary Societies
Campus Connections

Associated Students of CSU (ASCSU)

All fee-paying CSU students are members of Associated Students of Colorado State University (http://ascsu.colostate.edu) (ASCSU), the student governing body that advocates for student interests and welfare across the campus, city, state, and federal level. ASCSU serves as the direct student representation on multiple areas of campus such as the Board of Governors, Student Fee Review Board, and the Board of Student Organization Funding. ASCSU comprises three main branches: Legislative, Executive, and Judicial. Through these branches, different levels of representation exists to ensure that the student’s voice is heard. ASCSU offers programs and services to all CSU students such as Ram Leadership Team, Grill the Buffs, and the For-Ever-Green shirt program.

Graduate Student Council

Formal student involvement in the Graduate School proceeds through the Graduate Student Council (http://graduateschool.colostate.edu/campus-life/get-involved). The Student Council consists of one student representative and one alternate from each department offering programs leading to advanced degrees. The Council elects its own officers and nominates graduate students for memberships on Faculty Council and Graduate School committees.

College Councils

Students who have declared a major can contact their Dean’s Office in order to find out more about the College’s Student Council and the leadership opportunities it may afford. Students who have not declared a major should contact the Center for Advising and Student Achievement to get information about the Undeclared Leadership Council.

President’s Leadership Program (PLP)

The President’s Leadership Program (http://lsc.colostate.edu/slice/slice-leadership) is a fourteen credit leadership development experience consisting of three independent year-long (two semester) academic and experiential courses designed to explore the personal, organizational, and social dimensions of leadership through course-work, retreats, and service learning. Students must apply and be selected to participate in each year of the program. Successful completion of PLP can contribute to an interdisciplinary minor in leadership studies.

Honorary Societies

By promoting, advancing, and recognizing the top scholars of our campus community, honorary societies (http://provost.colostate.edu/honorscsu) assist students in their pursuit of academic excellence. Students are advised to exercise caution when accepting invitations from honor societies. Not all such organizations provide honors that will be recognized and valued by the academic community and potential employers.

Campus Connections

Campus Connections (http://www.hdfs.chhs.colostate.edu/students/undergraduate/campusconnections) is a high-impact service learning course where undergraduate students serve as mentors to at-risk youth. Students from any major work one on one with at-risk youth ranging in age from 11-18 who are referred to Campus Connections from community partners within the juvenile justice system, local schools, community agencies, and directly from families. Youth participate in Campus Connections with their mentor on the CSU campus once a week in a structured and engaging mentoring community.

Research and Creative Opportunities

Qualified undergraduate and graduate students have many opportunities to engage in research and creative activity while enrolled at CSU. These opportunities allow students to enhance their education by working closely with a faculty mentor. Settings for these activities include laboratory, office, concert hall, and studio environments on campus. Some opportunities exist off campus, as well, at state and national laboratories located in and near Fort Collins. Students can identify faculty research and creative activity by contacting the Office of Undergraduate Research and Artistry (http://lilt.colostate.edu/oura) at The Institute for Learning and Teaching, by searching departmental websites, the Graduate School (http://graduateschool.colostate.edu/for-prospective-students) or by contacting advisors or college and departmental offices. Students can then contact faculty who are willing to enlist undergraduates and graduates in their research and creative work. The amount of time spent in such activities varies but generally ranges from six to ten hours per week on average. Placement, time commitments, and qualifications are dependent upon an agreement between the student and faculty mentor.

More than 300 performances, exhibits, and arts events are staged each year, from an internationally-recognized poster show to student-
produced theater and opera. Facilities include the Hatton and Curfman Galleries, the Music Recital Hall, and the Lory Student Center Theatre. The University Center for the Arts houses the Edna Rizley Griffin Concert Hall (listed by the Denver Post as one of the top five places for live chamber music), the University Theatre, the Studio Theatre, the Runyan Music Hall, production support facilities, recital and rehearsal halls, dance performance space and studios, classrooms, and faculty offices. The campus culture at CSU is steeped in the performing arts.

Celebrate Undergraduate Research and Creativity Showcase
MURALS
Graduate Student Showcase

**Celebrate Undergraduate Research and Creativity Showcase (CURC)**

The achievements of students in the areas of research and creativity are recognized each spring semester during CURC (http://curc.colostate.edu). Students are invited to participate in a variety of events focused on original research, creative arts, and design, culminating in a showcase that features outstanding performers and award winners from all disciplines. Award winning projects from recent years ranged from genetic and neural studies to improvements in the apparel design process to poetry.

**MURALS (http://www.murals.colostate.edu/home)**

Multicultural Undergraduate Research Art and Leadership Symposium (MURALS), intentionally reaches out to students of color in a variety of disciplines in preparation for CURC (see above).

Mentoring, presenting their work (creative writing, visual art, performing art, science, social science, humanities), networking, and learning about multicultural leadership are four main aspects of the symposium.

Slated for Spring, MURALS also provides opportunities for graduate students to work with undergraduate students and for faculty to serve as mentors.

**Graduate Student Showcase (http://gradshow.colostate.edu)**

The Graduate Student Showcase (GradShow) is a one-day conference organized by the Graduate School (http://graduateschool.colostate.edu/ for prospective students) to celebrating research, creativity and entrepreneurship. The showcase aims to encourage connection and collaboration among all graduate students at CSU.

Approximately 300 graduate students present their scholarship alongside fellow students from all eight of the colleges to more than 100 judges from across the campus. In the spirit of interdisciplinary collaboration, judging assignments are made on a random basis to give students the opportunity to hone their ability to communicate with audiences outside their own disciplines. The mingling of minds from different disciplines in this environment is specifically designed to further spark innovation and encourage collaboration.

In addition to providing an arena for interdisciplinary collaboration, the GradShow provides both presenters and non-presenters with professional development opportunities. Participants are encouraged to engage in the showcase as an opportunity to build a variety of presentation skills and to use the experience to excel at future national conferences. A variety of professional development workshops are offered to all grad students in the afternoon.

Winners receive cash prizes from generous award sponsors in a variety of categories during the formal awards reception.

**Athletics**

Intercollegiate Athletics
Sport Clubs
Intramural Sports

**Intercollegiate Athletics**

McGraw Athletic Center
(970) 491-3350 / csurams (http://csurams.com)

CSU recognizes intercollegiate athletics (http://csurams.com) as an integral part of its mission; therefore CSU is committed to the pursuit of excellence with integrity in athletics.

CSU is a member of Division I-FBS of the NCAA and competes in the Mountain West Conference. Other conference members include Boise State University, San Diego State University, the United States Air Force Academy, University of Nevada at Las Vegas, University of New Mexico, University of Hawaii (football only), University of Wyoming, San Jose State University, Fresno State University, University of Nevada, and Utah State University.

CSU sponsors men’s intercollegiate competition in basketball, cross country, football, golf, and track (indoor and outdoor). It sponsors women’s intercollegiate competition in basketball, cross country, golf, soccer, softball, swimming/diving, tennis, track (indoor and outdoor), and volleyball.

A strong intercollegiate athletic program gives talented student-athletes the opportunity to develop their physical, intellectual, and leadership skills as they participate in all aspects of college life, represent their school in athletic competition and in the community, and pursue college-level studies to prepare themselves for meaningful careers. Therefore, the Department of Athletics’ administrators and coaches are expected to recruit qualified student-athletes who can succeed academically and athletically and who will represent CSU responsibly and with integrity. Administrators, coaches, faculty, and staff are obligated to encourage and help student-athletes balance the demands of athletic participation with those of the classroom and to assist them in achieving success in both their sport and their chosen field of study. They are also obligated to guard the physical and mental well-being of student-athletes and refrain from doing or encouraging anything that would jeopardize the health or welfare of the participants.

Intercollegiate athletics can foster a sense of loyalty, community, and support among students, faculty, staff, alumni, and friends. CSU subscribes fully to the principles of fair play. It will at all times insist that its athletic program and everyone connected with it uphold the laws, rules, and regulations governing intercollegiate athletics.

The Department of Intercollegiate Athletics is supervised by the Director of Athletics, who reports to the University President. The Faculty Council Committee on Intercollegiate Athletics serves in an advisory capacity to both the President and the Director of Athletics. Regulations for the
conduct of intercollegiate athletics conform to those established by the Mountain West Conference and the NCAA.

Student-athletes participating in intercollegiate athletics must comply with all eligibility and academic requirements of CSU, the Mountain West Conference, and the NCAA, and are expected to make consistent and satisfactory progress towards completion of their degree programs. Student-athletes are also required to conduct themselves in conformance with the department's specific expectations in the areas of academics, athletics, and social and outreach activities.

Sport Clubs
Sport clubs are student-run competitive sport organizations that compete with other colleges and provide the opportunity to play for national championship sport club titles. For additional information, contact Campus Recreation (http://campusrec.colostate.edu).

Intramural Sports
Campus Recreation’s Intramural Sports Program (http://campusrec.colostate.edu/programs/intramural-sports) seeks to engage the CSU campus community through opportunities to participate in any number of structured, inclusive, recreational sport-related activities throughout the year. The goal is for every participant to have fun!

Fraternity and Sorority Life
Office in Lory Student Center
(970) 491-0966

The Office of Fraternity and Sorority Life (http://fsl.colostate.edu) (OFSL) provides resources and support to social fraternities and sororities at CSU as well as advising to fraternity and sorority governing councils and auxiliary organizations. The OFSL conducts leadership training, provides accountability, and supports individual chapters as they enhance their curricular experience with fraternity or sorority involvement.

Student Leadership, Involvement and Community Engagement (SLiCE)
Office in Lory Student Center, Room 210
(970) 491-1682

With a variety of leadership and community engagement programs, the Student Leadership, Involvement, and Community Engagement (http://lsc.colostate.edu/slice) (SLiCE) office at CSU provides an important link between students and their surrounding communities.

SLiCE brings together student organizations, student leaders and student volunteers under one umbrella; making the campus a better community and a more involved place. Being involved in SLiCE programs allows students to enrich their academic and social experience at CSU. The office also assists recognized student organizations in obtaining official university recognition, program planning, public relations, financial/budgetary matters, and leadership development for organizational officers, members, and advisors. More than 400 campus organizations reflect interests such as academic, political, religious, sport clubs, programming/service, governance, social, Greek, and special interests.

Student Clubs and Organizations
When students look back at their college experience, they often think beyond the books, papers, and exams. They remember what they did, who they met, and how they felt. With over 400 student clubs and organizations, getting involved can be fun, easy, and a transformational way to make the most of your Ram experience. Whether it’s competing in a sport club, joining a fraternity or sorority, focusing on cultural awareness, volunteering through service teams, or taking up a new hobby – there is something for every Ram to enjoy! Check out CSU’s registered student organizations via RamLink (http://www.ramlink.colostate.edu). If you do not find the perfect fit, the office of Student Leadership, Involvement and Community Engagement (http://lsc.colostate.edu/slice) will help you start your own student organization. So get involved, stay connected, and make the most of your time.

Student Media
Office in Lory Student Center, Room 118
(970) 491-1683

Rocky Mountain Student Media is a non-profit organization housed within the Lory Student Center on CSU Campus. RMSMC is the student media of Colorado State University, encompassing our newspaper, magazine, and radio and TV stations. RMSMC employs over 350 students across all of our media properties. Every medium is student-run, meaning the students determine each medium’s content. The Collegian website (http://www.collegian.com) also includes information about CTV, College Avenue Magazine, and KCSU-FM.

RMSMC is a not for profit educational media organization created in 2008 by the Board of Governors of the Colorado State University System. RMSMC operates with an independent Board of Directors consisting primarily of CSU students, two community members, and a representative from both the Vice President for Student Affairs and the Chair of the Department of Journalism and Media Communication.

Mission Statement
The RMSMC is dedicated to community service and enhancing the educational mission of Colorado State University by empowering, training, and equipping students to excel in journalistic and other media methods, ethics, critical thinking, and management.

The primary goals of the RMSMC are to:
• Commit to uphold truth, fairness, integrity, independence, accountability, accuracy, professionalism, and minimizing harm as stated in the RMSMC’s codes of ethics;
• Create and maintain a welcoming environment and diversity in staffing, media content, and access through responsiveness and outreach;
• Empower students through training and practical experience to become thoughtful, ethical, and skilled media producers;
• Operate in a socially and financially responsible manner;
• Protect student control over media content, free from prior restraint or censorship;
• Recognize both the unique characteristics of each medium and the value of working together to maximize benefits for listeners, viewers, and readers;
• Remain abreast of media technology, equipment, and training to provide students with the necessary tools to succeed; and,
• Serve the community by delivering relevant and timely news, information, and entertainment, and maintaining the public trust by ensuring the public’s business is conducted in an open and transparent manner.

Academic Advancement Center/TRIO Student Support Services
Office in L.L. Gibbons Building, Room 117
(970) 491-6129

The Academic Advancement Center (http://aac.colostate.edu) provides academic support for eligible participants including: Academic coaching, tutoring, facilitated group study, study and life skills strategies instruction, peer mentoring, career planning, study abroad information, and student involvement and leadership opportunities. Program eligibility criteria include: Neither parent has a bachelor’s degree, and/or meets low-income criteria, and/or student has a disability, and is a U.S. citizen or legal resident. Applications are available at the AAC, L.L. Gibbons Building, Room 117 or online.

The Access Center
Office in Student Services Building, Room 304
(970) 491-6473

The Access Center (http://accesscenter.colostate.edu) programs provide outreach services and support to first-generation, low-income students in their pursuit of postsecondary education. Access Center programs assist students in developing the academic skills and motivation needed to successfully complete high school and to enter college upon graduation. Students receive academic advising; tutoring and support; academic, career planning and exploration; college and financial aid counseling; financial literacy; weekend study skills workshops; engagement in summer programs and institutes; and opportunities to visit colleges and universities. Students are engaged in educational, cultural, and social experiences that will help prepare them to enter and succeed in college. The Access Center provides services to students in grades 6th – 12th, and to adults that have an interest in preparing for college, completing high school equivalency programs, transferring between universities, or continuing their postsecondary education programs. The programs provide information on vocational, two and four-year colleges/universities and seek to make systematic changes in select communities by increasing the number of individuals with postsecondary degrees. The Access Center programs accomplish this by demystifying the importance, access, and attainability of higher education.

Adult Learner and Veterans Services
Office in Lory Student Center, Room 288
(970) 491-3977; FAX: (970) 491-3906

Adult Learner and Veteran Services (http://alvs.colostate.edu) (ALVS) supports the transition, education, leadership, and engagement of Adult Learners and Student Veterans to strengthen their academic achievement and holistic development. Adult Learners are students who do not fit the characteristics of a traditional college student, including but not limited to students with dependents and veterans. ALVS facilitates the success of students through individual meetings, resource referrals, and engagement programs. The ALVS office includes a student lounge that promotes networking, community building, and access to resources.

Asian Pacific American Cultural Center
Office in Lory Student Center, Room 333
(970) 491-6154

The Asian Pacific American Cultural Center (http://apacc.colostate.edu) (APACC) provides programs and services to support the retention, graduation and success of students. APACC runs educational and volunteer programs to help spread awareness of Asian American culture and build community among Asian Americans, Pacific Islanders, and their allies. The Center welcomes all students and seeks to create a safe place for students of all backgrounds. The Center contributes to an inclusive campus environment by providing resources for Asian Pacific American awareness, education, and identity development.

Assistive Technology Resource Center
Office in Occupational Therapy Building, Room 302
(970) 491-6258

The Assistive Technology Resource Center (http://atrc.colostate.edu) (ATRC) ensures equal access to technology and electronic information for CSU students and employees with disabilities. Services include assistive technology assessments and training, as well
as consultation and education regarding accessibility and universal
design of mainstream and instructional technologies.

Black/African American Cultural Center
Office in Lory Student Center, Room 335
(970) 491-5781

When you are in this open environment, surrounded by diverse people,
you know you’re in a home away from home; you know you are in the
Black/African American Cultural Center (http://baacc.colostate.edu) (B/
AACC) office! Full of life and a sense of community, B/AACC provides
educational programs, opportunities to socialize, mentorship, community
service, leadership, professional development, and an academic
environment. B/AACC helps you network while getting involved on
campus, building strong relationships, and experiencing new things
throughout your college career. Next time you’re curious about visiting
our office, do not walk on by – walk in! We are unique individuals with
varying goals and different struggles: all destined for success.

Comprehensive Academic-Related Program for Graduate Students of Color
Office in Student Services, Room 108
(970) 491-6817

Comprehensive Academic-Related Program (http://
www.graduateschool.colostate.edu/diversity/agep/index.aspx) (CAP) is
a formalized program that highlights resources on campus, offers
professional development activities and provides access to faculty
mentors, while also supporting additional socialization activities to
encourage professional networks.

El Centro
Office in Lory Student Center, Room 225
(970) 491-5722

El Centro (http://elcentro.colostate.edu) provides an energetic,
welcoming, and inclusive environment. We have resources to support
personal, professional, social, cultural, and academic needs of all
students who want to become involved with El Centro. We offer a place
for discovering and appreciating diverse heritages, traditions, and
cultures. Student can visit El Centro to relax, socialize, laugh, engage
in dialogue, and build life-long memories. El Centro is a family, a “home
away from home,” a place that provides a sense of belonging.

First Generation College Students
First generation college students are defined as students whose parents
have not earned a bachelor's degree. CSU is proud of the success
of our first generation college students. Learn about the history of
first generation college students at CSU (http://www.colostate.edu/
features/first-generation.aspx). The Collaborative for Student
Achievement (http://osp.casa.colostate.edu/first-generation-award-
program.aspx) coordinates the first generation award. The Academic
Advancement Center (http://www.aac.colostate.edu) (AAC) provides
tutoring and support resources for first generation college students.

Native American Cultural Center
Office in Lory Student Center, Room 327
(970) 491-1332

The office of Native American Cultural Center (http://nacc.colostate.edu)
(NACC) was established in 1979. The four primary advocacy and
service areas include recruitment, retention, graduation, and community
outreach. The office embraces and encourages a supportive environment
based on the traditions and cultures of Native American peoples. We
embrace diversity and commit to improving the campus climate of
inclusion. All students are welcome in our office.

Office of Equal Opportunity
Office in Student Services, Room 101
(970) 491-5836

The Office of Equal Opportunity (http://oeo.colostate.edu) (OEO) is
charged with implementing, monitoring and evaluating programs,
activities and procedures that support the CSU’s commitment to
excellence.

The following are key programs and activities of OEO:

- Monitor and support CSU compliance with federal and state laws
  and CSU policies prohibiting discrimination and harassment.
- Develop and implement CSU’s affirmative action program.
- Overseer CSU’s search and selection process for all Academic Faculty
  and Administrative Professionals.
- Work in conjunction with Human Resources in the hiring process
  used for State Classified employees to ensure compliance with
  affirmative action and nondiscrimination requirements.
- Conduct investigations and resolve complaints of discrimination and
  harassment in accordance with CSU procedures.
- Serve as a resource and provide assistance to units, departments,
  and CSU constituencies regarding matters related to equal
  opportunity, affirmative action, access, and nondiscrimination.
- Provide education and training to faculty, staff, and students on
  matters related to equal opportunity, discrimination, and harassment.
- Coordinate CSU compliance with the Americans with Disabilities
  Act, Section 504 of the Rehabilitation Act of 1973, and Title IX of the
  Education Amendments of 1972.
- Collaborate with the Vice President for Diversity to cultivate
  awareness, appreciation, and engagement with diversity and its
  relevance in a CSU environment.

Office of Vice President for Diversity
Office in 645 South Shields Street
Fort Collins, CO 80523-1060

The Office of the Vice President for Diversity strives to foster an inclusive
campus that promotes and nurtures diversity, broadly defined. We are
committed to a foundational principal of inclusive excellence recognizing
that our institutional success depends on how well we welcome, value,
and affirm all members of the CSU community.

Our efforts focus on addressing diversity and inclusion policies and
practices that are essential to stay competitive and competent in the
global market place and are necessary in the recruitment and retention
of a diverse workforce. We recognize that all members of the campus
community (administrators, faculty, staff, students, and alumni) must
assume responsibility for the climate of CSU. A unit or person can drive
the process, but every individual at CSU assumes responsibility for
positive change.
Pride Resource Center
Office in Lory Student Center, Room 232
(970) 491-4342

The Pride Resource Center (http://glbtrc.colostate.edu) supports and affirms the diverse identities and lives of lesbian, gay, bisexual, transgender, queer, questioning (LGBTQ), Two-Spirit, and same-gender loving people as individuals and as groups, especially as students, staff, and faculty of CSU and their families, friends, and allies, through the cultivation of safe space, educational outreach, advocacy, increased visibility of LGBTQ issues, information and referral resources, and academic and leadership opportunities.

Student Disability Center
TILT Building, Room 121
Office in Lory Student Center, Room 223
(970) 491-6385

Student Disability Center provides support to students who have physical or learning disabilities as well as chronic physical or mental illnesses/conditions that may impact their ability and/or access to effectively participate as a student. Support includes advocacy as well as accommodation services to minimize the effects of a disability or condition.

Accommodation services include:
- Alternative testing conditions
- Alternative text conversion
- Note taking support
- Accessible transportation
- Sign language/oral interpreting.

Women and Gender Advocacy Center
Office in Student Services Building, Room 112, and Office in Lory Student Center, Room 234
(970) 491-6384

The Women and Gender Advocacy Center (http://wgac.colostate.edu) provides programs and resources focusing on all genders, social justice, and interpersonal violence prevention. Staff and volunteers also provide confidential advocacy and support for victims of sexual violence, stalking, sexual harassment, and relationship violence. Programs concentrate on examining the intersections of oppression and creating conditions that allow all people to equally access opportunities in a safe campus environment.

(970) 491-6626

Campus Activities (http://lsc.colostate.edu/campus-activities) offers students many opportunities to become involved and active on the CSU campus through our four entities: RamEvents, Flea Market, Campus Information and Box Office, and LSC Arts Program. Learn about the many exciting outside-the-classroom possibilities and volunteer opportunities available to you through the Lory Student Center and Campus Activities.

Career Center
Office in Lory Student Center, Room 120
(970) 491-5707

The Career Center (http://career.colostate.edu) provides career exploration, planning, and job/internship search services for both graduate and undergraduate students in all majors and colleges.

Services include:
- Career counseling and career workshops
- Resume and job/internship correspondence writing skills
- On-campus recruiting program that includes two annual all-campus career fairs and several specialized fairs
- Career interviewing opportunities with over 100 employers via Handshake
- Available career and internship positions with area, regional, and national employers—information through Handshake

Child Care Options
See Adult Learner and Veterans Services (http://www.alvs.colostate.edu).

CSU Health Network
CSU Health Network is every student’s home for health and well-being. All CSU students have full access to the wide range of medical, counseling, and health education and prevention services provided by CSU Health Network, regardless of their insurance plan.

All services are located under one roof in the state-of-the-art CSU Health and Medical Center, conveniently located on-campus at 151 West Lake St. (corner of College Ave. and Prospect Rd.)

Contact CSU Health Network:
(970) 491-7121
health.colostate.edu (http://health.colostate.edu)

Medical Services
The CSU Health Network Medical Services (http://health.colostate.edu/services/medical-services) offers care and consultation for students’ medical concerns. In addition to scheduling appointments by telephone, students may schedule through the online health portal for some of the most common symptoms, conditions, and needs.

CSU Health Network is an in-network medical provider with most insurance carriers, which means they can file claims with your private health insurance plan for services received.
General Medical Services
- Primary Care
- Behavioral Health
- Immunizations
- Laboratory
- Pharmacy
- Radiology

Specialty Services
- Allergy and Asthma
- Dental
- Men's Care
- Massage Therapy
- Nutrition Consultation for Disordered Eating
- Optometry
- Physical Therapy
- Psychiatry
- Sports Medicine/Orthopedics
- Transgender Care
- Travel Medicine
- Women's Care

Counseling Services
Whether students are experiencing a situational problem, an immediate crisis, or have a longstanding mental health concern, CSU Health Network Counseling Services are available to help. The professional staff includes licensed psychologists, licensed clinical social workers, and licensed professional counselors, as well as graduate student staff from each of these disciplines.

By paying student fees, all CSU students can access up to five individual counseling sessions per semester at no additional cost. CSU Health Network counselors can help with a wide range of concerns - everything from a current stressor to more complex mental health concerns.

All counseling is confidential. No information is released to anyone without a student's written consent except in the case of a life-threatening emergency or when it is otherwise required by law.

Services Offered:
- Individual and Couples
- Groups and Workshops
- Drugs, Alcohol and You (DAY) Programs
- Crisis Intervention
- Post-Hospitalization Support (iTEAM)
- Consultations with Colleagues/Parents/Friends

Health Education and Prevention Services (HEPS)
Health Education and Prevention Services (http://health.colostate.edu/services/health-education-prevention-services) supports the health and well-being of students through the identification of campus health priorities and delivery of relevant programs, services and multidisciplinary initiatives that enable students to accomplish their academic goals and enhance personal development. Using evidence-based best practices, in collaboration with campus and community constituents, a holistic approach to health education and prevention is used for a diverse campus population. These practices involve opportunities to foster awareness and skills, as well as address the environmental context in which health behavior decisions are made.

Focus areas include:
- Substance Abuse Prevention
- Mental Health Initiatives
- Peer Education (CREWS)
- Resiliency and Well-Being
- Sexual Health Initiatives
- Tobacco Cessation
- Spiritual Care

Student Insurance Services
Health insurance coverage is important in case of an emergency or if off campus services are needed. The CSU Student Health Insurance Plan (http://health.colostate.edu/student-health-insurance) provides benefits both within the CSU Health Network and off-campus. The RamCare Supplement Program (http://health.colostate.edu/student-health-insurance/ramcare-supplement-program) is designed for students who have another health insurance plan. It covers certain services at the CSU Health Network that would otherwise be billed at the time of services.

Services Offered:
- Student Health Insurance
- RamCare Supplemental Program
- Private Health Insurance Billing

Housing & Dining Services
Offices in the Palmer Center, 1005 W. Laurel
(970) 491-6511

Housing and Dining Services (http://housing.colostate.edu) provides all services and resources related to Residence Halls, Residential Dining Services, University Apartments, Conference & Event Services, and the CSU Mountain Campus.

Residence Halls
Office in the Palmer Center, Room 111
(970) 491-4719

Residence Life provides educational opportunities, services, programs, and facilities that are designed to enhance each student’s total campus experience. Students who live in the residence halls (http://www.housing.colostate.edu/residence-halls) have a choice of several different room and floor types. Students in the halls also have the option to join one of more than 20 Residential Learning Communities (RLCs) that are centered on students’ academic and personal interests. Students who live on campus have access to resources like professional staff as well as 24/7 security. Residence hall living allows students to actively participate in a variety of academic and social activities. These activities provide experiences in leadership development and co-
curricular education that supplement classroom instruction and greatly enhance the quality of on-campus University life.

**Housing Assignments**
A Housing Guide is mailed to all newly admitted students as part of the admissions packet. Inquiries from continuing students should be directed to Residence Life at (970) 491-4719 or residencelife@colostate.edu.

**Residential Learning Communities**
Residential Learning Communities (RLCs - academic and themed floors in the residence halls) provide students with an opportunity to quickly develop a sense of community at CSU. Developed around academic majors and personal interests, these communities assist students in succeeding both academically and socially. Through a wide variety of programs, tutoring, and involvement opportunities, students in an RLC have the chance to get the most from their college experience. For more information on these communities, see Residential Learning Communities or Housing Options (http://housing.colostate.edu/housing-options).

**First Year Residence Hall Requirement - First-Year Students**
Experience and research have demonstrated that students who live on campus adjust to college life more successfully, have higher GPAs, and are more likely to graduate than students who live off campus. For this reason, all newly admitted first-year students and transfer students with fewer than 15 post-high school credits, who are single, under 21 years of age, and not living with their parents in the Fort Collins area, are required to live their first two consecutive semesters in a residence hall. Credits taken concurrent with high school and/or credits attained through Advanced Placement (AP) do not apply toward previous college experience.

All residents are required to sign a contractual agreement (http://reshallpolicies.colostate.edu/residence-hall-contract-guidelines), which includes meals, and is binding for the entire academic year. Inquiries regarding this requirement, including guidelines for requesting an exemption, should be directed to Residence Life at (970) 491-4719.

**Residential Dining Services**
Office in the Palmer Center, Room 108
(970) 491-4754

Residential Dining Services (http://housing.colostate.edu/dining) operates five dining centers, two Express locations, and RAMwich - an online sandwich ordering system with pick-up available at Braiden Dining Center. “Late Night” dining options are available at two of our full-service locations until 11 p.m., as well as both express locations until 1 a.m. Each dining center features a unique combination of food concepts, offering choices such as sushi, pizza, pasta, stir-fry, vegan/vegetarian options, Tex-Mex, an array of international options, and made-to-order sandwiches. Extensive salad bars feature fresh fruits and vegetables as well as fat-free dressings. The on-campus bakery provides a wide range of artisan breads, desserts, and gluten-free and specialty items. Students have a choice of meal plans that allow access to any of our dining centers. Menus include vegetarian, vegan, gluten-free, and soy products at each meal. Residential Dining Services additionally has a registered dietitian nutritionist on staff, who can assist students with special dietary needs.

**University Apartment Housing**
Office in the Palmer Center, Room 208
(970) 491-4743

The University Apartments (http://housing.colostate.edu/apartments) offer more than 1,100 apartments in four communities. Apartment Life has options for couples and family housing, graduate student housing, upperclass undergraduate student housing, as well as post-doctoral and visiting scholar housing. Academic year leases are available. Individual leases in shared apartments are also offered. All apartment communities are available to domestic and international students in multicultural communities founded on the CSU Principles of Community. The Apartment Life website offers rental rates, 3D floor plans, and a video of each apartment village.

A Housing Guide is mailed to all newly admitted students as part of the CSU admissions packet. Inquiries from continuing students should be directed to Apartment Life at (970) 491-4743.

**International Student and Scholar Services (ISSS)**
Office in Laurel Hall
(970) 491-5917

International Student and Scholar Services (http://isss.colostate.edu), within the Office of International Programs, assists international students and scholars with cultural adjustment, academic integration, professional growth and personal support, and oversees orientation and arrival, regulatory compliance, immigration services, and sponsor services and programming.

**Off-Campus Life**
Office in Lory Student Center, Room 274
(970) 491-2248/491-6196

Off-Campus Life (http://offcampuslife.colostate.edu) provides services and programs to meet the diverse needs of off-campus and commuter students and to assist students in successfully transitioning, integrating, and engaging in the local community.

Services include:

- Information on housing options in the community, including online rental listing service
- Help in finding roommates
- Transportation information
- Tenant rights and responsibilities, including ordinance information
- Connection with community members through volunteer opportunities
- Tools and resources for students to have a successful off-campus living experience.

**Orientation and Transition Programs**
Office in east side of stadium (part of Collaborative for Student Achievement)
1415 Meridian Ave
(970) 491-6011

Orientation and Transition Programs (http://otp.colostate.edu) provides programming and services designed to assist first-year, second-year, and transfer students with a successful transition at CSU. OTP offers a continuum of services beginning with Ram Orientation to Ram Welcome (prior to classes beginning) to transition programming throughout the
first two years of students' experiences at CSU. OTP believes in assisting students in creating a sense of belonging at CSU and understanding what it means to be a CSU Ram. Additionally, OTP places high value on student leadership and development and employs more than 350 student leaders to implement these University-wide programs.

**CSU Police Department**
Office in Green Hall  
(970) 491-6425

The CSU Police Department (http://police.colostate.edu) (CSUPD) operates 24 hours a day, every day of the year. "911" access is TDD compatible and a TDD service line is available at (970) 491-2323.

The CSU Police Department is a full-service, accredited law enforcement agency whose officers are armed and have full law enforcement authority on all property owned or controlled by CSU. Officers are committed to a philosophy of community based policing and work in partnership with others to augment campus safety. CSU officers also possess peace officer commissions from the State of Colorado, the City of Fort Collins, and are commissioned deputy sheriffs in Larimer County.

CSU police enforce criminal and traffic laws, investigate all crimes that occur on campus, make arrests, and maintain full integration with the criminal justice system, including close working relationships with the District Attorney's Office, Fort Collins Police, Larimer County Sheriff's Department, and other state and federal law enforcement agencies and investigation bureaus. The programs and services of the department are designed to meet the demands and needs of a growing and thriving CSU community.

The Jeanne Clery Disclosure of Campus Security and Campus Crime Statistics Act is the landmark federal law that requires colleges and universities to disclose information on security policies and timely, annual information about crime on and around campus. The CSU Safety Report (http://police.colostate.edu/clery-act) is published annually.

The Bicycle Education and Enforcement Program (http://police.colostate.edu/bike-traffic) (BEEP) is a unit of the police department designed to address bicycling issues on campus. Bicyclists are expected to comply with CSU bicycle regulations, obey all traffic laws, and register their bicycles with the CSUPD.

The Safe Walk Program (http://police.colostate.edu/safe-walk) is a service designed to assist those who walk during the hours of darkness. Trained Campus Service Officers are available to walk people to and from their destination within a defined service area. Call (970) 491-1155 or use any police service callbox on campus.

**Campus Safety and the Clery Act**
The Jeanne Clery Disclosure of Campus Security and Campus Crime Statistics Act ("Clery Act") is the landmark federal law that requires colleges and universities to disclose information on security policies and timely, annual information about crime on and around campus. Additional information about the Clery Act, and campus safety is available in University Policies, and online (http://police.colostate.edu).

**Concerned about someone? Tell Someone**
If you are concerned about the health, well being, or safety of a CSU student or employee, you are encouraged to Tell Someone (http://supportandsafety.colostate.edu/tell-someone). Examples of when to Tell Someone include but are not limited to:

- Disruption to the living, learning, or working environment.
- Poor health due to restrictive eating or possible eating disorder.
- Sudden, rapid weight loss or gain.
- Hospitalization for mental health issues or drug or alcohol use.
- Sudden, rapid weight loss or gain.
- Hospitalization for mental health issues or drug or alcohol use.
- Alcohol or other substance abuse problems.
- Pattern of bizarre behaviors or actions.
- Threats, gestures, writings, or attempts related to suicide or violence.
- Harmful to themselves or others.
- Self-injurious behavior (e.g. cutting self).

**Parking and Transportation Services**
Office in Lake Street Garage, 1508 Center Avenue  
(970) 491-7041

Parking at CSU is available for faculty, staff, students, and visitors and does require a parking permit. Parking and Transportation Services (http://parking.colostate.edu) can assist with more information regarding purchasing an annual permit, information on visitor or short term permits, or pay by plate locations. In addition to commuting via automobile, many members of the campus community choose alternative transportation options. Visit the Parking and Transportation Services website for information on biking or walking to CSU, carpooling, and using the Transfort system.

**Alternative Transportation**
Brought to campus by ASCSU, Parking and Transportation Services, and Transfort (https://pts.colostate.edu/transportation-options/transit-general), leave cars at home and use MAX, other Transfort (https://pts.colostate.edu/transportation-options/transit-general) routes and Around the Horn (https://pts.colostate.edu/transportation-options/transit-general/horn) to get around campus. Thirteen stops are serviced every 10 minutes Monday through Saturday. In addition to mass transit, CSU encourages alternative transportation (http://pts.colostate.edu) (biking, walking, and carpooling).

**Student Legal Services**
Office in Lory Student Center, Room 284  
(970) 491-1482

Student Legal Services (http://sls.colostate.edu) provides free legal advice to fee-paying students on a variety of legal matters. Common cases involve housing issues (e.g., review of leases), criminal law, consumer complaints, and debt problems, but all questions are welcome. Some services such as preparation of wills and powers of attorney carry an additional nominal charge. The staff also educates clients about their legal rights and responsibilities and, where helpful, guides students in the use of negotiation, mediation, and small claims court to resolve their disputes. Students who don’t pay the student fee package may, in appropriate cases, pay SLS’s semester fee (less than $10) and receive
services. Educational presentations by the SLS attorneys are always available.

**Student Resolution Center**

Office in Aggie Village Walnut, 501 W. Lake, Suite A
(970) 491-7165; FAX (970) 491-1800

Student Resolution Center (SRC) (https://resolutioncenter.colostate.edu) supports the developmental, behavioral, and educational needs of students. Through a myriad of approaches SRC strives to maximize individual student success while upholding community standards and helping students navigate challenging times. The SRC aims to assist, educate and support CSU students through two processes:

- **Conflict Resolution Services** – voluntary, neutral, confidential process to assist students when conflicts, disputes or issues arise.
- **Student Conduct Services** – one-on-one meetings to discuss alleged violations of the Student Conduct Code, hear perspectives, explore personal responsibility, hold students accountable and provide educational and restorative outcomes when appropriate.

SRC offers the following:

- Conflict coaching/consultation
- Assistance with grade appeals, roommate disagreements, student/faculty conflicts, academic matters/appeals
- Mediation/facilitation between individuals or organizations
- Student conduct hearings
- Pre-admission hearings
- Training/outreach related to conflict prevention and management, academic integrity, and civility
- Outcomes/education, including referrals to the Drugs, Alcohol and You (DAY) Programs, Party Partners, and skill-building workshops.

**Academic Services and Programs**

Collaborative for Student Achievement
Learning Communities
Office of International Programs
The Institute for Learning and Teaching (TILT)

Collaborative for Student Achievement
Located in the Multi-Purpose Stadium
1415 Meridian Avenue
(970) 491-7095

The Collaborative for Student Achievement (http://www.casa.colostate.edu) is a dynamic organization that empowers students to make the most of their educational experience beginning at orientation and continuing through to graduation. The Collaborative offers essential services integral to both the academic and personal success of students. Services include Orientation and Transition Programs, Key Communities, Undeclared Advising, Health Professions Advising, Community for Excellence Scholar Programs, and Outreach and Support Programs.

Learning Communities at CSU
Colorado State University offers students a variety of residential and non-residential Learning Communities and Residential Theme Programs (http://www.lc.colostate.edu) that bring cohorts of students together in shared learning experiences. Learning Communities integrate curricular (co-enrollment in classes) and co-curricular learning in order to provide a supportive, academically-focused environment that cultivates a sense of community and empowers students to become engaged citizens on campus and in the community.

In partnership with Housing & Dining Services, Residential Learning Communities and Theme Communities are in many of the residence halls, offering a unique residential experience consisting of special interest areas that help build positive communities with students who share similar academic or personal interests and/or lifestyles. These communities connect students with faculty and staff who engage students in their learning and provide information about opportunities available at CSU.

**Residential Learning Communities include:**

- **Arts and Creative Expression Residential Learning Community:** (ACE) The ACE (http://www.ace.colostate.edu) program in Parmelee Hall provides students in the visual and performing arts a collaborative environment in which to grow creatively. Students will learn to become strong advocates of the arts and will have opportunities to participate in service learning programs and outings such as gallery walks, museum visits, and live performances both on and off campus. The ACE Program is open to first year students majoring in Art, Music, Dance, and Theatre. Pre-music majors do not qualify.

- **College of Natural Sciences Learning Community:** (CNSLC) The CNSLC (http://www.lc.colostate.edu) in Laurel Village provides a positive and diverse learning environment for science students and offers classrooms, faculty and advising offices, study groups, fabulous social spaces to promote interaction among the students, and a wide variety of social & academic activities and projects. Peer Academic Leaders (PALs), help students make connections to what they are learning in their courses through engaging projects and activities that connect science to their lives and the world.

In addition to participating in the CNSLC, there are two thematic clusters that offer additional, optional experiences for select students:

- **Science Outreach Scholars:** Students who are interested in how they can use science to change the world will all live together on one floor. They will take a one-credit seminar class that will explore issues of social justice and diversity in science. Through the class, students will work with local, culturally-diverse K-12 classes. This cluster will provide opportunities to connect with other students from diverse backgrounds and connect with faculty and staff at CSU including: CSU diversity programs and offices, the Education and Outreach Center, the Little Shop of Physics, the School of Education, and other campus partners. Students in this program also participate in academic study groups with their peers.

- **Sustainability Cluster:** Students who are interested in sustainability will live together on one floor in Piñon Hall, a LEED-certified building that provides a perfect platform for exploring sustainability on the CSU campus. Students collaborate with Residence Life, Housing and Dining and the College of Natural Sciences to push the boundaries of sustainability in a residence hall and explore the ideas of global sustainability through the lens of a scientist. Students lead a sustainability committee that spearheads multiple initiatives. Some of the student-driven projects include designing and managing the CNSLC community garden beds and piloting in-hall composting to inform larger university decisions. Members of this cluster will
have the opportunity to get involved in research and to propose and spearhead other sustainability-related projects.

Engineering Residential Learning Community: The Engineering Learning Community in Academic Village, Aspen Hall and Edwards Hall offer Engineers students an academically supportive and fun environment. Residents can take advantage of design studios, collaborative work rooms, an electronic classroom, as well as in-house tutoring and academic advising. In addition, students who choose to live in the Engineering Learning Community also have the opportunity to engage with a live-in faculty-in-residence, live-in graduate students, and Walter Scott, Jr. College of Engineering Mentors on a daily basis to help them with their transition to CSU and their major. Currently, this community is limited to Engineering majors only.

Global Village: Global Village (GV) is a diverse learning community that will give you the unique opportunity to live with and get to know students from around the world. It is a place where who you are is important—wherever you may be from—and where we value learning about each other, our cultures, and our stories. You will be supported in your first year by your GV Mentor and you will have the chance to participate in numerous activities designed to develop academic success, create cultural connection and understanding, and build leadership skills in a diverse world. As a Global Village student, you'll enroll in 6 credits of courses shared with other Global Village students including SPCM 100 and KEY 192C. Global Village Seminar, focused on studying culture in the US and around the world. Global Village is the place to form long-lasting friendships, discover new cultures, and understand what it means to be part of a global community, now and in the future. This community is open to first year and transfer students.

Health and Exercise Science Community: (HES) In the Health & Exercise Science (HES) Community (http://www.hes.chhs.colostate.edu/students/undergraduate/housing.aspx), students live with other students who are taking the same courses, have similar career goals, and who are often vested in living active and healthy lifestyles. Living in the HES community will allow for residents to connect with each other not only academically but socially as well through engaging Residence Life programming. The HES community is conveniently located in Corbett Hall, across the street from Moby B Complex where students have access to a computer lab, where major courses are offered, and where the Department of Health & Exercise Science is located. In the fall, students in the community will take HES145 – Health & Wellness together as a cluster. In the spring students will take HES207 – Anatomical Kinesiology as a cluster. The HES Community is open to first-year students who are declared as Health & Exercise Science Majors at Colorado State University.

Honors Residential Learning Community: (HRLC) The HRLC, housed in the Academic Village and Edwards Residence Hall, serves half of the students admitted to the University Honors Program. First year students develop a sense of community by residing with other high achieving students who share similar academic interests and goals. Honors staff are located at the Academic Village and are available for advising and assistance.

Key Communities: Key Communities (http://key.lc.colostate.edu) are highly diverse first and second year learning communities designed to assist students with their transition to and through the university. Based on active and experiential learning through interdisciplinary classes, service-learning, academic and career exploration, undergraduate research and leadership development, Key aims to increase retention and academic performance of participants, encourage campus and community involvement, and promote diversity awareness. Through Key, students: achieve academic excellence, establish meaningful relationships, enhance leadership skills, connect with a diverse community, and engage in personal exploration.

- **Key Academic Community**: Students who participate in the Key Academic Community participate in a community focused on academic excellence, service engagement, leadership development, and diversity awareness through weekly one-hour mentor-led modules. Key Academic students live with 152 other students in Braiden Hall and enroll in up to two 3-credit core classes and a 1-3 credit Key Seminar class during the fall semester.
- **Key Civic Community**: Students who participate in the Key Civic Community engage in discussions looking at worldviews as they relate to your everyday life. Key Civic students live with 160 other students in Corbett Hall and enroll in a 3-credit core class and a 2-3 credit Key Seminar class during the fall semester.
- **Key Culture, Communication and Sport Community (CCS)**: Students who participate in the Key Culture, Communication, & Sport Community are first year NCAA student athletes. CCS students explore how athletics and individuals with diverse backgrounds are represented and impacted through media and popular culture. Key CCS students enroll in one 3-credit core class and a 3-credit Key Seminar class during the fall semester.
- **Key Explore Community**: Students who participate in the Key Explore Community learn more about who they are, how they make decisions, and how they work with others who are different from themselves. Key Explore students live with 152 other students in Braiden Hall and enroll in up to two 3-credit core classes and a 3-credit Key Seminar class during the fall semester.
- **Key Health Professions Community**: Students who participate in the Key Health Professions Community engage with other students who are interested in pursuing Human or Animal Health Professions. Key Health Professions students live with 76 other students in Braiden Hall and enroll in two core classes and a 2-credit Key Seminar class during the fall semester.
- **Key Service Community**: Students who participate in the Key Service community complete 1 to 2 hours of volunteer work every week. Key Service students live with 76 other students in Braiden Hall and enroll in a 3-credit core class and a 2 credit Key Seminar class during the fall semester.
- **Key Plus Community**: Key Plus is an academically focused learning community that works closely with students to develop strong leadership and career decision-making skills. Key Plus is an optional sophomore year program for students who participated in the Key Communities during their first year at CSU.
- **Key Plus Course Track**: Students who are accepted into the Key Plus Course track enroll in an affiliated 1-credit class with other Key Plus students. Students may live off-campus and be involved in the Key Plus Course track by taking one of the affiliated 1-credit courses.
- **Key Plus "Leaders Engaging in Academics, Diversity, and Service" (LEADS) Track**: The LEADS track is also an honorary opportunity whereby participants do not enroll in the affiliated classes but do live in the 4th floor Braiden Lofts. Students in the LEADS Community are required to participate in 20 hours of leadership activities each semester.

Leadership Development Community: (LDC) The LDC is a Residential Learning Community comprised of a diverse group of students with all majors and minors who have a similar passion focused on leadership
development and making a change in the world. Participating students live in Durward Hall while enrolled in a year-long course (2 credits in the fall, 2 credits in the spring) as part of the President’s Leadership Program (PLP). Acceptance into PLP is required.

Natural Resources and Sustainability Learning Communities: (NRSLC) The NRSLC (http://warnercnr.colostate.edu/students/current/resources-and-information/579-live-green), located in Summit Hall, is only for Natural Resources students to engage in the research and outreach of the Warner College of Natural Resources. Through this experience, NRSLC students will have the opportunity to network with natural resources faculty, community members and dive into their field of study. There are two distinct tracks to choose from: Natural Resources and Sustainability or Outdoor Leadership.

Residential Theme Communities include:

Living Substance Free: This themed community (http://www.lc.colostate.edu), located in Corbett and Westfall Halls, is a community for students who are committed to a lifestyle free from alcohol, tobacco, or drugs. A wide variety of social events and programs are offered to first year and returning students. This program is co-sponsored by Residence Life and the CSU Health Network.

Second-Year Experience Community: The Year 2@CSU: Residential Experience (http://www.otp.colostate.edu/sy-year2.aspx) is a co-sponsored community between Residence Life (http://www.housing.colostate.edu/residence-halls) and Orientation and Transition Programs (http://www.otp.colostate.edu) (OTP) housed in Laurel Village. Forty suite-style rooms have been designated for students to live in a community that is focused on the second year experience. Specifically, the community focuses on outreach and learning connected to the following areas: career and major exploration, global citizenship and service, academic engagement and outdoor adventure. Students living on the floor connect with each other through academic workshops, a fall outdoor mountain retreat, service projects, and a variety of other floor outings. This themed community will ask residents to sign a learning agreement and no class is required to participate in this community. Any current first year student is welcome to apply to live in this community.

Transfer Residential Community: The Transfer Residential Community (http://www.otp.colostate.edu/csu-transfer-networks.aspx) in Braiden, Allison, and Summit Halls is a partnership between Orientation and Transition Programs and Residence Life. The Community consists of transfer students with an interest in learning more about the resources at CSU and making connections with other transfer students. The Transfer Residential Community is about supporting student success at CSU and encouraging active engagement while introducing students to the many opportunities available to them through CSU. In addition, the Transfer Residential Community provides resources and direct contact with Transfer Transition Leaders, connecting students to CSU and the community, while fostering meaningful friendships. Finally, by living and participating in the Transfer Residential Community, students get the help and guidance they need to thrive in their transition and excel in their academic and social experience at CSU. This community is open to new transfer students.

Learning Communities without a residential requirement include:

Campus Connections Learning Community: The Campus Connections Learning Community (CCLC) provides ongoing co-curricular opportunities for CSU students to enrich their involvement with Campus Connections through leadership and service.

Catalyst Learning Community: The Catalyst Learning Community (https://tilt.colostate.edu/catalyst) is a non-residential learning community for second year students who are passionate about learning and teaching. This experience provides the chance for students to be leaders within an academic setting, while exploring their own career paths. The three semester experience includes a Learning Assistant (https://tilt.colostate.edu/catalyst/earn/laDesc.cfm) internship, an Undergraduate Research Assistant (https://tilt.colostate.edu/catalyst/earn/raDesc.cfm) internship, and two one-credit courses that explore peer education and CSU research.

Mentored Research and Artistry Program: The Mentored Research and Artistry Program is an interdisciplinary, non-residential learning community designed to provide undergraduate students with the opportunity to participate in high impact, real world research or other creative works.

Office of International Programs

Offices in Laurel Hall
(970) 491-5917

The Office of International Programs (http://international.colostate.edu) (OIP) creates and fosters international activities supporting teaching, learning, research, and engagement at CSU. OIP offers a broad array of programs and services designed to provide international experiences for all CSU students, scholars, faculty and staff. The office is organized into four functional units—International Student and Scholar Services, Education Abroad, International Initiatives and China Programs.

The Institute for Learning and Teaching (TILT)

Offices in the TILT Building
(970) 491-3132

The Institute for Learning and Teaching (http://tilt.colostate.edu) (TILT) supports students’ academic success and pursuit of long-term goals through several curricular and co-curricular learning programs. Tutoring, study groups, and Learning Assistants help students succeed in challenging courses. Serving as a TILT tutor, study group leader, or learning assistant allows students to take up academic leadership roles, learn course material very deeply, and gain experience relevant to prospective employers, graduate programs, and internships. Academic success workshops, such as time management, exam preparation, and learning strategies, help students improve study skills and learn about topics of interest. Through TILT, students can participate in service-learning opportunities or in undergraduate research and artistry projects with faculty mentoring. National research has shown that taking part in these opportunities improves learning, increases academic achievement, and promotes connections with faculty and other mentors who often help students achieve professional and personal goals.
INTO-CSU

Office in Spruce Hall
(970) 492-4686
into.colostate.edu (http://into.colostate.edu)

Through INTO CSU, international students can study English as a second language or choose to attend one of the many undergraduate and graduate Pathways programs to strengthen academic credentials and English proficiency before applying to a CSU degree program. All programs are in a highly supportive learning environment, designed to accelerate students' success. Students, regardless of INTO CSU program of study, have all the benefits and experiences of campus life at CSU, including access to all of the academic, social, and cultural resources and activities that CSU has to offer.

English Language Programs
The mission of the English Language Program at INTO CSU is both to provide quality English language training and academic support programs to help international students make significant and consistent progress toward their academic, professional and personal language goals and to serve the needs of the University at large, including the provision of teacher training to prospective teachers of English as a Foreign/Second Language.

Academic English Program
The Academic English (http://www.intostudy.com/en-gb/universities/colorado-state-university/programs/academic-english) program at INTO CSU is accredited by the Commission on English Language Program Accreditation (CEA) and prepares international students for university study in the U.S. This academically rigorous program provides international students with high-quality English language instruction and the academic skills to succeed at CSU through development of:

- Listening
- Speaking
- Reading
- Writing
- Grammar
- Academic study skills

Pre-Academic English Program
The four-week Pre-Academic English (http://www.intostudy.com/en-gb/universities/colorado-state-university/programs/pre-academic-english) program is specifically designed for students with more advanced English skills wanting to become familiar with U.S. academic culture and expectations before starting a Pathway or degree program. The program provides instruction in academic listening, speaking, reading and writing. This program is also open to Fulbright scholars.

Special Programs in English
The INTO CSU Center works with organizations to create English language programs for their specific need.

Pathway Programs
INTO CSU offers undergraduate and graduate level bridge programs designed to provide international students experience in university-level academic classes before they become full-time university students. Students in a pathway program have access to the resources of a regularly admitted student along with additional support to help with their transition to American culture and study.

Undergraduate Pathways
Undergraduate Pathway (http://www.intostudy.com/en-gb/universities/colorado-state-university/pathways) programs are designed to improve English language and academic skills along with core courses to help students move successfully through the first year of an undergraduate degree at CSU.

Graduate Pathways
Graduate Pathway (http://www.intostudy.com/en-gb/universities/colorado-state-university/pathways) programs are designed to provide students with a direct path to various graduate degrees at CSU. These programs provide the academic foundation, essential language skills and GMAT/GRE test preparation to move on to a graduate degree program.

Administrative Resources
Academic Computing and Network Services (ACNS)
Registrar's Office
Office of Financial Aid
University RamCard

Academic Computing and Network Services (ACNS)
Office in University Services Center, Sixth Floor
(970) 491-5133

Academic Computing and Network Services (http://www.acns.colostate.edu) (ACNS) provides information technology services to the CSU community in addition to those local resources available in colleges and departments.

Account information, documentation, and assistance with personal computers and CSU's central computing systems are available from the Central IT Help Desk, located in Morgan Library (970) 491-7276. Computers, software, and technology supplies may be purchased at RAMtech, located in the Lory Student Center (970) 491-7625. A current CSU identification card is required for purchases.
Registrar's Office
Office in Centennial Hall
(970) 491-4860

The Registrar's Office supports students throughout their academic careers and beyond by providing innovative services to the CSU community. The Registrar's Office serves as a central administrative office for students, families, faculty, staff, and alumni by providing the following services:

- Maintain and provide official academic transcripts
- Maintain student academic and biographical records (such as preferred first name, legal name, address, phone number, date of birth, etc.). Changes to biographical data can be student initiated via RAMweb (https://ramweb.colostate.edu) and become part of the student’s CSU record.
- Collect and serve as resource for academic appeals for exceptions
- Oversee and support all academic registration functions
- Report, certify, and maintain academic degree and enrollment verifications
- Support transfer students and manage the transfer credit process
- Certify military and veterans educational benefits
- Coordinate academic and classroom scheduling
- Act as a central academic information resource
- Comply with and educate campus on Federal and State legislation and institutional policy
- Publish final examination schedules
- Lead and participate in cross-divisional and institution-wide projects
- Manage on-line course grading and reporting
- Support curriculum approval process
- Publish annual General Catalog
- Maintain RAMweb (https://ramweb.colostate.edu), ARIES, and ARIESweb access and security
- Serve on and support numerous university committees as well as national level organizations.

Office of Financial Aid
Office in Centennial Hall
(970) 491-6321

The Office of Financial Aid (http://sfs.colostate.edu) administers a variety of institutional, state, federal, and private financial assistance programs for qualified students. Financial assistance programs include scholarships, grants, loans, and employment.

Student Employment Services
Office in Lory Student Center, room 120
(970) 491-5714

Employment opportunities available include the Work-Study Program, on-campus departmental positions, and community part-time employment. Refer to the Student Employment Services (http://ses.colostate.edu) website for more details.

University RamCard
Office in Lory Student Center, Room 271
(970) 491-2344

Email: ramcard@colostate.edu

RamCards (http://housing.colostate.edu/ramcard) (CSU identification cards) for students, faculty, and staff are used for identification, meals, RamCash, building access, Recreation Center access, library materials checkout, Transport, printing with PaperCut, sporting and cultural events, entrance to exams, and more. The RamCard (http://housing.colostate.edu/ramcard) can be obtained during normal business hours at the RamCard Office in the Lory Student Center, Room 271. A current government-issued picture ID is required to obtain a RamCard. This could be a passport from any country or one of the following U.S. government-issued picture IDs: a driver license, driver permit, state ID, or military ID. The initial card cost is $20, and replacement cards cost $25 (all costs subject to change). RamCash is a convenient campus declining-balance account. Students, faculty, staff, and University visitors can use RamCash for the convenient purchase of food, beverage, goods, and services across campus. Learn more about RamCard services and RamCash at www.ramcard.colostate.edu

Facilities

CSU spans five primary campuses on 4773 acres, plus numerous Agricultural Experiment Stations, Cooperative Extension offices, and Colorado State Forest Service sites across the state that cover an additional 4038 acres. Altogether, CSU has 705 buildings including 3295 classrooms and 1237 laboratories totaling 10,434,578 gross square feet. In addition to acres owned, CSU manages an additional 9,978,478 acres throughout the state, most of which is the Colorado State Forest.

Bookstore
Coffee Shops
CSU Transit Center
Lory Student Center
CSU Mountain Campus
CSU Sports and Athletic Facilities
Student Recreation Center
Study Spaces
University Center for the Arts
University Libraries
Veterinary Teaching Hospital

Bookstore
The CSU Bookstore (http://www.bookstore.colostate.edu/home.aspx) is located in the Lory Student Center. Proceeds from the CSU Bookstore go back to students and the CSU community. CSU insignia items, school supplies, and art supplies are available as well as textbooks for every class at CSU.

Coffee Shops
Coffee shops are great places to grab a refresher and dive into studying or group meetings. Here are the locations (https://myatlascms.com/map/?id=748&mrkIid=1268) of some coffee shops on CSU’s campus.

Sweet Sinsations (http://lsc.colostate.edu/dining-at-the-lory-student-center/food-brands/#sweetsinsations) - Lory Student Center
Intermissions (http://lsc.colostate.edu/dining-at-the-lory-student-center/food-brands) - Lory Student Center
Sweet Temptations (http://lsc.colostate.edu/dining-at-the-lory-student-center/food-brands) - Behavioral Sciences Building
Morgan's Grind Café (http://lsc.colostate.edu/dining-at-the-lory-student-center/food-brands) - Morgan Library
The Bean Counter (http://lsc.colostate.edu/dining-at-the-lory-student-center/food-brands) - Rockwell Hall
Ram's Horn Express (http://lsc.colostate.edu/dining-at-the-lory-student-center/food-brands) - Academic Village

CSU Transit Center
The CSU Transit Center (http://lsc.colostate.edu/lory-student-center-transportation-information) is located on the first floor of the north end of the Lory Student Center. It includes a Transfort customer counter, flat screen monitors displaying departure times and news stories, and an indoor passenger waiting area to make public transportation more comfortable and convenient for CSU students and visitors.

Transfort, Around the Horn
Transfort (http://www.ridetransfort.com) is the local Fort Collins bus service that offers a multitude of stops close to student living areas and runs schedules that complement CSU class schedules. This mass transportation system cuts down on pollution and brings students right to the center of campus. CSU students account for nearly thirty-five percent of Transfort’s ridership!

The Around the Horn (http://www.colostate.edu/AroundtheHorn) free shuttle service was added in 2014. Brought to the campus community by ASCSU and Transfort, the thirteen stops, serviced every ten minutes Monday through Saturday, offer a convenient and quick way to navigate campus.

Campus community members can leave cars at home and use MAX (the city’s rapid bus transit service), other Transfort routes, and the Horn to conveniently get to and around campus.

Lory Student Center
The Lory Student Center (http://www.sc.colostate.edu) is the dynamic hub of campus, serving more than 20,000 people each day. It encourages the lifelong learning development of students, faculty, staff, and community members. Lory Student Center services and programs create a stimulating and supportive atmosphere to complement academic learning and social enrichment. You may reach Campus Information and the Lory Student Center (http://www.lory-student-center/food-brands) - Academic Village

CSU Mountain Campus
Nestled in a beautiful, secluded mountain valley at an elevation of 9,000 feet, CSU’s Mountain Campus (http://www.mountaincampus.colostate.edu) provides field research and education, conference facilities, a challenge course, and world-class hiking. The Mountain Campus is located 50 miles west of Fort Collins and is adjacent to Rocky Mountain National Park, the Comanche Peak Wilderness Area, and Roosevelt National Forest. The campus is open from mid-May to mid-October and is available for field studies and research, conferences, workshops, meetings, and retreats.

CSU Sports and Athletic Facilities
Sonny Lubick Field at Canvas Stadium
"Welcome Home" is the theme behind Colorado State’s new 41,000-seat on-campus stadium facility. The facility, includes nearly 80,000 square feet of space, features a club area and meeting space available for use by the community, as does the entire area. Included in the new facility is the Iris and Michael Smith Alumni Center, the Collaborative for Student Achievement (http://www.casa.colostate.edu), as well as classroom and study space. CSU’s new on-campus stadium provides the latest in fan amenities and technology to guarantee an amazing fan experience.

Glenn Morris Field House
The Rams’ indoor track and field training facility is the venerable Glenn Morris Field House (http://www.csurams.com/facilities/south-college-fieldhouse.html), near the Jack Christiansen Track. This historic venue, built in 1924, underwent a renovation in 1998.

The venue contains three main wings: the south area, which includes the indoor track; the middle area, which houses offices and locker rooms; and the north area, which is where the basketball team formerly played and now is used for indoor court sports.

Indoor Practice Facility
The Indoor Practice Facility (http://www.csurams.com/facilities/IPF.html) is designed for use by multiple sports programs at the University.

Features:

- Gymnasium easily encloses a regulation basketball court and two half courts
- Volleyball configuration can accommodate two full-length courts
- Contains a synthetic-turf football field (including one end zone)
- Features a four-lane, 70-meter track and a unique shoe-changing room adjacent to the football field
- Has flexibility to allow the softball team to set up batting cages on the football field
- Will provide shelter for any student-athlete in each of the Rams’ 16 varsity sports
- Includes training room, equipment storage, lobby and trophy display case, and restrooms
- Uses an innovative air circulation system.

Jack Christiansen Track
One of the finest track and field facilities in the region in a picturesque setting lends itself comfortably to annually hosting marquee events, including the 2011 and 2005 Mountain West Track & Field Championships. Such is the history surrounding the Jack Christiansen Memorial Track (http://www.csurams.com/facilities/christiansen-track.html) on the east side of CSU’s main campus.

Regarded as one of the region’s finest facilities since it opened in 1989, the venue has provided a backdrop for success for the Rams. As a result, the program has the ability to attract some of the region’s finest athletes.

Moby Arena
Moby Arena (http://www.csurams.com/facilities/moby-arena.html) is a cozy and intimate playing facility nestled in the heart of the university’s central campus area.

With a capacity of 8,745, the whale-shaped venue features the pride and tradition of the Rams’ program that dates back 100 years, and a newness associated with a recent renovation to the arena’s concourses, athletic training facilities and locker rooms.

Ram Field
CSU’s softball facility, Ram Field (http://www.csurams.com/facilities/ram-field.html), has been the home of the school’s varsity softball program since its opening in 1995. The diamond is a state-of-the-art,
NCAA-regulation field, just south of Moby Arena, complete with a high-quality sound system. The foul lines are 200 feet from home plate, and the center-field fence is 225 feet away.

University Tennis Courts
The University Tennis Courts are one of the finest tennis facilities in the nation. The $2 million dollar facility that opened in 2010-2011 features 12 post-tensioned concrete courts, eight of which are lighted for night play. For information about use of the Tennis Complex, visit Campus Recreation (http://campusrec.colostate.edu/facility/our-facilities).

Student Recreation Center
Campus Recreation (http://csurec.colostate.edu) actively promotes the pursuit of a balanced, healthy lifestyle to a diverse university community by providing quality programs, facilities, and services that encourage personal growth, leadership development, and employment opportunities. Students paying full student fees for the current term are automatically eligible for Campus Recreation programs and services including use of the Student Recreation Center. Memberships are available to part-time students, employees, and spouses/partners. Inquire at the Service Center in the Student Recreation Center lobby for more information. To learn more about Campus Recreation at CSU, pick up a copy of the Campus Recreation Guide or check out Campus Recreation’s (http://csurec.colostate.edu) website.

Study Spaces
In addition to spaces in residence halls, among the shelves in Morgan Library (http://lib.colostate.edu) and throughout the floors of the Lory Student Center, CSU offers a variety of other study spaces. Some study spaces are reservable through the library reservation system (http://lib.colostate.edu/about/maps/presentation-rooms). Some popular options include:

- Behavioral Sciences Building
- TILT Building - Russell George Great Hall
- Morgan Library - Group Study Rooms and The Cube
- The Durrell Center
- Clark Building - A-wing study lounge
- Scott Bioengineering Building
- The Microbiology Study Lounge
- Rockwell Hall West.

University Center for the Arts
Located at 1400 Remington Street, the University Center for the Arts (http://uca.colostate.edu) is an exquisite venue for music, theatre, dance and art where future generations of arts professionals – be it in performance, creative production and design, education, therapy, or research – are becoming contributors to the essential vitality of our culture and society and advance knowledge in the arts through discovery, dissemination, teaching, and preservation. Located in the old Fort Collins High School, the state-of-the-art UCA houses music, theatre, and dance performance venues, museums and galleries, rehearsal spaces, classrooms, and more.

Fort Collins offers an exceptional environment for students in the arts through a community that is closely connected to activities at the UCA. Fort Collins has a thriving cultural and artistic community and is consistently ranked as one of the best or the best place to live in the country. Its culture and its inviting Old Town architecture are complemented by its prime location immediately at the foot of the Rocky Mountains with breathtaking scenery and an almost infinite opportunities for first-rate outdoor activities.

University Libraries
William E. Morgan Library (http://lib.colostate.edu), located in the center of the main campus, offers nearly 300,000 square feet of research and learning space and houses a large part of the paper collection, which includes books, maps, journals, technical reports, archives, and manuscripts.

The University Libraries connects CSU to information and knowledge critical for research and learning. With a diverse collection of more than 2 million physical items, more than 84,000 electronic serial titles, more than 500,000 electronic books and a broad range of research services, the Libraries provides faculty and students with opportunities to develop projects and ideas. These services include library instruction, research assistance, archives, electronic reserves, desktop resource delivery, and interlibrary loan.

The University Libraries is a member of the Association of Research Libraries (ARL), Greater Western Library Alliance (GWLA), and the Colorado Alliance of Research Libraries. These memberships enable the Libraries to participate in preservation, resources sharing, and collection development programs on a national scale. Resource sharing is further enhanced by the Libraries’ locally developed RAPIDILL system now linking the collections of more than 300 research libraries around the world.

Veterinary Teaching Hospital
CSU’s south campus contains the Veterinary Teaching Hospital (http://csuvets.colostate.edu) including the research and teaching programs and the federal Natural Resources Research Center.
All-University Core Curriculum (AUCC)

Office of Vice Provost for Undergraduate Affairs
Administration Building, Room 108
provost.colostate.edu/academic-programs

All-University Core Curriculum (AUCC)
Early Completion of Mathematics/Composition Requirement
English Composition Requirement
Mathematics Requirement

Note Regarding Guaranteed Transfer (GT) Pathways courses
Note Regarding the All-University Core Curriculum
Category 1: Basic Competencies
Category 2: Advanced Writing
Category 3: Foundations and Perspectives

Note Regarding Guaranteed Transfer (GT) Pathways Courses
Most, but not all, of the AUCC courses below have been approved by the Colorado Commission on Higher Education (CCHE) as general education courses guaranteed to transfer among all public higher education institutions in Colorado.

Courses that the CCHE has approved for inclusion in the Guaranteed Transfer (GT) Pathways program are designated with a GT code after the course title (e.g., "MATH 101: Math in the Social Sciences (GT-MA1).") The subcode listed after "GT-" refers to the specific statewide general education category the course fulfills. For transferring students, successful completion with a minimum C- grade guarantees transfer and application of credit in this GT Pathways category. For more information on the GT Pathways program, please visit the Colorado Department of Higher Education (http://highered.colorado.gov/academics/transfers/gtpathways/curriculum.html) website.

Note Regarding the All-University Core Curriculum

Credits earned in the College Board Advanced Placement Program (AP), the College-Level Examination Program (CLEP), and International Baccalaureate (IB) can be used to satisfy particular All-University Core Curriculum requirements.

All CSU undergraduate students share a learning experience in common. Faculty members from across the University contribute to that experience.

The composition and mathematics requirements must be completed within the first 60 credits (CSU and transfer) taken.

Each baccalaureate Program of Study must incorporate the following elements:

1. Basic Competencies

<table>

   | | A. Each major must designate courses that build upon the Core Competencies of writing, speaking, and problem solving in an integrative and complementary way. |
   | | B. Each major must designate courses that build upon the foundations of knowledge and intellectual perspectives of Core Category 3 in an integrative and complementary way. |
   | | C. Every major must require a capstone experience at the senior level that consists of a designated course or sequence of courses that offer the opportunity for integration and reflection on students' nearly completed baccalaureate education. |

Students are advised to see if their program of study has particular recommendations for satisfying All-University Core Curriculum requirements.

A student must earn a cumulative grade point average of 2.000 or better in the courses used to satisfy categories 1 through 3 of the All-University Core Curriculum requirements.
What follows is a brief description of each category in the All-University Core Curriculum and a list of the courses currently approved to meet that category. Note: No courses are listed in more than one category; courses listed in one category cannot be used to fulfill any other category in the AUCC.

### Category 1. Basic Competencies

#### A. Intermediate Writing (3 credits)

The ability to write correctly and effectively is necessary for success in any academic program and enhances the possibility of one’s success in personal and professional life. The objective of courses in this category is to provide instruction in the skills essential to effective written communication, extensive practice in the use of those skills, and evaluation of students’ writing aimed to guide them in improving their skills.

<td>College Composition (GT-CO2)</td>
<td>3</td>
</tr>
<tr>
<td>HONR 193</td>
<td>Honors Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>

#### B. Mathematics (3 credits)

The objective of the Mathematics requirement is to ensure that students develop mathematical skill and understanding essential for describing events, experiences, and the knowledge base of other disciplines. Mathematics encourages a mode of thought that encompasses abstraction and generalization and permits careful analysis as well as explicit calculation.

### Category 2. Advanced Writing (3 credits)

Building on and adapting basic skills and strategies already developed in the course in Intermediate Writing, the objective of this requirement is enhancement of skills in written communication to extend rhetorical knowledge, to extend experience in writing processes, to extend mastery of writing convention, and to demonstrate comprehension of content knowledge at the advanced level through effective communication strategies.

### Category 3. Foundations and Perspectives

The Core rests on acquiring foundations of knowledge and understanding intellectual perspectives. Courses in this category are designed to bring the skills developed in Core Competencies to life and give them direction and purpose. Elements of foundation offer exemplary introductions to fields and areas of study that explore their distinctive characteristics as well as critical links within and among them. Elements of perspective promote coherence and integration of knowledge within and among fields and areas of study, often through the exploration of significant thematic issues. Foundation elements frequently will be introduced in disciplinary contexts. Perspective elements typically will be structured comparatively and enlivened through interdisciplinary contexts.

#### A. Biological and Physical Sciences (7 credits)

The objective of the Biological and Physical Sciences requirement is to instill a clear understanding of the basic scientific viewpoint, to master scientific knowledge at a level that facilitates communication in an increasingly technological society, to employ and build on core competencies in mathematics and logical/critical thinking, to enable students to learn and use the scientific method, and to evaluate the impacts of science and technology on society. At least one course must have a laboratory component. Sometimes the laboratory component is a separate course number.

### B. Arts and Humanities (6 credits)

The Arts and Humanities explore expressions that are uniquely human. The objective of the Arts and Humanities requirement is to investigate the cultural character and literatures of human experiences, fundamental questions of value and meaning, and, both in word and beyond words, the symbols and creative expressions of human life. No more than three credits of intermediate foreign language (L*** 200, L*** 201) may be used toward this category.
The objective of the Social and Behavioral Sciences requirement is to explore the forms and implications of individual and collective behaviors, their ties to formal institutions, and the methods by which they are studied.

### C. Social and Behavioral Sciences (3 credits)

The Social and Behavioral Sciences use similar methods of description and analysis to study the complex behaviors of individuals and their relationships with others in families, public associations, and cultures. The objective of the Social and Behavioral Sciences requirement is to explore the forms and implications of individual and collective behaviors, their ties to formal institutions, and the methods by which they are studied.

### D. Historical Perspectives (3 credits)

The objective of the Historical Perspectives requirement is to engage students in an analytical, chronological study of significant, multidimensional human experiences. It should also provide students with a foundation for relating beliefs about the past to aspirations for the future.

### E. Global and Cultural Awareness (3 credits)

The objective of the Global and Cultural Awareness requirement is to engage students in the study of particular cultural identities, explore the interactions among these cultural identities, and consider the ways in which these patterns of interaction are related to the larger global context in which they take place. Courses listed in this category may have been approved as meeting Arts and Humanities, Historical Perspectives, or Social and Behavioral Sciences in the GT Pathways statewide transfer program, ([http://highered.colorado.gov/Academics/Transfers/gtPathways/curriculum.html](http://highered.colorado.gov/Academics/Transfers/gtPathways/curriculum.html)) but they do not fulfill any of those categories of the AUCC. They **only** satisfy category 3E, Global and Cultural Awareness, in the AUCC.
Early Completion of Mathematics/Composition Requirement

Our Institutional Research indicates that completion of 30 credits, completion of a college level math, and completion of a college level composition course in a student’s first academic year increases their odds of retention and graduation. In comparison with students who do not follow these recommendations, students who

- complete 30 or more credits, including math but not composition, within their first academic year have 36% higher odds of retention and 68% higher odds of graduation;
- complete 24 to 29 credits but do not complete either gateway course within their first academic year have 69% lower odds of retention and 71% lower odds of graduation;
- complete 30 credits without including math and composition have 52% lower odds of retention and 45% lower odds of graduation compared to students who complete both gateway courses within 24-29 total completed credits indicating that the total completed credits is less important than completing both gateway courses.

The chart below displays the relative odds for six-year graduation graphically.

English Composition Requirement

CSU’s English Composition Requirement

All CSU students are required to fulfill the All-University Core Curriculum (AUCC) Intermediate Writing Requirement (AUCC Category 1A) prior to completion of 60 credits. Students can complete the AUCC Intermediate Writing requirement in one of five ways:

1. Satisfactory completion of CO 150: College Composition.
2. Achieving a score of 5 on the Advanced Placement English Composition and Literature Test; or a score of 4 or 5 on the Advanced Placement English Language and Composition Test; or placing in CO 150-section 550 (credit by exam for CO 150) on the Composition Placement Challenge and Re-evaluation Essay.
3. Transferring equivalent credits from another college. (Students who transfer with less than 2.6 semester credits in composition will have the option of writing the Composition Placement Challenge and Reevaluation Essay. With a score of 5, we can request the additional credit be waived).
4. Satisfactory completion of HONR 193 (Honors students only).
5. Submission of International Baccalaureate scores that document an English at the Higher Level score of 5, 6, or 7.

Credit for CO 150 will not be given for high scores on the College-Level Examination Program (CLEP).

Students (except first-semester transfer and readmitted students) who have earned 60 or more CSU and transfer semester credits and who have not met this requirement will have a Composition HOLD placed on their record. Transfer and readmitted students will be allowed the initial term of enrollment before this restriction is imposed.

- complete 30 or more credits, including math and composition, within their first academic year have 67% higher odds of retention and 76% higher odds of graduation;
What if I Have a Composition HOLD Placed on My Registration?

Before the start of every semester, undergraduate students are informed, via email from the Registrar, if they have not completed the AUCC composition requirement. After a student has earned 60 or more CSU and transfer semester credits without fulfilling the AUCC composition requirement, the email will also give notice that a Composition HOLD has been placed and provide information on how to remove the HOLD.

The procedure to remove a Composition HOLD is as follows:

1. You can contact the Registrar’s Office as soon as you receive the email letting you know that a Composition HOLD has been placed on your registration – you do not have to wait for your registration access time.
   - You can contact the Registrar’s Office immediately, if you are currently registered for CO 130 or have transfer credit for CO 130.
   - If you need to take the Directed Self-Placement Survey, once the Survey is completed, you can contact the Registrar’s Office.
   - If you are in the Honors Track I program, you will need to register for HONR 193.
   - If you were automatically placed into CO 130 or selected CO 130 on the Directed Self-Placement Survey, you will need to select a section of that course for which to register. After successful completion of CO 130, you will need to register for CO 150 the following term.
   - CO 150 satisfies the All-University Core Curriculum Intermediate Writing requirement (AUCC Category 1A).
   - If you were automatically placed into CO 150 or selected CO 150 on the Directed Self-Placement Survey, you will need to select a section of that course that works with your course schedule.
   - If you were automatically placed into CO 130 or CO 150 and wish to challenge that placement, you will need to write the Composition Placement Challenge and Re-evaluation Essay as soon as possible.
   - If you chose to write the Composition Placement Challenge and Re-evaluation Essay, once your score has been entered, you can contact the Registrar’s Office (http://registrar.colostate.edu).

2. Once you have chosen a section of composition that works with your schedule, contact the Registrar’s Office in Centennial Hall by calling (970) 491-4860, or emailing registrarsoffice@colostate.edu. If sending an email, please do so from your RAMS email account and include your full name, CSUID number, and the CRN for the CO course for which you want to be registered. Please make sure to have the CRN of the section you have chosen available in order to expedite your request.

3. The Registrar’s Office will then remove the Composition HOLD from your academic record and register you for the composition section you selected, which will allow you to proceed with registration starting on your designated registration date/time.

CSU’s Composition Placement Program

Critical reading and writing skills are significant components of every program and degree at CSU. Moreover, research at CSU, as well as nationwide, demonstrates a clear connection between academic success and the ability to write effectively for various audiences. The CSU Composition Placement Program is designed to ensure that you register for the composition course most suited to your needs, CO 130: Academic Writing or CO 150: College Composition.

To learn more about CSU's Composition Placement Procedures, go to http://composition.colostate.edu/students/placement

Appeals Process

Students wishing to appeal (http://registrar.colostate.edu/forms/3364) this registration restriction must complete the Math or Composition Appeal (https://registrar.colostate.edu/forms/3364) form, including a detailed rationale as to why they were unable to complete the course within the first 60 credits. Students must also outline their plan for completion of the requirement. If registered for an equivalent course at another institution, students should include proof of registration. Appeals must be received by the student’s academic advisor and department head for their signatures and indication of support/ lack of support of the appeal. The signed appeal must then be submitted through the Office of the Registrar, First Floor, Centennial Hall, to the Vice Provost for Undergraduate Affairs who holds authority for final approval or disapproval.

Mathematics Requirement

To satisfy the requirements of category 1B of the All-University Core Curriculum (AUCC), students must earn three credits in Mathematics. These credits may be earned by:

1. Scoring well on the CSU Math Challenge Exam;
2. Presenting AP calculus scores of 3, 4, or 5 on the Calculus AB, Calculus BC, or Statistics exam -or- IB mathematics scores of a 4 or higher on either the standard or higher level exam (see Office of the Registrar (http://registrar.colostate.edu/transfercredit/transf er-credit) for details on Advanced Placement and International Baccalaureate equivalencies);
3. Taking an approved CSU All-University Core Curriculum (AUCC) 1B Course (MATH or STAT);
4. Presenting suitable transfer credits from another accredited institution.

Any student admitted to CSU may take STAT 100. Students who wish to take a Mathematics course other than STAT 100 must satisfy one of the following requirements in addition to any course prerequisites:

- Score sufficiently well on the Math Placement Exam or the Math Challenge Exam;
- Present a score of SAT MATH: 500, or ACT MATH: 19;
- Present an AP calculus score of 3, 4, or 5 on the Calculus AB, Calculus BC, or Statistics exam -or- IB mathematics scores of a 4 or higher on either the standard or higher level exam;
- Present suitable transfer credits from another accredited institution.

Math Placement Exam and Math Challenge Exam (MPE)

The MPE designation refers to either the unproctored Math Placement Exam or the proctored Math Challenge Exam. The MPE covers pre-college algebra and college algebra, logarithmic and exponential functions, and trigonometry.

The following minimum SAT/ACT test scores will allow a student to enroll in MATH 101 without taking the MPE: SAT MATH: 500, or ACT MATH: 19.

A student wishing to take a math course other than MATH 101, or a student who does not have the minimum SAT/ACT test scores described above will need to take the MPE (https://placement.math.colostate.edu/welcome/directory.html), unless they can satisfy either point 2 or 4 above.
A student who displays proficiency on the MPE may place out of one or more of the pre-calculus courses—MATH 117, MATH 118, MATH 124, MATH 125, and MATH 126 without earning credit. Placement out of a course on the MPE will satisfy prerequisites for other classes. A student who demonstrates a higher level of proficiency on the Math Challenge Exam may earn credit in one or more of those courses. Only earned credits count toward the three-credit AUCC Mathematics requirement. i.e. placement out of a course will not satisfy the CSU Mathematics requirement.

A student (except a first semester transfer or a first semester readmitted student) who has earned 60 or more CSU and transfer credits and who has not completed the Mathematics requirements of category 1B of the All-University Core Curriculum must enroll in a course that will fulfill this requirement in order to have a hold lifted from his or her registration. A transfer or readmitted student will be allowed the initial term of full-time enrollment before this restriction is imposed. (Faculty Council approved minutes

Appeals Process

Students wishing to appeal (http://registrar.colostate.edu/forms/3364) this registration restriction must complete the Math or Composition Appeal (https://registrar.colostate.edu/forms/3364) form, including a detailed rationale as to why they were unable to complete the course within the first 60 credits. Students must also outline their plan for completion of the requirement. If registered for an equivalent course at another institution, students should include proof of registration. Appeals must be received by the student’s academic advisor and department head for their signatures and indication of support/lack of support of the appeal. The signed appeal must then be submitted through the Office of the Registrar, First Floor, Centennial Hall, to the Vice Provost for Undergraduate Affairs who holds authority for final approval or disapproval.
Health Professions
Collaborative for Student Achievement (http://www.casa.colostate.edu)
Offices in the Stadium Complex, 1415 Meridian

Human Health Professions Advising
CSU does not offer specific “pre-health” majors as health professions programs neither prefer nor recommend any particular undergraduate major(s). Students interested in a career in the health professions may select a major from among the many choices offered by CSU. After declaring an academic major, a student is assigned an academic advisor from that department to ensure they fulfill the requirements for that major.

Health professions advisors work with students in conjunction with their departmental advisor in determining courses to take to satisfy professional school prerequisites and helping them identify and gain the experiences needed to make them competitive candidates. Health Professions advisors assist students in planning for entrance into accredited programs of dentistry, medicine, nursing, occupational therapy, optometry, pharmacy, physical therapy, physician assistant, podiatry, chiropractic, and other human health professions and assist them in preparing their applications to those programs.

Pre-Veterinary Medicine Advising
Pre-veterinary advising provides guidance for students in any major who are interested in pursuing a career in veterinary medicine. Placement into professional veterinary medical programs is extremely competitive and a successful applicant needs to be well informed regarding course requirements and other factors considered by veterinary admissions committees.

Students work with their academic advisor to ensure that they fulfill the graduation requirements in their major and the pre-veterinary advisor to be sure that their courses also satisfy admission requirements for professional veterinary programs.

Student Clubs
Offices for several student clubs related to the health professions are located in Collaborative for Student Achievement Offices in the Stadium complex. Staff members serve as advisors for the Pre-Vet club and the Health Professions Student Association and the associated clubs of Premdica, Pre-Dental, Pre-Occupational Therapy, Pre-Physical Therapy, Pre-Pharmacy, and Pre-Optometry and provide assistance and support for club activities.
More information about Health Professions Advising (http://hp.casa.colostate.edu) may be found on the Collaborative for Student Achievement website.

**Teacher Licensure/Education**

Teacher and principal licensure is available through the School of Education’s Center for Educator Preparation (CEP).

One of the most important ways to help people and to impact our society is through involvement in schools. Teachers make lasting contributions to our nation and its many generations of learners. Teacher education programs at CSU serve the needs of individuals preparing to teach in:

- Early Childhood Education (PreK-3rd grade)
- Grades K-12: Art, Foreign Languages, Instructional Technology, Music

CSU is one of the public institutions in Colorado designated to offer programs leading towards a career and technical (vocational) credential. Candidates for teacher licensure are skilled in a teaching concentration and educational methodology. These students take their professional education course work concurrently while completing their content area coursework. Candidates may complete licensure while enrolled in an undergraduate program or after completing a bachelor’s degree at an accredited university.

Endorsements available through the program include:

**Education Abroad**

Office of International Programs – Laurel Hall
(970) 491-6342

Education Abroad (http://educationabroad.colostate.edu) opportunities engage students in an international arena, providing new academic perspectives, broadening knowledge of international affairs, and allowing for a deeper understanding of other cultures. In addition to enhancing a student’s degree program, education abroad provides students with direct experience developing intercultural skills necessary for success in an increasingly diverse and global workforce.

The Office of International Programs offers more than 1000 international opportunities, including for-credit and not-for-credit programs for study, research, internships and service learning. Students can maintain full-time enrollment at CSU while abroad, and credit from approved programs may be applied towards an overall degree program at CSU. Students who successfully complete an approved course (with a grade of C- or better) are eligible for a waiver of the All-University Core Curriculum requirement.

Education Abroad oversees programs in nearly every country around the world and provides support services to students, including advising, orientations, outreach, program coordination and risk management oversight. Students considering any type of international experience are required to work with the Office of International Programs in preparation for their time abroad. Advance planning helps assure that international endeavors will not unnecessarily prolong degree completion and that health and safety preparations have been addressed. Advance planning also assures that students meet application deadlines, which can range anywhere from two to twelve months before a program begins.

The Office of International Programs also works closely with CSU’s academic partners Semester at Sea and the CSU Todos Santos Center to foster international opportunities for CSU students, faculty and staff.

**Financial Aid for Education Abroad**
In most cases, CSU financial aid can be applied to cover the costs of an education abroad program. In addition, through CSU’s partnerships, the Office of International Programs facilitates nearly $600,000 in annual scholarship funds to support education abroad. Students can apply for many of these through the Education Abroad Common Application (http://educationabroad.colostate.edu/scholarships) and/or their CSU sponsored programs.

These opportunities include nationally competitive scholarships, such as the NSEP Boren and IIE Gilman awards. Students interested in scholarships should contact the Office of International Programs early in their college career since some scholarship deadlines are due as much as a year in advance.

Further information on eligibility requirements, deadlines, policies, procedures, financial aid, and costs related to study abroad may be found on the Education Abroad (http://educationabroad.colostate.edu) website.

Todos Santos

todossantos.colostate.edu (http://todossantos.colostate.edu) / csutodossantos@colostate.edu

**Mission**

To cultivate generations of global citizens and thriving communities through collaboration, experience, and exchange of knowledge.

**The Colorado State University Todos Santos Center**

The Colorado State University Todos Santos Center is located in Baja California Sur, Mexico. As the only international extension of the university, the Center answers the call of a 21st-century land-grant institution on a global scale by utilizing education to build bridges between the United States and Mexico, between students and faculty, and between research and action.

The Center combines education, outreach, research, and access for CSU students, students in the regional community, and area residents. CSU’s educational resources and expertise combine with natural, cultural

and historical aspects offered by the community to create expansive possibilities in research, learning and experiences.

**Unique, once-in-a-lifetime programs at the Colorado State University Todos Santos Center**

The Center provides a variety of unique research opportunities and hands-on educational experiences to complement the existing CSU curriculum, allowing students to have an international experience without delaying graduation.

Students who study in Todos Santos grow as responsible ambassadors of CSU and the United States, learn through immersion in Mexican culture and ecosystems, and work alongside Mexican students, faculty, and citizens.

Students can:

- Explore the challenges, successes, and community priorities of Baja California Sur
- Collaborate and co-create activities to address global challenges
- Support and further regional initiatives and priorities as identified through a community needs assessment process
- Engage individually and collectively in actions promoting desired changes

**Programs are currently available in the following areas of study:**

- Veterinary medicine
- Sustainable Agriculture
- Fish, Wildlife, and Conservation Biology
- Oceanography
- Sustainable and Alternative Tourism
- Student Leadership Exchange
- Theatre
- Various outreach, service learning, and leadership programs
- Custom research projects and internships
- And more

Please contact your advisor, Education Abroad, or csutodossantos@colostate.edu for additional information.

**Why are students choosing to study at CSU Todos Santos?**

- Hands-on, immersive, experiential education
- Explore global challenges within a community setting
- Learn about the language, culture, people, animals, and ecosystems of Baja California Sur, Mexico
- Interact and work alongside Mexican youth, college students, and organizations in Baja California Sur
- Explore what it means to be a global citizen

For more information todossantos.colostate.edu (http://todossantos.colostate.edu) / csutodossantos@colostate.edu

**Semester at Sea**

SEMESTER AT SEA
Ready to embark on the educational travel experience of a lifetime?

**SEMESTER AT SEA OFFERS A WORLD CLASS CURRICULUM**

Semester at Sea offers an unparalleled educational program in partnership with CSU. The distinctive feature of Semester at Sea is the opportunity it affords students to engage in global comparative education. All Semester at Sea academic credits are earned through fully-accredited CSU courses. The University appoints the academic dean from among its most accomplished faculty, oversees curriculum, and approves course syllabi for the Semester at Sea academic program. The *MV World Odyssey* serves as a traveling home and campus that brings approximately 600 students to the farthest reaches of the globe every semester, giving deeper meaning to education, experiential learning, and community.

The Semester at Sea (http://www.semesteratsea.org) program itineraries are built around international challenges, trends, issues, and relevant academic themes. Since 1963, more than 60,000 students from 1,700 colleges and universities around the world have studied with Semester at Sea. Notable alumni and contributors include Nobel Laureates Archbishop Desmond Tutu, Nelson Mandela, Mother Teresa, and many other world leaders and global thinkers.
EXPERIENCE NON-TRADITIONAL LOCATIONS
Semester at Sea itineraries are carefully selected to maximize the value of a comparative, global education. We focus on destinations in the developing world. The countries and regions we visit offer examples of varying stages of economic development, contrasting political systems, and great diversity of religious and cultural values.

NEW CULTURES, NEW PERSPECTIVES
Our program exposes students to cultures that most students have only read about in books. Exposure to new cultures and people of the world will give new perspectives. That is why we travel.

FINANCING, AID AND SCHOLARSHIPS
The Institute for Shipboard Education, the parent organization of Semester at Sea, annually awards approximately $4.0 million in financial aid. Semester at Sea recognizes that a study abroad experience is a significant investment, and we also know that it’s one of the best possible investments for a student’s future. We are committed to helping as many students as possible realize the benefits of that goal. For further information on eligibility requirements, deadlines, policies, procedures, financial aid, and costs related to the program, go to Semester at Sea (http://www.semesteratsea.org).

WHY ARE STUDENTS CHOOSING SEMESTER AT SEA?
- Improved understanding of the world
- Greater awareness of cultural difference
- Improved self-confidence and autonomy
- Improved flexibility and understanding of multiple perspectives
- Better understanding of one’s own culture
- Greater recognition of other perspectives and world views
- Ability to live in close community
SEMESTER AT SEA ATTRACTS OUTSTANDING, AWARD-WINNING FACULTY

At the core of the Semester at Sea academic experience is a team of 26-30 innovative, stimulating, and flexible educators who are passionate about global education. The unparalleled environment of Semester at Sea provides engaging shipboard courses in unique combination with field classes.

Past voyages have included internationally recognized experts on social movements and media, environmental systems, international business, intercultural communication, and world cinema, as well as a Pulitzer Prize-winning poet and Carnegie Foundation Professor of the Year.

With the world as their classroom, Semester at Sea professors teach in a global context and excel in the field of experiential learning. All faculty hold doctorates or other terminal degrees and have international experience and expertise in one or more of the regions visited.

COLLEGES AND PROGRAMS

University-Wide Instructional Programs
Agricultural Sciences
Business
Walter Scott, Jr. College of Engineering
Health and Human Sciences
Liberal Arts
Warner College of Natural Resources
Natural Sciences
Veterinary Medicine and Biomedical Sciences

Many academic programs at Colorado State University have an all-university focus and are not found in one particular college. This catalog section summarizes:

University Interdisciplinary Studies Programs
Division of Armed Forces Services
Environmental Studies Programs
Mentored Research and Artistry Program
University Honors Program

Undergraduate
Interdisciplinary Minors are composed of a sequence of related courses, which provide a student with unique opportunities to complement the major and are only offered at the undergraduate level. A minimum of 21 credits is required for an interdisciplinary minor. A minimum of 12 of the 21 credits must be course work at the upper-division level (300-400).

Interdisciplinary Minors
• Arabic Studies Interdisciplinary Minor
• Biomedical Engineering Interdisciplinary Minor
• Conservation Biology Interdisciplinary Minor
• Energy Engineering Interdisciplinary Minor
• Environmental Affairs Interdisciplinary Minor
• Film Studies Interdisciplinary Minor
• Food Industry Management Interdisciplinary Minor
• Food Science/Safety Interdisciplinary Minor
• Gerontology Interdisciplinary Minor
• Global Environmental Sustainability Interdisciplinary Minor
• Global Studies Interdisciplinary Minor
• Information Science and Technology Interdisciplinary Minor
• Integrated Resource Management Interdisciplinary Minor
• International Development Interdisciplinary Minor
• Italian Studies Interdisciplinary Minor
• Latin American and Caribbean Studies Interdisciplinary Minor
• Leadership Studies Interdisciplinary Minor
• Legal Studies Interdisciplinary Minor
• Linguistics and Culture Interdisciplinary Minor
• Molecular Biology Interdisciplinary Minor
• Music, Stage, and Sports Production Interdisciplinary Minor
• Organic Agriculture Interdisciplinary Minor
• Political Communication Interdisciplinary Minor
• Religious Studies Interdisciplinary Minor
• Role of Sustainability in Peace and Reconciliation Interdisciplinary Minor
• Russian Studies Interdisciplinary Minor
• Sports Management Interdisciplinary Minor
• Sustainable Energy Interdisciplinary Minor
• Sustainable Water Interdisciplinary Minor
• Women’s Study Interdisciplinary Minor

Graduate
A Graduate Certificate is used to identify the successful completion of a focused area of study deemed important to a student’s career objectives. A Graduate Certificate consists of a minimum of 9 specified credits, and not more than 15 credits at the 500 level or above.

CSU offers interdisciplinary degree programs at the graduate level (listed below). Interdisciplinary degree programs include a series of courses from a variety of academic disciplines. The result of completing an interdisciplinary degree program is a graduate degree. See individual programs below for more details.
Graduate Interdisciplinary Studies Programs (GISPs) are composed of a series of courses focused on a particular problem or area of concern providing multidisciplinary perspectives. No minimum number of credits is specified at the graduate level. Completion of the requirements for an interdisciplinary studies program does not lead to a degree. Credits earned in interdisciplinary studies programs can be used in meeting the requirements for a degree. Courses are noted on the student's academic record (transcript). Completion of the interdisciplinary studies program is noted on the student's academic record (transcript) but not on the diploma.

Certificates
- Graduate Certificate in Applied Global Stability: Agriculture
- Graduate Certificate in Applied Global Stability: Natural Resources
- Graduate Certificate in Applied Global Stability: Water Resources

Degrees
Master's Programs
- Master of Public Health
- Master of Science in Bioengineering
- Master of Science in Cell and Molecular Biology, Plan A*
- Master of Science in Cell and Molecular Biology, Plan B*
- Master of Science in Ecology, Plan A
- Master of Science in Ecology, Plan B
- Master of Science in Ecology, Ecological Risk Assessment and Management Specialization*
- Master of Science in Ecology, Human-Environment Interaction Specialization
- Master in Arts Leadership and Cultural Management, Plan C

Ph.D. Programs
- Ph.D. in Bioengineering
- Ph.D in Cell and Molecular Biology
- Ph.D. in Cell and Molecular Biology, Cancer Biology Specialization
- Ph.D. in Ecology
- Ph.D. in Ecology, Ecological Risk Assessment and Management Specialization*
- Ph.D. in Ecology, Human-Environment Interaction Specialization*

Effective Fall 2016

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.
A grade of C or better is required in each course that will count toward the interdisciplinary minor.

Biomedical Engineering Interdisciplinary Minor

Scott Bioengineering Building, Suite 225  
(970) 491-2557  
engr.colostate.edu/sbme/students/undergraduate/certificate.html

The Biomedical Engineering Interdisciplinary Minor (BME minor), coordinated by the School of Biomedical Engineering, offers students an interdisciplinary approach to biomedical engineering education and research. This unique program combines medicine, engineering, and the life sciences to improve human and animal health and well-being through medical diagnostics and therapeutics. Students in any major may add the BME minor. To complete the program, students are required to complete at least 21 credits with core courses in bioengineering and human physiology, and additional technical electives which vary depending on the individual student’s major (engineering or non-engineering).

Effective Fall 2017

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

**Conservation Biology Interdisciplinary Minor**

Office in Forestry Building, Room 123
(970) 491-6911
http://warnercnr.colostate.edu/frs-undergraduate-study/majors-minors

To declare the interdisciplinary minor in Conservation Biology, visit the Forest and Rangeland Stewardship office in the Forestry Building, Room 123.

Conservation Biology is a scientific discipline and management context that deals with the diversity of life in ecosystems. Humans have tremendous effects on other species and ecosystems on Earth, and Conservation Biology considers these effects, and how our impacts can be altered to sustain diverse and healthy ecosystems.

Conservation Biology encompasses a wide range of biological sciences such as genetics, evolution, and physiology, as well as a wide range of ecological sciences such as biodiversity, competition, predator/prey relations, and long-term dynamics.

This university-wide undergraduate minor addresses contemporary environmental issues that deal with biological diversity and prepares students to play an active role in the maintenance of biological diversity.

The interdisciplinary minor in Conservation Biology in the Warner College of Natural Resources at CSU is a minor that can be included with a wide range of majors to form a strong bachelor’s degree program.

**Effective Spring 2013**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Core Curriculum

Select one course from the following: 1

- BZ 220 Introduction to Evolution
- BZ 350 Molecular and General Genetics
- SOCR 330 Principles of Genetics
- LIFE 320 Ecology
- NR 300 Biological Diversity
- SOC 220 Global Environmental Issues (GT-SS3)

Select 9-10 credits from the following: 2

- BZ 349 Tropical Ecology and Evolution
- F 310 Forest and Rangeland Ecogeography
- or RS 310 Rangeland and Forest Ecogeography

- F 311 Forest Ecology
- FW 400 Conservation of Fish in Aquatic Ecosystems
### Energy Engineering Interdisciplinary Minor

Scott Bioengineering Building, Suite 102  
(970) 491-6220

The Energy Engineering Interdisciplinary Minor is designed to provide students in Engineering and the sciences with an understanding of renewable and non-renewable energy systems; clean energy technologies; basic principles of operation of energy extraction, conversion, storage, and transmission systems; and depth in current and new energy methods and applications (e.g., PV, batteries, biofuels, etc.). The goal of the program is to empower engineers and scientists to be technological catalysts for sustainable solutions to the grand challenges of energy.

The interdisciplinary minor requires completion of 22-24 credits, with at least 12 credits greater than or equal to 300-level courses. All undergraduates are required to complete 5 credits of core courses and a 3-credit science elective. The remaining 14-16 credits of technical electives are chosen according to the student's major and interests.

#### Effective Fall 2012

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

### Environmental Affairs Interdisciplinary Minor

Clark Building, Room C346  
environmental.colostate.edu ([http://environmental.colostate.edu](http://environmental.colostate.edu))

Coordinated by a Faculty Advisory Board

The Environmental Affairs interdisciplinary minor is designed for students with a particular interest in environmental topics, focusing on a core of social sciences and humanities courses that are supplemented with required science courses, as well as environmental electives from six colleges. Courses address domestic and international issues of concern with both current and historical perspectives, and will provide students with a well-rounded program of study. The program is open to all students and designed to be an additional component to the student's major. CSU has environmental expertise and this program provides undergraduate students with an opportunity to broaden their education as they prepare themselves for environmental careers or graduate study.

Program details are available from the Department of Political Science ([https://polisci.colostate.edu/environmental-politics-policy](https://polisci.colostate.edu/environmental-politics-policy)) in the College of Liberal Arts.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.
Effective Fall 2017

Students must earn a minimum grade of C for all courses taken for the interdisciplinary minor.

1 GEOL 121 is also recommended.
2 Offered as a telecourse course only.

Extreme Ultraviolet and Optical Science and Technology Graduate Interdisciplinary Studies Program

Coordinated by a Faculty Advisory Board and the Department of Electrical and Computer Engineering in the Walter Scott, Jr. College of Engineering.

The Extreme Ultraviolet Science and Technology Graduate interdisciplinary studies program is designed to serve individuals who are seeking to gain knowledge and experience in the generation and applications of coherent extreme ultraviolet or soft x-ray light. This type of light holds great potential in applications in nanotechnology, nanoelectronics, photochemistry, material science, and biology. While in the past the use of coherent EUV light required a trip to a national facility, new developments in compact sources make it widely available. The objective of the program is to provide scientists or engineers many of the fundamentals required to generate or proficiently make use of this portion of the electromagnetic spectrum.

This interdisciplinary studies program is inherently interdisciplinary including: lasers, optical, plasma, material, chemical and biological sciences, and engineering. With its NSF Center for Extreme Ultraviolet Science and Technology, a partnership with the University of Colorado and the University of California, Berkeley, CSU has unique expertise in this area.

The program is open to graduate students, and professionals, who hold a B.S. degree in engineering, physics, chemistry, biology, mathematics, or other scientific discipline.

The program requires a total of fifteen credits comprising six core credits and nine electives. The six core credits are two very fundamental courses that any graduate student with a background in hard sciences and engineering could master. This, coupled with the fact that graduate students in any discipline are not held to undergraduate prerequisite courses, make this interdisciplinary studies program widely accessible. Elective credits are tailored to the candidate's interests from the major the student pursues. Within these a course in another discipline outside the major of the candidate must be included.
**Requirements**  
**Effective Fall 2008**  
Additional coursework may be required due to prerequisites.

**Film Studies Interdisciplinary Minor**  
Program details are available from the Communications Studies Department.  
Contact:  
Hye Seung Chung  Hye.Chung@colostate.edu  
Scott Diffrient  Scott.Diffrient@colostate.edu

Film Studies is an interdisciplinary academic discipline that deals with historical, theoretical, and critical approaches to analyzing film. It is concerned with exploring the narrative, artistic, cultural, economic, and political implications of the cinema. The United States' film industry is second worldwide only to India and continues to grow, as does the study of film. A minor in Film Studies will enable students to develop media fluency in film: the ability to analyze, contextualize, and use the medium within the broad context of humanistic studies. This minor will provide students with a solid background in critical thinking and writing, and skills that will serve students well in any career.

**Requirements**  
**Effective Spring 2019**  
Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

**Food Science/Safety Interdisciplinary Minor**  
Office in Gifford Hall, Room 230  
(970) 491-7180
Are you interested in the safety and quality of food from “farm to fork”? The Food Science/Safety interdisciplinary studies programs provide students with the interdisciplinary background necessary for understanding the roles and responsibilities of growers, producers, processors, retailers, consumers, and others working within the food system to ensure that food is safe and healthful. These programs are a cooperative effort by faculty from several departments and colleges within CSU who share a common interest in food quality and safety, and integrated production and processing. Students enrolling in a program will receive their degree from their home department. Completion of requirements for the interdisciplinary minor will be noted on the transcript.

The programs are available at both the undergraduate and graduate levels. Program details are available from the Office of the Dean in the Colleges of Agricultural Sciences (http://agsci.colostate.edu), Health and Human Sciences (http://www.chhs.colostate.edu), or Veterinary Medicine and Biomedical Sciences (http://csu-cvmbs.colostate.edu/Pages/default.aspx), or from one of the collaborating departments.

The interdisciplinary minor in Food Science/Safety is designed to complement the student’s major. It consists of a core of required courses (6 credits), foundation courses in the sciences (6 credits), and a selection of advanced courses (12 credits minimum) taken from at least three of the six collaborating departments: Animal Sciences; Environmental and Radiological Health Sciences; Food Science and Human Nutrition; Horticulture and Landscape Architecture; Microbiology, Immunology, and Pathology; and Soil and Crop Sciences.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

**Effective Fall 2016**

500-level courses that may be selected as Advanced Courses by high-achieving undergraduates: 5
The international reputation of the faculty members and their ability to attract strong extramural support for research in the areas of food science and food safety resulted in the creation of the Food Science/Safety graduate interdisciplinary studies program. Focusing on interdisciplinary research and education, this program is a cooperative effort by faculty in seven departments: Animal Sciences; Clinical Sciences; Environmental and Radiological Health Sciences; Food Science and Human Nutrition; Horticulture and Landscape Architecture; Microbiology, Immunology, and Pathology; and Soil and Crop Sciences. Faculty research interests include food microbiology, food safety education, food processing, and integrated production/processing. Students interested in the safety and processing of foods and commodities are encouraged to apply.

Students wishing to pursue the Food Science/Safety Graduate Interdisciplinary Studies Program (http://fshn.chhs.colostate.edu/students/graduate/masters/isp-food-safety) must declare their intent with the chair of the Faculty Advisory Board. The program is customized to fit the student’s interests and long-term objectives. Students are strongly encouraged to interact with faculty from more than one department. Basic training in food science comes from an integrated curriculum featuring core courses in food science, microbiology, nutrition, and commodity production. Opportunities exist for students to rotate through various laboratories. Students also participate in a weekly interdisciplinary group study course that includes papers given by students, participating faculty, and distinguished visiting scientists, and visits to member laboratories. The group study course is designed to enhance interaction and facilitate research opportunities among the food science/safety community, including students, faculty, postdoctoral fellows, and staff. It may be offered by the participating departments on a rotational basis.

Students receive a degree from their home department and an endorsement on their transcript indicating successful completion of the program requirements.

Gerontology Interdisciplinary Minor

Office in Behavioral Sciences Building, Room 303
(970) 491-5558

Department of Human Development and Family Studies

The Gerontology Interdisciplinary Minor is a cooperative effort among faculty from different departments and colleges of CSU who share a common interest in gerontology, the study of human aging. The primary purpose of the interdisciplinary minor is to provide students with background academic knowledge and practicum/internship experience to work effectively with and for older adults in a variety of settings, and to enter professions in which there is a need to combine insights and skills derived from their major with knowledge about older individuals and the aging process.

For further information about the program, please consult with your academic advisor about the Gerontology Interdisciplinary Minor.

Effective Fall 2017

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

A grade of C or better is required in each course that is a core requirement for the interdisciplinary minor.

Program Total Credits: 21-23
Global Environmental Sustainability Interdisciplinary Minor

The School of Global Environmental Sustainability (http://sustainability.colostate.edu/education/minor-global-environmental-sustainability) (SoGES) seeks to prepare students to meet today’s pressing environmental challenges. Using an interdisciplinary approach within a framework of sustainability, students will be led in innovative research leading to the knowledge and understanding needed to approach and solve problems of the human-environment interaction. SoGES’ vision encompasses laying the foundation and defining the principles and practices that will ensure long-term environmental sustainability, while continuing to meet the needs of people around the earth.

Effective Fall 2016

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Global Studies Interdisciplinary Minor

Office in Clark Building
(970) 491-5421
inst.colostate.edu (http://inst.colostate.edu)

Andrea Duffy, Director

The Global Studies Interdisciplinary Minor is designed to promote awareness, understanding, and appreciation for peoples and cultures around the world. It includes a choice of courses in various disciplines that emphasize international and global history, politics, languages and cultures, economics, and environmental issues. Three required interdisciplinary core courses integrate and expand on these themes. This program provides critical cultural context for students pursuing any major, and it is available to both resident and distance learners. Students enrolled in the international studies major are not eligible for this minor.

Effective Fall 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Information Science and Technology Interdisciplinary Minor

The Information Science and Technology Center (http://istec.colostate.edu)

Dakota Cotner, Coordinator

This Interdisciplinary Minor is sponsored by five departments in different colleges across CSU: Computer Information Systems, Computer Science, Electrical and Computer Engineering, Journalism and Media Communication, and Psychology. The program is designed for students seeking a broad foundation in information technology, but not seeking to major in a specific information technology-related field. The program requires 21 credits and is open to students majoring in any field other than Computer Science, Computer Information Systems, and Electrical and Computer Engineering.

Effective Fall 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Computer Application Requirement - Before a student is admitted to this program the student must demonstrate mastery of the following skill:

- Computer applications software - demonstrated by completion of BUS 150 or CS 110.

Integrated Resource Management Interdisciplinary Minor

Office in University Square, Room 202

The Integrated Resource Management Interdisciplinary Minor offers students from all majors an opportunity for additional specialized course work for training in integrated resource management. The core curriculum consists of courses in the departments of Agricultural and Resource Economics, Animal Sciences, Rangeland Ecology, and Soil and Crop Sciences. The core curriculum is supplemented with several courses focused on integration of the information provided in the disciplinary courses and developing skills in systems analysis. This interdisciplinary program is aimed at providing training for students interested in careers involving the businesses associated with land and animal management.

Effective Spring 2012

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

International Development Interdisciplinary Minor

Office in Laurel Hall
(970) 491-5917
international-initiatives.colostate.edu/academic_programs/ (http://international-initiatives.colostate.edu/academic_programs)

Coordinated by the International Development Studies Board and the Office of International Programs

Learn how to think and act as an agent for positive social change.

The International Development Interdisciplinary Minor encourages students to think critically and act responsibly in an interconnected world. The 21-credit program specifically examines the methods and challenges of poverty alleviation and economic development. Coursework is flexible and individualized to meet students' educational needs. The minor emphasizes international and cross-cultural perspectives and offers coursework from multiple disciplines. Students work through diverse ideas of development, poverty, sustainability, and related topics. A required common course critically examines theories and processes of development. The program prepares students for a variety of employment opportunities related to international development, including volunteer work or employment in international and advocacy organizations, or business, policy and research groups. The minor provides an international perspective that complements any CSU major.

Effective Fall 2017

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

The International Development Graduate Interdisciplinary Studies Program focuses on the interconnected process of social, political, economic, cultural and environmental change. Students will learn theories, approaches and practices of international development followed by multi-lateral, bi-lateral, and non-governmental organizations. Students take 12 credits including a common course to learn the history, theories, applications, and impacts of development. Electives challenge students to examine development practices from multiple disciplinary viewpoints and encourage critical thinking. The program prepares students for a variety of employment opportunities related to international development, including volunteer work or employment in international and advocacy organizations, or business, policy and research groups. The program encourages critical thinking and responsible action in an interconnected world. The International Development Graduate Interdisciplinary Studies Program is open to graduate students from all colleges and departments.

## Italian Studies Interdisciplinary Minor

The Italian Studies Interdisciplinary Minor is designed to give students a comprehensive knowledge of different aspects of Italian language, culture, history, and artistic expressions, according to the students' interests. Credits from study abroad programs will be properly evaluated as part of the overall program.

### Effective Spring 2015

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

A grade of C or better is required in each course that will count toward the interdisciplinary minor.

### Core Language Courses

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

### Additional Requirements

- **International Development Events**
  - **Total Credits:** 0

**Program Total Credits:** 12

---

1. Accepted only when designated "Des Questions de development a travers le cinema africain."
2. Students are required to participate in two on-campus events focused on international development, as approved by advisor.
Latin American and Caribbean Studies Interdisciplinary Minor

For more information, contact the Political Science Department:
Marcela Velasco
Clark, Room C336
(970) 491-5942

The Latin American and Caribbean Studies Interdisciplinary Minor seeks to broaden understanding of the languages, cultures, institutions, political and economic systems, and the processes of change in Latin America. The program offers courses in a wide variety of disciplines, enabling students to gain a broader and deeper appreciation of the diverse regions of Latin America and the Caribbean. This background prepares students for specialized graduate study focusing on the region and for careers in a variety of areas.

Effective Spring 2015

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

1 A total of nine credits in Italian language courses may be counted toward the core language requirement. Students must complete Italian language courses or test out through the level of LITA 201 for the interdisciplinary minor. Students testing out or placing at a level higher than LITA 201 should see the minor advisor and department chair to fulfill all 21 credits needed for the minor.

2 Students may select this course with permission of advisor and department chair.

3 Students may petition to include up to 12 credits of upper-division (300- to 400-level) coursework from outside the courses listed here. To count towards the completion of the Interdisciplinary Minor in Italian Studies, 30 percent or more of the class content should focus on Italy. Students must submit a syllabus to the Department of Languages, Literatures and Cultures for each proposed class. If students have already completed the course, they must include a brief description of individual work completed in addition to the syllabus.

Leadership Studies Interdisciplinary Minor

SLiCE Office/President’s Leadership Program
(970) 491-1682
plp.colostate.edu (http://plp.colostate.edu)
The Legal Studies Interdisciplinary Minor provides a broad-based academic foundation for students interested in legal or law-related fields. This minor is intended for students who plan to attend law school, as well as to those who are interested in a wide range of careers in which some grounding in legal studies is helpful, such as media, business, human resources, communications, government service, and others.

**Effective Fall 2014**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

### Core Courses

</tr>
</tbody>
</table>

---

1. Students may substitute courses from their major department that meets the course objectives (e.g., XXX 486, XXX 487, or XXX 498) with PLP advisor’s approval. Students may take up to two consecutive semesters to complete the credits.

2. Students must complete a minimum of 3 credits of AUCC category 4C in order to achieve the 21 credit requirement of the interdisciplinary minor. If the major does not have a 4C course that is 3 credits (either as a stand-alone 4C course or as a 4C course in combination with a 4A and/or 4B course), students should take a 4A or 4B course in their major with PLP advisor approval.
**Linguistics and Culture Interdisciplinary Minor**

English Department Office in 359 Willard O. Eddy Hall

english.colostate.edu/undergraduate/english-related-minors/ (https://english.colostate.edu/academics/undergraduate/minors)

Gerald.Delahunit@colostate.edu (Gerald.Delahunit@ColoState.EDU)
Sheila.Dargon@colostate.edu

The Linguistics and Culture Interdisciplinary Minor is designed for students with a particular interest in language and its cultural interfaces. Its core is a pair of linguistics and anthropological linguistics courses, which are supported by courses in specific languages, and supplemented by elective courses in English; Languages, Literatures, and Cultures; Philosophy; and Communication Studies. Courses address current and historical descriptive, theoretical, and pedagogical issues in linguistics, cultural anthropology, philosophy of language, non-verbal communication, and the relation between communication, language and thought, providing students with a well-rounded program of study. The program is open to all students and designed to be an addition to the student’s major. CSU has linguistic and cultural expertise and this program provides undergraduate students with an opportunity to broaden their education as they prepare themselves for graduate study or careers requiring an analytic understanding of the nature of language and its relations with thought and culture.

**Effective Fall 2012**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

ecology.colostate.edu

The Graduate Degree Program in Ecology (GDPE) at CSU is one of the leading programs in graduate ecology education in the U.S. and the world. We have an ongoing tradition of research excellence, publication and post-graduate placement. Since its inception in 1992, GDPE has grown to become a principal organization comprised of CSU faculty and their students who catalyze cutting-edge and world-renowned ecological research performed at CSU. Our primary goal is to provide outstanding training for graduate students in the ecological sciences. Our students consistently earn recognition for their scholarship and academic achievement, and they are successfully placed in the job market upon graduation.

</tr>
</thead>
</table>

Program Total Credits: ²

A minimum of 30 credits are required to complete this program.

¹ The distribution lists contain suggestions for appropriate courses and are not complete lists. Other courses that fit within these categories may be taken to satisfy the credit requirement. This approach ensures that all students have a fundamental background in ecology while also permitting them to tailor a program to their interests. No specific distribution of ecology courses beyond the required courses is expected by GDPE; the appropriate course work is determined by the student, advisor, and committee.

² Program Total Credits: 21-25

ecology.colostate.edu (http://www.ecology.colostate.edu)

The Graduate Degree Program in Ecology (GDPE) offers outstanding opportunities for graduate studies in basic and applied aspects of ecology. Any graduate student enrolled in a master’s or doctoral degree program with a major advisor who is a member of the GDPE faculty may participate in this university-wide, interdisciplinary Ecology program, which offers M.S. and Ph.D. degrees in Ecology. The program is a cooperative effort among over 155 faculty members from 17 departments and 6 colleges of the University who share a common interest in ecology.

The primary goal of the program is to provide basic training in current ecological methods, theories, concepts, controversies, and applications by drawing together individuals and synthesizing knowledge from a wider variety of traditional disciplinary areas of science.

Through the cooperation of the many academic departments and government agencies, the program offers a wide array of facilities, field research sites, equipment, and support services. Because of its location, one of the University’s greatest resources is its accessibility to a wide variety of field study sites. Nearby major habitats include: shortgrass steppe and mixed grass prairies; sagebrush steppe; montane and subalpine meadows, forests; southwestern deserts; alpine peaks; river and lake systems; and numerous agroecosystems.

**ADDITIONAL ELECTIVES, AND INDEPENDENT STUDY** 15

Program Total Credits: 30

A minimum of 30 credits are required to complete this program.

**Mathematics Graduate Interdisciplinary Studies Program**

Office in Weber Building, Room 101
math.colostate.edu/programs/graduate/requirements.shtml#_Inter

Coordinated by the Department of Mathematics

The graduate-level interdisciplinary studies program in Mathematics at CSU is designed for students who seek to enrich their graduate degree by completing an additional program of study in mathematics. The program presumes a background in mathematics that includes sufficient prerequisite material to enter the courses in the program. To be admitted to the program, students must be pursuing a graduate degree in another discipline at CSU.

To be considered for admission to the program, contact the graduate coordinator in the department. Each individual program of study must be submitted to and approved by the Mathematics Graduate Committee.

**Effective Fall 2005**

Students must complete 12 or more credits of non-reserved number Mathematics courses with at least 9 credits at 500-level and above (excluding MATH 505). Up to 3 credits of 400-level Mathematics courses (excluding MATH 425, MATH 470) may be included. Each program of study must be arranged in consultation with the Mathematics Graduate Committee.
Committee. A GPA of 3.000 or above in all mathematics courses is required to satisfy the program requirements.

### Molecular Biology Interdisciplinary Minor

Molecular and Radiological Biosciences Building, Room 111
(970) 491-5602
bmb.colostate.edu/undergraduates (http://www.bmb.colostate.edu/undergraduates)

Coordinated by a Faculty Advisory Board

Erwin Chargaff referred to molecular biology as "the practice of biochemistry without a license" due to the fact that most early molecular biologists were trained as chemists or physicists. This also serves to emphasize that molecular biology is an interdisciplinary field, primarily the study of macromolecular structure and of the replication and expression of the information in our hereditary material (DNA). Jacques Monod defined molecular biology as "the recognition that the essential properties of living beings could be interpreted in terms of the structures of their macromolecules."

Molecular biology is becoming increasingly recognized as a significant area of study, particularly for students interested in the rapidly emerging field of biotechnology. The course requirements for this program complement extant life science degree programs on campus. The Molecular Biology Interdisciplinary Minor—noted on the transcript—will provide recognition that the student has completed a body of course work that provides both breadth and depth in this area. This program provides students with a strong, well-balanced background in the biological, physical, and mathematical sciences. It is ideally suited for undergraduates who wish to pursue advanced degrees in biochemistry, microbiology, molecular biology, or related life sciences; for pre-professional students in health-related fields; and for students interested in employment in the biotechnology industry. Courses in physics, organic chemistry, statistical measurements, and research methods are required. Independent study, internships, or advanced research-oriented laboratory classes are taken during the junior and senior years to provide opportunities for experiential learning and working closely with an interdisciplinary group of faculty.

Students interested in participating in this program should contact the Department of Biochemistry and Molecular Biology (http://www.bmb.colostate.edu) (in the Molecular and Radiological Biosciences Building, Room 111, (970) 491-5602).

### Effective Spring 2013

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Molecular, Cellular and Integrative Neurosciences Graduate Interdisciplinary Studies Program

Molecular, Cellular and Integrative Neurosciences Special Academic Unit
Carol A. Seger, Director

This interdisciplinary graduate research and education program has 28 active faculty participants from 11 departments in 4 colleges. The degree-granting departments are Biochemistry and Molecular Biology; Biology; Biomedical Sciences; Chemical and Biological Engineering; Computer Science; Environmental and Radiological Health Sciences; Health and Exercise Science; Human Development and Family Studies; Microbiology, Immunology and Pathology; Occupational Therapy; and Psychology. The program has been named as one of CSU’s Programs of Research and Scholarly Excellence.

Students interested in the program should refer to the MCIN (http://mcin.colostate.edu) webpage.

Music, Stage, and Sports Production Interdisciplinary Minor

Office in Clark Building, Room C244
(970) 491-6310
journalism.colostate.edu (http://journalism.colostate.edu)

Professor Steve Weiss, Coordinator

The interdisciplinary minor in Music, Stage, and Sports Production serves students who seek a broad foundation in creating television and audio recordings of events. Students learn theory and get hands-on experience in all aspects of the production process, both in studio and on location. This includes operating television cameras and audio equipment; designing appropriate lighting and audio environments; directing live recordings; and finishing projects through the editing of audio and video. Students can select courses from six departments in the College of Liberal Arts: Dance, Communication Studies, Journalism and Media Communication, Music, Sociology, and Theatre. The wide range of courses available allows students to focus on specific aspects of the production process or explore the entire spectrum of live and recorded performances. Upon completion of the minor, students will have an electronic production portfolio, which is considered a key requirement for getting a job and succeeding in this growing entertainment arena.

Effective Fall 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Students must complete 24 credits, with a minimum of 3 credits in each of at least four subject codes, with no more than 9 credits from any one subject code.

- MU 495H Independent Study: Performance
- TH 186 Theatre Practicum I

Program Total Credits: 24

¹ Prerequisites for this course may be waived for students enrolled in this minor.

Organic Agriculture Interdisciplinary Minor

Contact information:
organic.agsci.colostate.edu (http://organic.colostate.edu)

Department of Soil and Crop Sciences
Adriane Elliott (Adriane.Elliott@ColoState.EDU), (970) 491-6984, Plant Sciences C110

Department of Horticulture and Landscape Architecture
Dr. Mark Uchanski (Mark.Uchanski@colostate.edu), (970) 491-4885, Shepardson 211

Coordinated by a Faculty Advisory Board

The Organic Agriculture Interdisciplinary Minor is designed for students with an interest in alternative agricultural production approaches, in particular, organic agriculture. The focus of this program is on the science of organic agriculture with additional courses specifically focused on organic agriculture production techniques, business management, marketing, and decision making. Experiential learning is a critical part of this field of study and found in many levels in discussions, laboratories, and, most importantly, internship experiences.

The program is a cooperative effort of four departments: Agricultural and Resource Economics, Bioagricultural Sciences and Pest Management, Horticulture and Landscape Architecture, and Soil and Crop Sciences. Although participating students will take courses from all four departments, they will receive their degree from their home department, and completion of requirements for the interdisciplinary minor will be noted on their transcript.

Program details are available from Adriane Elliott (Adriane.Elliott@ColoState.EDU) and Mark Uchanski (Mark.Uchanski@colostate.edu). For more information, visit our website at organic.agsci.colostate.edu (http://organic.colostate.edu).

Sustainable Peace and Reconciliation Studies Graduate Interdisciplinary Studies Program

108 Johnson Hall
(970) 492-4215

Coordinated by the School of Global Environmental Sustainability (http://sustainability.colostate.edu).

The Interdisciplinary Program in Sustainable Peace and Reconciliation Studies will be open to all students who want to understand more about the philosophical and educational roots of peace and reconciliation, its expression and potential within various academic disciplines, research, and service, and how these can help address issues of sustainability, i.e., the interrelated health of the environment, society and the economy. Knowing more about the ideas that underlie nonviolent conflict resolution, effective communication, cooperation, and mediation within cross-cultural contexts will help students evaluate how sustainable peace and reconciliation can impact their beliefs, choices and actions. Program details are available from the School of Global Environmental Sustainability.

Requirements

Additional coursework may be required due to prerequisites.

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

1 Or a SoGES endorsed graduate course (http://sustainability.colostate.edu/education/ges-endorsed-courses) chosen in consultation with certificate advisor if GES 520 has been completed.
Effective Fall 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Graham Peers, Associate Director
Charlene Spencer, Coordinator

The graduate program in Cell and Molecular Biology is an interdisciplinary degree-granting program that involves over 100 faculty members from 14 departments and 5 colleges who share common interests in cell and molecular biology. The program offers training leading to the M.S. and Ph.D. degrees in Cell and Molecular Biology; there is also a Cancer Biology Specialization. The program includes a core of lecture courses in advanced molecular genetics and cell biology, in laboratory research techniques, and in ethical conduct of science, as well as elective courses in specialized areas and in grant writing, a graduate seminar series in which students present their research, and a weekly seminar series for presentations by CSU faculty and nationally prominent scientists each year. Core courses typically are completed during the first year. On average, the M.S. degree is completed within two years and the Ph.D. degree within five years. Current focus areas of research include, but are not limited to: cancer biology, genomics and computational biology, infectious diseases, metabolic regulation, neuroscience and molecular physiology, plant biology, regulation of gene expression, and reproductive and developmental biology.

Students interested in this graduate program should refer to the Cell and Molecular Biology (http://www.cmb.colostate.edu) website for further details.

2 CM 793 must be taken a minimum of 3 times for one credit each time.
3 Select additional credits to bring program total to 72 credits. Electives must be 500-level or higher regular graduate courses (i.e., excluding courses ending in -80 through -99), and selected with approval of graduate advisory committee.

Ph.D. in Cell and Molecular Biology, Cancer Biology Specialization

The Cancer Biology specialization is a focus area within the Cell and Molecular Biology Graduate Program that includes over two dozen faculty members from six departments in three colleges who share a strong interest and a broad expertise in molecular and clinical aspects of the development and treatment of cancer. The basic science and translational research activities of the focus area are closely linked with the clinical research and clinical trials programs of the Robert H. and Mary G. Flint Animal Cancer Center. (https://www.csuanimalcancercenter.org)

Clinical cancer treatment of pet animals is a major strength of the Cancer Biology curriculum. The Cancer Biology specialization combines nationally recognized research training, focused on cutting edge approaches to cancer diagnosis and treatment, with innovative clinical trials. Students who choose the Cancer Biology specialization complete all of the requirements of the Cell and Molecular Biology Graduate Program, including the three laboratory rotations, during their first year.

Requirements

Effective Spring 2014

A maximum of 30 credits at the master's degree level may be accepted toward the Ph.D. A professional post baccalaureate degree in Medicine,
Veterinary Medicine, Dentistry, Pharmacy, Law, or Divinity may be accepted for a maximum of 30 credits.

CM 792 must be taken a minimum of 4 times for one credit each time.

CM 793 must be taken a minimum of 3 times for one credit each time.

Students must select enough dissertation credits or other course work to bring the program total to a minimum of 72 credits, with approval of graduate advisory committee.

**Ph.D. in Ecology**

Johnson Hall, Room 104
ecology.colostate.edu (http://ecology.colostate.edu)

Colleen Webb, Director

The Graduate Degree Program in Ecology (GDPE) offers outstanding opportunities for graduate studies in basic and applied aspects of ecology. Any graduate student enrolled in a master’s or doctoral degree program with a major advisor who is a member of the GDPE faculty (http://ecology.colostate.edu/faculty-list.aspx) may participate in this university-wide, interdisciplinary Ecology program, which offers M.S. and Ph.D. degrees in Ecology. The program is a cooperative effort among over 155 faculty members from 17 departments and 6 colleges of CSU who share a common interest in ecology.

The primary goal of the program is to provide basic training in current ecological methods, theories, concepts, controversies, and applications by drawing together individuals and synthesizing knowledge from a wider variety of traditional disciplinary areas of science.

Through the cooperation of the many academic departments and government agencies, the program offers a wide array of facilities, field research sites, equipment, and support services. Because of its location, one of CSU's greatest resources is its accessibility to a wide variety of field study sites. Nearby major habitats include: shortgrass steppe and mixed grass prairies; sagebrush steppe; montane and subalpine meadows, forests; southwestern deserts; alpine peaks; river and lake systems; and numerous agroecosystems.

A description of the program is available from the program office (http://ecology.colostate.edu/contact.aspx).
Political Communication Interdisciplinary Minor

Office in Clark Building, Room C346
(970) 491-5156
polisci.colostate.edu (http://polisci.colostate.edu)

The Political Communication Interdisciplinary Minor is designed for students interested in the way ideas are communicated and shape the political process. It emphasizes the knowledge and abilities relevant to participation in political environments. The minor is particularly relevant for students interested in communication, law, politics, public administration, public deliberation, public policy, and other professions that deal with issues in public settings.

Coordinated by the Department of Political Science.

Effective Fall 2015

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

**Public Health**

Sage Hall
(970) 491-5800
publichealth.colostate.edu (http://publichealth.colostate.edu)

Dr. Lorann Stallones, Director
Kendra Bigsby (kendra.bigsby@colostate.edu), Assistant Director

The Master of Public Health (MPH) degree is the primary professional degree in the field of public health. The MPH degree is intended for students who plan careers as practitioners and leaders in the field of public health. Core academic public health areas include biostatistics, epidemiology, environmental health sciences, health services administration, and community and behavioral health.

The program is operated as one component of the Colorado School of Public Health (http://www.ucdenver.edu/academics/colleges/PublicHealth/Pages/default.aspx) (ColoradoSPH) which is a cooperative program between the University of Colorado (CU) Anschutz Medical Campus, CSU, and the University of Northern Colorado (UNC). The ColoradoSPH received accreditation from the Council on Education in Public Health in 2010. The program is an interdisciplinary Special Academic Unit at Colorado State University.

Areas of study at CSU include: animals, people, and the environment; epidemiology; global health and health disparities; health communication; physical activity and healthy lifestyles; and public health nutrition. Dual degree programs are available in veterinary medicine (DVM/MPH (http://csu-cvmbs.colostate.edu/dvm-program/Pages/DVM-MPH.aspx)) and social work (MSW/MPH (http://publichealth.colostate.edu/dual-degree/mph-msw)). Individuals in the Public Health Nutrition (http://publichealth.colostate.edu/concentration/public-health-nutrition) concentration also have the option to satisfy dietetic requirements (https://publichealth.colostate.edu/completing-dietetics-requirements) for the dietetic internship.

Please note that individuals wishing to apply (http://www.ucdenver.edu/academics/colleges/PublicHealth/admissionsandaid/howtoapply/Pages/MPHReq.aspx) to the Colorado School of Public Health at CSU do not apply to the CSU Graduate School. Applications are submitted through SOPHAS, an online application portal for accredited programs and schools of public health.

More information on the Colorado School of Public Health, admissions requirements, and the degree options available at all three campuses.
can be found here. (http://www.ucdenver.edu/academics/colleges/PublicHealth/Academics/degreesandprograms/Pages/mph.aspx)

Detailed information about all of the academic options in the ColoradoSPH at the CSU campus can be found here (https://publichealth.colostate.edu/academics).

**Religious Studies Interdisciplinary Minor**

Office in Clark, Room B-356  
(970) 491-6335

Coordinated by a Faculty Advisory Board and the Department of History.

The Religious Studies Interdisciplinary Minor permits students to use electives to complete 21 credits from a list of approved courses from at least three different subject codes.

The program encompasses the major religious traditions of humankind. It enables students to integrate a field of special interest from offerings in religious studies and related areas. Students can study religion as viewed by different disciplines, e.g., philosophy, history, psychology, sociology, and anthropology. In addition, the program encourages students to view religious phenomena in their cultural context through the media of music and the arts.

**Effective Fall 2015**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

- 21 credits, ordinarily seven courses in at least three disciplines are required.
- A minimum grade point average of 2.000 is required in courses selected for the program.

Program Total Credits: 15

A minimum of 15 credits are required to complete this program.

Russian Studies Interdisciplinary Minor

Office in Andrew G. Clark Building, Room C104
(970) 491-6141

Coordinated by the Department of Languages, Literatures and Cultures

The Russian Studies Interdisciplinary Minor is designed to give students in-depth knowledge of various aspects of Russian language, literature, culture, history and artistic expression, definable by the students' own interests. Credits from study abroad programs will be appropriately evaluated and may be included as a valuable part of the overall program.

Contact the Department of Languages, Literatures and Cultures (http://languages.colostate.edu) for details.

Effective Spring 2014

Of the 21 minimum credits required for the interdisciplinary minor, at least 15 must be upper-division (300- to 400-level). At least 12 credits must be from the subject code LRUS.

Additional coursework may be required due to prerequisites.

A minimum grade of C is required for each course counted toward the interdisciplinary minor.

LRUS 296 Group Study--Russian
LRUS 304 Third-Year Russian I
LRUS 305 Third-Year Russian II
LRUS 350 Russian Culture
LRUS 365 Introduction to Russian Cinema Studies
LRUS 495 Independent Study-Russian
LRUS 496 Group Study-Russian

Upper-Division Selected Courses
Select a minimum of 9 credits from the following:

E 452 Masterpieces of European Literature
E 455 European Literature after 1900
ECON 376 Marxist Economic Thought
HIST 324 Imperial Russia
HIST 329 Europe in Crisis, 1914-1941
LGEN 465C Studies in Foreign Film: Europe
POLS 345 Russian, Central, and East European Politics
POLS 371 U.S. Space Policy

Program Total Credits: 12

Students may petition to include up to 12 credits of coursework from outside the courses listed here. Courses must be from at least three different subject codes. To count toward the interdisciplinary minor, 30 percent or more of the course content should focus on Russia. Students must submit a syllabus for each course being petitioned to the Department of Languages, Literatures and Cultures and a brief description of individual work completed by the student for each proposed course. Courses from study abroad programs will be evaluated as part of the overall program.

Effective Fall 2016
Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Sports Management Interdisciplinary Minor

The Denver Broncos Sports Management Institute

Interdisciplinary Minor Coordinator/Instructor
Albert Bimper
217 Eddy Hall
Office: 970-491-1179
albert.bimper@colostate.edu

The Sports Management Interdisciplinary Minor will provide undergraduate students with an overview of the sports industry from an interdisciplinary perspective. Students in this minor will acquire skills in various aspects of the sports industry, including public relations, turf management, facilities and event planning, management and marketing, hospitality services, diversity and leadership. Students selected for the competitive minor track will have hands-on experiences through internships and practicum opportunities with regional professional sports franchises, including the Denver Broncos.
Sustainable Energy Interdisciplinary Minor

108 Johnson Hall
(970) 492-4215
Coordinated by the School of Global Environmental Sustainability (http://sustainability.colostate.edu).

The interdisciplinary minor in Sustainable Energy offers undergraduate students, regardless of their major, an opportunity to gain a deeper knowledge of the many dimensions of sustainable energy. Students will complete 21 credits (at least 12 upper-division credits) in core and elective courses that are relevant to the technical, environmental, and social science issues as we transition to a sustainable energy future.

Effective Fall 2017

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Sustainable Water Interdisciplinary Minor

Office in Johnson Hall, Room 119
watercenter.colostate.edu (http://watercenter.colostate.edu)

Coordinated by the CSU Water Center in partnership with the School of Global Environmental Sustainability.

Water is a complex, interdisciplinary topic that is critical to our economic, societal, and environmental well-being. Issues surrounding water supply, water quality, and ecological relationships have become increasingly important in Colorado, the American West, and internationally as water demands increase. The complexity of these issues and competition among various water users demands that students interested in pursuing careers in water gain a broad introduction to the issues while specializing in a particular discipline.

Colorado State University has developed considerable water resources expertise in many academic fields over the past century. The Sustainable Water Interdisciplinary Minor (SWIM) requires 21 credits and a minimum of 12 upper-division (300- to 400-level) courses which allow undergraduates to take advantage of this expertise and broaden their backgrounds regarding water resources in order to prepare for employment or graduate-level work.

Effective Fall 2016

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Systems Engineering Graduate Interdisciplinary Studies Program

Office in Engineering Building, Room AR 202

Coordinated by a Faculty Advisory Board and the College of Engineering

The Systems Engineering Interdisciplinary Studies Program is designed to address the current trend toward increasingly complex systems that exists across a variety of disciplines, including aerospace, energy, environment, and biosciences. The objective of the program is to expose engineers and industry professionals to a disciplined development process in order to manage complex engineered systems and produce quality and reasonably priced products.

The program is open to graduate students and professionals who hold a B.S. degree. Coursework in calculus and statistics (or the ability to apply statistical methods) is also required.

Program Total Credits: 21

1. No more than 4 credits per subject code may be counted toward the Contexts of Water requirement.
2. Enrollment in CON 476 is limited to Construction Management majors only.

Women’s Study Interdisciplinary Minor

Eddy Hall, Room 210
(970) 491-6182
womensstudies.colostate.edu

Coordinated by Dr. Caridad Souza, Director, Center for Women’s Studies and Gender Research

The world is complex, interconnected, and interdependent, which complicates how we understand and relate to one another. That’s why a degree in Women’s and Gender Studies is important. By exploring the way gender intersects with sexuality, race, ethnicity, class, ability, religion, and nationality, our students come to better understand personal and political identities, a critical component to understanding how power and privilege play out in work, politics, and culture. Through classes in anthropology, art, economics, English, ethnic studies, psychology, sociology, and other related fields that specifically focus on women and gender dynamics, students will:

1) explore academic disciplines from a feminist and gender studies perspective;
2) develop an appreciation of the historic and contemporary contributions of women and gender in all cultures;
3) understand the ideological assumptions regarding women and gender implicit in social institutions;
4) recognize how multiple systems of power and privilege intersect in our everyday lives; and
5) acquire knowledge and skills necessary for physical, social, and emotional well-being.

The Women’s Study Interdisciplinary Minor prepares individuals for the needs and opportunities of a changing world by building awareness of the range of human experience, potential, and accomplishment that place women and gender at the center of inquiry. Women’s studies transform disciplinary assumptions and theories, create innovative models for teaching and research, and develop practices for challenging systems of power and privilege. Students interested in pursuing the Women’s Study Interdisciplinary Minor should contact the Center for Women’s Studies and Gender Research (http://womensstudies.colostate.edu). Completion of requirements will be noted on the student’s permanent record.

Effective Spring 2015

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.
Students enrolled in the undergraduate Women’s Study Interdisciplinary Minor are required to earn a grade of C (2.000) or better in each course completed for undergraduate minor credit.

Program Total Credits: 21

1 Courses may not be used to satisfy both the “Intersectionality of Race, Sexuality, and Gender” and the “Elective Courses” categories. At least 6 of the 12 credits required for these course selections must be upper-division (300- to 400-level).

Department of Military Science

Reserve Officers’ Training Corps (ROTC)

History
An Act of Congress dated July 2, 1862, provided for military science and tactics instruction in federal land-grant colleges. Such instruction has been given at Colorado State University since its establishment.

In 1919, the Department of Military Science and Tactics of the institution was included in the Reserve Officers’ Training Corps under the provisions of the First National Defense Act, July 3, 1916. The ROTC Vitalization Act of 1964 provides for a two-year ROTC program in addition to the traditional four-year program and authorizes ROTC scholarships.

General Information
The Army and Air Force four-year programs complement the four college years and include one summer encampment. Students satisfactorily completing Army or Air Force departmental requirements will be commissioned as second lieutenants in the Army or Air Force.

Additionally, each service offers a two-year program whereby a student may earn a commission after completing two years of ROTC training during the junior and senior undergraduate years or during a two-year graduate degree program. This program is designed for transfer students or students unable to take ROTC training during their freshman and sophomore years.

Each student entering the junior year (freshman or sophomore year) if a scholarship recipient) of ROTC enlists in the Army or Air Force Reserve and signs a contract. This contract includes a military service commitment and obligates the student to complete the junior and senior year ROTC courses, and to accept a commission as a second lieutenant. All contracted cadets receive a tax-free stipend of $300-$500 per month, incremented by academic year.

Some graduates defer active duty until the attainment of graduate degrees. Opportunities also exist for graduate study while on active duty. Active duty officers may be selected for enrollment at civilian universities in graduate degree programs. When selected, such study is accomplished with full pay and allowances for an officer.

Purpose
The purpose of the Army and Air Force ROTC courses is to develop leadership capabilities, to provide expertise in organizational skills, and to qualify students for duty as officers with the Armed Forces of the United States. The courses are designed to develop self-confidence, initiative, leadership skills, critical thinking skills, and a sense of duty and honor as a citizen and potential future officer.

College Scholarship Program
Scholarships are available to qualifying students entering or enrolled in the University Air Force or Army ROTC programs. Scholarship consideration is predicated on student ability, performance, and potential. In order to accept the scholarship, if offered, the student must enroll in ROTC, be medically qualified for military service, pass a physical fitness test, and take an oath to defend the constitution of the United States. These ROTC scholarships may provide payment of up to full tuition (resident and non-resident), laboratory expenses, mandatory fees, a textbook allowance of $600 (Air Force) and $1,200 (Army) per year, and a tax free stipend of $300-$500 per month, depending on academic year.
Details of the scholarship program may be obtained online through the Air Force (http://afrotc.com) and Army (http://www.goarmy.com/rotc/ways-to-attend.html), and from the ROTC department concerned. Refer to the department listings for names of persons who can supply additional information.

**Department of Aerospace Studies**

Office in Military Science Building, Room 204  
(970) 491-6476  
airforce.colostate.edu (http://airforce.colostate.edu)  
afrotc.com (http://afrotc.com)

Colonel Timothy W. Childress, USAF, Professor of Aerospace Studies

**Air Force ROTC**

The mission of the Air Force ROTC program is to develop and produce quality leaders for the Air Force. Enrollment is open to any student attending the University on a full-time basis. The curriculum provides the individual with a firm understanding of the concepts of aerospace power and the Air Force mission, organization, and operation.

Enrollment in AFROTC is voluntary and accomplished through the fall and spring registration periods. Scholarships are available in many academic disciplines on a competitive basis. Approximately one-half of the students hold scholarships. Depending on the semester, approximately one-quarter of the cadet corps consists of women. Almost all Air Force career fields are open to women, including pilot positions.

**General Program**

The four-year program consists of the General Military Course (GMC) during the freshman and sophomore years and the Professional Officer Course (POC) for the remaining two years of college. Enrolled students are referred to as cadets. Compressed options may be available for students starting after their freshman year. Four-year cadets participate in a four-week field training period during the summer between their sophomore and junior years. Students may enroll in the Aerospace Studies courses for credit or to earn a minor; however, they are not considered members of Air Force ROTC.

**Scholarships**

Air Force ROTC offers college students scholarships to pay for up to $18,000 tuition, most fees, and $600 per year for books. In addition, all cadets on scholarship receive a nontaxable monthly allowance during the academic year. Currently, the monthly amount varies from $300 for freshmen increasing each year up to $500 for seniors. The program is open to college freshmen and sophomores in any major.

**Summer Programs**

Air Force ROTC offers many summer programs to take advantage of. Before completing the ROTC program all cadets must complete field training, which is a rigorous two-week program involving physical conditioning, weapons training, and survival training. But more than that field training is an opportunity to develop your skills as both a leader and team member. In addition to field training, cadets may choose to participate in other experiences and you will be able to tell your friends that you did something truly amazing. These summer programs include: freefall parachuting, advanced engineering, NASA research, nurse orientation, cultural and language immersion programs, and several others. In addition to the experience of a lifetime, you will receive travel to and from the location, room and board, and daily training pay.

**Active Duty Obligation**

There is no active duty obligation for enrolling in either the freshman or sophomore AFROTC courses. Cadets who complete the Air Force ROTC program and receive a commission incur a minimum four-year, active duty commitment. Pilots, Combat System Operators, and Air Battle Managers serve additional commitments from the time they complete their training.

**Requirements**

**Minor in Aerospace Studies**

The Minor in Aerospace Studies is offered to any student completing the course of study listed below. In addition to studying Air Force organizations, missions, and operations, the student will gain a broad perspective of the military in general by studying the history of all Department of Defense Services and completing at least one Army ROTC course, thus emphasizing our country's focus on "joint" military operations.

Additional coursework may be required due to prerequisites.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

**Department of Military Science**

Military Science Building, Room 101  
(970) 491-1640  
armyrotc.colostate.edu (http://armyrotc.colostate.edu)

Mr. Peter Bleich, Recruiting Operations Officer
Army ROTC

The Army ROTC program provides professional education and leadership training to those students who desire to serve our country as officers in the U.S. Army upon graduation. Successful completion of the program qualifies ROTC cadets for both a commission as a second lieutenant in the Army and an opportunity to serve at least four years on active duty or at least six years in the reserve component (Army Reserve or Army National Guard).

The successful ROTC cadet may choose one of the 17 diverse and exciting career fields in which to serve as an Army officer. A list of these career fields may be obtained from the Department of Military Science.

General Program

The Military Science program is subdivided into two levels. The Basic Course is aligned with the freshman and sophomore years and consists of the fundamentals of leadership and management, critical thinking, land navigation, small unit operations, and rappelling. The Advanced Course is aligned with the junior and senior years and covers leadership assessment, military history, ethics, and the Army as a profession. It also includes leadership skills that prepare the cadet for entry into active or reserve duty as a commissioned officer. Participation in leadership laboratories is open to all students who are enrolled in a military science class.

Two-Year and Graduate Degree Programs

A two-year program is available for students who have not taken the first two years of ROTC, or for those who have completed an undergraduate degree and are seeking a two-year graduate program. This program requires the student to attend a summer course at Fort Knox, Kentucky. The four-week summer course, taken between the sophomore and junior years or prior to starting a graduate degree program, consists of basic military training and allows the student to enter the Advanced Course upon return to campus. The completion of basic training during prior enlisted service will also serve as qualification to enter the two year Advanced Course.

Another option to attain an officer’s commission is through the Simultaneous Membership Program (SMP). This program allows a cadet who is a member of an Army Reserve or Army National Guard unit to be in the Advanced Course of ROTC, be paid at the cadet drill pay rate (equivalent to E-5 pay), work as an officer trainee in their unit, and compete for an Army Reserve component or active duty commission. Students can also receive the GI Bill and tuition assistance benefits while in Army ROTC.

The Military Science curriculum is intended to enrich and supplement baccalaureate or postgraduate studies in all fields. The Army recognizes the need for officers with varied academic credentials and will award a commission to students who successfully complete ROTC.

Flight Training

After commissioning, flight training is available, although competitive, to those officers who have taken and passed the flight physical and flight aptitude test and have been selected for service within the Aviation Branch. The flight aptitude test is normally administered during the MS III or junior year of ROTC. Training will be rotary wing (helicopter) training.

Scholarships

CSU Army ROTC cadets may be awarded scholarships that pay full tuition (in-state or out-of-state), mandatory fees, $1,200 per year for books and a graduated stipend (living allowance) of $300 per month up to a maximum of $500 per month. Applications for the four-year scholarship can be requested by applying online (http://www.goarmy.com/rotc/scholarships.html). Two- and three-year scholarships, for sophomores and freshmen respectively, may be applied for throughout the school year directly through the on-campus Army ROTC Program.

Financial Assistance Opportunities

In addition to two-, three-, and four-year scholarships, Army ROTC has the Simultaneous Membership Program (SMP), which provides additional experience and financial assistance from two sources: a National Guard or Reserve unit and Army ROTC. SMP students may also qualify for GI Bill benefits, loan repayment money, and up to 100% tuition assistance, based on available funding and service time.

Requirements

Effective Fall 2017

Additional coursework may be required due to prerequisites.

Students must satisfactorily complete 21 of the total credits offered for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

To receive a minor in Military Science, students must commission as 2nd Lieutenants in the U.S. Army upon graduation from CSU.

1 MLSC 250 requires attendance at the five-week basic camp and can be applied toward lower division credits.
2 Students may be given transfer credit for prior military service that can be applied to lower division credits.

Environmental Studies

The broad spectrum of environmental studies at CSU is uniquely dispersed in 100 majors and concentrations housed in departments throughout CSU. As a land-grant institution, a key component of CSU's mission is to provide education in environmental management, science, and policy. It is difficult to find a degree or department that does not directly address environmental issues at local, national, and international scales. Campus-wide participation in environmental science and management is a result of fundamental linkages between basic science and management of critical environmental issues. Consequently, a unique strength of CSU is a tradition of interdisciplinary research, teaching, and service, which is essential in understanding the environmental issues of today's world.

Programs engaged in environmental studies at CSU have goals that include:

- Understanding that scientific knowledge, policy considerations, and ethical issues are necessarily joined;
- Comprehending the interrelationships among the environment, natural resources, and human society.
- Perceiving the need to integrate diverse social, political, legal, institutional, and scientific considerations inherent in attaining environmental goals;
- Educating students to be articulate, sensitive, and knowledgeable about the complexity of environmental issues facing society;
- Providing a balanced understanding of the natural and social processes as they relate to the environment.

Some examples of the many areas in environmental studies at CSU are: agricultural business; air pollution assessment and management; air quality; biological control and pest management; global climate change; biodiversity and conservation biology; biomedical engineering; ecology and ecosystem management; ecotourism; ecotoxicology; environmental communication; environmental engineering; environmental ethics; environmental history and policy analysis; environmental horticulture; environmental soil science; environmental geology; land ethics, and stewardship; environmental sociology; natural resource economics; natural resources and environmental management; natural resource tourism; occupational health and workplace management/control; park and protected areas management; pesticide management; pollution control; reproductive and environmental risk factors; risk assessment and management; solid and hazardous waste management; sustainable building design and construction; and water chemistry, quality, and management.

The programs at CSU that engage in environmental studies are incorporated within existing majors in the following colleges (departments): College of Agricultural Sciences (Agricultural and Resource Economics; Bioagricultural Sciences and Pest Management) (graduate only); Horticulture and Landscape Architecture; Soil and Crop Sciences; College of Health and Human Sciences (Construction Management); College of Engineering (Atmospheric Science) (graduate only); Chemical and Biological Engineering; Civil and Environmental Engineering; Mechanical Engineering; College of Liberal Arts (Anthropology; English; History; Philosophy; Political Science; Sociology); Warner College of Natural Resources (Fish, Wildlife, and Conservation Biology; Ecosystem Science and Sustainability; Forest and Rangeland Stewardship; Geosciences; Human Dimension of Natural Resources; Natural Resource Ecology Laboratory); College of Natural Sciences (Biological Chemistry and Molecular Biology; Chemistry; Physics; Psychology); College of Veterinary Medicine and Biomedical Sciences (Biomedical Sciences; Environmental and Radiological Health Sciences; Microbiology, Immunology, and Pathology). In addition, CSU offers an Environmental Affairs Interdisciplinary Studies Program and an Undeclared Environmental/Natural Resource Interest for students who first wish to explore options with environmental studies campus-wide before selecting a major (contact the Warner College of Natural Resources for more information on the undeclared option). For further information about specific environmental studies-focused majors, please contact the respective college/department and see their program descriptions within this catalog.

School of Global Environmental Sustainability (SoGES)

Office in Johnson Hall, Room 108
(970) 491-4070

The School of Global Environmental Sustainability (http://sustainability.colostate.edu) (SoGES) seeks to prepare students to meet today’s pressing environmental challenges. Using an interdisciplinary approach within a framework of sustainability, students will be led in innovative research leading to the knowledge and understanding needed to approach and solve problems of the human-environment interaction. SoGES’ vision encompasses laying the foundation and defining the principles and practices that will ensure long-term environmental sustainability, while continuing to meet the needs of people around the earth.

Mentored Research and Artistry Program

Office in the TILT Office for Undergraduate Research and Artistry
(970) 491-1566
tilt.colostate.edu/oura (http://tilt.colostate.edu/oura)

Mark A. Brown, Director

Program Background

The faculty, staff, and students at CSU are actively engaged in a wide range of scholarly activities that both anticipate and respond to the interests and needs of the people of Colorado, the nation, and the world. In these endeavors, we are recognized as one of the most highly rated public research universities in the United States. Faculty, staff, and students at CSU are pioneers in a variety of disciplines that help shape our global environment. The Mentored Research and Artistry Program provides a structure for undergraduate students to engage in these activities. Whether investigating infectious disease or the benefits of music therapy, international economics, or regional climate change, every undergraduate is encouraged to contribute to the scholarly output of CSU.

Program Philosophy

Aristotle noted, “For the things we have to learn before we can do them, we learn by doing them.” The development and application of new knowledge plays an essential role at research-intensive universities, enhancing both learning and teaching. The Mentored Research and Artistry Program allows students to initiate a learning experience under
the close guidance of a faculty mentor. Research and artistry, as an extension of the learning experience beyond the classroom, leads to the acquisition of skills and unique mindsets necessary to create new ideas and expand human knowledge. Through inquiry, students become their own teachers pursuing answers to unresolved questions and enriching their educational experience. For example, a student may use techniques learned in a chemical engineering laboratory to explore alternatives for clean energy. Another student might expand the technical repertoire of acrylic painting in the context of experimenting on canvas. In all cases, each student’s path to new knowledge is enhanced with the guidance and experience of a mentor. The role of faculty mentors in undergraduate inquiry is to provide input, feedback, and support while guiding students in the responsible and ethical pursuit of new knowledge and experiences.

Main Features
The Mentored Research and Artistry Program is designed to enhance and recognize the learning experiences of undergraduates who are engaged in research, artistry, or other forms of creative work. The experience allows students to distinguish themselves as undergraduate scholars in their disciplines. This opportunity is open to all undergraduate students in good academic standing who have at least two full semesters remaining before graduation. The criteria for completion of the program are rigorous, ensuring that only the most dedicated students receive the distinction of Mentored Research and Artistry Program on their transcript. Students earn the right to wear the Mentored Research and Artistry Program’s Silver Ribbon with their graduation regalia and of listing this distinction among their academic achievements.

Requirements
To complete the program, the following requirements must be satisfied.

1. Inquiry projects must be conducted under the guidance of a faculty, staff, or industry mentor for a minimum duration of two semesters. Approval of projects by the Office for Undergraduate Research and Artistry is required. Forms and guidelines for program registration are available at TILT (http://tilt.colostate.edu/ouraj).
2. Participating students must complete a workshop on the Responsible Conduct of Research (https://vpr.colostate.edu/rcr/rcr) (RCR), provided regularly by the Office for Undergraduate Research and Artistry. Upon completion of the RCR workshop, participants are required to complete the online RCR training and examination module available at RCR (https://vpr.colostate.edu/rcr/rcr). Students must register and actively participate in a student organization related to their discipline and approved by the Office for Undergraduate Research and Artistry. Students will be required to submit a letter from the organization’s Faculty/Graduate advisor verifying the student’s active involvement for at least two semesters.
3. Students must complete a research methods course with a grade of C or higher. The course must be approved by the Office for Undergraduate Research and Artistry.
4. Inquiry projects must be presented at CSU’s annual Celebrate Undergraduate Research and Creativity (CURC) Showcase or another venue approved by the Office for Undergraduate Research and Artistry, such as a regional or national conference. A program highlighting the participant’s project or a letter of verification from the faculty mentor must be included with the final report.
5. Projects must be submitted for publication in the CSU’s Journal of Undergraduate Research and Scholarly Excellence or in another peer-reviewed journal, approved by the Office for Undergraduate Research and Artistry. A copy of the published manuscript or correspondence from an editor of the journal to which a manuscript has been submitted indicating the manuscript is under review should be included with the participant’s final report.

Upon completion of a project, participants must submit a final report including a summary of the project, its outcomes, and a detailed reflection of the experience along with a letter from the mentor (report forms and guidelines are available at TILT (http://tilt.colostate.edu/ouraj)). The Office for Undergraduate Research and Artistry will generate an electronic file for each participant. Upon submission of the final report, the Office for Undergraduate Research and Artistry will review the file and confirm the student’s successful completion of the program notifying the CSU Registrar’s Office for transcription of the Mentored Research and Artistry Program.

University Honors Program
Office in Academic Village, B 102
(970) 491-5679
honors.colostate.edu (http://honors.colostate.edu)

Program Philosophy
The University Honors Program, established in 1957, is a special learning community that offers extraordinary students a wide range of enriching educational experiences. Hallmarks of the program include small classes and interdisciplinary seminars taught by some of the University’s finest teachers, individualized academic advising, faculty-mentored research and other creative activities, an optional residential learning community in the Academic Village, early registration for classes, co-curricular activities, a scholarship for students who enter the program in the freshman year, and assistance with applications for prestigious post-graduate awards. Approximately 1,500 students participate in the program where they receive a world class education, enjoy the personalized attention typically found at a small college, and benefit from the resources and diversity of a nationally acclaimed research university.

Main Features
University Honors Core Curriculum. Two curricular options provide enriched educational experiences for high ability students in all majors. The Track 1 curriculum, designed for entering first-year students is composed of five Honors seminars, two Honors courses in the major, and a faculty-mentored senior year creative activity (thesis). Completing Track 1 fulfills five of the categories in Colorado State University’s All University Core Curriculum, as well as the oral communications requirement in most majors that require a speech class. Participating in the Honors program provides for a more enriched and rewarding education without extending the time to graduation.

The Track 2 curriculum, designed for continuing or transfer students, is composed of one to two honors seminars, five or six Honors courses (15-18 credits) in the major, and a faculty-mentored senior year creative activity (thesis). Students who have completed 15+ credits at college level and have a 3.5 cumulative grade point average are eligible to apply. Entering first-year students who transfer 30+ credits that already satisfy many AUCC categories through AP, IB, or college courses are eligible for Track 2.

Graduating as a University Honors Scholar. Students who complete the Honors requirements and achieve at least a 3.5 cumulative grade point average earn the prestigious designation of University Honors Scholar. Scholars are recognized at graduation, and the University Honors Scholar designation appears on their diplomas and transcripts. For more
information on graduation as a University Honors Scholar, see the section on Scholastic Standards.

Admission to the Program. The application and selection process, which targets high school seniors and transfer students, is designed to attract an Honors class that represents high academic achievement, diversity of life experiences, and great promise for contributing to the Honors and University communities. Typically, about 400 first-year students enroll in the Honors Program each year. Currently enrolled CSU students may also apply to the University Honors Program after their first semester of college, and high-achieving transfer students are invited to apply.

The Honors Residential Learning Community. The optional Honors Residential Learning Community (HRLC) is located in the Academic Village and in Edwards Residence Hall. It links in-class and out-of-class student learning through residence life experiences and special programs. Students, especially first-year students, are encouraged to take advantage of this special opportunity. The HRLC is home to the Honors Office and classrooms that are used for seminars, special lectures, study sessions, and a wide variety of co-curricular activities. The 24/7 Fireside Lounge is located near the Program Office in the Academic Village.

The Honors Merit Scholarship. All new freshmen who have been admitted to, confirm to the program, and participate in the University Honors program receive a renewable scholarship. Students who remain in good standing with the University Honors Program and meet the minimum GPA requirement for continuation of the honors merit scholarship will receive the scholarship for four years. Students entering their senior year are also invited to apply for additional donor-funded scholarships, and all honors students are encouraged to apply for Honors Enrichment Awards and Thesis Improvement Grants to supplement their educational activities.

Requirements
Honors Entering Student Pathway (Option 1)
Honors Entering Student Pathway (Option 2)
Honors Continuing/Transfer Student Pathway

University Honors Core Curricula

The Honors program of study provides exceptional academic studies that include breadth and perspectives, in-depth studies, a senior year creative activity, and Honors elective courses. Two curricular pathways provide enriched educational experiences for high ability students in all majors. The Entering Student Pathway curriculum fulfills nearly half of the All-University Core Curriculum (AUCC) requirements, allowing Honors students to graduate on schedule and without additional cost. The Continuing/Transfer Student Pathway curriculum satisfies Honors requirements by taking Honors courses in their majors and departments. Students who complete either curriculum and graduate with a cumulative 3.5 GPA or greater receive “University Honors Scholar” designation on their diploma and transcripts.

The Honors courses enroll between 18 and 22 students and are taught by some of the University’s finest teachers.

Students may take an Honors course in the major and/or enroll in elective Honors courses in their first year on campus.

<sup>1</sup> Eighteen honors credits (sophomore [200-level], upper-division [300- to 400-level], graduate [500-level], etc.) in the major or discipline; not more than 3 credits at the sophomore level; not more than 3 credits may be outside of major or discipline.

College of Agricultural Sciences

Students may look forward to careers in basic and applied research; production and utilization of food and related products; resource use and conservation; industry and business; education and public service; technical and professional services; professional, scientific, and technical communication; and governmental policy and regulations of our agricultural systems.

Interdepartmental Minor

Interdisciplinary Minor in Organic Agriculture

College-Wide Graduate Programs

Master’s Programs

- Master of Agriculture in Agricultural Sciences, Plan A
- Master of Agriculture in Agricultural Sciences, Plan B
- Master of Agriculture in Agricultural Sciences, Integrated Resource Management Specialization
- Master of Agriculture in Agricultural Sciences, Plan A, Teacher Development Specialization
- Master of Agriculture in Agricultural Sciences, Plan B, Teacher Development Specialization
- Master of Extension Education, Plan C (M.Ext.Ed.) previously titled Master of Agricultural Extension Education (M.A.E.E.)

Agriculture was the first science . . . the progenitor of sciences . . . and it remains the science that supports human life. It is a science concerned with improving the quality of life and maintaining a productive, safe, and sustainable environment. Agricultural programs integrate biological, physical, and social sciences with agricultural sciences. Students may look forward to careers in basic and applied research; production and utilization of food and related products; resource use and conservation; industry and business; education and public service; technical and professional services; professional, scientific, and technical communication; and governmental policy and regulations of our agricultural systems.

Internships

Students are encouraged to select an internship with an approved cooperator. The student's department determines the number of allowable credits. Internships are available each term including the summer term. Internships normally require 45 hours of contact per academic credit and do allow a stipend to be provided, though many are unpaid. Application should be made to the department at least 30 days before the term of the internship.

Education Abroad

Education Abroad programs are available to students in the College of Agricultural Sciences to become global citizens; the knowledge of other cultures is valuable in understanding our own. Students are encouraged to study outside the United States as part of their overall program at CSU. There are active programs in Australia, New Zealand, France, Costa Rica, Spain, and Mexico, in addition to other countries. Students interested in education abroad should plan in advance by visiting the College of Agricultural Sciences (http://agsci.colostate.edu) and discussing opportunities with their academic advisor, the Associate Dean of Academic Programs, and/or by visiting the Office of International Programs (http://international.colostate.edu) in Laurel Hall.

Transfer of Credits from Other Institutions

Students who expect to transfer to the College of Agricultural Sciences are advised to plan carefully and in advance of their planned transfer to ensure that transfer credits meet required courses in their chosen major. Transfer evaluations are generally determined by the Registrar's Office, although departments determine transfer of courses required by the department. Students planning to transfer to CSU are encouraged to access Transferology (https://www.transferology.com/login.htm)™ to determine if courses they are taking at another institution will transfer to CSU. If a course is not listed, they should contact the Registrar's Office on campus. (Note: Credits from two-year colleges are not accepted for 300 and above level courses at CSU.) The College of Agricultural Sciences welcomes transfer students from both two- and four-year colleges and encourages potential transfer students to work closely with the University to minimize transfer issues.

Currently the College of Agricultural Sciences is the only institution that has the ability to grant a four-year baccalaureate in agriculture. For that reason, the College works hard to collaborate with community and four-year colleges across Colorado; collaboratively with the state-wide organization entitled CACTA (Colorado Association of Colleges and Teachers of Agriculture); to develop state-wide articulation agreements as well as transfer arrangements. This information can be found at the Registrar's Office. (http://registrar.colostate.edu/transfer-guides)Because of a mutual general education core, students that take courses for a major listed on a state-wide agreement are guaranteed to graduate in an additional 60 credits if they follow course recommendations.

Program Total Credits: 30

A minimum of 30 credits are required to complete this program.

1 Maximum of 3 credits allowed.
2 A maximum of 5 credits allowed for AGRI 587A, AGRI 587B, AGRI 695, and AGRI 698 collectively.
3 A maximum of 6 credit hours are permitted at the 400-level. The remainder must be at the 500-level or above.

Master of Extension Education, Plan C (M.Ext.Ed)

The Master of Extension Education (M.Ext.Ed.) is designed to train specialists to work in the broad field of Extension or a related outreach field. The program will include course work on the principles and
programming of Extension as well as training on evaluation and teaching strategies in Extension settings. Students in the program will also be expected to complete an internship experience in Extension. The goal of the program is to develop the skill sets necessary to become a qualified Extension specialist.

Prior to Fall 2017, the title of this program was the Master of Agricultural Extension Education (M.A.E.E.).

**Education Course Electives**

Select a minimum of 9 credits from AGED, AGRI, EDAE, HDFS, JTC, and SOWK courses at the 500-level or above with approval of the student’s graduate advisor.¹

Select a minimum of 9 credits disciplinary course work at the 500-level or above with approval of the student’s graduate advisor.¹

Program Total Credits: 36

A minimum of 36 credits are required to complete this program. Of the 36 minimum credits required for this program, at least 24 credits must be earned at CSU. No independent study, research, supervised college teaching, or practicum credits may apply toward the degree.

¹ A minimum of 21 credits must be earned at the 500-level or above in the student’s area of study approved by the student’s graduate advisor.

**Master of Agriculture in Agricultural Sciences, Integrated Resource Management Specialization**

http://www.online.colostate.edu/degrees/irm

Students are provided an interdisciplinary training in animal science, business, range science, ecology, wildlife, policy, and human resources. This fusion of topics allows students to understand how agricultural resource systems work together in a comprehensive way, and how to apply them in an agricultural management setting.

The purpose of the program is to provide students with an understanding of the land resource system and how to manage land-based enterprises. The program is designed to empower students to effectively utilize and care for land resources while addressing a broad range of private and social objectives.

dare.agsci.colostate.edu (http://dare.agsci.colostate.edu)

Professor Hayley Chouinard, Head
Professor Marshall Frasier, Chair of Undergraduate Program
Professor Christopher Goemans, Chair of Graduate Program

### Undergraduate Majors

- Agricultural Business
- Agricultural Economics Concentration
- Farm and Ranch Management Concentration
- Agricultural Education
- Teacher Development Concentration
- Agricultural Literacy Concentration
- Environmental and Natural Resource Economics

### Minors

- Agricultural Business
- Agricultural Literacy
- Environmental and Natural Resource Economics
- Food Industry Management Interdisciplinary Minor

### Graduate Programs in Agricultural and Resource Economics

The department offers graduate programs leading to Master of Science and Doctor of Philosophy degrees. A description of these programs may be found in the Graduate and Professional Bulletin or on the department’s website (http://dare.agsci.colostate.edu).
Certificate

• Teaching in Extension

Master's Programs

• Master of Science in Agricultural and Resource Economics, Plan A
• Master of Science in Agricultural and Resource Economics, Plan B

Ph.D.

• Ph.D. in Agricultural and Resource Economics

Courses

Subjects in this department include: Agricultural and Resource Economics (AREC) and Agricultural Education (AGED).

Agricultural and Resource Economics (AREC)

AREC 202 Agricultural and Resource Economics (GT-SS1) Credits: 3 (3-0-0)
Course Description: Introduction to decision-making by consumers, firms, and government and the resulting allocation of resources through markets.
Prerequisite: MATH 117, may be taken concurrently or MATH 118 or MATH 124 or MATH 125 or MATH 126 or MATH 141 or MATH 155 or MATH 159 or MATH 160.
Registration Information: Sections may be offered: Online. Credit not allowed for both AREC 202 and ECON 202.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Social & Behavioral Sciences 3C, Economic or Political Systems (GT-SS1).

AREC 224 Introduction to Agribusiness Entrepreneurship Credit: 1 (0-0-1)
Course Description: Introductory exposure to entrepreneurship for agribusinesses through presentations by industry professionals.
Prerequisite: AREC 202, may be taken concurrently or ECON 202, may be taken concurrently.
Registration Information: Required field trips. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

AREC 240 Issues in Environmental Economics (GT-SS1) Credits: 3 (3-0-0)
Also Offered As: ECON 240.
Course Description: Discussion and economic analysis of current environmental issues with special emphasis on the impact of economic growth.
Prerequisite: None.
Registration Information: Credit not allowed for both AREC 240 and ECON 240.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Social & Behavioral Sciences 3C, Economic or Political Systems (GT-SS1).

AREC 305 Agricultural and Resource Enterprise Analysis Credits: 3 (2-2-0)
Course Description: Use of records in agricultural and resource enterprise management; analytical methods, budgets, and planning techniques for improved decision making.
Prerequisite: (CIS 120 or BUS 150 or CS 110) and (AREC 202 or ECON 202).
Registration Information: Sections may be offered: Online. Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 310 Agricultural Marketing Credits: 3 (3-0-0)
Course Description: Market structure, behavior, and performance including futures market and market games theory.
Prerequisite: AREC 202 or ECON 202.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 311 Agricultural and Resource Product Marketing Credits: 3 (3-0-0)
Course Description: Theory and practice of marketing-differentiated agricultural products and natural resource amenities with focus on strategies and market trends.
Prerequisite: AREC 202 or ECON 202.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 325 Personnel Management in Agriculture Credits: 3 (3-0-0)
Course Description: Human resource issues for agribusiness firms. Managing employees, legal issues, negotiation methods, and benefits packages. Workplace professionalism.
Prerequisite: AREC 202 or ECON 202.
Restriction: .
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 328 Small Agribusiness Management Credits: 3 (3-0-0)
Course Description: Apply business principles to small food enterprises, agribusinesses and cooperatives.
Prerequisite: AREC 202 or ECON 202.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 335 Introduction to Econometrics Credits: 3 (3-0-0)
Also Offered As: ECON 335.
Course Description: Estimating statistical regression models of economic relationships; treatment of special problems that may arise in analysis of economic data.
Prerequisite: (ECON 204) and (STAT 201 or STAT 204 or STAT 301 or STAT 307 or STAT 311 or STAT 315) and (MATH 141 or MATH 155 or MATH 160).
Registration Information: Credit not allowed for both ECON 335 and AREC 335. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
AREC 340  Introduction-Economics of Natural Resources  Credits: 3 (3-0-0)
Also Offered As: ECON 340.
Course Description: Concepts, theories, institutions; analytical methods for economic evaluation of alternative resource use patterns and land use plans.
Prerequisite: AREC 202 or ECON 202.
Registration Information: Sections may be offered: Online. Credit not allowed for both AREC 340 and ECON 340.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 341  Environmental Economics  Credits: 3 (3-0-0)
Course Description: Economic theories and analytic frameworks are developed and applied to contemporary problems of the use and protection of the natural environment.
Prerequisite: AREC 202 or ECON 202.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 342  Water Law, Policy, and Institutions  Credits: 3 (3-0-0)
Course Description: Legal water issues within the context of historical, social and economic development with emphasis on the southwestern United States.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 346  Economics of Outdoor Recreation  Credits: 3 (3-0-0)
Also Offered As: ECON 346.
Course Description: Benefit cost framework in public planning for outdoor recreation, pricing problems, projecting demand, and regional economic development.
Prerequisite: AREC 202 or ECON 202.
Registration Information: Credit not allowed for both AREC 346 and ECON 346.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 375  Agricultural Law  Credits: 3 (3-0-0)
Course Description: Laws, regulations, case decisions affecting ranching and farming in the Rocky Mountain area.
Prerequisite: None.
Restriction: Must be a: Junior.
Registration Information: Junior standing. Sections may be offered: Online.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 381  Introduction to Environmental Economics  Credits: 3 (3-0-0)
Course Description: Design and measurement of economic values and environmental policy; how the theory can be used to construct solutions to real-world problems.
Prerequisite: (AREC 202 or ECON 202) and (MATH 118 or MATH 124 or MATH 125 or MATH 126 or MATH 141 or MATH 155 or MATH 160).
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 405  Agricultural Production Management  Credits: 3 (2-2-0)
Course Description: Economic principles of agricultural production decisions with linear programming analysis of production choices and farm planning.
Prerequisite: AREC 305.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 408  Agricultural Finance  Credits: 3 (3-0-0)
Course Description: Monetary affairs of agribusiness and agricultural production emphasizing credit institutions and procurement, investment, and management.
Prerequisite: AREC 305.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 412  Agricultural Commodities Marketing  Credits: 3 (3-0-0)
Course Description: Agricultural marketing and agribusiness principles applied to current marketing problems relating to livestock and field and horticultural crops.
Prerequisite: AREC 310.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

AREC 415  International Agricultural Trade  Credits: 3 (3-0-0)
Course Description: Agricultural trade patterns and institutions; trade theory with applications to agriculture. Current issues in agricultural trade.
Prerequisite: AREC 310 and ECON 204.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 428  Agricultural Business Management  Credits: 3 (3-0-0)
Course Description: Economic analysis, organization, and management practices of agriculture and food industries studied through simulation, case study, computer labs.
Prerequisite: (AREC 305) and (AREC 310 or AREC 311).
Registration Information: Senior standing. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 440  Advanced Environmental and Resource Economics  Credits: 3 (3-0-0)
Course Description: Microeconomic techniques to rigorously explore economic decision-making and policy as they apply to environmental and natural resource problems.
Prerequisite: (AREC 340 or ECON 340) and (AREC 341 and ECON 306).
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
AREC 442  Water Resource Economics  Credits: 3 (3-0-0)
Course Description: An in-depth exploration of the role of economics in water resource planning.
Prerequisite: AREC 342 and ECON 306, may be taken concurrently.
Registration Information: Credit not allowed for both AREC 442 and AREC 542.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 444  Economics of Energy Resources  Credits: 3 (3-0-0)
Also Offered As: ECON 444.
Course Description: Supply, consumption trends, and projected demand for alternative energy resources in domestic and world perspective; economics of public energy policies.
Prerequisite: ECON 306.
Registration Information: Junior standing. Written consent of instructor. Credit allowed for only one of the following: AREC 444, ECON 344, or ECON 444.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 454  Real Estate Appraisal  Credits: 3 (3-0-0)
Also Offered As: REL 454.
Course Description: Theoretical principles that underlie real estate appraisal methods. Procedures and practices used in real estate appraisal.
Prerequisite: (AREC 202 or ECON 202) and (AREC 305 or REL 360).
Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: AREC 453, AREC 454, REL 453, or REL 454.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 460  Ag- and Resource-Based Economic Development  Credits: 3 (3-0-0)
Course Description: Indicators, tools and approaches for agriculture- and natural resource-based economic development in resource dependent countries and communities.
Prerequisite: ECON 306.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 478  Agricultural Policy  Credits: 3 (3-0-0)
Course Description: Formulation and administration of public policies affecting agricultural industries and rural areas in the United States.
Prerequisite: AREC 202 or ECON 202 or AREC 240 or ECON 240.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 482A  Study Abroad-Environmental Economics in Italy: Managing a Sustainable Global Environment  Credits: 3 (0-0-3)
Course Description: The economics of managing environmental assets in a sustainable manner. Presents a theoretical basis for different resource management systems including various methods of cost–benefit analysis, utility theory, property right structures, government institutions, and cultural and ethical aspects. Considers specific policies aimed at sustaining the environment and their impacts on specific natural resource and agricultural products.
Prerequisite: None.
Registration Information: Sophomore standing. This is a partial semester course.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

AREC 482B  Study Abroad-Italian Culture: Economics of Food and the Environment  Credits: 3 (0-0-3)
Course Description: The historical and current economics of agriculture and natural resources in Florence, Tuscany and Italy. Focus on (1) Italian culture in general; (2) the economic and political history of Florence in particular; and (3) the production and regional economic importance of agricultural products of and natural resources used in central Italy.
Prerequisite: None.
Registration Information: Sophomore standing. This is a partial semester course. Required field trips.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

AREC 484  Supervised College Teaching  Credits: Var[1-5] (0-0-0)
Course Description:
Prerequisite: None.
Registration Information: Maximum of 10 credits allowed in course. A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

AREC 487  Internship  Credits: Var[1-6] (0-0-0)
Course Description:
Prerequisite: None.
Registration Information: May be taken for a maximum of 6 credits. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AREC 495  Independent Study  Credits: Var[1-6] (0-0-0)
Course Description:
Prerequisite: None.
Registration Information: May be taken for a maximum of 6 credits. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AREC 496  Group Study  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
AREC 505  Agricultural Production Economics  Credits: 3 (3-0-0)
Course Description: Empirical applications of production economic theory for use of inputs and allocation of resources in agricultural, natural resource sectors.
Prerequisite: (MATH 141) and (AREC 405 or ECON 306).
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 506  Applied Microeconomic Theory  Credits: 3 (3-0-0)
Also Offered As: ECON 506.
Course Description: Introduction to mathematical models in modern microeconomics, including choices and demand, production and supply, and market structures and failures.
Prerequisite: ECON 306.
Registration Information: Credit not allowed for both AREC 506 and ECON 506.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 507  Applied Welfare and Policy Analysis  Credits: 3 (3-0-0)
Course Description: How policies are crafted to effectively address social issues, especially for agriculture and the environment, and how they impact society.
Prerequisite: ECON 306.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 508  Financial Management in Agriculture  Credits: 2 (2-0-0)
Course Description: Systematic approach to understanding and applying financial management in farm businesses.
Prerequisite: (AREC 408 or FIN 305) and (ECON 306).
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

AREC 510  Agricultural Product Marketing  Credits: 3 (3-0-0)
Course Description: Marketing techniques, industrial organization/competition for agricultural products in US domestic, international trade, and developing country markets.
Prerequisite: (AREC 310) and (AREC 335 or ECON 335).
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 520  Intellectual Property in Food and Agriculture  Credits: 2 (2-0-0)
Course Description: Explores the critical role that intellectual property plays in commercial activities within the knowledge economy. Emphasis on strategic management of technology through patents and other control mechanisms, thereby allowing startups to survive and thrive in the knowledge economy with special attention to property developed in the agricultural and food systems.
Prerequisite: AREC 518 and BUS 660.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Sections may be offered: Online.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 528  Applied Agribusiness Decision Tools  Credits: 2 (2-0-0)
Course Description: Applications of quantitative tools for managerial decision-making in the context of an agribusiness.
Prerequisite: (AREC 305 or AREC 408 or FIN 305) and (ECON 306).
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

AREC 530  Agricultural Price Analysis  Credits: 3 (3-0-0)
Course Description: Agricultural commodity prices related to neoclassical economics; current literature emphasizing management problems.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 535  Applied Econometrics  Credits: 3 (3-0-0)
Also Offered As: ECON 535.
Course Description: Econometric techniques applied to testing and quantification of theoretical economic relationships drawn from both microeconomics, macroeconomics.
Prerequisite: (AREC 335 or ECON 335) and (ECON 304 or ECON 306).
Registration Information: Credit not allowed for both AREC 535 and ECON 535.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 540  Environmental and Natural Resource Economics  Credits: 3 (3-0-0)
Also Offered As: ECON 540.
Course Description: Theory, methods, and policy in environmental and natural resource economics.
Prerequisite: AREC 506 or ECON 506.
Registration Information: Credit not allowed for both AREC 540 and ECON 540.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 541  Environmental Economics  Credits: 3 (3-0-0)
Also Offered As: ECON 541.
Course Description: Economics of environmental policy; partial equilibrium and general equilibrium model; pollution; natural environments; population and economic growth.
Prerequisite: ECON 306.
Registration Information: Credit not allowed for both AREC 541 and ECON 541.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 542  Applied Advanced Water Resource Economics  Credits: 3 (3-0-0)
Course Description: Theory and application of economics in water resource planning.
Prerequisite: (ECON 306 and AREC 342 and STAT 301) and (MATH 141 or MATH 155 or MATH 160).
Registration Information: Credit not allowed for both AREC 542 and AREC 442.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
AREC 547 Public Lands Planning and Management Credits: 3 (3-0-0)
Course Description: Principles and techniques used by federal land management agencies including Forest Service, Park Service, Fish and Wildlife Service, and BLM.
Prerequisite: AREC 202 or ECON 202.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

AREC 560 Microeconomic Analysis I Credits: 3 (3-0-0)
Also Offered As: ECON 606.
Course Description: Advanced price/allocation theory: consumer/producer decisions; uncertainty; market structure; partial/general equilibrium; efficiency/welfare.
Prerequisite: ECON 306 and ECON 501.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AREC 606 and ECON 606.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 563 Regional Economics-Theory, Methods, and Issues Credits: 3 (3-0-0)
Also Offered As: ECON 563.
Course Description: Tools and methods of regional economics, including supply, demand, and externality analysis. Applications to current urban and regional policy issues.
Prerequisite: ECON 306 and ECON 501, may be taken concurrently.
Registration Information: Credit not allowed for both AREC 563 and ECON 563.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 566 Contemporary Issues in Developing Countries Credits: 3 (3-0-0)
Also Offered As: SOC 566.
Course Description: Social, economic, and technological factors in developing countries.
Prerequisite: None.
Registration Information: Two or more courses in AREC or ECON or SOC. Credit not allowed for both AREC 566 and SOC 566.
Term Offered: Spring (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 570 Methodology of Economic Research Credits: 3 (3-0-0)
Also Offered As: ECON 530.
Course Description: Philosophical foundations of science and research. Concepts and skills for planning, performing, reporting, and evaluating economic research.
Prerequisite: ECON 304 and ECON 306.
Registration Information: Credit not allowed for both AREC 570 and ECON 530.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

AREC 572 Social Benefit Cost Analysis Credits: 3 (3-0-0)
Course Description: Theory, application of concepts relating to social benefit cost analysis of public projects, policies intended to promote social welfare, economic growth.
Prerequisite: ECON 306.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 574 Urban Economics Credits: 3 (3-0-0)
Course Description: Theory and practice of economic application techniques used in economic applications with emphasis on linear and nonlinear programming.
Prerequisite: AREC 506.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 577 Economic Research Working Seminar Credits: 3 (3-0-0)
Prerequisite: (AREC 506 or ECON 506) and (AREC 535 or ECON 535).
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AREC 677 and ECON 677.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 605 Agricultural Production and Cost Analysis Credits: 2 (2-0-0)
Course Description: Empirical application and analysis of production and cost issues in the agricultural and natural resource sectors.
Prerequisite: (AREC 506) and (AREC 535 or ECON 535).
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
AREC 660  Development of Rural Resource-Based Economies  Credits: 3 (3-0-0)
Course Description: Economic literature-based exploration of human welfare measures and implications of approaches to agriculture and resource-based economic development.
Prerequisite: AREC 506.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 678  Agricultural and Resource Policy  Credits: 3 (3-0-0)
Course Description: Evaluate and analyze economic theory, applications and public incentives related to government policies for agriculture and natural resources.
Prerequisite: ECON 306 and MATH 141.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 695  Independent Study  Credits: Var[1-6] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AREC 699  Thesis  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AREC 705  Advanced Production and Technological Change  Credits: 2 (2-0-0)
Course Description: Production theory is applied to real-world issues including risk, innovation, and environment, through lectures and readings of current literature.
Prerequisite: (AREC 605) and (AREC 706, may be taken concurrently) and (AREC 735 or ECON 735).
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

AREC 706  Microeconomic Analysis II  Credits: 3 (3-0-0)
Also Offered As: ECON 706.
Course Description: Advanced topics in microtheory: game theory; market imperfections; adverse selection; principal-agent problems; social choice theory; incentives, etc.
Prerequisite: ECON 606.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AREC 706 and ECON 706.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 710  Advanced Agricultural Marketing Issues  Credits: 2 (2-0-0)
Course Description: Theoretical and modeling issues of consumer demand, market structure, product differentiation and market behavior.
Prerequisite: (AREC 610) and (AREC 706, may be taken concurrently or ECON 706, may be taken concurrently) and (AREC 735 or ECON 735).
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

AREC 735  Econometric Theory II  Credits: 2 (2-0-0)
Also Offered As: ECON 735.
Course Description: Econometrics models and estimators in econometrics, from fully parametric to semiparametric and nonparametric approaches.
Prerequisite: AREC 635 or ECON 635.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AREC 735 and ECON 735. This is a partial-semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 736A  Advanced Econometric Methods: Discrete Choice Models  Credit: 1 (1-0-0)
Also Offered As: ECON 736A.
Course Description: Econometrics analysis of: Discrete Choice Models.
Prerequisite: AREC 735, may be taken concurrently or ECON 735, may be taken concurrently.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AREC 736A-C and ECON 736A-C. This is a partial-semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 736B  Advanced Econometric Methods: Panel Data Models  Credit: 1 (1-0-0)
Also Offered As: ECON 736B.
Course Description: Econometrics analysis of: Panel Data Models.
Prerequisite: AREC 735, may be taken concurrently or ECON 735, may be taken concurrently.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AREC 736A-C and ECON 736A-C. This is a partial-semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 736C  Advanced Econometric Methods: Time Series Models  Credit: 1 (1-0-0)
Also Offered As: ECON 736C.
Course Description: Econometrics analysis of: Time Series Models.
Prerequisite: AREC 735, may be taken concurrently or ECON 735, may be taken concurrently.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AREC 736A-C and ECON 736A-C. This is a partial-semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
AREC 740  Advanced Natural Resource Economics  Credits: 3 (3-0-0)
Also Offered As: ECON 740.
Course Description: Advanced theory, methods, and literature in natural resource economics, including dynamic programming and optimal control.
Prerequisite: AREC 706 or ECON 706.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AREC 740 and ECON 740.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 741  Advanced Environmental Economics  Credits: 3 (3-0-0)
Also Offered As: ECON 741.
Course Description: Advanced theory, methods, and literature in environmental economics.
Prerequisite: AREC 706 or ECON 706.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 770  Advanced Methods in Applied Economics  Credits: 3 (3-0-0)
Course Description: Advanced research methods in applied economics: lab and field experiments, non-market valuation and discrete choice experiments.
Prerequisite: (AREC 706, may be taken concurrently or ECON 706, may be taken concurrently) and (AREC 735 or ECON 735).
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

AREC 784  Supervised College Teaching  Credits: Var[1-3] (0-0-0)
Course Description: Understanding different agricultural education systems. Understanding delivery models of agricultural education programs.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: Yes.

AREC 792A  Seminar: Agricultural  Credits: Var[1-18] (0-0-0)
Course Description: Development of safe competencies and applications related to power and technical tools utilized in school-based agricultural education programs.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AREC 792B  Seminar: International  Credits: Var[1-18] (0-0-0)
Course Description: Broad survey of the diverse aspects of Colorado agriculture.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: Yes.

AGED 110  Agriculture Production Systems  Credits: 3 (2-3-0)
Course Description: Relationships in agriculture. Historical/Native American/early practices, industrial agriculture, technologies, philosophy, green revolution.
Prerequisite: CO 150.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 220  Understanding Agricultural Education  Credit: 1 (1-0-0)
Course Description: Understanding different agricultural education systems. Understanding delivery models of agricultural education programs.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

AGED 240  Technical Tool Applications in Ag Education  Credits: 2 (1-3-0)
Course Description: Development of safe competencies and applications related to power and technical tools utilized in school-based agricultural education programs.
Prerequisite: None.
Registration Information: Must register for lecture and lab.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.
AGED 244  Power, Structure, and Tech. Systems in Ag Ed  Credits: 3 (2-3-0)
Course Description: Development of competencies and theory related to agricultural power, structure, and technical systems utilized in school-based agricultural education programs.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

AGED 320  Technology Lab for Ag Education  Credit: 1 (0-3-0)
Course Description: Laboratory applications related to the power, structure, and technical systems pathway utilized in school-based agricultural education programs.
Prerequisite: AGED 240, may be taken concurrently or AGED 244, may be taken concurrently.
Registration Information: May be taken twice for credit.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

AGED 330  Program Design and Evaluation in Ag. Literacy  Credits: 3 (3-0-0)
Course Description: Design and evaluate programs in agricultural literacy using experiential methods.
Prerequisite: AGED 220.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

AGED 420  Developing School-Based Ag Education Programs  Credits: 3 (3-0-0)
Course Description: Developing knowledge in the approach and delivery of school-based agricultural education programs.
Prerequisite: AGED 220.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

AGED 430  Methods of Agricultural Literacy  Credits: 3 (3-0-0)
Course Description: Prepare and conduct agricultural literacy instructional units to work with a variety of audiences and instructional topics.
Prerequisite: AGED 330.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

AGED 440  Managing Experiences in Ag Education Laboratories  Credit: 1 (0-3-0)
Course Description: Theory, management and pedagogy of delivering safety instruction and experiential curriculum in secondary agricultural education laboratory settings.
Prerequisite: AGED 420.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

AGED 486A  Practicum: Agricultural Literacy  Credits: Var[1-3] (0-0-0)
Course Description: Experience in the agricultural literacy field.
Prerequisite: (AGED 220) and (AGED 330 or AGED 430).
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 486B  Practicum: On-site Experience in Agricultural Outreach  Credits: Var[1-2] (0-0-0)
Course Description: Formalized training on conducting non-formal agricultural education at the National Western Stock Show.
Prerequisite: None.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 486C  Practicum: FFA  Credits: Var[1-2] (0-0-0)
Course Description: Formalized training on managing FFA experiences, including Career Development Events and Leadership Development Events.
Prerequisite: None.
Term Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 495  Independent Study  Credits: Var[1-6] (0-0-0)
Course Description:
Prerequisite: None.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AGED 496  Group Study  Credits: Var[1-12] (0-0-0)
Course Description:
Prerequisite: None.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AGED 510  American Agricultural Values and Ideology  Credits: 3 (3-0-0)
Course Description: Explore how people have conceptualized agriculture in the United States, how agricultural ideologies have shaped our agricultural values, and how differing agricultural ideologies impact the work in agriculture today and in the future.
Prerequisite: None.
Registration Information: Senior standing. Written consent of instructor. Sections may be offered: Online.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

AGED 525  Agricultural and Extension Teaching  Credits: 3 (3-0-0)
Course Description: Use research on effective teaching methods to define and deliver educational programs, courses and presentations in formal and non-formal educational settings in agriculture. Apply organization and instructional methods to evaluate, plan, deliver and assess effective educational programs.
Prerequisite: None.
Registration Information: Graduate standing. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
AGED 540  Ag Ed Laboratory Management and Safety  Credits: 2 (2-0-0)
Course Description: Theory, management, and pedagogy of delivering safety instruction and experiential curriculum in secondary agricultural education laboratory settings.
Prerequisite: EDCT 420.
Restriction: .
Terms Offered: Fall, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 587 Internship in Extension  Credits: Var[1-2] (0-0-0)
Course Description: First-hand experiences in extension programming.
Prerequisite: AGRI 547.
Registration Information: Graduate standing. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 600 Evaluation and Applied Research in Extension  Credits: 3 (3-0-0)
Course Description: Train extension and other outreach specialists in the basics of program evaluation and research methods. Work with real world scenarios and/or their own field experiences to learn how to strategically design evaluation plans and effectively analyze the data collected. Emphasizing how to improve programming with the collected data.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online. Credit not allowed for both AGED 600 and EDRM 600.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

AGED 692 Agricultural Education Seminar  Credit: 1 (0-0-1)
Course Description: Agricultural education focusing on current trends in Extension.
Prerequisite: AGED 587, may be taken concurrently.
Restriction: Must be a: Graduate, Professional.
Registration Information: Enrolled in the Master of Agriculture Extension Education or the Graduate Certificate of Teaching in Extension. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 698 Agricultural Education Research  Credits: Var[1-6] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the Master of Agriculture in Agricultural Sciences, Teacher Development Specialization. Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

Major in Agricultural Business

The Agricultural Business major teaches students the operating techniques and business skills used in the modern food and fiber industry. This program builds student knowledge and skills needed to manage small- and medium-sized businesses in agriculture and allied industries. This is true whether the business is directly involved in production, value-adds to raw agricultural products, or provides support services including the distribution, processing, packaging, and marketing of agricultural products.

Two things tend to distinguish the major in Agricultural Business from a typical business degree: first, our focus tends to be on small- and medium-sized businesses where the decision maker must be more attuned to all dimensions of their operating environment, whereas more traditional business degrees often focus on a larger business organization where functions are more specialized. Second, the major emphasizes the importance of understanding the underlying technical processes that drive business decisions through formal course requirements in the agricultural sciences. The interface between technical training in agricultural sciences, economics, and management sets this degree apart.

Completing this program enhances students’ professional development, technical competence, problem-solving skills, and communication skills. The program operates in the nexus of business management, public policy, and agriculture. Strong interdisciplinary coordination in the department allows majors in agricultural business to strengthen their technical training by simultaneously completing a second major in allied fields including animal science, equine science, soil and crop science, agricultural education, technical journalism, and other fields of interest.

Learning Outcomes
Successful students will demonstrate:

- Technical competency including appropriate use of economic theory in formulating analytical problems, identifying and gathering appropriate data, and employing appropriate economic methods to analyze those problems, utilizing appropriate available computer technology
- Ability to solve real-world problems beyond the pedagogical context. Students will be able to identify a problem and its scope, evaluate resources to address the problem, formulate alternative solutions, and select the solution(s) most consistent with a stated objective
- Proficiency in oral and written communication including the ability to communicate critically and analytically at a professional level

Potential Occupations
Although students from farms and ranches choose this major each year, business-oriented students with a wide variety of backgrounds have launched successful careers with this versatile degree. Graduates establish careers in management, marketing, sales, and finance to name a few areas. Participating in internships and experiential opportunities is strongly encouraged to enhance practical training and development. Graduates who seek further specialization are prepared to pursue advanced studies.

Examples of career paths of recent graduates include, but are not limited to: commodity broker, agricultural statistician, loan officer, farm manager, supply chain analyst, farm machinery sales representative, grain merchantiser, operations manager, landscape contractor, human resources specialist, ranch manager, credit analyst, crop insurance agent, precision ag technologist, feedlot manager, agricultural chemical sales representative, real estate appraiser, and elevator manager.

### Major in Agricultural Business, Agricultural Economics Concentration

The Agricultural Economics concentration focuses on the theoretical and analytic tools of applied economics and provides students with the skills necessary to apply these principles in applied settings such as water, recreation, environmental economics, in industry and business, marketing, production, or government. This program is more quantitative in nature and best prepares students interested in graduate study.

---

1 Students planning to take SOCR 240 should take CHEM 107 and CHEM 108 and reduce the number of free electives in the program.
Select three courses to meet the AUCC core requirements in Arts and Humanities (3B), Historical Perspectives (3D), and Global and Cultural Awareness (3E).

Select a total of 12 credits from courses in AGED, AGRI, ANEQ, AREC, BSPM, FSHN, FTEC, HORT, LAND, NR, RS, SOCR, or WR. A maximum of six AREC credits may be used as Agricultural Sciences electives.

Select credits from AREC and/or ECON courses.

Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major in Agricultural Business, Farm and Ranch Management Concentration

The Farm and Ranch Management concentration builds skills in applied decision making required in production agriculture. The program of study allows students to apply a solid understanding of economics and the underlying physical and biological sciences that drive agricultural technology to problems facing modern farmers and ranchers.

**Requirements**

**Effective Fall 2015**

Agricultural Sciences Electives
Elective

The benchmark courses for the 8th semester are the remaining courses in the entire program of study.

Total Credits

Total Credits

Program Total Credits: 120

Major in Agricultural Education

Agricultural Education is defined as a systematic program of instruction for students desiring to learn and teach/educate the science, business, and technology of agriculture, food and environmental/natural resource systems. Agricultural Education prepares students for successful careers and a lifetime of informed choices regarding agriculture. Agricultural Education is a major in the Department of Agricultural and Resource Economics, but works significantly with the School of Education – Center for Educator Preparation. CSU focuses on two delivery concentrations in Agricultural Education: Teacher Development for school-based agricultural education, and Agricultural Literacy. The department also offers a minor in Agricultural Literacy.

Learning Outcomes

The successful student will demonstrate:

• Competent knowledge of agricultural subject matter
• Ability to create instruction opportunities that are adapted to diverse learners in agricultural education
• Employment of innovative instructional methodologies and assessment techniques to promote learning in agriculture
• Effective program management and program evaluation techniques

Potential Occupations

Graduates in Agricultural Education are in demand to fill a continuous shortage of agricultural teachers in Colorado and nationwide. Two-thirds of the CSU graduates have become teachers or administrators in public schools. Other graduates take agribusiness positions with seed, fertilizer, feed, machinery, or finance firms. Students are also prepared to teach in community or junior colleges, area career and technical schools, and technical institutes. Participation in internships is required to enhance practical training and development.

Advanced studies after graduation include graduate studies in agricultural education, extension education and administration, or more in-depth studies in other areas of agriculture, food and natural resources. Upon completion of these advanced degrees, additional opportunities exist for program completers including: advanced high school agriculture teachers, post-secondary agriculture teacher, agribusiness or agriservice representative, cooperative extension agent, education specialist, 4-H association youth specialist, youth development specialist, science teacher.

A Bachelor of Science degree in Agricultural Education with an Agricultural Literacy concentration will enable students to guide, direct, plan, deliver and assess agriculture programs for non-formal or informal programs such as museums, business or industry programs, county or state fair displays or integrated after-school programs. A Bachelor of Science in Agricultural Education with a Teacher Development concentration leads to teacher licensure by the state of Colorado. Teachers combine classroom, laboratory, and hands-on experiences to teach high school students about the myriad agricultural topics. The curriculum requires students to demonstrate a competent knowledge of educational theory and a broad-based understanding in agricultural content.

Concentrations

• Teacher Development Concentration
• Agricultural Literacy Concentration

Major in Agricultural Education, Agricultural Literacy Concentration

An integral part of a complete agricultural education system is agricultural literacy. Agricultural literacy is the synthesis, instruction, and communication of basic information about agriculture to the public. Potential occupations may include assisting educators, producers, industry groups, and others to effectively incorporate information about agriculture into subjects being taught or examined in public and private forums. Agricultural literacy is education about agriculture. The agricultural literacy programming and training in this degree area will focus on a wide-range of ages (from early childhood to adult), audiences (rural, urban, ethnically diverse, etc.) and a variety of agriculture topics. Coursework includes technical agriculture and natural resources content knowledge, communications, philosophy, and human development. Students are required to complete an internship in agricultural literacy. Students graduating with a degree in Agricultural Education with a concentration in Agricultural Literacy would have to complete additional educational coursework in order to teach in public schools in Colorado.
Potential Occupations

Potential occupations for graduates of this concentration include working for industry, trade, or community organizations that promote and advocate for an agriculturally literate society.

Major in Agricultural Education, Teacher Development Concentration

Teacher development in school-based agricultural education is delivered in a three-part model: classroom, experiential learning, and leadership development. Teacher development in school-based agriculture education is education in agriculture. In Colorado, agricultural education is delivered through approximately 100 secondary programs located throughout the state. Over 5,600 young people are enrolled in agricultural education programs in Colorado. Students in the Teacher Development concentration take classes in agriculture and in the Center for Educator Preparation (http://www.cep.chhs.colostate.edu) (CEP). A Bachelor of Science degree in Agricultural Education with a concentration in Teacher Development leads to teacher licensure by the state of Colorado. The curriculum requires students to demonstrate a competent knowledge of educational theory and a broad-based understanding in agricultural content. Students combine practical experience and technical course work including animal science, plant science, agricultural mechanics, natural resources, food products and processing, and agriculture business. Students must have a 2.75 GPA, pass the PLACE assessment for Agriculture and Renewable Natural Resources licensure and complete a student teaching semester internship.

Potential occupations

Graduates in the Teacher Development concentration are in demand to fill a shortage in agricultural education teachers. Two-thirds of program graduates take teaching and administrative positions in public schools. Other graduates fill positions in agribusiness, feed, seed, fertilizer, machinery and finance companies, and human resource positions in agribusiness companies. Additionally, graduates often pursue advanced degrees in teaching agriculture and work at community colleges, in extension, or as curriculum specialists in organizations.

**Major in Environmental and Natural Resource Economics**

The Major in Environmental and Natural Resource Economics prepares students to apply economic tools to evaluate the allocation and utilization of natural resources and the management of the natural environment. Economic analysis provides a strong basis to guide societal choices that directly and indirectly affect our environment. Economic theory provides a framework for understanding both environmental and natural resource issues, predicting the likely effects of government policies and regulations, and devising solutions to pressing economic and environmental problems.

This major differentiates from other programs of study that address natural resource management in that it focuses on weighing the private and public implications of choices that we make ranging from a local through a global scale. To broaden their technical training, students majoring in Environmental and Natural Resource Economics can simultaneously complete a second major in Natural Resource Management, or other more specialized majors offered through the Warner College of N (https://warnercnr.colostate.edu)atural Resources.

**Learning Outcomes**

Successful students will demonstrate:

- Technical competency including appropriate use of economic theory in formulating analytical problems, identifying and gathering appropriate data, and employing appropriate economic methods to analyze those problems, utilizing appropriate available computer technology.
- Ability to solve real-world problems beyond the pedagogical context. Students will be able to identify a problem and its scope, evaluate resources available to address the problem, formulate alternative solutions, and select the solution(s) most consistent with a stated objective.
- Proficiency in oral and written communication including the ability to communicate critically and analytically at a professional level.

**Potential Occupations**

Environmental and resource economists are employed in a wide range of fields from education and research to business and government. Profit and non-profit organizations employ economists in international and community development, international relations, and environmental and conservation analyses. Some examples include, but are not limited to, energy resource analyst, environmental researcher/analyst, resource policy analyst, natural resource analyst, environmental pollution analyst, environmental policy analyst, economic analyst/forecaster, land use planner, international development specialist, rural community organizer, community development specialist, financial analyst, foreign trade analyst, market forecaster, and extension agent. Participation in internships, volunteer activities, and cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who seek further specialization are prepared to pursue advanced studies.

Minor in Agricultural Literacy

This minor offers students an integrated set of courses in agricultural education including an agricultural literacy internship. Students pursuing this minor should be passionate about content in animal sciences, plant sciences, food products and processing, agricultural mechanics or natural resources, and desire to teach others these disciplines. These experiences help round-out a student’s education for those who are interested in working in a broad range of fields where a background in agricultural literacy would be beneficial, i.e. leading educational experiences in their major content.

Requirements
Effective Fall 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Food Industry Management Interdisciplinary Minor

This minor provides a platform for students to integrate business principles with applied food management courses. Areas of study in the minor include food products marketing, food supply chain and cost management, food safety management, food law and policy.

Requirements
Effective Fall 2017

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

**Minor in Environmental and Natural Resource Economics**

The Minor in Environmental and Natural Resource Economics is open to all students who desire to complete an integrated set of courses where they learn how to apply economics to a broad range of natural resources and environmental issues. Interested in how economists view climate change, parks and protected areas, renewable energy, deforestation, carbon accounting, corporate social (and environmental) responsibility and/or biodiversity and ecosystem services? Students have the opportunity to develop skills to evaluate private and societal choices that are made regarding human interactions with the natural world. Economic theory and analytical methods are central to most public policy discussions and investment projects. Students who build these skills will be positioned to guide social dialogue and private investment around some of the most important issues of the modern era.

The minor is highly complementary to the major fields of study that focus on the management of natural resources (e.g., most majors within the Warner College of Natural Resources) and those that focus on public policy and social choice. Applicable courses that contribute to the minor include core courses in environmental and natural resource economics as well as courses applied to specialty topics in water, outdoor recreation and tourism, energy, development, and agriculture.

**Requirements**

**Effective Fall 2017**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

**Minor in Agricultural Business**

This minor recognizes students who complete an integrated set of courses in agricultural business, which is a valuable supplement to many degrees. Areas of study in the minor include agricultural production management, financial management, marketing management, international development and trade.

**Requirements**

**Effective Fall 2017**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Graduate Certificate in Teaching in Extension

This Graduate Certificate in Teaching in Extension will provide training to non-extension personnel on the purposes, history, structure, function, and development of extension education programs. Students pursuing this certificate will get fundamental training on how to deliver effective instruction in a variety of settings across multiple age groups. The coursework for this certificate includes principles of extension, delivery of extension, and advanced teaching methods for extension, plus an elective course. This certificate could be applied in a variety of different graduate programs that will provide breadth and expertise in the latest programmatic offerings and opportunities in extension. This program can be completed online or face-to-face on campus.

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Science in Agricultural and Resource Economics, Plan A

The Master of Science in Agricultural and Resource Economics, Plan A, offered by the Department of Agricultural and Resource Economics, is a program of study consisting of 30 credit hours, including the preparation and defense of an original M.S. research thesis (up to 6 credits of research work). Completion of this degree implies a mastery of fundamental microeconomic theory and econometrics, with an ability to conduct applied economic research under supervision. Graduates are competitive for employment in the public and private sectors as analysts, consultants, researchers, and other occupations involving analytical skills. Our students have gone on to rewarding careers in federal agencies, NGOs, and the private sector. The program provides a solid foundation in microeconomics and quantitative methods, coupled with direct experience in applied economic research. This course of study represents an excellent basis for those inclined to pursue doctoral degrees, and many of our students have entered our own Ph.D. program or other top-level institutions across the country.

Master of Science in Agricultural and Resource Economics, Plan B

The Master of Science in Agricultural and Resource Economics, Plan B, offered by the Department of Agricultural and Resource Economics, is a program of study consisting of 30 credit hours in coursework, plus the preparation of a technical paper. Completion of this degree implies a mastery of fundamental microeconomic theory and econometrics, with an ability to conduct applied economic research under supervision. Graduates are competitive for employment in the public and private sectors as analysts, consultants, researchers, and other occupations involving analytical skills. Our students have gone on to rewarding careers in federal agencies such as the National Park Service, U.S. Department of Agriculture, State Departments of Agriculture, NGOs, and the private sector. The program provides a solid foundation for the students wishing to pursue higher level graduate studies (Ph.D.), but it is particularly well suited for students seeking to directly enter the workforce, or international students planning to return to their own country after obtaining the degree.

1. Select courses with approval of advisor.
2. Students in Plan B must write a technical paper.

Ph.D. in Agricultural and Resource Economics

The Ph.D. offered by the Department of Agricultural and Resource Economics consists of 72 credits plus a substantial work of original research in the form of a dissertation. Completion of the Ph.D. in Agricultural and Resource Economics generally signifies a mastery of advanced microeconomic theory and quantitative methods, with a particular expertise in either agricultural economics or natural resource and environmental economics. Ph.D. graduates are experts in applied economics and are trained to develop and execute innovative research programs, teach undergraduate and graduate level economics courses, and present theoretical and applied economic concepts and results to a wide variety of audiences. Graduates of this program have gone on to succeed in a variety of positions at universities, in the public institution sector (e.g. USDA, ERS), and private enterprises including consulting firms.

A minimum of 72 credits are required to complete this program.

1. Select courses with approval of advisor and committee.
2. Students must pass the written Ph.D. Qualifying Examinations in Quantitative Methods and in Microeconomics, the field Examination, the preliminary Oral Examination, and the final Oral Examination.
3. Student may apply an earned Master’s degree for up to 30 credits toward the PhD requirements conditioned on satisfying course requirements for the Agricultural and Resource Economics Master of Science Program.
Department of Animal Sciences

Undergraduate

Majors

- Major in Animal Science
- Major in Equine Science

Certificates

- Certificate in Animal Nutrition
- Certificate in Beef Feedlot Management
- Certificate in Beef Production Systems
- Certificate in Meat Science

Pre-professional Veterinary Medicine Requirements

Pre-veterinary medical students with specific interest in animal science or equine science may follow either the Animal Science or Equine Science major. Maximum flexibility in career direction may be obtained by meeting the requirements for a degree in animal or equine science while simultaneously completing the admission requirements for the professional veterinary medical program. The Food Animal Veterinary Career Incentive Program (FAVCIP) is available for Animal Science majors.

Graduate

Graduate Programs in Animal Sciences

The department offers graduate programs leading to the Master of Science and the Doctor of Philosophy degrees. Students interested in graduate work should refer to the Graduate and Professional Bulletin, and the department’s website (http://ansci.agsci.colostate.edu).

Master’s Programs

- Master of Science in Animal Sciences, Plan A

Ph.D.

- Ph.D. in Animal Sciences*

* Please see department for program of study.

Courses

Animal Sciences (ANEQ)

ANEQ 101 Food Animal Science Credits: 4 (3-3-0)
Course Description: Development, organization, trends and management of the livestock industry; emphasis on applying science to the production of food and fiber.
Prerequisite: None.
Registration Information: Required field trips.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 102 Introduction to Equine Science Credits: 4 (3-2-0)
Course Description: Equine physiology, production systems and management systems as it pertains to the equine industry and management.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 103 Introduction to Animal Science Credits: 3 (3-0-0)
Course Description: Introduction to the livestock industries with emphasis on food and fiber animals. Overviews of the industry structures, and historical and future trends. Product quality evaluation and factors influencing animal performance such as management, nutrition, genetics, and reproduction are presented.
Prerequisite: None.
Registration Information: Non-Animal Sciences majors only. Offered as an online course only.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 104 Values, Culture, and Food Animal Agriculture Credits: 3 (3-0-0)
Also Offered As: PHIL 104.
Course Description: Evolution of the social values and cultural understandings shaping modern animal agriculture; current problems in animal agriculture.
Prerequisite: None.
Registration Information: Non-Animal Science majors with a freshman or sophomore standing. Credit not allowed for both ANEQ 104 and PHIL 104.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 105 Introduction to Large Animal Anatomy Credit: 1 (0-2-0)
Course Description: Basic gross animal anatomy.
Prerequisite: None.
Registration Information: Animal Science or Equine Science majors only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.
ANEQ 115  Applied Equine Behavior  Credits: 2 (1-2-0)
Course Description: Understanding ethology, the science of animal behavior, will be a key component to evaluating horse behavior. Topics are instinctive, learned, social and reproductive behaviors as well as sensory perception and behavioral neuroanatomy important to equine health and welfare.
Prerequisite: ANEQ 102.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 200  Applied Horsemanship and Equitation  Credits: 2 (0-4-0)
Course Description: Foundation and advancement of horsemanship, on the ground and on horseback.
Prerequisite: ANEQ 115.
Registration Information: Sophomore standing. Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 201A  Preparation of Horses for Competition: Western  Credits: 2 (0-4-0)
Course Description: Development of skills to prepare and present horses in competitions aimed at enhancing their value.
Prerequisite: None.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 201B  Preparation of Horses for Competition: English  Credits: 2 (0-4-0)
Course Description: Development of skills to prepare and present horses in competitions aimed at enhancing their value.
Prerequisite: None.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 202  Safety in Horse Handling  Credit: 1 (1-0-0)
Course Description: Horse handling safety skills.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: Yes.

ANEQ 203  Equine Management  Credits: 2 (1-2-0)
Course Description: Equine management and care techniques with hands-on experience.
Prerequisite: ANEQ 102.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 204  Equine Facilities Management  Credits: 3 (2-2-0)
Course Description: Understanding of all aspects required to manage an equine facility coupled with hands-on experience.
Prerequisite: ANEQ 102.
Registration Information: Must register for lecture and laboratory.
Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 205  Livestock Practicum  Credits: 2 (0-0-0)
Course Description: Hands-on experience in livestock practices; characterization and terminology of livestock breeds; livestock handling and care; basic animal management techniques, hands-on experience.
Prerequisite: ANEQ 200.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 206  Livestock Management  Credits: 3 (1-4-0)
Course Description: Growth, development, and value-determining characteristics of market animals.
Prerequisite: ANEQ 101 or ANEQ 102.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 207  Introduction to the Trail Riding Industry  Credit: 1 (0-2-0)
Course Description: Emphasis on horse care, regulations, first aid, health, training, and hosting a trail ride.
Prerequisite: None.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 208  Live Animal and Carcass Evaluation  Credits: 3 (1-4-0)
Course Description: Growth, development, and value-determining characteristics of market animals.
Prerequisite: ANEQ 101 or ANEQ 102.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 209  Animal and Carcass Handling Techniques  Credits: 3 (1-4-0)
Course Description: Overview of animal and carcass handling techniques and the unique aspects of animal care.
Prerequisite: ANEQ 101 or ANEQ 102.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 210  Equine Industry Seminar  Credit: 1 (1-0-0)
Course Description: Overview of the equine industry and industry careers.
Prerequisite: ANEQ 102.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.
ANEQ 293  Animal Science Career Exploration Seminar  Credit: 1 (0-0-1)
Course Description: Better understanding of individual abilities, strengths and passions is imperative to be successful in a career search as well as to succeeding in life. Designed to help students explore who they are individually, how they might fit into a career or graduate programs in animal agriculture; how to prepare marketing materials to be competitive in selection processes.
Prerequisite: ANEQ 101.
Registration Information: This is a partial semester course. Sophomore standing.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 300A  Topics in Animal Sciences: Livestock Handling  Credit: 1 (1-0-0)
Course Description: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 300B  Topics in Animal Sciences: Livestock Entomology  Credit: 1 (1-0-0)
Also Offered As: BSPM 300.
Course Description: Identification, biology and management of insect, tick, and mite pests.
Prerequisite: BZ 100 to 199 between 3 and 5 credits - at least 3 credits or LIFE 100 to 199 between 3 and 5 credits - at least 3 credits.
Registration Information: Credit not allowed for both ANEQ 300B and BSPM 300.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 300E  Topics in Animal Sciences: Family Ranching  Credit: 1 (1-0-0)
Course Description: None.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 300L  Topics in Animal Sciences: Quality Assurance  Credits: 2 (2-0-0)
Course Description: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 300N  Topics in Animal Sciences: Seedstock Merchandising  Credits: 2 (2-0-0)
Course Description: Overview of beef seedstock industry, including hands-on selection, management, and marketing of cattle.
Prerequisite: None.
Restriction: Must be a: Junior, Senior, Senior - 5yr Bachelor, Senior - Post Bachelor, Senior - Second Bachelor.
Registration Information: Junior or senior standing. Course required to apply for seedstock team.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 300R  Topics in Animal Sciences: Calving and Calf Care  Credits: 2 (1-2-0)
Course Description: None.
Prerequisite: (ANEQ 310) and (ANEQ 478 or ANEQ 510).
Registration Information: Senior standing. Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 300T  Topics in Animal Sciences: Event, Fair, and Show Management  Credit: 1 (1-0-0)
Course Description: None.
Prerequisite: ANEQ 101 or ANEQ 102.
Registration Information: Credit not allowed for both ANEQ 300T and ANEQ 358.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 300U  Topics in Animal Sciences: Seedstock Sale Management  Credits: 2 (2-0-0)
Course Description: Develop, plan, and implement an effective seedstock cattle sale based on genetic information, customer service principles, and client relationships.
Prerequisite: ANEQ 300N.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 300W  Topics in Animal Sciences: Equine Manure Management  Credit: 1 (1-0-0)
Course Description: Practices which maximize the benefits of manure to soils and crops while minimizing hazards to air and water quality; complying with regulations.
Prerequisite: ANEQ 101 or ANEQ 102.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 303  Equine Digital Photography  Credits: 3 (2-2-0)
Course Description: Basics of photographic principles and DSLR cameras with a focus on equine subjects.
Prerequisite: ANEQ 102.
Registration Information: Sophomore standing. Must register for lecture and laboratory. Credit not allowed for both ANEQ 303 and ANEQ 380A4.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 305  Functional Large Animal Physiology  Credits: 3 (3-0-0)
Course Description: Concepts of large animal physiology; emphasis on growth, digestion, and reproduction.
Prerequisite: (LIFE 100 to 199 - at least 3 credits) and (CHEM 107 or CHEM 111).
Restriction: None.
Registration Information: Credit not allowed for both ANEQ 305 and ANEQ 230.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
ANEQ 310 Animal Reproduction Credits: 3 (3-0-0)
Course Description: Anatomy and physiology of the reproductive system; causes of reproductive failure in farm animals; methods of improving reproductive performance.
Prerequisite: ANEQ 230 or BMS 300 or ANEQ 305.
Registration Information: Sections may be offered: Online.  
Terms Offered: Fall, Spring, Summer.  
Grade Mode: Traditional.  
Special Course Fee: No.

ANEQ 312 Animal Ultrasonography Credits: 2 (1-2-0)
Course Description: Fundamentals and application of using ultrasound in farm animals; basic reproductive technologies; utilizing ultrasound as a management tool.
Prerequisite: (ANEQ 230 or ANEQ 305) and (ANEQ 310).
Registration Information: Must register for lecture and laboratory.  
Term Offered: Fall.  
Grade Mode: Traditional.  
Special Course Fee: Yes.

ANEQ 313 Prevention and Control of Livestock Diseases Credits: 3 (3-0-0)
Also Offered As: VS 313.
Course Description: Common ailments of livestock; sanitation and disease prevention and control.
Prerequisite: (ANEQ 230 or BMS 300 or ANEQ 305) and (ANEQ 310, may be taken concurrently and ANEQ 320, may be taken concurrently).
Registration Information: Junior or senior standing. Credit not allowed for both ANEQ 313 and VS 313.  
Term Offered: Fall.  
Grade Mode: Traditional.  
Special Course Fee: No.

ANEQ 315 Equine Behavior Credits: 2 (1-2-0)
Course Description: Equine behaviors related to training and learning.
Prerequisite: ANEQ 102.
Registration Information: Sophomore or higher standing. Must register for lecture and laboratory.  
Term Offered: Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.

ANEQ 320 Principles of Animal Nutrition Credits: 4 (3-3-0)
Course Description: Understanding of nutrients and nutrient function required to support animal life through all physiological states.
Prerequisite: (ANEQ 230 or BMS 300 or BMS 360 or ANEQ 305) and (CHEM 100 to 199 - at least 3 credits).
Registration Information: Must register for lecture and laboratory.  
Required field trips.  
Terms Offered: Fall, Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.

ANEQ 322 Pet Nutrition Credits: 2 (2-0-0)
Course Description: Nutrients, nutrient requirements, feeding practices, food sources and management for companion animals (dogs, cats, birds, fish, reptiles, etc.).
Prerequisite: ANEQ 320 or ANEQ 345 or FSHN 350.
Registration Information: Offered as a correspondence or online course only.  
Terms Offered: Fall, Spring, Summer.  
Grade Modes: S/U within Student Option, Trad within Student Option.  
Special Course Fee: Yes.

ANEQ 323 Zoo Nutrition Credits: 2 (2-0-0)
Course Description: Unique nutritional requirements of mammalian, avian, and reptile captive wild animals; management protocols needed.
Prerequisite: ANEQ 320 or ANEQ 345 or FSHN 350.
Registration Information: Offered as a correspondence or online course only.  
Terms Offered: Fall, Spring, Summer.  
Grade Mode: Traditional.  
Special Course Fee: No.

ANEQ 325 Equine Exercise Physiology Credits: 2 (2-0-0)
Course Description: Overview of the main aspects of equine exercise physiology.
Prerequisite: ANEQ 230 or BMS 300 or ANEQ 305.
Term Offered: Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.

ANEQ 328 Foundations in Animal Genetics Credits: 3 (3-0-0)
Course Description: Foundational information to understand animal genetics: genomes, molecular genetics, transmission-Mendelian inheritance, pedigree, population genetics, and introduction to quantitative genetics.
Prerequisite: (ANEQ 101 or ANEQ 102) and (LIFE 100 to 199 - at least 3 credits).
Term Offered: Spring.  
Grade Mode: Traditional.  
Special Course Fee: No.

ANEQ 330 Principles of Animal Breeding Credits: 3 (3-0-0)
Course Description: Genetic principles underlying animal improvement; elementary population genetics; heritability; selection response; mating systems; DNA markers.
Prerequisite: (BZ 350 or ANEQ 328 or SOCR 330) and (STAT 200 to 279 - at least 3 credits or STAT 300 to 379 - at least 3 credits).
Registration Information: Sections may be offered: Online.  
Terms Offered: Fall, Spring.  
Grade Mode: S/U within Student Option, Trad within Student Option.  
Special Course Fee: No.

ANEQ 334 Principles of Equine Genetics Credits: 3 (3-0-0)
Course Description: Application of genetic principles for understanding important quantitative and qualitative traits in horses. Topics include variation, mechanisms of gene action, selection and genetic improvement.
Prerequisite: ANEQ 102 with a minimum grade of C) and (ANEQ 328 with a minimum grade of C or BZ 350 with a minimum grade of C or SOCR 330 with a minimum grade of C) and (ANEQ 305 with a minimum grade of C or BMS 300 with a minimum grade of C).
Registration Information: Sophomore standing. Sections may be offered: Online.  
Terms Offered: Spring, Summer.  
Grade Mode: Traditional.  
Special Course Fee: No.

ANEQ 340 Horse Training and Sale Preparation I Credits: 3 (0-6-0)
Course Description: Practical training skills using a yearling or two year old: in-hand, restraint, ground driving, lungeing, first rides, stable management.
Prerequisite: None.
Registration Information: Written consent of instructor.  
Term Offered: Fall.  
Grade Mode: Traditional.  
Special Course Fee: Yes.
ANEQ 341 Horse Training and Sale Preparation II Credits: 3 (0-6-0)
Course Description: Skills in training for specific riding maneuvers, conditioning, and fitting for sale.
Prerequisite: ANEQ 340.
Registration Information: Additional time outside of class required on weekends.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 344 Principles of Equine Reproduction Credits: 3 (3-0-0)
Course Description: Principles of reproduction and reproductive management of the mare and stallion.
Prerequisite: ANEQ 102 with a minimum grade of C and ANEQ 230 with a minimum grade of C or ANEQ 305 with a minimum grade of C or BMS 300 with a minimum grade of C).
Registration Information: Sophomore standing. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 345 Principles of Nutrition: Equine Applications Credits: 3 (3-0-0)
Course Description: Principles of nutrition; application in feeding horses in different physiological states to promote health and wellness.
Prerequisite: ANEQ 102 with a minimum grade of C and ANEQ 230 with a minimum grade of C or ANEQ 305 with a minimum grade of C or BMS 300 with a minimum grade of C and (CHEM 100 to 199 - at least 3 credits and MATH 100 to 499 - at least 3 credits).
Registration Information: Sections may be offered: Online.
Terms Offered: Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 346 Equine Disease Management Credits: 4 (3-2-0)
Course Description: Normal and abnormal body structures and functions of major systems of the horse. Recognition of main diseases, causes, prevention and treatments.
Prerequisite: ANEQ 230 with a minimum grade of C or ANEQ 305 with a minimum grade of C or BMS 300 with a minimum grade of C.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 348 Equine Training Techniques Credits: 2 (1-2-0)
Course Description: Training techniques in multiple riding disciplines.
Prerequisite: ANEQ 315.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 349 Packing and Outfitting Credits: 2 (1-2-0)
Course Description: Business aspects of outfitting/packing the horse; hitches, knots, horse care; planning pack trips, setting up camp.
Prerequisite: ANEQ 102.
Registration Information: Written consent of instructor. Must register for lecture and laboratory. Required field trips (Overnight pack trip).
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 351 Techniques in Therapeutic Riding Credits: 2 (1-2-0)
Course Description: Equine assisted activities; therapeutic horseback riding, hippotherapy, driving/vaulting, mental health treatments, programs for youth at risk.
Prerequisite: ANEQ 102.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 352 Introduction to Horse Evaluation Credits: 2 (0-4-0)
Course Description: Criteria and techniques for evaluation of horses; development of logical decision processes for establishing comparative value.
Prerequisite: ANEQ 102.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 353 Advanced Horse Evaluation Credits: 3 (0-6-0)
Course Description: Advanced criteria/techniques for horse evaluation; logical decision process development to establish comparative value; intercollegiate competition.
Prerequisite: ANEQ 352.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 354 Introduction to Livestock Evaluation Credits: 3 (0-6-0)
Course Description: Criteria and techniques for evaluation of livestock; development of logical decision processes for establishing comparative value.
Prerequisite: ANEQ 101.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 355 Advanced Livestock Evaluation Credit: 1 (0-9-0)
Course Description: Advanced criteria and techniques for evaluation of livestock; establishing comparative value; participating in intercollegiate competition.
Prerequisite: ANEQ 354.
Registration Information: Course may be taken twice for a maximum of 2 credits.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 356 Introduction to Dairy Evaluation Credits: 3 (0-6-0)
Course Description: Criteria and techniques for evaluation of dairy cattle; development of logical decision processes for establishing comparative value.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 357 Advanced Dairy Evaluation Credits: 2 (0-4-0)
Course Description: Advanced criteria and techniques for evaluation of dairy cattle; establishing comparative value; participating in intercollegiate competition.
Prerequisite: ANEQ 356.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
ANEQ 358  Equine Event and Sales Management  Credits: 2 (2-0-0)
Course Description: Skills necessary to produce, organize, and promote equine related events.
Prerequisite: ANEQ 102.
Registration Information: Credit not allowed for both ANEQ 358 and ANEQ 300T.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 359  Equine Sales Production  Credits: 2 (0-4-0)
Course Description: Emphasizes skills necessary to host and evaluate an equine sale.
Prerequisite: ANEQ 358.
Registration Information: Written consent of instructor.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 360  Principles of Meat Science  Credits: 3 (3-0-0)
Course Description: Structure, composition, and biology of muscle and associated tissues; wholesomeness, nutritive value, and palatability of beef, pork, and lamb.
Prerequisite: CHEM 100 to 199 - at least 3 credits.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 361  Introduction to Meat Product Evaluation  Credits: 3 (0-6-0)
Course Description: Criteria and techniques for evaluation of meat products; development of logical decision processes for establishing comparative value.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 362  Advanced Meat Product Evaluation  Credit: 1 (0-4-0)
Course Description: Criteria and techniques for evaluation of meat products; establishing comparative value; participating in intercollegiate competition.
Prerequisite: ANEQ 361.
Registration Information: Course may be taken twice for a maximum of 2 credits.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 363  Introduction to Wool and Fiber Evaluation  Credit: 1 (0-2-0)
Course Description: Criteria and techniques for evaluation of wool; development of logical decision processes for establishing comparative value.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 364  Advanced Wool and Fiber Evaluation  Credit: 1 (0-2-0)
Course Description: Criteria and techniques for evaluation of wool; establishing comparative value; participating in intercollegiate competition.
Prerequisite: ANEQ 363.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 365  Principles of Teaching Therapeutic Riding  Credits: 3 (2-2-0)
Course Description: Practical experiences and knowledge of the techniques to be a professional certified therapeutic riding instructor.
Prerequisite: ANEQ 351.
Registration Information: Written consent of instructor. Must register for lecture and laboratory. Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 366  Animal Welfare Evaluation  Credits: 2 (1-2-0)
Course Description: Criteria and techniques for evaluating animal welfare generally and for specific species based on the selected focus (specific species differ by year but include farm, companion, lab, working, and exotic animal species). Development of logical decision processes for establishing comparative value between cases.
Prerequisite: ANEQ 101 or ANEQ 102.
Registration Information: Must register for lecture and laboratory. Required field trips. Credit not allowed for both ANEQ 366 and ANEQ 380A3.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 384  Supervised College Teaching  Credits: Var[1-5] (0-0-0)
Course Description: None.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ANEQ 386A  Equine Practicum: Equine Training and Management  Credits: 2 (1-2-0)
Course Description: None.
Prerequisite: ANEQ 102.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANEQ 386B  Equine Practicum: Equine Reproductive Management  Credits: 2 (1-2-0)
Course Description: None.
Prerequisite: ANEQ 344.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: Yes.

ANEQ 386C  Equine Practicum: Equine Farrier Management  Credit: 1 (0-2-0)
Course Description: None.
Prerequisite: ANEQ 102.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: Yes.
ANEQ 410  Applied Food Animal Behavior  Credits: 3 (3-0-0)  
Course Description: Principles of animal behavior applied to food animal species; the importance of understanding, observing, and assessing animal behavior in relation to food animal production; farm animal species specific behavior patterns.  
Prerequisite: ANEQ 305.  
Term Offered: Fall.  
Grade Mode: Traditional.  
Special Course Fee: No.  

ANEQ 420  Applied Nutrition--Computer Diet Formulation  Credits: 3 (3-0-0)  
Course Description: Comparative diet formulation strategies for cattle (beef and dairy), equine, swine, and poultry. Utilizing advanced computer software to formulate diets, predict performance, and manage ingredient inventory.  
Prerequisite: ANEQ 320 or ANEQ 345.  
Registration Information: Junior standing.  
Term Offered: Fall.  
Grade Mode: Traditional.  
Special Course Fee: No.  

ANEQ 440  Equine Industry and Issues  Credits: 3 (3-0-0)  
Course Description: For students planning a career in the horse industry, management of facilities, production systems, personnel, marketing, and biological systems.  
Prerequisite: ANEQ 344 and ANEQ 345 or ANEQ 334 and ANEQ 344 or ANEQ 346 or ANEQ 334 and ANEQ 345 or ANEQ 334 and ANEQ 346 or ANEQ 344 and ANEQ 346.  
Registration Information: Any two of the following: ANEQ 334, ANEQ 344, ANEQ 345, ANEQ 346.  
Terms Offered: Fall, Spring.  
Grade Mode: Traditional.  
Special Course Fee: No.  

ANEQ 441  Integrated Equine Science  Credits: 2 (2-0-0)  
Course Description: Describe, understand and integrate the newest scientific principles in equine sciences with equine management.  
Prerequisite: ANEQ 334 and ANEQ 345 or ANEQ 344 or ANEQ 346.  
Registration Information: Junior standing.  
Terms Offered: Spring, Summer.  
Grade Mode: Traditional.  
Special Course Fee: No.  

ANEQ 442  Riding Instructor Training  Credits: 2 (0-4-0)  
Course Description: Teaching techniques; theory; handling of large mounted groups, beginner through advanced levels.  
Prerequisite: ANEQ 102.  
Registration Information: Written consent of instructor.  
Terms Offered: Fall, Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.  

ANEQ 443  Applied Equine Nutrition  Credits: 2 (1-2-0)  
Course Description: Applying principles of nutrition to feeding horses in different physiological states in an effort to promote their health and well-being.  
Prerequisite: ANEQ 345.  
Registration Information: Required field trips.  
Term Offered: Spring.  
Grade Mode: Traditional.  
Special Course Fee: No.  

ANEQ 444  Equine Business Management  Credits: 2 (2-0-0)  
Course Description: Real life" equine industry experience and the ins and outs of managing an equine facility/business.  
Prerequisite: ANEQ 440.  
Registration Information: Required field trips.  
Terms Offered: Fall, Summer.  
Grade Mode: Traditional.  
Special Course Fee: Yes.  

ANEQ 445  Foaling Management  Credits: 2 (1-3-0)  
Course Description: Management of the foaling mare and newborn foal; monitoring techniques, preventative and emergency care procedures.  
Prerequisite: ANEQ 344.  
Registration Information: ANEQ 344 or PVM sophomore standing. Must register for lecture and laboratory.  
Term Offered: Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.  

ANEQ 448  Livestock Manure Management and Environment  Credits: 3 (2-2-0)  
Course Description: Manure management; maximizing benefits to soils and crops; minimizing air and water quality hazards; complying with regulations.  
Prerequisite: CHEM 100 to 199 - at least 3 credits.  
Registration Information: Credit allowed for only one of the following: ANEQ 448, ANEQ 548, SOCR 448, SOCR 548. Must register for lecture and laboratory. Required field trips.  
Term Offered: Fall (even years).  
Grade Mode: Traditional.  
Special Course Fee: No.  

ANEQ 450  Processed Meats  Credits: 3 (2-3-0)  
Course Description: Must register for lecture and laboratory.  
Prerequisite: ANEQ 360.  
Term Offered: Fall.  
Prerequisite: ANEQ 360.  
Grade Mode: Traditional.  
Special Course Fee: No.  

ANEQ 460  Meat Safety  Credits: 2 (2-0-0)  
Course Description: Meat safety; food borne pathogens; hazard analysis critical control points (HACCP) and total quality management (TQM) practices.  
Prerequisite: CHEM 100 to 199 - at least 3 credits.  
Term Offered: Spring.  
Grade Mode: Traditional.  
Special Course Fee: No.  

ANEQ 470  Meat Processing Systems  Credits: 4 (3-2-0)  
Course Description: Advanced understanding of the manufacturing, packaging, distribution, storage, and cooking of meat products.  
Prerequisite: ANEQ 360.  
Restriction: Must be a: Senior, Senior - Post Bachelor, Senior - Second Bachelor.  
Registration Information: Senior standing. Must register for lecture and lab.  
Term Offered: Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.
ANEQ 472  Sheep Systems  Credits: 3 (2-2-0)  
Course Description: Sheep production under farm and ranch conditions; products, breeds, breeding, nutrition, reproduction, and management systems.  
Prerequisite: None.  
Restriction: Must be a: Senior, Senior - 5yr Bachelor, Senior - Post Bachelor, Senior - Second Bachelor.  
Registration Information: Senior standing. Must register for lecture and laboratory.  
Term Offered: Spring.  
Grade Mode: Traditional.  
Special Course Fee: No.  
ANEQ 473  Dairy Systems  Credits: 3 (2-3-0)  
Course Description: Integration of nutrition, genetics, physiology, and economics for management decisions of dairy farm operations and production and marketing of milk.  
Prerequisite: (ANEQ 230 or BMS 300 or ANEQ 305) and (ANEQ 310 and ANEQ 320).  
Restriction: .  
Registration Information: Senior standing. Must register for lecture and laboratory.  
Term Offered: Fall.  
Grade Mode: Traditional.  
Special Course Fee: No.  
ANEQ 474  Swine Systems  Credits: 3 (2-2-0)  
Course Description: Production of purebred and commercial swine; breeds, breeding, feeding, marketing, and management.  
Prerequisite: None.  
Restriction: Must be a: Senior, Senior - 5yr Bachelor, Senior - Post Bachelor, Senior - Second Bachelor.  
Registration Information: Senior standing. Must register for lecture and laboratory.  
Terms Offered: Fall, Spring.  
Grade Mode: Traditional.  
Special Course Fee: No.  
ANEQ 475  Travel Abroad-Animal Agriculture  Credits: 2 (2-0-0)  
Course Description: Onsite evaluation of international animal agriculture systems with emphasis on production, marketing, and management.  
Prerequisite: None.  
Restriction: Written consent of instructor. Maximum of 6 credits allowed in course.  
Registration Information: Written consent of instructor. Maximum of 6 credits allowed in course.  
Terms Offered: Fall, Spring, Summer.  
Grade Mode: S/U Sat/Unsat Only.  
Special Course Fee: No.  
ANEQ 476  Feedlot Systems  Credits: 3 (3-0-0)  
Course Description: Feedlot facilities; nutrition; procurement; merchandising; handling; processing cattle; health care; custom feeding; managerial duties.  
Prerequisite: ANEQ 320.  
Restriction: Must be a: Senior, Senior - 5yr Bachelor, Senior - Post Bachelor, Senior - Second Bachelor.  
Registration Information: Senior standing.  
Term Offered: Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.  
ANEQ 478  Beef Systems  Credits: 3 (2-2-0)  
Course Description: Beef production as related to consumer through seedstock segments. Major emphasis on cow-calf management.  
Prerequisite: None.  
Restriction: Must be a: Senior, Senior - 5yr Bachelor, Senior - Post Bachelor, Senior - Second Bachelor.  
Registration Information: Senior standing. Must register for lecture and laboratory. Required field trips.  
Term Offered: Fall.  
Grade Mode: Traditional.  
Special Course Fee: Yes.  
ANEQ 486  Therapeutic Riding Instructor Practicum  Credit: 1 (0-3-0)  
Course Description: Mentor-guided teaching hours to students preparing for the PATH International Instructor examination.  
Prerequisite: ANEQ 365.  
Term Offered: Fall.  
Grade Mode: S/U Sat/Unsat Only.  
Special Course Fee: Yes.  
ANEQ 487A  Internship: Animal  Credits: Var[1-6] (0-0-0)  
Course Description:  
Prerequisite: None.  
Restriction: Written consent of instructor. Maximum of 6 credits allowed in course.  
Terms Offered: Fall, Spring, Summer.  
Grade Mode: S/U Sat/Unsat Only.  
Special Course Fee: No.  
ANEQ 487B  Internship: Equine  Credits: Var[1-6] (0-0-0)  
Course Description:  
Prerequisite: None.  
Restriction: Written consent of instructor. Maximum of 6 credits allowed in course.  
Terms Offered: Fall, Spring, Summer.  
Grade Mode: S/U Sat/Unsat Only.  
Special Course Fee: No.  
ANEQ 495  Independent Study  Credits: Var[1-18] (0-0-0)  
Course Description:  
Prerequisite: None.  
Restriction: Written consent of instructor. Maximum of 6 credits allowed in course.  
Terms Offered: Fall, Spring, Summer.  
Grade Mode: S/U Sat/Unsat Only.  
Special Course Fee: No.  
ANEQ 496  Group Study  Credits: Var[1-5] (0-0-0)  
Course Description:  
Prerequisite: None.  
Restriction: Written consent of instructor. Maximum of 6 credits allowed in course.  
Terms Offered: Fall, Spring, Summer.  
Grade Mode: S/U Sat/Unsat Only.  
Special Course Fee: No.  
ANEQ 500  Recent Developments  Credits: Var[1-6] (0-0-0)  
Course Description: Recent developments in animal science, avian science, and food technology.  
Prerequisite: None.  
Restriction: Must be a: Graduate, Professional.  
Registration Information: Graduate standing.  
Term Offered: Summer.  
Grade Modes: S/U within Student Option, Trad within Student Option.  
Special Course Fee: No.
ANEQ 510  Bovine Reproduction Management  Credit: 4 (3-2-0)
Course Description: Role of reproduction in economic efficiency of cattle production systems. Causes of delayed breeding and nonpregnancy, abortion and perinatal mortality.
Prerequisite: ANEQ 310.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 522  Animal Metabolism  Credit: 3 (3-0-0)
Course Description: Nutrient digestion, absorption, transport and metabolism in monogastric and ruminant domestic species as affected by physiological changes.
Prerequisite: CHEM 346 or CHEM 245 and CHEM 246.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 525  Advanced Meat Science  Credit: 3 (3-0-0)
Course Description: Advanced study of fundamental and biochemical basis of meat quality.
Prerequisite: ANEQ 360 or ANEQ 470.
Registration Information: Junior standing. Credit not allowed for both ANEQ 525 and ANEQ 581A5.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 531  Applied Bovine Respiratory Disease Management  Credit: 1 (1-0-0)
Course Description: Economic significance, management and measurement of bovine respiratory disease; introduction to genetic influence on susceptibility.
Prerequisite: ANEQ 313 or ANEQ 360.
Registration Information: Written consent of instructor. Offered as an online course only. This is a partial semester course. Senior standing. Credit not allowed for both ANEQ 531 and ANEQ 580A1.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 532  Genetics of Bovine Respiratory Disease  Credit: 1 (1-0-0)
Course Description: Quantitative and molecular perspectives on the genetics of susceptibility to bovine respiratory disease (BRD); genetic improvement in BRD susceptibility.
Prerequisite: ANEQ 330 and ANEQ 531.
Registration Information: Senior standing. Written consent of instructor. Offered as an online course only. This is a partial semester course. Credit not allowed for both ANEQ 532 and ANEQ 580A2.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 533  Marker and Gene Assisted Selection  Credit: 1 (1-0-0)
Course Description: Approaches to including DNA marker and gene information into livestock selection decisions to improve accuracy and rate of genetic improvement.
Prerequisite: ANEQ 535 or ANEQ 575.
Registration Information: Written consent of instructor. Offered as an online course only. This is a partial semester course. Credit not allowed for both ANEQ 533 and ANEQ 580A3.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 534  Markers to Gene Function - Functional Change  Credit: 1 (1-0-0)
Course Description: Results of marker association analyses are expanded to how sequence polymorphisms translate into functional changes in the animal genome and variation in animal performance. Topics include an introduction to the tools used to generate multi-omics data and how these data are used in genetic evaluation and animal improvement programs.
Prerequisite: ANEQ 328.
Registration Information: Senior standing. Written consent of instructor. Offered as an online course only. This is a partial semester course. Credit not allowed for both ANEQ 534 and ANEQ 580A4.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 535  Genetic Prediction in Livestock  Credit: 1 (1-0-0)
Course Description: Emphasizes approaches to genetic prediction in livestock focusing on the use of mixed models and best linear unbiased prediction.
Prerequisite: ANEQ 328.
Registration Information: Graduate standing. Written consent of instructor. Offered as an online course only. This is a partial semester course. Credit not allowed for both ANEQ 535 and ANEQ 581A1.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 536  Livestock Variance Component Estimation  Credit: 1 (1-0-0)
Course Description: Emphasizes approaches to estimation of (co)variance components and genetic parameters required to solve mixed models in livestock genetics.
Prerequisite: ANEQ 535 or ANEQ 575.
Registration Information: Senior standing. Written consent of instructor. Offered as an online course only. This is a partial semester course. Credit not allowed for both ANEQ 536 or ANEQ 581A2.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 545  Molecular Methods in Animal Genetics  Credit: 3 (0-6-0)
Course Description: Hands-on learning exercises to help develop technical skills and conceptual understanding for critical evaluation of animal genetics at the molecular level. Practical experience in classical and modern genetics laboratory techniques as well as an appreciation for how these techniques should be applied and how to interpret the results.
Prerequisite: ANEQ 330 or ANEQ 334.
Registration Information: Senior standing. Credit not allowed for both ANEQ 545 and ANEQ 581A3.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
ANEQ 548  Issues in Manure Management  Credits: 4 (2-2-1)
Course Description: Manure management practices maximizing benefits to soils and crops while minimizing hazards to air and water quality and complying with regulations.
Prerequisite: CHEM 100 to 199 - at least 3 credits.
Registration Information: Credit allowed for only one of the following courses: ANEQ 448, ANEQ 548, SOCR 448, SOCR 548. Must register for lecture, laboratory, and recitation. Required field trips.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 550A  Basic Research Surgery: Farm Animal  Credits: 2 (1-2-0)
Course Description: Basic principles and techniques of animal surgery to meet ACUC requirements for experimental procedures.
Prerequisite: ANEQ 230 or ANEQ 305 or BMS 300 or BMS 305.
Registration Information: Junior, senior, or graduate standing. Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 550B  Basic Research Surgery: Rodent  Credits: 2 (1-2-0)
Course Description: Basic principles and techniques of animal surgery to meet ACUC requirements for experimental procedures.
Prerequisite: ANEQ 230 or ANEQ 305 or BMS 300 or BMS 305 or VS 333.
Registration Information: Junior, senior, or graduate standing. Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 551  Field Necropsy  Credits: 2 (1-2-0)
Course Description: Field necropsy techniques for collection of animal tissues for submission to a diagnostic laboratory.
Prerequisite: (ANEQ 230 or BMS 300 or ANEQ 305) and (VS 313 or ANEQ 346 or MIP 315 or ANEQ 313).
Restriction: Must be a: Graduate, Professional.
Registration Information: Junior or senior standing. Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 565  Interpreting Animal Science Research  Credits: 3 (3-0-0)
Course Description: Designing, conducting, analyzing, and reporting of animal science research.
Prerequisite: (ANEQ 101 or ANEQ 102) and (STAT 100 to 499 - at least 3 credits).
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 567  HACCP Meat Safety  Credits: 2 (2-0-0)
Course Description: Control of health problems in meat products through hazard analysis critical control point (HACCP) and total quality management (TQM) practices.
Prerequisite: ANEQ 460.
Registration Information: This is a partial-semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 575  Computational Biology in Animal Breeding  Credits: 3 (2-2-0)
Course Description: Numerical analysis and use of computers to solve problems in animal improvement.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing or written consent of instructor. Must register for lecture and laboratory.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 587  Internship  Credits: Var[1-9] (0-0-0)
Course Description:
Prerequisite: None.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ANEQ 610  Hormonal Regulation of Growth  Credits: 2 (2-0-0)
Course Description: Cellular and molecular regulation of animal growth by hormones and growth factors.
Prerequisite: BMS 501.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 621  Vitamin and Mineral Metabolism  Credits: 3 (3-0-0)
Course Description: Vitamin and mineral metabolism in domestic animals.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 626  Animal Nutrition, Emissions, and Management  Credits: 4 (3-3-0)
Course Description: Nutrients and nutrient function required to support animal life through all physiological states and assessment of the impacts on gaseous emissions from these animals.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory. Required field trips.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 631  Selection Index Theory  Credits: 3 (2-0-1)
Course Description: Quantitative methods for genetic evaluation: selection index theory and introduction to best linear unbiased prediction.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Must register for lecture and recitation.
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
ANEQ 660  Topics in Meat Safety  Credit: 1 (1-0-0)
Course Description: Topics of current concern in meat safety.
Prerequisite: A_EQ 567.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 676  Molecular Approaches to Food Safety  Credits: 3 (1-4-0)
Course Description: Molecular subtyping, tracking, and control; molecular ecology and evolution of food-borne pathogens; molecular pathogenesis of food-borne diseases.
Prerequisite: MIP 300 or MIP 334.
Restriction: Must be a: Graduate, Graduate cooperative program, Professional.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 699  Thesis  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of instructor.
Term Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ANEQ 720  Nutritional Energetics  Credits: 3 (3-0-0)
Course Description: Dietary energy use to meet animal requirements for maintenance, growth, pregnancy, and lactation; environmental, nutritional, and physiological effects.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 725  Rumen Metabolism  Credits: 3 (3-0-0)
Course Description: Microbial degradation, transformation, and synthesis of ingested nutrients; feed particle passage kinetics in the rumen.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 730  Advances in Cattle Breeding  Credits: 3 (3-0-0)
Course Description: Literature and research methods in beef cattle breeding.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Spring (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ANEQ 731  Advanced Genetic Prediction  Credits: 3 (3-0-0)
Course Description: Models and methods for prediction of genetic merit in livestock populations.
Prerequisite: A_EQ 575.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 784  Supervised College Teaching  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Written consent of instructor.
Term Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ANEQ 792A  Seminar: General  Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANEQ 792B  Seminar: Breeding/Genetics  Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANEQ 792C  Seminar: Physiology  Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANEQ 792D  Seminar: Meat Sciences  Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANEQ 792E  Seminar: Nutrition  Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
Major in Animal Science

Students majoring in Animal Science (food animals) are provided with an industry-oriented, science-based education that prepares them for careers in animal agriculture or one of many industries associated with livestock production. The curriculum focuses on the study of food-producing animals and includes foundation courses in the sciences.

Students also choose from specialized courses to enhance their technical, practical, and business skills in topics related to various aspects of production, marketing, and processing of livestock and their products.

Learning Outcomes

Successful students will demonstrate:

- Broad-based understanding of biological principles and develop the ability to incorporate the use of these principles into animal management systems
- An understanding of business/economic principles and their application to food animal production systems
- Ability to critically evaluate industry and management issues
- Problem-solving and leadership skills that enhance professional success

Potential Occupations

Potential occupations include: managers of production units such as ranches, feedlots, and dairy farms; sales representatives for feed companies, pharmaceutical firms, and livestock service organizations; employment with organizational groups/associations such as breed organizations, clientele groups, and branded beef companies; cooperative extension and other educational positions; or enrollment in graduate and professional schools.

Requirements

Effective Fall 2018

A maximum of five credits is allowed for the following: ANEQ 352, ANEQ 353, ANEQ 354, ANEQ 355, ANEQ 356, ANEQ 357, ANEQ 361, ANEQ 362, and ANEQ 364.

A maximum of 12 credits is allowed for any combination of the following: ANEQ 352, ANEQ 353, ANEQ 354, ANEQ 355, ANEQ 356, ANEQ 357, ANEQ 361, ANEQ 362, ANEQ 363, and ANEQ 364.

ANEQ 384, ANEQ 487A, ANEQ 495, and ANEQ 496.

A minimum grade of 'C' (2.000) is required for each of the ANEQ courses which are required to complete the major.
Select at least three credits from the following:

Major in Equine Science

The Equine Science major prepares students to serve the many needs of a growing industry and focuses on providing students with an in-depth scientific knowledge of the varied functions of the horse and how to relate those scientific principles to the industry. Equine Science majors have the opportunity to develop a broad understanding of the horse as it relates to business, recreational, and production aspects of the industry. Currently, CSU has the most comprehensive equine program in the United States with major efforts in research, teaching, and public service.

Learning Outcomes

Successful students will demonstrate:

- Broad-based understanding of biological principles and develop the ability to incorporate the use of these principles into the horse industry
- An understanding of business/economic principles and their application to equine enterprises
- Ability to critically evaluate equine industry issues
- Problem-solving and leadership skills that enhance professional success

Potential Occupations

- The opportunity to attend professional and/or graduate school
- Positions that provide services to the horse industry
- Management of equine production systems such as breeding farms
- Positions with horse organizations and horse shows
- Education positions with cooperative extension and colleges and universities

Program Total Credits: **120**
Requirements  
Effective Fall 2018  
A minimum grade of "C" (2.00) is required for each of the ANEQ courses which are required to complete the major.

A maximum of five credits is allowed for ANEQ 352, ANEQ 353, ANEQ 354, ANEQ 355, ANEQ 356, ANEQ 357, ANEQ 361, ANEQ 362, ANEQ 363, and ANEQ 364. A maximum of twelve credits is allowed for any combination of the following: ANEQ 352, ANEQ 353, ANEQ 354, ANEQ 355, ANEQ 356, ANEQ 357, ANEQ 361, ANEQ 362, ANEQ 363, ANEQ 364, ANEQ 384, ANEQ 487B, ANEQ 495, and ANEQ 496.

Freshman

ANEQ 102 Introduction to Equine Science  
ANEQ 105 Introduction to Large Animal Anatomy  
ANEQ 115 Applied Equine Behavior  
ANEQ 292 Equine Industry Seminar  
CO 150 College Composition (GT-CO2)  
LIFE 102 Attributes of Living Systems (GT-SC1)  
SPCM 200 Public Speaking  

Select one group from the following:

Group A:
CHEM 107 Fundamentals of Chemistry (GT-SC2)  
CHEM 108 Fundamentals of Chemistry Laboratory (GT-SC1)  

Group B:
CHEM 111 General Chemistry I (GT-SC2)  
CHEM 112 General Chemistry Lab I (GT-SC1)  

Select a minimum of 3 credits from the following:

MATH 117 College Algebra in Context I (GT-MA1)  
MATH 118 College Algebra in Context II (GT-MA1)  
MATH 124 Logarithmic and Exponential Functions (GT-MA1)  
MATH 125 Numerical Trigonometry (GT-MA1)  
MATH 126 Analytic Trigonometry (GT-MA1)  
MATH 141 Calculus in Management Sciences (GT-MA1)  
MATH 155 Calculus for Biological Scientists I (GT-MA1)  

Arts and Humanities  

Total Credits  
29-30

Sophomore

Select one course from the following:

ANEQ 230 Farm Animal Anatomy and Physiology  
ANEQ 305 Functional Large Animal Physiology  
BMS 300 Principles of Human Physiology  

Select one course from the following:

ANEQ 328 Foundations in Animal Genetics  
SOCR 330 Principles of Genetics  

Select one course from the following:

AREC 202 Agricultural and Resource Economics (GT-SS1)  
ECON 202 Principles of Microeconomics (GT-SS1)

1. If students opt to take BMS 300, a minimum grade of C is required.
2. Select credits from any 200-level or above AREC or ECON course or any business course of which 3 credits may be a computer course. Access granted for the following business courses: ACT 205, BUS 205, FIN 305, MGT 305, MKT 305.
3. Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program: A minimum grade of "C" (2.00) is required for each of the ANEQ courses which are required to complete the major.

A maximum of five credits is allowed for ANEQ 352, ANEQ 353, ANEQ 354, ANEQ 355, ANEQ 356, ANEQ 357, ANEQ 361, ANEQ 362, ANEQ 363, and ANEQ 364.

| Total Credits | 12-19 |
| Program Total Credits: | 120 |

Certificate in Animal Nutrition

The Department of Animal Sciences offers the Certificate in Animal Nutrition to undergraduate students majoring in Animal Science. This certificate prepares students for careers that require specialized training in feeding and nutritional management of animals or for advanced studies in the field of Animal Nutrition.

**Effective Fall 2017**

A minimum grade of C (2.000) is required in each course with the traditional grade mode and a Satisfactory for each course with the S/U grade mode.

**Additional coursework may be required due to prerequisites.**

Program Total Credits: 14

1 Must be related to meat evaluation, meat processing technology, product quality, microbiology, and/or food safety.

Master of Science in Animal Sciences, Plan A

The Master of Science in Animal Sciences consists of 30 credit hours, including the preparation and defense of an original research thesis. At least one peer review publication is expected for this effort. Students will study within one of the discipline groups of the department (i.e., beef and dairy systems management; breeding and genetics; livestock behavior and welfare; meat science and food safety; nutrition; reproduction; equine sciences) to prepare for future employment in the animal agricultural industries and/or the pursuit of a doctoral degree.

Program Total Credits: 30

A minimum of 30 credits are required to complete this program.

1 At least 12 credits must be at the 500-level or above.

Department of Bioagricultural Sciences and Pest Management

Office in Plant Sciences Building, Room C129
(970) 491-5261
bspm.agsci.colostate.edu (http://bspm.agsci.colostate.edu)

Professor Amy Charkowski, Head
Janet Dill, Graduate Coordinator

Although there is no undergraduate major in bioagricultural sciences offered within the department, instructional programs in the Department of Bioagricultural Sciences and Pest Management serve a number of undergraduate majors and graduate programs across CSU.

Undergraduate

Minors

Minors are offered in Entomology and Plant Health. Students are provided with maximum breadth and depth with a limited number of required courses. The minors also serve to broaden the academic background of students seeking employment in the interdisciplinary job markets associated with most plant science majors. The minors provide adequate credits to meet most federal and state certification requirements for employment. Please contact Dr. Kondratieff for information on the entomology minor and Janet Dill for the plant health minor.

- Entomology
- Plant Health

Graduate

Graduate Programs in Bioagricultural Sciences

The department offers graduate programs leading to Master of Science and Doctor of Philosophy degrees in Bioagricultural Sciences, with specializations available in Entomology, Pest Management, Plant Pathology, and Weed Science.

Research in the department is focused in four areas of emphasis that cut across disciplinary specializations:

1. genomics and molecular biology;
2. ecology and biodiversity;
3. biology and management of invasive species; and
4. integrated pest management.

In addition, a number of faculty in the department are members of CSU’s Graduate Degree Program in Ecology or the Cell and Molecular Biology Program and advise M.S. and Ph.D. students through these programs. Students interested in graduate work should refer to the Graduate and Professional Bulletin or visit the Department of Bioagricultural Sciences and Pest Management (http://bspm.agsci.colostate.edu).

Master’s Programs
• Master of Science in Bioagricultural Sciences
• Master of Science in Bioagricultural Sciences, Plan A, Entomology Specialization
• Master of Science in Bioagricultural Sciences, Plan B, Pest Management Specialization
• Master of Science in Bioagricultural Sciences, Plan A, Plant Pathology Specialization
• Master of Science in Bioagricultural Sciences, Plan A, Weed Science Specialization

Ph.D.
• Ph.D. in Bioagricultural Sciences
• Ph.D. in Bioagricultural Sciences, Entomology Specialization
• Ph.D. in Bioagricultural Sciences, Plant Pathology Specialization
• Ph.D. in Bioagricultural Sciences, Weed Science Specialization

Courses
Bioagricultural Sciences and Pest Management (BSPM)

BSPM 102 Insects, Science, and Society (GT-SC2) Credits: 3 (3-0-0)
Course Description: How insects develop, behave, and affect human activity. What every student should know about the most diverse life form on Earth.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

BSPM 201 Weed Management and Control Credits: 3 (0-0-3)
Course Description: Basic overview of weeds and weed control.
Prerequisite: None.
Registration Information: Offered as an online course only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 300 Topics in Livestock Entomology Credit: 1 (1-0-0)
Also Offered As: ANEQ 300B.
Course Description: Identification, biology, and management of insect, tick, and mite pests.
Prerequisite: BZ 100 to 199 between 3 and 5 credits - at least 3 credits or LIFE 100 to 199 between 3 and 5 credits - at least 3 credits.
Registration Information: Credit not allowed for both BSPM 300 and ANEQ 300B.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 302 Applied and General Entomology Credits: 2 (2-0-0)
Course Description: Biology and management of insects.
Prerequisite: None.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

BSPM 303A Entomology Laboratory: General Credits: 2 (0-4-0)
Course Description: Biology and recognition of insects.
Prerequisite: BSPM 302, may be taken concurrently.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

BSPM 303B Entomology Laboratory: Horticultural Credit: 1 (0-2-0)
Course Description: Biology and recognition of insects.
Prerequisite: BSPM 302, may be taken concurrently.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 303C Entomology Laboratory: Agricultural Credit: 1 (0-2-0)
Course Description: Biology and recognition of insects.
Prerequisite: BSPM 302, may be taken concurrently.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 308 Ecology and Management of Weeds Credits: 3 (2-3-0)
Course Description: Classification, characteristics; weed biology and ecology; control by cultural, mechanical, chemical, and biological means; successional management.
Prerequisite: (BZ 120 or LIFE 103) and (CHEM 107 or CHEM 111).
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 310 Understanding Pesticides Credits: 3 (3-0-0)
Course Description: Identification, properties, use, labeling, environmental interactions, and application of major classes of pesticides.
Prerequisite: BZ 100 to 199 - at least 3 credits or CHEM 100 to 199 - at least 3 credits.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.
BSPP 350 Science Illustration Credits: 2 (1-2-0)
Course Description: Fundamentals of science illustration, emphasizing observational and drawing skills.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

BSPP 355A Horticulture Pathology: General Pathology Credit: 1 (1-0-0)
Course Description: A 5-week course consisting of General Plant Pathology; identification of the organisms that can cause plant diseases.
Prerequisite: HORT 100 to 199 or LIFE 100 to 199.
Registration Information: Written consent of instructor. This is a partial semester course. Offered as an online course only. Credit not allowed for both BSPM 355A and BSPM 381A2.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

BSPP 355B Hort Pathology: Turf and Ornamental Disease Credit: 1 (1-0-0)
Course Description: Turf and ornamental plant diseases, their management and control.
Prerequisite: BSPM 355A.
Registration Information: Written consent of instructor. This is a partial semester course. Offered as an online course only. Credit not allowed for both BSPM 355B and BSPM 361.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

BSPP 355C Horticulture Pathology: Vegetable and Greenhouse Disease Credit: 1 (1-0-0)
Course Description: Diseases in the Greenhouse and Vegetable crops, management and control.
Prerequisite: BSPM 355A.
Registration Information: Offered as an online course only. This is a partial semester course. Written consent of instructor.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

BSPP 356A Horticultural Entomology Introduction Credit: 1 (1-0-0)
Course Description: Basic biology, identification and management of insects and mites affecting horticultural crops.
Prerequisite: HORT 100 to 199 or LIFE 100 to 199.
Registration Information: Written consent of instructor. This is a partial semester course. Offered as an online course only. Credit allowed for only one of the following: BSPM 102 and BSPM 302, or BSPM 303B or BSPM 356A.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

BSPP 356B Horticultural Entomology: Food Crops Credit: 1 (1-0-0)
Course Description: Insect and mite pests of fruits, vegetables and other garden grown food crops.
Prerequisite: BSPM 102 or BSPM 302 or BSPM 356A.
Registration Information: This is a partial semester course. Offered as an online course only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

BSPP 356C Horticultural Entomology: Landscape Plants Credit: 1 (1-0-0)
Course Description: Insect and mite pests of ornamentals (woody plants, flowers) and turfgrass and their management.
Prerequisite: BSPM 102 or BSPM 302 or BSPM 356A.
Registration Information: Written consent of instructor. This is a partial semester course. Offered as an online course only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

BSPP 361 Elements of Plant Pathology Credits: 3 (2-2-0)
Course Description: Diseases of economic plants.
Prerequisite: BZ 104 or BZ 120 or HORT 100 or LIFE 102.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

BSPP 365 Integrated Tree Health Management Credits: 4 (3-3-0)
Course Description: Insects and diseases in forest and urban ecosystems. Effects, diagnosis, prevention, and interactions.
Prerequisite: BZ 120 or LIFE 102.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Fall.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPP 384 Supervised College Teaching Credits: Var[1-3] (0-0-0)
Prerequisite: None.
Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPP 415 Pollinator Management in Agroecosystems Credits: 2 (2-0-0)
Also Offered As: SOCR 415.
Course Description: Fundamental concepts of pollinator biology and management, sustainable crop-pollinator interactions, regional and global issues on pollinator management and conservation, best management practices for commercially managed pollinators.
Prerequisite: HORT 100 or SOCR 100.
Registration Information: Junior standing. Credit not allowed for both SOCR 415 and BSPM 415. Required field trips.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPP 423 Evolution and Classification of Insects Credits: 3 (1-4-0)
Course Description: Major groups of insects, living and fossil, major evolutionary trends in structure and behavior.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Credit not allowed for both BSPM 423 and BSPM 523.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
BSPM 424  Principles of Systematic Zoology  Credits: 3 (3-0-0)
Also Offered As:  BZ 424.
Course Description: Principles and methods of classification, zoological
nomenclature, taxonomic decisions regarding species and higher
categories.
Prerequisite: BZ 111 and BZ 110 or LIFE 103.
Registration Information: Credit not allowed for both BSPM 424 and
BZ 424.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 445  Aquatic Insects  Credits: 4 (2-4-0)
Course Description: Biology and recognition of major orders and families
of aquatic insects; a collection is required.
Prerequisite: BZ 111 or LIFE 103.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

BSPM 450  Molecular Plant-Microbe Interaction  Credits: 3 (3-0-0)
Course Description: Principles of plant-microbe/insect interactions,
physiological and molecular aspects of plant defense, genomics
approaches to study plant defense.
Prerequisite: (BZ 100 to 499 - at least 3 credits) and (BZ 346 or
SOCR 330).
Registration Information: Credit not allowed for both BSPM 450 and
BSPM 550.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 451  Integrated Pest Management  Credits: 3 (3-0-0)
Course Description: Concepts of integrated pest management and the
strategies and tactics employed in the application of these concepts.
Prerequisite: BSPM 302 or BSPM 308 or BSPM 361.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 462  Parasitology and Vector Biology  Credits: 5 (3-4-0)
Also Offered As:  BZ 462 and MIP 462.
Course Description: Protozoa, helminths, and insects and related
arthropods of medical importance; systematics, epidemiology, host
damage and control.
Prerequisite: (BZ 110 or LIFE 103) and (BZ 212 or LIFE 206 or MIP 302).
Registration Information: Must register for lecture and laboratory. Credit
allowed for only one of the following: BSPM 462, BZ 462, MIP 462.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 487  Internship  Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 492  Seminar  Credits: Var[1-3] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 500  Foundations of Bioagricultural Sciences  Credits: 2 (2-0-0)
Course Description: Introduction to graduate school covering managing
time, advisor and research, plus a survey of topics encompassed by the
department of BSPM.
Prerequisite: None.
Restriction: Must be a: Graduate.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 502A  Topics in Plant Pathology: Plant Viruses  Credit: 1 (1-0-0)
Course Description: 
Prerequisite: BIO 300 to 499 - at least 3 credits or BSPM 300 to 499 - at
least 3 credits or BZ 300 to 499 - at least 3 credits or LIFE 300 to 499 - at
least 3 credits.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 502B  Topics in Plant Pathology: Plant Bacteriology  Credit:
1 (1-0-0)
Course Description: 
Prerequisite: BIO 300 to 499 - at least 3 credits or BSPM 300 to 499 - at
least 3 credits or BZ 300 to 499 - at least 3 credits or LIFE 300 to 499 - at
least 3 credits.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 502F  Topics in Plant Pathology: Plant Disease Epidemiology  Credit:
1 (1-0-0)
Course Description: 
Prerequisite: BIO 300 to 499 - at least 3 credits or BSPM 300 to 499 - at
least 3 credits or BZ 300 to 499 - at least 3 credits or LIFE 300 to 499 - at
least 3 credits.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 507  Insect Behavior  Credits: 3 (3-0-0)
Course Description: Behavior of insects and related arthropods with
special attention to social behavior.
Prerequisite: None.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
BSPM 508 Environmental Fate of Pesticides Credits: 3 (3-0-0)
Course Description: Processes that affect fate of pesticides and their metabolites in the environment with emphasis on soil and water.
Prerequisite: BZ 440 or CHEM 245 or SOCR 240.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 509 Herbicide Selectivity and Action Credits: 3 (3-0-0)
Course Description: Selectivity of major photosynthetic and growth inhibitor herbicides based on herbicide transport, metabolism, and mode of action.
Prerequisite: BSPM 308 or BZ 440.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 510 Insect-Plant Disease Relationships Credits: 3 (3-0-0)
Course Description: Relationships between insects and various plant pathogens as they affect survival and transmissions of pathogens.
Prerequisite: BSPM 302 or BSPM 361.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 520 Advanced Systematics Credits: 3 (3-0-0)
Also Offered As: BZ 520.
Course Description: Theory and practice of modern systematics.
Prerequisite: BZ 424 or BZ 424 or BZ 325.
Registration Information: Credit not allowed for both BSPM 520 and BZ 520.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 521 Forest Health Issues Credits: 3 (3-0-0)
Course Description: Current topics related to forest and shade tree health from ecosystems to tree defense physiology.
Prerequisite: None.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 523 Advanced Evolution/Classification of Insects Credits: 4 (1-4-1)
Course Description: Major groups of insects, living and fossil; major evolutionary trends in structure and behavior.
Prerequisite: None.
Registration Information: Must register for lecture, laboratory, and recitation. Credit not allowed for both BSPM 523 and BSPM 423.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 525 Insect Physiology Credits: 3 (3-0-0)
Course Description: Principles of insect function.
Prerequisite: BSPM 302.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 526 Evolutionary Ecology Credits: 3 (3-0-0)
Also Offered As: BZ 526.
Course Description: Adaptation to abiotic and biotic environments; how current ecological processes interact with evolutionary history.
Prerequisite: LIFE 320 or LIFE 220 or LAND 220.
Registration Information: Credit not allowed for both BSPM 526 and BZ 526.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 528 Invasive Plants/Weeds—Ecosystems to Molecules Credits: 3 (3-0-0)
Course Description: Contributions of disciplines of weed science and invasion ecology to understanding the biology, ecology and management of “problem plants.”
Prerequisite: (LIFE 320 or LAND 220 or LIFE 220) and (BZ 120) and (LIFE 102 or LIFE 103).
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

BSPM 530 Scientific Writing Credit: 1 (1-0-0)
Also Offered As: SOCR 530.
Course Description: Skills necessary to prepare complete scientific journal articles including writing, editing, and literature searching and assessment.
Prerequisite: None.
Registration Information: Credit not allowed for both BSPM 530 and SOCR 530.
Term Offered: Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 540 Understanding Genomes Credits: 3 (3-0-0)
Course Description: Harnessing genome information and related -omics level technologies for use in answering biological questions.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 550 Molecular Plant-Microbe Interactions Credits: 3 (3-0-0)
Course Description: Principles of plant-microbe interactions, physiological and molecular aspects of plant defense, genomic approaches to study plant defense.
Prerequisite: (BZ 100 to 499 - at least 3 credits) and (BZ 346 or SOCR 330).
Registration Information: Credit not allowed for both BSPM 550 and BSPM 450.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 551 Advanced Integrated Pest Management Credits: 4 (3-0-1)
Course Description: Concepts of integrated pest management and the strategies and tactics employed in the practical application of these concepts.
Prerequisite: BSPM 302 or BSPM 308 or BSPM 361.
Registration Information: Must register for lecture and recitation.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
BSPM 555  Immature Insects  Credits: 3 (1-4-0)
Course Description: Characteristics of immature forms of orders and families of insects emphasizing those important to man.
Prerequisite: BSPM 303A or BSPM 303B or BSPM 303C.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 556  Biological Control of Plant Pests  Credits: 3 (3-0-0)
Course Description: Management of insect pests of plants and weeds using biological control agents such as insects, bacteria, viruses, and fungi.
Prerequisite: (BZ 120 or LIFE 103) and (LIFE 320 or LAND 220 or LIFE 220).
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 570  Chemical Ecology  Credits: 3 (3-0-0)
Course Description: Chemical interactions among animals, plants, fungi, and microorganisms.
Prerequisite: None.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 571  Techniques in Chemical Ecology  Credit: 1 (0-2-0)
Course Description: Practical experience with chemical techniques for separation, analysis, and synthesis of natural products together with biological assays for activity.
Prerequisite: None.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 575  Molecular and Genomic Evolution  Credits: 3 (3-0-0)
Also Offered As: BZ 575.
Course Description: Molecular, biological mechanisms of evolutionary change: mutation; selection; gene expression/regulation; changes in whole-genome architecture.
Prerequisite: BZ 220 and BZ 350.
Registration Information: Credit not allowed for both BSPM 575 and BZ 575.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 576  Bioinformatics  Credits: 3 (3-0-0)
Also Offered As: MIP 576.
Course Description: Technical computing across platforms using bioinformatics tools in molecular analysis.
Prerequisite: BC 463 or BZ 310 or BZ 350 or CM 501 or CS 155 or ERHS 332 or MIP 275 or MIP 300 or MIP 450 or STAT 307 or ERHS 307.
Registration Information: Credit not allowed for both BSPM 576 and MIP 576.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 584  Supervised College Teaching  Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 587  Internship Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 592  Seminar Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 594  Independent Study Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 596  Group Study Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 698  Research Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 699  Thesis Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 710  Techniques in Molecular Biology and Genetics  Credits: 3 (0-4-1)
Also Offered As: CM 710.
Course Description: Genetic manipulation of bacteria, bacteriophage, and yeast including experiments in molecular cloning and gene expression.
Prerequisite: BC 463 or BZ 346 or BZ 350 or MIP 450 or SOCR 330.
Restriction: Must be a Graduate, Professional.
Registration Information: Must register for laboratory and recitation.
Credit not allowed for both BSPM 710 and CM 710.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
Minor in Entomology

**Requirements**

**Effective Fall 2017**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

### Code | Title | Credits
--- | --- | ---
BSPM 302 | Applied and General Entomology | 2
Select one from the following: | 1-2
--- | --- | ---
BSPM 303A | Entomology Laboratory: General |  | 
BSPM 303B | Entomology Laboratory: Horticultural |  | 
BSPM 303C | Entomology Laboratory: Agricultural |  | 
Select 12-13 credits from the following: | 12-13
--- | --- | ---
BSPM 423 | Evolution and Classification of Insects |  | 
BSPM 445 | Aquatic Insects |  | 
BSPM 451 | Integrated Pest Management |  | 
BSPM 462/MIP 462/BZ 462 | Parasitology and Vector Biology |  | 
BSPM 487 | Internship |  | 
or
BSPM 495 | Independent Study |  | 
--- | --- | ---
Program Total Credits: | 22-25

---

**Minor in Plant Health**

**Requirements**

**Effective Spring 2012**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

### Code | Title | Credits
--- | --- | ---
BSPM 301 | Understanding Pesticides | 3
BSPM 308 | Ecology and Management of Weeds | 3
BSPM 361 | Elements of Plant Pathology | 3
BSPM 302 | Applied and General Entomology | 2
Select one from the following: | 1-2
--- | --- | ---
BSPM 303A | Entomology Laboratory: General |  | 
BSPM 303B | Entomology Laboratory: Horticultural |  | 
BSPM 303C | Entomology Laboratory: Agricultural |  | 
BSPM 423 | Evolution and Classification of Insects |  | 
BSPM 445 | Aquatic Insects |  | 
BSPM 451 | Integrated Pest Management |  | 
BSPM 462/MIP 462/BZ 462 | Parasitology and Vector Biology |  | 
BSPM 487 | Internship |  | 
or
BSPM 495 | Independent Study |  | 
--- | --- | ---
Program Total Credits: | 22-25
Select a minimum of 9-10 credits from the following (including the selections of BSPM 487 or BSPM 495 or BZ/LIFE courses below):

Program Total Credits: 21-23

May be taken as electives by students in majors that are not in the biological or agricultural sciences.

Master of Science in Bioagricultural Sciences

Effective Fall 2007

The M.S. degree requires 30-32 credits beyond the undergraduate degree. Course selection depends on each student’s focus within Bioagricultural Sciences and must be approved by the student’s graduate committee.

Master of Science in Bioagricultural Sciences, Plan B, Pest Management Specialization

Requirements

Effective Fall 2009

Program Total Credits: 34

A minimum of 34 credits are required to complete this program.

1. Choose from various courses such as teaching, internships, independent study, communication classes, second language, etc., with approval by advisor and committee.

2. Includes a scholarly paper on topic related to specialization and approved by the student’s graduate committee.

Master of Science in Bioagricultural Sciences, Plan A, Entomology Specialization

Effective Fall 2007

The M.S. degree requires 30-32 credits beyond the undergraduate degree. Course selection depends on each student’s focus within Bioagricultural Sciences and must be approved by the student’s graduate committee.

Master of Science in Bioagricultural Sciences, Plan A, Plant Pathology Specialization

Effective Fall 2007

The M.S. degree requires 30-32 credits beyond the undergraduate degree. Course selection depends on each student’s focus within Bioagricultural Sciences and must be approved by the student’s graduate committee.

Master of Science in Bioagricultural Sciences, Plan A, Weed Science Specialization

Effective Fall 2007

The M.S. degree requires 30-32 credits beyond the undergraduate degree. Course selection depends on each student’s focus within Bioagricultural Sciences and must be approved by the student’s graduate committee.

Ph.D. in Bioagricultural Sciences

Effective Fall 2007

The Ph.D. degree requires 72 credits beyond the undergraduate degree. Course selection depends on each student’s focus within Bioagricultural Sciences and must be approved by the student’s graduate committee.
Ph.D. in Bioagricultural Sciences, Entomology Specialization

Effective Fall 2007

The Ph.D. degree requires 72 credits beyond the undergraduate degree. Course selection depends on each student’s focus within Bioagricultural Sciences and must be approved by the student’s graduate committee.

Ph.D. in Bioagricultural Sciences, Plant Pathology Specialization

Effective Fall 2007

The Ph.D. degree requires 72 credits beyond the undergraduate degree. Course selection depends on each student’s focus within Bioagricultural Sciences and must be approved by the student’s graduate committee.

Ph.D. in Bioagricultural Sciences, Weed Science Specialization

Effective Fall 2007

The Ph.D. degree requires 72 credits beyond the undergraduate degree. Course selection depends on each student’s focus within Bioagricultural Sciences and must be approved by the student’s graduate committee.

Department of Horticulture and Landscape Architecture

Departmental Main Office
Shepardson Building, Room 111
(970) 491-7019
cas_hla@mail.colostate.edu
hortla.agsci.colostate.edu (http://hortla.agsci.colostate.edu)

Professor Jessica Davis, Department Head

Undergraduate

Majors

- Environmental Horticulture
  - Landscape Business Concentration
  - Landscape Design and Contracting Concentration
  - Nursery and Landscape Management Concentration
  - Turf Management Concentration
  - Horticulture
    - Floriculture Concentration
    - Horticultural Business Management Concentration
    - Horticultural Food Crops Concentration
      - Production Option
      - Seed Science Option
    - Horticultural Science Concentration
    - Horticultural Therapy Concentration
    - Viticulture and Enology Concentration
  - Landscape Architecture

Minors

A Horticulture or Environmental Horticulture minor will serve to broaden the academic background of students seeking employment in interdisciplinary job markets associated with plant sciences or the art and science of environmental horticulture. A minor will allow students a maximum breadth and depth in the field while utilizing a limited number of requirements.

- Environmental Horticulture
- Horticulture

Graduate

Graduate Programs in Horticulture

The department offers graduate programs leading to Master of Science and Doctor of Philosophy degrees. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Horticulture (http://hortla.agsci.colostate.edu).

Master’s Programs

Master of Science in Horticulture, Plan A*
Master of Science in Horticulture, Plan B*
Master of Landscape Architecture, Plan C (M.L.A.) (No new students are being accepted into this program.)

Ph.D.

Ph.D. in Horticulture*

* Please see department for program of study.

Courses

Subjects in this department include: Horticulture (HORT) and Landscape Architecture (LAND).

Horticulture (HORT)

HORT 100 Horticultural Science Credits: 4 (3-2-0)
Course Description: Principles of plant science and related disciplines as the base and context for the introduction of horticultural practices.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Required field trips. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: Yes.
Additional Information: Biological & Physical Sciences 3A.
HORT 171  Environmental Issues in Agriculture (GT-SS3)  Credits: 3 (2-0-1)
Also Offered As: SOCR 171.
Course Description: Historical development of agriculture, environmental consequences of modern food production and other cultural approaches to agriculture.
Prerequisite: None.
Registration Information: Must register for lecture and recitation. Credit not allowed for both HORT 171 and SOCR 171.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: None.
Additional Information: Global & Cultural Awareness 3E, Human Behavior, Culture, or Social Frameworks (GT-SS3).

HORT 221  Landscape Plants  Credits: 4 (2-4-0)
Course Description: Identification, landscape features, cultural requirements, and landscape use of coniferous and deciduous trees and shrubs, vines, and evergreens.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Required field trips.
Terms Offered: Fall, Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: Yes.

HORT 231  Landscape Graphics Studio  Credits: 4 (2-4-0)
Course Description: Mechanical and freehand graphic techniques for landscape design. Use of pencil, ink, and colored markers. Plan, sectional, and perspective views.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Fall, Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

HORT 232  Principles of Landscape Design  Credits: 4 (2-4-0)
Course Description: Basic concepts in the art and process of landscape design.
Prerequisite: HORT 231.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

HORT 260  Plant Propagation  Credits: 4 (3-2-0)
Course Description: Theories, principles, and techniques of sexual and asexual propagation.
Prerequisite: BZ 120, may be taken concurrently or HORT 100, may be taken concurrently or LIFE 103, may be taken concurrently.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: Yes.

HORT 270  Fundamentals of Horticultural Therapy  Credits: 2 (2-0-0)
Course Description: Theory and practice of horticultural therapy in health care and human services; applications, settings, and professional career topics.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 277  Introduction to Enology  Credit: 1 (1-0-0)
Course Description: Methods/criteria to evaluate, compare, and describe aroma and flavor characteristics in sound commercial wines; identification of common wine defects.
Prerequisite: None.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 310  Greenhouse Management  Credits: 4 (3-2-0)
Course Description: Design and use of enclosed structures to manipulate controlled environments, effects on growth as applied to crops, production, and marketing costs.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: Yes.

HORT 321  Nursery Production and Management  Credits: 4 (3-2-0)
Course Description: Nursery industry organization, management, equipment, field and container production, storage, shipping, marketing, and business management practices.
Prerequisite: BZ 120 or HORT 100 or LIFE 103.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

HORT 322  Herbaceous Plants  Credits: 3 (2-2-0)
Course Description: Identification, landscape features, cultural requirements, and uses of ornamental annual, perennial, and bulb plants.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Sections may be offered: Online. Required field trips.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: Yes.

HORT 328  Interior Plantscaping  Credits: 3 (2-2-0)
Course Description: Interior plant culture, plant identification, interior landscape design and concepts for running an interior plantscaping business.
Prerequisite: BZ 120 or HORT 100.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

HORT 330  Computers for Landscape Design  Credits: 2 (1-2-0)
Course Description: Applications and techniques of computer software utilized in small-scale landscape design-build.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HORT 331 Landscape Design Credits: 2 (2-0-0)
Course Description: Fundamentals of landscape design theory and plant composition as presented in simple problems.
Prerequisite: None.
Registration Information: For non-design majors only.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

HORT 335 Landscape Structures Credits: 4 (2-4-0)
Course Description: Design and construction methods for structures commonly used in residential landscaping. Preparation of construction documents.
Prerequisite: CON 131 and HORT 232.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 336 Landscape Grading and Drainage Studio Credits: 4 (2-4-0)
Course Description: Basic design principles for grading, drainage, and earth forms for small-scale projects.
Prerequisite: (HORT 221 and HORT 322 and HORT 335) and (MATH 118).
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

HORT 341 Turfgrass Management Credits: 3 (2-2-0)
Course Description: Principles and practices of turfgrass propagation and maintenance.
Prerequisite: HORT 100, may be taken concurrently.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 344 Organic Greenhouse Production Credit: 1 (1-0-0)
Course Description: Fundamentals of greenhouse production using organic production methods.
Prerequisite: HORT 310.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 345 Diagnosis and Treatment in Organic Fields Credits: 2 (0-4-0)
Also Offered As: SOCR 345.
Course Description: Field experience in diagnosis of pest and nutrient problems on organic farms and development of treatment recommendations.
Prerequisite: (BSPM 302 or BSPM 308 or BSPM 361) and (HORT 100 or SOCR 100) and (SOCR 240).
Registration Information: Credit not allowed for both HORT 345 and SOCR 345. Required field trips.
Term Offered: Summer (even years).
Grade Mode: Traditional.
Special Course Fee: Yes.

HORT 367 Landscape Irrigation Credits: 3 (2-2-0)
Course Description: Practical design of sprinkler and trickle irrigation systems for commercial and residential landscapes.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: HORT 367, HORT 368, LAND 368.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 368 Landscape Irrigation and Water Conservation Credits: 3 (2-2-0)
Also Offered As: LAND 368.
Course Description: Practical approaches and methods of irrigation, water conservation, and water management in the designed landscape.
Prerequisite: HORT 100 or LAND 110.
Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: HORT 367, HORT 368, LAND 368.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 370 Landscape Irrigation Credit: 1 (1-0-0)
Course Description: Necessary skills to design and manage irrigation systems used in the landscape industry.
Prerequisite: HORT 100, may be taken concurrently.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 377 Horticultural Methods for Therapy Programs Credit: 1 (1-0-0)
Course Description: Horticultural methods for health care and human service settings, including indoor and outdoor growing techniques, management and plant selection.
Prerequisite: HORT 100 or HORT 270.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 382 Origins of Agriculture in the Andes of Peru Credits: 3 (0-0-3)
Course Description: Study abroad experience focused on understanding the agricultural, biological, cultural, and geographical diversity of the Andes region of Peru.
Prerequisite: HORT 100 or BZ 120 or LIFE 103.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 384 Supervised College Teaching Credits: Var[1-5] (0-0-0)
Course Description: Prerequisite: None.
Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 401 Medicinal and Value-Added Uses of Plants Credits: 3 (3-0-0)
Course Description: Chemical, biochemical and ethnobotanical perspective on the medicinal and value-added uses of plants.
Prerequisite: BZ 120 or HORT 100 or LIFE 103.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
HORT 410  Postharvest Biology and Technology  Credits: 3 (3-0-0)
Course Description: Storage and quality maintenance of harvested fruits and vegetables.
Prerequisite: (BZ 120 or HORT 100 or LIFE 103) and (BZ 440).
Registration Information: Offered as an online course only. Credit not allowed for both HORT 410 and HORT 481A1.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 412  Floriculture Crops  Credits: 4 (3-0-1)
Course Description: Commercial production and marketing of bedding plants, potted container crops, and cut flowers.
Prerequisite: None.
Registration Information: Must register for lecture and recitation. Required field trips. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 421  Horticultural Therapy Techniques  Credits: 2 (2-0-0)
Course Description: Clinical skills in horticultural therapy; communication, safety, leadership, therapeutic relationships, adaptation of tools and activities.
Prerequisite: HORT 270.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 423  Horticultural Therapy Programming  Credits: 2 (2-0-0)
Course Description: Methods for individual treatment planning, intervention, documentation, and reporting within therapy, social, and vocational HT programs.
Prerequisite: HORT 421.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 424  Topics in Organic Agriculture  Credits: 3 (3-0-0)
Also Offered As: SOCR 424.
Course Description: Examination of issues specific to organic food production systems and marketing.
Prerequisite: (AREC 202 or ECON 202) and (SOCR 240 and AREC 328) and (HORT 100 or SOCR 100) and (HORT 171 or SOCR 171).
Registration Information: Credit not allowed for both HORT 424 and SOCR 424.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 425  Horticultural Therapy Management  Credits: 3 (2-0-1)
Course Description: Horticultural therapy program and site design, proposals, funding, marketing, management, and evaluation.
Prerequisite: HORT 423.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 431  Planting Design Studio  Credits: 4 (2-4-0)
Course Description: Functional and aesthetic values of plant materials; their creative use in landscape design.
Prerequisite: HORT 221 and HORT 336 and HORT 322.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: Yes.

HORT 432  Intensive Landscape Design Studio  Credits: 5 (2-6-0)
Course Description: Site planning and design for landscape projects of a limited scale. Problems of increasing complexity. Emphasis on real sites and clients.
Prerequisite: HORT 487 and HORT 431.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

HORT 441  Turfgrass Science  Credits: 3 (3-0-0)
Course Description: Examination of turfgrass management practices from a scientific perspective; discussion of advanced turfgrass management technologies.
Prerequisite: BZ 120 or HORT 100 or SOCR 240.
Registration Information: Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

HORT 450A  Horticulture Food Crops: Cool Season Vegetable Production  Credit: 1 (1-0-0)
Course Description:
Prerequisite: BZ 120 or HORT 100 or LIFE 103 or SOCR 100.
Registration Information: Required field trips.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: Yes.

HORT 450B  Horticulture Food Crops: Warm Season Vegetable Production  Credit: 1 (1-0-0)
Course Description:
Prerequisite: BZ 120 or HORT 100 or LIFE 103 or SOCR 100.
Registration Information: Required field trips.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: Yes.

HORT 450C  Horticulture Food Crops: Small Fruit Production  Credit: 1 (1-0-0)
Course Description:
Prerequisite: BZ 120 or HORT 100 or LIFE 103 or SOCR 100.
Registration Information: Required field trips.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: Yes.

HORT 450D  Horticulture Food Crops: Tree Fruit Production  Credit: 1 (1-0-0)
Course Description:
Prerequisite: BZ 120 or HORT 100 or LIFE 103 or SOCR 100.
Registration Information: Required field trips.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: Yes.
HORT 452  Viticulture-Grape Production  Credit: 1  (1-0-0)  
Course Description:  Grape production in temperate zone climates.  
Prerequisite:  BZ 120 or HORT 100 or LIFE 103 or SOCR 100.  
Term Offered:  Fall (even years).  
Grade Mode:  Traditional.  
Special Course Fee:  No.

HORT 454  Horticulture Crop Production and Management  Credits: 2  (2-0-0)  
Course Description:  Production and management of horticulture crops.  
Term Offered:  Spring.  
Grade Mode:  Traditional.  
Special Course Fee:  No.

HORT 460  Plant Breeding  Credits: 3  (2-0-1)  
Also Offered As:  SOCR 460.  
Course Description:  Theory and practice of plant breeding using principles of genetics and related sciences.  
Prerequisite:  HORT 100.  
Registration Information:  Must register for lecture and recitation. Credit not allowed for both HORT 460 and SOCR 460.  
Term Offered:  Fall (odd years).  
Grade Mode:  Traditional.  
Special Course Fee:  No.

HORT 461  Plant Breeding Laboratory  Credit: 1  (0-2-0)  
Also Offered As:  SOCR 461.  
Course Description:  Techniques and procedures used in public and commercial plant breeding programs.  
Prerequisite:  HORT 460, may be taken concurrently or SOCR 460, may be taken concurrently. 
Registration Information:  Credit not allowed for both HORT 461 and SOCR 461.  
Term Offered:  Fall (odd years).  
Grade Mode:  Traditional.  
Special Course Fee:  No.

HORT 462  Viticulture Practices in Grape Production  Credits: 3  (3-0-0)  
Course Description:  Biology of grape vines and cultural practices including planning, training, pest control, pruning, and harvesting; special emphasis on Colorado.  
Prerequisite:  None.  
Term Offered:  Fall (odd years).  
Grade Mode:  Traditional.  
Special Course Fee:  No.

HORT 464A  Arboriculture  Credits: 3  (2-2-0)  
Course Description:  Practices used by arborists and landscape managers to plant, appraise and maintain landscape trees.  
Prerequisite:  HORT 100 and SOCR 240.  
Registration Information:  Sections may be offered: Online. Credit not allowed for both HORT 464A and HORT 464B. Required field trips.  
Term Offered:  Fall.  
Grade Modes:  S/U within Student Option, Trad within Student Option.  
Special Course Fee:  No.

HORT 465  Landscape Estimating  Credits: 3  (2-2-0)  
Course Description:  Landscape construction estimating and bidding, contract documentation and other business practices relevant to landscape design-build and contracting.  
Prerequisite:  (MATH 117) and (MATH 118) and (MATH 124 or MATH 125 or MATH 141 or MATH 155) and (HORT 221).  
Registration Information:  Must register for lecture and laboratory.  
Term Offered:  Fall.  
Grade Modes:  S/U within Student Option, Trad within Student Option.  
Special Course Fee:  No.

HORT 466  Urban and Community Forestry  Credits: 3  (3-0-0)  
Also Offered As:  F 466.  
Course Description:  Policies and management of publicly and privately owned community forests in urbanized areas.  
Prerequisite:  F 310 or RS 310 or HORT 221.  
Term Offered:  Fall (even years).  
Grade Mode:  Traditional.  
Special Course Fee:  No.

HORT 476  Environmental Plant Stress Physiology  Credits: 3  (3-0-0)  
Course Description:  Plant growth, development and physiology, major sources of stress in plants, global issues in environment and plant stress.  
Prerequisite:  BZ 440.  
Registration Information:  Credit not allowed for both HORT 476 and HORT 576. Sections may be offered: Online.  
Term Offered:  Fall (odd years).  
Grade Mode:  Traditional.  
Special Course Fee:  No.

HORT 477  Enology-History and Winemaking  Credits: 3  (3-0-0)  
Course Description:  History and development of the wine industry; mechanics of various processes and factors affecting wine quality and consumer acceptance.  
Prerequisite:  CHEM 107, may be taken concurrently and CHEM 111, may be taken concurrently and CHEM 112, may be taken concurrently.  
Term Offered:  Fall (even years).  
Grade Mode:  Traditional.  
Special Course Fee:  No.

HORT 479  Professional Landscape Practices  Credits: 2  (2-0-0)  
Course Description:  Business skills involved in a successful career in the green industry.  
Prerequisite:  HORT 100 and HORT 465.  
Term Offered:  Spring.  
Grade Mode:  Traditional.  
Special Course Fee:  No.

HORT 486A  Practicum: Floriculture  Credits: 2  (0-4-0)  
Course Description:  Directed experience in applications of floriculture technique. Fall: pest, energy, and production. Spring: production and experimentation.  
Prerequisite:  HORT 310.  
Terms Offered:  Fall, Spring.  
Grade Mode:  Instructor Option.  
Special Course Fee:  No.
HORT 486B Practicum: General Credits: Var[1-6] (0-0-0)
Course Description: Directed experiences in applications of horticulture techniques and procedures.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HORT 487 Internship Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HORT 495 Independent Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HORT 496 Group Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HORT 511 Green Roof Culture Credits: 2 (2-0-0)
Course Description: Understand the relevance of green roofs in North America, especially the process, from concept to project completion and maintenance.
Prerequisite: HORT 100 to 199 - at least 3 credits.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
HORT 515 Urban Horticulture Credits: 3 (3-0-0)
Also Offered As: AGRI 515.
Course Description: Investigate and evaluate the techniques of incorporating food production systems in the urban and peri-urban environment.
Prerequisite: HORT 450A or HORT 450B or HORT 450C or HORT 450D. Registration Information: Credit not allowed for both HORT 515 and AGRI 515. Offered only online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HORT 521 Horticulture and Human Health and Well-Being Credits: 3 (3-0-0)
Course Description: Impact of principles and practices of horticulture on human health and well-being.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Bachelor’s degree required. Sections may be offered: Online.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.
HORT 522 Horticulture and Human Health Issues Credits: 3 (3-0-0)
Course Description: Horticulture is an essential instrument of public health, but often professionals in these fields view themselves as opponents. Examine issues arising in the production of foods for human consumption that human health professionals often encounter. Overcome the barriers that divide horticulture and human health professionals.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Sections may be offered: Online.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
HORT 571 Soil-Plant-Water Relations/Water Stress Credits: 3 (3-0-0)
Course Description: Movement of water in the soil-plant-atmosphere continuum. Instrumentation for measuring plant-water relations. Plant responses to drought and salinity.
Prerequisite: BZ 440.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.
HORT 575 Plant Germplasm Conservation Credits: 2 (2-0-0)
Course Description: Principles, concepts, and methodology for collection, conservation, and utilization of plant genetic resources.
Prerequisite: HORT 460 or SOCR 460.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.
HORT 576 Advanced Environmental Plant Stress Physiology Credits: 4 (3-0-1)
Course Description: Advanced aspects of plant growth, development and physiology, major sources of stress in plants, global issues in environment and plant stress.
Prerequisite: BZ 440.
Registration Information: Must register for lecture and recitation. Credit not allowed for both HORT 576 and HORT 476.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
HORT 577 Phytochemicals and Probiotics for Health Credits: 3 (2-0-1)
Also Offered As: FTEC 578.
Course Description: Examination of phytochemicals and probiotic organisms important in human health.
Prerequisite: BC 351.
Registration Information: Senior standing. Must register for lecture and recitation. Credit not allowed for both FTEC 578 and HORT 578.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HORT 579 Metabolomics Methods and Analysis  Credits: 2 (1-2-0)
Course Description: Experimental designs and workflows to generate, computationally process and analyze metabolite data. Methods to detect small molecules and proteins using mass spectrometry, and cover processing and interpretation of chemical data for metabolomics and proteomics studies. Course format includes lecture, computer lab, literature review, and student presentations.
Prerequisite: None.
Registration Information: Graduate standing. Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 588 Supervised Extension Practices  Credits: Var[1-18] (0-0-0)
Course Description: Field experiences in extension practices in horticulture.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 601 Topics in Root and Rhizosphere Biology  Credits: 2 (1-0-1)
Course Description: In-depth overview of the biology of roots and the rhizosphere processes related to roots.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: One course in plant physiology; one course in biochemistry. Must register for lecture and recitation.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 675 Plant Stress Physiology  Credits: 3 (3-0-0)
Course Description: Research concepts based on physiological, biochemical, and molecular mechanisms controlling environmental stresses in plants.
Prerequisite: BZ 440.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 698 Research  Credits: Var[1-18] (0-0-0)
Course Description:
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 699 Thesis  Credits: Var[1-18] (0-0-0)
Course Description:
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 784 Supervised College Teaching  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 792 Seminar  Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 795 Independent Study  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 799 Dissertation  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Landscape Architecture (LAND)

LAND 110 Introduction to Landscape Architecture  Credits: 3 (1-2-1)
Course Description: Introductory theories, methods, and applications of landscape studies.
Prerequisite: None.
Registration Information: Must register for lecture, laboratory, and recitation.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 120 History of the Designed Landscape  Credits: 3 (3-0-0)
Course Description: Major monuments and spaces from ancient Middle East through classical antiquity, the Renaissance, and Western tradition.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 200 Topics in Landscape Theory and Garden Design  Credits: 3 (3-0-0)
Course Description: Landscape theory and design principles in garden design. Students will be engaged through online discussions and will record weekly exercises and course material with the development of a sketchbook and blog/website postings.
Prerequisite: None.
Registration Information: This is a partial semester course. Offered as an online course only.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
LAND 220 Fundamentals of Ecology (GT-SC2) Credits: 3 (3-0-0)
Also Offered As: LIFE 220.
Course Description: Interrelationships among organisms and their environments.
Prerequisite: (BIO 100 to 199 - at least 3 credits or BZ 100 to 199 - at least 3 credits or LIFE 100 to 199 - at least 3 credits or MATH 100 to 199 - at least 3 credits).
Registration Information: Credit allowed for only one of the following: LAND 220/LIFE 220, or LIFE 320. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

LAND 230 Drawing the Landscape Credits: 4 (2-4-0)
Course Description: Visual communication techniques; exploration of symbology, model building, design development drawing, and construction documentation draughting.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 240 Fundamentals of Landscape Design Process Credits: 4 (1-4-1)
Course Description: Initiation of formal exploration of design elements, materials, and principles, and introduction of design process as a defensible methodology.
Prerequisite: LAND 230.
Registration Information: Must register for lecture, laboratory and recitation.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

LAND 241 Environmental Analysis Credits: 3 (1-4-0)
Course Description: Exploration and understanding of natural and cultural landscapes through analytical simulation techniques.
Prerequisite: LAND 230.
Registration Information: Must have concurrent registration in LAND 240. Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 357 Omnibus Field Studies Credits: 4 (0-8-0)
Course Description: Theories and methods for the analysis, design, and planning of garden and landscape scale environments.
Prerequisite: None.
Registration Information: 3 credits in landscape drawing and analysis.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: Yes.

LAND 360 Basic Landscape Design and Construction Credits: 3 (0-6-0)
Course Description: Site programming analysis, design, and construction, including skill development in specifying earthwork, drainage, and vegetative composition.
Prerequisite: LAND 240.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

LAND 361 Digital Methods Credits: 3 (2-2-0)
Course Description: Landscape research, analysis, and design with ARCVIEW, AutoCAD, Microstation, and Photoshop.
Prerequisite: LAND 360, may be taken concurrently.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

LAND 362 Form and Expression in Garden Design Credits: 3 (0-6-0)
Course Description: Formal decision making for site scale environments, including creative processes for form-giving, and generation of experimental solutions.
Prerequisite: LAND 361.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 363 Advanced Landscape Site Engineering Credits: 4 (2-4-0)
Course Description: Understanding and documenting the built environment with emphasis on construction and surveying as integral parts of design process.
Prerequisite: LAND 360.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 364 Design and Nature Credits: 4 (1-6-0)
Course Description: Computer-aided processes for siting, organizing, and evaluating cultural activities within ecologically fragile, landscape-scale environments.
Prerequisite: LAND 361.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

LAND 365 Landscape Contract Drawing and Specifications Credits: 3 (2-2-0)
Course Description: Construction details, design development, and construction documentation emphasizing implementation of design projects.
Prerequisite: LAND 363.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 366 Landscape Design Expression Credits: 4 (0-8-0)
Course Description: Idea, values, and process landscape form applied to interactions of natural, cultural systems at the site and community scale; design competitions.
Prerequisite: LAND 365.
Registration Information: Credit not allowed for both LAND 366 and LAND 376.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
LAND 368  Landscape Irrigation and Water Conservation  Credits: 3 (2-2-0)
Also Offered As: HORT 368.
Course Description: Practical approaches and methods of irrigation, water conservation, and water management in the designed landscape.
Prerequisite: LAND 110 or HORT 100.
Registration Information: Credit not allowed for both LAND 368 and HORT 367 or HORT 368. Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 369  Landscape Design and Visualization  Credits: 4 (0-8-0)
Course Description: Precedents, ideas, values and processes of landscape form applied to landscape systems at the site and community scale; design competitions.
Prerequisite: LAND 362.
Registration Information: Credit not allowed for both LAND 376 and LAND 366. Required field trips.
Term Offered: Summer.
Grade Mode: Instructor Option.
Special Course Fee: Yes.

LAND 378  Supervised College Teaching  Credits: Var[1-5] (0-0-0)
Course Description: Terminal studio; research, analysis, and synthesis for comprehensive project identified by student and approved in advance by faculty committee.
Prerequisite: LAND 447.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 444  Ecology of Landscapes  Credits: 3 (3-0-0)
Course Description: Theories, methods, and practices for interpreting, describing, and representing natural and human modified landscapes.
Prerequisite: LAND 220 or LIFE 220 or LIFE 320.
Registration Information: Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 445  Field Studies  Credits: 5 (1-6-1)
Course Description: Exploration of major theoretical platforms in design through drawing, photographing, and measuring landscape architecture precedents in Europe.
Prerequisite: LAND 362.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 445A  Independent Study: Design Projects  Credits: Var[1-4] (0-0-0)
Course Description: Theory and skills of landscape architectural professional practice including functional, human, business, legal, and political aspects.
Prerequisite: LAND 447, may be taken concurrently.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 446  Urban Design  Credits: 4 (0-8-0)
Course Description: Designing the urban landscape, including precedent exploration about overall image, materials, and structure of the city and its components.
Prerequisite: LAND 366.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.
LAND 510  Virtual Design Methods  Credits: 3 (2-2-0)
Course Description: Exploration and application of advanced computing technology and methods for analyzing and organizing natural and cultural landscapes.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 520  Geographic Information Systems  Credits: 3 (1-4-0)
Course Description: Theories and applications of geographic information systems in spatial analysis and land planning.
Prerequisite: LAND 241
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 560  Structure of Landscape Patterns  Credits: 3 (2-2-0)
Course Description: Mechanisms and concepts in landscape structure for planning, design, and environmental management.
Prerequisite: LIFE 320.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 610  Topics in Garden Design  Credits: 4 (2-6-0)
Course Description: Garden design theories, methods, and operations.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 620  Topics in Park Design  Credits: 4 (2-6-0)
Course Description: Ideas, values, and processes of landscape form applied to interactions of natural and cultural systems for park and recreation applications.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 630  Topics in Urban Design  Credits: 4 (2-6-0)
Course Description: History and application of urban design principles, practices, and policies.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 640  Major Landscape Change  Credits: 4 (2-6-0)
Course Description: Addresses social and ecological resilience of large-scale landscapes through theory and application.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 670  Landscape Architecture Studio Option  Credits: 4 (1-6-1)
Course Description: Ideas, values, and processes of landscape architectural studio practice.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Course may be taken up to 5 times for credit. Must register for lecture, laboratory, and recitation.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 695A  Landscape Architectural Independent Study: Design Projects  Credits: Var[1-4] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 695B  Landscape Architectural Independent Study: Field Service  Credits: Var[1-4] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 698  Research  Credits: Var[1-5] (0-0-0)
Course Description: Guided research experience in landscape architecture.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

Major in Environmental Horticulture

Environmental horticulturists provide solutions necessary to achieve aesthetically pleasing, functional, and environmentally sound outdoor spaces. They also design and manage private and public landscapes, such as golf courses, botanical gardens, and parks. In addition, they may develop the entrepreneurial skills necessary to successfully operate a nursery, garden center, tree care, landscape design, and build or landscape management firm. Four concentrations are offered in the Environmental Horticulture major—Landscape Business, Landscape Design and Contracting, Nursery and Landscape Management, and Turf Management.
Learning Outcomes
Successful students will demonstrate:

- Management and leadership skills necessary for a successful career in the green industry
- Technical competencies in their understanding of growth and development of horticultural plants and landscapes, including development as influenced by manipulation of horticulture technologies, such as fertility and water management, and integrated pest management for all aspects of landscape horticulture
- Skills to assess site issues, provide creative environmentally sound solutions and manage designed, and built landscapes
- Analytical and problem solving skills that allow identification of problems related to the management or production of horticultural crops and landscapes, as well as strategies to solve them

Potential Occupations
Graduates of the Environmental Horticulture major will find career opportunities in a multitude of fields in the green industry. Emerging demand for environmental solutions and green technologies will position our students for careers in a wide variety of areas including: landscape design and construction, sports turf management, retail and wholesale nursery and garden center management; golf course superintendence, arborists, plant propagation, landscape project management, landscape management, landscape estimating, green industry account management, irrigation design and water resource management, arboriculture, botanic gardens or arboreta, or landscape business management and entrepreneurship.

Concentrations
- Landscape Business Concentration
- Landscape Design and Contracting Concentration
- Nursery and Landscape Management Concentration
- Turf Management Concentration

Major in Environmental Horticulture, Landscape Business Concentration
The Landscape Business concentration prepares individuals for careers in business management, production, operations, account management, entrepreneurship, landscape management, and project management opportunities in the green industry. This concentration focuses on both horticulture and business. Students will develop skills in estimating project costs, plant selection and care, as well as business management techniques. Students completing this concentration will also earn a minor in Business Administration through the College of Business. This concentration is fully accredited by the National Association of Landscape Professionals (NALP). Additionally, students are required to complete an internship, furthering their learning opportunities.

Major in Environmental Horticulture, Landscape Design and Contracting Concentration

The Landscape Design and Contracting concentration prepares students for careers in the design-build profession for residential, commercial, and public properties. Landscape designers and contractors create, build, and manage landscape projects and work in close collaboration with other design and contracting professionals. Students will develop skills to provide environmental solutions, creating projects that minimize the impact on the environment.

They also acquire skills to manage multifaceted projects of all scales, including site design, estimating of job and labor costs, construction methods and techniques, plant selection and care, as well as business management skills. Experiential learning opportunities lead to projects allowing our students to work with clients and realize built works prior to graduating. Additionally, students are required to complete an internship, furthering their learning opportunities. This concentration is fully accredited by the National Association of Landscape Professionals (NALP). Graduates of this concentration are recognized by the Colorado State Board of Landscape Architects, allowing our students to become eligible for landscape architecture licensure.

HORT 465 and HORT 487 must be completed by the end of Semester 7.

Total Credits 17
Major in Environmental Horticulture, Nursery and Landscape Management Concentration

Nursery and Landscape Management provides extensive training in landscape plant culture and use; and also develops skills needed to start and manage a nursery, garden center, arboriculture, or landscape management firm. Nursery specialists produce trees, shrubs, groundcovers, and herbaceous perennials for the landscape industry. Graduates become nursery and landscape managers who oversee and manage general landscape operations; choose the type and quantity of horticultural plants to be grown; select and purchase seed, fertilizers, and pest control chemicals; hire employees, direct and coordinate work activities; manage record-keeping, and implement marketing plans. Supporting courses are taught in plant and soil science, pest management, business management, horticulture and plant materials. An internship is required to ensure graduates have practical experience.

**Major in Environmental Horticulture, Turf Management Concentration**

The Turf Management concentration trains students for management opportunities ranging from sod production to the establishment and maintenance of private and public grounds. Turfgrass managers are supervisors for golf courses, ski resorts, sports fields, and parks departments. Turfgrass professionals manage and train personnel, draw up work contracts, and allocate labor and financial resources efficiently. Graduates develop expertise in production and maintenance of ornamental and functional turfgrass areas with supplemental courses in nursery and landscape management, plant and soil science, business management, and irrigation design. An internship is required...
to ensure graduates have practical experience, furthering their learning opportunities.

**Requirements**

**Effective Fall 2013**

**Major in Horticulture**

Horticulture is the application of scientific principles in the growing, marketing, processing, and utilizing of fruits, vegetables, flower and foliage plants, trees, shrubs, and turf grasses. The major requires a strong grounding in botany, chemistry, and horticulture. There are six concentrations in the Horticulture major: Floriculture, Horticultural Business Management, Horticultural Food Crops, Horticultural Science, Horticultural Therapy, and Viticulture and Enology.

**Learning Outcomes**

Successful students will demonstrate:

- Technical competence that includes understanding plant growth and development as influenced by the manipulations of horticulture technologies such as greenhouse management, fertility management, integrated pest management, etc.
- Management and leadership skills that will allow them to become an entry-level supervisor in a specific business or research program.
- Problem solving skills such as identifying the significance of a problem, researching realistic solutions using current literature, and organizing the materials to develop appropriate recommendations and actions.

**Potential Occupations**

Horticulture is both a production and service industry. Well-educated horticulturists have the best opportunity for obtaining positions and moving up in the industry. The industry will be looking for professionals who can manage greenhouses, nurseries, and floral outlets, buy and sell supplies, plant material, and equipment, or edit journals and newsletters. Meeting the nutritional needs of the world population is an important challenge. Researchers are needed to develop improved fruit and vegetable varieties. Other professionals are needed to improve production and transportation methods and to develop and market better fertilizers. Within this field, students can exercise their talents and interests in computers, construction, engineering, chemistry, physics, social services, or business management. Participation in internships and cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Some examples include: biotechnologist, extension specialist, floriculturist, fruit and vegetable grower, grape producer, greenhouse supplies/seed and plant material sales representative, greenhouse production manager, horticultural therapist, interior plant maintenance technician, marketing representative, plant breeder, produce buyer, winemaker.

**Concentrations and Options**

- Floriculture Concentration
- Horticultural Business Management Concentration
- Horticultural Food Crops Concentration
  - Production Option
Major in Horticulture, Floriculture Concentration

Floriculture emphasizes greenhouse-grown flower crops. Students study propagation, production, utilization, and improvement of plants, and are prepared to grow quality greenhouse products. Courses include the production, use, and marketing of cut flowers, bedding, and potted plants, which give this concentration its focus. Students are also required to take a practicum and an internship in their junior and/or senior years. A number of opportunities exist in floriculture-related professions including greenhouse production, all phases of retail and wholesale floral business, greenhouse supply sales, greenhouse construction and computerized environmental control, plant breeding and plant research.

Major in Horticulture, Horticultural Business Management Concentration

Horticultural Business Management provides the broadest horticultural background available. The curriculum consists of a core of business, computer, and economics courses. In Horticulture, students choose a special emphasis, or take an array of courses that may lead to greater job opportunities. Graduates have the knowledge to manage a horticulture business or work in market-associated positions. Opportunities exist in the sale of facilities, plant material, equipment, and supplies involved in all aspects of horticulture, or as buyers of horticulture products in the U.S. or in international markets. With careful selection of business courses, Horticulture graduates can complete a minor in Business Administration with one additional course.

Major in Horticulture, Horticultural Food Crops Concentration

The Horticultural Food Crops concentration focuses on systems related to production of fruits and vegetables. Specific courses include fruit and vegetable production, irrigation practices, soil fertility, propagation, breeding, and related plant pest management courses. Students must choose either the Production or Seed Science option. Those interested in organic food crop production can major in Horticulture in the Horticultural Food Crops concentration and pursue the Organic Agriculture Interdisciplinary Minor. A number of opportunities exist in horticultural food crops-related professions including greenhouse production, all phases of the retail and wholesale business, greenhouse supply sales, greenhouse construction, seed production and sales, plant breeding and plant research.

Options

• Production Option
• Seed Science Option

Major in Horticulture, Horticultural Food Crops Concentration, Production Option

Program Total Credits: 120
# Major in Horticulture, Horticultural Science Concentration

Horticultural Science graduates conduct research to discover new information about plant growth, development, and environmental response. This research can lead to new plant varieties and production methods. The curriculum consists of a solid foundation in the basic natural sciences as well as in agricultural sciences and prepares students for technical and scientific careers in laboratory, greenhouse, or field research. Exceptional students participate in individual research projects coordinated by professors. Graduates in this area often continue their education.

Total Credits

Program Total Credits: 120

¹ The equivalent to MATH 117, MATH 118, and MATH 125, if needed, may be taken using elective credits.

² Students must select at least 13 credits of upper division (300- to 400-level) horticulture elective and/or free elective courses to bring the program total of upper division credits to a minimum of 42. Select enough elective credits to bring the program total to 120 credits.

### Major in Horticulture, Horticultural Therapy Concentration

The Horticultural Therapy concentration combines horticulture courses with the study of therapy/human sciences, leading to careers in health care and human services. Horticultural Therapy students gain the skills necessary to establish, manage, and work in a range of program types such as mental health, vocational, correctional, rehabilitative, wellness, educational, community-based and long term care.

Program Total Credits: 120

Major in Horticulture, Viticulture and Enology Concentration

The Viticulture and Enology concentration is designed to give students a background in food crop production with a focus on grapes and their processing into wine. Students gain practical experience through required internships in grape production and winemaking. This is accomplished via one or more internships at a winery and/or vineyard. Students take background courses in science and pest identification and management as well as food safety and plant nutrition. Students completing the concentration have the opportunity to enter the industry as an assistant grower or winemaker.

**Major in Landscape Architecture**

Studying Landscape Architecture at CSU is an adventure. Taking part in a challenging course of study, students prepare themselves for careers in a field whose enormous potential has only begun to be recognized. Landscape Architecture students study design as accomplished landscape architects see it: shaping spaces as well as planning and preserving them.

Landscape architects lead the stewardship, planning, and design of built and natural environments. Throughout the program, emphasis is on the relationship between design, nature, and society: the impact of environments on the individual as well as the impact of users on the environment. Registration laws for landscape architects in 49 states encourage graduation from programs such as that offered at CSU, which is accredited by the Landscape Architecture Accreditation Board of the American Society of Landscape Architects.

Landscape architects must analyze the natural elements of a site including the climate, soil, slope of the land, drainage, sunlight, and vegetation. Computer-aided design (CAD) has become an essential tool for landscape architects. Landscape architects often work with building architects, surveyors, engineers, and urban planners and collaborate with environmental scientists, foresters, and other professionals to find the best way to conserve or restore natural resources. Knowledge of appropriate local, state, or federal regulations such as those protecting wetlands or historic resources is essential.

Nature, culture, form, and space are the classic elements of landscape architecture with which students work in a series of design studies and related courses. Coursework focuses on a variety of landscape projects that grow more complex as the curriculum proceeds. The courses include subjects such as site design, landscape design and construction, surveying, landscape ecology, and urban and regional planning. Other courses specific to the major are history of the designed landscape, plant and soil science, geology, and professional practice. Students are also encouraged to take advantage of summer travel courses available to study highly-valued ecological/cultural sites in Colorado and designed landscapes in Europe.

CSU offers the only nationally accredited undergraduate professional landscape architecture program in Colorado, via the Landscape Architectural Accreditation Board (http://www.asla.org/accreditationlaab.aspx) (LAAB).

---

**Learning Outcomes**

Successful students will demonstrate:

- Basic problem solving skills and knowledge for comprehensive landscape design that include the following characteristics:
  - Research of natural systems, cultural systems, users, and precedents
  - Analysis of related site systems and users
  - Synthesis, the articulation of formal responses to research and analysis findings
- Technical competency in basic landscape architectural methods and communication, including organization of writing, project development, representation, and documentation
- Fundamental knowledge and skills appropriate to public and private entry-level landscape architecture including:
a. Application of digital media  
b. Technology applications for analysis and design  
c. Landscape design  
d. Representation for analysis and design  

Potential Occupations  
Many types of organizations and individuals hire landscape architects – from real estate development firms starting new projects, municipalities constructing airports or parks, to home owners desiring garden designs. Many landscape architects are employed by government agencies doing site design for buildings, parks, and other public assets. Others are involved in park and recreation planning in national parks and forests, and restoration of environmentally damaged landscapes. Employment of landscape architects is expected to increase faster than the average for all occupations through the year 2015. Starting

in 1998, average salaries for landscape architects exceeded average salaries of architects. Anticipated growth in construction is expected to increase demand for landscape architectural services over the long run. Participation in internships and cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels. Some examples include: design consultant, landscape designer and contractor, private practice business, construction supervisor, land or environmental planner, urban designer, historic preservationist, golf course architect, resort planner.

**Minor in Environmental Horticulture**

A Minor in Environmental Horticulture will serve to broaden the academic background of students seeking employment in interdisciplinary job markets associated with plant sciences or the art and science of environmental horticulture. A minor will allow students a maximum breadth and depth in the field while utilizing a limited number of requirements.

**Requirements**

**Effective Spring 2017**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

**Total Credits:** 20

**Minor in Horticulture**

**Requirements**

**Effective Fall 2008**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.
Second Year
Select one from the following: 4
- LAND 630 Topics in Urban Design
- LAND 640 Major Landscape Change

Select one from the following: 3
- LAND 510 Virtual Design Methods
- LAND 520 Geographic Information Systems
- LAND 620 Topics in Park Design

Focus Area Electives (see list below) 9

Total Credits 20
Program Total Credits: 40

A minimum of 40 credits are required to complete this program.

Department of Soil and Crop Sciences

Office in Plant Sciences Building, Room C127
(970) 491-6551
soilcrop.agsci.colostate.edu (http://soilcrop.colostate.edu)

Dr. Matthew Wallenstein, Department Head

Undergraduate Majors

- Major in Soil and Crop Sciences
  - Agronomic Production Management Concentration
  - Applied Information Technology Concentration
  - International Soil and Crop Sciences Concentration
  - Plant Biotechnology, Genetics, and Breeding Concentration
• Soil Ecology Concentration
• Soil Restoration and Conservation Concentration

Minors
• Minor in Soil Resources and Conservation
• Minor in Soil Science
• Organic Agriculture Interdisciplinary Minor

Graduate

Graduate Programs in Soil and Crop Sciences
Programs in crop science, soil science, or plant genetics lead to Master of Science and Doctor of Philosophy degrees. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Soil and Crop Sciences. (http://soilcrop.agsci.colostate.edu)

Master’s Programs
Master of Science in Soil and Crop Sciences, Plan A*
Master of Science in Soil and Crop Sciences, Plan B*

Ph.D.
Ph.D. in Soil and Crop Sciences*

* Please see department for program of study.

Courses

Soil and Crop Sciences (SOCR)

SOCR 100 General Crops Credits: 4 (3-2-0)
Course Description: Production and adaptation of cultivated crops; principles affecting growth, development, management, and utilization.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 171 Environmental Issues in Agriculture (GT-SS3) Credits: 3 (2-0-1)
Also Offered As: HORT 171.
Course Description: Historical development of agriculture; environmental consequences of modern food production and other cultural approaches to agriculture.
Prerequisite: None.
Registration Information: Must register for lecture and recitation. Credit not allowed for both SOCR 171 and HORT 171.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 200 Seed Anatomy and Identification Credit: 1 (0-2-0)
Course Description: Principles of seed anatomy including reproduction, identification, and seed characteristics of plant families.
Prerequisite: BZ 104 or BZ 110 or BZ 120 or HORT 100 or LIFE 102 or SOCR 100.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 201 Seed Development and Metabolism Credit: 1 (0-2-0)
Course Description: Basic processes controlling seed development, maturation, dormancy, storage, germination, and how these factors relate to seedling growth.
Prerequisite: BZ 104 or BZ 110 or BZ 120 or HORT 100 or LIFE 102 or SOCR 100.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 240 Introductory Soil Science Credits: 4 (3-2-0)
Course Description: Formation, properties, and management of soils emphasizing soil conditions that affect plant growth.
Prerequisite: CHEM 107 or CHEM 111.
Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 300 Seed Purity Analysis Credits: 2 (0-4-0)
Course Description: Fundamentals for determining physical purity of a seed lot using established rules and procedures.
Prerequisite: SOCR 200.
Registration Information: Written consent of instructor. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 177 Applied Information Technology in Agriculture Credit: 1 (1-0-0)
Course Description: Introduction to database and project management, GIS/GPS and remote sensing, as they apply to agriculture, the environment, and business management.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 192 Water in the West Credits: 3 (0-0-3)
Course Description: History and current status of water resources management and policy in the western United States.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

* Please see department for program of study.
SOCR 301 Seed Germination and Viability Credits: 2 (0-4-0)

Course Description: Seed viability tests including standard germination and tetrazolium, seed viability, dormancy, parameters of viability and evaluation.

Prerequisite: SOCR 201.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Term Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOCR 310 Agronomic Plant and Seed Identification Credits: 2 (0-4-0)

Course Description: Evaluate characteristics needed to identify agronomic plant and seed species.

Prerequisite: BZ 104 or BZ 110 or BZ 120 or HORT 100 or LIFE 102 or SOCR 100.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOCR 320 Forage and Pasture Management Credits: 3 (3-0-0)

Course Description: Fundamentals of establishment, management, and utilization of cultivated forages including hay, silage, and pasture production.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

SOCR 322 Principles of Microclimatology Credits: 3 (3-0-0)

Course Description: Principles of microclimatology including energy balance concepts for soil and vegetation surfaces, and their application.

Prerequisite: PH 100 to 499 - at least 3 credits.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOCR 330 Principles of Genetics Credits: 3 (3-0-0)

Course Description: Transmission, population, and molecular genetics; practical applications.

Prerequisite: BZ 110 or BZ 120 or LIFE 102.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOCR 331 Genetics Laboratory Credit: 1 (0-3-0)

Course Description: Experimental techniques in transmission and molecular genetics.

Prerequisite: SOCR 330, may be taken concurrently.

Term Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOCR 341 Microbiology for Sustainable Agriculture Credit: 1 (1-0-0)

Course Description: Functional roles and management of soil organisms in organic agriculture, emphasis on ecological interactions with plants and plant pathogens.

Prerequisite: SOCR 240.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

SOCR 343 Composting Principles and Practices Credit: 1 (1-0-0)

Course Description: Fundamentals of compost production, use, and regulation.

Prerequisite: SOCR 240 and SOCR 350.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: Yes.

SOCR 344 Crop Development Techniques Credits: 2 (2-0-0)

Course Description: Conventional and transgenic approaches to crop variety development.

Prerequisite: BZ 120 or LIFE 102 or LIFE 103.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

SOCR 345 Diagnosis and Treatment in Organic Fields Credits: 2 (0-4-0)

Also Offered As: HORT 345.

Course Description: Field experience in diagnosis of pest and nutrient problems on organic farms and development of treatment recommendations.

Prerequisite: (BSPM 302 or BSPM 308 or BSPM 361) and (HORT 100 or SOCR 100) and (SOCR 240).

Registration Information: Credit not allowed for both SOCR 345 and HORT 345. Required field trips.

Term Offered: Summer (even years).

Grade Mode: Traditional.

Special Course Fee: Yes.

SOCR 350 Soil Fertility Management Credits: 3 (3-0-0)

Course Description: Managing soil fertility and fertilizers to meet plant nutrient requirements in an environmentally sound manner with emphasis on nutrient cycling.

Prerequisite: (CHEM 107 and CHEM 108 or CHEM 111 and CHEM 112) and (SOCR 240).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SOCR 351 Soil Fertility Laboratory Credit: 1 (0-2-0)

Course Description: Soil chemical analyses and development of fertilizer recommendations for crops.

Prerequisite: SOCR 350, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SOCR 370 Irrigation Principles Credits: 2 (2-0-0)

Course Description: Determination of irrigation water requirements based on the estimation of storage and movement of water in the soil-plant-atmospheric system.

Prerequisite: (HORT 100 or SOCR 100 or BZ 120) and (SOCR 240).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOCR 371 Irrigation of Field Crops Credit: 1 (1-0-0)

Course Description: Management of irrigation systems for field crops with emphasis on irrigation methods, irrigation scheduling and strategies for water conservation.

Prerequisite: SOCR 370.

Registration Information: Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.
SOCR 377 Geographic Information Systems in Agriculture Credits: 3 (2-2-0)
Course Description: Introduction to geographic information systems and global positioning systems with applications to agriculture.
Prerequisite: SOCR 100 to 499 - at least 3 credits or CS 100 to 499 - at least 3 credits.
Registration Information: Credit not allowed for both SOCR 377 and SOCR 577. Required field trips.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: Yes.
SOCR 384 Supervised College Teaching Credits: Var[1-5] (0-0-0)
Course Description:
Prerequisite: None.
Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
SOCR 400 Soils and Global Change: Science and Impacts Credits: 3 (2-2-0)
Course Description: Foundations on the science of global change and its impact on soil processes and biota.
Prerequisite: SOCR 240 and (LIFE 220 or LIFE 320).
Registration Information: Required field trips. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
SOCR 401 Greenhouse Gas Mitigation, Land Use, and Mgmt Credits: 3 (2-3-0)
Course Description: Introduction to greenhouse gas estimation methods and mitigation project development in the land use sector.
Prerequisite: SOCR 240.
Registration Information: Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
SOCR 410 Seed Processes: Storage and Deterioration Credit: 1 (0-0-1)
Course Description: Environmental conditions and management factors influencing storage and deterioration of seeds, including physiological and biochemical changes.
Prerequisite: BZ 104 or BZ 105 or BZ 120.
Registration Information: Offered as an online course only.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
SOCR 411 Large Seeded Legume Seed Production Credit: 1 (1-0-0)
Course Description: Principles for seed production of large-seeded legume crops with emphasis on common bean, peanut, and soybean.
Prerequisite: BZ 104 or BZ 105 or BZ 120.
Registration Information: Offered as an online course only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
SOCR 412 Seed Processes: Separation and Conditioning Credit: 1 (1-0-0)
Course Description: Understanding the physical process required to separate pure seed from contaminants and maintain viability.
Prerequisite: BZ 104 or BZ 105 or BZ 120.
Registration Information: Offered as an online course only.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
SOCR 415 Pollinator Management in Agroecosystems Credits: 2 (2-0-0)
Also Offered As: BSPM 415.
Course Description: Fundamental concepts of pollinator biology and management, sustainable crop-pollinator interactions, regional and global issues on pollinator management and conservation, best management practices for commercially managed pollinators.
Prerequisite: HORT 100 or SOCR 100.
Registration Information: Junior standing. Credit not allowed for both SOCR 415 and BSPM 415. Required field trips.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
SOCR 420 Crop and Soil Management Systems I Credits: 3 (3-0-0)
Course Description: Principles of crop, soil management emphasizing environmental factors influencing crop growth and development, interactions with soil organic matter.
Prerequisite: (HORT 100 or SOCR 100) and (SOCR 240).
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
SOCR 421 Crop and Soil Management Systems II Credits: 4 (3-2-0)
Course Description: Principles of crop and soil management with emphasis on soil erosion control, water conservation, and plant-water relationships.
Prerequisite: (HORT 100 or SOCR 100) and (SOCR 240).
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.
SOCR 424 Topics in Organic Agriculture Credits: 3 (3-0-0)
Also Offered As: HORT 424.
Course Description: Examination of issues specific to organic food production systems and marketing.
Prerequisite: (AREC 202 or ECON 202) and (AREC 328 and SOCR 240) and (HORT 100 or SOCR 100) and (SOCR 171 or HORT 171).
Registration Information: Credit not allowed for both SOCR 424 and HORT 424.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: Yes.
SOCR 430 Applications of Plant Biotechnology Credits: 3 (3-0-0)
Course Description: Current and potential applications of DNA-based biotechnology in crop agriculture and other plant disciplines.
Prerequisite: SOCR 330.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

</tbody>
</table>
SOCR 486 Practicum Credits: Var[1-4] (0-0-0)
Course Description: Directed experiences in the application of soil and crop science principles.
Prerequisite: None.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 487 Internship Credits: Var[1-12] (0-0-0)
Course Description: Directed experiences in the application of soil and crop science principles.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 490 Hydrus-1D Workshop Credit: 1 (0-0-1)
Course Description: Using Hydrus-1D software for flow and transport of water, heat, and chemicals in soil.
Prerequisite: SOCR 470.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 492 Seminar Credit: 1 (0-0-1)
Course Description: None.
Term Offered: Fall.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 495 Independent Study Credits: Var[1-18] (0-0-0)
Course Description: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 496 Group Study Credits: Var[1-18] (0-0-0)
Course Description: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 498 Undergraduate Research Credits: Var[1-6] (0-0-0)
Course Description: Research in soil and crop sciences.
Prerequisite: None.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 500 Environmental Measurement Laboratory Credit: 1 (0-2-0)
Course Description: A hands-on instrumentation lab for making environmental, weather, and soil measurements using low-cost microcontroller boards and sensors.
Prerequisite: PH 110.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 514 Agricultural Experimental Design and Analysis Credits: 4 (3-3-0)
Also Offered As: STAT 514.
Course Description: Design and implementation of agricultural experiments and statistical analysis of resulting data.
Prerequisite: STAT 201 or STAT 301 or STAT 307 or ERHS 307.
Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: SOCR 414, SOCR 514, STAT 302, or STAT 514.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 522 Micrometeorology Credits: 3 (3-0-0)
Course Description: Microenvironments; physics of environmental variables; plant canopy microclimate; evapotranspiration; surface-atmosphere exchange; instrumentation.
Prerequisite: PH 100 to 499 - at least 3 credits.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 530 Scientific Writing Credit: 1 (1-0-0)
Also Offered As: BSPM 530.
Course Description: Skills necessary to prepare complete scientific journal articles including writing, editing, and literature searching and assessment.
Prerequisite: None.
Registration Information: Credit not allowed for both SOCR 530 and BSPM 530.
Term Offered: Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 535 Origin and Evolution of Cultivated Plants Credits: 3 (3-0-0)
Course Description: Origin of crops from viewpoints of archaeology, history, botany, and taxonomy, and continued evolution of plants under cultivation.
Prerequisite: SOCR 330.
Term Offered: Fall (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

SOCR 540 Soil-Plant-Nutrient Relationships Credits: 3 (3-0-0)
Course Description: Soil and plant factors affecting nutrient uptake, mechanistic models of uptake, availability and functions of essential elements, diagnostic techniques.
Prerequisite: SOCR 350.
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

SOCR 550 Advanced Soil Genesis Credits: 3 (3-0-0)
Course Description: Modern concepts of specific mechanisms involved in formation of genetic soil groups and their relationship to environmental factors.
Prerequisite: SOCR 440.
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
SOCR 567 Environmental Soil Chemistry Credits: 4 (3-0-1)
Course Description: The chemistry of terrestrial environments and the interactions of soil constituents with bacteria, nutrients, and pollutants.
Prerequisite: CHEM 335.
Registration Information: Credit not allowed for SOCR 467 and SOCR 567.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 570 Plant Breeding for Drought Tolerance Credit: 1 (1-0-0)
Course Description: Principles and practices of evaluation, selection and cultivar development for crops in drought-stress environments with an emphasis on agronomic crops.
Prerequisite: SOCR 330 and SOCR 460.
Registration Information: Offered as an online course only.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 571 Foundations of Soil Science Credits: 2 (2-0-0)
Course Description: Importance of soils in ecology and earth system science with regard to the study and management of the soil resource.
Prerequisite: SOCR 240.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 577 Principles/Components: Precision Agriculture Credits: 3 (2-2-0)
Course Description: Principles and components of precision agriculture, including GPS, GIS, remote sensing, and their applications in soil and crop management.
Prerequisite: SOCR 100 to 499 - at least 3 credits or CS 100 to 499 - at least 3 credits.
Registration Information: Must register for lecture and laboratory. Credit not allowed for both SOCR 577 and SOCR 377. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

SOCR 620 Modeling Ecosystem Biogeochemistry Credits: 3 (2-3-0)
Course Description: Design and build biogeochemical process and ecosystem models with GUI-based software. Analyze and test models and interpret experimental data.
Prerequisite: (ECOL 505 or LAND 220 or LIFE 220 or SOCR 240) and (MATH 155 or MATH 160).
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 640 Crop Physiology Credit: 1 (1-0-0)
Course Description: Developmental, physiological, and biochemical determinants of crop yields as controlled by genetic and environmental effects.
Prerequisite: BZ 440.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 650 Research Proposal Development Credit: 1 (1-0-0)
Course Description: Skills to develop and write an effective scientific research proposal.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 670 Terrestrial Ecosystems Isotope Ecology Credits: 3 (2-2-0)
Course Description: Isotope distribution in biogeochemical cycles; research topics in biosphere-atmosphere interactions; lab experience with isotope techniques.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 675 Presentations for Scientific Audiences Credit: 1 (1-0-0)
Course Description: Organization and presentation of scientific information to audiences in oral and poster format.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 699 Thesis Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 720 Advanced Plant Breeding Credits: 4 (4-0-0)
Course Description: Systems of mating and selection in plants to maximize genetic gain. Evaluation of heterosis, germplasm diversity, strategies, and new technologies.
Prerequisite: (SOCR 460 or HORT 460) and (STAT 100 to 499 - at least 3 credits).
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 720A Advanced Plant Breeding: Methods Credits: 2 (2-0-0)
Course Description: Historical perspectives in plant breeding, plant reproduction, genetic gain, breeding and selection systems in self- and cross-pollinated plants.
Prerequisite: (SOCR 460 or HORT 460) and (STAT 100 to 799 - at least 3 credits).
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
SOCR 720B  Advanced Plant Breeding: Tools  Credits: 2 (2-0-0)
Course Description: Plant breeding strategies, genotype x environment interaction, field plot and genomic tools, breeding for pest resistance, stress tolerance, quality.
Prerequisite: (SOCR 460 or HORT 460) and (STAT 100 to 799 - at least 3 credits).
Restriction: Must not be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 725  Quantitative Inheritance in Plant Breeding  Credits: 3 (2-2-0)
Course Description: Quantitative genetic structure of populations, recognition of genetic, environmental variance. Methods of dealing with quantitatively inherited traits.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 730  Topics in Plant Breeding and Genetics  Credit: 1 (1-0-0)
Course Description: Current literature regarding mechanisms used for plant improvement.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 731  Plant Breeding Data Management  Credit: 1 (1-0-0)
Course Description: Principles and best practices for optimal data management for plant breeding and other data-intensive research programs.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must have taken three credits in computer science.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 740  Plant Molecular Genetics  Credits: 3 (3-0-0)
Also Offered As: BSPM 740.
Course Description: Advances in study of organization and function of nuclear and organelar genomes, gene expression in higher plants, and plant-microbe interactions.
Prerequisite: BC 351 and SOCR 330.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both SOCR 740 and BSPM 740.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 755  Advanced Soil Microbiology  Credits: 3 (3-0-0)
Course Description: Ecology of soil microorganisms emphasizing population and activity relationships, nitrogen fixation, and microbe-pesticide interactions.
Prerequisite: MIP 624 or SOCR 455.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

SOCR 760  Advanced Soil Chemistry  Credits: 3 (3-0-0)
Course Description: Surface chemistry of soils, electrical double layer models of surface charge and potential, colloid stability, computer modeling of adsorption.
Prerequisite: (CHEM 100 to 481 - at least 4 courses and CS 100 to 481 - at least 1 course) and (MATH 141 or MATH 155 or MATH 160).
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

SOCR 770  Advanced Soil Physics  Credits: 4 (3-2-0)
Course Description: Description and analysis of principles of storage and movement of water, solutes, heat, and gases in soils.
Prerequisite: MATH 261 or SOCR 470.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 784  Supervised College Teaching  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 792  Seminar  Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 795  Independent Study  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 796  Group Study  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 799  Dissertation  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Major in Soil and Crop Sciences

Soil and Crop Sciences, the studies of field crops and soils, are the foundation sciences underlying the production and management of food, feed, fiber, and energy crops to meet human needs and to protect the
environment. Students are taught the importance of learning soil and crop science principles in alleviating concerns of rapidly increasing world populations, the demand on land for food supplies, and the demand for environmental quality to enhance human comfort and wellbeing. Special emphasis is placed on improved production efficiency and the conservation of soil, chemicals, energy, plants, and water. The curriculum offers broad-based coverage of the basic natural and social sciences, communication skills, and opportunities to explore interests and leadership potential. Seven concentrations allow for specialization in the major:

**Concentrations**

- Agronomic Production Management Concentration
- Applied Information Technology Concentration
- International Soil and Crop Sciences Concentration
- Plant Biotechnology, Genetics, and Breeding Concentration
- Soil Ecology Concentration
- Soil Restoration and Conservation Concentration

Students do not have to choose a concentration but are given the flexibility to tailor the curriculum to their individual interests. This provides opportunities for students to have a second major in a related discipline. The Department also offers three minors:

**Minors**

- Minor in Soil Resources and Conservation
- Minor in Soil Science
- Organic Agriculture Interdisciplinary Minor

**Learning Outcomes**

Successful students will achieve:

- Technical competencies, including knowledge and understanding of soil and crop science principles, ability to apply these principles to specific issues, and ability to synthesize information, both technical and non-technical, to meet identified needs.
- Problem solving skills, such as identifying a problem, collecting data, summarizing information, and drawing conclusions to the identified problem.
- Professional skills, including interpersonal skills and communication skills, such as presenting a topic with logical development, technical understanding, mechanical and technique correctness, and accurate documentation of sources.

**Potential Occupations**

Participation in internships and cooperative education opportunities is highly recommended to enhance practical training and development. Paid summer internship positions exist for all students in this major, and often lead to a job after graduation. The job outlook for graduates is very optimistic, with more job openings than can be filled in some areas of study. Graduates work for a variety of federal, state, or local government agricultural agencies, state agricultural colleges or research stations, agricultural service companies, commercial research and development labs, and seed companies. Graduates who go on to pursue advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Some examples include: agronomic production manager; cooperative manager; genetic engineering scientists; land reclamation specialist; international agronomist; land-use planner; plant geneticist; plant breeder, seed, chemical, and fertilizer consultant; soil conservation specialist; soil surveyor; waste management specialist; water quality specialist; crop production; chemical fertilizer sales; crop consultant; county agricultural extension agents; agricultural products inspector; farm manager.

**Requirements**

**Effective Fall 2011**

---

1. Select from the list of courses in category 3C in the All-University Core Curriculum (AUCC).
2. Select from the list of biology courses in category 3A after consultation with advisor.
3. Select from the Colleges of Agricultural Sciences, Business, Engineering, Natural Resources, Natural Sciences, and/or Veterinary Medicine and Biomedical Sciences in consultation with advisor.
4. Select course(s) with the SOCR subject code.
5. Select a course with the STAT subject code.
6. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major in Soil and Crop Sciences, Agronomic Production Management Concentration

The Agronomic Production Management concentration focuses on methods to improve the nutritional value of crops and the quality of seed, as well as increase productivity. This concentration is best suited for students planning careers in production agriculture and agribusiness. The concentration combines courses in basic sciences, economics, and business management with principles and practices of using soil, plant, and water resources for crop production and agriculture-related organizations and companies.

Major in Soil and Crop Sciences, Applied Information Technology Concentration

The Applied Information Technology concentration educates students in utilizing advanced information technology to make better decisions in crop, soil, and environmental management systems as well as meet the expanding needs and technological opportunities in industry (consulting/GIS/GPS/remote sensing). Students will take course work in computer science, data management, business, and various electives in their discipline choice (crop science, soil science, animal science, horticulture, pest management, and related disciplines) to utilize application of advanced information technologies. This understanding will lead to improved environmental stewardship and profitability. Career opportunities exist with equipment companies, consulting firms, state and federal agencies, and agricultural data management firms.

Major in Soil and Crop Sciences, International Soil and Crop Sciences Concentration

The International Soil and Crop Sciences concentration prepares students to work in developing nations by giving them technical soil and crop science skills along with education in the political, social, and cultural aspects of countries they may work in. Scientists design appropriate practices that can succeed under a variety of climatic and socioeconomic constraints. Many research opportunities are available. Students may work with the Peace Corps or other agencies in demonstration and extension positions in developing countries.

Major in Soil and Crop Sciences, Plant Biotechnology, Genetics, and Breeding Concentration

The Plant Biotechnology, Genetics, and Breeding concentration provides expertise in the fundamentals of plant molecular biology and their application to crop improvement. The focus is on the integration of new DNA-based methods with the principles of plant breeding and genetics to enhance production. Graduates work in plant breeding and biotechnology companies and public research institutions, or continue with graduate work.

**Major in Soil and Crop Sciences, Soil Ecology Concentration**

The Soil Ecology concentration emphasizes the interdisciplinary nature of soils through the study of soil organisms and their interactions with each other and the physical and chemical environment of the soil. These interactions affect the cycling of elements including carbon and nitrogen, the release (or consumption) of greenhouse gases, water quality, soil formation and structure, and plant productivity. The curriculum is rigorous and includes a solid core of mathematics, biology, physics and chemistry courses, as well as specialized electives and ecology courses that allow students to tailor the concentration to their interests. Career opportunities exist in academia, state and federal health and environmental agencies, natural resource agencies (water and soil), state and national parks services, private industry as environmental assessors, and in the rapidly growing environmental consulting profession.

**Major in Soil and Crop Sciences, Soil Restoration and Conservation Concentration**

Graduates of the Soil Restoration and Conservation concentration provide technical assistance to farmers, ranchers, state and local governments, and others concerned with the conservation of soil, water, and related natural resources. Emphasis is on interpretations of land sustainability for agricultural, urban, industrial, and recreational land uses, waste disposal, water management systems, and ecological purposes. Specialists develop programs designed to obtain the most productive use of land while minimizing or mitigating damages. Others help landowners and managers develop management practices to combat erosion. Students are prepared for careers in environmental consulting, government conservation and resource management agencies, farm management, and municipal soil and water resource management agencies.

Minor in Soil Resources and Conservation

The purpose of the minor in Soil Resources and Conservation is to give students with appropriate biological science backgrounds the opportunity to formalize their interests in an organized course of study.

Requirements

Effective Fall 2012

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Minor in Soil Science

Soil Science as a discipline has applications to many fields of study, including biology, ecology, engineering, horticulture, and hydrology. The purpose of the minor in Soil Science is to combine the fundamental sub-disciplines of soil science to provide non-majors the essential elements of soil science.

Requirements

Effective Fall 2014

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

**College-Wide Graduate Programs**

#### Master's Programs

- Master of Business Administration
- Master of Business Administration, Early Career Track Specialization
- Master of Business Administration, Global Social and Sustainable Enterprise Specialization
- Master of Business Administration, Marketing Data Analytics Specialization
- Master of Science in Business Administration, Plan A, Computer Information Systems Specialization (No new students are being accepted into this specialization.)
- Master of Science in Business Administration, Plan B, Computer Information Systems Specialization (No new students are being accepted into this specialization.)
- Master of Science in Business Administration, Financial Risk Management Specialization (No new students are being admitted to this certificate.)
- Master of Science in Business Administration, Financial Risk Management Specialization (No new students are being accepted into this specialization.)
- Master of Science in Business Administration, Financial Risk Management Specialization (No new students are being accepted into this specialization.)

The College of Business is accredited by the AACSB, the Association to Advance Collegiate Schools of Business. Undergraduate and graduate programs offered include a Bachelor of Science in Business Administration, a Master of Science in Business Administration (with specializations in Computer Information Systems and Financial Risk Management), as well as a Master of Business Administration degree (M.B.A., with specializations in Early Career Track and Global Social and Sustainable Enterprise), Master of Accountancy (M.Acc.), Master of Management Practice (M.M.P.), and Master of Computer Information Systems (M.C.I.S.).

#### Undergraduate Programs

The undergraduate programs of study provide functional business education in Accounting, Finance, Financial Planning, Information Systems, Marketing, Organization and Innovation Management, Human Resource Management, Supply Chain Management, and Real Estate. The skills acquired help prepare students for entry-level positions in a wide range of both private and public enterprises and provide a solid foundation for further academic study. The program follows a philosophy of linking theory with practical application.
Education Abroad

Education abroad programs are available to students in the College of Business. Because the knowledge of other cultures is valuable in understanding our own, students are strongly encouraged to take a summer or semester to study, intern, or complete a service learning program outside the United States as part of their overall program at CSU. Students interested in education abroad should plan far in advance by discussing opportunities with their academic advisor and by visiting the Office of International Programs (http://international.colostate.edu) in Laurel Hall.

Graduate Programs in Business

The College of Business offers graduate programs leading to the degrees of Master of Science (M.S.), with specializations in Computer Information Systems and Financial Risk Management, and Master of Business Administration (M.B.A.) with specializations in Early Career Track, and Global Social and Sustainable Enterprise. In addition, the College of Business offers a Master of Accountancy (M.Acc.), with a specialization in Taxation; Master of Computer Information Systems (M.C.I.S.); and Master of Management Practice (M.M.P.). The college also offers five platforms for the M.B.A.: on-campus/evening professional M.B.A., a professional online M.B.A., Global Social Sustainable Enterprise M.B.A., Early Career Track M.B.A., and an executive M.B.A. program in Denver. Graduate students may also pursue teacher licensure at the secondary level for Business Education or Marketing Education. Contact the Center for Educator Preparation (http://cep.chhs.colostate.edu) in the Education Building, Room 111, or at (970) 491-5292.

Students interested in graduate work should refer to the College of Business (http://biz.colostate.edu).

Courses

Accounting (ACT)

ACT 205 Fundamentals of Accounting Credits: 3 (3-0-0)
Course Description: Understanding of financial statements to support financial and managerial decision making.
Prerequisite: None.
Registration Information: For nonbusiness majors. Sections may be offered: Online. Credit not allowed for both ACT 205 and ACT 210.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 210 Introduction to Financial Accounting Credits: 3 (3-0-0)
Course Description: Use of accounting information by decision makers; development of the basic accounting model, and issues concerning income and cash flows.
Prerequisite: None.
Registration Information: Credit not allowed for both ACT 210 and ACT 205.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 211 Accounting Professional Skills Credit: 1 (1-0-0)
Course Description: Survey of accounting profession career options, certifications, and professional skills.
Prerequisite: ACT 210.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 220 Introduction to Managerial Accounting Credits: 3 (3-0-0)
Course Description: Use of accounting information in internal decision making.
Prerequisite: ACT 210.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 311 Intermediate Accounting I Credits: 4 (3-0-1)
Course Description: Preparation and analysis of financial statements under U.S. generally accepted accounting principles (GAAP); accounting for revenue and assets.
Prerequisite: (ACT 210 with a minimum grade of B-) and (ACT 211, may be taken concurrently and ACT 220 with a minimum grade of B- and CIS 200).
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 312 Intermediate Accounting II Credits: 3 (3-0-0)
Course Description: Equity structure of corporations; analysis and interpretation of accounting data.
Prerequisite: ACT 311 with a minimum grade of C.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ACT 321 Cost Management Credits: 3 (3-0-0)
Course Description: Utilizing budgetary and cost accounting information for planning, controlling, and decision-making.
Prerequisite: ACT 220.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 330 Introduction to Taxation Credits: 3 (3-0-0)
Course Description: Introduction to U.S. taxation, with emphasis on federal income tax; impact of taxation on business decisions.
Prerequisite: ACT 220.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 350 Accounting Information Systems Credits: 3 (3-0-0)
Course Description: Design, administration and control of accounting information systems; use of accounting systems software.
Prerequisite: ACT 220 and ACT 321.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 411 Advanced Accounting Credits: 3 (3-0-0)
Course Description: Accounting for branches and subsidiaries, partnerships, and business combinations. Accounting for multi-national business transactions.
Prerequisite: ACT 312.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 441 Auditing Practices Credits: 3 (3-0-0)
Course Description: Environment, professional standards, and practices involved in auditing financial statements and performance of other assurance services.
Prerequisite: ACT 312 and ACT 350.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 487 Internship Credits: Var[1-6] (0-0-0)
Course Description: Supervised work experience in public, industry, not-for-profit, or governmental accounting.
Prerequisite: ACT 311 and ACT 312 or ACT 311 and ACT 321 or ACT 311 and ACT 330 or ACT 311 and ACT 350 or ACT 312 and ACT 321 or ACT 312 and ACT 330 or ACT 312 and ACT 350 or ACT 321 and ACT 330 or ACT 321 and ACT 350 or ACT 330 and ACT 350.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ACT 495 Independent Study Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 496 Group Study Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 498 Research Credits: Var[1-3] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Special Course Fee: No.

ACT 540 Professional Ethics and Responsibilities Credits: 3 (3-0-0)
Course Description: Ethical practice of professional accounting.
Prerequisite: ACT 311.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 541 Forensic Accounting and Fraud Auditing Credits: 3 (3-0-0)
Course Description: Professional practices for addressing the related areas of forensic accounting and fraud.
Prerequisite: ACT 441.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 550 Accounting Information Technologies Credits: 3 (3-0-0)
Course Description: Best practices for information technologies used in accounting systems worldwide.
Prerequisite: ACT 350.
Registration Information: Sections may be offered: Online. Consent of instructor can substitute for ACT 350 for a student with substantial and relevant work experience.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 575 Oil and Gas Accounting Credits: 3 (3-0-0)
Course Description: Specialized financial accounting procedures related to the oil and gas industry.
Prerequisite: ACT 311.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
ACT 601A Professional Practice: Taxation Credits: 3 (3-0-0)
Course Description: Management of professional tax practice; professional ethics and regulation; research techniques.
Prerequisite: ACT 330.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online, in 8 week format.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 601B Professional Practice: Accounting Credits: 3 (3-0-0)
Course Description: Management of professional accounting practice; professional ethics and regulation; and research techniques.
Prerequisite: ACT 441.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online, in 8 week format.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 612 Issues in Financial Reporting and Auditing Credits: 3 (3-0-0)
Course Description: Contemporary and emerging issues at the intersection of financial reporting and auditing.
Prerequisite: ACT 312.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 614 Financial Statement Analysis and Valuation Credits: 3 (3-0-0)
Course Description: Tools and techniques of financial statement analysis and application to equity valuation.
Prerequisite: ACT 312.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 631 Corporate Taxation Credits: 3 (3-0-0)
Course Description: Federal income tax principles pertaining to formation and operation of corporate entities.
Prerequisite: ACT 330.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 633 Flow-Through Entities Credits: 3 (3-0-0)
Course Description: Federal income tax principles and problems pertaining to flow-through entities.
Prerequisite: ACT 330.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 635 State and Local Taxation Credits: 3 (3-0-0)
Course Description: Tax planning and compliance issues for entities doing business in multi-jurisdictional locales.
Prerequisite: ACT 330.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 636 Taxation of Corporations and Shareholders Credits: 3 (3-0-0)
Course Description: Federal income tax principles and problems relating to reorganization, consolidation, and termination of corporations.
Prerequisite: ACT 330.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 639 Special Topics in Taxation Credits: 3 (3-0-0)
Course Description: Taxation of not-for-profit entities; international tax issues; other contemporary topics.
Prerequisite: ACT 330.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 641 Information Systems Audit and Control Credits: 3 (3-0-0)
Course Description: Exploration of organizations’ information systems, and the considerations involved in controlling and auditing these systems. Topics range from the general, such as organizational governance, to the very technical, for example, data encryption. Addresses material found on the CPA exam and the Certified Information Systems Auditor (CISA) exam.
Prerequisite: ACT 350 and ACT 441.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 695 Independent Study Credits: Var[1-18] (0-0-0)
Course Description: None.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ACT 696 Group Study Credits: Var[1-18] (0-0-0)
Course Description: None.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

Graduate Certificate in Accounting Ethics and Auditing

Completion of the certificate provides increased expertise in accounting ethics, forensic accounting, fraud auditing, and leading best practice information technologies used in organizational accounting systems.
worldwide. The graduate coursework is designed in part to help individuals meet professional licensure requirements in Colorado and certain other states.

Effective Fall 2015

Additional coursework may be required due to prerequisites.

Program Total Credits: 9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Major in Business Administration, Accounting Concentration

This program is designed to give students an understanding of the theory and practice of the major fields of accounting: financial accounting and reporting, managerial accounting, taxation, accounting information systems, and auditing. Accounting is an ever-evolving field with growing importance in most businesses and not-for-profit organizations. Today’s accountants are important members of their organizations, using their business expertise, communication, interpersonal skills, and accounting knowledge to improve organizational decision making. Accountants play a key role in the continued growth of a prospering society.

Accountants must be able to explain and analyze business data, excel in communications, teamwork, leadership, and possess technical and computer-based skills. The accountant in an increasingly global society is rapidly becoming both an information specialist as well as a business advisor. Accountants also act as the moral and ethical compass for business practices.

The undergraduate accounting curriculum at CSU satisfies current educational requirements to sit for the Certified Public Accountant (CPA) exam in the state of Colorado. Additional coursework is required to become a Certified Public Accountant (CPA) in the state of Colorado. (Requirements to become a CPA are unique to each state and students should be aware of requirements of the state in which they intend to practice.)

The accounting curriculum is designed to meet the needs of those who seek professional education and training to practice as public, private, not-for-profit and governmental accountants, or those who expect to work in business managerial positions requiring an understanding of fundamental accounting concepts and principles. The curriculum offers considerable flexibility in designing a program of study that will meet a variety of career interests. In addition to the All-University Core Curriculum and the College of Business Core Curriculum, students are particularly encouraged to take additional course work in both finance and computer information systems.

Learning Outcomes

Students will demonstrate:

- Knowledge of the principles of auditing and attestation
- Knowledge of the fundamental concepts of financial accounting and reporting
- Knowledge of the fundamental concepts of managerial accounting and decision making
- Knowledge of taxation (federal, state) and its application to business decisions
- Knowledge of business ethics and principles of social responsibility
- Knowledge of business organization, processes, and understanding of accounting-based systems integration issues

Potential Occupations

Some examples include, but are not limited to: accountant or auditor of publicly or privately held companies, government agencies, or not-for-profit organizations; consultant in firms providing professional advisory services; public, private, or personal tax specialist; financial analyst; forensics accountant; internal auditor; information technology auditor.

Requirements

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Total Credits: **30**

Program Total Credits: **120**

---

1. Students enrolled in the Business Administration major prior to Fall semester 2013, are not required to take BUS 201 and BUS 220.

2. Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the AUCC category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy AUCC categories 4A and 4B.

3. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be Upper-Division (300- or 400- level).

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

### Major Completion Map

**Distinctive Requirements for Degree Program:**

**To Declare this Major:** Business is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the Department for more information.

**To Prepare for First Semester:** The Curriculum for the Business Administration-Accounting Concentration assumes students will be able to successfully complete calculus within the first year.

Certificate in Applied Management Accounting for Decision Making

The Certificate in Applied Management Accounting for Decision Making will provide students with accounting tools to make managerial decisions in a business setting. This certificate recognizes that such decisions require knowledge of budgetary and cost accounting information and accounting information systems, as well as discipline-specific knowledge.

Effective Fall 2018

Additional coursework may be required due to prerequisites.

Master's Programs
- Master of Business Administration
- Master of Business Administration, Early Career Track Specialization
- Master of Business Administration, Global Social and Sustainable Enterprise Specialization
- Master of Business Administration, Marketing Data Analytics Specialization

Major in Business Administration

The College of Business prepares students with the knowledge and skills needed to become effective leaders and decision makers in today’s dynamic business environment.

The four-year curriculum leads to a Bachelor of Science degree with a major in Business Administration. The program focuses on global orientation, technology, ethics, business processes, sustainability, and corporate social responsibility.

Lower-division work provides a cultural and analytical foundation. Upper-division work provides specialized work in business disciplines to prepare students to enter their chosen fields in the business world. At the same time, the program develops the attitudes and analytical abilities required for future professional advancement.

The College of Business has a strong reputation among regional, national, and international employers. As a whole, graduates from the College of Business are well-prepared to enter challenging positions. The program centers on an approach which emphasizes: knowledge of concepts, processes, and institutions; understanding of the financial, economic, legal, ethical, social, and organizational influences; information systems; and interpersonal communications. The senior capstone course offers an opportunity for students to apply these skills in an active and engaging learning environment.

All undergraduate business majors must complete the All-University Core Curriculum (AUCC) as part of their graduation requirement. Coordinated with this general education, all business students take business core subjects plus a concentration with its specified course sequence. Fifty percent of the total credits required for the business core and concentration must be completed at CSU.

Each student selects one of the following concentrations: Accounting, Finance, Financial Planning, Human Resource Management, Information Systems, Marketing, Organization and Innovation Management, Real Estate, or Supply Chain Management.

Admission

Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions (http://admissions.colostate.edu).

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.5 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and grades of B- or higher in ECON 202 and MATH 141.
External transfer students who have completed a minimum of 15 graded credits with MATH 141 and ECON 202 with grades of B- or higher and a 3.000 cumulative GPA will be admitted directly to the College.

External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

The College of Business participates in a statewide transfer articulation agreement for the bachelor’s degree in Business Administration. That agreement is available online (http://registrar.colostate.edu/classroomscheduling/csuspecific-statewide-agreements) with the Registrar’s Office.

**Learning Outcomes**

Students will demonstrate:

- The ability to speak the language of business by constructing and analyzing financial and operating reports and using this information to make various business and capital allocation decisions
- An appreciation of the impact of the marketing environment on developing and sustaining a coherent marketing strategy that addresses the needs and wants of a selected target market
- An understanding of leadership principles, effective communication, and ways to collaborate within and across organizations
- An understanding of risk and the time value of money, how to use and value different types of securities, and how to make sound financial management decisions
- An understanding of the all-encompassing role information technology plays in all aspects of a business and the ability to collect, store, analyze, and professionally disseminate data using business technology tools to solve problems and make decisions
- The ability to identify and analyze various ethical dilemmas that occur in organizations, apply sound moral reasoning to address these situations, and defend recommended courses of action
- An understanding of the dynamics of the global business environment and, when appropriate, the application of elements of a global perspective in making business decisions
- An understanding of the environmental, social, and economic dimensions of sustainability and how to measure, report, and manage sustainability in organizations

**Course Requirements**

The first two years of study include completion of the All-University Core Curriculum (AUCC) and the lower-division business core courses. Some lower-division specialized course work is required in the Information Systems concentration. Students must have junior or senior status and be admitted into the College of Business in order to take specialized course work in the business concentrations.

**Concentrations**

- Accounting
- Finance
- Financial Planning
- Human Resource Management
- Information Systems
- Marketing
- Organization and Innovation Management
- Real Estate
- Supply Chain Management

**Requirements**

**Concentrations**

- Accounting
- Finance
- Financial Planning
- Human Resource Management
- Information Systems
- Marketing
- Organization and Innovation Management
- Real Estate
- Supply Chain Management

**Core Curriculum**

The following core curriculum sets the minimum course requirements for all business majors. With recommendations of the student’s advisor, supplementary courses are selected to meet the total minimum of 120 credits required for the Bachelor of Science degree.

All freshman and sophomore required courses must be completed prior to or concurrent with first enrollment in required junior and senior courses. By the beginning of the junior year, students must select one of the above concentrations approved for the major in Business Administration.

Additional requirements which all business majors must complete are:

1. one of the approved concentrations;
2. All-University Core Curriculum (AUCC) requirements;
3. Business majors must not utilize the satisfactory/unsatisfactory (S/U) grading option in any Business concentration course or and Business core course (BUS and non-BUS subject codes) except when a course allows S/U grading.

**Effective Fall 2017**

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

¹ Students enrolled in the Business Administration major prior to Fall semester 2013, are not required to take BUS 201 and BUS 220.

² Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.

### Minor in Business Administration

businessminors@business.colostate.edu

The College of Business offers a minor in Business Administration to students in other colleges. A minor in Business Administration will give students a basic understanding of the functional areas of business to add to their specific major area. Students can expect to develop competencies to understand the language of business and use these skills in businesses in a wide variety of majors.

### Requirements

**Effective Spring 2015**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

A minimum grade of C is required for all business courses in the minor to receive the credential.

Certificate in International Business

The College of Business offers the Certificate in International Business to students majoring in Business Administration. This certificate will give students majoring in Business Administration an integrated understanding of the principles and practices of international business. This knowledge will help them enhance their careers in the global economy by gaining a deeper understanding of international financing, cross-cultural negotiation, international management strategies/practices, and global marketing practices.

Effective Spring 2015

Additional coursework may be required due to prerequisites.

Master of Business Administration

The Master of Business Administration prepares students for careers in a rapidly changing world, with an emphasis on real-world application of finance, accounting, management, and marketing. The curriculum covers the principles, processes, and practices of statistics, human resources, accounting, supply chain management, marketing, and finance, with hands-on application of course concepts. MBA students complete a core of 36 credits, plus 6 elective credits selected from the areas of finance, marketing, and computer information systems. Students may also choose to pursue graduate transcripted certificates in a variety of disciplines.

Master of Business Administration, Global Social and Sustainable Enterprise Specialization

The purpose of the Global Social and Sustainable Enterprise specialization is to prepare students to design, build, and manage entrepreneurial ventures that impact social and environmental challenges. A key differentiator is the fully integrated venture creation process, during which students form teams and design ventures throughout the program. This process is woven throughout multiple courses and all three semesters, including a 40-60 day summer practicum. It is a cohort-based program with 25-30 students from diverse backgrounds and experiences.

Master of Business Administration, Marketing Data Analytics Specialization

This program will provide its students with a comprehensive knowledge of marketing data analytics as a specialization in the MBA program. Data analytics is a rapidly growing field, part of which has occurred in the domain of marketing and marketing research. Data analytics involves defining problems surrounding marketing questions, such as customer relationship management, consumer behavior, customer service, pricing, sales force management, advertising, business-to-business and channels relationships. Once problems are defined, data analysts are responsible for gathering the right information (the data) to solve the problem and apply sophisticated data analytics tools to provide empirical answers. An important part of the process is to present and explain the data findings to a marketing audience. Marketing action is generally taken based on data definition, gathering, manipulation, and analysis.

Code                      Title                  Credits
Required Core Courses:
BUS 500  Business Systems and Processes  2
BUS 601  Quantitative Business Analysis  2
BUS 614  Accounting Concepts  2
BUS 620  Leadership and Teams  2
BUS 626  Managing Human Capital  2
BUS 630  Information Management  2
BUS 640  Financial Principles and Practice  2
BUS 655  Marketing Management  
BUS 656  Marketing Strategy and Planning
Select two courses from the following:  
BUS 615  Managerial Accounting
BUS 616  Financial Reporting and Analysis
BUS 635  Business Economics for the World Market
BUS 641  Financial Markets and Investments

Required Specialization Courses:
BUS 686  Practicum  
CIS 505  Database Concepts  
CIS 570  Business Intelligence  
CIS 575  Applied Data Mining and Analytics in Business  
CIS 601  Enterprise Computing and Systems Integration  
MKT 611  Quantitative Marketing Research Methods  
MKT 621  Search Engine Marketing and Optimization  
MKT 650  Marketing Analytics I  
MKT 651  Marketing Analytics II  
MKT 670  Digital Marketing
Select 1 credit elective with approval of graduate advisor.

Program Total Credits: 42

A minimum of 42 credits are required to complete this program.

Department of Computer Information Systems

Office in Rockwell Hall, Room 150
(970) 491-7929
biz.colostate.edu/cis (http://biz.colostate.edu/cis)

Professor Jon Clark, Chair

Undergraduate
Major in Business Administration
• Information Systems Concentration

Certificate
• Information Technology for Business Professionals

Graduate
Certificates
• Business Analytics and Accounting Systems
• Business Information Systems

Master’s Programs
• Master of Computer Information Systems, Plan C (M.C.I.S.)
• Master of Science in Business Administration, Plan A, Computer Information Systems Specialization (No new students are being accepted into this specialization.)
• Master of Science in Business Administration, Plan B, Computer Information Systems Specialization (No new students are being accepted into this specialization.)

Courses

Computer Information Systems (CIS)
CIS 120  Business Programming Fundamentals  Credits: 3 (3-0-0)
Course Description: File and operating systems for business application development. Business program development using a high-level programming language.
Prerequisite: None.
Registration Information: Credit not allowed for both CIS 120 and CIS 210.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 200  Business Information Systems  Credits: 3 (3-0-0)
Course Description: Use of information technology (IT) to enable knowledge workers, support business processes, and grow the business.
Prerequisite: None.
Registration Information: Passing score on Excel competency exam.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 210  Information Technology in Business  Credits: 3 (3-0-0)
Course Description: Introduction to information systems: the IS profession; hardware, software, and programming; web and database applications; data analysis tools.
Prerequisite: CIS 200, may be taken concurrently.
Registration Information: Credit not allowed for both CIS 210 and CIS 120.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 240  Application Design and Development  Credits: 3 (3-0-0)
Course Description: Software engineering methods including design, implementation, and testing using structured and event-driven techniques, logic, and data structures.
Prerequisite: CIS 210.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
CIS 301  End User Computing  Credits: 3 (3-0-0)
Course Description: End user applications in a Graphical User Interface environment including spreadsheet, word processing, and presentation graphics; Internet concepts.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIS 320  Project Management for Information Systems  Credits: 3 (3-0-0)
Course Description: Project management concepts including work breakdown structure, estimating, scheduling, tools, and reports.
Prerequisite: CIS 200.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 340  Advanced Application Design and Development  Credits: 3 (3-0-0)
Course Description: Design and construction of business applications using object-orientation and advanced data structures.
Prerequisite: CIS 240.
Registration Information: Credit not allowed for both CIS 340 and CIS 220.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 350  Operating Systems and Networks  Credits: 3 (3-0-0)
Course Description: Multiuser and network operating systems; basic networking concepts including security, transmission, performance, and topologies.
Prerequisite: CIS 210.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 355  Business Database Systems  Credits: 3 (3-0-0)
Course Description: Physical and logical design, implementation, and administration of databases.
Prerequisite: CIS 200.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 360  Systems Analysis and Design  Credits: 3 (3-0-0)
Course Description: Traditional and cutting-edge systems analysis and design techniques, with emphasis on object-oriented approaches.
Prerequisite: CIS 240.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 370  Business Analytics  Credits: 3 (3-0-0)
Course Description: Concepts, processes, techniques, and tools to extract, cleanse, organize, transform, store, analyze, and visualize data to support business decision making.
Prerequisite: CIS 200 and STAT 204.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 410  Web Application Development  Credits: 3 (3-0-0)
Course Description: Web development techniques and strategies including Active Server Pages using VBScript, JavaScript, ColdFusion; security, web design.
Prerequisite: CIS 355 and CIS 240.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 411  Enterprise Resource Planning Systems  Credits: 3 (3-0-0)
Course Description: Introduction to enterprise resource planning (ERP) systems concepts, business processes impacted by ERP, systems and software integration.
Prerequisite: (ACT 220) and (FIN 300 or FIN 305) and (MGT 305 or MGT 320) and (MKT 300 or MKT 305).
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 413  Advanced Networking and Security  Credits: 3 (3-0-0)
Course Description: Modern communication standards, protocol systems; network security, security policies, attack and protection mechanisms, legal and ethical issues.
Prerequisite: CIS 240 and CIS 350.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIS 455  Advanced Database Management  Credits: 3 (3-0-0)
Course Description: Advanced data management topics including performance tuning, concurrency control, security, object-oriented databases, and data warehousing.
Prerequisite: CIS 355.
Term Offered: Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 487  Internship  Credits: 3 (0-9-0)
Course Description: Supervised and planned work experience paralleling concentration in industry.
Prerequisite: CIS 355 and CIS 360.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 492  Seminar  Credits: 3 (3-0-0)
Course Description: Current topics in computer-based information systems.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 495  Independent Study  Credits: Var[1-18] (0-0-0)
Course Description: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
CIS 496B  Group Study: Small Business Information Systems  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 496C  Group Study: Communications and Distributed Systems  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 496D  Group Study: Information Systems Performance Measurement  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 496E  Group Study: Current Issues in Business Computing Systems  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 498  Research  Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 505  Database Concepts  Credit: 1 (1-0-0)
Course Description: An introduction to business database systems for non-CIS majors. Covers introductory database concepts, terminology, structures, relationships, and querying with SQL.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. This is a partial semester course.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 575  Applied Data Mining and Analytics in Business  Credits: 3 (3-0-0)
Course Description: Data mining is a process of selecting, exploring and modeling large amounts of data to identify patterns and relationships among key variables.
Prerequisite: STAT 204.
Registration Information: Sections may be offered: Online.
Term Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 576  Business Data Visualization  Credits: 3 (3-0-0)
Course Description: Methods to solve data visualization problems; critique and evaluate current systems; develop skills in the construction of data visualization.
Prerequisite: CIS 575 or CIS 605.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 600  Information Technology and Project Management  Credits: 3 (3-0-0)
Course Description: Strategic role in and management of information technology and software development projects.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Term Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 601  Enterprise Computing and Systems Integration  Credits: 3 (3-0-0)
Also Offered As: MGT 601.
Course Description: Integrated extended enterprise planning and execution systems concepts including ERP, CRM, SCM, MRP II, business processes, front/back office systems.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Credit not allowed for both CIS 601 and MGT 601. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 605  Business Visual Application Development  Credits: 3 (3-0-0)
Course Description: Design, construction, and testing of business application systems including leading-edge visual, E-commerce languages, and tools.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
CIS 606 Application Software Infrastructure Credits: 3 (3-0-0)
Course Description: Design, construction, and testing of business application software infrastructure including hardware, operating software, and communications network.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 610 Software Development Methodology Credits: 3 (3-0-0)
Course Description: Methods for all phases of software development focusing upon the establishment of economical software that is reliable and cross platform.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 611 Object-Oriented Systems Credits: 3 (3-0-0)
Course Description: Object-oriented and web-based software; object model describing classes; relationships to other objects, attributes, and operations.
Prerequisite: CIS 610.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 620 IT Communications Infrastructure Credits: 3 (3-0-0)
Course Description: Technical aspects of information communications, business considerations; wireless technology, architecture, and applications.
Prerequisite: CIS 606.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 623 Cybersecurity Credits: 3 (3-0-0)
Course Description: Detailed examination of modern security topics, blending coverage of many of the domains of the CISSP with those of the CEH: Access Control, Network Security, Risk Management, Software Development Security, Cryptography, Architecture, Operations, Business Continuity, Legal/Ethical issues, as well as attack, defense and counter-measure mechanisms.
Prerequisite: CIS 620.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 655 Business Database Systems Credits: 3 (3-0-0)
Course Description: Database analysis, design, administration; data modeling; data sublanguages, query facilities; distributed database systems.
Prerequisite: CIS 605.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 665 E-Business Application Technologies Credits: 3 (3-0-0)
Course Description: Developing E-business (B2B and B2C) through construction and deployment.
Prerequisite: CIS 605 and CIS 606 and CIS 610.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 670 Advanced IT Project Management Credits: 3 (3-0-0)
Course Description: Advanced tools, techniques and skills for advanced risk management, change movement, and performance/control measures in cross-functional projects.
Prerequisite: CIS 600.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 675 Agile Management and Product Development Credits: 3 (3-0-0)
Course Description: Business model process optimization; managing rapid product development; incorporating constituent feedback throughout the product life cycle.
Prerequisite: CIS 600.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 676 Information Technology Management Credits: 3 (3-0-0)
Course Description: Strategic information technology management of business, technical, system and information services.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to graduate program in business. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 695 Independent Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.
CIS 696 Group Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 699 Thesis Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Major in Business Administration, Information Systems Concentration

This program is designed to provide students with a comprehensive knowledge of computer information systems along with the skills necessary for effective decision making in a business environment that is diverse, global, and highly competitive. The information systems curriculum provides students with a broad understanding of business and a sound foundation in computer fundamentals and programming, systems analysis and design, networking, database design and implementation, project management, web applications, systems integration, and information and systems security. Graduates acquire an ability to apply computer technologies to solve business problems, providing a wide variety of career opportunities.

Learning Outcomes
Learning outcomes in the CIS program use a tiered model based on a student’s year in school. Learning outcomes build on the previous year’s learning outcomes. Upon graduation all of the learning outcomes will be achieved.

Students will demonstrate:

- The ability to design, write, and test computer programs written in various computer languages by the end of their sophomore year
- The ability to design, implement, and test a database; construct a project plan for technology implementation; and understand, implement, and administer various network protocols and implementations by the end of their junior year
- The ability to integrate and implement previously learned technologies in a Web-based environment by the time they graduate

Potential Occupations
Computing-related careers are characterized by a rapid rate of change driven by technological developments. Participating in paid or voluntary work, internships, and cooperative education opportunities is highly recommended, to keep students abreast of new developments and to help them benefit from networking to enhance employment opportunities.

Examples of career opportunities include, but are not limited to: applications programmer, programmer/analyst, systems analyst, systems consultant, PC specialist, systems or network manager/administrator, database administrator, IT project manager, webmaster, information and system security professional.

Requirements

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Effective Fall 2018

### Program Total Credits:

| Total Credits | 33 |

---

1. Students enrolled in the Business Administration major prior to Fall semester, 2013, are not required to take BUS 201 and BUS 220.
2. Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.
3. One of the courses selected must be either CIS 340 or CIS 410.
4. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 6 elective credits must be upper-division.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

### Major Completion Map

**Distinctive Requirements for Degree Program:**

**To Declare this Major:** Business is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the Department for more information.

**To prepare for first semester:** The curriculum in Business Administration - Information Systems concentration assumes students will be able to successfully complete calculus within their first year.

Select one course from the following: 3

- CIS 340 Advanced Application Design and Development
- CIS 410 Web Application Development

Select one additional course from the following: 3

- CIS 340 Advanced Application Design and Development
- CIS 410 Web Application Development
- CIS 411 Enterprise Resource Planning Systems
- CIS 413 Advanced Networking and Security

**Total Credits**: 12
Certificate in Information Technology for Business Professionals

The Department of Computer Information Systems (CIS) offers the Certificate in Information Technology (IT) for Business Professionals, which covers some of the knowledge and skills needed to evaluate, create, deploy, and use IT-based solutions to business problems. It is open to all business students, other than those in the CIS concentration. Students who pursue the certificate are typically interested in applying IT skills to their chosen concentration.

Effective Fall 2018

Additional coursework may be required due to prerequisites.

Program Total Credits: 9

Graduate Certificate in Business Analytics and Accounting Systems

Completion of the Graduate Certificate in Business Analytics and Accounting Systems provides students with the ability to harness vast data stores to solve problems, enhance decision-making and discover new opportunities. They will learn data mining concepts, methodologies, models, and tools, along with appropriate applications for optimizing business functions, forecasting, detection, prediction, classification, and discovery. Additionally, students will gain increased expertise in accounting technology systems used in organizational accounting systems worldwide, including skills in spreadsheet and database technologies.

Effective Fall 2017

Additional coursework may be required due to prerequisites.

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Business Information Systems

The Certificate combines business intelligence with applied data mining and analytics to optimize, forecast, detect, predict, classify and discover new ways of using data to make a business more productive and efficient. Completion of the certificate allows students to bring value to companies that have vast quantities of both structured and unstructured data that requires identification, analysis, and transformation into useful data for business optimization and forecasting.

Effective Fall 2015

Additional coursework may be required due to prerequisites.

Graduate Certificate in Information Technology Project Management

In the information technology areas, project management is found across the private, public, and military sectors. The Certificate includes a deep understanding of the 10 knowledge areas and the 42 grouped processes required by the Project Management Institute®, information technology management, agile project management, and other special topics. Completion of this certificate also prepares the recipient to sit for the PMP® Certification or the CAP-M® Certification exam.

Undergraduate

Major in Business Administration

• Finance Concentration
• Financial Planning Concentration
• Real Estate Concentration

Minor

• Real Estate

Certificate

• Real Estate Practices (No new students are being admitted to this certificate.)

Graduate

Certificate

• Applied Finance

Master’s Programs

• Master of Finance, Plan C
• Master of Science in Business Administration, Financial Risk Management Specialization (No new students are being accepted into this specialization.)

Courses

Subjects in this department include: Finance (FIN) and Real Estate (REL).
Finance (FIN)

FIN 200 Personal Finance and Investing  Credits: 3 (3-0-0)
Course Description: Fundamentals of personal finance including budgeting, tax planning, managing credit, avoiding identity theft, buying insurance, selecting employee benefits, saving, and investing to meet long-term financial goals. Apply a systematic process to evaluate personal financial situation, develop goals, and create a plan to meet those goals.
Prerequisite: MATH 101 or MATH 117.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 300 Principles of Finance  Credits: 3 (3-0-0)
Course Description: Overview of financial markets and institutions, analysis of securities and investigation of financial management techniques.
Prerequisite: (ACT 205 or ACT 210) and (AREC 202 or ECON 202) and (CIS 200) and (ECON 204) and (MATH 141 or MATH 155 or MATH 160).
Registration Information: Credit not allowed for both FIN 300 and FIN 305.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 305 Fundamentals of Finance  Credits: 3 (3-0-0)
Course Description: Role of finance in management of the firm; role, structure of financial markets and institutions, valuation of basic securities.
Prerequisite: (ACT 205 or ACT 210) and (ECON 204).
Registration Information: Credit not allowed for both FIN 305 and FIN 300. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 309 Fundamentals of Entrepreneurial Finance  Credits: 3 (3-0-0)
Course Description: Accounting and finance for entrepreneurs, including forms of business organization, preparation of financial statements, developing a cash budget, managing working capital, measuring cash flow, valuing a company, measuring performance, types and sources of financing at different stages in a company’s life cycle.
Prerequisite: MGT 340.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 310 Financial Markets and Institutions  Credits: 3 (3-0-0)
Course Description: Analysis of the functions and operations of financial markets and the primary and secondary securities created in those markets.
Prerequisite: ECON 204.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 311 Debt Securities Analysis  Credits: 3 (3-0-0)
Course Description: Analysis of corporate, government, and mortgage-based debt securities. Emphasis on securitization of asset-backed obligations.
Prerequisite: (FIN 300) and (FIN 310 or ECON 315) and (FIN 355).
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 320 Introduction to Financial Planning  Credits: 3 (3-0-0)
Course Description: Personal financial planning including budgeting, tax planning, credit management, investing, retirement, and estate planning.
Prerequisite: ACT 210 and ECON 202.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 325 Risk Management and Insurance  Credits: 3 (3-0-0)
Course Description: Modern investment theory with applications in the debt and equity markets, with introduction to portfolio management.
Prerequisite: FIN 300 and FIN 310.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 330 Principles of Investments  Credits: 3 (3-0-0)
Course Description: Theory and application of financial management to business firms; case problems used for illustration.
Prerequisite: FIN 300.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 335 Financial Management-Theory and Application  Credits: 3 (3-0-0)
Course Description: Analysis of corporate, government, and mortgage-based debt securities. Emphasis on securitization of asset-backed obligations.
Prerequisite: FIN 300 and FIN 310.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 340 Introduction to Financial Modeling  Credits: 3 (3-0-0)
Course Description: Financial modeling that integrates conceptual material with spreadsheet-based numerical solutions and simulation techniques.
Prerequisite: FIN 300 and FIN 310.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 345 Estate Planning  Credits: 3 (3-0-0)
Course Description: Methods for conservation and transfer of wealth, considering aspects of tax, trusts, wills, probate, advanced directives, and charitable giving.
Prerequisite: ACT 330 and FIN 320.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
FIN 442  Employee Benefits and Retirement Planning  Credits: 3 (3-0-0)
Course Description: Design, financing, accounting, and taxation for employee benefit and retirement plans.
Prerequisite: FIN 342.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 445  Financial Plan Development  Credits: 3 (3-0-0)
Course Description: Analyze client finances and economic conditions, develop and communicate comprehensive financial plan using financial planning professional standards.
Prerequisite: ACT 330 and FIN 320 and FIN 342.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 455  Advanced Portfolio Management  Credits: 3 (3-0-0)
Course Description: Advanced hedging and portfolio management theory and techniques.
Prerequisite: FIN 355.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 470  Derivative Securities  Credits: 3 (3-0-0)
Course Description: Futures, options and other derivatives, including their use in hedging, speculation, and arbitrage.
Prerequisite: FIN 355.
Registration Information: Business majors only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 471  Enterprise Valuation  Credits: 3 (3-0-0)
Course Description: Analytical framework for measuring, managing, and applying principles and tools to value enterprises.
Prerequisite: FIN 355 and FIN 370.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 475  International Business Finance  Credits: 3 (3-0-0)
Course Description: International financial management emphasizing markets, instruments, hedging techniques, and operating strategies.
Prerequisite: FIN 300.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 487  Internship  Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

FIN 495  Independent Study  Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

FIN 496  Group Study  Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

FIN 498  Research  Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

FIN 524  Financial Statistics  Credits: 3 (3-0-0)
Also Offered As: STAT 524.
Course Description: Probability and statistical concepts and quantitative tools used in financial modeling and decision-making.
Prerequisite: MATH 345 and STAT 420.
Registration Information: MATH 345; STAT 420, or Admission to MSBA program with Financial Risk Management specialization. Credit not allowed for both FIN 524 and STAT 524. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 600  Financial Management-Theory and Case Studies  Credits: 3 (3-0-0)
Course Description: Financial problems for various types of business organizations.
Prerequisite: FIN 300 or FIN 305.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 601  Financial Management and Markets  Credits: 3 (3-0-0)
Course Description: Integrated coverage of financial management, investments, and markets and institutions from the public, private, and nonprofit perspective.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to GSSE program.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 602  Options and Futures  Credit: 1 (1-0-0)
Course Description: Advanced analysis and pricing of derivative securities, such as futures, forwards and options.
Prerequisite: BUS 641.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
FIN 603 Corporate Risk Management  Credit: 1 (1-0-0)
Course Description: Survey of topics related to corporate risk management including the role and function of insurance and risk management for business enterprises.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to a master’s program in business. This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 604 Employee Benefits  Credit: 1 (1-0-0)
Course Description: Design and financing of employee benefits including health plans, disability, life insurance, long-term care, and retirement plans.
Prerequisite: FIN 603.
Restriction: Must not be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 605 Enterprise Valuation Credits: 3 (3-0-0)
Course Description: Corporate valuation methodologies including dividend discount model, relative valuation using market multiples, free cash flows and options analysis.
Prerequisite: FIN 300.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to M.S. Business Administration, Financial Risk Management specialization. This is a partial-semester course. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 606 Fundamentals of International Finance  Credit: 1 (1-0-0)
Course Description: Fundamental principles of international finance and how they relate to business operations and strategies.
Prerequisite: BUS 601.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 607 Fundamentals of Bond Markets  Credit: 1 (1-0-0)
Course Description: Properties of bonds and bond markets, pricing bonds by arbitrage, risk characteristics of bonds.
Prerequisite: BUS 601.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 608 Fundamentals of Firm Valuation  Credit: 1 (1-0-0)
Course Description: Identifies key value drivers for a business and how these can be identified utilizing currently available financial information.
Prerequisite: BUS 601.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 609 Fundamentals of Personal Finance  Credit: 1 (1-0-0)
Course Description: Personal financial planning focusing on TVM, personal financial statements, retirement plans, government sponsored benefits and education planning.
Prerequisite: BUS 601.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 610 Debt Securities Analysis  Credits: 3 (3-0-0)
Course Description: Valuation of corporate, government, and mortgage-backed debt securities and strategies for management of debt security portfolios.
Prerequisite: FIN 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial semester course. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 612 Private Equity and Venture Capital  Credit: 1 (1-0-0)
Course Description: The role and function of the private equity market and key players in that market, including crowdfunding, angel investors, and venture capitalists. Application of financial tools and models to value venture investments, evaluate risk and return, and negotiate deals.
Prerequisite: BUS 640.
Restriction: Must be a: Graduate, Professional.
Registration Information: Offered as an online course only. This is a partial semester course. Credit not allowed for both FIN 612 and FIN 669.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 625 Quantitative Methods in Finance  Credits: 3 (3-0-0)
Course Description: Review and application of mathematical and analytical techniques used in solving financial problems.
Prerequisite: FIN 300.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial semester course. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
FIN 630  Financial Modeling  Credits: 3 (3-0-0)
Course Description: Practical applications of financial modeling and computer programming to analyze financial data.
Prerequisite: FIN 524 or STAT 524.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial semester course. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 655  Investments  Credits: 3 (3-0-0)
Course Description: Investment analysis and decision making emphasizing equity securities and portfolio management.
Prerequisite: FIN 300.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to M.S. Business Administration, Financial Risk Management specialization. This is a partial semester course. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 661  Advanced Portfolio Management  Credits: 3 (3-0-0)
Course Description: Portfolio management, asset allocation, and asset selection theory and techniques.
Prerequisite: FIN 605 and FIN 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of advisor. Sections may be offered: Online.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 665  Financial Engineering  Credits: 3 (3-0-0)
Course Description: Using futures, options, swaps, and securitized transactions in financial management.
Prerequisite: FIN 610 or FIN 655 or FIN 675.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial semester course. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 669  Financing, Evaluating Sustainable Enterprise  Credits: 3 (3-0-0)
Course Description: Theoretical and applied approaches to the funding and evaluation of enterprises.
Prerequisite: (BUS 601) and (FIN 601).
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 670  Risk Management Theory and Application  Credits: 3 (3-0-0)
Course Description: Fundamentals of financial risk management using quantitative techniques and models to identify, measure, and manage corporate risk.
Prerequisite: (FIN 524 or STAT 524) and (FIN 655).
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial semester course. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 675  International Finance  Credits: 3 (3-0-0)
Course Description: Analysis of the foreign exchange market and international financial markets.
Prerequisite: FIN 300.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial semester course. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 678  Financial Decisions-Theory and Practice  Credits: 3 (3-0-0)
Course Description: Analysis of theory of corporate finance with emphasis on underlying assumptions and implications for financial decisions.
Prerequisite: FIN 600.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

FIN 695  Independent Study  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

FIN 696  Group Study  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

FIN 698  Research  Credits: Var[1-6] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 699  Thesis  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
Real Estate (REL)

REL 360 Real Estate Principles Credits: 3 (3-0-0)
Course Description: Broad survey of real estate emphasizing land use, urban structure and growth, market analysis, real estate finance and valuation, and property rights.
Prerequisite: AREC 202 or ECON 202.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

REL 367 Real Estate Law Credits: 3 (3-0-0)
Course Description: Legal regulations applicable to real property ownership and transfer, to real estate agents, and to use of real property.
Prerequisite: BUS 205 or BUS 260 or HDFS 403.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

REL 430 Real Estate Market Analysis Credits: 3 (3-0-0)
Course Description: Analysis of real estate markets, including development feasibility and managing risk, and their relation to urban economic trends.
Prerequisite: (FIN 300 or FIN 305) and (REL 360).
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

REL 454 Real Estate Appraisal Credits: 3 (3-0-0)
Also Offered As: AREC 454.
Course Description: Theoretical principles that underlie real estate appraisal methods. Procedures and practices used in real estate appraisal.
Prerequisite: (AREC 202 or ECON 202) and (AREC 305 or REL 360).
Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: AREC 453, AREC 454, REL 453, or REL 454.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

REL 455 Real Estate Finance Credits: 3 (3-0-0)
Course Description: Residential mortgage origination, mortgage loan amortization, mortgage decision making, secondary mortgage markets, mortgage backed securities, REITs.
Prerequisite: (FIN 300 or FIN 305) and (REL 360).
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

REL 460 Real Estate Investment Credits: 3 (3-0-0)
Course Description: Financing of real estate assets: real estate markets, policies; use of leverage and real estate investment analysis in real estate investment.
Prerequisite: (FIN 300 or FIN 305) and (REL 360).
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

REL 467 Real Estate Investment Principles Credits: 3 (3-0-0)
Course Description: Broad survey of real estate emphasizing land use, urban structure and growth, market analysis, real estate finance and valuation, and property rights.
Prerequisite: AREC 202 or ECON 202.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

REL 487 Real Estate Internship Credits: Var[1-3] (0-0-0)
Course Description: Internship.
Prerequisite: FIN 300.
Registration Information: Internship. Maximum of 3 credits allowed in course.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

REL 495 Real Estate Independent Study Credits: Var[1-3] (0-0-0)
Course Description: None.
Registration Information: Maximum of 3 credits allowed in course.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

REL 496 Real Estate Group Study Credits: Var[1-3] (0-0-0)
Course Description: None.
Registration Information: Maximum of 3 credits allowed in course.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

REL 601 Fundamentals of Real Estate Finance Credit: 1 (1-0-0)
Course Description: Valuation-oriented study of real estate concepts and principles, including legal, regulatory, finance, market and financial analysis.
Prerequisite: BUS 601.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

Major in Business Administration, Finance Concentration

This program is designed to prepare undergraduate students to enter the finance profession with comprehensive knowledge and real world skills in their area of emphasis. The field of finance is complex, quantitative, and constantly evolving. The program focuses on providing state-of-the-art tools, techniques, and computer applications.

Learning Outcomes

Students will demonstrate the ability to:

- Display broad conceptual knowledge, analytical abilities, and problem solving skill sets in finance
- Analyze and interpret financial statements, and capital markets and economic data to inform business decisions
- Explain the role of business financing and investment decisions on firm value
- Understand the structure and function of financial markets, and the pricing of securities that trade in these markets
- Characterize the relationship between expected return and various sources of risks
- Identify and implement asset allocation and portfolio diversification strategies to improve investment outcomes
Major in Business Administration, Finance Concentration

- Appreciate the role of the firm in the broader economy and society including an understanding of the many stakeholders of the firm in global markets

In addition to the core areas of asset valuation, investments, and global finance, the concentration allows students to select from three options for more in-depth study.

The Corporate Finance option prepares students for positions in both financial and non-financial business enterprises in which they will need to make and defend strategic financial decisions in capital budgeting, planning, control, and policy.

The Investment Analysis option focuses on the theoretical and practical aspects of investment valuation, selection, and portfolio management, for both individual and institutional investors.

The Real Estate Finance option prepares students for careers in commercial or residential real estate and related industries, while also providing strong foundations in financial analysis.

Potential Occupations

Finance students are prepared for a number of different careers in business. Internships and volunteer experiences enhance skills and marketability.

Examples of fields in which graduates can find finance-related occupations include, but are not limited to: commercial, mortgage, and investment banking; corporate finance; investments; portfolio management; financial analysis; securities analysis; loan analysis; insurance; stock brokerage; government banking and securities regulation; government finance; teaching and research.

Requirements

In order to complete the Finance concentration, the Business Administration core courses and the Finance concentration core courses must be completed. Students must select one of the following options as well: Corporate Finance, Investment Analysis, or Real Estate Finance.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

---

*Major in Business Administration, Financial Planning Concentration*
• Review a client’s risk management needs
• Estimate the current capital and future savings needed to fund goals
• Prepare and present recommendations for meeting goals
• Consider the impact of income and estate tax law on achieving goals

This curriculum covers all the major areas of financial planning, including retirement, employee benefits, income tax, estate planning, and risk management. The option is most appropriate for those who intend to enter the financial planning profession as credit counselors, financial advisors, financial planners, wealth managers, or financial product representatives.

Potential Occupations

Financial Planning students are prepared for a number of different careers in business. Internships and volunteer experiences enhance skills and marketability.

Examples of financial-planning-related occupations include, but are not limited to: financial planner, life coach, investment advisor, consumer credit counselor, personal banker, investment wholesaler, insurance agent, and trust advisor.

*Certified Financial Planner Board of Standards Inc. owns the certification marks CFP CERTIFIED FINANCIAL PLANNER™ in the U.S., which it awards to individuals who successfully complete CFP Board’s initial and ongoing certification requirements.

Requirements

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

### Major in Business Administration, Real Estate Concentration

This program is designed to prepare undergraduate students for careers as professionals in real estate and related industries. Real estate is the largest industry in the world representing nearly 50% of the world’s wealth. The real estate profession offers one of the most diverse career selections in the business world today. It is a multi-disciplinary profession that coordinates architecture, construction, law, finance, marketing, property management, and urban dynamics. Real estate professionals help find, provide, and manage space for people to work, sleep, shop, eat, and play. Those who choose careers in real estate are typically goal-oriented, persevering, self-motivated, and possess an entrepreneurial spirit. Furthermore, they must be creative and able to research, analyze, negotiate, and pay attention to details. No two projects or investments are ever the same. Rewards of a real estate career include potential for high earnings, status in the community, independence, flexibility, and an opportunity to help people.

#### Learning Outcomes

Students will demonstrate:

- The ability to evaluate physical real estate (land and building analysis)
- The ability to perform financial real estate analysis (including time value of money)
- The ability to assess and manage risk
- The ability to conduct market analysis and identify opportunities
• An understanding of property and portfolio management

**Potential Occupations**

Real estate graduates find professional employment in many fields. Students interested in commercial real estate may find employment in property and land development, property acquisition, property management, commercial mortgage lending, commercial real estate brokerage, asset management, government housing, commercial construction, or Real Estate Investment Trust (REIT) analysis, investment, or management. Students interested in real estate finance may find employment in commercial real estate investment banking, residential real estate lending for both development and loan underwriting, financial analysis, real estate securities analysis, insurance underwriting, commercial real estate brokerage, government housing finance and investment, or construction lending and research. Students interested in residential real estate may find employment in residential brokerage, residential marketing, residential appraisal, residential finance, residential home inspection services, home construction consulting, or residential development.

**Requirements**

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

**Effective Spring 2018**

Total Credits 30
Program Total Credits: 120

1 Students enrolled in the Business Administration major prior to Fall semester 2013, are not required to take BUS 201 or BUS 220.
2 Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.
3 Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 6 elective credits must be upper-division.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

Major Completion Map

Distinctive Requirements for Degree Program:

To Declare this Major: Business is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in Department for more information.

To prepare for first semester: The curriculum for the Business Administration - Real Estate concentration assumes students will be able to successfully complete calculus within their first year.

Minor in Real Estate

The College of Business offers a minor in Real Estate to majors in other colleges. The minor explores the fundamentals of real estate. Consisting of 21 credits, it covers an introduction to the field of real estate, real estate law, selling, appraisal, and principles of real estate finance.

Requirements

Effective Spring 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.
**Graduate Certificate in Applied Finance**

Students will obtain a solid background in business finance and investments by completing graduate-level introductory finance courses and more advanced electives in specialized areas of finance. Students can focus in the investments area by taking electives that cover bonds, futures, and options, and real estate. Students interested in corporate financial management can focus their studies on corporate risk management, employee benefits, and international finance.

**Effective Spring 2018**

Additional coursework may be required due to prerequisites.

Program Total Credits: 11

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

**Master of Finance, Plan C**

The Master of Finance prepares students for careers in the rapidly changing finance industry, with an emphasis on quantitative analysis and real-world application. The curriculum covers the principles, processes, and practices of investment analysis, portfolio management, corporate finance, and financial risk management, with hands-on application of course concepts to analysis of current financial data.

**Requirements**

**Effective Fall 2016**

• Certificate in Managing Human Resources
• Certificate in Operations, Logistics and Supply Management

Graduate
Master's Program
• Master of Management Practice, Plan C (M.M.P.) (No new students are being accepted into the program.)

Courses
Subjects in this department include: Management (MGT) and Management Science (QNT).

Management (MGT)

MGT 301 Supply Chain Management Credits: 3 (3-0-0)
Course Description: Concept of value-driven supply chains; design and management of effective supply chains; emphasis on current practice and recent trends.
Prerequisite: None.
Registration Information: Sophomore standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 305 Fundamentals of Management Credits: 3 (3-0-0)
Course Description: Managerial process of planning, directing, and controlling inputs of an organization. Analysis, decision making, and survey of research literature.
Prerequisite: None.
Registration Information: Sections may be offered: Online. Credit not allowed for both MGT 305 and MGT 320.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 310 Human Resource Management Credits: 3 (3-0-0)
Course Description: Principles and practices of employee management including hiring, development, compensation, and employee relations.
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 320 Contemporary Management Principles/Practices Credits: 3 (3-0-0)
Course Description: Principles of management in combination with practices of the new economy to achieve managerial goals.
Prerequisite: (BUS 300) and (AREC 202 or ECON 202) and (MATH 141 or MATH 155 or MATH 160).
Registration Information: Credit not allowed for both MGT 320 and MGT 305. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 330 Creativity, Innovation, and Value Creation Credits: 3 (3-0-0)
Course Description: How creativity and innovation can be developed for application in value creation.
Prerequisite: None.
Restriction: Must not be a: Freshman, Sophomore.
Registration Information: Sophomore standing. Business Administration, Mechanical Engineering, Agriculture Business, Apparel and Merchandising, Biomedical Engineering, Computer Science majors; declared LEAP minors or LEAP graduate students only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 340 Fundamentals of Entrepreneurship Credits: 3 (3-0-0)
Course Description: Concepts of entrepreneurship and role of entrepreneurs in the economy.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 350 Employment Relations: The Legal Environment Credits: 3 (3-0-0)
Course Description: Legal principle and policy issues arising from the employment relationship.
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 360 Social and Sustainable Venturing Credits: 3 (3-0-0)
Course Description: Entrepreneurship and economic opportunities in the transition to a socially and ecologically sustainable global economy.
Prerequisite: None.
Restriction: Must not be a: Freshman, Sophomore.
Registration Information: Junior standing or higher.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 374 Total Rewards and Performance Management Credits: 3 (3-0-0)
Course Description: Principles and best practices for the strategic design and implementation of compensation and performance management systems.
Prerequisite: MGT 310.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 375 Advanced Supply Management Credits: 3 (3-0-0)
Course Description: Advanced design of purchasing and supply management within global supply chains.
Prerequisite: MGT 301.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 376 Advanced Service and Manufacturing Operations Credits: 3 (3-0-0)
Course Description: Advanced concepts for the management of operations in service and manufacturing companies.
Prerequisite: MGT 301.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 377 Advanced Logistics Credits: 3 (3-0-0)
Course Description: Advanced design and management of logistics and distribution operations within global supply chains.
Prerequisite: MGT 301.
Registration Information: Junior standing.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 382 Management in an International Context Credits: 3 (3-0-0)
Course Description: Fundamentals of management taught in an international context. Emphasis on global management topics.
Prerequisite: None.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 411 Leading High Performance Teams Credits: 3 (3-0-0)
Course Description: Design, management, and leadership of teams in organizational settings.
Prerequisite: MGT 340 or MGT 320.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 420 New Venture Creation Credits: 3 (3-0-0)
Course Description: Entrepreneurs and the entrepreneurial process. Growth of an independent business.
Prerequisite: MGT 340.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 425 Organizational Communication Strategies Credits: 3 (3-0-0)
Course Description: Strategic communications in organizations; contribution that organizational members make whether acting as individual or group communicators.
Prerequisite: (FIN 300 or FIN 305) and (MKT 300 or MKT 305) and (MGT 305 or MGT 320).
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 430 Leadership and Social Responsibility Credits: 3 (3-0-0)
Course Description: Social responsiveness of managers as they face expectations in the firm’s internal and external environment.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 440 New Venture Management Credits: 3 (3-0-0)
Course Description: Theories and skills necessary for managing startup and existing small firms.
Prerequisite: None.
Registration Information: Written consent of instructor.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 450 Biomedical Entrepreneurship I Credits: 2 (2-0-0)
Course Description: Commercialization process for biomedical inventions; market and competitor analysis, regulations, patents; preliminary feasibility study.
Prerequisite: BIOM 470 or MGT 340 or MECH 470.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 468 Negotiating Globally Credits: 3 (3-0-0)
Course Description: Characteristics and process of negotiation in a global context.
Prerequisite: MGT 305 or MGT 320.
Terms Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
MGT 470 Managerial Decisions-Issues and Analysis Credits: 3 (3-0-0)
Course Description: Investigation and application of managerial decision-making processes and methods to solve problems in business functions.
Prerequisite: (MGT 301) and (MGT 305 or MGT 320).
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 471 Micro Issues in Supply Chain Management Credits: 3 (3-0-0)
Course Description: Managing the supply function (locally or globally) and the productive flow of materials in goods and services-producing supply chains.
Prerequisite: MGT 301.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 472 Macro Issues in Supply Chain Management Credits: 3 (3-0-0)
Course Description: Application of analytical and computer-based tools in the analysis and improvement of supply chains with variable demand and supply.
Prerequisite: MGT 301.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 473 Employment Relations: Labor and Management Credits: 3 (3-0-0)
Course Description: Managerial decision making and action in labor-management relations as affected by labor legislation and administrative practices.
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 474 Human Resource Planning and Development Credits: 3 (3-0-0)
Course Description: Human resource planning, recruitment, selection, training, and development.
Prerequisite: MGT 310.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 475 International Business Management Credits: 3 (3-0-0)
Course Description: Multinational corporations: their scope, activities, managerial problems and decisions.
Prerequisite: (FIN 300 or FIN 305) and (MKT 300 or MKT 305) and (MGT 305 or MGT 320).
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 476 Negotiation and Conflict Management Credits: 3 (3-0-0)
Course Description: Principles and practices of negotiation and conflict management including bargaining as a social and managerial activity.
Prerequisite: MGT 320 or MGT 305.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 477 Global Supply Chain Management Credits: 3 (3-0-0)
Course Description: Principles and best practices for the strategic design and implementation of global supply chains.
Prerequisite: MGT 375, may be taken concurrently and MGT 376, may be taken concurrently and MGT 377, may be taken concurrently.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 482A Study Abroad: International New Venture Creation Credits: 3 (3-0-0)
Course Description: New venture creation taught in an international setting focusing on multi-country contexts. Emphasis on entrepreneurship and intrapreneurship in today's global environments.
Prerequisite: None.
Registration Information: Written consent of instructor. Completion of 60 credit hours.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 482B Study Abroad – Global SCM Experience: Peru Credits: 3 (0-0-3)
Course Description: Examination of supply chain practices and culture of Peru.
Prerequisite: MGT 301 or MGT 665 or BUS 650.
Registration Information: Sophomore standing. Written consent of instructor.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 486 Practicum in Supply Chain Management Credits: 3 (1-4-0)
Course Description: Research and recommend solutions to "real world" supply chain management problems.
Prerequisite: MGT 375 or MGT 377.
Registration Information: Must register for lecture and laboratory, MGT 375; MGT 377 or written consent of instructor.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 487 Internship Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MGT 495 Independent Study Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MGT 496 Group Study Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
MGT 498 Research Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MGT 600 Manufacturing Process and Systems Design Credits: 3 (3-0-0)
Course Description: Strategic understanding of alternate manufacturing processes and systems design support needed to manage those processes.
Prerequisite: BUS 620 and BUS 625.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 601 Enterprise Computing and Systems Integration Credits: 3 (3-0-0)
Also Offered As: CIS 601.
Course Description: Integrated extended enterprise planning and execution systems concepts including ERP, CRM, SCM, MRPII, business processes, front/back office systems.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online. Credit not allowed for both MGT 601 and CIS 601.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 610 Strategic Human Resource Management Credits: 3 (3-0-0)
Course Description: Strategic issues associated with recruiting, staffing, evaluating, compensating, and developing employees; leadership issues associated therein.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to master's program.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 611 Management of Organization Development Credits: 3 (3-0-0)
Course Description: Methods for managing organizational change.
Prerequisite: MGT 305 or MGT 320.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 612 Managing in a Global Context Credits: 3 (3-0-0)
Course Description: Global management and HR development issues/practices. Cross-cultural issues in organization behavior, recruitment, selection, training, compensation.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to GSSE program.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 620 Management Credits: 3 (3-0-0)
Course Description: Practices, policies, philosophies, and behavior.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 625 Managerial Communication Practices Credits: 3 (3-0-0)
Course Description: Internal, external, and managerial communication. Managerial speaking and writing skills enhancement.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to a master's program in business.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 640 Supply Chain Management Strategies Credits: 2 (2-0-0)
Course Description: How to create an effective supply chain management system to establish an efficient network for supplying final consumption.
Prerequisite: MGT 600.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 665 Supply Chain Development and Management Credits: 2 (2-0-0)
Course Description: This course teaches the development and management of the global supply chain that plans, sources, makes and delivers an organization's products.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of instructor. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 666 Global Social Sustainable Entrepreneurship Credits: 3 (3-0-0)
Course Description: Global challenges--poverty, environmental degradation, public health, agriculture. Role of entrepreneurial management in private and public sector.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of instructor. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 668 New Venture Development for Social Enterprise Credits: 3 (3-0-0)
Course Description: Early stages of a new venture, including creation of business plan. Additional study of social entrepreneurship and sustainable business strategies.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of instructor. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
Major in Business Administration, Human Resource Management Concentration

This program is designed to develop in students a comprehensive knowledge of human resource (HR) management along with the skills necessary for implementing strategic, effective, and legally defensible HR practices in contemporary business organizations. Human resource professionals operate in a dynamic and changing world, managing the organization’s relationship with its employees. They develop and manage people, practices, and policies to ensure that they produce employee attitudes, skills, behaviors, and performance that companies need to achieve their strategic goals. They are commonly responsible for recruiting, hiring, onboarding, training and developing, evaluating performance, compensating, providing benefits, counseling, and terminating employees. HR Professionals are employed in every industry and are an essential partner in an organization’s strategic vision for the future and for ensuring the right people are in place. It is essential that an HR professional learn and master key knowledge, skills, and abilities including critical thinking, confidentiality, change management, communication, negotiation and conflict management, business acumen, interpersonal skills, organizational skills, and fairness. In addition to the All-University Core Curriculum, course work for a concentration in Human Resource Management includes the College of Business Core and various management electives that allow the student to structure a program around his or her educational and/or career interests.

Learning Outcomes

Students will demonstrate:

• Knowledge and skills necessary to assume entry-level HR positions in preparation for pursuing careers in a wide variety of organizations and industries
• Knowledge and skills to develop and implement HR practices in a strategic, legal, and ethical manner
• Understanding of HR’s role in the efficient and effective operations of organizations and their human resources
• The ability to create and manage HR practices that respect and encourage diversity and inclusion in the workplace

Potential Occupations

Some examples include, but are not limited to the following: Human Resource Assistant, Recruiter, Labor Relations Specialist, Human Resource Manager, Employee Benefits Manager, Training and Development Manager, Employee Relations Manager, Compensation Analyst, Human Resources Consultant, Job Analyst.

Requirements

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Effective Fall 2017

MGT 671 Labor Management Relations Credits: 3 (3-0-0)
Course Description: Collective bargaining process, administration of contract, and impact of public policy on industrial relations.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 675 Service Operations/Supply Chain Management Credits: 3 (3-0-0)
Course Description: Supply chain management (SCM) and operations function. Primary focus on service sector.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to a master’s program in business.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 679 Principles of Strategic Management Credits: 3 (3-0-0)
Course Description: Processes through which firms choose and implement strategies. Formulation and implementation of strategic management process in variety of industries.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to a master’s program in business.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 695 Independent Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MGT 696 Group Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MGT 699 Thesis Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Management Science (QNT)

QNT 270 Basic Business Statistics Credits: 3 (2-2-0)
Course Description: Statistical tools applied to business conditions and functions.
Prerequisite: STAT 204.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

| Total Credits | 27 |

Program Total Credits: 120

1. Students enrolled in the Business Administration major prior to Fall semester 2013, are not required to take BUS 201 and BUS 220.

2. Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.

3. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 6 elective credits must be upper-division.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

**Major Completion Map**

**Distinctive Requirements for Degree Program:**

**To Declare this Major:** Business is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in Department for more information.

**To prepare for first semester:** The curriculum for the Business Administration - Human Resources Management concentration assumes students will be able to successfully complete calculus within their first year.

Colorado State University

Major in Business Administration, 
Organization and Innovation Management Concentration

This program is designed to provide its students with a comprehensive knowledge of organization and innovation management along with the skills necessary for effective decision making in a business environment that is diverse, global, and highly competitive. Managers are dynamic individuals who are responsible for projects, teams, and processes. They coordinate, motivate, strategize, plan, budget, initiate action, evaluate performance, and control process and activities. They are commonly responsible for overseeing a budget and the activities of others to ensure that the organization’s goals and objectives are met. Managers are employed in every industry. It is essential that a manager learn and master key knowledge, skills, and abilities including how to handle conflict, communicate effectively, negotiate, create positive and productive work environments, and effectively manage the numerous issues associated with the human resources of an organization.

Students may choose focused course work in entrepreneurship, supply chain management, and human resource management. These are designed to help students acquire skill sets so that, upon graduation, they will be able to “hit the ground running.” In addition to the All-University Core Curriculum, course work for a concentration in organization and innovation management includes the College of Business Core and various management electives that allow the student to structure a program around his or her educational and/or career interests.

Learning Outcomes

Students will demonstrate:
• Knowledge and skills adequate to assume entry-level management positions in the broad spectrum of organizations so they can pursue careers in a wide variety of organizations and industries
• Ethical decision making skills
• An understanding of necessary change management and innovation skills
• An understanding of business principles and practices in an international context

Potential Occupations
Some examples include, but are not limited to the following: account management, analyst, client services, consultant, logistics management, supply management, management trainee, corporate recruiter, business owner, events planner, executive assistant, human resource specialist, project management, relationship management, retail management, team leader, trainer/facilitator.

Requirements
The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Total Credits: 15

Program Total Credits: 120
**Major in Business Administration, Supply Chain Management Concentration**

This program is designed to develop in students a comprehensive knowledge of global supply chain management (SCM) along with the skills necessary for implementing strategic, efficient and effective SCM practices in contemporary business enterprises. SCM Professionals operate in a dynamic and changing world, managing resources and relationships with suppliers and customers worldwide. They are commonly responsible for practices related to managing products, information and cash flows through the global value chain including product development, forecasting demand, managing production and service operations, purchasing materials, order fulfillment, distribution, returns management, trade compliance, and customer service. SCM Professionals are employed in every industry and are essential in ensuring a company’s offerings provide value for its customers. It is essential that an SCM professional learn and master key knowledge, skills, and abilities including critical thinking, ethics, change management, communication, negotiation and conflict management, business acumen, interpersonal skills, and organizational leadership skills. In addition to the All-University Core Curriculum, course work for a concentration in Supply Chain Management includes the College of Business Core and various management electives that allow the student to structure a program around his or her educational and/or career interests.

**Learning Outcomes**

Students will demonstrate:

- Knowledge and skills adequate to assume entry-level SCM positions in the broad spectrum of organizations and be prepared to pursue careers in a wide variety of organizations and industries
- Knowledge of how global supply chains operate and skills to make decisions to support strategic and tactical activities to manage efficient and effective supply chains
- An understanding of ethical decision making skills with respect to dealing with supplier and customer organizations
- An understanding of the skills required to manage risk, innovation, and the dynamics of supply chains in the current global economy

**Potential Occupations**

Some examples include, but are not limited to the following titles: Buyer, Supply Manager, Purchasing Manager, Materials Supervisor, Production Manager, Logistics Analyst, Transportation Analyst, Transportation Manager, Account Manager, Warehouse Supervisor, Supply Chain Consultant.

**Requirements**

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

**Effective Fall 2018**

1 Students enrolled in the Business Administration major prior to Fall semester 2013, are not required to take BUS 201 and BUS 220.

2 Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.

3 Of the two-course selection of MGT 411 and MGT 476 in the senior year, the course not selected may be included among the three-course selection below it. Courses may not double-count for these requirements.

4 Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 6 elective credits must be upper-division.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

Major Completion Map

**Distinctive Requirements for Degree Program:**

**To Declare this Major:** Business is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in Department for more information.

**To prepare for first semester:** The curriculum for the Business Administration - Supply Chain Management Concentration assumes student will be able to successfully complete calculus within their first year.

Program Total Credits: 120

Minor in Entrepreneurship and Innovation

The minor in Entrepreneurship and Innovation will prepare students across the CSU campus to play crucial roles (as founders, investors, advisors, policy makers, and executives) in the greater entrepreneurial ecosystem including new venture start-up, corporate entrepreneurship, social and sustainable ventures, and government entities. The minor consists of 24 credits which are a combination of required entrepreneurship courses from the College of Business and electives across majors selected due to their entrepreneurial nature.

Requirements

Effective Fall 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Sophomore standing required for acceptance into the minor.

Students must have a minimum GPA of 2.500 for acceptance into the minor.

Students must complete each course in the minor with a grade of C or better.

Select one course from the following:

- MGT 360 Social and Sustainable Venturing
- MGT 440 New Venture Management
- MGT 487 Internship

Select two courses from the following:

- BUS 205 Legal and Ethical Issues in Business
- ECON 202 Principles of Microeconomics (GT-SS1)
- ECON 204 Principles of Macroeconomics (GT-SS1)
- MGT 305 Fundamentals of Management
- MKT 305 Fundamentals of Marketing

Program Total Credits: 24-25

Students can only choose 2 courses from their major area to apply to a minor.

Certificate in Entrepreneurship

The Certificate in Entrepreneurship is composed of a series of courses which provides students with the knowledge and skills to successfully develop and assess the viability of for profit and not-for-profit "social and sustainable" business concepts, and plan for the funding and launch of new ventures whether they are stand alone businesses or new ventures within an existing company.

Effective Fall 2018

Additional coursework may be required due to prerequisites.

Certificate in Leadership in Organizations

The College of Business offers the Certificate in Leadership in Organizations to students majoring in Business Administration. This certificate provides students with a research-based understanding of leadership principles and experience-based skill development opportunities. These leadership competencies are valuable for job attainment, job performance, and career progression for students of all concentrations in the College of Business.

Effective Spring 2015
Additional coursework may be required due to prerequisites.

Certificate in Managing Human Resources

The College of Business offers the Certificate in Managing Human Resources to students majoring in Business Administration. This certificate will give students a basic understanding of the functional areas of human resource management to add to their specific major area. Students can expect an introduction to the field of human resource management including employment law, recruitment, selection, training and development, performance management, and compensation.

Effective Spring 2015
Additional coursework may be required due to prerequisites.

Certificate in Operations, Logistics and Supply Management

The College of Business offers the Certificate in Operations, Logistics and Supply Management to business students, to give students expertise in the core areas of supply chain management (SCM) and to prepare them for SCM careers. Companies seek employees able to mitigate risk in global supply chains, grasp the cost trade-offs inherent to various SCM activities, and build relationships with key trading partners. This certificate will give students the ability to add value through coordination of functions and firms.

Effective Fall 2018
Additional coursework may be required due to prerequisites.

Courses
Marketing (MKT)

MKT 300 Marketing Credits: 3 (3-0-0)
Course Description: Market and buyer analysis, product and service development, pricing, promotion, advertising, selling, and distribution.
Prerequisite: (AREC 202 or ECON 202) and (MATH 141 or MATH 155 or MATH 160).
Registration Information: Credit not allowed for both MKT 300 and MKT 305.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 305 Fundamentals of Marketing Credits: 3 (3-0-0)
Course Description: Overview of marketing activities involved in provision of products and services to customers, including target markets and managerial aspects.
Prerequisite: AREC 202 or ECON 101 or ECON 202.
Registration Information: Credit not allowed for both MKT 305 and MKT 300. Sections may be offered: Face-to-Face, Online, or Mixed Face-to-Face.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 307 Fundamentals of Sports Marketing Credits: 3 (3-0-0)
Course Description: General marketing and the application within sporting related contexts. Focuses on the nature and scope of marketing a sports franchise as well as marketing traditional products or services with the assistance of sports figures.
Prerequisite: None.
Registration Information: This is a partial semester course. Offered as an online course only. Sport Management Minors only.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 315 Marketing Communication Design Credits: 3 (3-0-0)
Course Description: Creating multiple kinds of marketing communications using graphic design software.
Prerequisite: MKT 300 or MKT 305.
Registration Information: Business majors only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 320 Integrated Marketing Communications Credits: 3 (3-0-0)
Course Description: Principles and practices of managing promotional activities including advertising, sales promotion, and other major media.
Prerequisite: MKT 300 or MKT 305.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 330 Business Customer Relationships Credits: 3 (3-0-0)
Course Description: Managing relationships with distribution channel intermediaries and business customers.
Prerequisite: MKT 300 or MKT 305.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 360 Retailing Credits: 3 (3-0-0)
Also Offered As: DM 360.
Course Description: Retail markets, institutions, operations, and problems.
Prerequisite: MKT 300 or MKT 305.
Registration Information: Credit not allowed for both MKT 360 and DM 360. Sections may be offered: Online.
Terms Offered: Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 361 Buyer Behavior Credits: 3 (3-0-0)
Course Description: Marketing analysis of buying behavior of individuals, households, businesses, and not-for-profit organizations.
Prerequisite: MKT 300 or MKT 305.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 362 Professional Selling Credits: 3 (3-0-0)
Course Description: Persuasive personal communications in selling consumer and industrial products and services.
Prerequisite: MKT 300 or MKT 305.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 363 Sales Management Credits: 3 (3-0-0)
Course Description: Recruiting, selecting, training, compensating, motivating, supervising, and evaluating a sales force.
Prerequisite: MKT 300 or MKT 305.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 364 Product Design Credits: 3 (3-0-0)
Course Description: Designing innovative products, services, brands, and experiences is critical for creating value within all kinds of organizations in the marketplace and society. Creative problem solving to define design challenges, create concepts with low-fidelity prototyping, evaluate assumptions using co-creation, and communicate ideas with stakeholders. Internalize and practice the frameworks, processes, and tools for leading a product innovation process in any kind of organization.
Prerequisite: MKT 300 or MKT 305.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
MKT 365 International Marketing  Credits: 3 (3-0-0)
Course Description: Analysis of international markets and development of strategic and tactical options for marketing across national boundaries.
Prerequisite: MKT 300 or MKT 305.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 366 Services Marketing  Credits: 3 (3-0-0)
Course Description: Customer service issues and unique challenges involved in marketing and management of services operations.
Prerequisite: MKT 300 or MKT 305.
Term Offered: Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 367 Sports Marketing  Credits: 3 (3-0-0)
Course Description: The nature and scope of applying marketing strategy and tactics in the sports marketing environment.
Prerequisite: MKT 300 or MKT 305.
Registration Information: Credit allowed for only one of the following: MKT 367, MKT 367A, MKT 367B.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 370 Digital Marketing  Credits: 3 (3-0-0)
Course Description: Introduction to digital marketing: the landscape and tactics needed to execute marketing strategy in an online, connected, world.
Prerequisite: MKT 300 or MKT 305.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 375 Social Media Marketing  Credits: 3 (3-0-0)
Course Description: Provides the knowledge and skills to effectively use social media to market a business. Obtain in-depth knowledge and understanding of the various facets of social media marketing strategy, platforms and tactics, and how social media integrates into the overall marketing and communication plan.
Prerequisite: MKT 300.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 410 Marketing Research  Credits: 3 (3-0-0)
Course Description: Role and methodology of research in business emphasizing selection of study's direction, collecting data, and choosing techniques for analyzing these data.
Prerequisite: (MKT 300 or MKT 305) and (STAT 204 or STAT 301 or STAT 307 or STAT 311 or STAT 315).
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 440 Pricing and Financial Analysis in Marketing  Credits: 3 (3-0-0)
Course Description: Financial analysis involved in addressing marketing problems; advanced study of pricing strategy and tactics.
Prerequisite: MKT 300 or MKT 305.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 450 Marketing Analytics  Credits: 3 (3-0-0)
Course Description: Analytic techniques used by marketers to transform data into decision-making information.
Prerequisite: MKT 410.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 479 Marketing Strategy and Management  Credits: 3 (3-0-0)
Course Description: Marketing decisions involving integration of elements of the marketing mix.
Prerequisite: MKT 410.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 482A Study Abroad: Cross-Cultural Marketing  Credits: 3 (0-0-3)
Course Description: International setting focusing on multi-country contexts. Emphasis on consumer and business customer behavior in today's global environment.
Prerequisite: MKT 300 or MKT 305.
Registration Information: Written consent of instructor.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 486 Marketing Practicum  Credits: 3 (0-0-3)
Course Description: To give students the experience of working on a real marketing problem with a team at a sponsoring firm.
Prerequisite: MKT 300 or MKT 305.
Registration Information: Written consent of instructor required.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 487 Internship  Credits: 3 (0-0-9)
Course Description: Written consent of instructor required. Maximum of 3 credits allowed in course.
Term Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

MKT 492 Seminar  Credits: 3 (0-0-3)
Course Description: Written consent of instructor required.
Registration Information: Written consent of instructor required.
Term Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

MKT 495 Independent Study  Credits: Var[1-5] (0-0-0)
Course Description: None.
Registration Information: 2.75 GPA or better.
Term Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

MKT 496 Group Study  Credits: Var[1-3] (0-0-0)
Course Description: None.
Term Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.
MKT 498 Research Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MKT 600 Marketing Management and Strategy Credits: 3 (3-0-0)
Course Description: Processes of customer value creation and value capture; marketing strategy analysis.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to a master’s program in business.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 601 Marketing for Social Sustainable Enterprises Credits: 3 (3-0-0)
Course Description: Customer and stakeholder value creation and capture. Marketing strategy with emphasis on social sustainable organizations.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to GSSE Program.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 610 Qualitative Marketing Research Methods Credit: 1 (1-0-0)
Course Description: Overview of qualitative research methods including focus groups, in-depth interviews, observations, and projective techniques.
Prerequisite: BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 611 Quantitative Marketing Research Methods Credit: 1 (1-0-0)
Course Description: Overview of the field of business research, with a focus on quantitative research methods.
Prerequisite: BUS 601 and BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 621 Search Engine Marketing and Optimization Credit: 1 (1-0-0)
Course Description: Focuses on search engine optimization (SEO) and search engine marketing (SEM). Students will improve the visibility of webpage(s) in the “organic results” through a variety of SEO tactics. Use paid activities (using the Google AdWords platform) to drive traffic from the search engine results page. Emphasizes application of class frameworks and concepts.
Prerequisite: BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to a master’s program in business.
This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 650 Marketing Analytics I Credits: 2 (2-0-0)
Course Description: Examine the pivotal role of marketing research in the data analytics process. Emphasis on research design, experimental design, sampling theory and various data collection methods. Evaluate the reliability and validity of marketing research data and data analysis tools (SPSS/SAS/R) and report on research findings.
Prerequisite: BUS 601 and BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial semester course. Offered as an online course only.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 651 Marketing Analytics II Credits: 2 (2-0-0)
Course Description: Introduces the scope of the secondary data environment and teaches the analytic techniques used by marketers to transform data into decision making information. Focuses on primary data collection techniques, advanced analytic techniques and their application to marketing decision making.
Prerequisite: MKT 650.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial semester course. Offered as an online course only.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 653 Consumer Behavior Credit: 1 (1-0-0)
Course Description: Marketing analysis of buying behavior of individual consumers.
Prerequisite: BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 654 Strategic Selling for Business Customers Credit: 1 (1-0-0)
Course Description: Examination of sales strategies, sales tactics and best practices in professional selling with a primary context in business selling.
Prerequisite: BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 657 Services Marketing Management Credit: 1 (1-0-0)
Course Description: Fundamental concepts and strategies that differentiate the marketing of services from the marketing of tangible goods, including customer satisfaction.
Prerequisite: BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
MKT 670 Digital Marketing  Credit: 1 (1-0-0)
Course Description: Overview of digital marketing tactics. Focuses on the practical application of tactics in support of basic business strategies as they apply to the online world of marketing, including websites, analytics, content marketing, email marketing, and emerging technologies, among other digital based topics. Particular focus will be given to measurement in a digital world through analytics and metrics.
Prerequisite: BUS 655 and MKT 601.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial semester course. Offered as an online course only.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 692 Seminar  Credits: 3 (0-0-3)
Course Description: Critical review and discussion of relevant marketing topics.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MKT 695 Independent Study  Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: 3.25 GPA or better.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Major in Business Administration, Marketing Concentration

This program will provide its students with a comprehensive knowledge of marketing along with the skills necessary for effective decision making in a business environment that is diverse, global, and highly competitive. As defined by the American Marketing Association, marketing is the activity, set of institutions, and processes for creating, communicating, delivering, and exchanging offerings that have value for customer, clients, partners, and society at large. Organizations engage in marketing activities, such as conducting market research, developing new products, establishing pricing approaches, designing marketing communications, and building customer relationships. Marketing is people-oriented and ever changing. A person’s analytical and creative abilities are brought to bear on developing solutions to various marketing problems while operating within a continuously evolving marketplace. In addition to the All-University Core Curriculum, course work for a major in business administration/marketing includes calculus, economics, statistics, and business foundation classes along with courses that specifically examine marketing issues and practices.

Learning Outcomes

Students will demonstrate:

- The ability to identify a marketing problem and key influences on that problem, to use appropriate qualitative and quantitative analysis and market research techniques to evaluate the marketing problem, and to evaluate alternative solutions
- The ability to make a final recommendation that thoroughly addresses the problem/opportunity based on: making reasonable assumptions; considering appropriate customer, competitor, and company constraints; clearly addressing the marketing issues; and demonstrating an understanding of the interrelationships of marketing concepts
- The ability to use marketing terminology correctly
- The ability to develop persuasive and convincing arguments that support recommendations
- The ability to design a marketing plan

Potential Occupations

Between one-fourth and one-third of the civilian labor force is employed in marketing-related positions. Examples of possible careers include, but are not limited to: marketing strategy planning, brand management, product development, market research, digital marketing, pricing management, sales management, advertising, and promotion management.

Requirements

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Global and Cultural Awareness: 3E
Electives: 9

Total Credits: 30
Program Total Credits: 120

1. Students enrolled in the Business Administration major prior to Fall semester 2013, are not required to take BUS 201 and BUS 220.
2. Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.
3. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 6 elective credits must be upper-division.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

Major Completion Map

Distinctive Requirements for Degree Program:

To Declare this Major: Business is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in Department for more information.

To prepare for first semester: The curriculum for the Business Administration - Marketing concentration assumes students will be able to successfully complete calculus within their first year.

College-Wide Graduate Programs

Master's Programs
Master of Engineering, Plan C, Biomedical Engineering Specialization
Master of Engineering, Plan C, Chemical Engineering Specialization
Master of Engineering, Plan C, Civil Engineering Specialization
Master of Engineering, Plan C, Computer Engineering Specialization
Master of Engineering, Plan C, Electrical Engineering Specialization
Master of Engineering, Plan C, Engineering Management Specialization
Master of Engineering, Plan C, Mechanical Engineering Specialization
Master of Engineering, Plan C, Systems Engineering Specialization
Master of Science in Systems Engineering, Plan A
Master of Science in Systems Engineering, Plan B

Ph.D. Programs
Ph.D. in Systems Engineering

Graduate Certificates
Certificate in Systems Engineering Practice

The mission of the Walter Scott, Jr. College of Engineering is to provide high quality teaching, advising, research, outreach, and service in a land grant, Carnegie Class I environment and to serve the people and industries of the state, nation, and world.

Engineers are critically involved in every facet of modern technological society, processing information, designing systems and equipment, maintaining society's infrastructure, solving environmental and energy problems, and helping attain desired levels of efficiency and comfort. The Walter Scott, Jr. College of Engineering continues its tradition—a tradition as old as CSU—of providing world-class training in the basic fields of engineering through both undergraduate instruction and graduate programs strongly supported by modern research facilities and distinguished faculty.

College Programs

The Engineering Accreditation Commission of ABET (http://www.abet.org) accredits all engineering undergraduate programs.

Undergraduate programs are administered by the Departments of Chemical and Biological Engineering, Civil and Environmental Engineering, Electrical and Computer Engineering, and Mechanical Engineering. These departments offer four-year programs leading to Bachelor of Science degrees. Although emphasis is on broad training in basic engineering, students may specialize to some extent by proper choice of technical electives. Additionally, the School of Biomedical Engineering offers a program in which students attain two degrees in five-years. Graduates of this program receive two degrees: one B.S. in biomedical engineering and the other B.S. in one of three traditional engineering areas: chemical and biological engineering, electrical engineering, or mechanical engineering.

A program leading to a Bachelor of Science degree with a major in Engineering Science is coordinated by the Associate Dean for Academic Affairs in the Walter Scott, Jr. College of Engineering. This program offers three concentrations: Engineering Physics, Space Engineering, Teacher Education, and two dual degrees offered through the College of Liberal Arts resulting in degrees in both Liberal Arts and Engineering.
Students may consider simultaneously completing the requirements for a second major. See Second Major Requirements for a complete description of the program. A student may pursue a minor program of study inside or outside the Walter Scott, Jr. College of Engineering in conjunction with the desired engineering major.

Walter Scott, Jr. College of Engineering General Objectives and Outcomes

Objectives
Individual program outcomes and objectives are provided within the respective departments’ websites and below, in this catalog.

Cooperative Education Program
The cooperative education program is an academic rotational program in which students work at least three semesters, two of which are fall or spring, in an assignment related to their major. Each work semester, cooperative education students register for one credit hour of Engineering Cooperative Experience to maintain their full-time student status. Three cooperative education credit hours may be substituted for a technical elective in their major. Cooperative education students gain at least a year of work experience, typically with the same employer, while earning a competitive salary. The cooperative education program allows participants to explore their chosen engineering discipline, build a powerful resume, develop a network of professional contacts, and support their academic expenses.

International Opportunities
Education abroad programs are available to students in the Walter Scott, Jr. College of Engineering. Because knowledge of other cultures is valuable in understanding our own, students are strongly encouraged to take a summer or semester to study outside the United States as part of their overall program at CSU. Students interested in study abroad should plan far in advance by discussing opportunities with their academic advisor and by visiting the Office of International Programs (http://international.colostate.edu) in Laurel Hall.

Registration as a Professional Engineer
Registration and licensing are required under certain legally defined circumstances in order to practice as an engineer. The Walter Scott, Jr. College of Engineering actively encourages all of its students to fulfill the necessary requirements as soon as they are eligible. The Fundamentals of Engineering Examination (FE) administered by the State Board of Registration for Professional Engineers and Professional Land Surveyors may be taken by seniors from ABET accredited programs during the two semesters prior to graduation. After the required practical experience is completed, the Principles and Practice of Engineering Examination (PE) may be taken for licensure in the engineering profession.

Career Readiness
Within the Walter Scott Jr. College of Engineering, the Engineering Success Center (http://www.engr.colostate.edu/engineering-success-center) provides comprehensive career services and career preparation as part of the Office of Academic and Student Affairs. The center delivers a full spectrum of programs supporting the professional development and placement of undergraduate engineers while considering the workforce needs of its industry partners. Student services include resume reviews, job search advice, career fairs, salary negotiation tactics, mock interviews, cooperative education partnerships, and the opportunity to engage with diverse student organizations.

Admission Information
Students may be admitted to a specific undergraduate major in this college or as undecided engineering freshmen (Engineering Open Option). Undecided engineering students must specify their choice of major prior to registration for the sophomore year. Should the demand for any engineering major exceed the capacity to maintain a high-quality education, the college may find it necessary to limit enrollment in some majors. The Engineering Open Option student who wishes to transfer to one of these majors may be at a disadvantage when demand exceeds capacity. In general, students are better served by selecting one of the college’s majors at admission and then changing majors, if necessary, rather than entering as undecided freshmen.

High School Graduates
See General Policies for Undergraduate Admissions for specific Walter Scott, Jr. College of Engineering requirements. The required units listed are minimums. Students desiring to enter the engineering majors are urged to take available advanced math, English, computer skills, and natural sciences classes.

Course Placement and Advising for Freshmen
All entering freshmen are required to take the Mathematics Placement Examination (MPE) (https://placement.math.colostate.edu/welcome/directory.html) prior to registration. The examination results, together with other information about students, are used by both professional and faculty advisors to counsel students. Those with weaknesses in mathematics may be advised to take up to five math courses (MATH 117, MATH 118, MATH 124, MATH 125, MATH 126) before enrolling in calculus (MATH 160).

Transfer Students
Advisors in each department are available to assist students who wish to transfer. Should the demand for any engineering major exceed the capacity to maintain a high-quality education, individual departments may find it necessary to enforce more stringent requirements.
Transfer of credits earned at other colleges and universities within Colorado is facilitated by the articulation agreements from one university to another on course equivalencies.

Change of Major to Engineering
Students who wish to change from another CSU major are selected for admission once each term; students are admitted based on academic criteria. Some majors may specify more stringent requirements in math and science or other courses. Engineering courses are normally open to engineering majors only.

Curricular Requirements
The curricula of the Walter Scott, Jr. College of Engineering include courses in engineering, mathematics, science, humanities, and social sciences. During the first two years, all engineering students take coursework emphasizing mathematics, physics, chemistry, and basic engineering; because all branches of engineering rely on this foundation. The junior and senior years are devoted primarily to a balanced selection of specialized engineering courses. The minimum number of credits for graduation with a Bachelor of Science degree varies with the engineering major.

Good engineers are not only competent to render professional service in their fields of specialization, but are able to assume leadership roles as citizens. To broaden students' perspectives in non-technical areas, the programs in engineering require a minimum of 12 to 15 credits in arts and humanities and behavioral and social sciences to be selected from anthropology, economics, foreign languages, history, literature, philosophy, political science, psychology, and sociology. Courses in art, geography, music, speech, and theatre may also be selected with the prior approval of the advisor. These courses must be selected in such a way that they also meet All-University Core Curriculum requirements.

The ability to express oneself clearly and concisely in both written and oral forms is a great asset to the engineer who is often called upon to prepare reports in which clarity, organization, and precision are essential. For this reason, engineering students must do more than meet the minimum English course requirements. In fact, the development of communication skills is emphasized throughout the engineering curricula. This emphasis is especially evident in laboratory and design-oriented courses, in which the presentation of both oral and written reports is a major component.

The Walter Scott, Jr. College of Engineering requires a minimum grade point average of 2.000 in required engineering, mathematics, chemistry, and physics courses as a graduation requirement. Additional minimum grade requirements apply in some engineering majors.

An engineer applies physical understanding and analytical techniques to the design of devices and systems needed by modern society. The preparation of an engineer, therefore, must include engineering design experience. To meet this objective, all undergraduate engineering students must participate in a well-structured sequence of design-related courses culminating in a capstone design experience in order to graduate.

Graduate Programs in Biomedical Engineering
Programs leading to a Master of Engineering, Master of Science, and Doctor of Philosophy degrees are offered at CSU. The graduate programs in Bioengineering (M.S. and Ph.D.) integrate physical, chemical, and mathematical sciences with engineering principles and clinical studies. There are boundless opportunities for research, ranging from new therapies and imaging modalities for fighting cancer, to improving the design of vital medical equipment used in open heart surgery, or developing the next generation of gene therapies and engineered tissues. CSU is uniquely positioned to offer this advanced degree program. The highly-ranked Veterinary Medical Center and the Professional Veterinary Medicine Program are co-located with engineering and sciences on the CSU campus, providing a rich environment for interdisciplinary research and day-to-day collaborations.

Other Graduate Programs under the Walter Scott, Jr. College of Engineering
The Walter Scott, Jr. College of Engineering also offers an M.S. and a Ph.D. in Systems Engineering, as well as graduate-level interdisciplinary studies programs in Extreme Ultraviolet and Optical Science and Technology, and Systems Engineering. Students interested in graduate work should refer to the Graduate and Professional Bulletin.

Major in Engineering Science
Scott Bioengineering Building, Suite 102
(970) 491-6220
Professor Anthony Marchese, Program Chair
Shannon Wagner, Undergraduate Key Advisor

Engineering Science is an interdisciplinary major that allows students to acquire a strong base in mathematics, the physical sciences, and engineering fundamentals while pursuing a broad background in the liberal arts or other areas of interest in preparation for specialized careers or graduate studies. The major provides comprehensive undergraduate engineering education in selected fields which are not served by traditional engineering programs available at CSU. Three concentrations are available—Engineering Physics, Space Engineering, Teacher Education, and two dual-degree programs in Engineering and the College of Liberal Arts. Regardless of the concentration, graduates are well prepared for a professional career.

Program Educational Objectives
The Engineering Science program seeks to develop graduates who will be able to do the following within the first few years after graduation:

- Define, analyze, formulate, and synthesize engineering problems associated with their professional position, both independently and in diverse, multidisciplinary and interdisciplinary team environments
- Actively contribute to multifaceted and multidisciplinary projects with significant legal, ethical, regulatory, social, cultural, environmental, and economic considerations using a broad systems perspective
- Communicate effectively with colleagues, professional clients, and the public
- Demonstrate commitment and progress in lifelong learning including further graduate education, professional development including active participation in professional societies, and leadership positions
- Actively participate in innovative and entrepreneurial related projects

Student Learning Outcomes
At graduation, CSU Engineering Science undergraduates are expected to have:
- An ability to apply knowledge of mathematics, science, and engineering
- An ability to design and conduct experiments, as well as to analyze and interpret data
- An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- An ability to function on multidisciplinary teams
- An ability to identify, formulate, and solve engineering problems
- An ability to understand professional and ethical responsibilities
- An ability to use the techniques, skills, and modern engineering, as well as the tools necessary for engineering practice, and communicate effectively
- The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
- A recognition of the need for, and an ability to engage in life-long learning
- Knowledge of contemporary issues
- An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice

The Engineering Science major and each of its concentrations is accredited by the Engineering Accreditation Commission of ABET (http://abet.org).

### Potential Occupations

Engineering Science graduates are well rounded in mathematics, sciences, humanities, and social and behavioral sciences. They are well prepared to enter a career in engineering, or to proceed to graduate school in one of the traditional engineering disciplines. Graduates of the Liberal Arts/Engineering Science dual major often move on to professional programs in medicine, law, veterinary medicine, or business. Moreover, these graduates are suited for a broad range of occupations in addition to engineering. Participation in internships or volunteer activities is highly recommended to enhance practical training and development. Graduates who continue on with advanced studies can attain more responsible positions with the possibility of rising to top professional levels. Some examples include: space engineer, solid-state electronics engineer, and aerospace engineer.

### Concentrations

- Engineering Physics Concentration
- Space Engineering Concentration
- Teacher Education Concentration

### Dual Degree Programs

See the College of Liberal Arts for information on dual degree opportunities.

### Major in Engineering Science, Engineering Physics Concentration

The Engineering Physics concentration prepares students to work in high technology areas in which solid engineering training combined with a broader background in physics is valuable. Through the appropriate choice of technical electives, students can specialize in modern laser physics, energy engineering, solid-state electronics, or energy conversion. The technical electives are chosen predominantly from the Departments of Electrical and Computer Engineering and Mechanical Engineering in the Walter Scott, Jr. College of Engineering and the Departments of Computer Science, Mathematics, and Physics in the College of Natural Sciences.

### Requirements

#### Effective Fall 2018

To qualify for graduation, Engineering Science majors must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, computer science, statistics, physics, and chemistry as well as courses taken as technical electives.

Major in Engineering Science, Teacher Education Concentration

The Teacher Education concentration provides students with the engineering and teaching experience to enter junior and senior high school classrooms and laboratories to teach engineering design principles and concepts in an exciting technology education classroom.

Requirements
Effective Fall 2018

To qualify for graduation, Engineering Science majors must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, computer science, statistics, physics, and chemistry as well as courses taken as technical electives.

Detailed information about the Center for Educator Preparation (CEP) (http://cep.chhs.colostate.edu) and licensure requirements can be found in the Education Building, Room 111.

**Junior**

**Total Credits** 33

**Senior**

Select one group from the following:

**Group A:**
- CIVE 402: Senior Design Principles
- CIVE 403: Senior Project Design

**Group B:**
- MECH 486A: Engineering Design Practicum: I
- MECH 486B: Engineering Design Practicum: II

**Total Credits** 30

**Fifth Year**

**EDCT 492** Seminar-Professional Relations

**EDUC 485B or EDCT 485** Student Teaching: Secondary

**Total Credits** 12

**Program Total Credits:** 137-140

---

1. Students who do not take the MECH sequence in the freshman year may need to get a registration override from the Department of Mechanical Engineering to register for this course.
2. Students will need to obtain a registration override from the appropriate department to take this course.
3. If planning to take MECH 486A and MECH 486B in the senior year, take MECH 301 and MECH 331; otherwise select courses with advisor's approval.

**Major Completion Map**

**Distinctive Requirements for Degree Program:**

**TO DECLARE MAJOR:** Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the department for more information.

**TO PREPARE FOR FIRST SEMESTER:** The curriculum for this major assumes students enter college prepared to take calculus. To qualify for graduation, engineering science majors must achieve a minimum 2.000 GPA.
grade point average at CSU in all courses in engineering, mathematics, computer science, statistics, physics, and chemistry as well as courses taken as technical electives.

Graduate Certificate in Systems Engineering Practice

This certificate will give students an introduction to systems engineering concepts and practices with coursework that instills the key core competencies and skills needed to practice as a systems engineer. This certificate prepares engineers or other professionals in aerospace technology, energy, biosciences, environmental resources, and other fields to lead systems engineering development from concept creation through the system lifecycle.

Effective Spring 2017

Additional coursework may be required due to prerequisites.

**Program Total Credits:** 137-140
**Master of Engineering, Plan C, Biomedical Engineering Specialization**

The Master of Engineering, Plan C, Biomedical Engineering Specialization focuses on enhancing the expertise of working engineering professionals. Engineers and scientists who want to further their careers with engineering related firms and governmental agencies should consider this degree. Students will have flexibility to develop a plan of study in their area of interest. Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin and the website for the School of Biomedical Engineering (http://www.engr.colostate.edu/sbme).

**Requirements**

**Effective Fall 2017**

Students must take a minimum of 15 semester credits of biomedical engineering (BIOM) courses.

Program Total Credits: 30

A minimum of 30 credits are required to complete this program.

1 Complete ENGR 597 or select a comparable course with a minimum of 3 credits with approval of graduate advisor.

2 400 level or above regular course credits consistent with the student's program of study.

NOTE: One course cannot satisfy multiple requirements.

Technical Electives

Program Total Credits: 30

A minimum of 30 credits are required to complete this program.

1 Select 6 credits with approval by student’s advisory committee. A maximum of 6 credit hours are permitted at the 400-level. The remainder must be at the 500-level or above.

2 Complete ENGR 695 or select a comparable course with a minimum of 3 credits with approval of graduate advisor.

A minimum of 72 credits are required to complete this program.

1 Select 18 credits with approval by student’s advisory committee. A maximum of 6 credit hours are permitted at the 400-level. The remainder must be at the 500-level or above. 3 credit hours of ENGR 795 may be used by students who have had their Ph.D. research, which was performed while enrolled at CSU, accepted for publication (completely or with minor revisions) in at least two peer-reviewed journal or conference publications may fill out a form listing citations and validating documentation and have the form approved by the student’s Ph.D. committee.

Department of Atmospheric Science
About the Department
Our top-rated department focuses on graduate education, cutting-edge research, and public service. We currently have 17 faculty members, nearly 100 graduate students, approximately 50 full-time researchers, and an outstanding and dedicated support staff. Our diverse areas of research include Cloud Microphysics, Severe Storms and Mesoscale Meteorology, Atmospheric Chemistry and Air Quality, Radiation and Remote Sensing, Climate and Atmosphere-Ocean Dynamics, and Global Biogeochemical Cycles and Ecosystems. We offer graduate degrees at both the M.S. and Ph.D. levels. Graduate students typically find employment in government research laboratories, academic institutions, military services, and private industry.

For additional information on graduate programs and the application process, please visit the Department of Atmospheric Science website, Application Overview, and Atmospheric Science Graduate Student Guide.

Contact Information
Professor Jeffrey L. Collett, Jr., Department Head
Professor Susan C. van den Heever, Associate Department Head
Sarah Tisdale, Graduate Coordinator
Main Atmospheric Science Building, Foothills Campus
3915 W. Laporte Ave, Building A
Fort Collins, CO 80521
Email: info@atmos.colostate.edu

Undergraduate
No undergraduate major is offered. Undergraduates interested in atmospheric science at the graduate level are encouraged to major in engineering, physics, chemistry, mathematics, or atmospheric science.

Graduate
The department offers a Master of Science and a Doctor of Philosophy in Atmospheric Science.
M.S. Program

Students that complete the M.S. program will have acquired the knowledge and proficiency needed to seek employment in the field of atmospheric science. This knowledge and proficiency are gained through completion of a required core curriculum, elective graduate courses chosen from a wide selection of offerings, and by participation in scientific research with their advisors.

M.S. graduates are prepared for a wide choice of professionally satisfying work in private industry, the consulting field, and with many government agencies. Graduates of the M.S. program can also choose to continue their studies and research in the Ph.D. program. A student is eligible to seek admission to the Ph.D. program after successfully completing a thesis-based M.S. degree with a positive recommendation from their M.S. committee. Students holding thesis-based M.S. degrees from institutions other than CSU may be directly admitted into the Ph.D. program. These students follow the normal application procedures to our program.

In addition to meeting the formal credit requirements for the M.S., described below, all graduate students enrolled in the department are expected to attend the weekly department colloquium series. These colloquia are an important part of the total instructional program. Details can be found on the colloquium page (http://www.atmos.colostate.edu/colloquia) on the ATS website.

Prerequisites

- Bachelor of Science (B.S.) degree in physics, math, atmospheric science, engineering, chemistry, or related field with a cumulative GPA of at least 3.0
- Calculus-based math course sequence including differential equations and vector analysis
- Calculus-based physics course sequence including kinetics, electricity and magnetism, and some modern topics

Plan A (Thesis)

A minimum of 30 semester credits plus thesis is required. At least 19 credits must be earned in structured academic courses. 11 credits may be in special studies, graduate seminars, and research (a maximum of six research credits is allowed). Of the total 30 credits, 20 must be ATS subject code.

All MS students must complete the following required courses (required courses account for 13 credit hours):

- ATS 601 Atmospheric Dynamics I (2 credits)
- ATS 605 Introduction to Climate (2 credits)
- ATS 620 Thermodynamics and cloud physics (2 credits)
- ATS 621 Atmospheric Chemistry (2 credits)
- ATS 622 Atmospheric Radiation (2 credits)
- ATS 693 Responsible Research in Atmospheric Science (1 credit)
- One of the following:
  - ATS 640 Introduction to synoptic dynamics (2 credits)
  - ATS 641 Introduction to mesoscale dynamics (2 credits)

All MS students must also complete 6 elective credit hours in structured classes. Electives may include any structured class at the 500/600 level. With written advisor approval, electives may also include structured 700 level classes and/or structured graduate courses in other departments. Audits do not count towards the MS degree.

A student may substitute a required class for an alternative course if:

1. A course similar to the required class has already been completed at the graduate level with a grade of B or higher
2. The student’s advisor, the department head, and the instructor of the required course approve the substitution in writing.

A student’s program of study, and any deviations therein from department degree requirements, requires department head approval. ATS 784 does not count toward the 19 structured credits. ATS 699A-O and ATS 784 are graded as S/U.

Ph.D. Program

The department offers a Ph.D. program for students who want to obtain the highest academic degree available in the field of atmospheric science. Students who earn a Ph.D. must demonstrate significant intellectual achievement, high scholarly ability, and a great breadth of knowledge.

In addition to meeting the formal credit requirements for the Ph.D., described below, all graduate students enrolled in the department are expected to attend the weekly department colloquium series. These colloquia are an important part of the total instructional program. Details can be found on the colloquium page (http://www.atmos.colostate.edu/colloquia) on the ATS website.

Prerequisites

- Successful completion of an M.S. degree with thesis in atmospheric science, physics, math, engineering, chemistry, or related field
- Demonstration of aptitude for research

Course Requirements

- Ph.D. students must take a minimum of 42 semester credits beyond the (thesis option) master’s degree (or 72 semester credits beyond the bachelor’s degree). At least 21 credits beyond the master’s degree (or 37 credits beyond the bachelor’s degree) must be earned in courses numbered 500 or above.
- Ph.D. students are required to take two structured courses per academic year. Students must register for the courses, and only one may be taken as an audit. The structured courses can be selected from the 500, 600, or 700 level. With written advisor approval, the courses may also include structured graduate classes from other departments. When the student is within one semester of graduation, the student and advisor may petition the Department Head, in writing, for a waiver of the “two courses per year” requirement. While ATS 784 (Supervised College Teaching) is not considered a structured academic course, it is allowed to count towards the two courses per academic year Ph.D. requirement.
- Successful completion of ATS 693 (1 cr), Responsible Conduct of Research, offered every spring semester.
- Audits count towards the department’s requirement that all GRAs enroll for at least 15 credit hours each semester (section L). But audits do not count towards the total required course credits for the Ph.D., and may not be listed on the GS Form 6.

Evaluation Mechanisms

- Successful completion of the department preliminary exam that includes background, methods, and current research that applies to
the specific area(s) encompassing the candidate's proposed research topic

- Successful research topic proposal presentation
- Dissertation prepared under the mentorship of the student's advisor and graduate committee that meets the following criteria: displays original and creative scholarship, contributes new knowledge to the field of atmospheric science, and expresses good literate style.
- Successful defense of a dissertation before the student's graduate committee and any other members of the academic and scientific communities who desire to attend

The student's Graduate Committee is charged with ensuring the student gains breadth in Atmospheric Science during his/her tenure in the program. Accordingly the Graduate Committee may make recommendations on coursework to be completed prior to graduation.

Courses

Atmospheric Science (ATS)

**ATS 150 Science of Global Climate Change** Credits: 3 (3-0-0)

**Course Description:** Physical basis of climate change. Energy budget of the earth, the greenhouse effect, carbon cycle, paleoclimate, projections of 21st-century climate.

**Prerequisite:** None.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ATS 350 Introduction to Weather and Climate** Credits: 2 (2-0-0)

**Course Description:** Behavior of atmosphere and its influence upon human's activities.

**Prerequisite:** None.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ATS 351 Introduction to Weather and Climate Lab** Credit: 1 (0-3-0)

**Course Description:** Actual weather data, visualization of meteorological phenomena, in-depth discussion of current environmental issues.

**Prerequisite:** ATS 350, may be taken concurrently.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ATS 495 Independent Study** Credits: Var[1-18] (0-0-0)

**Course Description:**

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**ATS 543 Current Topics in Climate Change** Credits: 2 (2-0-0)

**Also Offered As:** ESS 543.

**Course Description:** Climate fundamentals and current topics in climate change.

**Prerequisite:** BZ 300 to 499 or ECOL 300 to 499 or LIFE 300 to 499 or CHEM 300 to 499.

**Registration Information:** Credit not allowed for both ATS 543 and ESS 543. Sections may be offered: Online.

**Term Offered:** Fall.

**Grade Mode:** S/U Sat/Unsat Only.

**Special Course Fee:** No.

**ATS 555 Air Pollution** Credits: 3 (3-0-0)

**Course Description:** Nature, ambient concentrations, sources, sinks, and physiological activities of pollutants; meteorology; legislation; social and economic factors.

**Prerequisite:** (CHEM 113) and (MATH 261 or MATH 340) and (PH 122 or PH 142).

**Term Offered:** Spring (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ATS 560 Air Pollution Measurement** Credits: 2 (1-3-0)

**Course Description:** Examination and application of techniques for air pollution measurement. Includes sampling and analysis of gases, aerosols, and precipitation.

**Prerequisite:** CHEM 114.

**Registration Information:** Must register for lecture and laboratory.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ATS 601 Atmospheric Dynamics I** Credits: 2 (2-0-0)

**Course Description:** Equations of motion; earth's rotation; balanced motion; vorticity and Rossby waves; shallow water models; potential vorticity.

**Prerequisite:** MATH 261 and MATH 530.

**Restriction:** Must be a: Graduate, Professional.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ATS 602 Atmospheric Dynamics II** Credits: 2 (2-0-0)

**Course Description:** Sound waves, gravity waves, Rossby waves; numerical weather prediction; baroclinic instability; general circulation; tropical dynamics.

**Prerequisite:** ATS 601.

**Restriction:** Must be a: Graduate, Professional.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ATS 604 Atmospheric Modeling** Credits: 3 (3-0-0)

**Course Description:** Design of numerical models of the atmosphere; applications to current problems. Emphasis on practical understanding of relevant numerical methods.

**Prerequisite:** ATS 601.

**Restriction:** Must be a: Graduate, Professional.

**Term Offered:** Fall (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ATS 605 Atmospheric Circulations** Credits: 3 (3-0-0)

**Course Description:** Observations and theory of the general circulation of the atmosphere, with emphasis on understanding physical mechanisms.

**Prerequisite:** ATS 602, may be taken concurrently.

**Restriction:** Must be a: Graduate, Professional.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.
ATS 606 Introduction to Climate Credits: 2 (2-0-0)
Course Description: Global energy balance, surface energy balance, the hydrological cycle, atmosphere general circulation, ocean general circulation, climate variability, climate sensitivity and feedbacks.
Prerequisite: MATH 261 and MATH 530.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ATS 607 Computational Methods for Atmospheric Science Credits: 3 (3-0-0)
Course Description: Computer programming tools unique to and common in the atmospheric sciences.
Prerequisite: ATS 601, may be taken concurrently.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ATS 610 Physical Oceanography Credits: 3 (3-0-0)
Course Description: Foundations of ocean circulation theory and the general circulation of the oceans using observational data and rotating tank experiments.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ATS 620 Thermodynamics and Cloud Physics Credits: 2 (2-0-0)
Course Description: Equilibrium thermodynamics, cloud microphysics, precipitation formation, and cloud electrification.
Prerequisite: MATH 340 and PH 142.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ATS 621 Atmospheric Chemistry Credits: 2 (2-0-0)
Course Description: Overview of chemical kinetics and equilibria; sources and sinks of pollutants; photochemistry and smog formation; aqueous-phase chemistry; acid rain.
Prerequisite: CHEM 114 and MATH 340 and PH 142.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ATS 622 Atmospheric Radiation Credits: 2 (2-0-0)
Course Description: Role of radiation in the energy balance of the climate system; Absorption and scattering of solar radiation; Emission and absorption of terrestrial radiation; Interactions of radiation with clouds and aerosols; Role of radiative active trace gases.
Prerequisite: ATS 620.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ATS 623 Atmospheric Boundary Layer Credits: 2 (2-0-0)
Course Description: Equations for shallow atmospheric motions; thermal instability of a fluid layer; atmospheric turbulence; flow stability; 1-D mixed layer models.
Prerequisite: ATS 601, may be taken concurrently.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 624 Measurement Systems and Theory Credits: 2 (2-0-0)
Course Description: Surface and upper air measurement systems; theory and system response, sensor design; automated data collection, analysis and display systems.
Prerequisite: PH 142 and STAT 301.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ATS 625 Introduction to Atmospheric Aerosols Credits: 2 (1-3-0)
Course Description: Physical, chemical and microphysical characteristics of atmospheric particulate matter; measurement principles and techniques.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ATS 631 Measurement Systems and Theory Credits: 2 (2-0-0)
Course Description: Surface and upper air measurement systems; theory and system response, sensor design; automated data collection, analysis and display systems.
Prerequisite: PH 142 and STAT 301.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ATS 632 Atmospheric Remote Sensing Credits: 2 (2-0-0)
Course Description: Concepts of electromagnetic and acoustic wave propagation; active and passive remote sensing techniques including radar, lidar, thermal emission systems.
Prerequisite: ATS 622.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
ATS 655  Objective Analysis in Atmospheric Sciences  Credits: 3 (3-0-0)
Course Description: Objective analysis of geophysical data: general statistics; matrix methods; time series analysis. Emphasis on applications to real-world data.
Prerequisite: ATS 601 or MATH 530.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ATS 693  Responsible Research in Atmospheric Science  Credit: 1 (0-0-1)
Course Description: Scientific misconduct; ethical publishing; record keeping; data management; professional skills applicable to atmospheric science.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must be admitted to Atmospheric Science degree program.
Term Offered: Spring.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ATS 695A  Independent Study: Atmosphere/Ocean Coupling  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 695B  Independent Study: Atmospheric Science Topics  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699A  Thesis: Atmospheric Dynamics  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699B  Thesis: Land-Atmosphere Interactions  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699C  Thesis: Tropical Meteorology  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699E  Thesis: Remote Sensing  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699F  Thesis: Ocean-Atmosphere Interactions  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699G  Thesis: General Circulation  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699I  Thesis: Atmospheric Chemistry  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699J  Thesis: Aerosol and Cloud Microphysics  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699K  Thesis: Dynamic Meteorology  Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
ATS 699L Thesis: Satellite Applications Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699M Thesis: Mesoscale Meteorology Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699N Thesis: Dynamics and Physics of Clouds Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699O Thesis: Mesoscale Modeling Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699P Thesis: Radiation Theory Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699Q Thesis: Radar Meteorology Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699R Thesis: Aerosol and Cloud Chemistry Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699S Thesis: Climate Dynamics Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699U Thesis: Tropospheric Chemistry Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 699V Thesis: Atmospheric Variability Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 703 Numerical Weather Prediction Credits: 2 (2-0-0)
Course Description: Quasi-geostrophic approximation; barotropic, baroclinic, primitive equation, and general circulation models; numerical methods.
Prerequisite: ATS 602.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 704 Large-Scale Atmospheric Dynamics Credits: 2 (2-0-0)
Course Description: Quasi-static, quasi-geostrophic equations; planetary waves; geostrophic adjustment; barotropic, baroclinic instability; frontogenesis; tropical cyclones.
Prerequisite: ATS 602.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 707 Atmospheric Waves and Vortices Credits: 3 (2-0-1)
Course Description: Atmospheric wave motions and embedded vortices spanning mountain waves to large-scale Rossby waves and critical layers.
Prerequisite: ATS 605.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and recitation.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 708 Middle Atmospheric Dynamics Credits: 3 (3-0-0)
Course Description: Dynamics of the stratosphere and mesosphere with emphasis on the lower and middle stratosphere.
Prerequisite: ATS 602.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ATS 710 Geophysical Vortices Credits: 3 (3-0-0)
Course Description: Observational, experimental, and theoretical aspects of geophysical vortices, such as hurricanes, polar lows, tornadoes, and dust devils.
Prerequisite: ATS 602.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 711 Microclimate Credits: 2 (2-0-0)
Course Description: Momentum, heat, water, and trace gas fluxes near the earth's surface, including fluxes between the atmosphere and the land/ocean/ice surfaces.
Prerequisite: MATH 340 and ATS 623.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 712 Dynamics of Clouds Credits: 3 (3-0-0)
Course Description: General theory of cloud dynamics; parameterization of microphysics and radiation; models of fog, stratocumuli, cumulonimbus, and orographic clouds.
Prerequisite: ATS 623.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 715 Atmospheric Oxidation Processes Credits: 2 (2-0-0)
Course Description: Atmospheric hydrocarbon and nitrogen oxide reactions; aqueous phase scavenging and reactions; chemical pathways in the atmosphere.
Prerequisite: ATS 621.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 716 Air Quality Characterization Credits: 2 (1-2-0)
Course Description: Planning, executing, and reporting on a measurement campaign to characterize local air quality.
Prerequisite: (ATS 560) and (ATS 555 or ATS 621).
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ATS 721 Theoretical Topics in Radiative Transfer Credits: 3 (3-0-0)
Course Description: Physics of atmospheric radiation; theoretical techniques used to show radiation transfer equation.
Prerequisite: ATS 622.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 722 Atmospheric Radiation and Energetics Credits: 3 (2-0-1)
Course Description: Radiative transfer in the atmosphere; implications on remote sensing and energetics.
Prerequisite: ATS 622.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and recitation.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 724 Cloud Microphysics Credits: 2 (2-0-0)
Course Description: Theories and observations of nucleation; cloud droplet spectria broadening; precipitation growth and breakup; ice multiplication; cloud electrification.
Prerequisite: ATS 621.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 730 Mesoscale Modeling Credits: 3 (3-0-0)
Course Description: Development of basic equations used in mesoscale models and methodology of solution
Prerequisite: ATS 602 and ATS 623.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 735 Mesoscale Dynamics Credits: 3 (3-0-0)
Course Description: Analysis of physical and dynamical processes that initiate, maintain, and modulate atmospheric mesoscale phenomena.
Prerequisite: ATS 602.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 737 Satellite Observation of Atmosphere and Earth Credits: 3 (3-0-0)
Course Description: Satellite measurements; basic orbits and observing systems; applications of remote probing and imaging to investigations of atmospheric processes.
Prerequisite: ATS 622 and ATS 652.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 741 Radar Meteorology Credits: 3 (3-0-0)
Course Description: Radar systems; radar equation and applications; multiple Doppler observation and processing; radar studies of mesoscale systems.
Prerequisite: ATS 652.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
ATS 742 Tropical Meteorology Credits: 2 (2-0-0)
Course Description: Overview of the tropical atmosphere, monsoons, intraseasonal variability, hurricanes, theory of tropical convection and the large-scale circulation.
Prerequisite: ATS 601 and ATS 602 and ATS 606.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 743 Interactions of the Ocean and Atmosphere Credits: 3 (3-0-0)
Course Description: Ocean-atmosphere interactions in observations, theory, and models. Time mean atmosphere-ocean circulations through climate variability and change.
Prerequisite: ATS 602.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 745 Atmospheric General Circulation Modeling Credits: 3 (3-0-0)
Course Description: Current problems in modeling of the general circulation of the atmosphere.
Prerequisite: ATS 602 and ATS 605.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 750 Climate Dynamics: Atmospheric Variability Credits: 3 (3-0-0)
Course Description: Analysis and interpretation of large-scale patterns of climate variability and observed climate change.
Prerequisite: ATS 605 and ATS 655.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 752 Inverse Methods in Atmospheric Science Credits: 2 (2-0-0)
Course Description: Introduction to inverse modeling, with particular application to remote sensing retrievals, flux inversions and data assimilation.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Ph.D. standing in Atmospheric Science required.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ATS 753 Global Hydrologic Cycle Credits: 3 (3-0-0)
Course Description: Hydrologic cycle, moisture transport and air-ground exchange; water budgets of meteorological phenomena; climatology of atmospheric water.
Prerequisite: (ATS 601) and (ATS 622 or ATS 652).
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 755 Theoretical and Applied Climatology Credits: 3 (3-0-0)
Course Description: Current topics in climate research.
Prerequisite: ATS 606.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 760 Global Carbon Cycle Credits: 2 (2-0-0)
Course Description: Exchanges of CO2 between the atmosphere, the land surface, and oceans. Biogeochemical processes. Micrometeorological and inverse flux estimation.
Prerequisite: ATS 606.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 761 Land-Atmosphere Interactions Credits: 2 (2-0-0)
Course Description: Exchange of energy, water, momentum, and carbon between the land surface and the atmosphere.
Prerequisite: ATS 606.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 762 Biosphere-Chemistry-Climate Interactions Credits: 2 (2-0-0)
Course Description: Explore the sensitivity of the climate system to atmospheric chemical composition with emphasis on connections to biospheric processes and feedbacks.
Prerequisite: ATS 621.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 765 Climate Dynamics-Ocean Variability Credits: 3 (3-0-0)
Course Description: Climate variability on time scales of years to millennia with focus on the role of the ocean circulation. Approach through dynamical systems theory.
Prerequisite: ATS 606.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 770 Ocean Modeling Credits: 3 (3-0-0)
Course Description: Conceptual and numerical ocean models and their application to current problems in climate science and biogeochemical cycles.
Prerequisite: ATS 601.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.
ATS 772  Aerosol Physics, Chemistry, Clouds & Climate  Credits: 3 (3-0-0)
Course Description: The physics and chemistry of atmospheric aerosols including composition, size, and interaction with radiation and clouds, including the development of research-grade models of aerosols, clouds, and radiation.
Prerequisite: (CHEM 114 and MATH 161) and (PH 122 or PH 142).
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ATS 784  Supervised College Teaching  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 776  Practicum  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 795  Independent Study  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 796  Group Study  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799A  Dissertation: Atmospheric Dynamics  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799B  Dissertation: Land-Atmosphere Interactions  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799C  Dissertation: Tropical Meteorology  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799D  Dissertation: Weather Systems  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799E  Dissertation: Remote Sensing  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799F  Dissertation: Ocean-Atmosphere Interactions  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799G  Dissertation: General Circulation  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799H  Dissertation: Remote Sensing of Climate  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799I  Dissertation: Atmospheric Chemistry  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799J  Dissertation: Aerosol and Cloud Microphysics  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
ATS 799K  Dissertation: Dynamic Meteorology  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799L  Dissertation: Satellite Applications  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799M  Dissertation: Mesoscale Meteorology  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799N  Dissertation: Dynamics and Physics of Clouds  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799O  Dissertation: Radiation Theory  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799P  Dissertation: Radar Meteorology  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799Q  Dissertation: Aerosol and Cloud Chemistry  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799S  Dissertation: Climate Dynamics  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799T  Dissertation: Chemistry in the Atmosphere-Earth Systems  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ATS 799U  Dissertation: Tropospheric Chemistry  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799V  Dissertation: Atmospheric Variability  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799W  Dissertation: Chemistry in the Atmosphere-Earth Systems  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799X  Dissertation: Climate Dynamics  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799Y  Dissertation: Chemistry in the Atmosphere-Earth Systems  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799Z  Dissertation: Climate Dynamics  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799AA  Dissertation: Chemistry in the Atmosphere-Earth Systems  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799AB  Dissertation: Climate Dynamics  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799AC  Dissertation: Chemistry in the Atmosphere-Earth Systems  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799AD  Dissertation: Climate Dynamics  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799AE  Dissertation: Chemistry in the Atmosphere-Earth Systems  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799AF  Dissertation: Climate Dynamics  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799AG  Dissertation: Chemistry in the Atmosphere-Earth Systems  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATS 799AH  Dissertation: Climate Dynamics  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
Colorado State University

Graduate Programs in Chemical and Biological Engineering

The department offers graduate programs leading to Master of Engineering, Master of Science, and Doctor of Philosophy degrees. Students interested in graduate work should refer to the Graduate and Professional Bulletin or the Department of Chemical and Biological Engineering (http://www.engr.colostate.edu/cheme/pages/fs_graduate_program.html).

Master’s Programs

• Master of Science in Chemical Engineering, Plan A*
• Master of Science in Chemical Engineering, Plan B*
• Master of Engineering, Plan C, Chemical Engineering Specialization*

Ph.D.

Ph.D. in Chemical Engineering*

* Please see department for program of study.

Courses

Chemical and Biological Engineering (CBE)

CBE 101 Introduction to Chemical and Biological Engr Credits: 3 (2-2-0)
Course Description: Engineering design and problem solving; technical presentation skills; basic computer programming.
Prerequisite: CBE 160, may be taken concurrently.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

CBE 160 MATLAB for Chemical and Biological Eng Credit: 1 (0-2-0)
Course Description: Introduction to MATLAB programming for Chemical and Biological Engineering applications.
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 201 Material and Energy Balances Credits: 3 (3-0-0)
Course Description: Principles of chemistry, physics, and mathematics applied to development of material and energy balances; illustration of concepts.
Prerequisite: (CBE 101 or CBE 160, may be taken concurrently or MATH 151, may be taken concurrently) and (LIFE 102, may be taken concurrently and CHEM 111 and PH 141, may be taken concurrently).
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 205 Fundamentals of Biological Engineering Credits: 3 (3-0-0)
Course Description: Introduction to the application of the principles of engineering and biology to the analysis, design, and optimization of bioprocesses.
Prerequisite: CBE 101 and CBE 160 and LIFE 102.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 210 Thermodynamic Process Analysis Credits: 3 (3-0-0)
Course Description: Thermodynamic fundamentals and applications to ideal and non-ideal mixtures, power cycles, and chemical equilibria.
Prerequisite: CBE 201 with a minimum grade of C and MATH 261, may be taken concurrently.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Traditional.
Special Course Fee: No.

CBE 310 Molecular Concepts and Applications Credits: 3 (3-0-0)
Course Description: Application of modern molecular theory to chemical and biological engineering problems in thermodynamics, chemical kinetics, and transport phenomena.
Prerequisite: (CBE 210 with a minimum grade of C) and (MATH 340).
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 320 Chemical and Biological Reactor Design Credits: 3 (3-0-0)
Course Description: Mechanisms and rates of chemical reactions; design of homogeneous and heterogeneous reactors; biological reactions and reactors.
Prerequisite: CBE 310 with a minimum grade of C and CBE 330 with a minimum grade of C.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 330 Process Simulation Credits: 3 (3-0-0)
Course Description: Analysis of chemical and biological engineering problems by numerical simulation.
Prerequisite: (CBE 210 with a minimum grade of C) and (MATH 340).
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 331 Momentum Transfer and Mechanical Separations Credits: 3 (3-0-0)
Course Description: Fluid properties; conservation equations; compressible and incompressible flow; pumping and metering; mixing; separation of fluid-solid mixtures.
Prerequisite: (CBE 210 with a minimum grade of C) and (MATH 340).
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CBE 332 Heat and Mass Transfer Fundamentals Credits: 3 (3-0-0)
Course Description: Thermal processes; steady and unsteady conduction; convective heat transfer; radiation; heat exchanger design; mass transfer by diffusion and convection.
Prerequisite: CBE 330 with a minimum grade of C and CBE 331 with a minimum grade of C.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
CBE 333 Chemical and Biological Engineering Lab I Credits: 2 (0-5-0)
Course Description: Laboratory experiments involving material balances, thermodynamics, and momentum and heat transfer. Data analysis; written and oral reports.
Prerequisite: CBE 332.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CBE 406 Introduction to Transport Phenomena Credits: 3 (3-0-0)
Course Description: Fundamental treatment of momentum and mass transport processes; dimensional analysis for parameter identification and order of magnitude estimation.
Prerequisite: CBE 332.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CBE 430 Process Control and Instrumentation Credits: 3 (3-0-0)
Course Description: Measurement and control of process variables; transient chemical and biological processes; feedback, feedforward, and computer control concepts.
Prerequisite: CBE 320 with a minimum grade of C and CBE 442 with a minimum grade of C.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CBE 439 Environmental Engineering Chemical Concepts Credits: 3 (2-3-0)
Also Offered As: CIVE 439.
Course Description: Application of chemical principles to environmental engineering problems.
Prerequisite: CHEM 113 and MATH 340.
Registration Information: Must register for lecture and laboratory. Credit not allowed for both CBE 439 and CIVE 439.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 442 Separation Processes Credits: 4 (4-0-0)
Course Description: Analysis of chemical and biological separations based on thermodynamics, diffusion, and convective mass transfer; design of separations equipment.
Prerequisite: CBE 332 with a minimum grade of C.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CBE 443 Chemical and Biological Engineering Lab II Credits: 2 (0-5-0)
Course Description: Laboratory experiments involving advanced chemical and biological engineering concepts. Data analysis; written and oral reports.
Prerequisite: CBE 442.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

CBE 445 Environmental Engineering Chemical Concepts Credits: 3 (2-3-0)
Also Offered As: CIVE 445.
Course Description: Application of chemical principles to environmental engineering problems.
Prerequisite: CHEM 113 and MATH 340.
Registration Information: Must register for lecture and laboratory. Credit not allowed for both CBE 439 and CIVE 439.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 446 Environmental Engineering Chemical Concepts Credits: 3 (2-3-0)
Also Offered As: CIVE 446.
Course Description: Application of chemical principles to environmental engineering problems.
Prerequisite: CHEM 113 and MATH 340.
Registration Information: Must register for lecture and laboratory. Credit not allowed for both CBE 439 and CIVE 439.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 447 Environmental Engineering Chemical Concepts Credits: 3 (2-3-0)
Also Offered As: CIVE 447.
Course Description: Application of chemical principles to environmental engineering problems.
Prerequisite: CHEM 113 and MATH 340.
Registration Information: Must register for lecture and laboratory. Credit not allowed for both CBE 439 and CIVE 439.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 448 Environmental Engineering Chemical Concepts Credits: 3 (2-3-0)
Also Offered As: CIVE 448.
Course Description: Application of chemical principles to environmental engineering problems.
Prerequisite: CHEM 113 and MATH 340.
Registration Information: Must register for lecture and laboratory. Credit not allowed for both CBE 439 and CIVE 439.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 449 Environmental Engineering Chemical Concepts Credits: 3 (2-3-0)
Also Offered As: CIVE 449.
Course Description: Application of chemical principles to environmental engineering problems.
Prerequisite: CHEM 113 and MATH 340.
Registration Information: Must register for lecture and laboratory. Credit not allowed for both CBE 439 and CIVE 439.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 451 Chemical and Biological Engineering Design I Credits: 3 (3-0-0)
Course Description: Chemical and biological process synthesis and simulation; engineering economics principles.
Prerequisite: CBE 442, may be taken concurrently and CBE 320 with a minimum grade of C.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 452 Chemical and Biological Engineering Design II Credits: 3 (2-2-0)
Course Description: Projects requiring students to design a chemical and/or biological process with cost estimation and constraint analysis; written and oral reports.
Prerequisite: CBE 451 with a minimum grade of C.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 493 Professional Development Seminar Credit: 1 (0-0-1)
Course Description: Topics in engineering professional development, including ethics, role of engineers in society, and life-long learning.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

CBE 495 Independent Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CBE 496 Group Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CBE 501 Chemical Engineering Thermodynamics Credits: 3 (3-0-0)
Course Description: Definition, correlation, and estimation of thermodynamic properties; nonideal chemical and physical equilibria.
Prerequisite: CBE 202 and MATH 340.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CBE 502 Advanced Reactor Design Credits: 3 (3-0-0)
Course Description: Nonideal flow and tracers, reactions and diffusion, evaluation of complex kinetics, stability of reactors. biochemical reactor examples.
Prerequisite: CBE 320 and CBE 332.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
CBE 320 Transport Phenomena Fundamentals Credits: 3 (3-0-0)  
Course Description: General topics in transport phenomena; analytical and numerical solutions of laminar flows; perturbation techniques; coupled transport.  
Prerequisite: CBE 406.  
Term Offered: Spring.  
Grade Modes: S/U within Student Option, Trad within Student Option.  
Special Course Fee: No.  
CBE 504 Fundamentals of Biochemical Engineering Credits: 3 (3-0-0)  
Also Offered As: BIOM 504.  
Course Description: Application of chemical engineering principles to enzyme kinetics, fermentation and cell culture, product purification, and bioprocess design.  
Prerequisite: (MIP 300) and (MATH 255 or MATH 340) and (BIOM 306, may be taken concurrently or BTEC 306, may be taken concurrently or CBE 320, may be taken concurrently).  
Registration Information: Credit not allowed for both CBE 504 and BIOM 504.  
Term Offered: Fall.  
Grade Modes: S/U within Student Option, Trad within Student Option.  
Special Course Fee: No.  
CBE 505 Biochemical Engineering Laboratory Credit: 1 (0-3-0)  
Course Description: Fermentation technology, bioprocess control, and bioprocess design.  
Prerequisite: CBE 504, may be taken concurrently.  
Term Offered: Fall (odd years).  
Grade Mode: Traditional.  
Special Course Fee: No.  
CBE 514 Polymer Science and Engineering Credits: 3 (3-0-0)  
Course Description: Fundamentals of polymer science: synthesis, characterization, processing of polymers. Physical properties of polymers; rheology of melts and solutions.  
Prerequisite: (CHEM 343 or CHEM 346) and (CBE 310 or CHEM 474).  
Term Offered: Spring.  
Grade Modes: S/U within Student Option, Trad within Student Option.  
Special Course Fee: No.  
CBE 521 Mathematical Modeling for Chemical Engineers Credits: 3 (3-0-0)  
Course Description: Application of mathematical models to analysis and design of chemical reactors and separation processes.  
Prerequisite: MATH 340.  
Term Offered: Fall.  
Grade Modes: S/U within Student Option, Trad within Student Option.  
Special Course Fee: No.  
CBE 522 Bioseparation Processes Credits: 3 (2-2-0)  
Also Offered As: BIOM 522.  
Course Description: Analysis of processes to recover and purify fermentation products.  
Prerequisite: CBE 331.  
Registration Information: Must register for lecture and laboratory. Credit not allowed for both CBE 522 and BIOM 522.  
Term Offered: Fall.  
Grade Mode: Traditional.  
Special Course Fee: No.  
CBE 524 Bioremediation Credit: 1 (1-0-0)  
Course Description: Use of biotechnology for site remediation. Biodegradation, bioreactor design, and in situ bioremediation.  
Prerequisite: CBE 540 or CIVE 540.  
Term Offered: Fall (odd years).  
Grade Modes: S/U within Student Option, Trad within Student Option.  
Special Course Fee: No.  
CBE 540 Advanced Biological Wastewater Processing Credits: 3 (3-0-0)  
Also Offered As: CIVE 540.  
Course Description: Fundamentals of environmental biotechnology: environmental microbiology, microbial kinetics, basic reactor design, wastewater treatment.  
Prerequisite: CBE 320 or CIVE 438.  
Registration Information: Sections may be offered: Online. Credit not allowed for both CBE 540 and CIVE 540.  
Term Offered: Fall.  
Grade Mode: Traditional.  
Special Course Fee: No.  
CBE 543 Membranes for Biotechnology and Biomedicine Credits: 3 (3-0-0)  
Also Offered As: BIOM 543.  
Course Description: Polymeric membrane formation, modification, module design and applications to bioseparation and biomedical separations and tissue engineering.  
Prerequisite: CHEM 343 and CBE 310.  
Registration Information: Credit not allowed for both CBE 543 and BIOM 543. Sections may be offered: Online.  
Term Offered: Fall.  
Grade Mode: Traditional.  
Special Course Fee: No.  
CBE 570 Biomolecular Engineering/Synthetic Biology Credits: 3 (3-0-0)  
Course Description: Rational design and evolutionary methods for engineering functional protein and nucleic acid systems.  
Prerequisite: (BC 351) and (CHEM 341 or CHEM 345).  
Term Offered: Spring.  
Grade Mode: Traditional.  
Special Course Fee: No.  
CBE 613 Advanced Transport Phenomena Credits: 3 (3-0-0)  
Course Description: Fundamental studies of multicomponent mass, energy, and momentum transport, with applications in advanced materials, biomedical and biochemical systems.  
Prerequisite: (MATH 530) and (ATS 601 or CIVE 502 or CBE 503).  
Restriction: Must be a: Graduate, Professional.  
Term Offered: Fall (odd years).  
Grade Mode: Traditional.  
Special Course Fee: No.  
CBE 621 Advanced Process Control Credits: 3 (3-0-0)  
Course Description: Application of modern control theory to chemical processes. Computer control aspects emphasized.  
Prerequisite: CBE 430.  
Restriction: Must be a: Graduate, Professional.  
Term Offered: Fall.  
Grade Modes: S/U within Student Option, Trad within Student Option.  
Special Course Fee: No.
CBE 660 System and Parameter Identification Credits: 3 (3-0-0)
Course Description: Principles and methods for selecting the most appropriate equations, and properties within those equations, to mathematically simulate physical phenomena.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

CBE 693 Seminar I Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CBE 695 Independent Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CBE 699 Thesis Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CBE 707 Advanced Topics in Biochemical Engineering Credit: 1 (1-0-0)
Course Description: Advanced biochemical engineering topics.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CBE 793 Seminar II Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

CBE 795 Independent Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CBE 799 Dissertation Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Major in Chemical and Biological Engineering

Chemical and biological engineering is a powerful blend of basic sciences and the skills to quantitatively describe, predict, and control all changes of matter. This provides the foundation to create cutting-edge materials and products, to design new devices to improve health or the environment, and to design processes for the safe production of chemicals and biochemicals, the production of alternative energy sources, and prevention of hazardous waste.

The Chemical and Biological Engineering curriculum is based on the sciences of physics, chemistry, biology, and mathematics. It includes engineering science and design methods, as well as humanities and social sciences. Students can pursue interdisciplinary studies programs or minors. Popular options include minors in chemistry, mathematics, environmental engineering, and biomedical engineering. The curriculum is well-aligned to meet pre-health profession requirements. The Chemical and Biological Engineering program provides an environment that promotes a sense of professionalism, the development of project management skills, and an appreciation for the value of life-long learning. Graduates of our program are well prepared to enter a variety of professions, or to pursue further education. The broad, strong scientific basis of chemical and biological engineering has kept our graduates consistently near or at the top in salary and demand among B.S. graduates.

The Chemical and Biological Engineering major is accredited by the Engineering Accreditation Commission of ABET (http://abet.org).

Program Educational Objectives

The Chemical and Biological Engineering program at CSU will empower graduates with the educational foundation to:

- Be highly successful, as defined by accomplishments, advanced certifications, and job satisfaction, in chemical and biological engineering practice, post-graduate education, or other careers making use of engineering knowledge.
- Be identified for both their mastery of fundamental chemical and biological engineering principles and their creative application of those principles to the solution of problems across a diverse range of career disciplines.
- Be recognized as critical, creative and independent thinkers who use their technical expertise and leadership to address the needs of society and advance their fields of expertise.
- Be recognized for their effectiveness in teamwork, communication, and service to society through their professional contributions.
- Hold paramount health and safety of the public and the environment.
- Demonstrate the highest standards of professional, ethical, and civic responsibility in all endeavors.
- Demonstrate continued professional growth through a commitment to lifelong learning.
**Student Outcomes**

Graduates of the undergraduate Chemical and Biological Engineering programs will have:

- An ability to apply knowledge of mathematics, science, and engineering
- An ability to design and conduct experiments, as well as to analyze and interpret data
- An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- An ability to function on multidisciplinary teams
- An ability to identify, formulate, and solve chemical and biological engineering problems
- An understanding of professional and ethical responsibility
- An ability to communicate effectively
- The broad education necessary to understand the impact of chemical and biological engineering solutions in a global, economic, environmental, and societal context
- A recognition of the need for, and an ability to engage in life-long learning
- A knowledge of contemporary issues
- An ability to use the techniques, skills, and modern engineering tools necessary for chemical and biological engineering practice

**Potential Occupations**

Chemical and Biological Engineering graduates find employment in the biotechnology, biomedical, microelectronics, environmental, consulting, alternative energy, petroleum, chemical, food, pharmaceutical and other private sector industries and with government agencies. Participation in internships, volunteer activities, or cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels. In addition to pursuing M.S. and Ph.D. degrees in chemical and biological engineering and related fields, some of our graduates have obtained M.D., D.V.M., law, and M.B.A. degrees.

**Requirements**

**Effective Fall 2018**

**Program Total Credits:** 130
The Department of Civil and Environmental Engineering administers undergraduate and graduate degrees in Civil Engineering and an undergraduate degree in Environmental Engineering.

**Undergraduate Majors**
- Major in Civil Engineering
- Major in Environmental Engineering
  - Environmental Engineering Concentration (No new students are being accepted into this concentration.)
  - Ecological Engineering Concentration (No new students are being accepted into this concentration.)

**Minor**
- Minor in Environmental Engineering

**Graduate Programs in Civil and Environmental Engineering**

In Civil Engineering, programs leading to the Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees are offered. Focus areas include construction engineering and management (Ph.D. only), environmental engineering, geotechnical engineering, groundwater engineering, hydraulic engineering/stream restoration and river mechanics, hydrologic science and engineering, irrigation and drainage engineering, structural engineering and structural mechanics, water and international development, water resources planning and management, and fluid mechanics/dynamics.

A practice-oriented, course-work only, Master of Engineering (M.E.) degree program is available to students with a baccalaureate degree in engineering. Graduates of some science programs also are eligible for the M.E., but typically are required to complete background engineering courses at the undergraduate level in addition to the required courses for their graduate degree. Master of Engineering tracks are offered in environmental engineering, geotechnical engineering, infrastructure engineering, irrigation engineering, structural engineering, and water resources engineering.

Students interested in graduate work should refer to the Graduate and Professional Bulletin or the Civil Engineering Department (http://www.engr.colostate.edu/ce/degreeinfo.shtml).

**Master’s Programs**
- Master of Science in Civil Engineering, Plan A*
- Master of Science in Civil Engineering, Plan B*
- Master of Engineering, Plan C, Civil Engineering Specialization

**Ph.D.**
- Ph.D. in Civil Engineering*

* Please see department for program of study.

**Courses**

CIVÉ 102 Introduction: Civil/Environmental Engineering Credits: 3 (2-3-0)
Course Description: Civil engineering profession, computer applications and programming related to civil engineering; introduction to surveying.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

CIVÉ 103 Engineering Graphics and Computing Credits: 3 (2-2-0)
Course Description: Introduction to the profession and academia; principles of civil engineering design; graphical, oral, and written communication; team projects.
Prerequisite: CIVÉ 102 or ENGR 101.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

CIVÉ 202 Numerical Modeling and Risk Analysis Credits: 3 (2-2-0)
Course Description: Civil engineering systems, simulation and optimization techniques, statistical tools and their use in civil engineering, risk analysis.
Prerequisite: (CIVÉ 103) and (MATH 159, may be taken concurrently or MATH 160, may be taken concurrently).
Registration Information: Must register for lecture and laboratory. Civil Engineering, Environmental Engineering or Engineering Science majors only.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIVÉ 203 Engineering Systems and Decision Analysis Credits: 3 (2-2-0)
Course Description: Civil engineering infrastructure systems, numerical and decision analysis techniques, applications of risk analysis.
Prerequisite: CIVÉ 202.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
### CIVE 260 Engineering Mechanics-Statics
**Credits:** 3 (3-0-0)
**Course Description:** Forces using vector notation; static equilibrium of rigid bodies; friction, virtual work, centroids, and moments of inertia.
**Prerequisite:** (MATH 159 or MATH 160) and (PH 141).
**Terms Offered:** Fall, Spring, Summer.
**Grade Mode:** Traditional.
**Special Course Fee:** No.

### CIVE 261 Engineering Mechanics-Dynamics
**Credits:** 3 (3-0-0)
**Course Description:** Kinematics and kinetics of particles and rigid bodies; concepts of work-energy and impulse-momentum; computer applications; vector notation.
**Prerequisite:** CIVE 260.
**Terms Offered:** Fall, Spring, Summer.
**Grade Modes:** S/U within Student Option, Trad within Student Option.
**Special Course Fee:** No.

### CIVE 260 Fluid Mechanics
**Credits:** 3 (3-0-0)
**Course Description:** Fluid properties; statics, kinematics, and dynamics of fluid motion including viscous and gravitational effects.
**Prerequisite:** CIVE 261 and MATH 340, may be taken concurrently) and (MECH 237, may be taken concurrently or MECH 337, may be taken concurrently).
**Terms Offered:** Fall, Spring.
**Grade Mode:** Traditional.
**Special Course Fee:** No.

### CIVE 300 Fluid Mechanics Laboratory
**Credit:** 1 (0-3-0)
**Course Description:** Fluid properties; statics, kinematics, and dynamics of fluid motion including viscous and gravitational effects.
**Prerequisite:** CIVE 300, may be taken concurrently.
**Terms Offered:** Fall, Spring.
**Grade Mode:** Traditional.
**Special Course Fee:** Yes.

### CIVE 301 Fluid Mechanics Laboratory
**Credit:** 1 (0-3-0)
**Course Description:** Fluid properties; statics, kinematics, and dynamics of fluid motion including viscous and gravitational effects.
**Prerequisite:** CIVE 300, may be taken concurrently.
**Terms Offered:** Fall, Spring.
**Grade Mode:** Traditional.
**Special Course Fee:** Yes.

### CIVE 302 Evaluation of Civil Engineering Materials
**Credits:** 3 (2-3-0)
**Course Description:** Behavior and properties of construction materials, instrumentation, use of statistical tools, material standards, material selection, quality control.
**Prerequisite:** CHEM 111 and CIVE 360.
**Term Offered:** Fall.
**Grade Mode:** Traditional.
**Special Course Fee:** Yes.

### CIVE 303 Infrastructure and Transportation Systems
**Credits:** 3 (3-0-0)
**Course Description:** Principles of infrastructure systems, transportation systems, applications of spatial data and GIS, project management and engineering economy.
**Prerequisite:** CIVE 260.
**Term Offered:** Spring.
**Grade Mode:** Traditional.
**Special Course Fee:** No.

### CIVE 305 Intermediate AutoCAD
**Credits:** 3 (2-2-0)
**Course Description:** Creating layouts and templates, objects, graphic patterns and symbols, inserting and managing external references, and creating isometric drawings.
**Prerequisite:** CIVE 103.
**Term Offered:** Fall.
**Grade Mode:** Traditional.
**Special Course Fee:** No.

### CIVE 322 Basic Hydrology
**Credits:** 3 (3-0-0)
**Course Description:** Hydrologic cycle, soil moisture, groundwater, runoff processes, applications in water resources and environmental engineering.
**Prerequisite:** (CIVE 300 or CBE 331 or WR 416) and (CIVE 203 or STAT 301 or STAT 315).
**Terms Offered:** Fall, Spring, Summer.
**Grade Mode:** Traditional.
**Special Course Fee:** No.

### CIVE 330 Ecological Engineering
**Credits:** 3 (3-0-0)
**Course Description:** Principles of ecological engineering and design of sustainable ecosystems.
**Prerequisite:** (BZ 110 and BZ 111 or BZ 120 or LIFE 102 or SOCR 240) and (CHEM 113) and (CIVE 300 or LIFE 320).
**Term Offered:** Spring.
**Grade Mode:** Traditional.
**Special Course Fee:** No.

### CIVE 335 Introduction to Geotechnical Engineering
**Credits:** 3 (3-0-0)
**Course Description:** Soil behavior, stress-strain and strength properties, application to earth pressure, slope and foundation problems.
**Prerequisite:** CIVE 360.
**Terms Offered:** Fall, Spring.
**Grade Mode:** Traditional.
**Special Course Fee:** No.

### CIVE 336 Geotechnical Engineering Laboratory
**Credit:** 1 (0-3-0)
**Course Description:** Laboratory to demonstrate standard methods of soils testing, methods of data collection, analysis of results.
**Prerequisite:** CIVE 355, may be taken concurrently.
**Terms Offered:** Fall, Spring.
**Grade Mode:** Traditional.
**Special Course Fee:** No.

### CIVE 360 Mechanics of Solids
**Credits:** 3 (3-0-0)
**Course Description:** Stresses and deformations in structural members and machine elements, combined stresses, stress transformation.
**Prerequisite:** CIVE 260.
**Terms Offered:** Fall, Spring, Summer.
**Grade Modes:** S/U within Student Option, Trad within Student Option.
**Special Course Fee:** No.

### CIVE 367 Structural Analysis
**Credits:** 3 (3-0-0)
**Course Description:** Determination of actions in and deformations of determinate and indeterminate structures.
**Prerequisite:** CIVE 360.
**Terms Offered:** Fall, Spring.
**Grade Modes:** S/U within Student Option, Trad within Student Option.
**Special Course Fee:** No.
CIVE 390 Civil Engineering Student Projects Workshop Credits: Var[1-3] (0-0-0)
Course Description: None.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.
CIVE 401 Hydraulic Engineering Credits: 3 (3-0-0)
Course Description: Basic principles of fluid mechanics applied to practical problems in hydraulic engineering.
Prerequisite: CIVE 300.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
CIVE 402 Senior Design Principles Credits: 3 (2-2-0)
Course Description: Design of civil engineering systems, non-technical and economic design considerations, project organization, design project development and presentation.
Prerequisite: (CIVE 300) and (CIVE 303 or CHEM 245).
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
CIVE 403 Senior Project Design Credits: 3 (2-2-0)
Course Description: Design of civil engineering systems, non-technical and economic design considerations, project organization, design project development and presentation.
Prerequisite: CIVE 402.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
CIVE 413 Environmental River Mechanics Credits: 3 (3-0-0)
Course Description: Fluvial geomorphology, river hydraulics, sediment transport, and river response with special emphasis on environmental aspects.
Prerequisite: CIVE 300 or WR 416.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
CIVE 423 Groundwater Engineering Credits: 3 (3-0-0)
Course Description: Development of groundwater resources; origin, movement, distribution of water below ground surface.
Prerequisite: CIVE 300 or CBE 331 or WR 416.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
CIVE 424 Modern Gas and Oil Credits: 3 (3-0-0)
Also Offered As: GEOL 424.
Course Description: Introduction to opportunities and challenges of modern gas and oil development, including synergies with other energy sources.
Prerequisite: None.
Registration Information: Junior standing or above; completion of AUCC category 3A. Credit not allowed for both CIVE 424 and GEOL 424.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
CIVE 425 Soil and Water Engineering Credits: 3 (2-3-0)
Course Description: Control of the soil-water-plant medium for optimum plant growth and environmental protection.
Prerequisite: CBE 331 or CIVE 300 or SOCR 240.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
CIVE 437 Wastewater Treatment Facility Design Credits: 3 (3-0-0)
Course Description: Design concepts and principles for wastewater treatment systems and unit processes, principles of treatment plant operation.
Prerequisite: (CIVE 300) and (CIVE 438, may be taken concurrently).
Registration Information: Credit not allowed for both CIVE 437 and ENVE 438.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
CIVE 438 Environmental Engineering Concepts Credits: 3 (3-0-0)
Course Description: Environmental engineering approaches to designing water supply, wastewater removal, and pollution control systems.
Prerequisite: (CHEM 113) and (CIVE 300 or CBE 331 or MECH 342).
Registration Information: Credit not allowed for both CIVE 438 and ENVE 438.
Terms Offered: Fall, Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
CIVE 439 Environmental Engineering Chemical Concepts Credits: 3 (2-3-0)
Also Offered As: CBE 439.
Course Description: Application of chemical principles to environmental engineering problems.
Prerequisite: CHEM 113 and MATH 340.
Registration Information: Must register for lecture and laboratory. Credit not allowed for both CBE 439 and CIVE 439.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
CIVE 440 Nonpoint Source Pollution Credits: 3 (3-0-0)
Course Description: Principles, processes, impacts and control of nonpoint source pollution of surface and groundwater.
Prerequisite: CIVE 300 or CIVE 322 or SOCR 240 or WR 416.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
CIVE 441 Water Quality Analysis and Treatment Credits: 3 (2-3-0)
Course Description: Physical, chemical and biological methods for the characterization of waters and wastewaters.
Prerequisite: CIVE 438, may be taken concurrently or CIVE 440, may be taken concurrently.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.
CIVE 442  Air Quality Engineering  Credits: 3 (3-0-0)
Course Description: Air pollution problems and solutions, at scales ranging from local to global. Quantitative analysis of chemical and physical processes governing air pollutants in natural and built environments.
Prerequisite: (CBE 331 or CIVE 300 or MECH 342) and (CHEM 113).
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 455  Applications in Geotechnical Engineering  Credits: 3 (3-0-0)
Course Description: Geotechnical engineering applications of earth retaining structures, foundations, dams and embankments, geosynthetics, waste containment systems.
Prerequisite: CIVE 355.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 458  Environmental Geotechnics  Credits: 3 (3-0-0)
Course Description: Application of principles from soil physics, soil chemistry, soil mechanics, hydrogeology, and geotechnical engineering to solve problems in Environmental Geotechnics related to engineered containment of contaminants and remediation of contaminated sites for the protection of human health and the environment.
Prerequisite: CIVE 355, may be taken concurrently.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 466  Design and Behavior of Steel Structures  Credits: 3 (3-0-0)
Course Description: Loads acting on a structure; behavior and design of steel members, connections, and systems.
Prerequisite: CIVE 367.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 467  Design of Reinforced Concrete Structures  Credits: 3 (3-0-0)
Course Description: Design and behavior of reinforced concrete structural members.
Prerequisite: CIVE 367.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 495  Independent Study  Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 496  Group Study  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 502  Fluid Mechanics  Credits: 3 (3-0-0)
Course Description: Fundamental physical concepts of fluid mechanics; ideal and viscous fluid flows; boundary-layer concepts.
Prerequisite: CIVE 300.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 504  Wind Engineering  Credits: 3 (3-0-0)
Course Description: Influence of wind on humanity. Applications to structures, air pollution, wind energy, agricultural aerodynamics, snow movement, human comfort.
Prerequisite: CIVE 300.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 506  Wind Effects on Structures  Credits: 3 (3-0-0)
Course Description: Analysis of wind effects on buildings and structures; deterministic and probabilistic methods; aerodynamic loading and response; codes and standards.
Prerequisite: CIVE 504.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 507  Transportation Engineering  Credits: 3 (3-0-0)
Course Description: Principles of highway engineering, transportation engineering and bridge engineering with a focus on design.
Prerequisite: CIVE 261 and CIVE 303 and CIVE 367.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 508  Bridge Engineering  Credits: 3 (3-0-0)
Course Description: Introduces the fundamentals of bridge engineering, including bridge basics, bridge loads, bridge analysis and bridge design.
Prerequisite: CIVE 367.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 510  Applied Hydraulic System Design  Credits: 3 (3-0-0)
Course Description: Operational management systems, data collection, real-time control, management modeling, rehabilitation and retrofit, maintenance.
Prerequisite: CIVE 401.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 511  Coastal Engineering  Credits: 3 (3-0-0)
Course Description: Coastal processes (waves, tides, storm surge, currents, coastal morphology, deltas) and their effects on infrastructure design and eco-protection.
Prerequisite: CIVE 401.
Registration Information: Bachelor’s degree required. Credit not allowed for both CIVE 511 and CIVE 580A6.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
CIVE 512 Irrigation Systems Design Credits: 3 (3-0-0)
Course Description: Irrigation systems principles and design procedures for operation of sprinkler, trickle, and surface irrigation systems.
Prerequisite: CIVE 322 or CIVE 425.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 514 Hydraulic Structures/Systems Credits: 3 (3-0-0)
Course Description: Analysis and design of hydraulic structures which make up components of water resource systems.
Prerequisite: CIVE 401.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 516 Water Control and Measurement Credits: 3 (3-0-0)
Course Description: Flow regulation and measurement in gravity flow irrigation systems for efficient and equitable water distribution among users.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 518 Sprinkler and Trickle Irrigation Systems Credits: 3 (3-0-0)
Course Description: Basic principles, design, and evaluation of pressurized irrigation systems.
Prerequisite: CIVE 300 and CIVE 425.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 519 Irrigation Water Management Credits: 3 (3-0-0)
Course Description: Apply soil, plant, water, and atmospheric engineering principles to determine crop water need to sustain agricultural production and the environment.
Prerequisite: CIVE 425.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 520 Physical Hydrology Credits: 3 (3-0-0)
Course Description: Hydrologic, atmospheric processes in the water cycle; linear systems, hydrologic response; geomorphologic description of hydrologic processes, response.
Prerequisite: CIVE 322 or CIVE 322.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 521 Hydrometry Credits: 3 (2-3-0)
Course Description: Principles, methods, instruments, and equipment for measuring water quantity and water quality variables in nature.
Prerequisite: CIVE 322.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: Yes.

CIVE 522 Engineering Hydrology Credits: 3 (3-0-0)
Course Description: Hydrologic design under uncertainty; conventional and remote sensing; design flows and storms; river routing; reservoir design; watershed models.
Prerequisite: CIVE 520.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 524 Modeling Watershed Hydrology Credits: 3 (2-2-0)
Also Offered As: WR 524.
Course Description: Development and application of watershed models: structure, calibration, evaluation, sensitivity analysis, simulation.
Prerequisite: (CIVE 322 or WR 416) and (STAT 315 or STAT 301 or CIVE 202).
Registration Information: Must register for lecture and laboratory. Credit not allowed for both CIVE 524 and WR 524.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

CIVE 525 Water Engineering: International Development Credits: 3 (3-0-0)
Course Description: Planning and design of small-scale and low-cost water supply and wastewater systems for rural communities in developing countries.
Prerequisite: CIVE 401 or CIVE 438.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

CIVE 531 Groundwater Hydrology Credits: 3 (3-0-0)
Course Description: Groundwater occurrence, distribution, movement, exploration and recharge, well hydraulics and design, interaction of ground and surface water.
Prerequisite: CIVE 300 or CBE 331 or MECH 342.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 532 Wells and Pumps Credits: 3 (3-0-0)
Course Description: Well field hydraulics, well drilling methods, well design, aquifer test methods, pumping systems, well maintenance, storage/distribution systems.
Prerequisite: (CIVE 423 and CHEM 111) and (CIVE 531 or GEOL 452).
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 533 Biomolecular Tools for Engineers Credits: 3 (2-3-0)
Also Offered As: BIOM 533.
Course Description: Theoretical and practical aspects of biomolecular laboratory tools--PCR, cloning, sequencing, single-molecule optical techniques and live-cell imaging.
Prerequisite: BMS 300 or MIP 300.
Registration Information: Must register for lecture and laboratory. Credit not allowed for BIOM 533, CIVE 533 and ECE 533.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.
CIVE 534 Applied and Environmental Molecular Biology Credits: 3 (2-2-0)
Course Description: Environmental microbiology and molecular biology tools used to investigate both natural systems and engineered processes.
Prerequisite: CIVE 540.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 537 Residuals Management Credits: 3 (3-0-0)
Course Description: Planning and design for processing and disposal of residuals including solid wastes, sludges, and hazardous wastes.
Prerequisite: CIVE 300.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 538 Aqueous Chemistry Credits: 3 (3-0-0)
Course Description: Principles of solution chemistry applied to aquatic systems.
Prerequisite: CHEM 113 and MATH 340.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 539 Water and Wastewater Analysis Credits: 3 (2-3-0)
Course Description: Chemical and biological methods of assessing water quality; significance of chemicals in aquatic systems.
Prerequisite: CHEM 113 and MATH 340.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 540 Advanced Biological Wastewater Processing Credits: 3 (3-0-0)
Also Offered As: CBE 540.
Course Description: Fundamentals of environmental biotechnology: environmental microbiology, microbial kinetics, basic reactor design, wastewater treatment.
Prerequisite: CBE 320 or CIVE 438.
Registration Information: Sections may be offered: Online. Credit not allowed for both CIVE 540 and CBE 540.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 541 Environmental Unit Operation-Treatment-Design Credits: 4 (3-3-0)
Course Description: Reactor theory, filtration, adsorption, ion exchange, gas transfer, oxidation, membranes, biological reactors, disinfection.
Prerequisite: CIVE 439 or CBE 439.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 542 Water Quality Modeling Credits: 3 (3-0-0)
Course Description: Chemical, physical, and biological processes defining surface water quality, construction and application of computer models for lakes and streams. Must have taken two semesters of chemistry; one course in hydrology or water quality.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 543 Instrumental Environmental Analysis Credits: 3 (2-3-0)
Course Description: Environmental sampling and preservation techniques followed by the instrumental analysis of the samples.
Prerequisite: CHEM 113.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 544 Water Resources Planning and Management Credits: 3 (3-0-0)
Course Description: Management and planning of natural and constructed water systems. Integrated management and case studies of water use and environmental resources.
Prerequisite: CIVE 322.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 546 Water Resource Systems Analysis Credits: 3 (2-2-0)
Course Description: Applications of systems analysis and optimization techniques in water resources planning and management.
Prerequisite: (CIVE 322, may be taken concurrently) and (ENGR 510, may be taken concurrently or MATH 510, may be taken concurrently).
Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 547 Statistics for Environmental Monitoring Credits: 3 (3-0-0)
Also Offered As: STAT 547.
Course Description: Applications of statistics in environmental pollution studies involving air, water, or soil monitoring; sampling designs; trend analysis; censored data.
Prerequisite: STAT 301.
Registration Information: Credit not allowed for both CIVE 547 and STAT 547. Sections may be offered: Online.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 549 Drainage and Wetland Engineering Credits: 3 (3-0-0)
Course Description: Drainage and wetlands design for agricultural and natural resource applications. Water table modification for nonpoint sources pollution control.
Prerequisite: CIVE 425 or CIVE 322.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
CIVE 550  Foundation Engineering  Credits: 3 (3-0-0)
Course Description: Mechanics and methodology of foundation engineering; selection and design of foundation systems on soft, firm, and expansive soils; special problems.
Prerequisite: CIVE 355.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 553  Slope Stability and Retaining Structures  Credits: 3 (3-0-0)
Course Description: Slope stability theory and application, retaining walls, sheet-pile walls, braced excavations, geosynthetic uses.
Prerequisite: CIVE 355.
Registration Information: Sections may be offered: Online.
Term Offered: Spring (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 556  Slope Stability, Seepage, and Earth Dams  Credits: 3 (3-0-0)
Course Description: Slope stability, seepage analysis and control, and earth dam and embankment design in Geotechnical Engineering practice. Students will gain an understanding of the theory, design, and analysis necessary to evaluate slope stability, seepage, and earth dam problems.
Prerequisite: CIVE 355.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 558  Containment Systems for Waste Disposal  Credits: 3 (3-0-0)
Course Description: Basic principles governing the design of containment systems used in waste disposal applications.
Prerequisite: CIVE 355.
Registration Information: Sections may be offered: Online.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 559  Special Topics in Geotechnical Engineering  Credits: 3 (3-0-0)
Course Description: Advanced topics in geotechnical engineering including expansive soils, unsaturated soil mechanics, soil-structure interaction and mining geotechnics.
Prerequisite: CIVE 355.
Registration Information: Sections may be offered: Online.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 560  Advanced Mechanics of Materials  Credits: 3 (3-0-0)
Course Description: Analysis of stress and strain failure theory; selected topics in solid mechanics, plate analysis; introduction to elastic stability.
Prerequisite: CIVE 360.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 561  Advanced Steel Behavior and Design  Credits: 3 (3-0-0)
Course Description: Behavior of steel components and systems. Design of composite members, plate girders, and bolted and welded connections.
Prerequisite: CIVE 466.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 562  Fundamentals of Vibrations  Credits: 3 (3-0-0)
Course Description: Free and forced vibrations of single, two, and multiple degree of freedom systems. Closed-form and numerical solutions.
Prerequisite: CIVE 261 and CIVE 360.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 563  Structural Reliability: Theory, Application  Credits: 3 (3-0-0)
Course Description: Theory of structural reliability as it relates to analysis, design, construction, and maintenance of structural and mechanical systems.
Prerequisite: CIVE 203 or STAT 315.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 564  Principles of Structural Load Modeling  Credits: 3 (3-0-0)
Course Description: Modern structural load modeling and analysis techniques for buildings and other structures exposed to natural and man-made hazards.
Prerequisite: (CIVE 203) and (CIVE 466 or CIVE 467).
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Credit not allowed for both CIVE 564 and CIVE 581A7.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 565  Finite Element Method  Credits: 3 (3-0-0)
Course Description: Theory and application in elasticity, porous flow, heat conduction, and other engineering problems.
Prerequisite: MATH 340.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 566  Intermediate Structural Analysis  Credits: 3 (3-0-0)
Course Description: Work and energy concepts, curved members and arches, matrix analysis of linear systems, numerical techniques.
Prerequisite: CIVE 367.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
CIVE 567 Advanced Concrete Design  Credits: 3 (3-0-0)  
**Course Description:** Behavior of reinforced and prestressed concrete members; development of design methods; behavior and design of slabs, shearwalls, and buildings.  
**Prerequisite:** CIVE 467.  
**Registration Information:** Sections may be offered: Online.  
**Term Offered:** Spring.  
**Grade Modes:** S/U within Student Option, Trad within Student Option.  
**Special Course Fee:** No.  

CIVE 568 Design of Masonry and Wood Structures  Credits: 3 (3-0-0)  
**Course Description:** Behavior and design of structures and structural components constructed of masonry or engineered wood.  
**Prerequisite:** CIVE 466 or CIVE 467.  
**Registration Information:** Sections may be offered: Online.  
**Term Offered:** Spring.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  

CIVE 571 Pipeline Engineering and Hydraulics  Credits: 3 (3-0-0)  
**Course Description:** Water supply, wastewater, stormwater, oil and gas, and industrial applications. Emphasis on pressurized water pipelines.  
**Prerequisite:** CIVE 300.  
**Registration Information:** Sections may be offered: Online.  
**Term Offered:** Spring.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  

CIVE 572 Analysis of Urban Water Systems  Credits: 3 (2-2-0)  
**Course Description:** Behavior and interaction of urban water distribution and collection systems; how system state and driving variables affect system performance.  
**Prerequisite:** CIVE 300 and CIVE 401.  
**Registration Information:** Must register for lecture and laboratory.  
**Term Offered:** Fall (even years).  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  

CIVE 573 Urban Stormwater Management  Credits: 3 (3-0-0)  
**Course Description:** Effects of urbanization on watershed hydrology and receiving waters; control practices to mitigate effects using mathematical models.  
**Prerequisite:** (CIVE 322) and (CIVE 401).  
**Registration Information:** Sections may be offered: Online.  
**Term Offered:** Spring (even years).  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  

CIVE 574 Civil Engineering Project Management  Credits: 3 (3-0-0)  
**Course Description:** Principles of civil engineering project management including proposals, contracts, scheduling, quality assurance, budgeting, and risk management.  
**Prerequisite:** None.  
**Registration Information:** Sections may be offered: Online.  
**Term Offered:** Fall.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  

CIVE 575 Sustainable Water and Waste Management  Credits: 3 (3-0-0)  
**Course Description:** The science, engineering, and policy behind sustainable water and waste practices. Sustainable urban water and wastewater management.  
**Prerequisite:** CIVE 322.  
**Registration Information:** Sections may be offered: Online.  
**Term Offered:** Spring.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  

CIVE 576 Engineering Applications of GIS and GPS  Credits: 3 (2-2-0)  
**Course Description:** Integration of GPS and GIS in the planning and decision making process, application to case study.  
**Prerequisite:** None.  
**Registration Information:** Must register for lecture and laboratory. Sections may be offered: Online.  
**Term Offered:** Fall.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  

CIVE 577 GIS in Civil and Environmental Engineering  Credits: 3 (2-2-0)  
**Course Description:** GIS technology for spatial design/analysis; applications in facilities management, urban infrastructure, water resources, environmental engineering.  
**Prerequisite:** (CIVE 300) and (CIVE 322).  
**Registration Information:** Must register for lecture and laboratory. Sections may be offered: Online.  
**Term Offered:** Spring.  
**Grade Modes:** S/U within Student Option, Trad within Student Option.  
**Special Course Fee:** No.  

CIVE 578 Infrastructure and Utility Management  Credits: 3 (3-0-0)  
**Course Description:** Infrastructure and utility planning, management, and security. Systems approach to life cycle management. Problems, analysis, decision support systems.  
**Prerequisite:** None.  
**Registration Information:** Ten credits of engineering, economics, public administration, or planning courses. Sections may be offered: Online.  
**Term Offered:** Spring.  
**Grade Modes:** S/U within Student Option, Trad within Student Option.  
**Special Course Fee:** No.  

CIVE 584 Supervised College Teaching  Credits: Var[1-18] (0-0-0)  
**Course Description:**  
**Prerequisite:** None.  
**Terms Offered:** Fall, Spring, Summer.  
**Grade Mode:** Instructor Option.  
**Special Course Fee:** No.  

CIVE 592A Seminar: Fluid Mechanics and Wind Engineering  Credit: 1 (0-0-1)  
**Course Description:**  
**Prerequisite:** None.  
**Terms Offered:** Fall, Spring, Summer.  
**Grade Mode:** Instructor Option.  
**Special Course Fee:** No.  

CIVE 592E Seminar: Geotechnical Engineering  Credit: 1 (0-0-1)  
**Course Description:**  
**Prerequisite:** None.  
**Terms Offered:** Fall, Spring, Summer.  
**Grade Mode:** Instructor Option.  
**Special Course Fee:** No.
CIVE 592G Seminar: Environmental Engineering Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 592L Seminar: Space Engineering Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596A Group Study: Fluid Mechanics/Wind Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596B Group Study: Hydraulics Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Cived 596C Group Study: Hydrology and Water Resources Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596D Group Study: Mechanics Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596E Group Study: Geotechnical Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596F Group Study: Structures Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596G Group Study: Environmental Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596H Group Study: Water Resource Planning and Management Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596I Group Study: Groundwater Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596J Group Study: Bioresource and Agricultural Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 604 Fluid Turbulence and Modeling Credits: 3 (3-0-0)
Course Description: Engineering concepts for transport of pollutants, toxic and flammable species, sand, and snow. Fluid modeling, numerical and analytical approaches.
Prerequisite: CIVE 502 or CIVE 504.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 607 Computational Fluid Dynamics Credits: 3 (3-0-0)
Course Description: Numerical methods used in computational solutions of hydraulics, environmental and wind engineering problems.
Prerequisite: CIVE 300.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 610 Special Topics in Hydraulics Credits: 3 (3-0-0)
Course Description: Advanced topics in hydraulics, hydromechanics, environmental hydraulics, and computational hydraulics.
Prerequisite: CIVE 502.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 612 Open Channel Flow Credits: 4 (4-0-0)
Course Description: Steady, uniform, and non-uniform flow; backwater curves; flow through bridge piers, transitions, and culverts; spatially varied and unsteady flow.
Prerequisite: CIVE 502.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

</tbody>
</table>
CIVE 662 Foundations of Solid Mechanics  Credits: 3 (3-0-0)
Course Description: Analysis of stress and strain in solids emphasizing
linear elasticity and plasticity; introduction to creep, viscoelasticity, and
finite deformations.
Prerequisite: CIVE 560.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 664 Mechanics of Fatigue and Fracture  Credits: 3 (3-0-0)
Course Description: Fracture mechanics including linear elastic, elastic-
plastic, and dynamic fracture; on ductile and cleavage fracture in metals.
Prerequisite: CIVE 560.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 667 Advanced Structural Analysis  Credits: 3 (3-0-0)
Course Description: Analysis program development, application of finite
element analysis, computer-assisted analysis, introduction to nonlinear
analysis.
Prerequisite: CIVE 566.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 684 Supervised College Teaching  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 695C Independent Study: Hydrology and Water Resources  Credits:
Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 695D Independent Study: Mechanics  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 695E Independent Study: Geotechnical Engineering  Credits:
Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 695F Independent Study: Structures  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 695G Independent Study: Environmental Engineering  Credits:
Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 695H Independent Study: Water Resource Planning and
Management  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
CIVE 695I Independent Study: Groundwater Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 695J Independent Study: Bioresource and Agricultural Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 695K Independent Study: Water and International Development Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 696A Group Study: Fluid Mechanics and Wind Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 696B Group Study: Hydraulics Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 696C Group Study: Hydrology and Water Resources Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 696D Group Study: Mechanics Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 696E Group Study: Geotechnical Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 696F Group Study: Structures Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 696G Group Study: Environmental Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 696H Group Study: Water Resource Planning and Management Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
CIVE 696J Group Study: Bioresource and Agricultural Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 699B Thesis: Hydraulics Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 699C Thesis: Hydrology and Water Resources Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 699E Thesis: Geotechnical Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 699F Thesis: Structures Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 699G Thesis: Environmental Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 699H Thesis: Water Resource Planning and Management Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 699I Thesis: Groundwater Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 699J Thesis: Bioresource and Agricultural Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 699K Thesis: Water and International Development Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 703 Special Topics in Fluid Mechanics Credits: 3 (3-0-0)
Course Description: Advanced topics in fluid mechanics; associated experimental and numerical techniques.
Prerequisite: CIVE 502.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 716 Erosion and Sedimentation Credits: 3 (3-0-0)
Course Description: Sediment properties; resistance to flow; incipient motion and bedforms; sediment transport, reservoir sedimentation.
Prerequisite: CIVE 502.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 717 River Mechanics Credits: 3 (3-0-0)
Course Description: Characteristics of rivers, mechanics of sediment and water discharge emphasizing alluvial systems, channel stabilization, control, response.
Prerequisite: CIVE 716.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
CIVE 721  Stochastic Water and Environmental Systems Credits: 3 (3-0-0)
Course Description: Stochastic analysis of water and environmental systems. Simulation, forecasting, spatial analysis, modeling changes, stochastic differential equations.
Prerequisite: CIVE 622.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 722 Large Scale Hydrology Credits: 3 (3-0-0)
Course Description: Global and regional scale hydrologic processes; land/atmosphere interaction; scaling in hydrology; geomorphoclimatic structure of hydrologic response.
Prerequisite: CIVE 520.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 724 River Basin Morphology Credits: 3 (3-0-0)
Course Description: Analysis of river basin properties including their connections to statistical theories and erosion processes and their hydrologic implications.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of instructor.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 742 Advanced Topics in Environmental Engineering Credits: 3 (2-3-0)
Course Description: Selected topics from current environmental engineering research including molecular methods, water/wastewater treatment, hazardous water remediation.
Prerequisite: CIVE 540.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

CIVE 751 Soil Dynamics Credits: 3 (3-0-0)
Course Description: Soil behavior under dynamic loading; stress wave propagation; foundation response to vibratory and transient loading; elements of earthquake effects.
Prerequisite: CIVE 450.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 766 Theory of Plates and Shells Credits: 3 (3-0-0)
Course Description: Classical plate, shell and membrane theory for isotropic and layered anisotropic media. Analytic and computational solution techniques.
Prerequisite: CIVE 560.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 767 Structural Dynamics and Earthquake Engineering Credits: 3 (3-0-0)
Course Description: Analysis, behavior, and design of structural systems subjected to dynamic loads, including earthquakes, wind, and ocean waves.
Prerequisite: CIVE 562 and CIVE 667.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 799A Dissertation: Fluid Mechanics and Wind Engineering Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 799B Dissertation: Hydraulics Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 799C Dissertation: Hydrology and Water Resources Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 799D Dissertation: Mechanics Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 799E Dissertation: Geotechnical Engineering Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 799F Dissertation: Structures Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
Major in Civil Engineering

The undergraduate Civil Engineering program provides a solid base in the physical sciences, mathematics, engineering fundamentals, and design and management concepts. The All-University Core Curriculum provides a broad background in communication, liberal arts, humanities, and social sciences. In addition to offering courses in the various sub-disciplines of Civil Engineering, the Civil Engineering curriculum covers design practices, information technology, technical communications, project management, and engineering ethics. The program culminates in a year-long, term-based, senior capstone design experience. Preparation for high-level professional practice is emphasized. The Fundamentals of Engineering (FE) exam is the first step toward registration as a Professional Engineer (PE), an important professional credential for civil engineers. Thus, students in this major are strongly encouraged to take the FE exam prior to graduation. Graduates of our Civil Engineering major consistently have a passing rate on the FE exam that is significantly above the national average.

Participation in internships, volunteer activities, professional organizations, and cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who pursue advanced studies are prepared for higher level technical responsibilities.

The educational outcomes and objectives for the Civil Engineering program, along with additional information on this major, are given at engr.colostate.edu/ce (http://www.engr.colostate.edu/ce/undergrad.shtml). The Civil Engineering major is accredited by the Engineering Accreditation Commission of ABET (http://abet.org).

Potential Occupations

Civil engineers are employed in many different organizations, including small and large consulting firms, local, state, and federal governmental agencies, and industrial companies such as construction, petroleum, and aerospace firms. Civil engineers also may find opportunities in specialized design, research, and teaching.

Some example job titles for graduates with a Bachelor of Science degree in Civil Engineering (BSCE) include, but are not limited to, civil engineer, transportation engineer, hydraulic engineer, water resources engineer, structural engineer, geotechnical engineer, geoenvironmental engineer, groundwater engineer, hydrologist, wind engineer, urban/regional planner, infrastructure engineer or manager, contract administrator, construction engineer or manager, building construction inspector, facilities engineer or manager, industrial transportation specialist, industrial designer/engineer, construction materials engineer, irrigation engineer, mining engineer, mining and petroleum research engineer, technical sales engineer, and educator.

Major in Environmental Engineering

Environmental engineers design solutions that prevent future pollution as well as correct existing pollution problems. The undergraduate curriculum in Environmental Engineering is based on a strong foundation in physical and biological sciences, mathematics, and engineering fundamentals. The All-University Core Curriculum provides a broad background in communication, liberal arts, humanities, and social sciences. Upper-division courses address engineering applications for prevention and control of air, water, and land pollution. Required courses that are specific to the Environmental Engineering major come from several engineering and science disciplines, including organic and environmental chemistry, microbiology, hydrology, statistics, environmental toxicology, and water treatment. Technical electives provide specialization in a particular area of interest. Seniors complete the same year-long, capstone design experience as Civil Engineering majors, working in teams on real-world engineering problems.

Participation in student professional societies, other campus organizations, internships, and volunteer activities is highly recommended to foster personal growth and professional development. The Fundamentals of Engineering (FE) exam is the first step toward registration as a Professional Engineer, an important professional credential for environmental engineers. Therefore, students are strongly encouraged to take the FE exam prior to graduation. Similar to Civil Engineering majors, our graduates consistently achieve a passing rate on the FE exam that is above the national average. The education outcomes and objectives for the Environmental Engineering major, along with additional information on this major, are found on the department’s website. The Environmental Engineering major is accredited by the Engineering Accreditation Commission of ABET.

Potential Occupations

The expansion of our population and economy, along with increased public concern and regulation of environmental quality, will contribute to the increased demand for the services of environmental engineers, both in the U.S. and abroad. Environmental engineers typically are employed in designing pollution prevention equipment and systems, designing environmental monitoring systems, implementing both government and industry environmental regulations, designing water and wastewater treatment systems, and restoring ecosystem health.

Students who obtain a Bachelor of Science in Environmental Engineering from CSU are well prepared for entry-level positions with regulatory agencies, engineering consulting firms, and environmental divisions of large corporations, particularly in the energy and manufacturing industries. Some example job titles for graduates include, but are not limited to, hydraulic engineer, water resources engineer, environmental engineer, geoenvironmental engineer, reclamation engineer, stormwater engineer, floodplain manager, groundwater engineer, hydrologist, urban/regional planner, water infrastructure engineer or manager, contract administrator, facilities engineer or manager, irrigation engineer, ecological engineer, and educator. Graduate study in a specific area of interest is highly recommended to enhance the ability to undertake more advanced technical responsibilities upon graduation.

Major Completion Map

Distinctive Requirements for Degree Program:

TO DECLARE MAJOR: Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the Department for more information.

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus. To qualify for graduation, engineering science majors must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, computer science, statistics, physics, and chemistry as well as courses taken as technical electives.

Major in Environmental Engineering, Ecological Engineering Concentration

Students are no longer being accepted into this concentration. Students interested in this area of study, please see the Major in Environmental Engineering.

Students should refer to the 2017-2018 General Catalog for the approved curriculum.

Students currently enrolled in this program should consult with an advisor regarding completion requirements.

Major in Environmental Engineering, Environmental Engineering Concentration

Students are no longer being accepted into this concentration. Students interested in this area of study, please see the Major in Environmental Engineering.

Students should refer to the 2017-2018 General Catalog for the approved curriculum.

Students currently enrolled in this program should consult with an advisor regarding completion requirements.

Master of Engineering, Plan C, Civil Engineering Specialization

The Master of Engineering, Plan C, Civil Engineering specialization focuses on enhancing the expertise of working professionals. Engineers who want to further their careers with industrial firms and governmental agencies or those who want to pursue a career in private practice should consider this degree.

Program Total Credits: 30

A minimum of 30 credits are required to complete this program.

1 Select courses with approval of advisor and graduate committee.

Minor in Environmental Engineering

In order to permit undergraduate students in any engineering major to take advantage of CSU's environmental expertise, the Department of Civil and Environmental Engineering offers a minor in Environmental Engineering. The minor is designed to broaden the academic background of undergraduate engineering students seeking a career in environmental fields, and to provide fundamentals required to pursue a graduate degree in environmental engineering or related fields.
**Requirements**

**Effective Fall 2012**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Program Total Credits: 21

1. Students in the Civil Engineering major, Civil Engineering concentration, cannot use CIVE 438 for credit in the minor.
2. Students in the Civil Engineering major, Soil and Water Resources concentration, cannot use CIVE 440 for credit in the minor.
3. May be allowed if not taken as a required course.

Courses

Electrical and Computer Engineering (ECE)

ECE 102 Digital Circuit Logic Credits: 4 (3-2-0)
Course Description: Fundamentals of digital circuit logic, including Boolean algebra; Karnaugh maps; multiplexers, decoders, ROMS, PLAS, flip-flops, counters; sequential networks; and state tables.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ECE 103 DC Circuit Analysis Credits: 3 (2-2-0)
Course Description: Basic DC circuit analysis. Use of scientific-oriented software to solve problems and analyze small projects.
Prerequisite: MATH 160 with a minimum grade of C.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ECE 202 Circuit Theory Applications Credits: 4 (3-3-0)
Course Description: Basic circuit analysis techniques and applications to engineering design problems.
Prerequisite: ECE 103 with a minimum grade of C and MATH 161 with a minimum grade of C.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: Yes.

ECE 204 Introduction to Electrical Engineering Credits: 3 (3-0-0)
Course Description: Basic analog and digital circuits and systems; introduction to electromechanical devices.
Prerequisite: MATH 161 and PH 142.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 251 Introduction to Microprocessors Credits: 4 (3-3-0)
Course Description: Microprocessor organization, assembly language, I/O techniques, real-time interfaces, applications, hardware/software.
Prerequisite: ECE 102 with a minimum grade of C.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ECE 303 Introduction to Communications Principles Credits: 3 (3-0-0)
Also Offered As: STAT 303.
Course Description: Basic concepts in design and analysis of communication systems.
Prerequisite: (MATH 261 with a minimum grade of C) and (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently).
Registration Information: Sections may be offered: Online. Credit not allowed for both ECE 303 and STAT 303.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 311 Linear System Analysis I Credits: 3 (3-0-0)
Course Description: Continuous and discrete time signals and systems representations in time and frequency domain; time convolution.
Prerequisite: (ECE 202 with a minimum grade of C) and (MATH 340 with a minimum grade of C or MATH 345 with a minimum grade of C) and (ECE 311, may be taken concurrently) and (ECE 341, may be taken concurrently or ECE 451, may be taken concurrently).
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 312 Linear System Analysis II Credits: 3 (3-0-0)
Course Description: Laplace and Z transforms, applications to modulation, filtering and sampling, state space representation.
Prerequisite: ECE 311 with a minimum grade of C.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 325 Telecommunication Networks Credits: 3 (3-0-0)
Course Description: Principle technologies that support data and voice communications.
Prerequisite: MATH 141 or MATH 155 or MATH 160.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 331 Electronics Principles I Credits: 4 (3-3-0)
Course Description: Discrete component semiconductor devices, characteristics and applications. Rectifier circuits, single-stage and multi-stage amplifiers.
Prerequisite: (ECE 202 with a minimum grade of C) and (MATH 340 with a minimum grade of C or MATH 345 with a minimum grade of C) and (PH 142 with a minimum grade of C and ECE 311, may be taken concurrently) and (ECE 341, may be taken concurrently or ECE 451, may be taken concurrently).
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.
ECE 332  Electronics Principles II  Credits: 4 (3-3-0)
Course Description: Discrete and integrated-circuit amplifiers-frequency
response, negative feedback; digital logic circuits.
Prerequisite: ECE 331 with a minimum grade of C.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ECE 341  Electromagnetic Fields and Devices I  Credits: 3 (3-0-0)
Course Description: Basic concepts of electrostatic and magnetostatic
fields.
Prerequisite: (ECE 202 with a minimum grade of C) and (MATH 340
with a minimum grade of C or MATH 345 with a minimum grade of C)
and (PH 142 with a minimum grade of C and ECE 311, may be taken
concurrently and ECE 331, may be taken concurrently).
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 342  Electromagnetic Fields and Devices II  Credits: 3 (3-0-0)
Course Description: Basic concepts of time varying electromagnetic
fields and transmission lines.
Prerequisite: ECE 341 with a minimum grade of C.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 395A  Independent Study  Credits: Var[1-6] (0-0-0)
Course Description: Development and implementation of a project in an
Electrical and Computer Engineering field of special interest under the
supervision of a faculty member.
Prerequisite: None.
Registration Information: Contact department for registration. May be
taken up to 6 times for credit.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ECE 395B  Independent Study: Open Option Project  Credits: Var[1-6] (0-0-0)
Course Description: Students will work on an array of different electrical
and computer engineering projects independently or under the guidance
of industry mentors. Projects will be initiated by students or outside
sources and will consist of small-scale service/outreach projects or
market-driven projects that simulate a business environment.
Prerequisite: None.
Registration Information: Contact department for registration. May be
taken up to 6 times for credit.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

ECE 395C  Independent Study: Vertically Integrated Project  Credits:
Var[1-6] (0-0-0)
Course Description: Explore and develop comprehensive applications
of electrical and computer engineering technologies as a member of a
team, especially as they relate to active research areas of CSU faculty
members.
Prerequisite: None.
Registration Information: Contact department for registration. May be
taken up to 6 times for credit.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

ECE 401  Senior Design Project I  Credits: 3 (1-4-0)
Course Description: Advanced project, seminar series, formal written
report, and oral presentation.
Prerequisite: ECE 303 with a minimum grade of C or ECE 332 with a
minimum grade of C and (ECE 312 with a minimum grade of C or PH 314
with a minimum grade of C and PH 353 with a minimum grade of C) and
(ECE 342 with a minimum grade of C or ECE 452 with a minimum grade
of C).
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: Yes.

ECE 402  Senior Design Project II  Credits: 3 (1-4-0)
Course Description: Advanced project, formal report, and oral
presentation.
Prerequisite: ECE 401.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: Yes.

ECE 404  Experiments in Optical Electronics  Credits: 2 (1-3-0)
Course Description: Experiments in optical electronics and lasers.
Prerequisite: None.
Registration Information: Must have concurrent registration in ECE 441.
Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 411  Control Systems  Credits: 4 (3-3-0)
Course Description: Control system analysis and design for linear
systems: stability and performance; time and frequency domain
techniques.
Prerequisite: ECE 312 with a minimum grade of C.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 412  Digital Control and Digital Filters  Credits: 3 (3-0-0)
Course Description: FIR and IIR digital filter design, analog and digital
invariance and direct digital control algorithms, hybrid systems analysis.
Prerequisite: ECE 411.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 421  Telecommunications I  Credits: 3 (3-0-0)
Course Description: Digital communication (source coding; modulation
and detection; channel coding), analog communication (modulation).
Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a
minimum grade of C) and (ECE 312 with a minimum grade of C).
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 422  Digital Communication  Credits: 3 (3-0-0)
Course Description: Digital communication (source coding; modulation
and detection; channel coding), analog communication (modulation).
Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a
minimum grade of C) and (ECE 312 with a minimum grade of C).
Registration Information: Sections may be offered: Online.

</tbody>
</table>
ECE 462  Power Systems Laboratory  Credit: 1 (0-3-0)
Course Description: Set of labs designed to enhance students’
understanding of power systems.
Prerequisite: ECE 332 with a minimum grade of C and ECE 461 with a
minimum grade of C, may be taken concurrently.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 465  Electrical Energy Generation Technologies  Credits: 3 (3-0-0)
Course Description: Various electrical energy generation alternatives.
Comparisons based on cost, reliability, availability and environmental
impact.
Prerequisite: ECE 202 with a minimum grade of C.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 466  Integrated Lighting Systems  Credits: 3 (3-0-0)
Course Description: Technical underpinnings of light sources, their
associated heat sink fixtures and power electronics drivers.
Prerequisite: ECE 331.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 471A  Semiconductor Physics  Credit: 1 (1-0-0)
Course Description: Fundamentals of semiconductor electron, hole states
and motion: bandgap, effective mass, carrier density, Fermi level, doping,
drift and diffusion.
Prerequisite: (MATH 340 or MATH 345) and (PH 142).
Registration Information: This is a partial semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 471B  Semiconductor Junctions  Credit: 1 (1-0-0)
Course Description: Quantitative analysis of field, carrier and current
distributions in pn and metal-semiconductor junctions.
Prerequisite: ECE 331 with a minimum grade of C and ECE 471A, may be
taken concurrently.
Registration Information: This is a partial semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 495A  Independent Study  Credits: Var[1-6] (0-0-0)
Course Description: Development and implementation of a project in an
electrical and computer engineering field of special interest under the
supervision of a faculty member.
Prerequisite: None.
Registration Information: Junior standing. Contact department for
registration. May be taken up to 6 times for credit.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ECE 495B  Independent Study: Open Option Project  Credits:
Var[1-6] (0-0-0)
Course Description: Students will work on an array of different electrical
and computer engineering projects independently or under the guidance
of industry mentors. Projects will be initiated by students or outside
sources and will consist of small-scale service/outreach projects or
market-driven projects that simulate a business environment.
Prerequisite: None.
Registration Information: Junior standing. Contact department for
registration. May be taken up to 6 times for credit.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

ECE 495C  Independent Study: Vertically Integrated Projects  Credits:
Var[1-6] (0-0-0)
Course Description: Explore and develop comprehensive applications
of electrical and computer engineering technologies as a member of a
team, especially as they relate to active research areas of CSU faculty
members.
Prerequisite: None.
Registration Information: Junior standing. Contact department for
registration. May be taken up to 6 times for credit.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

ECE 502  Advanced Fourier Optics  Credits: 4 (3-0-1)
Course Description: Introduction to optical systems for signal and
information processing with emphasis on Fourier optics. Engineering
design principles, models, and computational techniques for forward
optical imaging and optical image reconstruction.
Prerequisite: ECE 311 with a minimum grade of C and ECE 342 with a
minimum grade of C and MATH 340 with a minimum grade of C.
Registration Information: Junior standing. Must register for lecture and
recitation. Credit not allowed for both ECE 457 and ECE 502.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 503  Ultrafast Optics  Credits: 3 (3-0-0)
Course Description: Principles and theory behind ultrashort pulse
 generation, amplification, and manipulation.
Prerequisite: (ECE 341) and (ECE 342 or ECE 343).
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 504  Physical Optics  Credits: 3 (3-0-0)
Course Description: Classical optics from first principles; basic
electromagnetic theory to wave and geometric guides.
Prerequisite: ECE 342.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 505  Nanostructures: Fundamentals and Applications  Credits:
3 (3-0-0)
Course Description: Fundamentals of quantum confinement;
nanostructures optical properties; fabrication and characterization.
Prerequisite: ECE 342 and PH 353.
Registration Information: Sections may be offered: Online.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
ECE 506  Optical Interferometry and Laser Metrology  Credits: 3 (3-0-0)
Course Description: High resolution metrology techniques utilizing and interferometric sensors using lasers and other light sources.
Prerequisite: ECE 342 and ECE 441.
Registration Information: Sections may be offered: Online.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 507  Plasma Physics and Applications  Credits: 3 (3-0-0)
Course Description: Fundamental principles and industrial applications of plasmas.
Prerequisite: ECE 342.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 508  Introduction to Power System Markets  Credits: 3 (3-0-0)
Also Offered As: ENGR 508.
Course Description: Deregulated electrical power systems, system security, investments in generation and transmission, ancillary services, and nodal pricing.
Prerequisite: ECE 461.
Registration Information: Credit not allowed for both ECE 508 and ENGR 508. Sections may be offered: Online.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 509  Signal Processing for Power Systems  Credits: 3 (3-0-0)
Also Offered As: ENGR 509.
Course Description: Signal processing tools for analyzing power systems, voltage frequency, magnitude variations, unbalance, waveform distortion.
Prerequisite: ECE 312 and ECE 461.
Registration Information: Credit not allowed for both ECE 509 and ENGR 509. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 510  Wide-Area Monitoring for Power Systems  Credits: 3 (3-0-0)
Course Description: WAMS for modern power grid including signal processing, communications and networking techniques in WAMS/WAMS applications.
Prerequisite: ECE 312 with a minimum grade of C and ECE 461 with a minimum grade of C.
Registration Information: Sections may be offered: Online.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 511  Global Navigation Satellite System Receivers  Credits: 3 (3-0-0)
Course Description: Fundamentals of global navigation satellite systems (GNSS) receivers and software-based implementation of GNSS receiver functions.
Prerequisite: ECE 312 with a minimum grade of C and ECE 411, may be taken concurrently.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 512  Digital Signal Processing  Credits: 3 (3-0-0)
Course Description: Discrete time signals and systems, digital filter design and implementation, fast algorithms, quantization effects.
Prerequisite: ECE 312 with a minimum grade of C.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 513  Digital Image Processing  Credits: 3 (3-0-0)
Course Description: Image acquisition and display systems, image enhancement, restoration and encoding, image analysis; real-life applications.
Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (ECE 312 with a minimum grade of C).
Registration Information: Sections may be offered: Online.
Term Offered: Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 514  Applications of Random Processes  Credits: 3 (3-0-0)
Course Description: Bit-error rates, signal-to-noise power ration, signal detection, signal estimation, Wiener filter, application.
Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (ECE 312 with a minimum grade of C).
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 515  Satellite Navigation Systems Engineering  Credits: 3 (3-0-0)
Course Description: Fundamentals of GPS, satellite orbits, ground monitoring and control, receiver systems, measurement errors and correction techniques, and position, velocity, and time calculations.
Prerequisite: (CS 163 with a minimum grade of C or CS 164 with a minimum grade of C) and (ECE 311 with a minimum grade of C and MATH 261 with a minimum grade of C and PH 142 with a minimum grade of C).
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 516  Information Theory  Credits: 3 (3-0-0)
Course Description: Information measures and their properties; lossless data compression; channel capacity; channel coding theorem; rate distortion theorem.
Prerequisite: (ECE 303 or STAT 303) and (ECE 421).
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 517  Advanced Optical Imaging  Credits: 3 (3-0-0)
Also Offered As: BIOM 517.
Course Description: Engineering design principles of advanced optical imaging techniques and image formation theory.
Prerequisite: ECE 342 or MATH 340 or MATH 345.
Registration Information: Credit allowed for only one of the following: BIOM 517, BIOM 581B7, ECE 517 or ECE 581B7.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.
ECE 518 Biophotonics Credits: 3 (3-0-0)
Also Offered As: BIOM 518.
Course Description: Engineering design principles of optical instrumentation for medical diagnostics. Light propagation and imaging in biological tissues.
Prerequisite: ECE 342 or ECE 457 or MATH 340 or MATH 345.
Registration Information: Credit allowed for only one of the following: BIOM 518, BIOM 581A9, ECE 518 or ECE 581A9.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 520 Optimization Methods-Control & Communication Credits: 3 (3-0-0)
Course Description: Linear and nonlinear optimization theory and methods; applications in systems, control, and communication.
Prerequisite: (MATH 229 or MATH 369) and (MATH 317).
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 521 Satellite Communication Credits: 3 (3-0-0)
Course Description: Principles of satellite communication systems engineering.
Prerequisite: ECE 421.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 526 Biological Physics Credits: 3 (3-0-0)
Also Offered As: BIOM 526.
Course Description: Mathematical and physical modeling of biological systems. Mass transport in cellular environments. Electrical/mechanical properties of biomolecules.
Prerequisite: (MATH 340 or MATH 345) and (PH 122 or PH 142).
Registration Information: Credit not allowed for both BIOM 526 and ECE 526. Sections may be offered: Online.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 527A Biosensing: Cells as Circuits Credit: 1 (1-0-0)
Also Offered As: BIOM 527A.
Course Description: Treatment of biological cells as circuits and their electrical time-dependent function and frequency-dependent impedance. Topics include the Hodgkin–Huxley circuit model, diffusion equation, and modeling action potential propagation.
Prerequisite: (BIOM 101 or LIFE 102) and (CHEM 111) and (MATH 340 or MATH 345) and (PH 142).
Registration Information: Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527A, BIOM 581B1, ECE 527A, or ECE 581B1.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 532 Dynamics of Complex Engineering Systems Credits: 3 (3-0-0)
Also Offered As: ENGR 532.
Course Description: Higher-level behavior and issues that emerge from interaction between components in complex socio-technical systems.
Prerequisite: ENGR 501, may be taken concurrently or ECE 501, may be taken concurrently.
Registration Information: Credit not allowed for both ECE 532 and ENGR 532. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 534 Analog Integrated Circuit Design Credits: 3 (3-0-0)
Course Description: Design methods for state-of-the-art analog integrated circuits including CMOS op-amps, comparators, and phase-locked loops.
Prerequisite: ECE 332 with a minimum grade of C.
Registration Information: Must have concurrent registration in ECE 535. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 535 Analog Integrated Circuit Laboratory Credit: 1 (0-2-0)
Course Description: Analog integrated circuits are designed and simulated using modern software tools.
Prerequisite: None.
Registration Information: Must have concurrent registration in ECE 534. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 536 RF Integrated Circuit Design Credits: 3 (3-0-0)
Course Description: Design of state-of-the-art ICs for RF applications including CMOS low-noise amplifiers, voltage-controlled oscillators, mixers and power amplifiers.
Prerequisite: ECE 332.
Registration Information: Sections may be offered: Online.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 537 Biomedical Signal Processing Credits: 3 (3-0-0)
Also Offered As: BIOM 537.
Course Description: Measuring, manipulating, and interpreting biomedical signals.
Prerequisite: MATH 340 or ECE 311 or STAT 303.
Registration Information: Credit not allowed for both ECE 537 and BIOM 537.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 538 Design/Analysis of Analog Digital Interface Credits: 4 (3-3-0)
Course Description: Topics of interface circuit designs analog and digital interfaces. Basic concept of designing and analyzing analog and digital interface circuits.
Prerequisite: ECE 312 with a minimum grade of C and ECE 332 with a minimum grade of C and ECE 451 with a minimum grade of C.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.
Grade Mode: Traditional.
Registration Information: Sections may be offered: Online.

ECE 540 Computational Electromagnetics Credits: 3 (3-0-0)
Course Description: Computational techniques for practical applications in electromagnetic fields, devices, scattering, propagation, and radiation.
Prerequisite: ECE 342.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 541 Applied Electromagnetics Credits: 3 (3-0-0)
Course Description: High- and low-frequency electromagnetics, wave propagation, radiation, and scattering, wireless and guided-wave systems, bioelectromagnetics.
Prerequisite: ECE 342.
Registration Information: Credit not allowed for both ECE 541 and ECE 580B5.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 542 Parallel CAD Algorithms for IC Design Credits: 3 (3-0-0)
Course Description: Cutting edge CAD paradigms for fast simulation of massively coupled circuits in nanoscale integrated circuits.
Prerequisite: ECE 311 with a minimum grade of C and ECE 331 with a minimum grade of C.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 543 Accelerator Engineering Credits: 3 (3-0-0)
Course Description: Development and uses of accelerators and storage rings. Principles of electric and magnetic fields used to bend, focus and accelerate charged particles.
Prerequisite: ECE 342 with a minimum grade of C or PH 351 with a minimum grade of C.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 546 Laser Fundamentals and Devices Credits: 3 (3-0-0)
Course Description: Amplification of light, laser excitation mechanisms, laser devices, characteristics and design.
Prerequisite: ECE 441.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 548 Microwave Theory and Component Design Credits: 3 (3-0-0)
Course Description: Fundamentals of microwave engineering, components, devices, and measurements.
Prerequisite: ECE 342 with a minimum grade of C.
Registration Information: Sections may be offered: Online.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 549 Radar Systems and Design Credits: 3 (3-0-0)
Course Description: Fundamental ideas of radar operation and basic design of various radar types including current topics.
Prerequisite: ECE 444.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 551 Microwave and Beam Instrumentation Lab Credits: 3 (2-3-0)
Course Description: Particle beam instrumentation, microwave measurements and magnetic measurements used in the design and diagnoses of charged particle beam accelerators.
Prerequisite: ECE 342 with a minimum grade of C or PH 351 with a minimum grade of C.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 552 Pulsed Power and Intense Beams Credits: 3 (3-0-0)
Course Description: Engineering concepts of high-power pulsed electronics and RF systems; how to produce and utilize intense beams. The conversion of electrical power.
Prerequisite: ECE 341 with a minimum grade of C or ECE 342 with a minimum grade of C or PH 351 with a minimum grade of C.
Registration Information: Sections may be offered: Online.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 554 Computer Architecture Credits: 3 (3-0-0)
Course Description: Fundamentals of computer design, multiprocessors and thread-level parallelism, storage systems, and interconnection networks and clusters.
Prerequisite: ECE 452 or CS 470.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 555 Advanced Robotics—Redundancy & Optimization Credits: 3 (3-0-0)
Course Description: Advanced analysis, design, and control of kinematically redundant articulated objects, including both robotic and biological systems.
Prerequisite: ECE 455 and MATH 369.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 560 Foundations of Fine-Grain Parallelism Credits: 4 (3-2-0)
Also Offered As: CS 560.
Course Description: Programming novel architectures; performance tuning; automatic parallelization; program transformation; polyhedral model; equational programming.
Prerequisite: CS 475.
Registration Information: Must register for lecture and laboratory. Credit not allowed for both ECE 560 and CS 560.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ECE 561 Hardware/Software Design of Embedded Systems  Credits: 4 (3-3-0)
Also Offered As: CS 561.
Course Description: Embedded systems design including system level modeling, design space exploration, hardware-software partitioning, high level synthesis.
Prerequisite: CS 270 or CS 470 or ECE 251 or ECE 452.
Registration Information: Must register for lecture and laboratory. Credit not allowed for both CS 561 and ECE 561. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 562 Power Electronics I Credits: 3 (3-0-0)
Course Description: Switch mode and resonant converters, control using switch averaged dynamic models, modeling of all circuit components including sources, loads, and switches.
Prerequisite: ECE 332 with a minimum grade of C.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 565 Electrical Power Engineering Credits: 3 (3-0-0)
Also Offered As: ENGR 565.
Course Description: Analysis of power systems in terms of current, voltage, and active/reactive power; introduction of computer-aided tools for power systems.
Prerequisite: ECE 332 and ECE 342.
Registration Information: Credit not allowed for both ECE 565 and ENGR 565. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 566 Grid Integration of Wind Energy Systems Credits: 3 (3-0-0)
Course Description: Aspects of integration of wind energy conversion systems (WECS) to electric power transmission grids.
Prerequisite: ECE 461 and ECE 462 or ECE 565.
Registration Information: Credit not allowed for both ECE 566 and ENGR 566. Sections may be offered: Online.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 569 Micro-Electro-Mechanical Devices Credits: 3 (3-0-0)
Also Offered As: MECH 569.
Course Description: Micro-electro-mechanical processes and applications in sensors, optics, and structures.
Prerequisite: ECE 331 with a minimum grade of C or MECH 344 with a minimum grade of C.
Registration Information: Credit not allowed for both ECE 569 and MECH 569. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 571 VLSI System Design Credits: 3 (3-0-0)
Course Description: Design of integrated circuits at the system level including cell design, digital systems, parallel architecture, systolic arrays.
Prerequisite: ECE 451.
Registration Information: Must have concurrent registration in ECE 575.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 572 Semiconductor Transistors Credit: 1 (1-0-0)
Course Description: Quantitative analysis of electric field, carrier and current distributions in MOSFETs and bipolar junction transistors; scaling, non-idealities.
Prerequisite: ECE 331 with a minimum grade of C and ECE 471B, may be taken concurrently.
Registration Information: This is a partial semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 573 Semiconductor Optoelectronics Laboratory Credits: 3 (1-4-0)
Course Description: Experimental characterization techniques for semiconductor optoelectronic devices and design and testing of related electronic circuits.
Prerequisite: ECE 471B.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 574 Optical Properties in Solids Credits: 3 (3-0-0)
Course Description: Light propagation and interaction with materials; linear and non-linear optical properties.
Prerequisite: ECE 441 with a minimum grade of C.
Registration Information: Sections may be offered: Online.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 575 Experiments in VLSI System Design I Credit: 1 (0-3-0)
Course Description: Set of labs designed to enhance students’ understanding of the materials in ECE 571.
Prerequisite: ECE 451.
Registration Information: Must have concurrent registration in ECE 571.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 577 Internship Credits: Var[1-6] (0-0-0)
Course Description: Internship experience in Electrical or Computer Engineering.
Prerequisite: ECE 312 or ECE 456.
Registration Information: Graduate standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.
ECE 604 Nonlinear Optics Credits: 3 (3-0-0)
Course Description: Principles of nonlinear optics, symmetry properties, multiple order nonlinear phenomenon, and nonlinear spectroscopy.
Prerequisite: ECE 504 and PH 451.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 611 Nonlinear Control Systems Credits: 3 (3-0-0)
Course Description: Controller analysis and design for nonlinear systems.
Prerequisite: ECE 412.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 612 Robust Control Systems Credits: 3 (3-0-0)
Course Description: Introduction to modern robust control theory techniques for analysis and design of large-scale uncertain multivariable systems.
Prerequisite: ECE 411.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 614 Principles of Digital Communications Credits: 3 (3-0-0)
Course Description: Information theory, optimal receiver design, waveform coding, error correcting coding.
Prerequisite: ECE 514.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 622 Energy Networks and Power Distribution Grids Credits: 3 (3-0-0)
Also Offered As: ENGR 622.
Course Description: Energy networks: generation, storage, consumers. Systems approach to analysis of distribution networks and transition to intelligent grid systems.
Prerequisite: ECE 461 or ECE 508 or ENGR 508 or ECE 565 or ENGR 565.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both ECE 622 and ENGR 622. Sections may be offered: Online.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 623 Electric Power Quality Credits: 3 (3-0-0)
Also Offered As: ENGR 623.
Course Description: Interconnecting power electronic devices and renewable energy sources to power systems.
Prerequisite: ECE 461 or ECE 562.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online. Credit not allowed for both ECE 623 and ENGR 623.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 641 Electromagnetics Credits: 3 (3-0-0)
Course Description: Electrostatics, magnetostatics, boundary value problems, EM induction, quasi-statics, Maxwell's equations.
Prerequisite: ECE 342.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 642 Time Harmonic Electromagnetics Credits: 3 (3-0-0)
Course Description: Maxwell's equations, radiation, boundary value problem, dyadic Green's functions, scattering theory.
Prerequisite: ECE 641.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 643 Advanced Accelerator Engineering Credits: 3 (3-0-0)
Course Description: Advanced concepts in particle beam accelerator technology and engineering, linear accelerators and principles of intense pulsed electron ion beams.
Prerequisite: ECE 543 with a minimum grade of C.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 647 Synchrotron Rad, FELs and Hard X-Ray Optics Credits: 3 (3-0-0)
Course Description: Advanced concepts in particle beam accelerator technology and engineering, linear accelerators and principles of intense pulsed electron ion beams.
Prerequisite: ECE 341 with a minimum grade of C or ECE 342 with a minimum grade of C or PH 351 with a minimum grade of C.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 650 Extreme Ultraviolet and Soft X-Ray Radiation Credits: 3 (3-0-0)
Course Description: Fundamental principles of short wavelength electromagnetic radiation.
Prerequisite: ECE 342.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 652 Estimation and Filtering Theory Credits: 3 (3-0-0)
Course Description: Linear and Nonlinear parameter and state estimation methods; Optimal Kalman state estimation and applications.
Prerequisite: ECE 514 or STAT 525.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
ECE 653 Detection Theory Credits: 3 (3-0-0)
Course Description: Neyman-Pearson and Bayes detectors and properties, matched filter and matched subspace detectors, distributed detection, and applications.
Prerequisite: ECE 652.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both ECE 651 and ECE 653.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 656 Machine Learning and Adaptive Systems Credits: 3 (3-0-0)
Course Description: Adaptive system theory, statistical pattern recognition, supervised and unsupervised learning, support vector machines, manifold learning, applications.
Prerequisite: ECE 512.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 658 Internet Engineering Credits: 4 (3-3-0)
Also Offered As: CS 658.
Course Description: Link technologies, multiple access, hardware and software for internetworks routing, switching flow control, multicast, performance, and applications.
Prerequisite: ECE 456 or CS 457.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory.
Sections may be offered: Online. Credit not allowed for both ECE 658 and CS 658.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 661 Advanced Topics in Embedded Systems Credits: 4 (3-3-0)
Course Description: Embedded systems design: networks on chip, novel memory architectures, synthesis algorithms, optimization for low power, fault tolerance, security.
Prerequisite: (ECE 452) and (ECE 561 or CS 561).
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory.
Sections may be offered: Online.
Term Offered: Spring (every third year).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 666 Topics in Robotics Credits: 3 (3-0-0)
Course Description: Recent advances in robotics, automation, and intelligent systems.
Prerequisite: ECE 455.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 667 Topics in Architecture/Systems Credits: 4 (3-3-0)
Course Description: Microstructures of physically vapor-deposited films; thin-film morphological development; atomistic processes of condensation, nucleation, and growth.
Prerequisite: CHEM 474 or CHEM 476 or MECH 337 or PH 361 or PH 531.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

Also Offered As: CS 670B.
Course Description:
Prerequisite: ECE 554 or CS 570.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both ECE 670B and CS 670B.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 670C Topics in Architecture/Systems: Distributed Systems Credits: Var[1-4] (0-0-0)
Also Offered As: CS 670C.
Course Description:
Prerequisite: ECE 554 or CS 570.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both ECE 670C and CS 670C.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

Also Offered As: CS 670D.
Course Description:
Prerequisite: ECE 554 or CS 570.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both ECE 670D and CS 670D.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECE 673 Thin Film Growth Credits: 3 (3-0-0)
Course Description: Microstructures of physically vapor-deposited films; thin-film morphological development; atomistic processes of condensation, nucleation, and growth.
Prerequisite: CHEM 474 or CHEM 476 or MECH 337 or PH 361 or PH 531.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ECE 695 Independent Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ECE 697 Group Study Credits: Var[1-6] (0-0-0)
Also Offered As: ENGR 697.
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both ECE 697 and ENGR 697.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
ECE 699 Thesis Credits: Var[1-18] (0-0-0)
Course Description: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: None.
ECE 742 Topics in Electromagnetics Credits: 3 (3-0-0)
Course Description: Applications of wave propagation and scattering to microwave radar, Doppler radar, meteorological radar applications.
Prerequisite: ECE 641.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: None.
ECE 777 X-Ray Lasers Credits: 3 (3-0-0)
Course Description: Fundamentals, design, and implementation of soft X-ray lasers and X-ray optics.
Prerequisite: ECE 546.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: None.
ECE 795 Independent Study Credits: Var[1-18] (0-0-0)
Course Description: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: None.
ECE 799 Dissertation Credits: Var[1-18] (0-0-0)
Course Description: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: None.

Major in Computer Engineering

Imagine a world without smart phones, video games, or 3D printing. Such advancements would not be possible without computer engineers. Computer Engineering students are prepared for success in today's high-tech world through stimulating coursework and unique hands-on design projects. They will learn a new way of thinking that teaches the importance of creativity and innovation in solving complex societal problems.

The Computer Engineering degree combines many aspects of electrical engineering and computer science, arming students with the knowledge to continually push the capabilities and applicability of next generation electronics and computing.

Computer Engineering students will experience the benefits of a smaller department with top-tier faculty, while enjoying the perks of a large university. Electrical and Computer Engineering (ECE) courses and research areas span a range of disciplines that include:

- Biomedical Engineering
- Communications and Signal Processing
- Computer Engineering
- Controls and Robotics
- Electric Power and Energy Systems
- Electromagnetics and Remote Sensing
- Lasers, Optics, and Applications

Career Opportunities

A field of endless possibilities, career paths for computer engineers are largely dependent on personal interests. Computer Engineering alumni hold positions ranging from designer at a start-up company to program manager for NASA. In addition to being one of the most lucrative college majors, Computer Engineering currently ranks among the top 10 majors in demand for bachelor's, master's, and doctoral degrees according to the National Association of Colleges and Employers. Almost every industry recruits Computer Engineering graduates, including the aerospace, biomedical, energy, robotics, manufacturing, and automotive industries.

Program Objectives and Outcomes

The Computer Engineering program educational objectives are designed and implemented around the following three principal attributes: mastery, innovation, and leadership.

Graduates of the Computer Engineering program will be able to:

- Apply knowledge of mathematics, science, and engineering
- Design and conduct experiments; analyze and interpret data
- Design a system, component, or process to meet desired needs within realistic constraints
- Function on multidisciplinary teams
- Identify, formulate, and solve engineering problems
- Understand professional and ethical responsibility
- Communicate effectively
- Use broad education necessary to understand the impact of engineering solutions in a global context
- Recognize the need for life-long learning
- Apply knowledge of contemporary issues
- Use the techniques, skills, and modern engineering tools necessary for engineering

Requirements

Effective Fall 2018

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with his or her advisor to correct grade point deficiencies. In addition, it is required
that students retake any Electrical Engineering course at the 300-level or below in which they receive a grade below C.

1. Students are required to complete three Career Development Seminars: 1) Resume Writing; 2) Mock Interview or Behavior Based Interviewing; and 3) Using LinkedIn™. Completion of the required workshops may be spread over the student’s four-year program.
2. MATH 369 is recommended for students interested in the Mathematics minor.
3. CS 320 (followed by CS 453 in the senior year) is recommended for students interested in specializing in computer system design.
4. ECE 332 is recommended for students interested in specializing in VLSI.
5. Free elective credits can be satisfied by completing courses 100 level or above. Students use up to 3 credits of free electives to reach the required total of 129 program credits.
6. CS 320 may count as a Technical Elective ONLY when ECE 332 is also taken. ECE 332 will be applied toward junior year requirement. The course cannot count as credit toward both requirements.
7. CS 453 is recommended as one of the electives for students interested in specializing in computer system design.
8. A total 3 credits of Independent Study may apply toward total degree requirements. This includes credit awarded for ECE 395A, ECE 395B, ECE 395C and ECE 495A, ECE 495B, ECE 495C combined.

### Major Completion Map

#### Distinctive Requirements for Degree Program:

**TO PREPARE FOR FIRST SEMESTER:** The curriculum for this major assumes students enter college prepared to take calculus.

The ECE curriculum has been modified as part of the Revolutionizing Engineering Departments initiative (RED). Three threads run through the new curriculum: Foundations, Creativity and Professional Formation of Engineers. This new curriculum incorporates skills that engineers need beyond technical expertise, in areas like communication, ethics, social impact and interaction in large, diverse groups. The ECE department requires that students also complete the following three Career Development Seminars: 1) Resume Writing; 2) Mock Interviewing or Behavior Based Interviewing; and 3) Using LinkedIn™.

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering (ECE) courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with his or her advisor to correct grade point deficiencies. In addition, it is required that students retake any Electrical Engineering (ECE) course at the 300-level or below in which they receive a grade below C.

Major in Electrical Engineering

From Global Positioning Systems to electric power generation, for more than a century electrical engineers have contributed to the development of a wide array of new technologies. Electrical engineers design, develop, test, and supervise the deployment of electrical systems and electronic devices for a range of industries.

Students choose between two concentrations. The Electrical Engineering concentration covers a broad range of electrical engineering subdisciplines and allows a student to focus on their particular area of interest using technical electives. Lasers and Optical Engineering focuses on optics and waves, optical electronics, optical information processing, and communications.

Concentrations

- Electrical Engineering Concentration
- Lasers and Optical Engineering Concentration

Major in Electrical Engineering, Electrical Engineering Concentration

Imagine a world without smart phones, video games, or 3D printing. Such advancements would not be possible without electrical engineers. Electrical Engineering students are prepared for success in today’s high-tech world through stimulating coursework and unique hands-on design projects. They will learn a new way of thinking that teaches the importance of creativity and innovation in solving complex societal problems.

Electrical engineers are the people who make the magic happen inside modern technologies. From self-driving cars to Fitbits to Global Positioning Systems, Electrical Engineering graduates turn ideas into reality.

Electrical Engineering students will experience the benefits of a smaller department with top-tier faculty, while enjoying the perks of a large university. Electrical and Computer Engineering (ECE) courses and research areas span a range of disciplines that include:

- Biomedical Engineering
- Communications and Signal Processing
- Computer Engineering
- Controls and Robotics
- Electric Power and Energy Systems
- Electromagnetics and Remote Sensing
- Lasers, Optics, and Applications

Career Opportunities

A field of endless possibilities, electrical engineering career paths are largely dependent on personal interests. Electrical Engineering alumni hold positions ranging from designer at a start-up company to program manager for NASA. In addition to being one of the most lucrative college majors, for the past decade Electrical Engineering ranks among the top 10 majors in demand for bachelor’s, master’s, and doctoral degrees, according to the National Association of Colleges and Employers. Almost every industry recruits Electrical Engineering graduates, including the aerospace, biomedical, energy, robotics, manufacturing, and automotive industries.

Program Objectives and Outcomes

The Electrical Engineering program educational objectives are designed and implemented around the following three principal attributes: mastery, innovation, and leadership.
Graduates of the Electrical Engineering program will be able to:

- Apply knowledge of mathematics, science, and engineering
- Design and conduct experiments; analyze and interpret data
- Design a system, component, or process to meet desired needs within realistic constraints
- Function on multidisciplinary teams
- Identify, formulate, and solve engineering problems
- Understand professional and ethical responsibility
- Communicate effectively
- Use broad education necessary to understand the impact of engineering solutions in a global context
- Recognize the need for life-long learning
- Apply knowledge of contemporary issues

- Use the techniques, skills, and modern engineering tools necessary for engineering

Requirements
Effective Fall 2018

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in ECE courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with his or her advisor to correct grade point deficiencies. In addition, it is required that students retake any Electrical Engineering course at the 300-level or below in which they receive a grade below a C.

---

1. CS 155, CS 156, and CS 157 count as Science/Math/Engineering electives ONLY when CS 163 or CS 164 is also taken. CS 163 or CS 164 will be applied toward the freshman year requirement.

2. Free elective credits can be satisfied by completing courses 100-level or above. Students use up to 4 credits of free electives to reach the required total of 129 program credits.

3. Students are required to complete three Career Development Seminars: 1) Resume Writing; 2) Mock Interview or Behavior Based Interviewing; and 3) Using LinkedIn™. Completion of the required workshops may be spread over the student’s four-year program.

4. A total of 6 credits of Independent Study may apply toward degree requirements. This includes credit for ECE 395A, ECE 395B, ECE 395C and ECE 495A, ECE 495B, and ECE 495C combined.

**Major Completion Map**

**Distinctive Requirements for Degree Program:**

**TO PREPARE FOR FIRST SEMESTER:** The curriculum for this major assumes students enter college prepared to take calculus.

The ECE curriculum has been modified as part of the Revolutionizing Engineering Departments initiative (RED). Three threads run through the new curriculum: Foundations, Creativity and Professional Formation of Engineers. This new curriculum incorporates skills that engineers need beyond technical expertise, in areas like communication, ethics, social impact and interaction in large, diverse groups. The ECE department requires that students also complete the following three Career Development Seminars: 1) Resume Writing; 2) Mock Interviewing or Behavior Based Interviewing; and 3) Using LinkedIn™.

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in electrical engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, it is required that students retake any electrical engineering course at the 300-level or below in which they receive a grade below C.

Major in Electrical Engineering, Lasers and Optical Engineering Concentration

From cancer detection to faster computing, lasers and optics improve today's world every day. Electrical engineering students are prepared for success in today's high-tech world through stimulating coursework and unique hands-on projects. They will learn a new way of thinking that teaches the importance of creativity and innovation in solving complex societal problems.

Lasers and Optics students will experience the benefits of a smaller department with top-tier faculty, while enjoying the perks of a large university. Electrical and computer engineering (ECE) courses and research span a range of disciplines that include:

- Biomedical Engineering
- Communications and Signal Processing
- Computer Engineering
- Controls and Robotics
- Electric Power and Energy Systems
- Electromagnetics and Remote Sensing
- Lasers, Optics, and Applications

Career Opportunities

A field of endless possibilities, electrical engineering career paths are largely dependent on personal interests. Electrical engineering alumni hold positions ranging from a designer at a start-up company to a research scientist for the U.S. Naval Research Laboratory. In addition to being one of the most lucrative college majors, for the past decade electrical engineering has ranked among the top 10 majors in demand for bachelor's, master's, and doctoral degrees, according to the National Association of Colleges and Employers. Almost every industry recruits electrical engineering graduates, such as aerospace, biomedical, energy, robotics, manufacturing, and automotive.

Program Objectives and Outcomes

The ECE program educational objectives are designed and implemented around the following three principal attributes: mastery, innovation, and leadership.

Graduates of the ECE program will be able to:

- Apply knowledge of mathematics, science, and engineering
- Design and conduct experiments; analyze and interpret data
- Design a system, component, or process to meet desired needs within realistic constraints
- Function on multidisciplinary teams
- Identify, formulate, and solve engineering problems
- Understand professional and ethical responsibility
- Communicate effectively
- Use broad education necessary to understand the impact of engineering solutions in a global context
- Recognize the need for life-long learning
- Apply knowledge of contemporary issues
- Use the techniques, skills, and modern engineering tools necessary for engineering

Requirements

Effective Fall 2018

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with his or her advisor to correct grade point deficiencies. In addition, it is required that students retake any Electrical Engineering course at the 300 level or below in which they receive a grade below a C.

1. CS 155, CS 156, and CS 157 count as Science/Math/Engineering electives ONLY when CS 163 or CS 164 is also taken. CS 163 or CS 164 will be applied to the freshman year selection requirement.
2. Students are required to complete three Career Development Seminars: 1) Resume Writing; 2) Mock Interview or Behavior Based Interviewing; and 3) Using LinkedIn®. Completion of the required workshops may be spread over the student’s four-year program.
3. Project must be a laser and optical engineering topic.
4. A total 3 credits of Independent Study may apply toward the total degree requirements. This includes credit awarded for ECE 395A, ECE 395B, ECE 395C and ECE 495A, ECE 495B, ECE 495C combined.
**Major Completion Map**

**TO PREPARE FOR FIRST SEMESTER:** The curriculum for this major assumes students enter college prepared to take calculus.

The ECE curriculum has been modified as part of the Revolutionizing Engineering Departments initiative (RED). Three threads run through the new curriculum: Foundations, Creativity and Professional Formation of Engineers. This new curriculum incorporates skills that engineers need beyond technical expertise, in areas like communication, ethics, social impact and interaction in large, diverse groups. The ECE department requires that students also complete the following three Career Development Seminars: 1) Resume Writing; 2) Mock Interviewing or Behavior Based Interviewing; and 3) Using LinkedIn™.

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in electrical engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, it is required that students retake any electrical engineering course at the 300-level or below in which they receive a grade below C.

## Graduate Certificate in Computer Systems Engineering

The Computer Systems Engineering graduate certificate is designed for students and professionals seeking knowledge and skills in state-of-the-art parallel hardware architectures, parallel software programming, algorithms, and networking technologies. Students stay current on rapidly advancing technology and learn to problem-solve for future challenges.

### Effective Fall 2016

Additional coursework may be required due to prerequisites.

---

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.*
Graduate Certificate in Embedded Systems

The Embedded Systems graduate certificate provides an introduction to embedded systems, including hardware design and software engineering principles. Students learn to apply electrical engineering, computer engineering, and computer science principles in real-world embedded platforms.

Effective Fall 2016

Additional coursework may be required due to prerequisites.

1 At least one ECE course is required.

Graduate Certificate in Power and Energy

Students pursuing the Graduate Certificate in Power and Energy gain skills to create modern solutions for the world's mounting energy needs. With the rise of electric vehicles, more ubiquitous personal technologies, and demand for renewable energy sources, the electric grid as it stands is not equipped to meet 21st century requirements. Much of the power and energy workforce will be retiring in the coming years; as such, the time is ripe to update your knowledge to be more competitive among the next generation of professionals, and help usher in a modern, secure, energy-smart grid.

Effective Fall 2016

Additional coursework may be required due to prerequisites.

1 Select courses with approval of advisor and graduate committee. Courses not accepted as regular include all courses ending in the range -82 through -99.

2 A maximum of 6 credits of 400-level undergraduate courses can be used toward the degree. Up to 8 credits at the 400-level are permitted when at least one course is a 4 credit course. Remaining credits must be in 500-level or higher courses.

Master of Science in Computer Engineering, Plan A

The Master of Science in Computer Engineering will produce professionals capable of applying in-depth knowledge, creativity, and research experience to analyze, design, develop, and improve computer systems in technically demanding careers. Students pursuing the M.S. Plan A degree in computer engineering will complete a research-orientated plan of study involving a thesis and coursework. Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin and the website for the Electrical and Computer Engineering Department (http://www.engr.colostate.edu/ece).

Master of Science in Electrical Engineering, Plan A

Arthur C. Clark said, "Any sufficiently advanced technology is indistinguishable from magic." The Master of Science in Electrical Engineering produces leaders who make the magic happen in our modern world. From electric cars to smartphones to Global Positioning Systems, our graduates turn ideas into reality.

This program creates professionals with depth and breadth of knowledge, as well as the skills and mindset to continue to evolve and grow in a constantly changing high-tech environment. Offering a highly customizable curriculum, this program specializes in the following focus areas: biomedical engineering, communications and signal processing, computer engineering, controls and robotics, electric power and energy systems, electromagnetics and remote sensing, and lasers, optics, and applications.

Master of Engineering, Plan C, Computer Engineering Specialization

The Master of Engineering, Plan C, Computer Engineering specialization will produce professionals with broad engineering backgrounds who are capable of applying in-depth knowledge and creativity to analyze, design, develop, and improve computer systems in technically demanding careers. Students will have flexibility to develop a plan of study in their area of interest. Students interested in graduate work should refer to CSU’s Graduate and Professional Bulletin (http://catalog.colostate.edu/general-catalog/graduate-bulletin) and the website for the Electrical and Computer Engineering Department (http://www.engr.colostate.edu/ece).

Master of Engineering, Plan C, Electrical Engineering Specialization

The Master of Engineering, Plan C, Electrical Engineering Specialization focuses on enhancing the expertise of working electrical engineering
professionals. Engineers who want to further their careers with engineering related firms and governmental agencies should consider this degree. Students will have flexibility to develop a plan of study in their area of interest. Students interested in graduate work should refer to CSU’s Graduate and Professional Bulletin (http://catalog.colostate.edu/general-catalog/graduate-bulletin) and the website for the Electrical and Computer Engineering Department (http://www.engr.colostate.edu/ece).
