Major in Interdisciplinary Liberal Arts

Interdisciplinary Liberal Arts
Clark Building, Room A-73
(970) 491-5421
libartsmajor.colostate.edu (http://libartsmajor.colostate.edu)

Kevin Foskin, Director

The Major in Interdisciplinary Liberal Arts is a B.A. degree program combining humanities, arts, languages, performance, media, communication, literature, and social sciences so as to foster interdisciplinary knowledge, core career competencies, personal development, professional expertise, interpersonal confidence, and a richer understanding of the complex world in which we live. Students create their own program of study, choosing courses within the College of Liberal Arts based upon their academic interests, personal curiosity, and future career goals.

To further increase depth and focus, and to enhance expertise and career opportunities, Interdisciplinary Liberal Arts students are required to complete a second field of study, which can be any minor, or a second major, or 21 credits in a Foreign Language.

Learning Outcomes

Students will demonstrate the following skills:

- Writing effectively about the knowledge and perspectives of their field of study, including
  a. organization in a manner that aids the readers’ comprehension as well as the writer’s purpose;
  b. use of accepted grammatical form, spelling, and punctuation;
  c. use of language in a style that is appropriate to the writer’s purpose;
  d. effective support of claims; and
  e. clear citation of information sources.

- Speaking effectively, including
  a. creation of a logically constructed message;
  b. adaptation of that message to a particular audience;
  c. use of accepted grammatical forms of standard American English dialect;

LARA 200 must be completed by the end of Semester 5.

Program Total Credits: 120
Accelerated Program

The major in Interdisciplinary Liberal Arts includes an accelerated program option (https://provost.colostate.edu/accelerated-programs/)

Effective Fall 2018

Second Field Requirement

Students in the Interdisciplinary Liberal Arts major must complete one of the following choices:

- A minor
- An interdisciplinary minor
- A second major
- 21 credits in a single language to include at least 6 upper-division (300- to 400-level) credits. At least 6 upper-division credits in this choice must be completed at CSU. (Completion of this choice is not transcripted.)

Requirements

for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (https://summer.colostate.edu/acceleratedprograms/). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (https://provost.colostate.edu/accelerated-programs/).

Potential Occupations

Graduates in Interdisciplinary Liberal Arts apply their education in a wide variety of careers and/or academic professions, including public policy, politics, healthcare, artistic production, mass media, engineering, law, city planning, business, information systems, international business, journalism, publishing, education, sales and marketing, management and administration, government, communications, museum work, entertainment, foreign service, and many others. Many also continue on to graduate or professional schools for more specialized study. To enhance their career, academic or professional opportunities, the Interdisciplinary Liberal Arts majors can take advantage of the widest variety of internships, professional practicums, and/or study abroad opportunities of any undergraduate degree on campus.

### Master of Public Policy Administration, Plan C (M.P.P.A.)

Grades of the Master of Public Policy Administration, Plan C (M.P.P.A.) program become mid-to-high level public servants in local, state, and federal government positions as well as mid-to-high level leaders in
domestic and global public service organizations. Alongside a core curriculum that includes courses like civic engagement, program evaluation, and public budgeting, students specialize in public policy, public management, or international policy and management to further refine their skills and prepare them for the future. Classes are held on weeknights on the Fort Collins campus to enable working professionals to complete the degree in as few as 4 semesters. Service learning, internships, and theory-practice linkages are emphasized throughout the program to prepare students to be highly qualified public servants. The program website can be viewed at this link: mppa.colostate.edu (https://www.libarts.colostate.edu/students/graduate-programs/master-of-public-policy-and-administration/).

Program Level Learning Objectives

- Understand, articulate, and exemplify the ethics, values, responsibilities, obligations, and social roles of a member of the public service profession.
- Identify and apply economic, legal, political, social, and ethical theories and frameworks to the practice of public service leadership, management, and policy.
- Identify and apply organizational theories and frameworks to the practice of public service leadership, management, and policy.
- Respond to and engage collaboratively with diverse stakeholders and communities to address challenges in the public interest.
- Understand the complexities of public policy design, implementation, and assessment.
- Employ appropriate methodologies and techniques to investigate, monitor, and manage human, fiscal, technological, information, physical, and other resource use.
- Conceptualize, analyze, and develop creative and collaborative solutions to challenges in public policy, leadership, and management.
- Assess challenges and explore solutions to advance cross-sectoral and inter-jurisdictional cooperation in public programs and services.
- Develop and demonstrate verbal and written communication skills as a professional and through interpersonal interactions in groups and in society.
- Reflect critically about emerging issues concerning public service management and policy.

#### Graduate Programs in Anthropology

The department offers graduate programs leading to a Master of Arts degree (Plan A thesis option or Plan B portfolio option). It also has a Master of Arts specialization in each of four programmatic areas: Health and Well-Being, Humans and the Environment, International Development and Globalization, and Professional Methods and Techniques. Students may develop a research project or professional program in these programmatic areas, or in any area related to our faculty's research interests.

**Health and Well-Being**—studies the ways that human health and wellness are influenced by past and present sociocultural, environmental,
biological, and biocultural forces, by drawing from broad and holistic perspectives on human well-being.

**Humans and the Environment**—investigates how past and present human activities influence the environment; the ways ecological and other processes affect human evolution and the human condition today; and the resilience of social and ecological systems.

**International Development and Globalization**—examines how local societies respond to global influences; the extent to which cultural meanings, beliefs, institutions, structures of inequality, and social relations between genders and among kin are changing as a result; and how processes of economic and community development can improve basic aspects of human welfare.

**Professional Methods and Techniques**—develops skills in a wide range of methods and techniques used by professionals in applied anthropology, federal and state natural resource agencies, and other arenas of social, historical, biological and spatial research about humans. These include qualitative research and interview protocols, quantitative analysis, GIS and remote sensing, archaeological field survey, historic archaeological methods, culture and heritage resource management, and paleoanthropological methods.

Students interested in graduate work should refer to the Graduate and Professional Bulletin, and the department’s website (http://anthropology.colostate.edu/).

ANTH 150  Imagining Sustainability  Credits: 3 (3-0-0)
Also Offered As: ESS 150.

Course Description: Science alone cannot imagine the revolutionary changes necessary to sustain future life on our planet. Explore key concepts and practices of sustainability as represented in contemporary fiction, film, and the news media. Interdisciplinary approach will be anthropological and historical, charting the development of sustainability thinking through different epochs of capitalism.
Prerequisite: None.
Registration Information: Credit allowed for only one of the following: ANTH 150, ANTH 181A1, ESS 150, or ESS 181A1.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 200  Cultures and the Global System (GT-SS3)  Credits: 3 (3-0-0)
Course Description: Analyze diversity of smaller-scale societies, and cultural responses and adaptations to emerging global trends.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 225  Anthropology of the Arts  Credits: 3 (3-0-0)
Course Description: Explores the arts (both visual and performing) from the perspective of cultural anthropology. What is art and how is the category differently constructed cross-culturally? Why and how do people make, consume, and identify with expressive culture? How can the visual and performing arts help us to develop a deeper understanding of how human beings make meaning? Read a variety of ethnographic texts that illuminate these and related questions.
Prerequisite: None.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 232  Soundscapes-Music as Human Practice Credits: 3 (3-0-0)
Also Offered As: MU 232.

Course Description: Musical communities and soundscapes from around the world provide exploration points for how music and sound inform human life. Study everything from playlists to music of distant lands. Ability to read notated music not required.
Prerequisite: None.

Grade Mode: Traditional.
Special Course Fee: No.

Additional Information: Social & Behavioral Sciences 3C.

ANTH 235  Indigenous Peoples of North America Credits: 3 (3-0-0)
Course Description: Explores Native groups of North America from an anthropological perspective, and utilizes a culture area framework as a basis for investigation. Culture area framework is largely based on historical material—how these people have lived in the recent past. Evaluating how these groups live in the present. Contemporary issues, globalization, and local responses to local concerns.
Prerequisite: None.
Registration Information: Sections may be offered: Online. Credit not allowed for both ANTH 235 and ANTH 280A2.
Term Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 240  Museum and Cultural Heritage Studies Credits: 3 (3-0-0)
Course Description: Introduction to basic theory and organization of museums and cultural heritage sites including their history, their role in society as places of preservation and education, exhibitions and interpretation, and the relationship between museums and cultural heritage sites and the communities they serve. Emphasis on defining the role of anthropology in today's museums and cultural heritage sites and multidisciplinary approaches to curation.
Prerequisite: None.
Registration Information: Required field trips. Sections may be offered: Online. Credit not allowed for both ANTH 240 and ANTH 281A2.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 260  Introduction to Field Archaeology Credits: 2 (1-2-0)
Course Description: Field methods including map preparation and interpretation, site location and recording, site excavation, and stratigraphy.
Prerequisite: ANTH 140.
Registration Information: Must register for lecture and laboratory.
Term Offered: Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANTH 274  Human Diversity (GT-SC2) Credits: 3 (3-0-0)
Course Description: Explore human diversity, both physical and genetic, within an evolutionary framework. The scientific method is applied to the sociocultural contexts that give rise to prejudices in order to critically evaluate misconceptions regarding race, gender, and human behaviors deemed 'natural'. Approaching human diversity from an evolutionary perspective dismantles biases that justify prejudice and result in unequal access to power and resources as well as negative health impacts.
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).
ANTH 275  Introduction to Forensic Anthropology  Credits: 3 (3-0-0)
Also Offered As:  SOC 275.
Course Description: Forensic anthropological theory and methods including estimation of age-at-death, sex, stature, ancestry, and trauma analysis.
Prerequisite: None.
Registration Information: Credit not allowed for both ANTH 275 and SOC 275. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANTH 295  Independent Study  Credits: Var[1-3] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANTH 310  Peoples and Cultures of Africa  Credits: 3 (3-0-0)
Course Description: Sub-Saharan lifestyles including marriage and family, traditional government, religion and magic, ecology and economy, art, music, and literature.
Prerequisite: ANTH 100.
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ANTH 312  Modern Indian Culture and Society  Credits: 3 (3-0-0)
Course Description: Anthropological contributions to the understanding of contemporary India.
Prerequisite: ANTH 100 or ANTH 200.
Term Offered: Spring (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ANTH 313  Modernization and Development  Credits: 3 (3-0-0)
Course Description: Processes by which cultures change and modernize, 1989 to the present.
Prerequisite: ANTH 100 or ANTH 200.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 314  Southeast Asian Cultures and Societies  Credits: 3 (3-0-0)
Course Description: Colonial and post-colonial cultures, globalization processes, and changing ethnic and gender identities in Southeast Asian societies.
Prerequisite: ANTH 100 or ANTH 200.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 315  Global Mobilities–The African Diaspora  Credits: 3 (3-0-0)
Course Description: Globalization and transnationalism with a focus on the circulation of people, ideas, and cultural products and practices between Africa and the rest of the world. By situating Africans as both producers and consumers of transnational ideas and products, we will develop an understanding of Africa beyond popular representations of violence and crisis.
Prerequisite: ANTH 100 or ANTH 200 or GR 100 or SOC 100.
Registration Information: Junior standing.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 317  Anthropology of Human Rights  Credits: 3 (3-0-0)
Course Description: Human rights from the perspective of cultural anthropology through its theoretical and practical dimensions. Contemporary human rights debates within the context of cultural plurality in a globalized world. Engages the intersection between global dynamics and community experiences by addressing the human rights dimensions of refugees and migration, indigenous communities, women and children, health, religious practices, among others.
Prerequisite: ANTH 100 or ANTH 200.
Registration Information: Offered as an online course only.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 322  The Anthropology of Religion  Credits: 3 (3-0-0)
Course Description: Major anthropological theories and descriptions of religious beliefs and practices. Religion in a cross-cultural and evolutionary perspective.
Prerequisite: ANTH 100 or ANTH 200.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

Prerequisite: (ANTH 100 or ANTH 200) and (ANTH 120 or BZ 101 or LAND 220 or LIFE 220).
Registration Information: Sections may be offered: Online.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.
ANTH 333 Anthropology of Sex and Reproduction Credits: 3 (3-0-0)
Course Description: Contemporary scholarship on issues in the anthropology of reproduction, including the relationship between production and reproduction and between the corporeal body and the body politic, the disciplinary power of the state, public controversies such as abortion and maternal-fetal conflict, and the symbolism and metaphors of procreation and parenthood. We will use "reproduction" as an analytic strategy to shed light on the cultural politics of gender, power, and sexuality.
Prerequisite: ANTH 100 or ANTH 200.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
ANTH 334 Narrative Traditions and Social Experience Credits: 4 (3-2-0)
Course Description: Relationship between narrative traditions and social contexts of their creation.

Prerequisite: ANTH 140.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 365  Quantifying Anthropology  Credits: 3 (3-0-0)
Course Description: Managing, quantifying and illustrating anthropological data-sets with appropriate software.
Prerequisite: ANTH 100 or ANTH 120 or ANTH 140 or ANTH 200.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 370  Primates  Credits: 3 (3-0-0)
Course Description: Behavioral patterns, ecological relationships, and communication of nonhuman primates.
Prerequisite: ANTH 120 or BZ 101.
Registration Information: Sections may be offered: Online.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 371  Growing Up Primate  Credits: 3 (3-0-0)
Course Description: Primates generally have extended periods of growth compared to other mammals; however, there is considerable variation across the Primate Order. Evolution of primate growth and reproductive strategies, critically evaluates current models of life history variation, examines the ways that primate taxa negotiate trade offs (e.g. current versus future reproduction), and explains the role of human sociality in the evolution of our unique life history parameters.
Prerequisite: ANTH 120 or BZ 101.
Registration Information: Junior standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 372  Human Osteology  Credits: 3 (2-2-0)
Course Description: Human bones and teeth in a review of functional human evolution.
Prerequisite: ANTH 120 or BZ 101 or BZ 110 or LIFE 102.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ANTH 373  Human Evolution  Credits: 3 (3-0-0)
Course Description: Current topics and debates in human evolution concentrating on biocultural changes in the human lineage.
Prerequisite: ANTH 120 or BZ 110.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANTH 374  Human Biological Variation  Credits: 3 (2-0-1)
Course Description: Biological diversity of human populations; history of development of race concept.
Prerequisite: ANTH 120 or BZ 101 or BZ 110 or LIFE 102.
Registration Information: Must register for lecture and recitation.
Sections may be offered: Online.
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ANTH 375  Evolution of Primate Behavior  Credits: 3 (3-0-0)
Course Description: Primate behavior from an evolutionary perspective, drawing on a variety of studies of humans, primates, and mammals.
Prerequisite: ANTH 120 or BZ 110 or LIFE 102.
Registration Information: Junior standing. Sections may be offered: Online.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 376  Evolution of Human Adaptation  Credits: 3 (2-0-1)
Course Description: Unique characteristics of humans: bipedalism, encephalization, dentition, birth process, an attenuated period of development.
Prerequisite: ANTH 120 or BZ 110 or LIFE 102.
Registration Information: Must register for lecture and recitation.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 377  Anthropology Perspectives-Evolution, Society  Credits: 3 (3-0-0)
Course Description: Evolutionary science in educating the public is investigated and anthropological knowledge of human evolutionary biology is examined.
Prerequisite: ANTH 120.
Registration Information: Credit not allowed for both ANTH 377 and ANTH 380A2.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 378  Bipedal Apes  Credits: 3 (3-0-0)
Course Description: Human bipedal walking within a comparative framework of primate locomotion and anatomy. Specific focus is on kinematics and kinetics of soft- and hard-tissues including analysis of extinct primate locomotion, morphology, and development. Discussions focus on debates in primate functional anatomy and locomotion including hypotheses surrounding the origins and evolution bipedal walking and running and possible maladaptations of being a human biped.
Prerequisite: ANTH 120 or BZ 101.
Registration Information: Junior standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.
ANTH 379  Evolutionary Medicine and Human Health  Credits: 3 (3-0-0)
Course Description: Evolutionary medicine refers to the application of evolutionary theory to the study of human health, disease, and modern medicine. This theoretical perspective provides a deeper lens with which to investigate health, moves us beyond mechanistic explanations of disease, and constructs an anthropological framework for interpreting the evolution of human physiological diversity.
Prerequisite: ANTH 120 or BZ 101 or BZ 110 or LIFE 102.
Registration Information: Sophomore standing.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

Special Course Fee: No.

ANTH 540 Medical Anthropology Credits: 3 (0-0-3)
Course Description: Cultural and biocultural approaches to health, illness, and the body; theory and application in medical anthropology.
Prerequisite: None.
Restriction: Must be a: Graduate, Graduate cooperative program, Professional.
Registration Information: Graduate standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 541 Seminar in Archaeological Method Credits: 3 (1-0-2)
Course Description: Methods of archaeological recovery and interpretation, and process of archaeological analysis and reporting.
Prerequisite: ANTH - at least 9 credits.
Registration Information: Must register for lecture and recitation.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 542 Seminar in Archaeological Theory Credits: 3 (1-0-2)
Course Description: Theories of recovery, reconstruction, and interpretation of the archaeological record.
Prerequisite: ANTH - at least 9 credits.
Registration Information: Must register for lecture and recitation.
Term Offered: Spring (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
ANTH 543  Foundations of Ethnographic Research  Credits: 3 (3-0-0)
Course Description: Mixed qualitative and quantitative field methods to address practical real-world issues. Emphasis on linking theory and method, project formulation, hands-on experience with data collection and analysis, and practical applications such as preparing thesis/dissertation proposals and writing grants. Discussion of a range of anthropological approaches to field research, including applied, public, collaborative, participatory, and community-based ethnographic research.
Prerequisite: None.
Restriction: Must be a: Graduate, Graduate cooperative program.
Registration Information: Graduate standing. Credit not allowed for both ANTH 543 and ANTH 643.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 544  From Death to Discovery  Credits: 3 (1-0-2)
Course Description: Theoretical perspectives on the decay and fossilization of organisms between their death and discovery.
Prerequisite: ANTH 000 to 99999 - at least 9 credits.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ANTH 545  Global Mental Health--Theory and Method  Credits: 3 (3-0-0)
Course Description: Cross-cultural study of mental health and healing; cultural, clinical, and biological perspectives; integration of theory and method.
Prerequisite: None.
Restriction: Must be a: Graduate. Graduate cooperative program.
Registration Information: Graduate standing.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 546  Culture, Mind, and Cognitive Science  Credits: 3 (3-0-0)
Course Description: Anthropological contributions to cognitive science. Culture, mind, and social context. Theory building and practical applications.
Prerequisite: None.
Registration Information: Graduate standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 547  Mind, Medicine, and Culture  Credits: 4 (3-2-0)
Course Description: Cultural-psychological influences on health and healing; mind-body medicine; complementary and alternative medicine; indigenous and spiritual healing.
Prerequisite: None.
Registration Information: Graduate standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 548  Theoretical Topics in Cultural Anthropology  Credits: 3 (3-0-0)
Course Description: Major theoretical currents in cultural anthropology from the 19th-century to the present. Classical theory alongside contemporary texts that revise or revisit early works. Focus on some major theories and themes that are important in cultural anthropology since the 1960s.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 550A  Regional Prehistory: Great Plains  Credits: 3 (0-0-3)
Course Description:
Prerequisite: ANTH 350.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 550B  Regional Prehistory: Great Basin  Credits: 3 (0-0-3)
Course Description:
Prerequisite: ANTH 350.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 550C  Regional Prehistory: Southwestern  Credits: 3 (0-0-3)
Course Description:
Prerequisite: ANTH - at least 9 credits.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 551  Historical Archaeology  Credits: 3 (3-0-0)
Course Description: Theory, methods, and issues in historical archaeology.
Prerequisite: None.
Restriction: Must not be a: Undergraduate.
Registration Information: Graduate standing.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 552  Geoarchaeology  Credits: 3 (3-0-0)
Course Description: Application of analytical techniques, concepts, and field methods drawn from the earth sciences to help solve archaeological problems. Issues explored include human and environmental processes involved in archaeological site formation, the sedimentary context of archaeological remains, soils and sediments relevant to archaeology, the relationship between past settlement and landscape evolution, paleoclimatic reconstruction, and human effects on the environment.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
ANTH 553 Archaeology of Complex Societies  Credits: 3 (0-0-3)
Course Description: Issues in development and organization of complex societies with emphasis on the Americas.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 554 Ecological and Social Agent-based Modeling Credits: 3 (2-2-0)
Also Offered As: ESS 554.
Course Description: Exploring the use and making of agent-based models featuring interacting individuals in ecological and social simulation, with examples and projects.
Prerequisite: None.
Restriction: None.
Registration Information: Junior standing. Must register for lecture and laboratory. Credit allowed for only one of the following: ANTH 554, ESS 554, or NR 554.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 555 Paleoindian Archaeology Credits: 3 (0-0-3)
Course Description: Archaeology of the Americas during late Pleistocene/early Holocene; background and development of contemporary models.
Prerequisite: ANTH 140.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 556 Bayesian Chronologies in Archaeology Credits: 3 (3-0-0)
Course Description: Methods and techniques in Bayesian chronological modeling applied to archaeological questions.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Credit not allowed for both ANTH 556 and ANTH 680A2.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 566 Field Methods Training in Online Environments Credits: Var[1-3] (0-0-0)
Course Description: Collaborative analysis of ethnographic field data collected in online virtual worlds; mixed methods applicable to other built and natural places and spaces.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: May be repeated for up to 6 credits.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 570 Contemporary Issues-Biological Anthropology Credits: 3 (0-0-3)
Course Description: Theory and applications in biological anthropology focusing on syntheses and interpretations of human biology, variation, adaptability, and evolution.
Prerequisite: None.
Registration Information: Six credits in biological anthropology.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 571 Anthropology and Global Health Credits: 3 (3-0-0)
Course Description: Global health concerns and problems including poverty, urbanization, malnutrition, diet, war and refugees, climate, and environment.
Prerequisite: None.
Restriction: Must not be a: Undergraduate.
Registration Information: Graduate standing.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 572 Human Origins Credits: 3 (0-0-3)
Course Description: Major trends in human evolution through use of detailed case studies and regionally focused primary research.
Prerequisite: None.
Restriction: Must not be a: Undergraduate.
Registration Information: Graduate standing.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 573 Paleoclimate and Human Evolution Credits: 3 (3-0-0)
Course Description: Methods used to reconstruct past environments and understand the effects of past climate on the major trends of human evolution.
Prerequisite: None.
Registration Information: Graduate standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 617 Place, Space and Adaptation Credits: 3 (3-0-0)
Course Description: Critical evaluation of the nexus between space, society and environment. An interdisciplinary approach to studying the ways biological, material, historical, political-economic and cultural processes combine to shape human-environment relationships in place-based contexts.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 650 Edge Effects--Place, Embodiment, Environment Credits: 3 (3-0-0)
Also Offered As: ESS 650.
Course Description: Interdisciplinary thinking on questions of place, power, embodiment, and environmental adaptation. Drawing on human geography, ethnography, political ecology, and social-ecological theory, develop an understanding of boundaries and transitional zones as places of complex social and species exchange by looking at some key philosophical texts, but also applying theoretical understanding to specific case studies.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both ANTH 650 and ESS 650.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.
ATH 660 Field Archaeology Credits: Var[2-10] (0-0-0)
Course Description: Field applications of nondestructive survey methods, advanced cartographic and excavation methods, project supervision skills.
Prerequisite: ANTH 460.
Restriction: Must be a: Graduate, Professional.
Registration Information: Two seasons of field experience may substitute for ANTH 460. Required field trips.
Terms Offered: Fall, Summer.
Grade Mode: Instructor Option.
Special Course Fee: Yes.

ATH 674 Research Design and Analysis in Anthropology Credits: 4 (3-2-0)
Course Description: Learn how to formulate anthropological research questions, design a research project, organize and analyze data, and visualize and interpret results.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ATH 679 Applications of International Development Credits: 3 (3-0-0)
Also Offered As: IE 679.
Course Description: In-depth interdisciplinary analysis of theoretical and practical issues in implementing economic and community-based international development programs.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Credit not allowed for both ANTH 679 and IE 679.
Terms Offered: Fall, Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ATH 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)
Course Description: A seminar course offering special topics each time the course is taught. Recent readings from the literature will be used to foster discussion.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATH 686 Practicum-Field Archaeology Credits: Var[1-18] (0-0-0)
Course Description: Field applications of nondestructive survey methods, advanced cartographic and excavation methods, project supervision skills.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATH 692 Seminar Credits: 3 (0-0-3)
Course Description: Current trends of research in archaeology; cultural and physical anthropology.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATH 695 Independent Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Graduate cooperative program, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATH 696 Group Study-Anthropological Theory Credits: Var[1-3] (0-0-0)
Course Description: Intensive analysis of selected topics and theories in anthropology, both historical and contemporary.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATH 697 Thesis Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATH 792 Special Topics in Anthropology Credits: 3 (0-0-3)
Course Description: A seminar course offering special topics each time the course is taught. Recent readings from the literature will be used to foster discussion.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Grade Mode: Traditional.
Special Course Fee: No.

ATH 795 Independent Study Credits: Var[1-6] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ATH 799 Dissertation Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Geography (GR)
GR 100 Introduction to Geography (GT-SS2) Credits: 3 (3-0-0)
Course Description: Major geographic themes applied to selected regions; physical environment, human-land relationships, regional analysis.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Social & Behavioral Sciences 3C, Geography (GT-SS2).
GR 102  Geography of Europe and the Americas (GT-SS2)  Credits: 3 (3-0-0)
Course Description: Examines the physical and human geographies of Europe, including the former Soviet Union, and the Americas from the Southern Cone to Canada. Focus is on the content of these geographies, why they exist, and their current significance; supported by extensive map analysis.
Prerequisite: None.
Registration Information: Credit not allowed for both GR 102 and GR 180A1.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Diversity & Global Awareness 3E, Geography (GT-SS2).

GR 100  Introduction to Physical Geography (GT-SC2)  Credits: 3 (3-0-0)
Course Description: Introduction to the fundamentals of physical geography including climatology, climate change, biogeography, plate tectonics, landforms and soils. Explore the science of mapping the physical earth, spatial analysis and thinking, and human-environment interactions.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

GR 111  Introduction to Physical Geography Lab (GT-SC1)  Credit: 1 (0-2-0)
Course Description: Laboratory application of the principles of physical geography.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 204  Sustainable Watersheds (GT-SC2)  Credits: 3 (3-0-0)
Also Offered As: WR 204.
Course Description: Effects of climate, land use, and water use on the sustainability of water quantity and quality.
Prerequisite: None.
Registration Information: Credit allowed for only one of the following: GR 204, GR 304, WR 204 or WR 304.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC1).

GR 205  Physical Geography  Credits: 3 (3-0-0)
Also Offered As: ESS 210.
Course Description: Energy, mass budget, and human impacts on atmosphere, hydrosphere, and continental land surfaces.
Prerequisite: None.
Registration Information: Credit not allowed for both GR 210 and ESS 210.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GR 210  Physical Geography  Credits: 3 (3-0-0)
Also Offered As: ESS 210.
Course Description: Energy, mass budget, and human impacts on atmosphere, hydrosphere, and continental land surfaces.
Prerequisite: None.
Registration Information: Credit not allowed for both GR 210 and ESS 210.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GR 213  Climate Migrants  Credits: 3 (3-0-0)
Course Description: Explore the various drivers of migration, emphasizing climate and others including biogeographic, political, economic, and social factors.
Prerequisite: None.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 220  Mapping, Cartography, and Spatial Thinking  Credits: 3 (2-2-0)
Course Description: Spatial thinking is the science and art of making maps that play a key role in enabling geographers to visualize space and spatial patterns, as well as, convey spatial information to others. Introduction to the science of spatial thinking, including collecting spatial information and making maps, modern geographic information sciences (GIS) that have evolved from cartography, and spatial analysis techniques that are fundamental to Geography.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 303  Mountain Geography  Credits: 3 (3-0-0)
Course Description: The physical and human dimensions of mountains. Examples from mountains around the world with case studies from Colorado.
Prerequisite: GR 100 to 499 - at least 3 credits.
Registration Information: Junior standing.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GR 305  Geography of Global Health  Credits: 3 (3-0-0)
Course Description: Study, research and practice of global health using an ecological approach that integrates health with spatial thinking. Focuses on a common set of issues which transcends boundaries, both domestic and international, and a set of actions to address the geographic burden of disease. Key principles and concepts, history of global health transitions, common and emerging health issues.
Prerequisite: ANTH 200 or GR 100 or INST 200.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 311  GIS for Social Scientists  Credits: 3 (1-4-0)
Course Description: Applications of GIS techniques useful to the social sciences. Mapping techniques and GIS toolkits are practiced in lab.
Prerequisite: GR 100.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
GR 315 Quantitative Geographical Methods Credits: 3 (3-0-0)
Course Description: Methods to collect, analyze, display, and model geographic data.
Prerequisite: GR 100.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 320 Cultural Geography Credits: 3 (3-0-0)
Course Description: Geographic analysis of cultural phenomena, elements emphasizing human-land relationships and spatial patterns of agriculture, cities, language, religion.
Prerequisite: GR 100.
Registration Information: Sections may be offered: Online.
Term Offered: Fall (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

GR 323 Remote Sensing and Image Interpretation Credits: 3 (2-2-0)
Also Offered As: NR 323.
Course Description: Remote sensing systems and applications; characteristics of photographic, scanner and radar images; imagery interpretations.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: GR 323, GR 503, NR 323, NR 503.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

GR 330 Urban Geography Credits: 3 (3-0-0)
Course Description: Spatial distribution of urban areas and the geographic similarities and contrasts that exist between and within them.
Prerequisite: GR 100.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

GR 331 Geography of Farming Systems Credits: 3 (3-0-0)
Course Description: Geographic analysis of farming systems worldwide and by region; their development over time, human-land relationships, and spatial patterns.
Prerequisite: GR 100.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 333 Glaciers and Climate Change Credits: 3 (3-0-0)
Course Description: Glacier mass balance, dynamics, past fluctuations, and glaciers’ relation to climate change.
Prerequisite: GR 100 or GEOL 120 or GEOL 122 or GEOL 124 or GEOL 150.
Registration Information: Credit allowed for only one of the following: GEOL 381A2, GR 333 and GR 381A2.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

GR 345 Geography of Hazards Credits: 3 (3-0-0)
Course Description: Causes, effects, distributional patterns, and human adjustments to environmental hazards.
Prerequisite: GR 210.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 348 Biogeography Credits: 3 (3-0-0)
Course Description: Species distribution of plants and animals in relation to earth history and environments, evolution, and ecology.
Prerequisite: GR 000 to 99999 - at least 3 credits.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GR 400 History of Theory-Anthropology and Geography Credits: 3 (3-0-0)
Also Offered As: ANTH 400.
Course Description: Anthropological/Geographical theory from its beginnings with Aristotle through recent developments into the 20th century.
Prerequisite: (ANTH 100 or ANTH 200) and (ANTH 120 and ANTH 121 and ANTH 140 or GR 100).
Registration Information: Junior or senior standing. Sections may be offered: Online. Credit not allowed for both ANTH 400 and GR 400.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GR 410 Climate Change: Science, Policy, Implications Credits: 3 (3-0-0)
Course Description: Implications and consequences for earth systems including the cryosphere, hydrosphere, biosphere, and human systems.
Prerequisite: GR 100 to 499 - at least 3 credits.
Registration Information: Junior standing.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GR 415 The Geography of Commodities Credits: 3 (3-0-0)
Course Description: Social relations, international trade, and environmental impacts surrounding the production, transportation, exchange, and consumption of commodities.
Prerequisite: GR 100.
Registration Information: Junior standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

GR 418 Development Geographies Credits: 3 (3-0-0)
Course Description: Examines development processes through a critical geography lens. Assesses the social and environmental impacts of various development interventions – from tropical medicine in the colonial era to Green Revolution technologies and current Chinese infrastructural development in Africa.
Prerequisite: GR 100 to 499 - at least 3 credits.
Registration Information: Junior standing.
Grade Mode: Traditional.
Special Course Fee: No.
GR 420 Spatial Analysis with GIS Credits: 4 (3-2-0)
Course Description: Theory, application of geographic information systems for spatial analysis; conceptual basis of GIS, nature and use of geographic data, case studies.
Prerequisite: GR 000 to 9999 - at least 3 credits.
Registration Information: Credit not allowed for both GR 420 and NR 322.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

GR 425A Special Topics: Human Geography Credits: Var[1-3] (0-0-0)
Course Description: Special topics in human geography.
Prerequisite: GR 100 to 499 - at least 3 credits.
Registration Information: May be taken for a maximum of 9 credits.
Grade Mode: Traditional.
Special Course Fee: No.

GR 425B Special Topics: Geospatial Geography Credits: Var[1-3] (0-0-0)
Course Description: Special topics in geospatial approaches in geography.
Prerequisite: GR 100 to 499 - at least 3 credits.
Registration Information: May be taken for a maximum of 9 credits.
Grade Mode: Traditional.
Special Course Fee: No.

GR 425C Special Topics: Physical Geography Credits: Var[1-3] (0-0-0)
Course Description: Special topics in physical geography.
Prerequisite: GR 100 to 499 - at least 3 credits.
Registration Information: May be taken for a maximum of 9 credits.
Grade Mode: Traditional.
Special Course Fee: No.

GR 430 Land Change Science and Remote Sensing Credits: 3 (3-0-0)
Course Description: Local case studies and global cases of land-use/land-cover changes in rural, peri-urban, and urban areas.
Prerequisite: GR 100.
Registration Information: Junior standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 431 Land Change Science Lab Credit: 1 (0-3-0)
Course Description: Utilize advanced remote sensing techniques and satellite images, air photos, and ancillary data to investigate land-use and land-cover changes.
Prerequisite: GR 323 or NR 323 or GR 503 or NR 503.
Registration Information: Must have concurrent registration in GR 430.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 440 Political Geography Credits: 3 (3-0-0)
Also Offered As: POLS 440.
Course Description: Examines the meaning of political space; states and nations; competition for territory, including methods and justifications; the structure of political space focusing on states; geopolitics; and the state in an era of globalization. Concepts are illustrated by real-world situations.
Prerequisite: GR 100 or POLS 101.
Registration Information: Sophomore standing. Sections may be offered: Online or Mixed Face-to-Face. Credit not allowed for both GR 440 and POLS 440.
Grade Mode: Traditional.
Special Course Fee: No.

GR 448 Forest Biogeography and Climate Change Credits: 3 (3-0-0)
Course Description: Forest adaptation and conservation in relation to global change with a focus on climate change.
Prerequisite: ESS 211 or ESS 311 or F 311 or GR 100 or GR 210 or ESS 210 or GR 303 or GR 348 or GR 410.
Registration Information: Junior standing.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 482A Study Abroad--Vietnam: Land Change Science and Remote Sensing Credits: 3 (0-0-3)
Course Description: Vietnam specific local case studies of land-use/land-cover changes in rural, peri-urban, and urban areas. Integrate these local cases as examples that relate to global cases looking at the drivers of land-use/land-cover changes. The broader implications of these changes are discussed, and examples of these implications are witnessed through field visits.
Prerequisite: GR 100.
Registration Information: Sophomore standing. Credit not allowed for both GR 430 and GR 482A.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

GR 487 Internship Credits: Var[1-9] (0-0-0)
Course Description: Academic-based work experience with selected organizations or agencies. Supervised application of principles of geography.
Prerequisite: GR 100 to 499 - at least 9 credits.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

GR 493 Capstone Seminar Credit: 1 (0-0-1)
Course Description: Exploration of the linkages among the human and physical geography sub-fields, geographic techniques, and other natural and social sciences as well as how professional geographers approach issues.
Prerequisite: None.
Registration Information: Junior standing. Concurrent registration in one of the following AUCC Category 4A courses for the Major in Geography: GR 303, GR 410, GR 415, or GR 430.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GR 495 Independent Study Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

GR 503 Remote Sensing and Image Analysis Credits: 4 (3-3-0)
Also Offered As: NR 503.
Course Description: Interpretation and analysis of photographic, multispectral scanner, and radar data; sensor systems; applications to resource management.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: GR 323, GR 503, NR 323, or NR 503.
Term Offered: Fall.
Grade Mode: Traditional.

Major in Anthropology

The mission of the Department of Anthropology and Geography is to:

1) offer and maintain instructional programs that provide a comprehensive overview and analyses of people and their cultures, both past and present;

2) conduct research in order to advance and expand knowledge of the fields of anthropology and geography;

3) participate actively in programs of interdisciplinary research.

The Department of Anthropology and Geography houses a faculty of cultural anthropologists, archaeologists, biological anthropologists, and geographers whose scholarship spans the breadth of the human experience. The program prepares undergraduate students to describe, analyze, and interpret the human condition. An examination of the social, environmental, and evolutionary contexts in which the human species is embedded defines most course work in the discipline. The program is integrative, drawing from geography, biology, the humanities, and other social and natural sciences. Geography figures prominently in our program and provides an important spatial lens through which human groups are examined over time. Four programmatic areas define faculty research and scholarship with which students can engage: humans and the environment, international development and globalization, health and well-being, and professional methods and techniques. In the education of undergraduates, the department values and promotes experiential training, primary research as well as public engagement and education.

The research endeavors of the anthropology faculty are trans-disciplinary and international. They are interested in diverse topics including but not limited to contemporary culture, ethnicity, linguistics, comparative religion, virtual worlds, subsistence patterns, archaeology, human ecology, human anatomy, human evolution, biogeography, land cover/land use patterns, and the behavior of non-human primates.

Anthropology majors follow a liberal arts curriculum that provides a broad education with an emphasis on learning how to learn. The department has ten research and teaching laboratories and three summer field schools; the Ethnographic Field School, the Archaeology Field School, and the Paleontology Field School.

Undergraduate students can pursue a general anthropology degree focused on an appreciation human diversity, past and present, from a broad and holistic perspective. Students can also declare a concentration within the program. Declaring a concentration allows for a focused course of study, specializing in the particular subfield of interest. Within each concentration (Archaeology, Biological Anthropology, and Cultural Anthropology), specific categories of classes guide students in learning the major theories, methods, and applications related to the modern practice of our discipline. Along with our offerings of world class field schools, course work in archaeological, biological, and ethnographic methods and geographical techniques are encouraged in order to further gain experience and perspective. Upon graduation, students are prepared for a diverse array of jobs or advanced training in graduate school. Students come away with a respect and appreciation for the diversity of human existence.

Learning Outcomes

Students will:

- Employ anthropological theory and qualitative/quantitative research methods to describe and analyze human biological and cultural variation over time and across space.
- Describe and evaluate the inter-relationships between environments, health and well-being, and human cultural and biological evolution.
- Synthesize anthropological theory, methods, and data to formulate arguments both orally and in written format.
- Articulate anthropology to non-specialists and explain anthropological concepts across subfields and/or with other social sciences and humanities disciplines.
- Transfer knowledge gained in anthropology program to a career trajectory after graduation.

Potential Occupations

Anthropology, like many majors in the liberal arts, provides students with a broad academic background suitable for a variety of jobs in the public and private sectors. Anthropology majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Employers appreciate liberal arts majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Participating in internships and cooperative education opportunities is highly recommended to enhance students’ practical training and development. Careers for graduates are available in international development, health care, education, business, natural resource management, and government. Graduates who go on for advanced studies can pursue careers in anthropology or attain advanced positions with the possibility of rising to top professional levels.

Some career opportunities for Anthropology graduates include, but are not limited to: museum curator/researcher, genealogist, international relief representative, salvage archaeologist, collections assistant, resource specialist, classical or historical anthropologist, cultural affairs officer, diplomatic service representative, immigration or foreign service officer, linguist, educational television researcher, forensic osteologist, biographical writer, scientific/technical writer, reporter, ethnographic photographer, anthropological linguist, rural development worker, ethnic groups’ special concerns advocate, intercultural educator, medical anthropologist, grant writer, psychological anthropologist, international development administrator, public relations representative, public opinion pollster, sales/marketing representative, consultant for cross-cultural relations, personnel worker, geographic information systems specialist.

ANTH 274 fulfills AUCC 3A.

ANTH 493 must be taken concurrently with one of the AUCC 4A anthropology courses listed with ANTH 493 in the senior year. Using Competencies (AUCC 4A) must be taken concurrently with ANTH 493. Courses approved for AUCC category 4A taken in the sophomore, junior, or senior year and not concurrently with ANTH 493 and not included in the approved list in the program will not count toward completion of the 4A requirement for this major. Students taking Senior Honors Thesis (HONR 499, 3 credits) are also required to register for ANTH 493 (1 credit).

Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

**Major in Anthropology, Archaeology Concentration**

The Archaeology concentration focuses on the Americas, and includes prehistoric and historic archaeology. The faculty members of this sub-discipline have expertise in:

- Rocky Mountain and Plains archaeology
- Paleo-Indian studies
- Hunter-gatherer ecology
- Taphonomy
- Zooarchaeology
- Public archaeology
- Andean archaeology
- Inca and Spanish empires

Special resources include the Center for Mountain and Plains Archaeology, the MesoAmerican lab, the Center for Archaeogeophysics and Geoarchaeology, and the Cultural Resources section of the Center for the Ecological Study of Military Lands. The archaeology program sponsors an annual field school each summer and houses the CSU Archaeological Repository.

1. ANTH 274 fulfills AUCC 3A.
2. ANTH 493 must be taken concurrently with one of the AUCC 4A cultural anthropology courses listed with ANTH 493 in the senior year. Using Competencies (AUCC 4A) must be taken concurrently with ANTH 493. Courses approved for AUCC category 4A taken in the sophomore, junior, or senior year and not concurrently with ANTH 493 and not included in the approved list in the program will not count toward completion of the 4A requirement for this major. Students taking Senior Honors Thesis (HONR 499, 3 credits) also are required to register for ANTH 493 (1 credit).
3. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300 to 400-level).

Major in Anthropology, Biological Anthropology Concentration

Over the past half century, Biological Anthropology has undergone tremendous change from a discipline that was defined by a descriptive, typological approach to human morphology (the study of shape) to one that includes both experimental and comparative analyses in a population-based framework.

Biological anthropologists continue to cross traditional disciplinary boundaries and interact with both the physical and natural sciences including biology, anatomy, genetics, chemistry, biometry, and endocrinology as well as the social sciences.

The expertise of existing faculty in Biological Anthropology at CSU includes:

- Human skeletal biology
- Forensic anthropology
- Evolutionary theory
- Neanderthal paleobiology and paleobiogeography
- Dental anthropology
- Early hominin feeding ecology
- Taphonomy
- Plio-Pleistocene Africa
- Pleistocene Asia
- Primate origins, biology, and locomotion

Two broad themes exist within biological anthropology. The first emphasizes evolutionary theory and morphological transformations, and the second is concerned with adaptations that are the product of the interaction between human biology and culture. Current faculty research addresses both of these themes.

Special resources include the Bone Lab, the Zooarchaeology Lab, the Human Osteology Lab, the 3-D Imaging and Analysis lab, and the Primate Origins lab. The biological anthropology program sponsors an annual paleontology field school each summer in Wyoming. Existing faculty also have geographic foci significant to their research. Research areas include Uzbekistan, Kazakhstan, Croatia, Kenya, and Tanzania.

1. Capstone topic must focus on biological anthropology. ANTH 493 must be taken concurrently with one of the AUCC 4A biological anthropology courses listed with ANTH 493 in the senior year. Using Competencies (AUCC 4A) must be taken concurrently with ANTH 493. Courses approved for AUCC category 4A taken in the sophomore, junior, or senior year and not concurrently with ANTH 493 and not included in the approved list in the program will not count toward completion of the 4A requirement for this major. Students taking Senior Honors Thesis (HONR 499, 3 credits) are also required to register for ANTH 493 (1 credit).

2. Select enough elective credits to bring program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major in Anthropology, Cultural Anthropology Concentration

The Cultural Anthropology concentration focuses on contemporary experiences of culturally distinct communities encountering a rapidly globalizing political economy. Students are provided with robust training in mixed methods, community-based approaches, and applied anthropology. Topically, faculty investigate issues related to the transformation of individual experience and community relations within the context of economic development, governmental and nongovernmental policy, and environmental change. Increasingly, faculty seek to understand the way subjective and material well-being are impacted by the rapidly changing contexts of modernity. Topics of research interest include:

- Human-environment interactions
- Community and economic development
- Health and well-being
- Cultural psychiatry
- Disasters and resilience
- Gender
- Culture continuity and change

The faculty are passionate about teaching, and they strive to bring excitement and relevance to the classroom by infusing it with their practical field experiences. Cultural faculty conduct their research in India, Southeast Asia, Central Asia, Africa, the Caribbean, New Orleans, Native North America, and in virtual reality. Students concentrating in Cultural Anthropology explore issues of place and space, cultural theory, cultural content and methods.

## Minor in Anthropology

Anthropology focuses on the evolution of the human condition and provides a cross-cultural view of humanity. The description and explanation of human activities in other societies and during different periods of time provides a sense of perspective for individuals operating within their own culture. A minor may be focused on one or more of the sub-disciplinary divisions such as biology, archaeology, cultural anthropology, or applied anthropology. The minor may also be distributed across the fields, similar to the requirements of the major.

### Requirements

**Effective Fall 2001**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Major in Geography

The Geography major is housed in the Department of Anthropology and Geography. Through coursework and internship opportunities, majors are provided with a broad background in geographic thinking. The major emphasizes interactions between humans and the environment in an era of rapid global change. Critical study of diverse relationships between space, place, humans, built and natural environments allows students to interpret geographic features, patterns and processes.

The Geography curriculum also concentrates specifically on mountain ecosystems and human-environment interactions. Coursework takes advantage of faculty expertise in these areas of study, some of which are specific to the state of Colorado. Geography faculty use a wide range of research methods, including geographic information systems (GIS), remote sensing, spatial modeling, spatial statistics, participatory methods and ethnography to address applied research questions in Colorado, the Rocky Mountains, Patagonia, Southeast Asia, Latin America, Melanesia, and Africa. Undergraduate majors can expect to gain knowledge of and/or participate in faculty research related to:

1. Climate change implications for society and ecosystems
2. Land-use and land-cover change
3. Critical human geography
4. Critical Health geographies
5. Biogeography
6. Livelihood systems
7. Conservation
8. Cultural geography
9. Urban geography
10. Economic geography
11. Political/electoral geography
12. Geography of virtual worlds

The Geography major is built on the core values the Department of Anthropology and Geography promotes. These values emphasize experiential training, primary research, public engagement, and education.

Learning Outcomes:
Students will demonstrate:

1. Mastery of the unifying themes of human and physical geography, as well as knowledge of the diverse conceptual and methodological approaches present in the discipline of geography.
2. The ability to identify, describe, and interpret spatial patterns and structures.
3. A critical understanding of relationships between humans and the environment, with a specific focus on mountain systems and local cultures.
4. An ability to present geographic concepts, approaches, methodologies, and applications in written, oral, cartographic, and other visual forms.
5. An understanding of the discipline's relevance to everyday life.
6. An ability to communicate effectively and respectfully, including critical thinking and discussion skills.

Potential Occupations:
Like many other majors in Liberal Arts, the Geography major provides students with a broad academic background suitable for a variety of jobs in the public and private sectors. Geography majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Careers for graduates vary depending upon your focus in Geography. Geographers often work in international development, Foreign Service, education, conservation/natural resource management, urban and regional planning, data analysis, data management, GIS analyst, marketing, and business. Graduates who go on to advanced studies can pursue academic careers in geography.

Minor in Geographic Information Science and Geographic Analysis

The Geographic Information Science and Geographic Analysis minor has a broad interdisciplinary application. The analytical methods introduced and the technologies used in the different courses and applied lab work are relevant to many disciplines including: urban and regional planning, marketing and business, archaeology, agriculture, conservation and engineering. This minor is designed for all students desiring to gain a background in the geographic theory, methods, tools and technical skills that will increase their employment potential in any number of applied fields where geographic analysis is a valuable skillset.

Requirements
Effective Spring 2021

Additional coursework may be required due to prerequisites.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Minor in Geography

The minor in Geography examines the critical interactions among space, place, people and the built and natural environment. These perspectives are used to interpret the spatial and temporal distribution of features and processes by applying spatial techniques and information technologies such as Geographic Information Systems (GIS) and remote sensing.

Requirements
Effective Fall 2019

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Select at least one techniques course from the following: 

- GR 323/NR 323 Remote Sensing and Image Interpretation 1-3 credits
- GR 420 Spatial Analysis with GIS 2 credits
- NR 322 Intro. to Geographic Information Systems 2 credits

Selected Courses

Select enough credits from the following courses to bring program total to a minimum of 21 credits. At least 8-9 of the credits selected here must be GR and/or ANTH courses:

Certificate in Museum and Cultural Heritage Studies

Earning a Certificate in Museum and Cultural Heritage Studies prepares students for entry-level careers in museums, cultural heritage sites, and similar venues that promote public outreach and education, and provides a solid foundation for students who wish to pursue advanced studies in the field of museum studies. Core courses introduce students to the history of museum and cultural heritage management, administration, curation, artifact handling, collections management, interpretive planning, exhibitions, education, ethics, and working with indigenous communities.

Requirements

Effective Fall 2020

Courses used to satisfy requirements outside this certificate cannot count toward completing this certificate. If using a course toward major/concentration/minor/honors requirements, the student must take a different course for this certificate.

Additional coursework may be required due to prerequisites.

1 Must be museum or cultural heritage related.

Master of Arts in Anthropology

The Master of Arts in Anthropology at CSU prepares students for entrance into a Ph.D. program and for non-academic careers. The program builds on the diverse research interests of our faculty who specialize in cultural anthropology, archaeology, and biological anthropology as well as human and physical geography. The program options include writing a thesis or developing a portfolio as the principle demonstration of preparedness for further study or professional work.

Students who are conferred an M.A. from the Department of Anthropology and Geography will:
1. Demonstrate an understanding of anthropological theory and method and how to apply them appropriately.
2. Be able to engage in independent research that addresses academic questions or societal challenges.
3. Demonstrate awareness of and respect for human diversity across space and time.
4. Possess the academic background and skills to enter a Ph.D. program in anthropology or a job related to the discipline.

**Requirements**

**Effective Fall 2021**

**Plan A**

The thesis option must consist of a minimum of 30 semester credits of course work concentrated in anthropological areas relevant to the participant’s professional goals. The thesis is the culmination of a research project carried out by the student under the guidance of his or her advisor. A final examination consists of a defense of the thesis, as well as other parts of the program of study.

**Plan B**

The non-thesis option is intended for students seeking development of an understanding of Anthropology which will allow them to move on to a Ph.D program in Anthropology, or be incorporated in their work. Plan B students are expected to take a more broadly distributed series of courses and to show less specialization than that which characterizes Plan A programs of study.

Requirements for Plan B are a minimum of 35 credits of study. Students must complete a portfolio of work demonstrating both the breadth of their understanding of Anthropology and their own area of specialization, selected in consultation with the student’s advisor. A final examination consists of a defense of the portfolio, as well as other parts of the program of study.

**Master of Arts in Anthropology, The Anthropology of Health and Well-Being Specialization**

The Master of Arts in Anthropology, the Anthropology of Health and Well-Being Specialization studies the ways human health and wellness are influenced by past and present sociocultural, environmental, biological, and biocultural forces by drawing from broad and holistic perspectives on human well-being.

Master of Arts in Anthropology, International Development Specialization

The Master of Arts in Anthropology, International Development Specialization examines how local societies respond to global influences and the extent to which cultural meanings, beliefs, institutions, structures of inequality, and social relations between genders and among kin are changing as a result. This specialization also explores how economic and community development processes can improve basic aspects of human welfare.

Program Total Credits: 35

A minimum of 35 credits are required to complete this program.

1. Two credits of independent study are intended to prepare for formal professional presentation of the student's development portfolio at a culmination event in the student's last semester.
2. Select 3 credits from departmentally approved list of methods courses with approval of advisor and committee.
3. This course is taught by correspondence only.
4. At least two courses within Social Sciences and/or Area Studies must be ANTH.
5. Courses listed here constitute a partial list. Other courses may be used with approval of advisor and committee. See department list for most up-to-date course list.
6. Select any upper division (300-level or above) or graduate level language course in consultation with advisor and committee.

Students must complete the minimum number of credits specified in the official program of study as approved by the University Curriculum Committee, and all credit requirements specified in the Graduate and Professional Bulletin for their degree.

Master of Arts in Anthropology, Professional Methods and Techniques Specialization

The Master of Arts in Anthropology, Professional Methods and Techniques Specialization develops skills in a wide range of methods and techniques used by professionals in applied anthropology, federal, and state natural resource agencies, and other arenas of social, historical, biological, and spatial research about humans. These include qualitative research and interview protocols, quantitative analysis, GIS and remote sensing, archaeological field survey, historic archaeological methods, culture and heritage resource management, and paleoanthropological methods.

Ph.D. in Anthropology

The Ph.D. in Anthropology at CSU supports advanced coursework and research with a focus on place, space, and adaptation. Students achieve this perspective on the discipline by engaging with a curriculum infused with geographic methods and approaches. This program provides students with the skills and expertise to address research questions that 1) sit at the intersection of anthropology and geography, 2) apply geographic methods to anthropological questions, and 3) critically evaluate the impact of place and space on human/ecosystem adaptation.

Master’s Degree Credit (a maximum of 30 credits may be accepted from a master’s degree) 30  

Program Total Credits: 72  

A minimum of 72 credits are required to complete this program.  

Most students entering the Ph.D. program in anthropology will bring in 30 credits from a Master’s program in a related field. The above curriculum represents a total of 42 credits beyond the Master’s level. If a prospective student has less than 30 credits toward the program, an individualized curriculum plan will be developed by working with primary advisor that will cover possible anthropology deficiencies.  

Department of Art and Art History  

art.colostate.edu (http://art.colostate.edu/)  

In the Department of Art and Art History at CSU, we approach learning in a holistic fashion with an eye towards helping students develop their creative problem-solving skills. We emphasize the conceptual and the practical, where the “why” is as important as the “how.” Our program balances ideation and research with hands-on learning and material process. Our visual art degrees are thinking degrees where students learn to communicate within historical and contemporary contexts to find their place in the world.  

Dr. Eleanor Moseman, Chair  

Our programs:  

The Department of Art and Art History offers undergraduate degrees rooted in a progressive, challenging, and engaging curriculum. Our programs offer opportunities for international and interdisciplinary study and support our students’ individual paths in research and creative artistry.  

Our program begins with our Foundations classes, an intensive inquiry into fundamental questions of time and structure, form and observation, color and composition, and materials and space, along with a global survey of art history that lays the groundwork for an arts education. After completing the requirements of the Foundations Program, students can choose upper-division (300- to 400-level) courses in one of our ten concentration areas; often students opt to do more than one concentration.  

All of our degree programs provide our students with a wide range of desirable job skills. They include creative ideation, visual literacy, time management and organization, project management, research, written and verbal communication skills, emotional intelligence, giving and receiving constructive criticism, problem solving, critical thinking, prioritizing, and discernment, among many others. We support our graduates in being engaged, ambitious, and well equipped to step into the next stage of their lives where their skills, knowledge, and confidence will allow them to pursue a successful career as creative thinkers in the rapidly changing world of the 21st century.
As part of the College of Liberal Arts, students in the Department of Art and Art History have access to career resources (https://www.libarts.colostate.edu/students/careers/) that help them create their future. We encourage our students to participate in internships, cooperative education, and service-learning opportunities to enrich their practical training and development.

Course Description: Establishes a foundational understanding of materials and space as part of a creative practice through the development of three-dimensional artworks in relation to interdisciplinary concepts.
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ART 200  Media Arts in Context  Credits: 3 (3-0-0)
Course Description: History and contemporary practice of media-based arts. Addresses printmaking, graphic design, photography, film, video, computer-generated imagery, digital fabrication, and other cognate disciplines.
Prerequisite: None.
Terms Offered: Offered as an online course only.
Grade Mode: Traditional.
Special Course Fee: Yes.
Additional Information: Arts & Humanities 3B.

ART 212  Global Art History III  Credits: 3 (3-0-0)
Course Description: Global modern and contemporary art and architecture.
Prerequisite: ART 111.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ART 220  Drawing I  Credits: 3 (0-6-0)
Course Description: An introduction to visual communication design, typography, design systems, and layout.
Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ART 230  Photo Image Making I  Credits: 3 (0-6-0)
Course Description: Photographic imagery as an art medium; exploration of silver-based (film) materials.
Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ART 231  Photo Image Making for Non-Art Majors  Credits: 3 (0-6-0)
Course Description: Create photographically-based artworks, and assess works through critical interactions.
Prerequisite: None.
Registration Information: Non-Art majors only. Credit not allowed for both ART 231 and ART 280A1.
Grade Mode: Traditional.
Special Course Fee: No.

ART 235  Drawing I  Credits: 3 (0-6-0)
Course Description: Introduction to the materials, processes, and concepts that ground the field of contemporary drawing. Explore the basic elements of drawing. Develop an individual artistic practice.
Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ART 240  Pottery I  Credits: 3 (0-6-0)
Course Description: Basic techniques of studio ceramics and wheel throwing; exploration of expressive potential in pottery.
Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ART 245  Metalsmithing and Jewelry I  Credits: 3 (0-6-0)
Course Description: Introduction to the materials, processes, and concepts that ground the field of contemporary jewelry and metalsmithing. Techniques include metal forming and fabrication processes; jewelry design and construction; surface treatment and finishing processes; behavior and mechanical properties of metals.
Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ART 250  Fibers I  Credits: 3 (0-6-0)
Course Description: Fibers and fabric as expressive media; weaving and basic fiber structures; fabric painting and surface techniques.
Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ART 253  Digital Fabrication  Credits: 3 (0-6-0)
Course Description: Practical and technical skills within a historical and theoretical context for using computers, in combination with traditional and analog fabrication processes, to shape physical materials and make creative works. Introduces 3D Computer Aided Design (CAD), Computer Aided Machining (CAM), and Computer Numeric Controlled (CNC) Machining including 3D printing, Laser Cutting, and CNC Routing/Milling.
Prerequisite: ART 110 or ART 135 or ART 136 or ART 160 or ART 170.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ART 255  Introduction to Graphic Design  Credits: 3 (0-6-0)
Course Description: An introduction to visual communication design, typography, design systems, and layout.
Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.
Registration Information: 2.55 GPA or better.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.
ART 256 Introduction to Electronic Art Credits: 3 (0-6-0)
Course Description: An introduction to interactive and time-based mediums for art making. Course material may include sound art, video, coding and/or animation as a basis for creation.
Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ART 260 Beginning Painting Credits: 3 (0-6-0)

Major in Art, B.F.A.

The Department of Art and Art History offers the Major in Art, B.F.A. (Bachelor of Fine Arts) with two options of study: the Art Education
concentration, and Studio concentrations. Both are considered professional degrees.

The Major in Art, B.F.A., Art Education concentration, embraces the artist-teacher concept, allowing students to develop a strong studio practice and take coursework to prepare to teach art at the K-12 level. Students engage in philosophical and theoretical studies, contemporary pedagogical practices, and arts-based research to prepare for the complexities of the K-12 art studio. Student teaching, field work, and service learning is expected and prepares students to enter a career as an art educator.

The Major in Art, B.F.A., Studio concentrations, is a professional degree for the studio art major. With 10 studio concentrations to choose from, students explore various mediums and gain a foundational knowledge base in art history. Students have opportunities to learn from master artists and study art throughout the ages, delve into different forms of expression, and investigate their impact on society. Students encounter diverse studio environments designed to provide depth and breadth of knowledge, immersive experiences, and mastery of processes necessary to communicate meaning in art. Choices for studio concentrations are in Drawing, Electronic Arts, Fibers, Graphic Design, Metalsmithing, Painting, Photo Image Making, Pottery, Printmaking, and Sculpture.

The curriculum progression in the department for the B.F.A. is similar within the concentrations and some concentrations may have restrictions. First-year students complete Foundations courses in form and observation, time and structure, color and composition, materials and space, and global art history. Sophomores explore various concentration courses and become familiar with studio practices for the concentration studios housed in dedicated classrooms that feature large, well-equipped studio spaces designed for exploration. Juniors and seniors focus on advanced topics in their chosen concentration by taking one upper-division course in their chosen field each semester. Additionally, at this level art education students are engaged in pedagogical course work.

Learning Outcomes

Students will demonstrate:

- Fundamental knowledge and mastery of media and processes necessary to communicate meaning in a work of art.
- Ability to communicate clearly about their own art and the art of others in terms of both content and visual form.
- Knowledge about contemporary art and the motivation to view and discuss current local, regional, and national exhibitions.

In addition to the outcomes above, students with an Art Education concentration will be able to:

- Integrate literacy, numeracy, and other skill-building aptitudes while providing appropriate accommodation and differentiation strategies in the art experiences they develop for their students.
- Effectively document, analyze, and reflect on student learning and make appropriate changes for more effective instruction.
- Demonstrate proficiency in all areas of the Colorado Teacher Quality Standards.

Potential Occupations

Students with a B.F.A. in Art possess a number of transferable skills in communication, analysis, and critical thinking that are appropriate for work in traditional business as well as positions in academia and roles as freelance artists, graphic designers, art educators, art historians, studio fine artists and as “creatives” in government, industry, and non-profits. Employers appreciate art majors for their diverse skills and their ability to adapt to a variety of tasks and work environments. Participation in internships, cooperative education, service learning, and education abroad opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can attain positions involving greater responsibilities with the possibility of rising to top professional levels. Depending on student interests, the electives taken, or the concentration selected, available career choices include, but are not limited to: art appraiser, art director, art therapist, exhibit designer, art critic, jeweler, gallery director, graphic design artist, free lance artist, sculptor, woodworker, welder, foundry worker, studio photographer, technical illustrator, painter, textile designer, weaver, art educator, art curator, art librarian, art museum educator, web page designer, photo lab technician, art restorer, and master printer, among many others.

Major in Art (B.F.A.), Art Education Concentration

The Major in Art, B.F.A., Art Education concentration, embraces the artist-teacher concept, allowing students to develop a strong studio practice and take coursework to prepare to teach art at the K-12 level. Students engage in philosophical and theoretical studies, contemporary pedagogical practices, and arts-based research to prepare for the complexities of the K-12 art studio. Student teaching, field work, and service learning is expected and prepares students to enter a career as an art educator.

Requirements

Effective Fall 2021

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

The Art Education concentration requires a 2.75 cumulative CSU GPA, and that students pass the PLACE exam. Admission to the Center for Educator Preparation (CEP) (http://www.cep.chhs.colostate.edu/students/teacher/admissions.aspx) is also required. Fingerprint and background check.
A minimum grade of C (2.000) or better is required in all Art and Education coursework.

**Program Total Credits:**

**Major in Art (B.F.A.), Drawing Concentration**

The Drawing concentration includes a solid foundation in the basics of drawing, plus a strong emphasis on the advanced development of drawing as an art form in its own right. Initially, courses expose students to working from observation and thinking critically about observation as an attention-orienting skill. A variety of fundamental skills, research habits, techniques, and materials are explored through basic exercises and open projects. Perception skills and visual vocabulary are introduced to students through assignments, group critiques, and discussions. Throughout the program, students are expected to acquire, develop, and refine skills and to engage in an exploration of personal expression and ideas. Drawing concentration students are expected to be highly motivated individuals dedicated to the practice of drawing as a sophisticated art, and dedicated to thinking critically about their practice.

Our program will assist them in developing their making and thinking aptitudes towards a body of work which displays an advanced level of visual challenge and aesthetics, as well as conveying a sense of content and meaning.

**Requirements**

**Effective Fall 2021**

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

A minimum grade of C (2.000) or better is required in ART 335, ART 336, ART 435, ART 436.

**Major in Art (B.F.A.), Electronic Art Concentration**

The Electronic Art concentration offers students the chance to create and critique within the context of digital methods and materials. By integrating digital media theories into their creative practice, students work with software and hardware to explore humanity's relationship with the digital realm. These explorations can include game theory, experimental video techniques, net.art, user interface, software creation, the creation of social tools, installation work, physical computing, and code within the context of visual arts. Electronic art students are also encouraged to incorporate interdisciplinary, interactive, and collaborative practices in their work.

**Requirements**

**Effective Fall 2021**

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

A minimum grade of C (2.000) or better is required in ART 357, ART 358, ART 457, ART 458.

Major in Art (B.F.A.), Fibers Concentration

The Fibers concentration fosters creativity and artistic expression in a wide variety of textile media. Students develop skills in visual communication as they investigate the language of textiles and the role of fibers in contemporary art and design. Undergraduate courses provide foundations in weaving and surface-design methods—including fabric printing, painting, dyeing, and embellishment. Classes also promote creative investigation of off-loom constructions, feltmaking, mixed media, and installation.

Studio work is enriched with research in the collections of the Gregory Allicar Museum of Art and the Avenir Museum of Design and Merchandising. Students receive guidance in professional practices as they direct their talents toward careers in art, design, and education. CSU alumni exhibit their work regionally, nationally, and internationally; teach at public and private schools, colleges, and universities; and lead workshop programs throughout the U.S. Our alumni also jury and curate exhibitions, work as designers, and write for national publications. Study abroad and internship opportunities are available. Suggested non-art electives that would enhance the major are: DM 120, AM 363, and AM 460.

Major in Art (B.F.A.), Graphic Design Concentration

The Graphic Design concentration is closely aligned with the artistry, practices, and standards of excellence in the contemporary design professions. With an emphasis on rich processes, conceptual problem-solving, and technical proficiency, students are able to create effective expressions of visual communication in a variety of print and digital media. Experimental explorations of typography, illustration, and design systems are expected from participants of the program, as well as applications of design that address social impact and awareness. Design theory, history, and professional practices are discussed regularly with faculty. Projects and activities are designed to prepare students for the varied challenges and opportunities for professionals in visual communications.

Requirements
Effective Fall 2021

## Major in Art (B.F.A.), Metalsmithing Concentration

The Metalsmithing concentration offers students the opportunity to explore a range of traditional techniques and processes, while emphasizing formal and conceptual development within their own artistic practice. Class projects introduce and strengthen technical skills, and provide awareness of both historical and contemporary practice within the field.

Students are encouraged to enter regional and national juried exhibitions, to participate in workshops and conferences, and ultimately to locate and establish a place for themselves within the field of contemporary jewelry and metalsmithing, either professionally, academically, or both.

## Requirements

**Effective Fall 2021**

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

A minimum grade of C (2.000) or better is required in ART 345, ART 346, ART 445, ART 446.

**Major in Art (B.F.A.), Painting Concentration**

The Painting concentration gives students the ability to explore, develop, and gain personal understanding of the visual language and technical aspects of the painting medium. Additionally, it encourages the development of material experimentation and conceptual thinking in the upper-level courses. Students begin by working from observation, developing skills and proficiency in oils. As students gain skills and abilities with oil paints, they are encouraged to challenge the very notion of what painting is by exploring alternative tools, methods, materials, and surfaces. Discipline and perseverance are strengthened as students develop a unique voice, conceptually and formally. In their senior year, students work closely with the Painting faculty to develop a distinctive body of work that is sophisticated in its content and scope.

**Requirements Effective Fall 2021**

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

A minimum grade of C (2.000) or better is required in ART 360, ART 361, ART 460, ART 461.

### Major in Art (B.F.A.), Photo Image Making Concentration

Courses in the Photo Image Making concentration enable students to explore artistic, personally-driven and conceptual aspects of the photographic medium. Projects and assignments encourage each student to explore individual directions, with equal emphasis given to intuitive and intellectual concerns. Student work is evaluated for aesthetic qualities, technical excellence, and conceptual development. The curriculum is designed to help students build a strong foundation in the fundamentals of contemporary photographic practice, while emphasizing the medium’s expressive potential and underscoring its connections to the contemporary art world. Interdisciplinary and experimental work is encouraged, as are more traditional approaches and conventional processes. Facilities are available to enable offerings in a wide range of processes and techniques, from silver-based image production and digital capture/output methods to alternative processes such as cyanotype and palladium printing. Supportive instruction and information are provided for a range of image making strategies that students may wish to pursue.

### Requirements
#### Effective Fall 2021

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

A minimum grade of C (2.000) or better is required in ART 330, ART 331, ART 430, ART 431.

Major in Art (B.F.A.), Pottery Concentration

The Pottery concentration is committed to providing a comprehensive curriculum in the range of processes and concepts present in contemporary ceramic art. The philosophy of the area encourages the concurrent development of critical, technical, and manual skills. Issues and debates in contemporary crafts, sculpture, architecture, design, and studio pottery are presented alongside a rigorous exploration of forming and decorating processes and technology. Faculty mentor students in refining their artistic voice through the medium of ceramics. Students’ conceptual development and materials-based learning are encouraged through access to a well-equipped studio facility with materials and tools that support experimentation. Students’ capstone experience results in a defined body of work that demonstrates conceptual rigor and depth of choices connecting the material and the visual.

Major in Art (B.F.A.), Printmaking Concentration

Printmaking courses at the undergraduate level are structured to develop a strong personal artistic vision and instill the self-confidence necessary to allow ongoing creative growth through a variety of media. A sound technical background in Lithography, Screen-Printing, Intaglio, Relief Woodcut, Post-Digital methods and encouragement of experimental hybrid techniques will provide students with the professional skills needed to cultivate a robust studio practice and explore new innovative research based on that foundation. The community workshop atmosphere of the printmaking area immerses students in group collaboration as well as personal exploration, thus preparing each student for real-world occupational applications of their research. Through sharing visual concepts and technical investigations on a regular basis, students learn how to apply newly acquired knowledge productively and intuitively, while simultaneously developing skill sets desired by prospective employers. Interactive artistic dialog between highly motivated printmakers is a cornerstone to the printmaking curriculum, leading to a wide array of unique and diverse avenues for creative inquiry.

Requirements
Effective Fall 2021

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

A minimum grade of C (2.000) or better is required in ART 365, ART 366, ART 465, ART 466.

1. Select 6 credits of Upper-Division Art History Courses total, at least 3 of which must satisfy AUCC categories 4A and 4B.
2. ART 466 may be repeated for up to 8 credits; 4 credits are required in the Senior year for AUCC category 4C. If ART 466 is repeated for credit, the second 4 credits taken may count toward the Art Elective or the Upper-Division Art Elective requirements.
3. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

**Major Completion Map**

To declare this Concentration: A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

Distinctive Requirements for Degree Program: A minimum grade of C (2.000) or better is required in ART 365, ART 366, ART 465, ART 466.

Major in Art (B.F.A.), Sculpture Concentration

The Sculpture concentration challenges students to create a vibrant fusion between technical process, conceptual expression, and professionalism. Students are encouraged to experiment and innovate while exploring content in the areas of object-making, installation, site-based work, performance, time-based art, and digital processes. Refined technical skill will be developed and is a requirement for students as they progress through the Sculpture concentration. Through the integration of readings, classroom discussion, presentations, and individual research, the sculpture curriculum is designed to enable students to explore concepts and content relevant in contemporary society and in the art world today. The synthesis of this broad spectrum of information is intended to aid students as they develop a unique personal vision for their artwork and studio practice.

Requirements
Effective Fall 2021

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

A minimum grade of C (2.000) or better is required in ART 370, ART 371, ART 470, ART 471.

**Major in Art, B.A.**

The Major in Art, B.A. (Bachelor of Arts) is a liberal arts degree with two concentrations: Art History and Integrated Visual Studies. Both concentrations begin their study with the Foundations program. First-year students complete Foundations courses in studio art and global art history.

The Art History concentration seeks to develop students’ critical and analytical skills and ability to comprehend global visual arts within social, historical, cultural, and aesthetic frameworks. Students develop an understanding about the visual and material culture of societies from around the world. Our Art History program champions a global history of art, offering courses that range from the Italian Renaissance to contemporary African art, women in art, and native North American art. Students in art history go on to careers in academia, museums, historical societies, and auction houses, and can apply their skills in visual literacy and analytical research to a wide range of careers.

The Integrated Visual Studies concentration is an ideal program for students to develop skills as makers and thinkers. By making work and interpreting images from visual art, photography, film, television, and commercial imagery, students learn to analyze visual communication from a variety of aesthetic, theoretical, scientific, economic, sociological and historical viewpoints. Students take a relatively equal ratio of studio and academic classes that foster critical awareness of how society is reflected and produced through visual means in the 21st century. Integrated Visual Studies students have the curricular flexibility to pursue interdisciplinary academic interests in combination with explorations in the theoretical and technical aspects of art making within a studio practice.

**Student Learning Outcomes**

Art History students will demonstrate:

- Knowledge of the tools and techniques of art historical research and scholarship.
- Communication skills, original thinking, art historical interpretation, and research skills in written form, resulting in a work of original scholarship.
- Communication skills, original thinking, art historical interpretation, and research skills in oral form.
- General knowledge of the monuments and principal artists of global art, including a broad understanding of historical monuments as well as the art of the 20th and 21st centuries.
• Adequate mastery of a foreign language to support research through the reading of primary source materials.
• Functional knowledge of the creative process.

**Integrated Visual Studies** students will demonstrate:

• Communication skills in written and oral form with precision, cogency, and rhetorical force.
• The ability to explain and defend their creative work and research effectively and rationally, and the ability to advocate for their world view.
• Skills of invention and innovation—developing things and ideas that never existed before.

**Potential Occupations**

Students earning a B.A. with a major in Art develop a wide range of transferable communication, analytical, and critical-thinking skills. Participation in internships, cooperative education, service learning, and education abroad opportunities is highly recommended to enhance practical training and development. Depending on student interests, electives taken, or concentration selected, available career choices include academia, art museums, auction houses, historical societies, art appraiser, art director, exhibition designer, art critic, gallery director, art librarian, art restorer, art conservator, and art museum educator. Employers appreciate art majors for their multiple skills and the visual literacy that allows them to make sense of an image-saturated world.

**Major in Art (BA), Art History Concentration**

The **Art History concentration** seeks to develop students’ critical and analytical skills and their ability to comprehend global visual arts within social, historical, cultural, and aesthetic frameworks. Students learn about the visual and material culture of societies from around the world and across time, reflecting the global turn in the discipline of Art History today. Our program offers a diverse array of courses that range from the Italian Renaissance to contemporary African art, women in art, and native North American art. Art History majors can apply their skills in visual literacy, analytical research, and oral communication to a wide range of fields to shape their career path. Our students have entered careers in academia, museums, historical societies, and auction houses, just to name a few.

**Requirements Effective Fall 2021**

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

A minimum grade of C (2.000) or better is required in all upper-division Art History coursework.

Major in Art (BA), Integrated Visual Studies Concentration

The Integrated Visual Studies concentration is an ideal program for students to develop skills as makers and thinkers. By making work and interpreting images from visual art, photography, film, television, and commercial imagery, students learn to analyze visual communication from a variety of aesthetic, theoretical, scientific, economic, sociological and historical viewpoints. Students take a relatively equal ratio of studio and academic classes that foster critical awareness of how society is reflected and produced through visual means in the 21st century. The Integrated Visual Studies concentration gives students the flexibility to pursue interdisciplinary academic interests in combination with explorations of the conceptual and technical aspects of art making within a studio practice.

**Minor in Art History**

**Minor in Art History**

Designed for students with an interest in art history who are not Art majors, the Art History minor will provide students with an understanding of the rich history of art in its global historical context. Students will learn the language of art history, enhance their skills in research, writing, and presenting, and practice using conceptual tools for interpreting and understanding our visual world across cultures and disciplines.

For students who are ready to declare the Art History minor, please reach out to Belle-Pilar Fleming (https://art.colostate.edu/people/bpflemin/), Academic Success Coordinator.

For more information on the minor, please contact Professor David Riep (https://art.colostate.edu/people/dmmriep/).

**Requirements**

**Effective Fall 2021**

Additional coursework may be required due to prerequisites.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

**A minimum grade of C (2.000) or better is required in all Art History coursework.**

Master of Fine Arts (M.F.A.)

The M.F.A. program in studio art promotes a high level of artistic achievement, creative and scholarly research, and relevant professional practice. In addition to required studio courses, the program fosters student engagement with faculty and peers through required coursework in contemporary art theory, art criticism, and art history. In consultation with their advisors, students plan a sequence of elective courses that both complements and challenges their studio practice.

ART 696I Group Study: Multiple Media

This is a group study course offered in the Department of Communication Studies. Students are expected to engage in a minimum of 9 credits to be taken in the first year, over two semesters, e.g., 4 and 5 credits. In the second year, students select another 9 credits over two semesters, e.g., 4 and 5 credits. Additionally, students must select a minimum of 9 credits in their area of study, to be completed within their first four semesters. Students also select a minimum of 9 credits to be taken during the fifth and sixth semesters, e.g., 4 and 5 credits. A course may be repeated for credit.

Students take ART 696I twice: once during the first year and once during the second year.

Students may provide their advisors with justification for an alternative course to substitute for one 3-credit art history elective. Students may request advisor approval for an alternative course that would be chosen from among suitable University course offerings.

Maximum of 10 credits. Some subtopics may have a prerequisite.

Select ART 510 subtopics not taken elsewhere in the program.

To be taken in the third year.

Select course(s) at 300-level or higher from any department other than Art and Art History within the University for a minimum of 3 credits, with approval of advisor.

The Department of Communication Studies is a caring and supportive community of teachers, scholars, and students who are passionate about communication's centrality to our lives. Our communication scholars infuse the classroom with teaching practices that honor multiple ways of knowing and program a rich array of coursework directly engaging diversity in text, identity, culture, positionality, history, and more. Our undergraduate, graduate, and faculty research consistently addresses power, identity, and agency. These innovative practices routinely receive regional, national, and international recognition.

Our approach to the study of communication is limitless. Students who join us:

- Study communication in interpersonal, organizational, and cultural contexts.
- Explore the history, theory, and criticism of media and film.
- Investigate the natural of public and political discourse.
- Bring the intersecting power of story and film from communities and individuals around the world to Northern Colorado and beyond.
- Advocate for diversity, equity, and inclusion in public process.

Graduate Programs in Communication Studies

Graduate studies in communication at Colorado State University attract students from around the world who deeply value teaching, scholarship, community, and excellence. The Department of Communication Studies offers two Master of Arts in Communication Studies degrees (Plan A and Plan B - see below), and one Ph.D. in Communication degree. All programs provide a rigorous scholarly experience that offers maximum flexibility in study across three areas of emphasis:

1. Film and media studies
2. Relational and organizational communication
3. Rhetoric and civic engagement

Coursework in each of these areas, respectively, includes the following topics:

1. Contemporary issues in media, media theories, media audiences, media texts, and media industries.
2. Communication theories, communication and diversity, interpersonal theories, and discourse and organization.
3. Public address, rhetoric and public affairs, rhetorical theory, rhetorical criticism, rhetoric of everyday life, and anti-racist, queer, and feminist theory.

Students enrolled in the Ph.D. in Communication degree develop programs of study tailored to their unique professional goals. They also teach a variety of undergraduate courses and are mentored by acclaimed scholars engaged in leading-edge research.

Students enrolled in M.A. in Communication Studies programs receive an introduction to the field of Communication Studies and instruction in critical and social scientific research methods. Plan A Master’s students augment the M.A. core with electives of their choosing and complete a master’s thesis under the advisement of a faculty committee. Plan B Master’s students augment the M.A. core and elective curriculum with coursework and research in public deliberation. They also complete an applied research project.

Communication Studies majors receive a broad-based, liberal arts education, designed to equip them for the challenges of the 21st century, the need to adapt to a rapidly changing workplace, and the likelihood of more than one career. The major encompasses many facets of film and media studies, relational and organizational communication, and rhetoric and civic engagement. Along with courses in communication studies, the major requires courses in the arts and humanities, the social sciences, and history, and a minor or second major.

The department's goals for undergraduate majors include helping students to achieve an outstanding education in communication studies, to further their knowledge and understanding of human communication, and to provide leadership in communication activities. In so doing, we hope to help students prepare for successful careers, the duties of citizenship, and productive and rewarding lives.

**Learning Outcomes**

Students will demonstrate:

**Knowledge** about the history and practice of our discipline in three specific areas: film and media studies, relational and organizational communication, and rhetoric and civic engagement. Students will be able to explain the utility of theories from these areas and be able to utilize research methods to explore questions from each area of inquiry.

**Skills** that allow them apply their knowledge of the major as they address contemporary issues salient to their personal, professional, and civic lives. They will be skilled in both oral and written communication, being able to develop and deliver coherent, well-organized claims to specific audiences. Students will also develop critical thinking skills that allow...
them to analyze texts, situations, or issues using credible evidence and following a logical, systematic, and/or precise structure.

Accelerated Program

The major in Communication Studies includes an accelerated program option (https://provost.colostate.edu/accelerated-programs/) for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (https://summer.colostate.edu/acceleratedprograms/). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (https://provost.colostate.edu/accelerated-programs/).

Potential Occupations

The Communication Studies major, like many liberal arts majors, provides students with a broad academic background suitable for a variety of jobs in the public and private sectors. Majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Employers appreciate communication studies majors for their multiple skills and their ability to adapt to a variety of tasks and work environments.

Many majors find employment in public relations/marketing, politics, sales, human relations, government, business management, convention and meeting planning, education, and computer-mediated communication. Some students move on to graduate work in communication studies and to post-graduate study in business, law, and theology.

Career opportunities include, but are not limited to employee relations specialist, employment counselor, human resource consultant, industrial relations representative, public relations specialist, labor relations consultant, training director, vocational rehabilitation counselor, advance agent, business communicator, equal opportunity representative, foreign service officer, cooperative extension service worker, politician, lobbyist, speechwriter, press agent, literary agent, interviewer, sales representative, scriptwriter, lawyer, teacher.

Internships are available to Communication Studies majors and are highly recommended to enhance practical training and development. Graduates who seek advanced studies can attain positions with higher responsibilities and can rise to top professional levels.

---

1. Select six credits from the following subject codes: ART, D, E, ETST, L***, MU, PHIL, TH, or WS. No more than one WS course can be counted toward the completion of this requirement.

2. Select six additional credits from courses with a HIST subject code.

3. Select a total of six credits from the following: AREC 202, GR 100, courses with subject codes ANTH, ECON, ETST, HIST, JTC, POLS, PSY, SOC, or WS. No more than one WS course can be counted toward the completion of this requirement.

4. Students must complete a university approved minor or interdisciplinary minor.

5. Select a total of 24 credits of SPCM subject code courses excluding SPCM 479 and SPCM 495. Students may count up to 6 credits total from the SPCM 278 series (e.g., SPCM 278A, SPCM 278B, etc.), SPCM 384, SPCM 386, SPCM 387, SPCM 486A; SPCM 486B; and SPCM 486C towards their Communication Studies electives. No more than 3 credits may come from any one course number.

6. Select enough elective credits to bring program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Ph.D. in Communication

The Ph.D. in Communication trains scholars, teachers, and professionals to engage social, political, and professional challenges using advanced expertise in the field of communication.

The program is shaped by the three areas of expertise present in our department. These three areas examine communication and engagement from three perspectives:

1. **Interpersonal, Intercultural, and Organizational Communication:** For many individuals, engagement with the public world grows out of their relational lives and is expressed in the organizations to which they belong and in which they work. Professors and students in this area explore communication in relational or interpersonal systems, organizing and work contexts, and within national and global arenas. Here, the focus is on exploring how individuals respond to and participate as active members in various forms of community, paying special attention to the ways in which communicative actions can create, sustain, and disable engaged citizenship.

2. **Film and Media Studies:** In the contemporary, globalized world, engaged citizenship often flows through media and is represented and enacted within popular culture. Professors and students in the area explore the mediation of public culture with particular attention to film, television, digital discourse, and the globalization of media institutions. Here, the focus is on the construction of critical media literacies and understandings of how our mediated forms of communication engage or disengage individuals as community members, empowering or disempowering them as political agents.

3. **Rhetoric and Civic Engagement:** In popular conversation, "rhetoric" is often understood to mean empty speech. Communication scholars, however, trace the meaning of "rhetoric" to antiquity when thinkers such as Aristotle and Cicero placed rhetorical studies at the center of democratic engagement. Since then, rhetorical studies have explored public engagement and community building, examining the role of communication in civic life. The resurgence of rhetorical studies in the humanities is founded on a renewed sense of the importance of rhetoric to engaged citizenship in the 21st century. Professors and students in this area explore the role of public communication in creating, maintaining, and undermining civic culture.

Although these three areas of departmental emphasis are distinct, the strength of the program is the collaborative overlapping of these three areas. As a community, we developed a cutting-edge doctoral program that takes advantage of the shared commitment to study and engage in transformative communication.

**Program Total Credits:**

81

A minimum of 81 credits are required to complete this program.

1 If equivalent coursework is not transferred in as part of the M.A. degree, these prerequisite courses must be completed in addition to the 54 credits required for the Ph.D.

Our faculty members are caring teachers and prolific scholars who have active research agendas, providing many opportunities for both graduate and undergraduate students to collaborate. Our goal is to prepare our students to be critical thinkers who understand the debates about economic methodology and policy, as well as the techniques of economic analysis.

### Undergraduate

**Major**

- Major in Economics

**Minor**

- Minor in Economics

**Undergraduate Program Highlights:**

- We offer traditional, honors (http://honors.colostate.edu/admissions/), accelerated (https://economics.colostate.edu/undergraduate/accelerated-program/), and online bachelor’s degree (https://www.online.colostate.edu/degrees/economics/?utm_source=geniusmonkey&utm_medium=viewthrough) programs so you can choose the path that is right for you.
- The Economics major includes a solid foundation in economic analysis, as well as the opportunity to explore topics including development/international economics, environmental economics, public policy, and examinations of race, class, and gender.
- Our students are required to choose a second major or minor, giving them the flexibility to tailor their education to their unique interests and goals. Popular secondary programs include business, statistics, and other social sciences.
- Economics is a versatile major that can be a gateway to many career paths in government, finance, nonprofit organizations, law, academia, and much more. Our students develop a framework for thinking analytically, and they also get the data and communication skills needed to be successful in the workplace. Early career salary of economics majors nationally is $56,700 – higher than business and most other majors in the College of Liberal Arts.
- Beginning in Fall 2021, undergraduates will be able to apply for paid Research Assistantships/Internships, providing opportunities to deepen their research skillsets and collaborate with our award-winning faculty. Every senior also develops an independent research project as part of the capstone course (ECON 492).
Graduate

Graduate Programs in Economics

Programs lead to the degrees of Master of Arts and Doctor of Philosophy. Five primary areas of study are presently emphasized: international economics, public economics, political economy, environmental economics, and regional economics. Core requirements include micro, macro, and heterodox theory, as well as history of economic thought and applied econometrics.

More information is available at the Graduate and Professional Bulletin.

Major in Economics

Economics is the study of how people and societies use scarce resources to produce the things they want. Economics majors develop an appreciation of economic issues, and learn to analyze and critically evaluate economic phenomena and policies, formulating efficient and equitable solutions to pressing economic problems.

The major requires:
- Introductory and Intermediate Microeconomics
- Introductory and Intermediate Macroeconomics
- Econometrics
- Political Economy
- Senior Capstone Seminar
- Economics electives
- Prerequisite courses in math and statistics, as specified
- Completion of a minor or second major of the student’s choice

Learning Outcomes

Students will:
- Display command of basic microeconomic concepts such as rationality, cost/benefit, supply and demand theory, decision making at the margin, monopoly and competition, and efficiency and equity.
- Display command of basic macroeconomic concepts such as aggregate demand and supply, fiscal and monetary policy, and the use of these policies in the macro-economy.
- Understand and analyze a broad array of economic issues found in the news and understand how the economic aspects of society work. Students may choose from electives in developmental/international economics, environmental economics, race, class, gender, public policy, and more.

Accelerated Program

The major in Economics includes an accelerated program option (https://provost.colostate.edu/accelerated-programs/) for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (https://summer.colostate.edu/acceleratedprograms/). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (https://provost.colostate.edu/accelerated-programs/).

Potential Career Paths

Economics provides students with a broad academic background and critical thinking skills suitable to many fields: education, research, business, government, nonprofit, environmental conversation, international relations, and more.

Career choices include, but are not limited to:
- Commodities/stock broker
- Financial analyst
- Economic forecaster
- Trust administrator
- Loan counselor
- Foreign trade analyst
- Public policy analyst
- Regional/urban planner
- Foreign service officer
- Tax auditor
- Natural resource analyst
- Educator
- Researcher
- Community organizer
- Program administrator
- Systems evaluator

Requirements

Effective Fall 2019

Economics majors must achieve a minimum grade of 1.670 (C-) in each of the economics courses counted toward the major.

Minor in Economics

The minor in Economics is designed to prepare students for understanding current socioeconomic problems in the areas of resource allocation, inflation, unemployment, income distribution, environmental degradation, international trade, and monopoly power. The program can be of help to students interested in careers in business management, teaching, government, banking, public policy, and related areas.

Learning Outcomes

Students will:

• Display command of basic microeconomic concepts such as rationality, cost/benefit, supply and demand theory, decision making at the margin, monopoly and competition, and efficiency and equity.
• Display command of basic macroeconomic concepts such as aggregate demand and supply, fiscal and monetary policy, and the use of these policies in the macro-economy.
• Understand and analyze basic economic issues found in the news and understand how the economic aspects of society work.

To declare the minor in Economics, please visit the Economics Department office in Clark C306.

Requirements

Effective Fall 2019

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Economics minors must achieve a 2.000 grade point average in all courses taken for the minor.

Master of Arts in Economics, Plan A

Requirements

Effective Fall 2014

A minimum of 33 credits are required to complete this program.

1. Complete 12 credits of elective courses, 500-level or above, that add depth and breadth to the program of study chosen with advisor approval. Electives do not include ECON 698, ECON 699, ECON 784, or ECON 799. Of the 12 credits, at least 6 must be in regular economics courses.

Major in English

The English department at CSU is a vibrant and diverse community. We are home to poets and linguists, literary researchers and teacher educators, novelists and literary scholars, composition specialists and writers of creative nonfiction. We share a passion for exploring the multiple and dynamic ways that the English language is used to meet the demands of life in the twenty-first century. Students, staff, and faculty are committed to inclusive excellence, intellectual growth, and the creation of a more just and sustainable world.

English majors develop an understanding of diverse cultures, literary traditions, and great works of English, American, and world literature. Students expand their ability to analyze a variety of texts and view them through the lenses of diverse critical perspectives. Majors develop the ability to write for both specialized and general audiences. Students can choose from five concentrations: Creative Writing, English Education, Linguistics, Literature, or Writing, Rhetoric and Literacy.

Learning Outcomes

Upon completion of the B.A. in English, the accomplished graduate shall be able to:

• work with, explain, or analyze English-language writings of the broadest textual range with an eye practiced in close-reading, historical context, and rigorous critical judgment;
• write with flexibility, effectiveness, and originality for diverse rhetorical purposes and audiences;
• read and write with technical awareness of language foundations, contexts of literacy, multi-modal environments, and theories of discourse and meaning; and
• integrate English literacy (disciplinary methods of reading and analysis) with interdisciplinary knowledge and action.

Potential Occupations

A major in English prepares students for business, government, or education careers that require broadly educated people who can think critically, communicate effectively, analyze texts, and write well. Many employers appreciate liberal arts majors for their multiple skills and their ability to adapt to a variety of tasks and work environments.

The department encourages experiential education by offering a variety of internship opportunities.

Students are also invited to generate their own positions in fields of interests, as well as pursue established local, regional, or national internships. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Depending on a student’s interests, the electives taken, or the concentration selected, available career choices include, but are not limited to: copy editor; project editor; manuscript reader or story analyst; sales representative; publicity and promotion specialist; advertising coordinator; production specialist; assistant book publicist; contracts and permission specialist; agency or arts administrator; human resource manager; human services program developer; public relations; English teacher; teacher of English as a second language; curriculum developer; education administrator; grant writer; technical writer for business, industry, or science; magazine, newspaper, television, education, or government writer; biographer or writer of prose, fiction, or nonfiction; lyricist.

Concentrations

• Creative Writing Concentration
• English Education Concentration
• Language Concentration (No new students are being admitted to this concentration. Please see the Linguistics concentration.)
• Linguistics Concentration
• Literature Concentration
• Writing, Rhetoric and Literacy Concentration

Major in English, Creative Writing Concentration

The Creative Writing concentration gives students the opportunity to strengthen their creative writing skills and infuses their analytic reading skills with imagination. Students take beginning, intermediate, and advanced courses in one or more of the following genres: fiction, poetry, and creative nonfiction. Intermediate and advanced courses are primarily workshop classes in which students read and critique one another’s work. At the center of all creative writing courses is the study of craft. Students in the Creative Writing concentration also take a wide variety of English and literature courses that prepare them to be writers by schooling them in literary traditions and styles. An internship program for all English majors offers Creative Writing students positions that may lead to employment. In addition, the Creative Writing program runs a vibrant reading series that gives students the chance to meet visiting writers.

Requirements

Effective Fall 2020

For graduation, an English major must attain a minimum grade point average of 2.000 in all Composition (CO) and English (E) courses.

1. Excludes E subject code courses.

2. The department requires majors to complete a second field. This may be met by completing the second semester of the second year of a foreign language or by completing 12 credits of upper division courses in a coherent field of study outside English.

3. Selection must match subtopic of E 311A, E 311B, or E 311C.

4. Select enough elective credits to bring the program table to 120 credits, of which at least 42 must be upper-division (300- to 400-level).

**Major in English, English Education Concentration**

The English Education concentration provides students with preparation for teaching in secondary schools. It is designed for students who wish to pursue a career in teaching language arts, and offers a range of courses in language, literature, and writing. Students may receive a teaching endorsement from the state of Colorado in English/Language Arts. In addition to the common requirements for the English major, students take courses that focus on teaching the subject matter of English, as well as education classes through the School of Education.

**Requirements Effective Fall 2020**

For graduation, an English major must attain a minimum grade point average of 2.000 in all Composition (CO) and English (E) courses.

1 The department requires Licensure majors to take a minimum of 12 credits of upper-division E or CO subject code courses to include the categories listed below. One course may count for two categories if necessary, but students must take a minimum of 12 credits to fulfill this requirement:
- 3 credits must be in literatures of the British Isles before 1830, or in American or European literatures before 1900;
- 3 credits must be in literatures of the British Isles after 1830, or in American or European literatures after 1900;
- 3 credits must be in either breakthroughs (ideological, racial, cultural, gendered) or genre courses;
- One course must be a world literature course;
- One course must be a capstone course (see list in senior year, above).

2 Any lower or upper-division E subject code course.

Major in English, Linguistics Concentration

The Linguistics concentration is for students who wish to focus on linguistics and teaching English as a second or foreign language, as well as literature, writing, and education. It is designed for students interested in all aspects of language and linguistics. It offers students the ability to study key theories in linguistics and second-language learning, functional aspects of language production and reception, and the impact of social and cultural contexts on language production and reception.

Requirements

Effective Fall 2021

For graduation, an English major must attain a minimum grade point average of 2.000 in all Composition (CO) and English (E) courses.

Major in English, Literature Concentration

The Literature concentration offers a curriculum featuring critical study of literature (from ancient to contemporary) in poetry, prose, and drama. Students will become familiar with major figures and forces, but also with non-traditional writers outside the established canon. Courses in literary theory will give students a sense of the wide variety of approaches that can be applied to the interpretation of texts. In all courses, students practice a number of different types of analytical and critical writing.

Requirements

Effective Fall 2020

For graduation, an English major must attain a minimum grade point average of 2.000 in all Composition (CO) and English (E) courses.

Major in English, Writing, Rhetoric and Literacy Concentration

The Writing, Rhetoric and Literacy concentration builds on departmental strengths in writing theory and design, rhetoric, composition, public writing, and rhetoric and writing instruction. It is designed for students who wish to pursue the study of theories and practices of writing and rhetoric. The Writing, Rhetoric and Literacy concentration offers students the ability to:
• Study writing in a department that takes a humanistic approach to learning
• Engage writing and rhetoric with a focus on genre, audience, invention, and style
• Explore and practice writing and rhetorical approaches in social, cultural, and historical contexts

Requirements
Effective Fall 2020

For graduation, an English major must attain a minimum grade point average of 2.000 in all Composition (CO) and English (E) courses.

**Minor in Creative Writing**

The study of creative writing emphasizes creativity, self-motivation, persistence, and openness to criticism — skills many employers look for when hiring. It gives students the opportunity to explore their artistic talents and devote time to producing creative work that complements achievements in their majors.

This seven-course sequence combines small, discussion-based writing workshops with classes in composition or literature. The minor is open to majors in all disciplines except English and offers a unique opportunity to balance work in the sciences, business, engineering, or the humanities with the imaginative freedom and cultural engagement of an education in the arts. Students will gain experience in two genres (poetry, fiction, and/or creative nonfiction) as they study with published authors, interact with visiting writers, and gain familiarity with today's literary landscape.

TO DECLARE: Visit the English Office, Eddy 359. For more information: visit the Department of English website (https://english.colostate.edu/), or email Andrew Altschul, Director of Creative Writing: andrew.altschul@colostate.edu.
Requirements
Effective Fall 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Minor in English

The minor in English offers opportunities for students to create a unique path through English and Composition classes. Requirements are open: 21 credits total of E and/or upper-division CO courses, 12 credits of which must be at the 300-level or higher. This freedom allows students to pursue what they love most in language, literature, composition, and writing. Students will gain a set of skills, critical and creative both, that will complement both their major and future career.

The English department also offers the Linguistics and Culture Interdisciplinary Minor and the Creative Writing Minor.

Requirements
Effective Spring 1996

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

- CO 150, E 487A, and E 487B may not count toward the minor. CO 300, CO 301A, CO 301B, CO 301C, CO 301D, CO 302, and CO 401 may count toward the minor. A minimum of 6 credits must be taken at CSU.

Graduate Certificate in TESOL Education

The Graduate Certificate in TESOL Education provides graduates with practical, theoretical, and critical knowledge of the English language and methods for teaching it in various social and academic settings. The courses required for the certificate promote reflective inquiry, provide students with the necessary tools for ongoing professional growth, serve as models of effective pedagogy, and introduce students to the various ways in which instruction can be enhanced by contemporary technologies.

**Additional Program Requirements:**

- Students are required to submit a portfolio with writing, sample papers, and annotated bibliography at the end of their program.
- A minimum of 32 credits applied to an MFA degree must be earned at CSU. Of these, at least 21 must be earned after admission to the program.
- Graduate courses taken at CSU prior to admission to the Graduate School can be applied to an MFA degree if the grade earned is B or higher.
- At least 16 credits earned at CSU and applied to an MFA degree must be English courses at the 500 level or higher; of these credits, at least 12 must be in “regular” courses. English courses considered to be other than “regular” include E 607B, E 684, E 687, E 695, E 699, and any courses graded pass/fail.
- Courses transferred from an MFA program must have a grade of B or higher and must have a CSU equivalent at the 500-level or higher. Credits used to fulfill requirements for previously earned degrees are not accepted.
- Up to three credits of coursework for an MFA degree can come from CSU programs outside the English department at the 300 level or higher. Students can take two additional courses outside the department, but these courses must be 500-level or higher.
- Graduate students may register for any number of internship credits, but a total of only six credits of E 607B, E 684, and E 687 (combined) will count toward graduation.
- A maximum of two credits of E 695 can count toward an MFA degree.
- With the exception of specified courses, all courses taken in the English department and applied to an MFA degree must be taken at the 500-level or above.

1. This must include one course (3 credits) of a Pre-Twentieth-Century Literature class with approval of advisor.
2. This requirement may be waived for students whose undergraduate degree is in another major.

**Master of Arts in English, English Education Specialization**

The Master of Arts in English, English Education Specialization provides students with preparation for and/or enhanced knowledge of teaching English in secondary schools. It is designed for students who are:

- Seeking initial licensure;
- Currently employed, full- or part-time, as an English language arts teacher in a Colorado public school;
- Looking to revitalize their work with students and their own knowledge;
- Deepening their understanding of contemporary literacy scholarship and broadening their background to explore new or contemporary ideas; and/or
- Deeply considering their practice and considering how they can do better and be better.

Students interested in pursuing an initial teaching license through CSU may refer to the Center for Educator Preparation (CEP). (https://www.chhs.colostate.edu/soe/center-for-educator-preparation/)

**Program Total Credits:** 32

A minimum of 32 credits are required to complete this program.
Up to nine credits of coursework for an M.A. degree can come from CSU programs outside the English department. These credits must be at the 300-level or higher. (English Education students in Plan B may count up to 12 credits.)

A maximum of six credits of E 684 and E 687 (combined) can count toward an M.A. degree.

A maximum of two credits of E 695 can count toward an M.A. degree.

A maximum of six credits of E 699 can count toward a Plan A M.A. degree. No E 699 credits can count toward a Plan B M.A. degree.

In addition to required coursework, the following is required:

• Pass an oral defense of the thesis.
• Courses used to complete another degree cannot be counted toward the master's degree.
• A minimum of 24 credits applied to an M.A. degree must be earned at CSU. Of these, at least 21 must be earned after admission to the program.
• Graduate courses taken at CSU prior to admission to the Graduate School can be applied to an M.A. degree if the grade earned is B or higher.
• At least 16 credits earned at CSU and applied to an M.A. degree must be at the 500-level or higher; of these credits, at least 12 must be in "regular" courses. English courses considered to be other than "regular" include E 684, E 687, E 694, E 695, E 698, E 699, and any courses graded pass/fail.
• Courses transferred to an M.A. program must have a grade of B or higher and must have a CSU equivalent at the 500-level or higher. Credits applied toward previously earned degrees are not accepted.
• With the exception of specified courses in the English Education Specialization, all courses taken in the English department and applied to the M.A. degree must be taken at the 500-level or above.

**Master of Arts in English, Plan A, TESL/TEFL Specialization**

The Master of Arts in English, Plan A, TESL/TEFL Specialization provides graduates with practical, theoretical, and critical knowledge of methods for teaching the English language in various social and academic settings. The program features an integrated core in which a comprehensive understanding of the form and communicative functions of the English language is combined with both general and skill-specific (reading, writing, listening, speaking) pedagogical theories and applications. These courses are designed to promote reflective inquiry, to provide students with the necessary tools for ongoing professional growth, to serve as models of effective pedagogy, and to introduce students to the various ways in which instruction can be enhanced by contemporary technologies. The connection of theory and practice is enhanced through a variety of supervised teaching experiences and the completion of a portfolio, project, or thesis.

Major in Ethnic Studies

The Ethnic Studies major involves critically examining the interlocking
forces of race, gender, class, sexuality, and other forms of social
differentiation that shape the histories and experiences of racially
marginalized groups. The programs of study interrogate how these
socially constructed ideas impact distribution of social goods, affect
life chances, shape identities and worldviews, and reproduce social
inequalities. Drawing from interdisciplinary and comparative theoretical
frameworks, we bring to bear issues of power, privilege, and social
justice pertinent to the experiences of diverse populations in the U.S.
and abroad. We are especially committed to nurturing civic-minded and
culturally informed students who strive to strengthen the communities in
which they reside. In support of the land-grant mission of CSU, students
and faculty in the Ethnic Studies program engage with communities on
and off campus in order to effect meaningful change in public policy and
social life.

Learning Outcomes

Upon completion of the program of study, students will demonstrate:

- An understanding of the key concepts shaping the experiences of
  various racial and ethnic groups in the United States and abroad.
- Familiarity with social histories and experiences of racial and ethnic
groups.
- Effective oral communication, writing, and research skills.
- An increase in critical thinking, intellectual, and personal growth.
- An understanding of the value of social consciousness and personal
  responsibility.

Potential Occupations

Both theoretical understandings of and practical experience in cross-
cultural and inter-ethnic relations are invaluable in today's world.
Ethnic Studies graduates work in the following fields and occupations:
K-12 and adult education (e.g. refugee/immigrant education, diversity
training in the private sector); human social services including
counseling, health care, and civil service; federal, state, tribal, and local
government, and community service; natural resources development and
technology transfer; practices, economics, and law in ethnic contexts;
communications media such as newspaper, radio, video, and television;
archival and museum studies; non-profit agencies; and advanced studies
including graduate programs in the social sciences and professional
programs (e.g. law, social work).

The minor in Ethnic Studies

The minor in Ethnic Studies provides an opportunity for students to take a group of courses that address the impact of race, culture, class, gender, and sexuality in shaping institutions, social relations, and identities. Regardless of the main area of students' academic focus and career aspirations, a minor in Ethnic Studies will be advantageous as employers and organizations increasingly look for individuals capable of communicating across differences of identities.

Requirements

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Effective Fall 2020

Students in the Ethnic Studies minor must earn a minimum grade of C (2.000) for all Ethnic Studies courses required for the minor.

Minor in Indigenous Studies

The objective of the Indigenous Studies minor is to provide students with a deep understanding of the theoretical positions and practical applications central to Indigenous ways of knowing and being. The minor is dedicated to foundational knowledge and awareness of Indigenous scholarship, priorities and ways of engaging.

Learning Objectives

- Describe and demonstrate knowledge of traditional and contemporary Indigenous cultural experiences and knowledge production through theories and conceptual practices of Indigeneity; distinguish from stereotypical ideas and images and/or the abundance of misrepresentations.
- Apply and explain central environmental approaches and paradigms of nature from Indigenous values, histories, norms, and contemporary engagements.
• Integrate and demonstrate skills in the application of Indigeneity as it relates to kinship, gender, sexuality that include critical, creative, concise and accessible comprehension.
• Assess and conduct research on historical and contemporary policy/law in written and oral content that include relevant application and accessible comprehension.
• Analyze research from Indigenous methodological perspectives. Describe the dissemination of knowledge from Indigenous scholarship paradigms.

Requirements
Effective Fall 2020

Additional coursework may be required due to prerequisites.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Master of Arts in Ethnic Studies, Plan A

The Master of Arts in Ethnic Studies, Plan A provides students with a comprehensive understanding of the enduring and transformative nature of race and ethnicity in the United States and around the globe. The program develops professional competencies in working with diverse communities to bring about meaningful social change. Through the development of strong research, writing, and oral skills, a master’s degree in ethnic studies prepares students to become informed citizens and competitive job seekers. Our students are uniquely positioned to enter a workplace that is more diverse than ever, and where issues of race, ethnicity, gender, and sexuality, among others, are more relevant than at any time in the recent past.

Professor Robert Gudmestad, Chair

Undergraduate History majors at CSU find an engaged community of peers and professors who want to explore the past. Our curriculum allows students to follow and expand their interests. CSU History faculty challenge students, helping them build critical thinking, research, and communication skills in the classroom and apply those skills in world.

Graduate students take rigorous seminars, pursue internships, and work with professional public historians to build a range of skills. Some go on to PhD programs and many enter the workforce as historians, cultural resource managers, city planners, library and archive professionals, park interpreters, and teachers. Our graduate alumni join an active, growing network of people with careers from the National Library of Congress to the Grand Rapids Museum.

Graduate Programs in History

The Department of History at CSU chooses a select group of students each year for its Master of Arts program in History and in Public History. Earning an M.A. in History at CSU is a step toward any number of exciting future paths including:

- A successful career in public history working for Federal or state agencies, in consulting, for non-profits and communities, and more. Our concentration in Cultural Resource Management & Historic Preservation is nationally renowned and has a high job placement rate.
- Advancing the careers and deepening the knowledge base of social studies and history teachers.
- Pursuing a Ph.D. in a field in which our faculty has expertise. We have a considerable concentration of established historians who study U.S. History, Public History, and Environmental History.

We offer three programs of study in which students can earn their M.A.:

- Write a thesis on Plan A
- Earn your degree without a thesis on Plan B
- Specialize in Cultural Resource Management & Historic Preservation.

Regardless of the program of study students select, they will work closely with one another and with the department’s faculty mentors. Our department is committed to high-quality mentoring and to providing hands-on experience through internships, service-learning projects, and paid research positions at the Public Lands History Center. Although our curriculum is geographically based, the content of our graduate seminars explores themes of gender & sexuality, class, race & ethnicity, environment, and more. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of History (https://history.colostate.edu/graduate/) website.

Major in History
History: it’s about time.

From how we express emotions to what we eat for breakfast, every aspect of human life is shaped by political, environmental, social, and cultural factors over time. As these factors change, people’s lives change.

At CSU, we ask historical questions and follow the evidence to understand what happened in the past and why it happened. Through historical research, we move away from judgment and assumptions about other cultures and instead learn from every historical moment, including our own.

The Major and Minor in History at CSU offer students courses that encompass human history around the world, as well as several distinct features linked to our history as Colorado’s Morrill Act land-grant university (https://catalog.colostate.edu/general-catalog/about-csu/land-grant/). We have led in the creation of graduate public history programs, and now have an undergraduate concentration in Digital and Public History, as well as concentrations in General History, Language, and Social Studies Teaching.

Our History majors work in many different careers (https://history.colostate.edu/careers/) in public history in museums, archives, state and local government agencies in historic preservation and cultural resources management, the National Park Service and Forest Service, and consulting; they work in schools as teachers and administrators; they work in public service; and they are prepared for graduate and professional school in a variety of fields. We offer internships in many of these fields for CSU credit to help students explore their interests in history.

Whichever concentration you choose, our Blaze Your Trail program will allow you to follow your interests across time and space in our curriculum. Here are the major themes we offer to help you link your coursework and create personalized pathways through the History major:

• War & Diplomacy
• Women & Gender
• Revolution
• Race & Ethnicity
• Empire, Colonialism, & Borderlands
• Religion
• Environment

Learning Outcomes

Students in History courses:

• Analyze and interpret historical materials, such as documents, material artifacts, and images;
• Engage in chronological reasoning to understand causation and change over time;
• Examine critically how people in the past understood their own history in scholarly works and in popular forms such as myths, memorials, and other public commemorations;
• Interpret, write, and speak about the past using evidence and according to the standards and expectations of the historical discipline, including honest use of evidence, openness to multiple perspectives, and historical empathy; and
• Analyze both change and continuities over time by considering how events such as revolution, migration, war, ecological disturbance, and globalization changed societies as well as how structures like class, ethnicity, gender, race, sexuality, climate and religion shaped societies over a longer time horizon.

Accelerated Program
The major in History includes an accelerated program option for students in the Digital and Public History concentration, General History concentration, and Language concentration to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over three summer sessions. Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs.

Concentrations
• Digital and Public History Concentration
• General History Concentration
• Language Concentration
• Social and Behavioral Sciences Concentration
• Social Studies Teaching Concentration

Major in History, Digital and Public History Concentration
The Digital and Public History Concentration offers an opportunity for focused coursework in public history (i.e. National Parks, historic preservation, cultural resources management, etc.) and digital history, which applies twenty-first century tools and technologies to understand and interpret the past. This concentration also requires an internship for at least 3 credits, so students receive real-world experience in these fields before graduation.

History majors who select the Digital and Public History concentration must complete another major or minor offered at CSU (except the minor in History).

Requirements
Effective Fall 2021
A minimum grade of C (2.00) must be earned in HIST 492 and all 100-level courses required in the history major.

1. Students must complete a minor or second major to fulfill the requirements for the major in History - Digital and Public History concentration. Select any minor offered at CSU except the History minor for a minimum of 21 credits; or select any second major offered at CSU for a minimum of 27 credits.

2. Select one Upper-Division course from two of the following categories: Africa, East Asia, Europe, Latin America/Caribbean, Middle East, South Asia, World/Trans-regional. See Upper-Division Course Categories table.

3. With approval of advisor, select one Upper-Division course with a digital component, OR HIST 487 (3 credits), OR a second course not previously taken from the 'Select one' list in Senior year.

4. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

### Major Completion Map

**Distinctive Requirements for Degree Program:**
Students must earn a C (2.000) or better in all 100-level History classes and HIST 492 capstone.

**Program Total Credits:** 120

**Major in History, General History Concentration**

The General History concentration is an excellent choice for students planning careers in history, government service, or other professional occupations requiring broad intellectual and practical skills, and it offers students maximum flexibility with History electives so students can pursue their own intellectual passions across our curriculum. Use our Blaze your Trail tool to find courses with common themes and perspectives in these fields:

- War & Diplomacy
- Women & Gender
- Revolution
- Race & Ethnicity
- Empire, Colonialism, & Borderlands
- Religion
- Environment
History majors who select the General History concentration must complete another major or minor offered at CSU (except the minor in History).

**Requirements**

**Effective Fall 2021**

A minimum grade of C (2.00) must be earned in HIST 492 and all 100-level courses required in the history major.

Major in History, Social Studies Teaching Concentration

The Social Studies Teaching concentration is for students who plan to teach in middle school, junior high, or high school. Students must also complete the requirements for the Social Studies Undergraduate Teaching Licensure through the Center for Educator Preparation (CEP) (http://cep.chhs.colostate.edu/) in the College of Health and Human Sciences.

Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (CEP) (http://cep.chhs.colostate.edu/) and the School of Education, or visit the Education Building, Room 111 for general information.

Requirements
Effective Fall 2021

Distinctive Requirements for Degree Program:
During their sophomore year, students must apply for admission to the licensure program. This requires completion of at least 30 credits, a minimum 2.750 GPA, and passing a criminal background check. To continue in the major, students must maintain a 3.000 GPA. Grades in all History, Social Studies and Education courses must be C (2.000) or above.

1. Select from the list below, with advisor approval, to fulfill the All-University Core Curriculum (AUCC) category 4A requirement. The selected course may apply toward the History, upper-division (U.S. or non-U.S.) program requirements.

2. Any student seeking to register for 300- or 400-level history courses must have completed 45 credits or have received written consent from the instructor.
Select three upper-division courses from at least two different non-U.S. categories (Africa, East Asia, Europe, Latin America/Caribbean, Middle East, South Asia, World/Trans-regional) for a total of 9 credits. The selected History, Category 4A course may apply towards this requirement.

Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

**Minor in History**

The minor in History allows students to explore historical questions and issues while broadly exploring the past—or Blaze Your Trail by following their intellectual passions across our curriculum:

- War & Diplomacy
- Women & Gender
- Revolution
- Race & Ethnicity
- Empire, Colonialism, & Borderlands
- Environment

This very customizable minor consists of 21 semester credit hours, 12 of which must be taken at the upper-division level, and complements a wide variety of majors in other disciplines, such as international studies, political science, economics, natural resources, foreign languages, literature, anthropology, sociology, and philosophy. Majors in business, mathematics, the sciences, and communication can use the minor to apply interpretive and analytical skills to evaluate and assess evidence and sources.

To declare the minor in History, please obtain a declaration form from the History Office, B356 Clark, or email Allison Pine for details.

**Requirements**

**Effective Fall 2019**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

**Master of Arts in History, Plan A, Liberal Arts Specialization**

The Master of Arts in History, Plan A, Liberal Arts Specialization offers students the opportunity to write an original thesis. Working closely with a faculty mentor in one of our department's areas of expertise (for example, U.S. history, environmental history, public history), students on Plan A conduct archival research to author an original piece of scholarship. Coursework on Plan A, and in all of our programs of study, is based in small seminars and stresses historiography, research methods, and hands-on experience.

The Plan A program of study requires proficiency in a language other than English. This requirement can be met through an exam or through coursework.

Master of Arts in History, Plan B, Liberal Arts Specialization

The Master of Arts in History, Plan B, Liberal Arts specialization is a rigorous degree plan based in coursework and internships, but which does not require a thesis or foreign language proficiency test. This program of study is especially appropriate for those desiring to pursue studies in general public history, employment in secondary education (licensure may be required), or who do not want to pursue further advanced degrees.

Working closely with a faculty mentor in one of our department’s areas of expertise (for example, U.S. history, environmental history, public history), students on Plan B complete coursework and are encouraged to pursue internships or practicums. Coursework on Plan B, and in all of our programs of study, is based in small seminars and stresses historiography, research methods, and hands-on experience.

Master of Arts in History, Plan B, Public History Specialization, Historic Preservation Option

The Master of Arts in History, Plan B, Public History Specialization, Historic Preservation option provides a specialized degree plan that provides training in historical method and theory, architectural history, heritage studies, digital history, community engagement, and hands-on experience completing the types of work most common in the field of Historic Preservation (identification, interpretation, rehabilitation, and management of historic and prehistoric resources and landscapes). Historic Preservation professionals often enter careers with federal or state land management agencies, city planning offices, consulting firms, and non-profit organizations.

Coursework in the Historic Preservation option, and in all of our programs of study, is based in small seminars and stresses historiography, research methods, and hands-on experience. Students are required to complete at least 3 credits of internship. 

Beginning Spring 2022 please refer to the Master of Arts in History, Plan B, Cultural Resource Management & Historic Preservation Option.

Interdepartmental and Interdisciplinary Minors

Media Studies Minor
The Departments of Journalism and Media Communication and Communication Studies jointly offer a minor in Media Studies. See the minor in Media Studies under the College of Liberal Arts.

Music, Stage, and Sports Production Interdisciplinary Minor
The Department of Journalism and Media Communication and the School of Music, Theatre, and Dance offer an Interdisciplinary Minor in Music, Stage, Sports Production.

Information Science and Technology Interdisciplinary Minor
The Department of Journalism and Media Communication participates in an Interdisciplinary Minor in Information Science and Technology (http://catalog.colostate.edu/general-catalog/university-wide-programs/interdisciplinary-studies/information-science-technology-interdisciplinary-minor/).

Graduate

Graduate Programs in Journalism and Media Communication
The department offers a Master of Science in Journalism and Media Communication for students aspiring to communication management careers in technical and scientific communication, public relations, or
public information for business, industry, government, and educational institutions.

The department's Ph.D. program in Public Communication and Technology enables students to explore the role of information in the public's understanding of contemporary issues and the impact of new communication technologies in people's lives. Doctoral students develop expertise in one of three areas: human behavior and technology, organizations and technology, or social policy and technology.

A description of these programs may be found in the Graduate and Professional Bulletin and the Department of Journalism and Media Communication (http://journalism.colostate.edu).

Major in Journalism and Media Communication

The study of journalism, mass communication, and specialized media combines high-level professional training with a broad foundation in the liberal arts. All students complete a common 24-credit core, including writing, multimedia, and conceptual courses, as well as a capstone course. Students work closely with their Academic Success Coordinator and Faculty Advisors to select an additional 22 credits in a focus area crafted to match their career interests with options in Journalism and Storytelling, Media Production and Strategic Communication.

Practical experience can be gained on the staffs of the Rocky Mountain Collegian, the award-winning campus television station Collegian TV, College Avenue magazine, and KCSU-FM Radio. Graduating seniors present professional portfolios for assessment by panels of faculty and communication professionals from Denver and elsewhere in Colorado. Because successful communicators require broad knowledge, this flexible program encourages development of a background in the humanities, social sciences, natural sciences, and in-depth study in an area of interest outside journalism. The addition of a minor or double major in disciplines such as political science, information technology, history, economics, business, communication studies, psychology, the arts, or natural or applied sciences is possible.

The Department of Journalism and Media Communication is one of a relatively small number of departments formally recognized by the Accrediting Council on Education in Journalism and Mass Communications. Participation in volunteer activities, cooperative
education opportunities, or communication-related part time jobs is highly recommended to enhance practical training and development.

### Learning Outcomes

Students will demonstrate:

- Competence in writing, editing, and producing media messages as well as in planning, designing, and evaluating effective public information programs.
- Knowledge and use of communication theory and research principles to guide the selection of communication audiences, message content and format, and media channels to enhance communication impact.
- Understanding of the ethics, laws, and values associated with professional communication activity.

### Accelerated Program

The major in Journalism and Media Communication includes an accelerated program option (https://provost.colostate.edu/accelerated-programs/) for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (https://summer.colostate.edu/acceleratedprograms/). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (https://provost.colostate.edu/accelerated-programs/).

### Potential Occupations

The Journalism and Media Communication program emphasizes the role of mass and specialized media in society and prepares students for entry-level work in private business, government, and education. Depending upon the focus of study, students may find career opportunities in a wide variety of professional communication venues. Specific career opportunities may include: advertising copywriter, designer, or producer; agriculture writer, reporter, or editor; attorney specializing in communication law; blogger, columnist, or editorial cartoonist; college professor; communications manager or director; company spokesperson; corporate media specialist; e-mail and direct mail strategist; environmental media specialist; freelance writer, editor, or photographer; health writer, editor, or producer; marketing coordinator; media relations director or strategist; multimedia producer; non-profit communications director; novelist or non-fiction author; reporter or photojournalist for the web, magazines, newspapers, or television; owner of public relations agency or production company; professional speaker; public affairs officer for government agency; public relations agency account executive; publication designer for magazines or newspapers; radio disc jockey, reporter, or music director; reality television producer; writer, photographer, or on-camera talent; science writer or editor; social media specialist; sports writer, photographer, or producer; technical writer or editor; teacher for any level of K-12 education upon completion of appropriate licensing (see the Center for Educator Preparation (http://cep.chhs.colostate.edu/)); television news anchor or program host; television or radio news program producer or director; television documentary producer; travel writer, photographer, or program host; video editor for news, corporate, or entertainment television; website designer and manager.

### Requirements

#### Effective Fall 2021

All majors in the department must earn a minimum grade of C (a grade of C- is not acceptable) in each course that carries the JTC subject code.

#### Association for Education in Journalism and Mass Communication Accreditation Requirements

Majors in Journalism and Media Communication must take a minimum of 46 credits of JTC courses and a minimum of 66 credits outside of JTC.

Of the 66 credits outside of JTC, 21 must meet one of the following Second Field criteria with approval of advisor:

1. a Minor;
2. an Interdisciplinary Minor;
3. 21 credits in one subject code;
4. 9 credits from one subject code and 12 credits from a second subject code;
5. a selection of 21 credits comprising a Second Field developed by the student and the advisor.

Courses taken outside of the department may include All-University Core Curriculum (AUCC) courses, Minor or Second Field courses, or any other out-of-department (non-JTC) courses used to complete the major as approved by advisor.

The 46 JTC required credits include 24 credits specified in the curriculum below plus 22 credits of directed electives to create an individualized focus area from the following categories (Writing, Production, Internship/Practicum, Advanced, Additional credits).

#### Directed Electives for Individualized Focus Area

Over the sophomore, junior, and senior years, students must complete a minimum of 22 credits in an individually designed focus area. Students must select those 22 credits from among the following categories and courses in consultation with advisor, as follows:

1. Of the 21 credits required for the Second Field, 12 must be upper-division (300- to 400-level) and none may be from JTC.

2. With approval of the department and advisor, students may substitute a 400-level Journalism and Media Communication study abroad course for 1 credit of the Internship/Practicum requirement and up to 3 credits of the Additional Credits requirement, for a maximum total of 4 credits for study abroad.

3. High-achieving students, with approval of advisor, may select JTC 544 to satisfy 3 credits of the Additional Credit requirement.

4. Select a minimum of 22 credits of Focus Area courses and 21 credits of Second Field courses over the sophomore, junior, and senior years, in consultation with advisor.

5. Select a three-credit statistics course offered by any department, with approval of advisor.

6. Select 3 credits other than JTC 100 from the list of courses in category 3C of the AUCC. Students in this major must take 3 credits of Social and Behavioral Sciences other than JTC 100, which is required in the freshman year.

7. If either JTC 411 or JTC 415 was taken as a Concept Course in the junior year, students may take any different concept course here.

8. Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

**Minor in Science Communication**

The minor in Science Communication is designed to educate highly qualified communicators who have interests in specialized academic disciplines and career fields. Because science often involves complicated research and processes, communicating the results of that work requires special skills.
This program is designed to prepare students for a wide range of niche career opportunities in media, corporate communication, science-related industries, and scientific environments.

Requirements

Effective Fall 2021

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

### Master of Communications and Media Management, Plan C (M.C.M.M.)

The Master of Communications and Media Management, Plan C (M.C.M.M.) is designed for students with a bachelor’s degree seeking to transition to a communication-related career, or for those seeking to move up into a management role in their present media profession. The rapid rate of technological change in media technology has created a need for constant retraining and the acquisition of new multimedia knowledge and management skills. The program curriculum is designed to provide students with a comprehensive overview of "new media" developments. Upon completion of the program, students will be prepared to strategize and manage specific communications projects, as well as manage and direct staff members or contract workers in a communications unit within a corporate, educational, or nonprofit organization.

The Teacher Preparation Program is a non-degree program; bachelor degrees in education are not awarded. Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (CEP) (https://www.chhs.colostate.edu/soe/center-for-educator-preparation/) and the School of Education section for general information.

- Teaching Endorsement

Minor Programs

A minor in a foreign language offers opportunities for studying the language and culture of another country and complements many major fields. A student with a broadly based education, including a foreign language, will be better prepared to deal with changing technological, economic, and social conditions on an international scale. A student who minors in a foreign language may expect to develop sufficient competency to speak and write with reasonable accuracy and fluency while pursuing interest in language, literature, and culture. See the department for specific information on upper-division transfer work in the language of the minor.

All majors and minors in the department must earn a minimum grade of C (a grade of C- is not acceptable) in each upper-division course that carries the LARA, LASL, LCHI, LFRE, LGEN, LGER, LITA, LJPN, LLAT, LRUS, or LSPA subject code.

1. No more than six credits of these German elective courses may be taken in English.
2. If a student has credit for LGER 200 and LGER 201, they only need to take one additional elective course in their junior year.
3. Students must select either LGER 335 or LGER 336. Whichever of the two is not selected may be included among the selection of three courses in the junior year.
4. LGER 492 may be taken for up to six credits.
Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 9 elective credits must be upper-division.

Major in Languages, Literatures, and Cultures, Spanish for the Professions Concentration

This concentration will provide students with a foundation in Spanish for professional contexts, such as animal care, business, health care, and translation & interpreting. While receiving a foundation in the Spanish language, literature and culture, students will specialize in course sequences in an area of their choice from among the options LLC offers.

Requirements
Effective Fall 2021

All majors and minors in the department must earn a minimum grade of C 2.000 (a grade of C- is not acceptable) in each upper-division course that carries the LARA, LASL, LCHI, LFRE, LGEN, LGER, LGRK, LITA, LJPN, LKOR, LLAT, LRUS, or LSPA subject code.

Minor in Chinese
Requirements
Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

All majors and minors in the department must earn a minimum grade of 'C' 2.000 (a grade of C- is not acceptable) in each upper-division course.

Any transferred language courses (other than gtPathways courses) will be evaluated by the Department of Languages, Literatures and Cultures for equivalency to CSU language courses or as substitutions for CSU language courses.

Students must complete the following courses. If students place out of or directly into LCHI 201, they must complete additional courses to complete the minor.¹

¹ Students placed out of or directly into LCHI 201 must complete additional lower-division or upper-division courses to complete the minor. Students should consult with their advisor about possible course substitutions (HIST 120, HIST 121, LCHI 205, LCHI 250, or PHIL 172).
Minor in German

Requirements

Effective Fall 2015

All students minoring in German must complete a minimum of 21 credits in the language of the minor, of which at least 15 credits must be upper-division (300- to 400-level).

Additional coursework may be required due to prerequisites.

All majors and minors in the department must earn a minimum grade of C (a grade of C is not acceptable) in each upper-division course that carries the LGER subject code. Courses taught in English may not be used to meet the requirements for the minor.

Any transferred language courses, other than gtPathways courses, will be evaluated by the Department of Languages, Literatures and Cultures for equivalency to CSU language courses or as substitutions for CSU language courses.

Minor in Japanese

Requirements

Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

All majors and minors in the department must earn a minimum grade of C (a grade of C is not acceptable) in each upper-division course that carries the LJPN subject code.

Any transferred language courses, other than gtPathways courses, will be evaluated by the Department of Languages, Literatures and Cultures for equivalency to CSU language courses or as substitutions for CSU language courses.

1 Students must complete lower-division language courses or place out of lower-division courses through the online placement test. Students who place into LSPA 201 or LSPA 300 will have to replace some or all of the lower-division credits with upper-division Spanish classes or other language-appropriate, department-approved, non-LSPA courses.

2 Designated courses count toward the culture or literature requirement.

3 Other courses, such as LSPA 495 or LGEN 290 may be petitioned to substitute for one of the courses above.

Any transferred language courses, other than gtPathways courses, will be evaluated by the Department of Languages, Literatures and...
Cultures for equivalency to CSU language courses or as substitutions for CSU language courses.

**Interdisciplinary Minor in American Sign Language**

The Interdisciplinary Minor in American Sign Language will increase students' proficiency in sign language and provide them with key tools for the workforce of the 21st century. Students are provided a solid foundation in the way Deaf culture, Deaf history and language accessibility intersect with power, equality and human connection. A minimum of 21 credits is required for the program.

Dr. Daniel Goble, Director, School of Music, Theatre, and Dance

Undergraduate

The School of Music, Theatre, and Dance at CSU provides a rigorous undergraduate educational experience.

CSU Music believes that music is both an artistic and intellectual pursuit. We offer intense training in specialized music disciplines combined with a balance of core music courses in music history and theory. Our renowned and versatile faculty are committed to helping students discover their own unique identities through music. We offer Bachelor of Music (B.M.) degrees in Music Therapy, Music Education, Music Composition, and Music Performance, as well as a Bachelor of Arts in Music (B.A.). Additionally, undergraduates can earn a performance-based music minor.

CSU Theatre emphasizes a reciprocal relationship between practice and scholarly study. Students explore every aspect of theatre, including the theory and practice of acting, singing, theatrical design, stage management, technical theatre, dramaturgy, dramatic criticism, storytelling, and playwriting. Students pursuing a Bachelor of Arts in Theatre (B.A.) choose one of three concentrations: General Theatre, Performance, or Design and Technology. Each concentration provides fundamental skills and experiences in theatre within a liberal arts context.

CSU Dance offers programs in classical and contemporary dance education culminating in either a Bachelor of Fine Arts in Dance (B.F.A.) or a Bachelor of Arts in Dance (B.A.). Students focus on areas such as performance, technique, and foundations; choreography and improvisation; pedagogy and teaching methodologies; history and theory; and theatrical production and design. Dance majors explore the many possibilities for movement expression, along with creativity and scholarly examination, in a challenging and supportive environment.

Majors

- Major in Dance (B.F.A. and B.A.)
- Major in Music (B.M.)

Minors

- Minor in Music
- Minor in Theatre – Acting/Directing (No new students are being accepted to this program of study.)
- Minor in Theatre – Design/Technical Theatre (No new students are being accepted to this program of study.)

Graduate

The School of Music, Theatre, and Dance offers graduate programs leading to the Master of Music (M.M.), offering students the skills and experience necessary to become highly skilled music educators, music therapists, performing artists, and conductors.

The vibrant learning environment fosters and supports creativity and growth while high standards of teaching, scholarship, performance and research are developed. We are pleased to offer small academic classes, applied study with highly qualified faculty, and careful attention to advising. With over 100 performance dates a year, performance opportunities are extensive and the department represents the arts on campus in a highly visible and prestigious environment.

Applicants to graduate programs in music must have a B.M., B.M.E., or equivalent bachelor’s degree. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the School of Music, Theatre, and Dance (http://music.colostate.edu/).

Major in Dance

Office in University Center for the Arts, Room 120
(970) 491-5529
SMTD@colostate.edu
dance.colostate.edu (http://dance.colostate.edu)

Professor Emily Morgan, Director

The Colorado State University Dance Program offers rigorous training in classical and contemporary dance forms that prepares majors for careers in the field of dance. Dance students explore the many possibilities for movement expression, along with creativity and scholarly examination, in a challenging and supportive environment. In addition to regular training in ballet and modern dance technique, the curriculum requires performance, choreography, pedagogy, production, and academic coursework. Numerous performance opportunities include five separate productions each year and regular guest artist residencies and master classes. The Bachelor of Arts (B.F.A.) is a professional education program designed to prepare students for careers in dance. The Bachelor of Arts (B.A.) in Dance allows students to tailor their study of dance to fit their interests and is designed to prepare students for a variety of dance-related careers. The B.A. is designed for students wishing to double major in dance and another field.

Students not majoring in dance are encouraged to enroll in dance technique courses, space permitting. Any student enrolled in a dance technique class is eligible to audition for a role in a dance performance.
Auditions for performances are held each semester. Come join the dance community at CSU!

**Why Dance at CSU**

- Diverse faculty with expertise and qualifications on national and international levels
- Experiential coursework and leadership opportunities including supervised teaching, direction, choreography, and performance
- Individualized mentorship from faculty and fellow students
- Live musical accompaniment for technique classes
- Exceptional guest artist residencies and masterclasses with world-renowned artists from companies such as Compagnie Käfig, Complexions Contemporary Ballet, Martha Graham Dance Company, Keigwin + Company, Parsons Dance, and more
- Community partnerships with the Fort Collins Lincoln Center and Poudre School District
- Travel opportunities for majors to attend Colorado Dance Education Organization, National Dance Education Organization, and the American College Dance Association conferences
- World-class facilities and immersive arts environment in the University Center for the Arts
- Excellent general education at a premier research university ranked in the top tier of the nation’s best universities (U.S. News and World Report)
- Ability to double major or minor in a variety of other disciplines to enhance career prospects
- Alumni achievements in dance performance, teaching, choreography, arts advocacy and management, theatrical production, fashion design, exercise science, physical therapy, business, education, and somatic practices

**Majors**

- Major in Dance, B.F.A.
- Major in Dance, B.A.

**Dance Audition**

In addition to applying to CSU through the Office of Admissions, a successful audition with CSU Dance faculty is required for entrance into both the B.F.A. and the B.A. Admission to the dance major is competitive, and therefore it is important to apply early. Visit Dance Audition Information (https://dance.colostate.edu/audition/) for more information.

**Major in Dance, B.A.**

The Bachelor of Arts in Dance (B.A.) offers comprehensive education and training in classical and contemporary dance techniques, performance, choreography, and pedagogy. Focus areas include:

- Technique, Performance, and Repertoire
- Choreography and Improvisation
- Pedagogy and Teaching Methodologies
- History and Theory
- Technical Production and Design
- Guest Artists and Masterclasses

The B.A. allows students to tailor their study of dance to fit their interests and is designed to prepare students for a variety of dance-related careers after college. With opportunities for scholarly and creative research, community engagement, and interdisciplinary collaboration, the degree is constructed for students wishing to double-major in dance and another discipline. Technique classes in contemporary and classical forms aim to help students achieve a high level of performance and artistry. Students apply theoretical knowledge in tangible ways, such as performance of repertoire, supervised teaching opportunities, concert direction, independent projects, and choreography for concerts. The School of Music, Theatre, and Dance is comprised of esteemed faculty and administrative and production staff, all dedicated to supporting student education in the arts.

**Dance Audition**

In addition to applying to CSU through the Office of Admissions, a successful audition with CSU Dance faculty is required for entrance into both the B.F.A. and the B.A. Visit Dance Audition Information (https://dance.colostate.edu/audition/) for more information.

Major in Dance, B.F.A.

Colorado State University offers a rigorous classical and contemporary dance program culminating in a Bachelor of Fine Arts in Dance. The degree requires a strong physical and mental commitment and an eagerness to learn and improve, and consists of 120 total credits with the following focus areas:

- Technique, Performance, and Repertoire
- Choreography and Improvisation
- Pedagogy and Teaching Methodologies
- History and Theory
- Technical Production and Design
- Guest Artists and Masterclasses

Our B.F.A. degree is a professional education program designed to prepare students for careers in dance. Dance students explore the many possibilities for movement expression, along with creative and scholarly examination, in a challenging and supportive environment. Curriculum is focused on classical and contemporary dance performance, choreography, and pedagogy. This holistic approach also includes anatomy and kinesiology, music, production design, and career development. Technique classes in classical and contemporary forms are aimed at achieving an advanced level of performance and artistry. Students have multiple opportunities to apply theoretical knowledge in tangible ways, such as performance of repertoire, supervised teaching, supervised concert direction, and choreography for concerts. Beginning freshman year, students are eligible to perform in our four, annually produced dance concerts. The School of Music, Theatre, and Dance is comprised of esteemed faculty and administrative and production staff, all dedicated to supporting student education in the arts.

Dance Audition

In addition to applying to CSU through the Office of Admissions, a successful audition with CSU Dance faculty is required for entrance into both the B.F.A. and the B.A. Visit Dance Audition Information (https://dance.colostate.edu/audition/) for more information.

Requirements

Effective Fall 2020

A successful audition is required prior to entrance into the B.F.A. in Dance. A minimum grade of C is required in all dance courses required for this major.

Major in Music (B.M.)

The Bachelor of Music (B.M.) at CSU is a professional degree program, with concentrations designed to prepare students to become highly skilled music educators, music therapists, performers, and composers. Program goals encourage and develop high standards of teaching, scholarship, performance, and research in music. We are pleased to offer small academic classes, applied study with highly qualified faculty, and careful attention to advising. A successful audition is required prior to entrance into the Bachelor of Music (B.M.) programs.

Courses in music appreciation, music theory fundamentals, and ensembles are open to all students regardless of major.

Learning Outcomes

Students will demonstrate:

- Ability to perform music from a variety of historical/ style periods appropriate to the area of specialization, and exhibit the appropriate skills for musical self-expression in juried performances, public concerts, and other performance situations. These skills include: technique, musicianship, tone, diction/articulation, style, interpretation, sight-reading, rhythm, and artistry.
- Keyboard skills appropriate to the area of specialization
- The capacity to create original or derivative music.
- Understanding of the common elements and organizational patterns of music, including musical forms, processes, and structures.
- Knowledge of music history and repertory, including representative composers and works according to the area of specialization, as well as study and experiences with music in addition to that of the primary culture encompassing the area of specialization.

Performance skills and artistry appropriate to the area of specialization are tested throughout the course of study, at the end of the sophomore year, and in a graduation recital if required by the degree option. Some programs require satisfactory completion of supervised student teaching, an internship, or a senior project.

Potential Occupations

The professional undergraduate music curricula at CSU can lead to personally fulfilling careers as music educators, music therapists, performers, composers, private teachers, and entrepreneurs. Music graduates from CSU have successfully gained employment in public and private schools, hospitals and institutions, and as professional performers and composers, and/or have advanced to outstanding graduate programs throughout the United States.

Music Audition
In addition to applying to CSU through the Office of Admissions, a successful audition with CSU Music faculty is required for entrance into the B.M. in Music. Please refer to the School of Music, Theatre, and Dance (https://music.colostate.edu/admissions/undergrad-apply/) website for information regarding auditions and specific application requirements.

Music Program Fee
A music program fee is assessed with undergraduate and graduate music majors and minors, per semester. The fee does not apply to the following students: online degree students, summers-only master’s degree students, music therapy students in an internship off-campus, music education students who are student teaching off-campus, and music minors who are not actively enrolled in any lessons or ensembles. Please visit the Office of the Provost and Executive Vice President (https://provost.colostate.edu/students/) for special course fees.

Major in Music (B.M.), Composition Concentration
The Composition concentration is a professional undergraduate degree program designed to prepare the student to compose original music for a wide variety of genres, including symphonic works, chamber music, electronic music, and music for media. Course work emphasizes comprehensive musicianship, with particular emphasis on individualized study in music composition.

Music Audition
In addition to applying to CSU through the Office of Admissions, a successful audition with CSU Music faculty is required for entrance into the B.M. in Music. Please visit Music Audition Information (https://music.colostate.edu/admissions/undergrad-apply/) for more information.

Students with previous keyboard experience may test out of MU 150 and/or MU 151B and replace with the same number of elective credit(s).

First-year voice students take MU 172A and MU 172B, then MU 272Q the second year for 2 semesters. Instrumentalists take MU 272A-MU 272P or MU 272R-MU 272V on a major instrument for 2 semesters each of the first 2 years.

Students must participate in an ensemble during each semester in which they are enrolled in MU 172A-MU 172B or MU 272A-MU 272V. An additional four credits of ensembles are to be completed in semesters of the student's choosing for a total of eight credits. At least one semester during the program of study, this must be achieved by taking MU 408 or another small ensemble.

Students take two credits of electives. Instrumentalists take four credits of electives.

Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major in Music (B.M.), Music Education Concentration

The Bachelor of Music, Music Education Concentration is a professional degree program that prepares students for teaching choral, instrumental, and general music in elementary and secondary schools. This degree prepares students to apply for music teaching licensure (grades K-12) in the state of Colorado. CSU’s outstanding music education faculty members are in demand as clinicians, guest lecturers, conductors, and researchers. A feature unique to the accredited music education curriculum is extensive field experience that students receive throughout their coursework, culminating in a semester of student teaching at the end of the program. Students must select one of two options: instrumental or choral. Upon completion of this degree, students are poised to:

- be highly qualified practitioners and leaders in K-12 education at the elementary and secondary levels;
- apply learned skills in professional K-12 music teaching settings, including age-appropriate instructional delivery, ensemble leadership, curricular and pedagogical process, learning theory, and the impacts of assessment on student learning;
- create music curriculum assessment tools designed to measure both simple and complex learning in both classroom and studio/applied settings;
- engage in informed critical discussion regarding current standards-based frameworks in music and in contemporary K-12 American education contexts;
- define national trends in music education that impact K-12 educational settings;

Options

- Choral Option
- Instrumental Option

Music Audition

In addition to applying to CSU through the Office of Admissions, a successful audition with CSU Music faculty is required for entrance into the B.M. in Music. Please visit Music Audition Information (https://music.colostate.edu/admissions/undergrad-apply/) for more information.

Music Program Fee

A music program fee is assessed with undergraduate and graduate music majors and minors, per semester. The fee does not apply to the following students: online degree students, summers-only master’s degree students, music therapy students in an internship off-campus, music education students who are student teaching off-campus, and music minors who are not actively enrolled in any lessons or ensembles. Please visit the (https://provost.colostate.edu/students/)Office of the Provost and Executive Vice President for special course fees.

**Major in Music (B.M.), Music Therapy Concentration**

The Music Therapy Concentration is designed to prepare the student to take the examination of the Certification Board for Music Therapists (MT-BC). Music therapy is the clinical and evidence-based use of music to accomplish individualized goals within a therapeutic relationship. As a MT-BC, graduates may work in a variety of health care settings, including hospitals, clinics, rehabilitation facilities, assisted living centers, and in special education. Some music therapists maintain private practices or serve as consultants.

The undergraduate curriculum includes core music courses, music therapy methods and research courses, and general education courses. All students learn to demonstrate musicianship on several instruments including piano, guitar, and voice. Students engage with community members in a variety of service learning and clinical practicum placements, where they are supervised by board-certified music therapists. Students also complete a clinical internship at one of several approved sites, for a total of 1200 hours of clinical experience (as required by the American Music Therapy Association).

The music therapy program at CSU is internationally recognized for its leadership in clinical training and research. The music therapy area includes the Undergraduate Music Therapy Research Academy and the interdisciplinary Brainwaves Research Laboratory, where students have opportunities for hands-on involvement in music and music therapy research.

---

**Music Audition**

In addition to applying to CSU through the Office of Admissions, a successful audition with CSU Music faculty is required for entrance into the B.M. in Music. Please visit Music Audition Information (https://music.colostate.edu/admissions/undergrad-apply/) for more information.

**Music Program Fee**

A music program fee is assessed with undergraduate and graduate music majors and minors, per semester. The fee does not apply to the following students: online degree students, summers-only master’s degree students, music therapy students in an internship off-campus, music education students who are student teaching off-campus, and music minors who are not actively enrolled in any lessons or ensembles. Please visit the (https://provost.colostate.edu/students/)Office of the Provost and Executive Vice President for special course fees.

**Requirements**

**Effective Fall 2021**

A minimum grade of C (2.000) is required in all music courses used to satisfy the requirements of the BM in Music, Music Therapy Concentration.

Major in Music (B.M.), Performance Concentration

The Bachelor of Music, Performance Concentration is a professional degree that prepares students for potential professional careers in the music and creative industries as performers, entrepreneurs, and private music teachers. It also prepares students for continued study at the graduate level. The curriculum provides a strong foundation in music history, music theory, and performance, with many opportunities for performance, including large and small ensemble participation as well as solo recitals.

In order to complete the Performance Concentration, students must select one of the following options:
Options
- Jazz Studies Option
- Orchestral Instrument Option
- Organ Option
- Piano Option
- Voice Option
- Piano Pedagogy Option (No new students are being accepted to this option.)
- String Pedagogy Option (No new students are being accepted to this option.)

Music Audition
In addition to applying to CSU through the Office of Admissions, a successful audition with CSU Music faculty is required for entrance into the B.M. in Music. Please visit Music Audition Information (https://music.colostate.edu/admissions/undergrad-apply/) for more information.

Music Program Fee
A music program fee is assessed with undergraduate and graduate music majors and minors, per semester. The fee does not apply to the following students: online degree students, summers-only master’s degree students, music therapy students in an internship off-campus, music education students who are student teaching off-campus, and music minors who are not actively enrolled in any lessons or ensembles. Please visit the (https://provost.colostate.edu/students/) Office of the Provost and Executive Vice President for special course fees.

Requirements
Effective Fall 2017
A minimum grade of C is required in all music courses used to satisfy the requirements of the BM in Music, Performance Concentration, Jazz Studies Option.

Major in Music (B.M.), Performance Concentration, Jazz Studies Option
The Bachelor of Music, Performance Concentration, Jazz Studies Option is a professional degree program that offers instrumental students a balanced course of study in both performance and academic classes designed to develop skills in the jazz idiom in addition to comprehensive skills in musicianship, music history, and performance. Students in the program have the opportunity to study jazz history, theory, improvisation, pedagogy and composition and arranging, in addition to taking private lessons with both traditional applied faculty and jazz specialists.

Music Audition
In addition to applying to CSU through the Office of Admissions, a successful audition with CSU Music faculty is required for entrance into the B.M. in Music. Please visit Music Audition Information (https://music.colostate.edu/admissions/undergrad-apply/) for more information.

1. Students with previous keyboard experience may test out of MU 150 and/or MU 151B and replace with the same number of elective credit(s).
2. Major instrument. Take two semesters each during the freshman and sophomore years.
3. Students must participate in an ensemble during each semester in which they are enrolled in MU 275A-MU 275V and MU 475A-MU 475V. At least once during the program of study, this must be achieved by taking MU 408 or through another small ensemble experience.
4. Major instrument. Take two semesters each during the junior and senior years.
5. Select enough elective credits to bring the program total to 120, of which at least 42 must be upper-division (300- to 400-level).

**Major Completion Map**

**Distinctive Requirements for Degree Program:** A minimum grade of C (2.000) is required in all music courses used to satisfy the requirements of the BM in Music, Performance Concentration, Orchestral Instrument Option.

Major in Music (B.M.), Performance Concentration, Organ Option

Music Audition
In addition to applying to CSU through the Office of Admissions, a successful audition with CSU Music faculty is required for entrance into the B.M. in Music. Please visit Music Audition Information (https://music.colostate.edu/admissions/undergrad-apply/) for more information.

Music Program Fee
A music program fee is assessed with undergraduate and graduate music majors and minors, per semester. The fee does not apply to the following students: online degree students, summers-only master’s degree students, music therapy students in an internship off-campus, music education students who are student teaching off-campus, and music minors who are not actively enrolled in any lessons or ensembles. Please visit the Office of the Provost and Executive Vice President for special course fees.

Requirements
A minimum grade of C is required in all music courses used to satisfy the requirements of the major programs (B.A. and B.M.) in music.

Major in Music (B.M.), Performance Concentration, Piano Option

Music Audition
In addition to applying to CSU through the Office of Admissions, a successful audition with CSU Music faculty is required for entrance into the B.M. in Music. Please visit Music Audition Information (https://music.colostate.edu/admissions/undergrad-apply/) for more information.

Music Program Fee
A music program fee is assessed with undergraduate and graduate music majors and minors, per semester. The fee does not apply to the following students: online degree students, summers-only master’s degree students, music therapy students in an internship off-campus, music education students who are student teaching off-campus, and music minors who are not actively enrolled in any lessons or ensembles. Please visit the Office of the Provost and Executive Vice President for special course fees.

Effective Fall 2017

 Requirements
A minimum grade of C is required in all music courses used to satisfy the requirements of the major programs (B.A. and B.M.) in music.

### Major in Music (B.M.), Performance Concentration, Voice Option

The Bachelor of Music, Performance Concentration, Voice Option is a professional degree program that provides students with excellent opportunities for vocal, artistic and personal growth. Each member of the voice faculty provides a nurturing, yet challenging studio environment. The emphasis of process over product allows students to develop a solid platform of vocal technique for realizing their personal artistry.

All voice students study with a highly qualified and experienced faculty of professors of voice. In addition to a seminar for freshman voice majors that supports their transition to collegiate study, voice majors spend the Fall semester of their Freshman year by participating in individual lesson rotations with each of the voice faculty. In their second semester of study, voice majors are placed with a single teacher for the remainder of their degree program to further promote personalized and engaged care for the student throughout their study at CSU.

Voice students have the opportunity to perform in a variety of styles and formats, as both soloists and ensemble members of choirs, opera and musical theater productions, as well as chamber music collaborations. Voice students perform a jury each semester and sing on voice area and departmental recitals throughout the year.

### Music Audition

In addition to applying to CSU through the Office of Admissions, a successful audition with CSU Music faculty is required for entrance into the B.M. in Music. Please visit Music Audition Information (https://music.colostate.edu/admissions/undergrad-apply/) for more information.

### Music Program Fee

A music program fee is assessed with undergraduate and graduate music majors and minors, per semester. The fee does not apply to the following students: online degree students, summers-only master's degree students, music therapy students in an internship off-campus, music education students who are student teaching off-campus, and music minors who are not actively enrolled in any lessons or ensembles. Please visit the (https://provost.colostate.edu/students/)Office of the Provost and Executive Vice President for special course fees.

### Requirements

**Effective Fall 2021**

A minimum grade of C (2.000) is required in all music courses used to satisfy the requirements of the BM in Music, Performance Concentration, Voice Option.

1. Students with previous keyboard experience may test out of MU 150 and/or MU 151B and use the credit(s) for an elective.
2. Students must participate in an ensemble during each semester in which they are enrolled in MU 173, MU 275Q and MU 475Q. At least once during the program of study, this must be achieved by taking MU 408 or through another small ensemble experience.
3. Take in two semesters for a total of 6 credits.
4. Taken in either the Junior or Senior year based upon course rotation.
5. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be Upper-Division (300- to 400-level).

### Major Completion Map

**Distinctive Requirements for Degree Program:**

A minimum grade of C (2.000) is required in all music courses used to satisfy the requirements of the major programs (B.A. and B.M.) in music. Failure to pass a class or UDQE will likely delay graduation.

Major in Music (B.A.)

The Bachelor of Arts (B.A.) in Music allows students to study music within a larger context of a liberal arts education. In comparison to the curriculum leading to the Bachelor of Music (B.M.), less emphasis is placed on studies specifically in music, with greater flexibility for studies in a field outside of music. In lieu of a larger number of credits in music as required for the B.M, the B.A. student completes a 21-credit option in an area outside of music. In addition, completion of a major paper or capstone recital (half recital) is required during the senior year.

A successful audition is required prior to entrance into the B.A. in Music.

Requirements

A minimum grade of C is required in all music courses used to satisfy the requirements of the major programs (B.A. and B.M.) in music.

**Minor in Music**

A performance-based minor in Music enables a student to broaden career opportunities in disciplines outside of music, or to continue pursuing music studies within the structure of a minor program. The minor in Music requires a successful audition (https://music.colostate.edu/admissions/undergrad-apply/) prior to entrance, and includes eight semesters of ensemble participation.

A music program fee is assessed with undergraduate and graduate music majors and minors, per semester. The fee does not apply to the following students: online degree students, summers-only master's degree students, music therapy students in an internship off-campus, music education students who are student teaching off-campus, and music minors who are not actively enrolled in any lessons or ensembles. Please visit the (https://provost.colostate.edu/students/)Office of the Provost and Executive Vice President for special course fees.

**Requirements**

**Effective Fall 2007**

A successful audition is required for acceptance into this program.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Master of Music, Choral Conducting Specialization
The Master of Music, Choral Conducting Specialization program is committed to musical excellence with a curriculum designed to build a well-rounded conductor/teacher, using the musical and personal strengths of the graduate choral conducting student.

By the completion of the program, the student develops advanced conducting skills and techniques that are appropriate to a variety of musical needs. The student learns effective rehearsal techniques, score preparation, and becomes a knowledgeable scholar of important choral scores representing repertoire of various music periods and secular and sacred styles.

The Choral Conducting Specialization accepts a limited number of students who pursue a variety of professional goals, including education and directors of choral/instrumental ensembles. Students who are full-time music educators at the middle/high school levels are considered if they have three years prior teaching experience and are presently conducting an ensemble(s). Students who are not public school educators must show a minimum of three years of full-time music/conducting employment and be presently conducting a high school, religious, or community ensemble.

To develop the musicianship and skills that are important for the student’s future professional success, graduate courses are organized in the areas of music literature and theory, the choral/vocal instrument, conducting, and teaching.

A personal audition (https://music.colostate.edu/admissions/grad-apply/) is required for admission into the choral graduate conducting program.

Master of Music, Instrumental Conducting Specialization  
This program is committed to musical excellence with a curriculum designed to build a well-rounded conductor/teacher, using the musical and personal strengths of the graduate conducting student. The program offers two options: the M.M., Choral Conducting Specialization, and the M.M., Instrumental Conducting Specialization; both of which require a two-year residency.

By the completion of the program, students develop advanced, personal conducting skills and techniques that are appropriate to a variety of musical needs. The student learns effective rehearsal techniques, score preparation, and becomes a knowledgeable scholar of important instrumental and choral scores representing a repertoire of various music periods and secular and sacred styles.

Master of Music, Music Education Specialization

This program is designed for elementary and secondary music teachers who already hold a K–12 state music-teaching license or the international equivalent. Specifically, this program is designed to inspire and develop the next generation of leaders in the field of music education by developing and applying scholarly research skills in the field of music education, the in-depth study of advanced pedagogical expertise, and the impact of contemporary learning theory on K–12 music education.

In this program, successful students have the opportunity to gain content knowledge regarding the history and philosophy of music education; an understanding of how quantitative, qualitative, and historical music research is conducted; advanced skills in music analysis and interpretation; and a contemporary understanding of the pedagogy of music teaching and learning. Students also have the opportunity to participate in CSU music ensembles to continue to develop as musical artists. Additionally, students are expected to be full-time students in residence and will likely be given the opportunity to teach or assist with undergraduate music education coursework depending upon level of expertise and program demands.

The degree coursework is designed to be completed over a time span of two years and includes both on-campus and online coursework. Students in this program are encouraged to take advantage of the diverse summer and/or online elective offerings.

All students in this program are strongly encouraged to undertake the plan A track, which involves one extra semester of coursework to write a thesis. The thesis distinguishes work in the program and prepares the student with the qualifications needed to pursue doctoral work later in the future. Plan B track students do not undertake a thesis.

### Master of Music, Music Education—Composition Specialization

The Master of Music in Music Education, Composition Specialization (MMECS) is intended as a professional degree with specialized training towards composing music for educational ensembles and incorporating composition, improvisation, and music theory into K-12 music classrooms. Students enrolled in the program produce original compositions for educational ensembles and have them performed publicly by student ensembles.

The degree option in music education with a specialization in composition is designed to provide music educators with the ability to apply compositional and arranging skills and the pedagogy of the creative process to the classroom in K-12 settings. This provides an option for a master’s degree in music education for students with an interest in composition, arranging, and the pedagogy of the creative process as opposed to the more traditional CSU graduate music education offerings of conducting, Kodály, instrumental, and choral.

### Master of Music, Music Education—Conducting Specialization

Classes in the Master of Music, Music Education - Conducting Specialization are designed for current middle school and high school choir, band, and orchestra directors who seek to further their personal knowledge and conducting skills while earning a master’s degree, completing most of their course work in three summers. The two-week conducting seminar (four credits each summer) includes daily conducting opportunities in all three disciplines with a workshop orchestra, band, and choir, providing further hands-on training. All participants learn to conduct in all three disciplines.

In addition, each student takes three, 3-credit academic classes (music history, analytical techniques, and music research), one 3-credit music education course (Foundations of Music Education), and three, 1-credit seminars on various topics of interest to music educators. These courses are either offered on campus during the summer or online during the school year.

The complete program consists of 30 credits. A maximum of six credits of academic courses can be transferred to the student’s graduate program from NASM-accredited universities pending approval by their advisor and the Graduate School (https://graduateschool.colostate.edu/).

Master of Music, Music Education—Kodaly Emphasis Option

The Master of Music, Music Education Specialization - Kodály Emphasis Option is a graduate program designed for elementary classroom music teachers, independent music instructors, and secondary music teachers interested in developing their teaching, conducting, musicianship, and depth of knowledge about music education.

One unique aspect of this program is that it enables students to earn national certification in Kodály music teaching through CSU's Colorado Kodály Institute while earning a master's degree. The Colorado Kodály Institute (CKI) is one of the select programs endorsed by the Organization of American Kodály Educators (https://www.oake.org/). CKI faculty are among the top experts in the United States, and the University Center for the Arts location, at the foothills of the Rockies, provides an inspiring setting for personal growth.

The degree is designed to be completed over a time span of three summers with a minimum of 30 total credits, with several online and/or evening courses required to be taken during the school year. Students have the option, therefore, of living remotely during the school year and traveling to Fort Collins for the core summer coursework. The majority of participants in this degree program teach either part or full-time during the school year, gaining relevant experience while pursuing the graduate degree. As a result, they are continually assimilating real-world teaching experiences into their academic coursework. The degree is officially conferred at the end of the fall semester following the term in which all course work has been completed.

Applicants are expected to be State-Licensed Music Teachers* and demonstrate excellent musicianship and interpersonal skills.

* Exceptions may be made by the Music Education area on a case-by-case basis.

A minimum of 30 credits are required to complete this program.

1. Specific courses will be approved by the student’s graduate committee. Students may be required to take additional course work as determined by diagnostic examinations and/or by their graduate committee.
2. Electives must be approved in advance by the student’s graduate committee. Workshops will not count as elective credits toward the degree program.

Master of Music, Performance Option

The Master of Music, Performance Option provides students with a comprehensive approach to the study and performance of music in multiple styles and idioms. The curriculum is designed to develop musicianship, technical proficiency, artistry, and cultural awareness in both performance and pedagogy as well as provide breadth of competence in supportive courses in theory, history, and repertory. Students study with one of CSU's outstanding applied music faculty members, culminating in a final degree recital at a professional level, and perform regularly in CSU's many performing ensembles, including symphony orchestra, wind symphony, jazz ensemble, opera, chamber choir, new music ensemble, and a variety of chamber ensembles.

The intent of this program is to prepare students with professional-level performing abilities and a knowledge of music theory, history, and pedagogy in order to be competitive in performing and teaching careers and to be lifelong advocates for the arts in their communities. Many graduates of this program advance to excellent doctoral programs at leading universities in the United States.

Performance areas include woodwinds, brass, percussion, harp, guitar, voice, piano, and organ. Please visit the “Areas” section of the music website (https://music.colostate.edu) for information about each studio.

**Program Total Credits:** 32

A minimum of 32 credits are required to complete this program.

1. Select course(s) with approval of advisor and graduate committee.
2. Majors in vocal performance are required to be proficient in Italian, German, and French singing diction as well as the use of International Phonetic Alphabet upon entering the program, or to take the appropriate coursework to make up deficiency as soon as possible. In addition, they should have academic proficiency in two of the following languages other than English: French, Italian, and German. The level of proficiency for each language must be equal to a grade of “B” or better.
3. Music literature course(s) will be in the student’s major instrument or voice. Course requirements include a paper, copies of which will be distributed to the graduate committee as a sample of the student’s scholarship.

### Master of Music, Plan B, Music Therapy Specialization

The Master of Music, Plan B, Music Therapy Specialization is intended to provide Board-Certified Music Therapists with advanced training in clinical skills and research. Our curriculum specializes in neuroscience and evidence-based music therapy to improve sensorimotor, speech and language, and cognitive function in children and adults who have disabilities. Specifically, the study of music therapy is designed to prepare music therapists for advanced clinical work in music therapy, as music therapy supervisors, administrators, and for teaching positions at the college or university level.

Two master’s curriculum tracks are offered: the first is a thesis program of 30 credit hours (Plan A) designed to provide students with the opportunity to complete a substantial research project. The second track is a 32-hour program (Plan B) that requires, in lieu of a thesis, additional course work in music therapy, a final project, and a common final exam. Either program prepares the student to pursue doctoral study. Our academic curricula meet the standards of the American Music Therapy Association (https://www.musictherapy.org/) and the National Association of Schools of Music (https://nasm.arts-accredit.org/).

Applicants are expected to be Board-Certified Music Therapists (or eligible to sit for the exam) and demonstrate excellent musicianship and interpersonal skills.

The Master of Music, Plan B, Music Therapy Specialization is offered on-campus (https://music.colostate.edu/music-therapy/) or online (https://www.online.colostate.edu/degrees/music-therapy/).
Ph.D. in Music Therapy

The Ph.D. in Music Therapy emphasizes research and scholarship, as appropriate for the music therapist who aspires to a career in research, college-level teaching, or advanced clinical practice. In this program, students engage in coursework that advances scholarship and helps to reach professional goals. Students are involved in groundbreaking research, with the opportunity to develop original research in an area of interest.

The degree is focused on three core areas:

- **Research Core**: Engages in coursework and collaborative research projects that are focused on advancing research skills. Opportunity to pursue original research.
- **Music Therapy Clinical Practice Core**: Further understanding of advanced clinical competencies, with an emphasis in evidence-based practices.
- **Academic Core**: In order to prepare for a future as an educator or supervisor in music therapy, Students engage in coursework focused on teaching and learning in higher education.

Credit Requirements

The Ph.D. in Music Therapy is comprised of 72 credits, of which 30 credits may be accepted from a prior master’s degree. Program credits include:

- 12-15 credits in each core area (research, clinical practice, academic) that are selected to prepare the student for future work in an academic, research, or advanced clinical position.
- 15 directed electives, which will be selected with the graduate committee to best meet the student’s needs and career goals. Subjects of study may include, but will not be limited to, neuroscience, music therapy methods, research methods, statistics, teaching methods, and developmental science.
- The program will culminate with a final exam and completion of a substantial piece of original research.

A minimum of 72 credits are required to complete this program.

### Major in Theatre

Dr. Megan Lewis, Director

Student performing artists find a welcoming place of study in the School of Music, Theatre, and Dance.

At CSU, faculty, staff, and professional guest artists — all with extensive experience on stages ranging from Broadway to regional theatres, and worldwide — provide students an experienced lens through which to study every aspect of theatre, including the theory and practice of acting, singing, theatrical design, stage management, technical theatre, dramaturgy, dramatic criticism, storytelling, and playwriting.
Upon admission to CSU and declaration of the Bachelor of Arts in Theatre major, students choose one of three concentrations: General Theatre, Performance, or Design and Technology. No matter which concentration is selected, the program provides students with fundamental skills and experiences in theatre within a liberal arts context, preparing students for graduate study in theatre, and/or potential employment opportunities in a variety of fields related to theatre, film, and other creative endeavors.

As a theatre major, students will be challenged academically and artistically with a wide range of performance opportunities and occasions to collaborate across the School of Music, Theatre, and Dance on a shared theatrical vision.

Comprehensive training occurs in classrooms, labs, shops, rehearsal studios, and in annual productions of plays, musicals, operas, dance concerts, and special events, produced by a company of student actors, directors, designers, and technicians under the mentorship of our professional faculty and staff. These outstanding artists and technicians provide small class sizes and individualized teaching and advising, providing students with opportunities to succeed from their first day on campus.

**Concentrations**
- Performance Concentration
- Design and Technology Concentration
- General Theatre Concentration (No new students are being accepted to this concentration.)

**Major in Theatre, Design and Technology Concentration**
Stage and laboratory are synonymous at CSU as students, supported by a faculty and staff of working professionals, learn to apply artistic approaches and industry practices in all areas of design and production.

Students take foundational courses in set design, costume design, lighting design, sound design, projection design, and stage management, exploring their ideas in the classroom as well as production on plays, musicals, operas, music events, and dance concerts.

This interdisciplinary and collaborative concentration is geared towards creative and imaginative, open-minded individuals with a drive for excellence. Many design and technology students work in multiple areas and most shows are designed and stage managed by undergraduate students from all disciplines, typically adding four shows to their portfolios each year.

Design and Technology students have five world-class venues plus multiple labs and shops available for their use, including a design lab, CAD Lab, scene shop, paint shop, costume shop, sound/video editing lab, lighting lab, and acting labs.

**Major in Theatre, General Theatre Concentration**

No new students are being accepted into this program of study.

Generalists explore a selection of courses from both the performance concentration and the design and technology concentration, within the context of the liberal arts. Students emerge as well-rounded, renaissance artists and technicians who begin to develop an artist's aesthetic and world-view. Through real-time production experiences, students learn to think critically and creatively, adapting to the rapid-paced, high-energy world of the performing arts. Students develop the confidence, skills, portfolios, and industry connections needed to pursue a broad base of
careers in the performing arts and other disciplines, or pursue further study at the graduate level.

Major in Theatre, Performance Concentration

CSU Theatre's Performance Concentration equips students with the skills needed to pursue a variety of fields related to their own creative and professional paths. Engaged with their passion and imagination, young performers receive rigorous training in text analysis, acting technique, movement, voice and speech, emotional expression, and critical thinking. In the process of understanding theatre, they make visceral connections between the physical, emotional, and scholarly as they harness their own stories and artistic vision.

The concentration emphasizes both the theoretical and practical aspects of theatre, and focuses on developing well-rounded, responsible artists, leaders, and communicators who value collaboration within an artistic community.

Major in Philosophy

Philosophy is the oldest form of systematic, scholarly inquiry. It is the study of the most basic moral, legal, aesthetic, religious, and metaphysical ideas by which we pursue understanding and develop principles of conduct. Philosophers seek to establish standards of evidence, provide rational methods of conflict resolution, establish criteria for just social orders, and create techniques for evaluating ideas and arguments.

The study of philosophy broadens and intensifies liberal education while enhancing interpretive abilities in many fields. The curriculum encourages a broad liberal arts background, including courses in foreign languages, and a plan for graduate school and teaching careers in philosophy. The broad relevance of philosophy to other fields permits most students to work toward goals such as professional training in law, medicine, business, or theology. There are three concentrations available to Philosophy majors: General Philosophy; Global Philosophies and Religions; and Philosophy, Science and Technology. It is not unusual for Philosophy majors to second-major in other disciplines, and these concentrations combine easily with other majors at CSU.

Student Learning Outcomes

Outcome 1: Critical Thinking

Students will recognize, construct, and evaluate arguments and alternative positions by correctly applying logical standards and methodology, demonstrating the ability to identify underlying assumptions, ambiguous or contested terms, and potential objections to a thesis.

Outcome 2: Content Knowledge

Students will demonstrate knowledge of major questions, arguments, problems, and figures from a variety of philosophical areas and traditions.

Outcome 3: Reading and Research

Students will develop the interpretive, analytical, and conceptual skills to read with understanding a variety of philosophical texts. Students will be able to assess the quality and relevance of a variety of sources (books, journal articles, etc.) and use these sources in their own research and writing.

Outcome 4: Communication

Students will clearly articulate ideas and arguments in writing and oral communication. Students will demonstrate competence in interpretive, analytical, and argumentative writing. They will effectively present their own ideas and research in oral communication and writing. Students will engage in open, thoughtful, and respectful dialogue.

Outcome 5: Values and Attitudes

Students will demonstrate cognitive flexibility by applying alternative possibilities and conceptual frameworks to their own and others’ ideas and values. They will demonstrate intellectual curiosity in their pursuits of truth and meaning. They will engage in reflective inquiry and aim to achieve a greater understanding of their subject matter.

Potential Occupations

A major in philosophy prepares students for a wide variety of professional aspirations, including graduate study in philosophy or other disciplines; training in law, computer technology, social work, health care, the ministry, business; and general intellectual flexibility in a changing world. The high level of skill that philosophy majors acquire in communication, writing, and analytical and critical thinking enables them to secure jobs in a variety of private and public sector professions and to become leaders in their fields.

Depending on the major concentration that a student pursues, available career opportunities include, but are not limited to: public policy analyst, business manager, public administrator, computer programmer, intelligence officer, legislator, teacher, foreign diplomat, social worker, community developer, philanthropic organizer, physician, lawyer, researcher, writer, theologian, human resources manager, publisher, and ethics consultant, in a variety of fields, e.g., in medicine, business, law, public administration, non-profit administration, engineering, and the sciences.

Concentrations

- General Philosophy Concentration
- Global Philosophies and Religions Concentration
- Philosophy, Science, and Technology Concentration

Minor in Philosophy

Philosophy is the study of the most basic moral, legal, aesthetic, religious, and metaphysical ideas by which we pursue understanding and development of principles of conduct. Philosophers seek to establish standards of evidence, provide rational methods of conflict resolution, establish criteria for just social orders, and create techniques for evaluating ideas and arguments. The minor in Philosophy is intended to broaden students’ education and to complement and encourage critical and constructive reflection in other courses.

Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Students are required to receive at least a C (2.000) in each Philosophy course required for the Minor in Philosophy.

Certificate in Ethics and Society

The Certificate in Ethics and Society aims to provide students with a broad background in ethics and social philosophy. The objective of the certificate is for students to competently navigate questions of social and ethical values on a wide range of issues. The program is structured to foster a deep understanding of both the theoretical foundations and the practical applications of ethics. By allowing choice from a wide range of courses in ethics, the certificate provides students the opportunity to gain experience making and assessing value judgments on a variety of important social issues or to focus on the particular issues most relevant to their major or their area of interest. The certificate is open to students in any major or minor.

Master of Arts in Philosophy, Plan A

The Department of Philosophy offers courses of study that lead to a Master of Arts in Philosophy. Master’s students can specialize in applied ethics, particularly animal welfare and environmental ethics; comparative philosophy; ethical theory; history of modern philosophy; metaphysics; aesthetics; or epistemology. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Philosophy. (http://philosophy.colostate.edu/)

Learning Outcomes for the Master of Arts in Philosophy, Plan A

Outcome 1: Critical Thinking Skills
Recognize, evaluate, and construct arguments in a way that correctly applies logical methodology and evaluative standards and demonstrates an ability to identify underlying assumptions, ambiguous or contested terms, and potential objections to a thesis.

Outcome 2: Content Mastery
Explain, orally or in writing, the current state of knowledge and research, referencing the major works and positions in the field, on topics within three areas of philosophy: (1) value theory, broadly construed; (2) metaphysics, epistemology, and related fields; and (3) history of philosophy.

Outcome 3: Research Skills
Conduct independent research on a philosophical topic, identifying the major texts, positions, and arguments concerning that topic.

Outcome 4: Writing Skills
Write an original philosophical paper that contributes to knowledge in some field of philosophical study and is of sufficient quality to be presented at a professional conference or published in a professional journal.

Outcome 5: Oral Communication Skills
Give an oral presentation that clearly and effectively explains philosophical arguments, issues, and positions in a manner demonstrating a broad competency in the field.

Major in Political Science

Political science is the study of politics and political action in society. It encompasses international agreements and organizations as well as the patterns of political action which both create and shape them. It encompasses citizen action and the institutions which produce public policy at the local, state, and national levels within the United States. It encompasses systems of voting, political parties, and courts, compared across national political systems. It encompasses the raising of normative questions about the nature and purposes of political life. The presence of politics is felt in all areas and sectors of society at all times. The dynamic and transformative effects of political action are seen virtually everywhere.

The department's curriculum is distributed across five subfields of the discipline: American politics, political theory, comparative politics, international relations, and public policy. Course work across the discipline’s subfields is complemented by a required support option. Support options include a minor in another department; an interdisciplinary minor; the second language support option; the methods support option, or a second major.

Learning Outcomes

Students majoring in Political Science shall demonstrate the following:

- Ability to reason through political claims and assertions by political actors
- Skill in recognizing and responding to diverse ideological perspectives
- Ability to locate political issues and controversies within their relevant institutional and historical contexts
- Familiarity with the institutional processes of politics in numerous global and domestic political arenas
- Confidence in expressing opinions and presenting analyses of political problems and their solutions
Accelerated Program

The major in Political Science includes an accelerated program option (https://provost.colostate.edu/accelerated-programs/) for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (https://summer.colostate.edu/). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (https://provost.colostate.edu/accelerated-programs/).

Potential Occupations

The major in Political Science, like all studies in the liberal arts, provides students with a broad academic background that is serviceable across a broad spectrum of employment in the public and private sectors. Political Science majors are trained to be independent and critical thinkers; to be discerning and active observers and listeners; to communicate persuasively; to constructively engage and solve intellectual and practical problems; to adapt and function effectively in a number of distinct occupational and institutional settings; to function comfortably in a multiethnic, multinational, and globalizing society. The employment profiles of departmental alumni attest to the breadth of possibilities for today’s graduates: public and non-profit organization managers, prosecutors, public policy analysts and consultants, federal law enforcement agents, legislators and legislative analysts, foreign service officers, private attorneys, demographers, criminal investigators, advertising specialists, urban regional planners, environmental policy analysts, state budget analysts, public relations representatives, market researchers, elementary and high school teachers, international businessmen and businesswomen, lobbyists, novelists, construction industry managers, insurance agents and managers, financiers, and real estate brokers. Some graduates join professions following advanced study in law, international relations, area studies, public administration, public policy analysis, and business management.

Concentrations

Students may complete the general Political Science major or select one of the following concentrations for a more specialized course of study.

- Environmental Politics and Policy Concentration
- Global Politics and Policy Concentration
- U.S. Government, Law, and Policy Concentration

For further information on declaring the Major in Political Science, please schedule an appointment with a College of Liberal Arts Academic Success Coordinator by calling 970-491-3117 or visit Clark C 207.

Requirements

Effective Fall 2018

Political science majors must achieve a minimum grade of C (2.000) in each of the political science (POLS) courses counted toward meeting the requirement of the major.

Political Science, Upper-Division

At least 24 credits of upper-division political science courses must be completed for the major. The 24 credits include the senior capstone course, POLS 492, at least 3 credits of AUCC 4A and 4B in addition to POLS 492, and at least one upper-division course in each of the following five subfields.

Major in Political Science, Environmental Politics and Policy Concentration

The Environmental Politics and Policy concentration is designed to help students develop the knowledge and skills to analyze the connections between politics and the natural world, and pursue careers in environmental politics and policy-making. Students will learn about how political forces contribute to environmental degradation, the process for developing environmental policies, strategies to assess the strengths and weaknesses of different policy approaches, and how political forces can be harnessed to develop effective responses to problems such as climate change, water and air pollution, food security, and energy provision. Students will explore these issues from both domestic and global perspectives. Environmental Politics and Policy students are strongly encouraged to complete an internship to gain practical experience working in the field.

Learning Outcomes

Students majoring in Political Science shall demonstrate the following:

- Ability to reason through political claims and assertions by political actors
- Skill in recognizing and responding to diverse ideological perspectives
- Ability to locate political issues and controversies within their relevant institutional and historical contexts
- Familiarity with the institutional processes of politics in numerous global and domestic political arenas
- Confidence in expressing opinions and presenting analyses of political problems and their solutions

Potential Occupations

Graduates may work as policy analysts, advocates, planners, educators or decision-makers in government agencies, non-profit organizations, businesses and consulting firms at the local, state, national and international levels.

For further information on declaring the Major in Political Science, Environmental Politics and Policy Concentration, please schedule an appointment with a College of Liberal Arts Academic Success Coordinator by calling 970-491-3117 or visit Clark C 207.

1. Select a minimum of 12 upper-division (300- to 400-level) credits to fulfill Tier Four. Sophomores may take only 300-level courses from this section. Students may substitute a maximum of 3 credits in one of two ways: 1. from non-POLS specified courses shown above in the program; 2. by petitioning the advisor to include a non-POLS upper-division course when at least fifty percent (50%) of the course material and grading are related to environmental politics and policy. A course syllabus will be required for this option.

2. Courses selected to fulfill Tier Three requirements may not also fulfill Tier Four requirements, and vice versa.

3. Sophomores may take only 300-level Tier Three courses.

4. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

5. Students must complete one upper-division course in each of four of the five departmental subfields (American Politics, Political Theory, International Relations, Comparative Politics, and Public Policy and Administration) prior to taking POLS 492.

**Major Completion Map**

**Distinctive Requirements for Degree Program:**

Political science majors must achieve a minimum grade of C (2.000) in each of the political science (POLS) courses counted toward meeting the requirement of the major.

Upper-Division course in at least four subfields of Political Science required to register for POLS 492.
