Do you have an advisee who will be attending the Spring 2022 Semester at Sea Voyage?

Spring 2022 Semester at Sea course registration began on September 28th.

Unique to Spring 2022, CSU students will be able to also register for on campus courses while they finalize their plans for the spring. This will be available starting the first day their current class level has access to registration.

Students attending the Spring 2022 voyage will be able to register for their Fall 2022 classes while on board, so when you meet with your students, it may be worth discussing both voyage classes and their future term’s schedule.

These students will also have Registration Access times that will look different from what you’re used to. Don’t be alarmed! They will return to their normal access times for Fall 2022 registration.

Census Counts

Census numbers are in. CSU’s enrollment as of September 8th landed at 32,908 students. 25,362 of those students are undergraduate students, and 5,107 of the undergraduate students are new students.

The Office of the Registrar and COVID-19

The Office of the Registrar is open for in-person service! We will continue to provide contact methods through the following ways to provide accessible service:

- Drop In Hours: Monday - Friday, 9 am to 5 pm MT
- Phone: (970) 491-4860
- Email: registrarsoffice@colostate.edu.
- Zoom Consultations: Zoom consultations are available for students to schedule. Have them email the office directly to do so.

If a student you know has missed the S/U grade request formal deadline, they can still email our office to request S/U grading, or a reversal of a previous request, for classes taken in Spring 2020, Fall 2020, Spring 2021, and Summer 2021.

Refer to our COVID webpage on our website for more Registrar specific information. For university-wide information and updated academic policy changes, refer to CSU’s COVID page.

Changes are Coming!

We are working on an electronic solution for the change of major/minor/concentration/certificate process which will replace the need for a paper/emails form.

We will announce its release as soon as we can. If you want a sneak peek of the tool, email the Office of the Registrar.

Voter Registration in Registration Ready

Per Colorado Legislation, institutions of higher education in Colorado are required to present information each semester to students about the opportunity to register to vote! As a result of that, there is a new task for all students to complete in Registration Ready called, “Voter Registration.” Through this, students can become a Colorado Registered Voter and learn more about their right to vote.
CSU Pueblo is Live in Banner

As some of you may know, the CSU System prioritized the Joint Banner Project (JBP), a project to get CSU Pueblo off their homegrown student information system and into our student information system, Banner. The Office of the Registrar was heavily involved in this effort. Two and a half years later, CSU Pueblo is LIVE in Banner!

We will continue to support CSU Pueblo through the following areas:

- **Testing System Upgrades** – provide overall coordination of testing efforts, engage with eCommunities boards to research how other institutions have responded to issues, and submit tickets to vendor if something is not working.
- **Addressing Issues in Production** – provide 2nd tier Student Information System (SIS) support for CSU Pueblo and coach Pueblo Registrar staff on reporting system issues.
- **Security/Access Management** – coordinate Banner security and access management for the whole CSU System. Establish and apply fine grain access control, data masking, and tab level to security to protect student data.

Does the program you advise require a concentration for graduation?

We’re excited to announce you now have access to a report to find students in your major who are missing a required concentration.

ARIESweb > Department-Specific Data > Department Reports > Enter Fall 2021, Undergrad, and select your Department > Select the “Concentrations Needed (Majors Requiring Conc. for Graduation)” report. This will be available throughout the advising and registration season so you can submit a change of major form for students as needed.

Look for more information in our email communication sent in late September! For questions, email the Office of the Registrar.

CSU Official Transcript Changes

We’re excited to announce that a new version of the Official Transcript is now available! Highlights of the latest version include:

- One column instead of two columns
- Last 4 of SSN no longer at the top
- W, AU, and Repeat/Delete (original attempt) grades will have parenthesis around the credits
- Running cumulative GPA displayed for each term
- Primary majors for degree-seeking students will appear for each term
- All degrees now display at the top of the transcript together rather than with each corresponding student level
- Transfer institutions with zero accepted credits will no longer be displayed
- Class level will only be displayed for Graduate and Professional level students (ex: Masters, Doctoral, and Professional Level 1)

Email the Office of the Registrar with any questions about the transcript changes.

Staff Spotlight – Meet Kiernan!

Kiernan, a proud alum of CSU’s College of Business, is a Customer Service Specialist at the Office of the Registrar and excited to be helping fellow Rams and the CSU community. Kiernan, being regularly involved with theatre productions at CSU, also got a minor in performance, and their passion for the arts has persisted.

In their free time, Kiernan still enjoys playing make-believe in everything from stage productions, films and commercials, to crafting fantastical narratives for others to enjoy in tabletop roleplaying games.

Always happy to lend their creativity or just nerd-out in general, Kiernan hopes they can help make everyone’s day here a little brighter.
