

Field of Study Restriction Code Listing for CLSS

This is a listing of currently active field of study codes to use in the field of study restriction area. You can search this document for what you are looking for, or to narrow your options.

An important note: some codes vary based on if it is a concentration, specialization, major or minor. Use the Title column to identify which type is associated. A quick reference to help is that Minors end in "Q" and concentrations/specializations end in "Z"

You will also note that the College is listed on the far left, and on the far right are the levels (graduate and undergraduate) most commonly associated with this chosen code.
