This agreement identifies community college courses that will apply to the baccalaureate degree.

If you plan to complete this bachelor's degree, recognize that:
1. You should transfer into the bachelor’s program after you take the courses outlined below. Transfer hours beyond the credits below are not guaranteed to apply toward the bachelor’s degree.
2. It is imperative that you contact an advisor at the 4-year institution by the end of the first semester to clarify course work appropriate for this major and to identify the community college courses and GPA necessary to meet admission requirements to both the 4-year institution and the degree program.
3. This Transfer Guide does not supplant any other transfer agreement your Colorado community college may have with this 4-year institution.

Transfer Recommendations: To graduate in a 4 year overall time frame, it is important that students follow the recommended schedule below. Students who wish to continue their education at the community college beyond the number of credits specified below should explore with both 2-yr and 4-yr advisors how their graduation timeline, COF stipend, and financial aid will be affected.

Guarantees and Limitations: Students:
- are responsible for meeting all admission requirements at the 4-year institution;
- are not guaranteed admission to the bachelor’s degree program at the 4-year institution;
- are guaranteed, once admitted, application of the transfer hours below to either lower division general education, course work required for the major, or elective credit;
- must consult with the 4-year institution’s bachelor’s degree program to utilize AP, IB, or CLEP credits;
- must consult with the 4-year institution’s bachelor’s degree program for transferability of course work credits beyond those prescribed below as additional courses are major specific and the 4-year institution may restrict the number of community college transfer credits.

Please note that this curriculum neither fulfills the gtPathways general education curriculum nor the associate degree requirements at the community college.

   or SOC 100 |

\(^2\) – If you are interested in Pre-Med then you will need to take both PSY 101 and SOC 101.  
\(^3\) – If you are interested in completing an AA/AS degree you will need to take a Communication Course to fulfill your Gen Ed Requirements.
Special Program Notes:

Biomedical Sciences is a Competitive Major with an Enrollment Limit for admissions. This means the major has more competitive admission requirements such as a higher GPA, higher test score, and/or additional course work as well as limits on the number of students and are limited as to how many applicants they take in a semester.

It is possible for Biomedical Sciences to reach its enrollment limit prior to the application deadline, so early application is strongly encouraged. After the enrollment limit is reached, admitted students who meet the more competitive entrance requirements can request to be placed on a waitlist to be considered for Biomedical Sciences if additional space becomes available. Details about the waitlist process are emailed to eligible students within the first week after the decision has been rendered.

Due to the competitive nature of this major students are prompted to choose a second choice at the time of application. The following is a list of additional CSU majors that align with this program and which students may want to consider as a possible second choice:

- Biology
- Biochemistry
- Microbiology
- Environmental Health

---

Students transferring from community college should refer to the published admissions standards at: [http://admissions.colostate.edu/competitive-majors/](http://admissions.colostate.edu/competitive-majors/)

Transfer Students must have:

1. A cumulative GPA of 3.300 or higher (4.000 scale) **AND**
2. Grades of B or better in:
   - One semester of Biology/Lab (equivalent to LIFE 102: Attributes of Living Systems/Lab) **AND**
   - One semester of Chemistry/Lab (equivalent to CHEM 111/112: General Chemistry I/Lab)

---

Transfer Disputes

If disagreement regarding the transferability of credits for coursework or a degree occurs between a student and a receiving two-year or four-year institution, the Department will facilitate an expeditious review and resolution of the matter pursuant to Commission Policy, Section I, Part T: Student Complaint Policy. For more information, contact the Department at 303-866-2723 or file a complaint at [http://highered.colorado.gov/Academics/Complaints/default.html](http://highered.colorado.gov/Academics/Complaints/default.html)
